General Points – Other	Pg.2357

General Points on Whole PDP

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Peter Kelly	16.1	Whole PDP / Whole PDP / Whole PDP	Support	Councillors have a democratic mandate to balance the interests of WCC residents against the important natural environment values represented by significant natural areas (SNAs). The Proposed Rules are essentially the Officer Draft Rules, but with the SNA designation removed from all residential zoned land. Requests that if SNAs are returned to residentially zoned land, the provisions in the draft District Plan are reinstated and fine-tuned.	If the Proposed District Plan is amended to allow Significant Natural Areas on residentially zoned land: Seeks that the proposed District Plan gives effect to paragraph 6 of the amendment in the name of Councillors Jenny Condie and Rebecca Matthews.
Lizzie Waugh	30.1	Whole PDP / Whole PDP / Whole PDP	Support	Supports higher density housing in Newtown.	Retain as notified.
Brendon White	36.1	Whole PDP / Whole PDP / Whole PDP	Support	Supports the changes in the PDP that allow more intensification for the reasons of - housing affordability - climate change - productive land use	Retain intensification provisions as notified.
New Zealand Agricultural Aviation Association	40.1	Whole PDP / Whole PDP / Whole PDP	Not specified	Restrictive district plan requirements can adversely affect the ability of aerial operators to undertake and respond (particularly to biosecurity and biosecurity threats.	Seeks that the use of airstrips and helicopter landing areas for agricultural aviation activities on an intermittent basis are adequately provided for in the Proposed District Plan.
Paul Burnaby	44.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that Council should provide heritage incentives to encourage the appropriate recognition and protection of places of historic heritage value. The following are examples to indicate the types of incentives, and is certainly not meant to be exhaustive, as there are many incentives that may be open to Council: (a) Enabling Transferrable Development Rights (TDRs) for owners of historic heritage places (b) Providing a 'fast-track' process for proposed development where a Conservation Plan has been prepared and provided for a historic heritage place, and where the Conservation Plan has been used to guide the proposed development.	Seeks that Council provide heritage incentives to encourage the appropriate recognition and protection of places of historic heritage value.
Robert and Chris Gray	46.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that growth estimates are a key component to a successful plan. It is unclear what the final impact of Covid and the new working landscape will have on the city.	Seeks that the Council split the 30 year District Plan into three 10 year stages to allow for reviewed and updated population growth estimates every 10 years.
Robert and Chris Gray	46.2	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that critical mass is required to preserve character and that WCC officers' recommended character precincts in Mt Victoria, guided by the Boffa Miskell Report, were reduced significantly with reasons for this decision not clear.	Seeks clarification as to why the character areas were reduced in size.
Robert and Chris Gray	46.3	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that a number of empty office buildings will be suitable for converting to residential and that this could be attractive to students among others.	Seeks that the Council split the 30 year District Plan into three 10 year stages to allow for reviewed and updated population growth estimates every 10 years.
Grant Birkinshaw	52.2	Whole PDP / Whole PDP / Whole PDP	Oppose	Considers that the District Plan Review is overly complex, and becomes less a document for the public use, and more one requiring professional (and expensive) advice to use. The District Plan Review is a discouragement of public participation in what should be a democratic instrument. The evolution of District Plans has deteriorated to this extent and requires a fresh approach.	Opposes the District Plan Review in its entirety.
Grant Birkinshaw	52.3	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the District Plan review, as notified, should be reassessed to become a more user friendly public document.	Seeks that the District Plan Review process be reassessed to become a more user friendly public document.
Heritage New Zealand Pouhere Taonga	70.1	Whole PDP / Whole PDP / Whole PDP	Support in part	Acknowledges the differentiation between historic heritage and character precincts, even though there is some overlap with some character precincts also being identified as heritage areas, or containing heritage buildings.	Not specified.
Aro Valley Community Council	87.1	Whole PDP / Whole PDP / Whole PDP	Not specified	The Aro Valley Community Council does not believe that the PDP understands or adequately responds to a number of important considerations (sunlight, aging infrastructure, character homes, wellbeing for community members particularly marginalised peoples). Considers HRZ zoning is inappropriate and some sites should retain character protection provided by the ODP. Considers that while intensification is important, it should not be at the expense of fundamentals such as biodiversity, sunlight and human scale.	Seeks site specific changes to zoning.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Aro Valley Community Council	87.2	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that sunlight is scarce in Aro Valley and further losses of this will be unacceptable. Sunlight is a key component of health and wellbeing and it the Council's responsibility to protect and promote community wellbeing.	Seeks site specific changes to zoning.
Aro Valley Community Council	87.3	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that any increase in population density must be accompanied by, and increase, sunny and accessible open space.	Not specified.
Te Herenga Waka Victoria University of Wellington	106.2	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the term 'cannot be achieved' implies the standard must be complied with unless it is impossible to do so and should be changed to 'is not achieved' throughout the entirety of the Proposed District Plan. Amending the language to 'is not achieved' reflects language used in district plans elsewhere in the country and provides greater consenting flexibility for when permitted activity standards are not met.	Seeks that all instances of 'cannot be achieved' in the Proposed District Plan are changed to 'is not achieved'.
Oliver Sangster	112.3	Whole PDP / Whole PDP / Whole PDP	Support	Supports general thrust of the plan to increase density in neighbourhood areas	Retain growth approach of intensification.
Victoria University of Wellington Students' Association	123.4	Whole PDP / Whole PDP / Whole PDP	Support	Supports all moves towards higher density housing. Significant housing supply increases are necessary and effective in improving housing affordability. Higher density housing is more sustainable, affordable, and resource-efficient approach, and promotes connectivity within the city.	Seeks that all moves towards higher density housing are supported. [Inferred decision requested].
Victoria University of Wellington Students' Association	123.5	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the PDP is not ambitious enough with regard to sustainability, resilience, and climate change and does not adequately recognise that we are in a climate emergency.	Seeks that the proposed District Plan should refer to the 2022 Intergovernmental Panel on Climate Change (IPCC) Summary for Policymakers report, and plan and revise the District Plan, as a living document, with the specific warnings for these time frames in mind – particularly focusing on preparing for long-term consequences.
Victoria University of Wellington Students' Association	123.6	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that the IPCC <i>Summary for Policymakers</i> explains that in terms of adaptation and preparation for climate change, lower income population groups will suffer most from adaptation gaps. [Refer to original submission for full reasons]. Considers that WCC should take full heed of the IPCC warning and plans now in order to protect the most vulnerable communities in the future. Increasing climate resilience in Pōneke Wellington looks like addressing poverty. The needs of the private sector are often over-represented in city planning and development plans, however to improve climate resilience and social justice, vulnerable communities need to be at the front and centre of plans and city design.	Seeks that the District Plan should support the creation and maintenance of affordable, warm, dry and safe housing, infrastructure and spaces that support community-building and inclusion, improving shelter conditions, and more.
Airbnb	126.3	Whole PDP / Whole PDP / Whole PDP	Support	Supports the permitted status for visitor accommodation in all zones.	Retain provisions providing for visitor accommodation as an Permitted Activity in the PDP as notified. [Inferred decision requested].
Airbnb	126.4	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that home sharers must also be good neighbours and take the issues of managing wrongdoers seriously. This is why we are eager to work with governments and communities on policies that address amenity concerns and have supported frameworks to resolve issues. [Refer to original submission for full reasons].	Seeks that a standardised approach is utilised to assess impacts on amenity values from visitor accommodation activities.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Precinct Properties New Zealand Limited	139.1	Whole PDP / Whole PDP / Whole PDP	Support	Generally supports the aims of the PDP. In particular Precinct Properties supports the following features and objectives of the plan: (a) the creation of well-functioning urban environments (consistent with the direction set out in the National Policy Statement on Urban Development 2020 (NPS@UD)); (b) the provision of sufficient development capacity to meet long term demands for housing and business land; (c) the provision of a compact urban form and urban intensification; and (d) the hierarchy of centres, and the recognition of the City Centre as the primary centre serving the wider Wellington region.	Not specified.
Precinct Properties New Zealand Limited	139.2	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that it is not appropriate that the Council's discretion is restricted to all matters in the Design Guide. This does not give any clear direction or certainty for applicants, and would be onerous for the preparation and assessment of resource consent applications. Rather than being formally incorporated into the District Plan, the design guides should be reference documents that sit outside the District Plan. Incorporating the design guides into the district plan elevates these provisions into the form of standards, rather than what they are intended to be as guidance.	Seeks that all direct references to the design guides in the Proposed District Plan provisions are deleted and replaced with references to the specific design outcomes that are being sought.
John Tiley	142.1	Whole PDP / Whole PDP / Whole PDP	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the following wording ('Protects the natural ridge top around the Upper Stebbings Valley to provide a natural backdrop to Upper Stebbings and Tawa valleys and a connected reserves network') is typical of dealing with all ridgelines.
Andy Foster	FS86.24	General / Whole PDP / Whole PDP / Whole PDP	Oppose	Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide. [See original Further Submission for full reasoning]. [Inferred reference to submission 142.1].	Allow
Andy Foster	FS86.30	Part 2 / Natural and Environmental Values / Natural Features and Landscapes / NFL-P1	Oppose	Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide. [See original Further Submission for full reasoning]. [Inferred reference to submission 142.10].	Allow
Grant Buchan	143.4	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the Spatial Plan was agreed through a robust process and it is inappropriate to re-litigate character protections/height limits.	Seeks that where character protections or height limits have been imposed over the Spatial Plan recommendations, these are removed.
Grant Buchan	143.5	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that where restrictions in the Spatial Plan are inconsistent with the NPS-UD and MDRS they should be removed, even if these were present in the Spatial Plan.	Seeks that height limits inconsistent with the NPS-UD (National Policy Statement on Urban Development) are removed.
Matthew Gibbons	148.2	Whole PDP / Whole PDP / Whole PDP	Support	Considers there should be increased densification throughout Wellington, including in Character Precincts.	Supports the Proposed District Plan provisions that enable intensification.
Amos Mann	172.6	Whole PDP / Whole PDP / Whole PDP	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that easier consenting and incentives for accessible and eco-friendly developments are provided for.
Amos Mann	172.7	Whole PDP / Whole PDP / Whole PDP	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the District Plan prioritises emissions reduction, better quality of life, and community cohesion and resilience.
Amos Mann	172.8	Whole PDP / Whole PDP / Whole PDP	Not specified	Supports integrating circular economy principles into the District Plan.	Seeks that waste is minimised and designed out of construction projects, and that resource recovery infrastructure is put in place to manage any remaining waste.
Amos Mann	172.9	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that green space should be recreational, food producing, and support biodiversity. Community gardens and green stormwater infrastructure should maximise their value across all these outcomes.	Seeks that the District Plan supports the creation of a sustainable and resilient local food and biodiversity network system.
Amos Mann	172.10	Whole PDP / Whole PDP / Whole PDP	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that Tangata Whenua and Te Tiriti are placed at the core of planning.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Historic Places Wellington	182.2	Whole PDP / Whole PDP / Whole PDP	Support	Supports provisions of the PDP aimed at planning for a capital city that is compact, resilient, energetic, prosperous, inclusive, connected, green, and partnered with mana whenua.	Not specified.
Churton Park Community Association	189.1	Whole PDP / Whole PDP / Whole PDP	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the following wording ('Protects the natural ridge top around the Upper Stebbings Valley to provide a natural backdrop to Upper Stebbings and Tawa valleys and a connected reserves network') is typical of dealing with all ridgelines.
Andy Foster	FS86.35	General / Whole PDP / Whole PDP / Whole PDP	Oppose	Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide. [See original Further Submission for full reasoning]. [Inferred reference to submission 189.1].	Allow
Chris Howard	192.7	Whole PDP / Whole PDP / Whole PDP	Oppose	Opposes the Proposed District Plan for the following reasons: - Considers that it ignores that there are numerous streets in greater Wellington that contain well maintained, character, semi-heritage buildings that are predominantly single storey. -considers that the plan does not enable residential intensification that is carefully tailored to avoid destroying the widespread special character that exists across many of the city's well-established suburbs. - considers the plan risks being highly damaging to local character and the city's unique beauty and liveability. - considers the plan risks unnecessarily fragmenting neighbourhood cohesion, due to development fairness inequity - one size fits all approach to intensification across Wellington in not appropriate across our varied property sections and suburbs. [Refer to original submission for full reason]	Seeks that the Council urgently undertake an updated section-by-section, and street-by-street review of all areas in their draft spatial plan to determine what level of intensification is contextually appropriate for a given section or area.
Lower Kelburn Neighbourhood Group	FS123.11	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that upzoning heights on swathes of housing is very 'destructive'. Considers high rise sites need to be carefully and individually selected according to topology with pockets of intensity if sites allow.	Allow
Antony Kitchener and Simin Littschwager	199.2	Whole PDP / Whole PDP / Whole PDP	Oppose in part	Opposes the parts of the PDP where the northern suburbs of Crofton Downs, Ngaio and Khandallah are sacrificed for densification.	Not specified.
Angus Hodgson	200.3	Whole PDP / Whole PDP / Whole PDP	Support	Supports provision of more housing through increased height limits across more of Wellington City.	Not specified.
Wellington City Youth Council	201.7	Whole PDP / Whole PDP / Whole PDP	Not specified	[No specific reason given beyond decision requested - refer to original submission]	Seeks that Council actively seek and actively listen to voices of mana whenua.
Wellington City Youth Council	201.8	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers the importance of Councils partnership with mana whenua throughout the decision making process. Considers that Iwi resources are often stretched by demands of crown authorities. Considers the importance of tools such as apū/Iwi Resource Management Plans	Not specified.
Wellington City Youth Council	201.9	Whole PDP / Whole PDP / Whole PDP	Not specified	[No specific reason given beyond decision requested - refer to original submission]	Seeks that Council use its resources in partnership with local iwi to provide for papakāinga housing, marae, and Māori customary and commercial activities to support the social, cultural, and economic wellbeing of tangata whenua across Te Whanganui-a-Tara.
Te Rūnanga o Toa Rangatira	FS138.16	General / Whole PDP / Whole PDP / Whole PDP	Support	The submitter seeks that Council use its resources in partnership with local iwi to provide for papakāinga housing, marae, and Māori customary and commercial activities to support the social, cultural, and economic wellbeing of tangata whenua across Te Whanganui-a-Tara. Te Rūnanga o Toa Rangatira support this submission because Wellington City Council should partner with tangata whenua across Te Whanganui a Tara to support tino rangatiratanga.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington City Youth Council	201.10	Whole PDP / Whole PDP / Whole PDP	Not specified	[No specific reason given beyond decision requested - refer to original submission]	Seeks that barriers to tangata whenua exercising kaitiakitanga over their ancestral lands are removed.
Te Rūnanga o Toa Rangatira	FS138.17	General / Whole PDP / Whole PDP / Whole PDP	Support	The submitter seeks that barriers to tangata whenua exercising kaitiakitanga over their ancestral lands are removed. Te Rūnanga o Toa Rangatira support this submission because removing barriers for tangata whenua to exercise kaitiakitanga will support tino rangatiratanga.	Allow
Wellington City Youth Council	201.11	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the plan is implemented alongside mana whenua to protect sites of spiritual and cultural significance from the impacts of climate change and pollution.
Te Rūnanga o Toa Rangatira	FS138.18	General / Whole PDP / Whole PDP / Whole PDP	Support	The submitter seeks that the plan is implemented alongside mana whenua to protect sites of spiritual and cultural significance from the impacts of climate change and pollution. Te Rūnanga o Toa Rangatira support this submission because implementing the plan alongside mana whenua is key to partnership and also will ensure that sites of significance are protected.	Allow
Wellington City Youth Council	201.12	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the consenting process is improved to support in-fill developments overcome logistical and delay challenges.
Wellington City Youth Council	201.13	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that mixed use residential and commercial areas along public transport lines is encouraged to facilitate shorter trips for climate and wellbeing and better accessibility.
Wellington City Youth Council	201.14	Whole PDP / Whole PDP / Whole PDP	Support	[No specific reason given beyond decision requested - refer to original submission]	Supports increase of density in existing urban areas.
Wellington City Youth Council	201.15	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that PDP should employ environmentally friendly urban planning techniques. This including - but not limited to - Creating neighbourhoods that are more walkable, less car-centric, and have direct access to public transport lines, in addition to recreational community spaces with green amenities.	Seeks that PDP promotes environmentally friendly urban planning techniques such as creating neighbourhoods that are more walkable, less car-centric, and have direct access to public transport lines, in addition to recreational community spaces with green amenities.
Wellington City Youth Council	201.16	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that increasing housing supply, climate resilience and designing a city that meets the needs of its people, in partnership with mana whenua, is paramount.	Not specified.
Avryl Bramley	202.3	Whole PDP / Whole PDP / Whole PDP	Oppose	<p>Considers that the PDP's assumption of 50,000 - 80,000 population increase by 2050 is incorrect and is more likely to be 28,000.</p> <p>A number of issues are raised regarding whether:</p> <ul style="list-style-type: none"> - this figure been subjected to, or does the possibility exist of, bias, manipulation, control or corruption by parties who stand to benefit from the extreme intensification whilst possibly bearing few of the costs. - extreme intensification, particularly in multi story residential, would result in sale to non residents and an increase in "nobody home" buildings as seen overseas. - the figure would enable a large part of the dwellings in the city to fall under the control of the "corporate landlord" with the downstream negative effects of monopoly rents or use as de-facto hotels like Berlin. - independent arms length increases were not used as per Statistics NZ, - how this proposed level of population increase can be seen as filling any green objectives whatsoever. - how this serves and embraces TOW principles and needs, - how democratic is it for one set of Councillors in a single 3 year term to set such a high track for a horizon of 30 years and 10 future councils. <p>[Refer to original submission for full reason]</p>	Seeks the removal of all elements of the PDP that are relying on the assumption of 50,000 - 80,000 population growth by 2050.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Avryl Bramley	202.4	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that the PDP's assumption of 50,000 - 80,000 population increase by 2050 is incorrect and is more likely to be 28,000.</p> <p>A number of issues are raised regarding whether:</p> <ul style="list-style-type: none"> - this figure been subjected to, or does the possibility exist of, bias, manipulation, control or corruption by parties who stand to benefit from the extreme intensification whilst possibly bearing few of the costs. - extreme intensification, particularly in multi story residential, would result in sale to non residents and an increase in "nobody home " buildings as seen overseas. - the figure would enable a large part of the dwellings in the city to fall under the control of the "corporate landlord" with the downstream negative effects of monopoly rents or use as de-facto hotels like Berlin. - independent arms length increases were not used as per Statistics NZ, - how this proposed level of population increase can be seen as filling any green objectives whatsoever. - how this serves and embraces TOW principles and needs, - how democratic is it for one set of Councillors in a single 3 year term to set such a high track for a horizon of 30 years and 10 future councils. <p>[Refer to original submission for full reason]</p>	Seeks amendment to all elements of the PDP reliant on population growth figures to base the growth on an assumption of 28,000 by 2050.
Avryl Bramley	202.5	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that the PDP's assumption of 50,000 - 80,000 population increase by 2050 is incorrect and is more likely to be 28,000.</p> <p>A number of issues are raised regarding whether:</p> <ul style="list-style-type: none"> - this figure been subjected to, or does the possibility exist of, bias, manipulation, control or corruption by parties who stand to benefit from the extreme intensification whilst possibly bearing few of the costs. - extreme intensification, particularly in multi story residential, would result in sale to non residents and an increase in "nobody home " buildings as seen overseas. - the figure would enable a large part of the dwellings in the city to fall under the control of the "corporate landlord" with the downstream negative effects of monopoly rents or use as de-facto hotels like Berlin. - independent arms length increases were not used as per Statistics NZ, - how this proposed level of population increase can be seen as filling any green objectives whatsoever. - how this serves and embraces TOW principles and needs, - how democratic is it for one set of Councillors in a single 3 year term to set such a high track for a horizon of 30 years and 10 future councils. <p>[Refer to original submission for full reason]</p>	Seeks that any intensification through the district plan only accounts for population increase over the lifespan of the PDP (10 - 15 years).
Richard Murcott	FS71.1	General / Whole PDP / Whole PDP / Whole PDP	Support	<p>The District Plan is has a ~10yr planning horizon. It needs to focus on anticipated needs for this period and some 'strategic' guesswork (for infrastructure investment). Currently, the PDP appears to be overreaching regarding residential 'intensification'. Recent data from StatsNZ and other authoritative sources suggest that some planning assumptions may be seriously flawed. To the extent that some of the potential sacrifices proposed this decade are avoidable. Plus, the PDP is biased toward a laissez-faire, permissive planning approach; allowing intensification at nearly any cost (or profit), rather than a firm focus on community desires for cohesive, liveable environments, achieved by a rigorous and reliable (no surprises) planning approach, underpinned by a vision for a liveable city by design, rather than by luck.</p>	Allow
Avryl Bramley	202.6	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that Wellington has many natural hazards and that intensification beyond 1 - 2 stories is a bad idea because of this.</p> <p>[Refer to original submission for full reason]</p>	Seeks the removal of any clauses or zoning that increase intensification beyond 1-2 low rise stories.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Avryl Bramley	202.7	Whole PDP / Whole PDP / Whole PDP	Amend	Considers the current national legislation banning sales of residential standalone dwellings. [Refer to original submission for full reason]	Seeks the addition of provisions banning the sale of any multi level dwelling or residence to non residents owners.
Halfway House Heritage Gardeners	203.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the application of a recession plane standard to sites adjoining scheduled heritage will to some extent avoid the adverse effects of visual dominance which can arise when new buildings are out of scale with the existing environment [Refer to original submission for full reason].	Seeks that all sites adjoining a scheduled historic heritage item or scheduled historic heritage site/building or Historic Reserve should be subject to the Height In Relation To Boundaries (HIRB) variation of 3 metres and 45 degrees.
Graham Spargo	211.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that Councillors face exposure to liability under section 43 (1) (a) of the Local Government Act due to decisions made on housing density. Considers that the evaluation process for the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act 2021 was poor and that Councillors have a responsibility to consider that. Considers that Councillors owe a duty of care to be fully informed as to foreseeable consequences of implementing '3 stories, 50% coverage' provisions in the PDP. This will lead to property market decline, and therefore exposure to liability under section 43 (1) (a). [Refer to original submission for full reason]	Seeks the removal of "3 storey, 50% site coverage everywhere" provisions in the PDP.
Graham Spargo	211.2	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks the addition of good planning practice assessments based on infrastructure availability, built form character and heritage, and walkability and other established 'good practice' ways of determining appropriate locations for intensification.
Glen Scanlon	212.2	Whole PDP / Whole PDP / Whole PDP	Support	Supports solutions to create more affordable housing. Considers the continued, sustainable, growth of our city is vitally important to the well-being of residents.	Not specified.
Glen Scanlon	212.3	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that retaining sunlight hour provisions from the operative district plan design guide will help ensure dry homes and a reasonable healthy quality of life for all. Sunlight is important to mental health Auckland's design rules also support maintaining and creating living environments where sunlight is maximised [Refer to original submission for full reason]	Seeks that the proposed district plan retains the provisions for sunlight hours from the operative district plan design guides.
Glen Scanlon	212.4	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that construction of large buildings would require purchasing many properties in the area with major earthworks to provide suitable platforms. The costs will be high, infrastructure will be under pressure and it's a high wind zone - the PDP does not account for these. As a result, properties will be expensive and will result in renters moving out. [Refer to original submission for full reason]	Seeks that the plan focuses building more where building platforms are larger, flatter, have access to more parking, public services, and infrastructure such as Kent and Cambridge Terraces, Hania St and Adelaide Rd.
Robert Murray	213.2	Whole PDP / Whole PDP / Whole PDP	Oppose	Opposes the entire PDP and its principles. Considers that it's too long, over-complicated, and unintelligible. It leaves decisions upon unelected officials and the technology used is for experts which still gets it wrong. [Refer to original submission for further reason]	Seeks that the entire PDP is rewritten so that it's clear and intelligible to the average person.
Robert Murray	213.3	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the PDP provides rules rather than guidelines that comply with and support Councils principles.
Robert Murray	213.4	Whole PDP / Whole PDP / Whole PDP	Oppose	[No specific reason given beyond decision requested - refer to original submission]	Seeks that Council should provide services to the public first and put customer/user first.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Robert Murray	213.5	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers there is no housing shortage, it is a shortage of affordable housing. [Refer to original submission for full reason]	Not specified.
Eva Brodie	217.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that placement of even one tall building in this neighbourhood would degrade surrounding homes. A non-compliant development has become compliant under the PDP which will severely impact sunlight on the submitters home, which is counterintuitive given New Zealand's push for healthier homes. It does not make sense that a single dwelling can be allowed to have such a devastating impact on surrounding homes. Developments built to the edge of zones in the HRZ (High Density Residential Zone) in Lower Kelburn will mean losses of privacy, sun, views, and access.	Seeks that the plan is amended to put more emphasis on protecting neighbours sun access.
Tyers Stream Group	221.5	Whole PDP / Whole PDP / Whole PDP	Support	Considers that public access can lead to greater cognisance and care of areas by the public, and in the case of Tyers Stream Reserve result in greater restoration of natural biodiversity and reduction of damaging events, in line with the Reserve's SNA status.	Seeks that the plan provide for public access to and within areas for which WCC has jurisdiction.
Anna Jackson	222.1	Whole PDP / Whole PDP / Whole PDP	Support	[No specific reason given beyond decision requested - refer to original submission]	Supports any provision that will help support actions to minimise the damage caused by climate change and help reduce emissions that are causing climate change.
Anna Jackson	222.2	Whole PDP / Whole PDP / Whole PDP	Not specified	Supports more intense housing development that is linked to public transport and close to facilities such as schools, libraries and shops, to reduce reliance of private cars.	Not specified.
Anna Jackson	222.3	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks addition of a 30-40% permeability standard for all sites.
Anna Jackson	222.4	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks addition of a requirement for shared mini-parks and other forms of green spaces.
Anna Jackson	222.5	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks addition of a requirement for consideration of waste management to be factored into planning.
Anna Jackson	222.6	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks addition of a requirement for consideration of disability access to be factored into planning.
Anna Jackson	222.7	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that parking and road congestion as best managed by the provision of reliable and frequent public transport, preferably free but certainly subsidised and as cheap as possible.	Seeks that mini-buses are added to serve a greater number of routes more frequently.
Nick Humphries	223.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers the approach taken by Auckland City Council to provide more qualifying matters to provide greater protection of heritage/character/townscape and amenity values. [Refer to original submission for full reason]	Seeks the addition of more qualifying matters regarding heritage/character/townscape and amenity values.
RR Ventures (2018) Ltd	227.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the population in Northern suburbs is increasing consistently and has been earmarked for medium-density housing, we would like to understand Council's plans for further development of Glanmire Road. We are keen to work with the Council to understand the options that present an approach/ solution that is mutually beneficial for the development of this section.	Clarify intent of future development in Glanmire Road.
Lorraine and Richard Smith	230.1	Whole PDP / Whole PDP / Whole PDP	Amend	The heritage and culture of the urban landscape contributes to everyone's overall wellbeing and quality of life	Add a new objective as follows: <u>Reflect the essential contributions made by heritage, character and quality design, giving us the ability to remember our heritage and to visually enjoy unique urban landscapes which provide character and a sense of belonging to our unique city.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Lorraine and Richard Smith	230.2	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Add a new objective as follows: <u>Recognise the essential value of local residents' participation in planning decisions as central to our communities' wellbeing.</u>
Lorraine and Richard Smith	230.3	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the detailed provisions of the PDP should be evaluated against the newly suggested objectives to ensure that the Council's chosen methods are the best options to deliver the objectives of the plan and respect the wishes of the people of Wellington..	Seeks that the PDP is evaluated against the newly suggested objectives.
Lorraine and Richard Smith	230.4	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that many sites that sit idle or under utilised business facilities. Development in these spaces will address much of future housing demand and avoid adverse effects on quality, amenity and character. [Refer to original submission for full reason]	Seeks that the sequence of intensification in the Proposed District Plan focus first on major areas of under utilised land and smaller groups of under utilised sites close to public transport.
Lorraine and Richard Smith	230.5	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the Proposed District Plan identify community-based planning for intensification as a method for increasing housing supply within areas subject to the revised demolition controls.
Lorraine and Richard Smith	230.6	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that homes should be a warm, dry places of stability, where sunlight providing natural light and mood enhancing benefits are recognized as essential to human wellbeing.	Seeks that the Proposed District Plan recognise the critical importance of sunlight to the wellbeing of residents.
Lorraine and Richard Smith	230.7	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the Proposed District Plan ensure that current well-functioning established homes, neighbourhoods, old trees and plantings are not demolished.
Lorraine and Richard Smith	230.8	Whole PDP / Whole PDP / Whole PDP	Support	Supports the aim of the council to provide for a greater density of population in Central Wellington.	Not specified.
Richard W Keller	232.3	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks amendment to council's Network Operating Framework, Parking Policies, street maintenance systems and so forth that actively support the better places created by more density done well and proximity to daily amenities.
Richard W Keller	232.4	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that people shouldn't need to drive to stations and use Park n Rides.	Seeks that the Proposed District Plan prioritises active and sustainable travel.
Richard W Keller	232.5	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the Proposed District Plan prioritises universal accessibility.
Wellington's Character Charitable Trust	233.3	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the PDP needs to enable mixed use in more areas so that people can access more services by walking. Considers that the Vogeltown, Morningson, Kingston and Brooklyn suburbs lack suitable shops, supermarkets and restaurants.	Seeks that more mixed-use development is enabled in Vogeltown, Morningson, Kingston and Brooklyn
Go Media Ltd	236.1	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the PDP is amended to give effect to any other elements of the submission that were not directly captured under their submission points.
Regan Dooley	239.3	Whole PDP / Whole PDP / Whole PDP	Support	Supports greater density city-wide generally.	Not specified.
Regan Dooley	239.4	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the PDP has too many protections for heritage and character generally.	Seeks that the Proposed District Plan is amended to reduce character protection to enable more intensification. [Inferred decision requested]
Regan Dooley	239.5	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the PDP has too many protections for heritage and character generally.	Seeks that the Proposed District Plan is amended to reduce heritage protection to enable more intensification. [Inferred decision requested]
Alan Fairless	242.3	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the Proposed District Plan include an objective recognising the positive value of participation in decisions on an ongoing basis, and acknowledge that this is central to communities being able to meet their needs on an ongoing basis.
Alan Fairless	242.4	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the Proposed District Plan include an objective reflecting the positive contributions heritage, character and quality design, and the ability to read stories in the urban landscape, make to overall wellbeing.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Alan Fairless	242.5	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the detailed provisions of the District Plan be more rigorously tested against the objectives to ensure that chosen methods are the best options to deliver on the objectives of the Plan.
Alan Fairless	242.6	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the District Plan sets out a clear sequence for intensification that aligns with the sequence set out in the Spatial Plan.
Alan Fairless	242.7	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that given the opportunity, Wellingtonians will relish the challenge of working together which can create a sense of community, enhance democracy and deliver change in ways that build on community strengths. Imposing arbitrary change when better options exist simply fosters local resentment. [Refer to original submission for full reasons].	Seeks that the District Plan identify communities to participate in community-based planning.
Alan Fairless	242.8	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the District Plan increase the extent of new green space.
Peter Charlesworth	248.1	Whole PDP / Whole PDP / Whole PDP	Support in part	Generally supports the PDP, including the rezoning from Rural Area to Large Lot Residential Zone at 11B Wilmshurst Place, Tawa.	Retain Proposed District Plan notified with amendments.
Generation Zero Inc	254.4	Whole PDP / Whole PDP / Whole PDP	Support	Considers that housing is not adequate if it does not respect and take into account the expression of cultural identity. Considers that the Proposed District Plan needs to support the development of papakāinga and culturally adequate housing for Māori. Considers that under Local Governments obligations to Te Tiriti and delivering the right to a decent home, Councils must provide effective regulation to stop private enterprises from developing Māori land without free, prior and informed consent of mana whenua. [see original submission]	Seeks that the Proposed District Plan supports the development of papakāinga and culturally adequate housing for Māori. [Inferred decision requested]
Generation Zero Inc	254.5	Whole PDP / Whole PDP / Whole PDP	Support	Considers that the Proposed District Plan needs to support the development of adequate housing through densification and supporting infrastructure for the wellbeing of everyone in the Wellington City Council area and to deliver the right to a decent home. [see original submission]	Seeks that the plan support the development of adequate housing through densification and supporting infrastructure.
Kāinga Ora – Homes and Communities	FS89.66	General / Whole PDP / Whole PDP / Whole PDP	Support	Kāinga Ora supports this submission to the extent that this aligns with the Kāinga Ora primary submission.	Allow
Pauletta Wilson	257.1	Whole PDP / Whole PDP / Whole PDP	Support	Supports more housing in Mount Cook but wants to see it done without loss of character and diversity.	Not specified.
Jim & Christine Seymour	262.3	Whole PDP / Whole PDP / Whole PDP	Not specified	Supports more affordable and dense housing in central city areas but not at the risk of losing established character areas.	Not specified.
Jim & Christine Seymour	262.4	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that mistakes have been made regarding design of buildings in the past - for example the Copthorne Hotel and Bay Plaza. Considers a design control process could prevent badly designed buildings from being built and to ensure a sustainable and enjoyable place to live.	Seeks the addition of an effective design control process for the district plan implementation.
Dean Knight and Alan Wendt	265.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that when Salisbury Garden Court was listed as a heritage area, at the initiative of owners and residents, the key heritage feature sought to be protected was historic connectedness. The heritage controls imposed are, in practice, too heavy and go well beyond what is sought to be protected. [Refer to original submission for full reason]	Seeks that Item 24 (Salisbury Garden Court) of SCHED3 - Heritage Areas is exempt from any other controls arising from Heritage Area status.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington City Council	266.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers there are numbering errors and minor spelling errors that need to be resolved. This includes consistent use of numbering throughout plan i.e. matters of discretion use: a, b, c or i, ii, iii (as per the National Planning Standards).	Seeks that consequential amendments are made to resolve numbering and minor spelling errors.
Foodstuffs North Island	FS23.84	General / Whole PDP / Whole PDP / Whole PDP	Support	Submission point 266.1 seeks to amend numbering and minor spelling errors. FSNI submission points 476.9 & 476.10 seek to make more consequential amendments.	Allow
Wellington City Council	266.2	Whole PDP / Whole PDP / Whole PDP	Amend	Considers consequential numbering changes need to be made for all inserted or deleted provisions.	Seeks that consequential renumbering changes are made for all inserted or deleted provisions.
Foodstuffs North Island	FS23.85	General / Whole PDP / Whole PDP / Whole PDP	Support	Submission point 266.2 seeks to amend numbering and minor spelling errors. FSNI submission points 476.9 & 476.10 seek to make more consequential amendments.	Allow
Wellington City Council	266.3	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that references to Mākara throughout the PDP are missing the macron above the 'a'.	Seeks to amend all references of 'Makara' to 'Mākara'.
Foodstuffs North Island	FS23.86	General / Whole PDP / Whole PDP / Whole PDP	Support	Submission point 266.3 seeks to amend numbering and minor spelling errors. FSNI submission points 476.9 & 476.10 seek to make more consequential amendments.	Allow
Wellington City Council	266.4	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that references to 'dwelling' throughout the PDP should be changed to 'residential unit' as residential unit is defined, whereas dwelling is not.	Seeks to amend all references of 'dwelling' to 'residential unit'.
Foodstuffs North Island	FS23.87	General / Whole PDP / Whole PDP / Whole PDP	Support	Submission point 266.4 seeks to amend numbering and minor spelling errors. FSNI submission points 476.9 & 476.10 seek to make more consequential amendments.	Allow
Wellington City Council	266.5	Whole PDP / Whole PDP / Whole PDP	Amend	Considers there are several words that are underline (i.e. have definitions) in the PDP but the link does not work (i.e. the definition pop-up does not appear).	Amend the definition links so that the definition pop-up appears when the word is clicked for the following definitions throughout the ePlan: <ul style="list-style-type: none"> - Community Scale Natural Hazard Mitigation Structures - Customer Connection - Cut Height - Demolition - LAF(Max) - National Grid - National Grid Yard - Natural Hazard Mitigation Works - Trenching
Foodstuffs North Island	FS23.88	General / Whole PDP / Whole PDP / Whole PDP	Support	Submission point 266.5 seeks to amend numbering and minor spelling errors. FSNI submission points 476.9 & 476.10 seek to make more consequential amendments.	Allow
Wellington City Council	266.6	Whole PDP / Whole PDP / Whole PDP	Amend	Considers there are several definitions where the words in the PDP do not have a link (i.e. are not underlined) to click to see the definition pop-up.	Amend PDP by adding a definition link for the following words throughout the ePlan: <ul style="list-style-type: none"> - Architectural Feature - Design Speed - Environment - K Value - LA90 - Marina Facilities - R Value - Radiocommunication - Reclamation - Temporary Sign - Wetland

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Horokiwi Quarries Ltd	271.2	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that quarrying activities (outside the Special Purpose Quarry Zone) have a challenging role in the PDP. Despite their resource dependence and functional constraints, that they are essential to enabling the growth the city and enabling the construction of key infrastructure (such as providing material for cycleways and road, fill material for the repair and maintenance of three waters infrastructure), and they provide essential construction material for new dwellings, they are not recognised as 'Infrastructure' within the PDP. Concerns as to the lack of recognition (in particular policy recognition) of quarry activities within the PDP outside the Special Purpose Quarry Zone.	Not specified.
Wellington City Council Environmental Reference Group	FS112.36	General / Whole PDP / Whole PDP / Whole PDP	Oppose	Considers that Horokiwi are arguing that they are providing an essential service to the city, over a number of parts of the PDP. WCCERG agree that some materials will be necessary for new infrastructure in the city that is required in order to (as rapidly as possible) achieve a steady state circular economy where a climate-safe emphasis requires reductionism/ degrowth and using existing materials where possible.	Not specified
Horokiwi Quarries Ltd	271.3	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that there is currently no plan wide recognition of the need and benefits of quarrying activities. While the General Rural zone provides one specific policy (GRUZ-P6), it relates to effects as opposed to the benefits of quarry activities and therefore is limited in its scope. While the Special Purpose Quarry Zone has a policy (and rule) framework it relates to existing quarry sites within the Special Purpose Quarry Zone only and does not have plan wide application, including for any expansion of existing quarries outside the Quarry Zone. Horokiwi suggests that the most logical place for some form of plan wide recognition of quarrying activities would be within the Infrastructure Chapter. However, it is recognised the quarries are not infrastructure as defined in the PDP. As such, as an alternative Horokiwi would support the policy recognition in other parts of the PDP (outside the Special Purpose Quarry Zone). Two policies are suggested. One relating to benefits and the other to functional constraints noting quarries are ultimately resource dependent and therefore their potential location is constrained.	Add a new policy within the PDP (outside the Special Purpose Quarry Zone) as follows: <u>The benefits of quarrying activities to the city and region are recognised and provided for.</u>
Horokiwi Quarries Ltd	271.4	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that there is currently no plan wide recognition of the need and benefits of quarrying activities. While the General Rural zone provides one specific policy (GRUZ-P6), it relates to effects as opposed to the benefits of quarry activities and therefore is limited in its scope. While the Special Purpose Quarry Zone has a policy (and rule) framework it relates to existing quarry sites within the Special Purpose Quarry Zone only and does not have plan wide application, including for any expansion of existing quarries outside the Quarry Zone. Horokiwi suggests that the most logical place for some form of plan wide recognition of quarrying activities would be within the Infrastructure Chapter. However, it is recognised the quarries are not infrastructure as defined in the PDP. As such, as an alternative Horokiwi would support the policy recognition in other parts of the PDP (outside the Special Purpose Quarry Zone). Two policies are suggested. One relating to benefits and the other to functional constraints noting quarries are ultimately resource dependent and therefore their potential location is constrained.	Add new policy within the PDP (outside the Special Purpose Quarry Zone) as follows: <u>When assessing quarrying activities, provide for their functional needs and operational needs, and have regard to their functional constraints.</u>
Fire and Emergency New Zealand	273.2	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that the PDP needs to adequately give appropriate consideration to fire safety and operational firefighting requirements, particularly in relation to housing development and fire station development, including: - adequate access and water supply for new developments and subdivisions to ensure the submitter can efficiently and effectively respond to emergencies; and - the ability to construct and operate fire stations in locations which will enable reasonable response times to fire and other emergencies; and - the ability to undertake training for firefighters within the region.	Not specified.
McDonald's	274.1	Whole PDP / Whole PDP / Whole PDP	Oppose	McDonald's is opposed to the 'City Outcomes Contributions' provisions and considers that developments that breach height standards should instead be considered on their merits and effects. The merits of a proposal should not be confined to a specified and required list.	Remove all references to the City Outcomes Contributions be removed from the Proposed District Plan.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.2	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that the level of high density development in Newtown is inappropriate because of the constraint around the Three Waters.</p> <p>Considers that the upgrading of Wellingtons Three Water infrastructure has not kept up with demand and levels of service have reduced.</p> <p>Newtown in particular has high need for network upgrades and investment into Three Waters.</p> <p>[Refer to original submission for full reason]</p>	Seeks that the level of high density development of Newtown be reduced.
Phillippa O'Connor	289.1	Whole PDP / Whole PDP / Whole PDP	Support	Supports overall strategy and intention of PDP to intensify development within the City.	Not specified.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.1	Whole PDP / Whole PDP / Whole PDP	Support in part	Supports (in general) the Proposed District Plan as it provides for an appropriate residential and open space outcome for the land owned by the submitter - being 16 Patna Street, 109A Awarua Street and 76 Silverstream Road, Ngaio.	Not specified.
Grant Henderson	FS55.1	General / Whole PDP / Whole PDP / Whole PDP	Not specified	<p>Provide housing and open space is needed.</p> <p>[Inferred reference to submission 290.1]</p>	Not specified.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.2	Whole PDP / Whole PDP / Whole PDP	Oppose in part	<p>Considers that the proposed natural environment values will place restrictions on the future use and development of the residential land within the Kilmarston block which will result in restrictive (potentially uncertain) development potential of the land for the following reasons:</p> <ol style="list-style-type: none"> 1. Identification of the whole application site as being within a Special Amenity Landscapes (SCHED11) (SAL); and 2. Identification of the balance land as being within the Natural Open Space Zone without agreement being reached with the Submitter on the appropriate tenure of the land; 3. Failure to provide for infrastructure within the Natural Open Space Zone (i.e. Original reservoir that was included as part of the original zoning). 	Not specified.
Adam Groenewegen	FS46.1	General / Whole PDP / Whole PDP / Whole PDP	Oppose	Opposes modifying the NOSZ in the way proposed as a reservoir of the size planned is completely out of scale and nature of the proposed zoning which is designed to protect the high amenity values of land surrounding Crows Nest. Barry Cottier has had previous consents for land use and subdivisions that resulted from a controversial environment court proceeding. He has failed to act on those consents and they have lapsed. A Code of Compliance issued earlier in 2022 for clearance of all vegetation from previously planned earthworks areas was issued by Council on the basis that previous land use consents had lapsed. In 2019 Barry Cottier proposed a complete rework of the earthworks and subdivision plan to garner council support for extending the consents, that did not feature any reservoir. A master plan process was promised but has not been actioned.	Disallow / Disallow that part of the submission that seeks to enable a large reservoir to be built in a NOSZ or on land that is proposed to be NOSZ.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Jo McKenzie	FS64.1	General / Whole PDP /Whole PDP / Whole PD	Oppose	<p>Jo McKenzie opposes modifying the NOSZ in the way proposed as a reservoir of the size planned is completely out of scale and nature of the proposed zoning which is designed to protect the high amenity values of land surrounding Crows Nest. The original submitter has had previous consents for land use and subdivisions that resulted from a controversial environment court proceeding.</p> <p>Jo McKenzie considers that original submitter has failed to act on those consents and they have lapsed. A Code of Compliance issued earlier in 2022 for clearance of all vegetation from previously planned earthworks areas was issued by Council on the basis that previous landuse consents had lapsed. In 2019 the original submitter proposed a complete rework of the earthworks and subdivision plan to garner council support for extending the consents, that did not feature any reservoir. A master plan process was promised but has not been actioned.</p>	Disallow / Disallow the part of the submission that seeks to enable a large reservoir to be built in a NOSZ or on land that is proposed to be NOSZ.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.12	General / Whole PDP / Whole PDP / Whole PDP	Oppose	<p>The site at 76 Silverstream Road is within the designation of Huntleigh Park & surrounds Significant Natural Area (WC060) and zoned as a Special Amenity Landscape as noted in the submission. Huntleigh Park contains a remnant of the original forest of Te Whanganui a Tara and as such is a valuable seed source. The vegetation of Huntleigh Park and its surrounds has been reduced in size by earlier developments and its biodiversity is now in danger of becoming reduced simply by the limitation of its physical size. Any more development and vegetation clearance will place the remaining forest at greater risk of natural decline. Wellington is losing its seed source through inappropriate developments of these remnant areas and the Council has made the important decision to protect this area by recognising it as part of an Outer Green Belt Special Amenity Landscape.</p> <p>Considers that biodiversity protection and landscape overlays are appropriate for the properties in question.</p>	Disallow
Andy Foster	FS86.42	General / Whole PDP / Whole PDP / Whole PDP	Oppose	<p>Considers that it is not reasonable to allow for housing development to intrude into the land zoned Open Space and Rural in the Operative Plan. The landscape impacts would be substantial, both of any housing and of the roading access. The impacts on vegetation would also be significant. Notes that the area of bush at the bottom of the site, immediately adjacent to and climbing up from Silverstream Road is of particularly high quality. The concept of putting housing or an access road through it would be entirely unreasonable. For all these reasons Andy Foster opposes any development in this area beyond a carefully designed reservoir.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to submission 290.2]</p>	Disallow
Andy Foster	FS86.52	General / Mapping / AllOverlays / Overlays General	Support	<p>Considers that it is reasonable to uplift the Special Amenity Landscape over the residential part of the land. However Andy Foster suggests that the hearings panel find a way of ensuring that development is sympathetic to the landform and to the ecological values on the lower part of the land.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to submission 290.20]</p>	Allow
Tawa Community Board	294.3	Whole PDP / Whole PDP / Whole PDP	Support	Supports initiatives in the plan to benefit urban intensification, both in the CBD and in Tawa.	Not specified.
Tawa Community Board	294.4	Whole PDP / Whole PDP / Whole PDP	Support	Supports the PDP's requirements for hydraulic neutrality.	Retain all provisions relating to Hydraulic Neutrality as notified.
Johanna Carter	296.1	Whole PDP / Whole PDP / Whole PDP	Not specified	<p>Considers that the PDP generally aligns with the proposed RPS direction, despite being notified before this.</p> <p>[Refer to submission for commentary relating to the RPS]</p>	Not specified.
Wellington Branch NZIA	301.1	Whole PDP / Whole PDP / Whole PDP	Support in part	Supports the objective of the PDP to provide greater density, but not at the expense of quality control.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Paihikara Ki Pōneke Cycle Wellington	302.1	Whole PDP / Whole PDP / Whole PDP	Support in part	Supports the PDP subject to amendments to ensure that cycling facilities are provided and enabled in a way that improves safety and accessibility.	Retain the PDP, subject to amendments that ensure cycling facilities are provided and enabled in a way that improves safety and accessibility.
Paihikara Ki Pōneke Cycle Wellington	302.2	Whole PDP / Whole PDP / Whole PDP	Support in part	Supports the PDP subject to amendments to ensure that the intensification outcomes required by the Resource Management Act 1991, as amended by the RM (Enabling Housing Supply and Other Matters) Act 2021 and the NPS-UD 2020 are enabled.	Retain the PDP, subject to amendments that ensure the intensification outcomes required by the Resource Management Act 1991, as amended by the RM (Enabling Housing Supply and Other Matters) Act 2021 and the NPS-UD 2020 are enabled.
Aggregate and Quarry Association	303.2	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that aggregate is essential for the construction sector, for housing and transport infrastructure and for climate change adaptation.	Not specified.
Aggregate and Quarry Association	303.3	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that it is important that the PDP does not shut off access to potential aggregate sources to provide for Wellington's current and future construction needs. As aggregate is expensive to transport, sources of this need to be close to the place of construction.	Seeks that the Proposed District Plan identifies where rock for aggregate is located and protects those areas from other development and alternative land uses.
Wellington City Council Environmental Reference Group	FS112.31	General / Whole PDP / Whole PDP / Whole PDP	Oppose	A number of submission points made by the Aggregate & Quarry Association (please see multiple points in their submission relating to the same theme) argue that "it is important that the PDP does not shut off access to potential aggregate sources to provide for Wellington's current and future construction needs. As aggregate is expensive to transport, sources of this need to be close to the place of construction." Elsewhere, they also say: "... the District Plan must not unreasonably curtail expansion of existing quarries and establishment of new quarries..." WCCERG disagree, on the basis of primary and secondary greenhouse gas emissions from quarrying, which are no longer tenable; and the opportunity to re-use existing materials (instead of sending them to landfill, as is currently the case).	Disallow / Seeks that instead of allowing new mining or quarrying activities and changes of use, WCC requires no expansion of any kind of mining or quarrying activities, and a second policy stating that these activities be phased out by (for example), 2030.
Aggregate and Quarry Association	303.4	Whole PDP / Whole PDP / Whole PDP	Support in part	Considers that while the provisions in the Special Purpose Quarry Zone are appropriate as they are enabling of quarry activities, there are some potential conflicts with other parts of the PDP.	Seeks a statement that where conflicts between the Special Purpose Quarry Zone provisions and other Proposed District Plan provisions occur, the Special Purpose Quarry Zone provisions prevail.
Firstgas Limited	304.2	Whole PDP / Whole PDP / Whole PDP	Not specified	The PDP needs to give effect to the RPS- Wellington Region, in particular Objective 10 and policies 7, 8 and 39.	Clarify that the Proposed District Plan gives effect to Objective 10 and policies 7, 8 and 10 of the Regional Policy Statement.
Firstgas Limited	304.3	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers the Proposed District Plan should: - Recognise and provide for the Gas Transmission Network to be safely, effectively and efficiently operated, maintained, replaced, upgraded, removed and developed through more enabling activity statuses where effects are acceptable; - Recognise the Gas Transmission Network as having functional and operational requirements and constraints, including in respect of its location; - Recognise that on some occasions works involving the Gas Transmission Network will have adverse effects; - Ensure that adverse effects of third-party development or activities in close proximity to the Gas Transmission Network are managed to the extent that adverse effects on the network are avoided or appropriately mitigated.	Not specified.
Firstgas Limited	304.4	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers the Proposed District Plan should identify First Gas an affected party in the event that resource consent is required in respect of potential effects on assets owned and operated by First Gas, especially land use changes and subdivision.	Not specified.
Roland Sapsford	305.5	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the District Plan should focus its action on climate change by applying targeted and focal intensification to create local nodes or "urban villages" rather than broad brush intensification or intensification focussed in already dense areas. Considers that Emission reduction through intensification occurs largely through changes in the ways and distances people travel. Intensifying already dense areas has little effect on emissions. Rather it is modest changes in focal density in lower density areas that has the most impact.	Seeks that the District Plan be amended to focus on reducing existing emissions through focal intensification and the creation of nodes or "urban villages" in areas of relatively low density, rather than simply a broad brush approach to intensification.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Roland Sapsford	305.6	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that light is fundamental to wellbeing and the ability of people and communities to provide for their needs, and has concerns about reduction in sunlight.</p> <p>Is concerned that removing the ability to address sun and shading issues on a site-specific basis will pose a risk to existing housing stock, as new houses positioned to maximise solar access will shade established houses.</p> <p>Notes that reduction in sunlight can affect heating and lighting costs and mental wellbeing</p> <p>Considers that houses built 100years ago rely on sunlight access to keep them in good condition.</p> <p>Considers that a resource consent is a necessary means of assessing sunlight access in Aro Valley.</p> <p>Considers that only one six storey building in an inappropriate location in Aro valley could result in widespread shading effects]</p> <p>[Refer to original submission for details]</p>	Seeks that the plan is amended to address sunlight and shading with particular reference to Aro Valley.
Lower Kelburn Neighbourhood Group	FS123.27	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that the submission requests notification for high rise building effects on surrounding housing with regard to sunlight, shade, wind and more, and that such notification is essential for neighbourhoods to thrive, for community relations to be good and citizenry to be involved in their community.	Allow / Seeks that council instate notification procedures as requested.
Roland Sapsford	305.7	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the PDP be amended to recognise that character is in part derived from heritage (as set out in the Operative Plan) in pre-1930s character areas (as defined in the Operative Plan), and use a comprehensive, holistic definition of character as a qualifying matter under the National Policy Statement-Urban Development.
New Zealand Motor Caravan Association	314.1	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that the importance of camping should be explicitly recognised in the PDP, in line with Section 5 of the Resource Management Act 1991. In particular, camping enables people and communities to provide for their social, economic, and cultural well-being.</p> <p>Refer to original submission for full reasons.</p>	Seeks that camping be recognised in the Proposed District Plan as an important activity.
New Zealand Motor Caravan Association	314.2	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that the PDP should explicitly exempt freedom camping in all zones to ensure that this is not inadvertently caught by 'catch-all rules', for example NOSZ-R11.</p> <p>Considers freedom camping should instead be managed through the Council's bylaw.</p>	Seeks an exemption for freedom camping in the Proposed District Plan on the basis that this is dealt with through the Council bylaw(s).
Bruce Crothers	319.3	Whole PDP / Whole PDP / Whole PDP	Amend	Supports G99 to G102 (external bike storage) and considers that these should be carried into the PDP rules, policies and objectives.	Seeks that the content of G99 to G102 (external bike storage) is carried into the rules, policies and objectives.
Bruce Crothers	319.4	Whole PDP / Whole PDP / Whole PDP	Not specified	Supports walking for transport via tracks through green spaces via tracks through green spaces and interconnection to form a network	Not specified.
Hilary Watson	321.5	Whole PDP / Whole PDP / Whole PDP	Support	Supports increasing housing and housing density as long as they are situated in places that are suitable and aligned with the Strategic Direction of the PDP.	Not specified.
Hilary Watson	321.6	Whole PDP / Whole PDP / Whole PDP	Support	Supports well-designed multi-unit developments as long as they are situated in places that are suitable and aligned with the Strategic Direction of the PDP.	Not specified.
Richard Murcott	322.4	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that Council should recognise the value of the inner city suburbs which has been achieved through the two decades of Operative District Plan, rather than jeopardising the gains in these relatively small enclaves of the city.	Not specified.
Joan Fitzgerald	323.1	Whole PDP / Whole PDP / Whole PDP	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Seeks that G99-102 (External bike storage) of the Residential Design Guide be referenced in the specific rules, policies and objectives.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Mt Victoria Residents' Association	342.7	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the plan leaves much of the city's environment vulnerable to demolition with no guarantee of quality and /or affordable development in its place.	Not specified.
Lower Kelburn Neighbourhood Group	FS123.38	General / Whole PDP / Whole PDP / Whole PDP	Support	Supports submission because it is considered it is against demolition of pre-1930s homes because of the high CO2 emissions resulting and also from re-building with new materials. Council should control demolition of old buildings and seek to renovate and repurpose them to reduce CO2 emissions.	Allow
Mt Victoria Residents' Association	342.8	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that investing in the infrastructure and open space improvements are great ideas. We'd like to see this activity extended to all suburbs, and not limited to Mt Cook and Newtown only.	Seeks more infrastructure and open space improvements in all suburbs.
Mt Victoria Residents' Association	342.9	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that rules and guidance to ensure density is done well must be embedded into the District Plan before removal of the pre-1930s rule. The status quo around design rules is not working well, with too much discretion allowed. Council officers need unambiguous design rules to guide them around Density Done Well, but currently suffer from the lack of them – there is enormous community interest in being part of the development of design rules that will guide building in our city.	Seeks more rules on design density.
Mt Victoria Residents' Association	342.10	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that community involvement is essential to bring about quality development that supports people to live well and thrive.	Seeks that the community be engaged in any and all co-design activities.
Lower Kelburn Neighbourhood Group	FS123.46	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that for a harmonious and involved citizenry, community deliberative processes are necessary to decide where development and intensification can take place in their local area. Seeks each community participates in deciding where, in their local area, high rise intensification is appropriate.	Allow
Mt Victoria Residents' Association	342.11	Whole PDP / Whole PDP / Whole PDP	Support	Considers that active street frontages should be part of the district plan. Active frontages area a better use of ground floors and street front boundaries, as they allow for small business on the street to provide opportunities for community connection.	Supports active frontages in the district plan.
Mt Victoria Residents' Association	342.12	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that the viewshaft from Matairangi Mt Victoria over the city towards Te Ahumairangi, Brooklyn and Mt Albert will be greatly diminished if the building heights are realised at the levels imagined in the proposed District Plan. There have already been a number of encroachments on the Matairangi Mt Victoria town belt to support private development.	Not specified.
Roseneath Residents' Association	FS49.9	Whole PDP / Whole PDP / Whole PDP	Support	Supports the approach of the MVRA submission, which seeks to protect and enhance the townscape of Mount Victoria. While MVRA particularly stresses the importance of protecting the much admired townscape of suburban housing on the lower to mid slopes of the hill, the submitter also agrees with the MVRA submission's reference to 'soft fringes' against the Town Belt, the importance of green and open spaces, and the iconic values of the wider views of Mount Victoria. The submitter particularly supports the reference to special protection being needed for 'Mt Victoria bush and lookout - Town Belt' and 'There have already been a number of encroachments on the Matairangi - Mt Victoria town belt to support private development.' Supporting MVRA's reference to special protection for Mount Victoria bus and lookout – Town Belt' and avoiding further intrusions into what is read visually as Town Belt and the critical Mount Victoria Ridgeline, the submitter requests that protection for Mount Victoria Lookout is achieved by number 22 Alexandra Road retaining the Open Space zoning and Ridgeline and Hilltops protection status as it is in the Operative District Plan. [Inferred reference to submission point 342.12]	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Matthew Wells, Adelina Reis and Sarah Rennie	FS50.8	Whole PDP / Whole PDP / Whole PDP	Support	<p>Supports the approach of the MVRA submission, which seeks to protect and enhance the townscape of Mount Victoria. While MVRA particularly stresses the importance of protecting the much admired townscape of suburban housing on the lower to mid slopes of the hill, we also agree with their submission's reference to 'soft fringes' against the Town Belt, the importance of green and open spaces, and the iconic values of the wider views of Mount Victoria. The submitter particularly supports the reference to special protection being needed for 'Mt Victoria bush and lookout - Town Belt' and 'There have already been a number of encroachments on the Matairangi - Mt Victoria town belt to support private development.'</p> <p>Supporting MVRA's reference to special protection for Mount Victoria bush and lookout – Town Belt' and avoiding further intrusions into what is read visually as Town Belt and the critical Mount Victoria Ridgeline, the submitter requests that protection for Mount Victoria Lookout is achieved by number 22 Alexandra Road retaining the Open Space zoning and Ridgeline and Hilltops protection status as it is in the Operative District Plan.</p> <p>[Inferred reference to submission point 342.12]</p>	Allow
Mt Victoria Residents' Association	342.13	Whole PDP / Whole PDP / Whole PDP	Not specified.	Considers that the PDP should lay out a path to affordability of housing. Land values in Mt Victoria are too inflated for private developers to provide affordable and/or social housing. Commitment to partnerships from the government and Council needs to be in place before any change can happen.	Seeks that the District Plan lay out a path to affordable housing.
Mt Victoria Residents' Association	342.14	Whole PDP / Whole PDP / Whole PDP	Not specified.	Considers that the PDP encourages gentrification and the imminent moving on of more vulnerable residents from Mt Victoria. Removal of the pre-1930s rule will only speed that up, as more land under older rental properties is made available for development.	Not specified.
Mt Victoria Residents' Association	342.15	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the plan should account for the impacts of population growth in schools, hospitals and hospices. It likely many schools are overcrowded, such as Clyde Quay School.	Seeks that the impacts of population growth on schools, hospitals and hospices be taken into account.
Mt Victoria Residents' Association	342.16	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the plan should account for the impacts of development surrounding schools, hospitals and hospices on access to sunlight and warmth.	Seeks that access to sunlight and warmth in schools, hospitals and hospice be protected from neighbouring tall developments.
Carolyn Stephens	344.2	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the plan should identify communities which will be involved in community-based planning, based on the sequence set out in the Spatial Plan. [Refer to original submission for full reason]	Seeks that the plan identify communities to participate in community-based planning.
Lower Kelburn Neighbourhood Group	FS123.51	General / Whole PDP / Whole PDP / Whole PDP	Support	<p>Considers that for a harmonious and involved citizenry, community deliberative processes are necessary to decide where development and intensification can take place in their local area.</p> <p>Seeks each community participates in deciding where, in their local area, high rise intensification is appropriate.</p>	Allow
Carolyn Stephens	344.3	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that limited notification should be prioritised in provisions (as opposed to non-notification) in relation to light, shading, privacy and wind effects so as to enable and support fair and reasonable compromises between neighbours. [Refer to original submission for full reason]	Seeks that limited notification provisions be prioritised over non-notification, especially in relation to light, shading, privacy and wind effects.
Lower Kelburn Neighbourhood Group	FS123.25	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that the submission requests notification for high rise building effects on surrounding housing with regard to sunlight, shade, wind and more, and that such notification is essential for neighbourhoods to thrive, for community relations to be good and citizenry to be involved in their community.	Allow / Seeks that council instate notification procedures as requested.
Carolyn Stephens	344.4	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the plan should identify key potential actors and development partnerships as a method for achieving an increased rate of development on land that is underutilised. [Refer to original submission for full reason]	Seeks that key potential actors and partnerships to develop underutilised land more efficiently be identified.
Carolyn Stephens	344.5	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the plan should identify areas suitable for intensification and provide a timetable for developing masterplans for these areas, including quality design guides and rapid assessment processes for sites within these areas.	Seeks that areas suitable for intensification be identified and that development masterplans be devised.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Carolyn Stephens	344.6	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the assessment of housing capacity in Wellington needs to be based on a target of realising at least 50% of the development capacity (as measured under the Operative Plan) on underutilised land over the term of the Plan. The Plan needs to include methods to achieve this. [Refer to original submission for full reason]	Seeks that methods be included to better assess housing and development capacity on underutilised land.
Retirement Villages Association of New Zealand Incorporated	350.67	Whole PDP / Whole PDP / Whole PDP	Oppose	Considers that the Residential Design Guide makes no specific reference to retirement villages, and there is no guidance provided as to why the requirements that are applicable to non-retirement village activities apply in the same manner to retirement villages (despite retirement villages being a unique activity with substantially differing functional and operational needs)	Opposes the Residential Design Guide and seeks amendment to expressly exclude retirement villages from having to apply the Residential Design Guide.
Retirement Villages Association of New Zealand Incorporated	350.68	Whole PDP / Whole PDP / Whole PDP	Oppose	Considers that the Centres and Mixed Use Design Guide makes no specific reference to retirement villages, and there is no guidance provided as to why the requirements that are applicable to non-retirement village activities apply in the same manner to retirement villages (despite retirement villages being a unique activity with substantially differing functional and operational needs)	Opposes the Centres and Mixed Use Design Guide and seeks amendment to expressly exclude retirement villages from having to apply the Centres and Mixed Use Design Guide.
Greater Wellington Regional Council	351.6	Whole PDP / Whole PDP / Whole PDP	Amend	Inconsistent and incorrect reference to the regional plan.	Seeks to ensure consistent reference to the regional plan throughout. By the time decisions are made on the Proposed District Plan (PDP), the regional plan will be operative so should be referred to as the 'Natural Resources Plan'.
Greater Wellington Regional Council	351.7	Whole PDP / Whole PDP / Whole PDP	Amend	Inconsistent and incorrect reference to the Regional Policy Statement.	Seeks to ensure consistent reference to, "the Regional Policy Statement for the Wellington Region".
Greater Wellington Regional Council	351.8	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that references to the effects management hierarchy in matters of discretion should also extend to the consideration of biodiversity compensation.	Seeks that where the effects management hierarchy is mentioned in matters of discretion, amend to include, "...and where relevant the ability to offset or compensate biodiversity impacts".
Greater Wellington Regional Council	351.9	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the reference to the Subdivision Design Guide is currently only in two places in the Subdivision chapter. The wording 'The matters in the Subdivision Design Guide,' does not require evaluation for consistency with the design guide and could be strengthened. Greater Wellington acknowledges that the design guides use a rating system of importance for different guidelines, but do not Consider that the current wording is strong enough.	Seeks to strengthen reference to Subdivision Design Guide to require consistency with, or appropriate consideration of, its guidelines.
Greater Wellington Regional Council	351.10	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the Residential Design Guide is not referenced in any rules for the High Density Residential Zone and greenfield development areas.	Seeks to ensure that the design guides are included in all necessary rules across chapters.
The Retirement Villages Association of New Zealand Incorporated	FS126.52	General / Whole PDP / Whole PDP / Whole PDP	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, as they have substantially different operational and functional needs.	Disallow
Ryman Healthcare Limited	FS128.52	General / Whole PDP / Whole PDP / Whole PDP	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, as they have substantially different operational and functional needs.	Disallow
Greater Wellington Regional Council	351.11	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the reference to the Residential Design Guide throughout residential and commercial zone matters of discretion could be strengthened. The wording used in policies, 'Fulfils the intent of the Residential Design Guide...', should be reflected in matters of discretion. The Residential Design Guide provides direction on carbon reduction, urban design, stormwater, ecology, water conservation and freshwater ecosystem health, which are all contribute to achieving the PDP's strategic objectives. The Design Guide's weight as a matter of discretion should therefore reflect this. We acknowledge that the design guides use a rating system of importance for different guidelines, but do not Consider that the current wording is strong enough	Seeks to strengthen reference to Residential Design Guide to require consistency with, or appropriate consideration of, its guidelines.
The Retirement Villages Association of New Zealand Incorporated	FS126.53	General / Whole PDP / Whole PDP / Whole PDP	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, as they have substantially different operational and functional needs.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ryman Healthcare Limited	FS128.53	General / Whole PDP / Whole PDP / Whole PDP	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, as they have substantially different operational and functional needs.	Disallow
Greater Wellington Regional Council	351.12	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the reference to the Centres and Mixed-Use Design Guide throughout zones does not require evaluation for consistency with the design guide and could be strengthened. The Centres and Mixed-Use Design Guide provides direction on carbon reduction, urban design, stormwater, ecology, water conservation and freshwater ecosystem health, which all contribute to achieving the PDP's strategic objectives. The Design Guide's weight as a matter of discretion should therefore reflect this. We acknowledge that the design guides use a rating system of importance for different guidelines, but do not Consider that the current wording is strong enough.	Seeks to strengthen reference to Centres and Mixed-Use Design Guide to require consistency with, or appropriate consideration of, its guidelines.
The Retirement Villages Association of New Zealand Incorporated	FS126.54	General / Whole PDP / Whole PDP / Whole PDP	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, as they have substantially different operational and functional needs.	Disallow / Disallow the submission point to the extent that it is inconsistent with the RVA's primary submission.
Ryman Healthcare Limited	FS128.54	General / Whole PDP / Whole PDP / Whole PDP	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, as they have substantially different operational and functional needs.	Disallow / Disallow the submission point to the extent that it is inconsistent with Ryman's primary submission.
Greater Wellington Regional Council	351.13	Whole PDP / Whole PDP / Whole PDP	Amend	Considers the reference to the Rural Design Guide could be strengthened in matters of discretion. We acknowledge that the design guides use a rating system of importance for different guidelines, but do not Consider that the current wording is strong enough.	Seeks to strengthen reference to Rural Design Guide to require consistency with, or appropriate consideration of, its guidelines.
Greater Wellington Regional Council	351.14	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that throughout the plan ECO-P2 is incorrectly referred to, where reference should be made instead to ECO-P1.	Seeks to amend incorrect ECO-P2 (Appropriate vegetation removal in significant natural areas) cross-references to ECO-P1 (Protection of significant natural areas).
Greater Wellington Regional Council	351.15	Whole PDP / Whole PDP / Whole PDP	Amend	Considers the earthworks, historic heritage and Sites and Areas of Significance to Māori chapters should recognise the potential for accidental discovery of archaeological sites and wahi tapu and require appropriate consents to include an accidental discovery protocol. This would give effect to Policy 22 of the RPS.	Seeks to amend the PDP to manage the accidental discovery of archaeological sites and wahi tapu to protect historic and cultural values.
Greater Wellington Regional Council	351.16	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that section 3.5 of the NPS-FM 2020 requires every territorial authority to include objectives, policies, and methods in its district plan to promote positive effects, and avoid, remedy or mitigate adverse effects of urban development on the health and well-being of water bodies, freshwater ecosystems and receiving environments. Further, local authorities that share jurisdiction over a catchment must co-operate in the integrated management of the effects of land use and development on freshwater. There is mention of achieving Te Mana o Te Wai in the Three Waters chapter, which we support. However, Te Mana o Te Wai is missing from other chapters, with no linkage established to other chapters an activity could have direct effects on water e.g. Infrastructure, Earthworks and Ecosystems and Indigenous Biodiversity. Throughout the plan further provisions are necessary to support the achievement of Te Mana o Te Wai and manage potential effects of activities on water bodies. Policy FW.3 in Proposed RPS Change 1 provides some further direction for district plans that should be considered in drafting the appropriate provisions. This includes methods to manage effects on rivers, lakes, wetlands, springs and riparian margins, including any relevant water quality attribute targets in a regional plan, ecosystem values and drinking water sources. In addition, further consideration of the adequacy of erosion and sediment control policies for the management of sediment-laden water from sites to water bodies; rivers, estuaries and harbours, particularly Te Awarua o Porirua is required.	Seeks to amend the district plan to give effect to Section 3.5 of the NPS-FM, specifically to provide further direction on how activities are to be managed to avoid, remedy or mitigate the adverse effects of urban development on the health and well-being of water bodies.
Greater Wellington Regional Council	351.17	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that Policy CC.8 in Proposed RPS Change 1 seeks for activities regulated by the District Plan that relates to greenhouse gas emissions, to prioritise achieving a reduction in greenhouse gas emissions over offsetting emissions.	Seeks to identify the type and scale of activities within the PDP to which Policy CC.8 of Proposed RPS Change 1 applies.
Greater Wellington Regional Council	351.18	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that Policy CC.8 in Proposed RPS Change 1 seeks for activities regulated by the District Plan that relates to greenhouse gas emissions, to prioritise achieving a reduction in greenhouse gas emissions over offsetting emissions.	Seeks to include objectives, policies, rules and/or methods to prioritise reducing greenhouse gas emissions for the identified activities rather than applying emissions offsetting.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.4	General / Whole PDP / Whole PDP / Whole PDP	Support	Agree this proposed District Plan needs to give effect to PC1 of the RPS, to prioritise achieving a reduction in greenhouse gas emissions over offsetting emissions	Allow
Greater Wellington Regional Council	351.19	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that proposed RPS Change 1 seeks that District Plans provide for these solutions to be part of infrastructure and development planning and design in order to manage issues such as water quality and natural hazard protection and increase resilience against climate change. A number of actions are set out in Policy CC.14 as measures that should be considered and provided for.	Seeks to amend the PDP to more broadly address nature-based solutions and their use not only to manage natural hazard risk but as part of the response to climate change and the effects of climate change. Policy direction and rules should set out a clear preference for implementing nature-based solutions in all infrastructure planning and land use development.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.5	General / Whole PDP / Whole PDP / Whole PDP	Support	District Plans should avoid adverse effects on ecosystems providing naturebased solutions to have regard to relevant Climate Change policies in Proposed RPS Change 1.	Allow
Greater Wellington Regional Council	351.20	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that natural nature-based solutions already exist and perform functions that support solutions to climate change. These areas are to be mapped by Greater Wellington by June 2024. District Plans should avoid adverse effects on ecosystems providing nature-based solutions to have regard to Policy CC.12 in Proposed RPS Change 1.	Seeks that the PDP should include provisions for recognising the functions of the ecosystems providing nature-based solutions to climate change and avoid adverse effects on functions, including before they are mapped.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.6	General / Whole PDP / Whole PDP / Whole PDP	Support	District Plans should avoid adverse effects on ecosystems providing naturebased solutions to have regard to relevant Climate Change policies in Proposed RPS Change 1.	Allow
Greater Wellington Regional Council	351.21	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that natural nature-based solutions already exist and perform functions that support solutions to climate change. These areas are to be mapped by Greater Wellington by June 2024. District Plans should avoid adverse effects on ecosystems providing nature-based solutions to have regard to Policy CC.12 in Proposed RPS Change 1.	Seeks that policies should also direct the protection of areas that already perform a function as a nature-based solution, including the many wider benefits these can have.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.7	General / Whole PDP / Whole PDP / Whole PDP	Support	District Plans should avoid adverse effects on ecosystems providing naturebased solutions to have regard to relevant Climate Change policies in Proposed RPS Change 1.	Allow
Greater Wellington Regional Council	351.22	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that policy CC.4 and CC.14 of Proposed RPS Change 1 seek for actions and initiatives that contribute to climate resilient urban areas to be provided for, with a preference for the use of nature-based solutions. To have regard to these policies, the PDP should contain provisions which seek to improve the climate resilience of urban areas as part of the characteristics and qualities of well functioning urban environments.	Seeks the PDP should include provisions which seek to improve the climate resilience of urban areas through measures identified in Policy CC.14.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.8	General / Whole PDP / Whole PDP / Whole PDP	Support	District Plans should avoid adverse effects on ecosystems providing naturebased solutions to have regard to relevant Climate Change policies in Proposed RPS Change 1.	Allow
Greater Wellington Regional Council	351.23	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that policy CC.4 and CC.14 of Proposed RPS Change 1 seek for actions and initiatives that contribute to climate resilient urban areas to be provided for, with a preference for the use of nature-based solutions. To have regard to these policies, the PDP should contain provisions which seek to improve the climate resilience of urban areas as part of the characteristics and qualities of well functioning urban environments.	Seeks that new development areas should be required to include actions and initiatives that contribute to the broader climate resilience of the urban area through policies and rules, and the extent to which they do this should be a matter of discretion.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.9	General / Whole PDP / Whole PDP / Whole PDP	Support	District Plans should avoid adverse effects on ecosystems providing naturebased solutions to have regard to relevant Climate Change policies in Proposed RPS Change 1.	Allow
Greater Wellington Regional Council	351.24	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that both brownfield and greenfield development enabled by the PDP should ensure adequate space for public transport on roads. This includes requiring verandahs and other street frontage structures to be set back from the kerb to allow for sufficient bus accessibility	Seeks to amend transport, subdivision, zone and development area standards and rules as necessary to ensure new brownfield and greenfield development enabled by the PDP provides for sufficient bus accessibility.
Greater Wellington Regional Council	351.25	Whole PDP / Whole PDP / Whole PDP	Amend	The submitter notes that there is no papakāinga chapter, nor are papakāinga activities specifically provided for in the zone chapters. The PDP does not provide for papakāinga on Māori owned land or ancestral land.	Seeks to include a Papakāinga chapter and provide for papakāinga on Māori owned land or ancestral land throughout the zone chapters.
Te Rūnanga o Toa Rangatira	FS138.24	General / Whole PDP / Whole PDP / Whole PDP	Support	The submitter seeks the inclusion of a papakāinga chapter in the plan. Te Rūnanga o Toa Rangatira support this part of the submission because we also seek the inclusion of a papakāinga chapter in the plan, as it will provide pathways for tangata whenua to build housing and gain tino rangatiratanga in regard to housing.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Inner City Wellington	352.1	Whole PDP / Whole PDP / Whole PDP	Not specified	Notes that the Proposed District Plan offers improvements in clarity and consistency over the Operative District Plan.	Not specified.
Wellington Electricity Lines Limited	355.3	Whole PDP / Whole PDP / Whole PDP	Support in part	<p>Considers that the comprehensive District Plan review is very important for network utility operators as land use, housing intensification and subdivision development activities proposed throughout Wellington City, as well as the Governments decarbonisation initiatives, will often instigate customer driven network utility upgrading and development.</p> <p>Notes that the provision of electricity infrastructure is a Part 2 matter as the provision of secure and efficient electricity is fundamental to enabling people and communities to provide for their social, economic and cultural wellbeing.</p> <p>Notes that the overall content of the PDP Infrastructure provisions are well considered, robust and reflect the appropriate context for the safe and secure supply of the District's electricity distribution network.</p>	Seeks some further refinement to the Proposed District Plan to ensure that the document is able to be effectively implemented and understood, as well as to enhance particular provisions in order to provide for the importance of electricity infrastructure.
Wellington Electricity Lines Limited	355.4	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the definitions of 'Additional Infrastructure' and 'Development Infrastructure' should be given the same level of priority. For instance, Council's 'Development Infrastructure' is routinely dependant on 'Additional Infrastructure' so a balanced level of recognition and provision in the PDP is required.	Seeks that the term 'Additional Infrastructure' is appropriately applied with the same level of priority, purpose and intent as 'Development Infrastructure' throughout the PDP.
Wellington Electricity Lines Limited	355.5	Whole PDP / Whole PDP / Whole PDP	Amend	It is requested that appropriate, alternative, amendments be made to the provisions to give effect to the concerns raised, in the event requested amendments are denied.	Seeks that alternative amendments be made to provisions to give effect to the concerns raised in the Wellington Electricity Lines Limited submission. [Refer to submission 355]
Woolworths New Zealand	359.1	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that the plan should provide a "centre plus" approach by adopting a more flexible planning regime, rather than the current PDP's direct and control model of setting commercial and land supply use. To support this "centres plus" approach, the activity status of supermarkets (essential services and catalysts for well-functioning urban environments) would be more appropriate as:</p> <ul style="list-style-type: none"> - Permitted in all Centre zones, - Restricted Discretionary in the Mixed-Use Zone, for larger-scale supermarkets; - Discretionary in the General Industrial Zone and General Residential Zone. <p>Currently, the PDP does not enable supermarkets in any zone without resource consent (be it for the activity itself or for the building which would be required to accommodate a supermarket in terms of GFA). This is at odds with both the higher order enabling framework set out in the PDP and the National Policy Statement on Urban Development 2020 ("NPSUD").</p> <p>It is considered that a restricted discretionary activity consent process is sufficient to undertake the assessment required to address the effects of infringements in respect of built form and site layout, without needing a broader fully discretionary approach. This again supports a more efficient consenting process to focus assessment where needed without detracting from an enabling planning framework for appropriate activities in appropriate locations. This approach is elaborated upon in additional submission points.</p> <p>The "centres plus" approach recognises the primacy of centres but also that business activity ought to be enabled in other zones, where appropriate. In particular, this approach recognises that functional need and catchment drivers may dictate the location of supermarket operations, on the fringe, or in some cases, outside of identified centres.</p>	Seeks that a "centres plus" approach is adopted in the Proposed District Plan, so as to provide more flexibility in the planning of supermarkets in Centre Zones, Mixed-Use Zones, General Industrial Zones and General Residential Zones.
Foodstuffs North Island	FS23.2	General / Whole PDP / Whole PDP / Whole PDP	Support	FSNI support supermarkets being permitted activities in Centre Zones. Submission point 359.1 supports submission points 476.92, 476.94, 476.100.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Woolworths New Zealand	359.2	Whole PDP / Whole PDP / Whole PDP	Support in part	The PDP is generally supported, subject to changes which will ensure that the PDP is consistent with the stated objectives at regional and national level. The general approach of the PDP is supported, in that it seeks to agglomerate small-scale retail and commercial activities within the various commercial and mixed-use zones – being the Metropolitan Centre zone, the Local Centre zone and the Neighbourhood Centre zone. The Commercial zone and the Mixed-Use zone are intended to complement the hierarchy of centres and provide for activities that are incompatible with other centres-based activities. This is reflected in Objectives CEKP-O2 and CEKP-O3, which are also generally supported.	Supports the Proposed District Plan, subject to amendments.
Woolworths New Zealand	359.3	Whole PDP / Whole PDP / Whole PDP	Oppose in part	Parts of the plan are not supported, as they: - lack sufficient evidential justification, particularly in respect of the PDP preceding completion of any Business Land Assessment in respect of demand, supply and forecast growth; - go beyond the stated intent of the PDP in respect of its Strategic Direction and as analysed and supported in the Council's section 32 reports. Rather than resolving a resource management issue for the District in terms of enabling activities in the right locations, the approach taken in the PDP is a direct and control model of setting commercial land supply; - Do not give effect to the NPS-UD, which seeks well-functioning urban environments (Objective 1) through enabling urban environments to develop and change in a responsive manner (Objective 4), and requires provisions that have particular regard to providing choice (Policy 1); - Are inappropriate parts in terms of Sections 32, 74 and 75 of the RMA; - Do not achieve Part 2 of the RMA.	Opposes parts of the Proposed District Plan on the grounds that they are inadequate, over-reach stated intent, do not give effect to the NPS-UD or do not appropriately respect the Resource Management Act 1991. [Refer to original submission]
Woolworths New Zealand	359.4	Whole PDP / Whole PDP / Whole PDP	Support in part	Considers that where activities infringe identified standards, a restricted discretionary activity status remains appropriate, rather than defaulting to a more onerous discretionary activity status, where discretion is unfettered in assessment. Restricted discretionary activity status can be accompanied by suitably limited criteria that still ensure an appropriate assessment of effects is undertaken, whilst providing a level of certainty to applicants that where activities are anticipated, such assessments will be rational and streamlined. It is noted that the PDP has generally taken this approach when it comes to standard infringements with the exception of infringing MCZ-R15, NCZ-R13, and LCZ-R13 whereby discretionary activity consent is required if the provision of visible carparks along an active frontage or non-residential activity frontage is proposed. Woolworths considers a restricted discretionary activity status is more appropriate, and specifically with consideration given to operational and functional needs of larger commercial activities like supermarkets. Supermarkets often require car parking to be visible, both from commercial viability perspective but also given the requirements to separate loading and servicing activities from public interfaces. This site layout requires that loading is located to the rear of a store, with the building in front and the entrance accessible and legible from the car park and street frontage. Car parking to the rear removes the ability to keep loading and servicing separate from public areas and leads to safety and CPTED issues after hours. These are examples of operational and functional requirements for supermarkets that are overlooked by application of blanket urban design ideals in these standards.	Seeks that restricted discretionary activity status are retained when activities infringe identified status. [Inferred decision requested]
Elizabeth Nagel	368.3	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the PDP should have an objective recognising the positive value of participation in decisions on an ongoing basis, and acknowledge that this is central to communities being able to meet their needs on an ongoing basis.	Seeks that an objective be added regarding the positive value of community participation in decisions.
Lower Kelburn Neighbourhood Group	FS123.49	General / Other / Other / Other	Support	Considers that for a harmonious and involved citizenry, community deliberative processes are necessary to decide where development and intensification can take place in their local area. Seeks each community participates in deciding where, in their local area, high rise intensification is appropriate.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Elizabeth Nagel	368.4	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the PDP should have an objective reflecting the positive contributions heritage, character and quality design, and the ability to read stories in the urban landscape, make to overall wellbeing.	Seeks that an objective be added to recognise the positive contributions of heritage, character and quality design to overall wellbeing.
Elizabeth Nagel	368.5	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the detailed provisions of the District Plan be more rigorously tested against the objectives to ensure that chosen methods are the best options to deliver on the objectives of the Plan.
Elizabeth Nagel	368.6	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the PDP should set out a clear sequence for intensification, as set out by the Spatial Plan. Zoning should be used appropriately to achieve this, rather than upzoning broad areas of land. The sequence should focus first on major areas of underutilised land and smaller groups of underutilised sites close to public transport. The submitter considers this is because there are many sites throughout the city which sit idle or underutilised and can be utilised for development.	Seeks that a clear sequence for intensification be devised to focus intensification on underutilised land and sites close to public transport.
Lower Kelburn Neighbourhood Group	FS123.7	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that council should focus on brownfield development for affordable housing and ensuring high quality there. Considers the impact on the functioning of older neighbourhoods by random placing of high buildings must be prevented.	Allow
Elizabeth Nagel	368.7	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the plan should identify communities which will be involved in community-based planning, based on the sequence set out in the Spatial Plan. [Refer to original submission for full reason]	Seeks that the plan identify communities to participate in community-based planning.
Lower Kelburn Neighbourhood Group	FS123.8	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that council should focus on brownfield development for affordable housing and ensuring high quality there. Considers the impact on the functioning of older neighbourhoods by random placing of high buildings must be prevented.	Allow
Elizabeth Nagel	368.8	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that limited notification should be prioritised in provisions (as opposed to non-notification) in relation to light, shading, privacy and wind effects so as to enable and support fair and reasonable compromises between neighbours. [Refer to original submission for full reason]	Seeks greater provision for limited notification provisions over non-notification, especially in relation to light, shading, privacy and wind effects.
Lower Kelburn Neighbourhood Group	FS123.26	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that the submission requests notification for high rise building effects on surrounding housing with regard to sunlight, shade, wind and more, and that such notification is essential for neighbourhoods to thrive, for community relations to be good and citizenry to be involved in their community.	Allow / Seeks that council instate notification procedures as requested.
Elizabeth Nagel	368.9	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the plan should identify key potential actors and development partnerships as a method for achieving an increased rate of development on land that is underutilised. [Refer to original submission for full reason]	Seeks that key potential actors and partnerships to develop underutilised land more efficiently be identified.
Elizabeth Nagel	368.10	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the plan should identify areas suitable for intensification and provide a timetable for developing masterplans for these areas, including quality design guides and rapid assessment processes for sites within these areas.	Seeks that areas suitable for intensification be identified and that development masterplans be devised.
Elizabeth Nagel	368.11	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the assessment of housing capacity in Wellington needs to be based on a target of realising at least 50% of the development capacity (as measured under the Operative Plan) on underutilised land over the term of the Plan. The Plan needs to include methods to achieve this. [Refer to original submission for full reason]	Seeks that methods be included to better assess housing and development capacity on underutilised land.
Jane Szentivanyi and Ben Briggs	369.5	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the sequencing of development is aligned with increased and improved infrastructure development.	Seeks that development be provided in a sequenced manner.
Waka Kotahi	370.6	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that adding a note to zones which provide for noise sensitive activities to draw applicants' attention to the reverse sensitivity provisions would be beneficial for aiding public interpretation on the planning provisions that apply. [Applicant was 'neutral' on the provisions].	Add a note in all Zone chapters that provide for noise sensitive activities: <u>Note: As well as provisions in the zone new buildings or alterations to existing buildings for noise sensitive activities are required to comply with the provisions in the NOISE chapter, which include sound insulation as a requirement in certain areas or limiting the establishment of noise sensitive activities in some cases.</u>

WCC Environmental Reference Group	377.1	Whole PDP / Whole PDP / Whole PDP	Support	Overall position is very supportive of the PDP and the progress towards a more liveable and sustainable City.	Not specified.
WCC Environmental Reference Group	377.2	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the Johnsonville Rail Line should be classified as a rapid transit service. As a permanent transit route capable of large capacity carriage of people, the Johnsonville Rail Line should be classified as a rapid transit service. GWRC's Regional Land Transport Plan 2021 recognises the route as a rapid transit route. The line also fits the definition of a rapid transit route in the NPS-UD definitions for the purpose of giving effect to Policy 3(c). With the suburbs along this line well served by commercial and community facilities, and with land available that could accommodate denser development, it makes no sense for this route not to be classified in this way, and provision made for higher density development. We are facing a climate crisis and a housing crisis: this area must shoulder some of the change necessary to reduce Wellingtonian's carbon footprint, and increase housing availability and affordability along transport routes well served by community facilities, which this is.	Amend the Plan to add to the definitions, schedules, policies, maps, and rules provisions to designate the Johnsonville Rail Line a rapid transit route, and all stops along it, as rapid transit stops. Revise the status of the suburbs it serves, and their zones accordingly, to match the land use density expected of land along such a route, e.g. enabling higher buildings within the walkable catchment.
Wellington's Character Charitable Trust	FS82.15	General / Whole PDP / Whole PDP / Whole PDP	Oppose	Considers improvements to the Johnsonville line may only be taken into account if they are "planned" in a Regional Land Transport Plan (RLTP). Considers there are no such improvements for the Johnsonville line planned in the RLTP. Considers the definition of "planned" in the NPS-UD resolves any circularity in the Johnsonville line not being a rapid transit service. Considers improvements to a transit service must be planned in the RLTP before they are relevant to any upzoning under the NPS-UD. [Refer to original submission - 233]	Disallow
Johnsonville Community Association Inc	FS114.41	General / Whole PDP / Whole PDP / Whole PDP	Oppose	<p>The NPS-UD definition states that Rapid Transit Services must be "frequent" and this definition therefore excludes PT services that are not frequent from being classified as Rapid Transit Services.</p> <p>Considers that Greater Wellington Regional Council (GWRC) has incorrectly assessed the Johnsonville Line is a Rapid transit Service because they used a one line statement in the One Network Framework (ONF) drafted by the Road Efficiency Group and published by Waka Katohi.</p> <p>In contrast to the NPS-UD, the ONF definition also classifies passenger rail services that are not frequent as Rapid Transit which is incorrect. The Johnsonville Line is not a frequent service (mostly 2 services/hour) and therefore cannot be classified as a Rapid Transit Service.</p> <p>Considers the One Network Framework is not able tool for this assessment - as confirmed in writing by the Waka Katohi One Network Framework Programme Manager. In contrast, Auckland Transport has developed a PT assessment standard based on suitable public transport criteria and under their criteria, the Onehunga Line is assessed as Nnot being Rapid Transit under the NPS-UD. Applying these same criteria to the Johnsonville Line would also find it is not Rapid Transit. Further, the WCC has also failed to use a PT assessment standard based on suitable public transport criteria to assess whether Johnsonville Line Stations are Rapid Transit Stops under the NPS-UD. Therefore any claim that Johnsonville Line Stations are Rapid Transit Stops is also invalid. [Refer to further submission for full reason]</p>	Disallow / Retain Johnsonville Line as notified (Not considered Rapid Transit).

Director-General of Conservation	385.6	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that it would be effective and efficient to align the review of the Proposed District Plan provisions with the policy direction and requirements anticipated under the NPS-IB, to avoid an additional plan change.</p> <p>The NPS-IB currently has no legal effect; however, it is expected to come into effect in December 2022 during the Proposed District Plan further submissions and hearing process.</p>	Seeks that the Council undertakes a review of the NPS-IB exposure draft (or the soon to be gazetted NPS-IB document) to confirm the Proposed District Plan is giving effect to this national direction.
Director-General of Conservation	385.7	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that it would be effective and efficient to align the review of the Proposed District Plan provisions with the policy direction and requirements anticipated under the NPS-IB, to avoid an additional plan change.</p> <p>The NPS-IB currently has no legal effect; however, it is expected to come into effect in December 2022 during the Proposed District Plan further submissions and hearing process.</p>	Seeks that the Proposed District Plan should be updated to give effect to the NPS-IB where required.
Taranaki Whānui ki te Upoko o te Ika	389.7	Whole PDP / Whole PDP / Whole PDP	Not specified	<p>Considers that there are also a number of properties held by Taranaki Whānui via Tai Hekenga and Crown properties that offer significant development potential, including land held by Taranaki Whānui that we have aspirations for future development and consider to be special Māori precincts. [see original submission]</p>	Seeks that Council provide a schedule of proposed zone changes for review and included a full schedule of RFR and DSP properties within Wellington City for reference.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Taranaki Whānui ki te Upoko o te Ika	389.8	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that there are also a number of properties held by Taranaki Whānui via Tai Hekenga and Crown properties that offer significant development potential, including land held by Taranaki Whānui that we have aspirations for future development and consider to be special Māori precincts. [see original submission]	Seeks that any decisions made in respect of landholdings over which Taranaki Whānui have an interest in, that Taranaki Whānui are consulted first so as to ensure our interests are given due consideration as required under the RMA and in line with their Memorandum of Understanding with Council.
Laurence Harger & Ingrid Kölle	FS2.13	General / Whole PDP / Whole PDP / Whole PDP	Oppose	76 hectares of Watts Peninsula has been set aside by the government as a reserve focused on protecting iwi and military history sites and retaining the value of the natural landscape of the area. Supports the establishment of such a reserve and would like to see it become part of the National Heritage Park proposed by the Buy Back the Bay group. The zoning and overlays of the Proposed District Plan must be kept if the reserve/heritage park is to be a viable option. Taranaki Whānui's requests would remove many protections that have been longstanding and unopposed for decades, which must surely not occur without extensive community engagement. Watts Peninsula, with its ridges and hill lines visible from all over Wellington, should remain undeveloped, which might very well not be the case if the land is rezoned.	Disallow / Seeks that the part of the submission to remove the proposed zoning and overlays on Watts Peninsula be disallowed.
Mary Varnham and Paul O'Regan	FS40.13	Whole PDP / Whole PDP / Whole PDP	Oppose	From 2011 the 76 hectares of Watts Peninsula has been set aside by the government as a reserve, to incorporate and protect iwi (as well as military) sites and history. Submitter supports this as an appropriate and visionary plan for the peninsula. Submitter supports the proposal of Buy Back the Bay group that the area should become a National Heritage Park. Submitter supports a conservancy model for development and management of this park, to include iwi, government, council, the local community, and organisations such as Forest and Bird and Predator Free Miramar. Disallow all proposals by Taranaki Whānui to remove the proposed zoning and overlays. These provisions are vital to protect the natural values, history and landscape of Watts Peninsula, a prominent feature of Te Whanganui-a-Tara. Supports retaining all provisions in the proposed district plan for Open Space B, Ridgelines and Hilltops, Significant Natural Areas and Special Amenity Landscape. We note the magnificent work done by Predator Free Miramar. Protecting and enhancing the huge gains in bringing back birdlife made should be a primary consideration. We also believe the peninsula should see extensive planting and regeneration of native forest.	Disallow
Taranaki Whānui ki te Upoko o te Ika	389.9	Whole PDP / Whole PDP / Whole PDP	Amend	Considers replacing the word 'mauri' with 'mouri'.	Seeks that all references to 'mauri' be removed and replaced with 'mouri'
Taranaki Whānui ki te Upoko o te Ika	389.10	Whole PDP / Whole PDP / Whole PDP	Oppose in part	Opposes Proposed District Plan in general as it fails to provide an adequate planning framework for Papakāinga.	Opposes the Plan in part, with amendments.
Enterprise Miramar Peninsula Inc	FS26.16	General / Whole PDP / Whole PDP / Whole PDP	Not specified	Developing papakāinga is a complex process and there is no definition of what the papakāinga might look like.	Not specified
Taranaki Whānui ki te Upoko o te Ika	389.11	Whole PDP / Whole PDP / Whole PDP	Amend	Opposes Proposed District Plan in general as it fails to provide an adequate planning framework for Papakāinga.	Seeks that a papakāinga chapter is added.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Andy Foster	FS86.3	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers it is important that papakainga are allowed for. Considers that there is a problem with Taranaki Whanui's submission is that it is completely open ended about definition, location, size, design, height – and therefore potential impacts. Considers that it is quite reasonable that papakainga be allowed in areas where that level of development is anticipated. For example in residential areas allowing 11 metre heights, and the appropriate level of site coverage. That does not apply in ridgelines, special amenity areas, or open space. For Watts Peninsula this again means that a papakainga could well be a result of a master planning exercise, but it would come with some certainty about location, scale etc. Supports the request in part as it applies to zones where housing development of equivalent scale, height, site coverage is expected. For clarity that excludes open space and recreation zones and limits scale in rural areas. [See original Further Submission for full reasoning]. [Inferred reference to submission 389.11]	Allow
Te Rūnanga o Toa Rangatira	FS138.35	General / Whole PDP / Whole PDP / Whole PDP	Support	The submitter seeks for a papakāinga chapter to be added to the plan. Te Rūnanga o Toa Rangatira support this part of the submission because we also seek the inclusion of a papakāinga chapter in the plan, as it will provide pathways for tangata whenua to build housing and gain tino rangatiratanga in regard to housing.	Allow
Kāinga Ora Homes and Communities	391.4	Whole PDP / Whole PDP / Whole PDP	Support in part	The PDP's approach to implement the NPSUD and the Housing Supply Act by incorporating a Centres hierarchy and intensification provisions is generally supported.	Retain the Proposed District Plan with amendments.
Kāinga Ora Homes and Communities	391.5	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that all standards should be ensured to have an appropriate activity status and/or are referenced in the building and structure activity rules. For instance, NCZ-R18 does not require compliance with standards NCZ-S7 & NCZ-S8 which relate to residential activities.	Seeks that all standards are ensured to have an appropriate activity status and/or are referenced in the building and structure activity rules.
Kāinga Ora Homes and Communities	391.6	Whole PDP / Whole PDP / Whole PDP	Support in part	The inclusion of notification preclusions for restricted discretionary activities across the plan are supported, as this creates certainty to the development market. Further amendments are sought.	Supports the preclusion of public notification for activities under Restricted Discretionary status.
Kāinga Ora Homes and Communities	391.7	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that Public notification preclusions should be included in the PDP where impacts may apply beyond the site being developed such as side yards, height, daylight, coverage.	Seeks that the preclusion of public notification is applied beyond a development site, for breaches such as side yards, height, daylight and coverage.
Stride Investment Management Limited	FS107.34	General / Whole PDP / Whole PDP / Whole PDP	Support	Stride supports these submission points for the reasons provided by the primary submitter. Stride supports precluding notification where it is unlikely to be helpful to the decision-maker (for example, where the consent breach is of a technical nature and any effects are likely to be limited to the subject site or identified surrounding sites).	Allow
Investore Property Limited	FS108.34	General / Whole PDP / Whole PDP / Whole PDP	Support	Investore supports these submission points for the reasons provided by the primary submitter. Investore supports precluding notification where it is unlikely to be helpful to the decision-maker (for example, where the consent breach is of a technical nature and any effects are likely to be limited to the subject site or identified surrounding sites).	Allow
Kāinga Ora Homes and Communities	391.8	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that limited notification preclusions should apply where effects are limited to the site being developed, such as outdoor living space infringements.	Seeks that the preclusion of limited notification is applied beyond a development site, for breaches such as outdoor living space infringements.
Stride Investment Management Limited	FS107.35	General / Whole PDP / Whole PDP / Whole PDP	Support	Stride supports these submission points for the reasons provided by the primary submitter. Stride supports precluding notification where it is unlikely to be helpful to the decision-maker (for example, where the consent breach is of a technical nature and any effects are likely to be limited to the subject site or identified surrounding sites).	Allow
Investore Property Limited	FS108.35	General / Whole PDP / Whole PDP / Whole PDP	Support	Investore supports these submission points for the reasons provided by the primary submitter. Investore supports precluding notification where it is unlikely to be helpful to the decision-maker (for example, where the consent breach is of a technical nature and any effects are likely to be limited to the subject site or identified surrounding sites).	Allow
Kāinga Ora Homes and Communities	391.9	Whole PDP / Whole PDP / Whole PDP	Oppose	Considers that references to 'reverse sensitivity' as part of adverse effects is unnecessary and should be removed. Reverse sensitivity can be covered by general considerations relating to adverse effects.	Remove any reference to 'reverse sensitivity' from the Plan.
Transpower New Zealand Limited	FS29.4	General / Whole PDP / Whole PDP / Whole PDP	Oppose	Specific to the National Grid, the term reverse sensitivity is used within Policy 10 of the NPSET and therefore its use within the PDP is consistent with and gives effect to the NPSET. On that basis, the relief sought by the submitter is opposed.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.10	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission].	Remove reference of Assisted housing throughout the PDP.
Kāinga Ora Homes and Communities	391.11	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission].	Remove reference of Comprehensive Development throughout the PDP.
Kāinga Ora Homes and Communities	391.12	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission].	Remove reference of Demolition throughout the PDP.
Thorndon Residents' Association Inc	FS69.17	Whole PDP / Whole PDP / Whole PDP	Oppose	Kāinga Ora Homes and Communities wishes to remove reference of Demolition throughout the PDP. TRA are mindful that the greenest buildings are those timber buildings that are already built. There's an accumulative benefit from not demolishing older native timber buildings which have low carbon emissions instead of constructing new buildings using materials (such as concrete and steel) with significant whole of life carbon emissions.	Disallow
Kāinga Ora Homes and Communities	391.13	Whole PDP / Whole PDP / Whole PDP	Amend	An amendment is sought to delete any references of 'multi-unit housing' in objectives, policies, rules, and standards throughout the District Plan.	Remove reference of Multi-unit housing throughout the PDP.
LIVE WELLington	FS96.1	General / Whole PDP / Whole PDP / Whole PDP	Oppose	The amendment to remove reference to 'multi-unit housing' is opposed as special consideration is required to enable this form of housing to fit within the wider street scape and community	Disallow
Roland Sapsford	FS117.1	General / Whole PDP / Whole PDP / Whole PDP	Oppose	The amendment to remove reference to 'multi-unit housing' is opposed as special consideration is required to enable this form of housing to fit within the wider street scape and community.	Disallow
Matthew Tamati Reweti	394.4	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that restrictions to building and land use affects Tino Rangatira and so encourages Council to consider this and adopt more flexible planning restrictions. Mana Whenua (Taranaki Whānui, Te Ātiawa) own over \$100M in property within Wellington City.	Seeks that WCC considers that restrictions to building and land use affects Tino Rangatira and adopt more flexible planning restrictions i.e. as flexible as possible.
Ministry of Education	400.2	Whole PDP / Whole PDP / Whole PDP	Amend	Seeks that explicit provision is given to educational facilities throughout the urban environment to enable the submitter to manage the impacts of growth and development on educational facilities, in particular impacts on school capacity. The submitter considers that providing for educational facilities in Wellington through the strategic policy framework will support the provision of new and expansion of existing educational facilities in the Wellington region.	Seeks that educational facilities are enabled as part of urban growth and development and are considered in any zoning changes made.
Oyster Management Limited	404.1	Whole PDP / Whole PDP / Whole PDP	Support in part	Supports the Proposed Plan in part.	Not specified.
Investore Property Limited	405.1	Whole PDP / Whole PDP / Whole PDP	Support	Generally supports the aims of the Proposed Plan.	Not specified.
Investore Property Limited	405.2	Whole PDP / Whole PDP / Whole PDP	Support	Supports the creation of well-functioning urban environments (consistent with the direction set out in the National Policy Statement on Urban Development 2020 (NPS-UD)).	Not specified.
Investore Property Limited	405.3	Whole PDP / Whole PDP / Whole PDP	Support	Supports the provision of sufficient development capacity to meet long term demands for housing and business land.	Not specified.
Investore Property Limited	405.4	Whole PDP / Whole PDP / Whole PDP	Support	Supports the provision of a compact urban form and urban intensification.	Not specified.
Investore Property Limited	405.5	Whole PDP / Whole PDP / Whole PDP	Amend	Generally supports the intent and provisions of the design guides. However, considers that it is important that the design guides are reference documents that sit outside the district plan, rather than being formally incorporated into the district plan. Incorporating the design guides into the district plan elevates these provisions into the form of standards, rather than what they are intended to be as guidance. The Centres and Mixed-Use Design Guide is supported and a helpful tool, however it should be a reference document that sits outside the district plan [Refer to original submission for full reason].	Seeks that the design guides are reference documents that sit outside of the district plan, rather than being formally incorporated into the district plan.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
The Retirement Villages Association of New Zealand Incorporated	FS126.75	General / Whole PDP / Whole PDP / Whole PDP	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA's primary submission.
Ryman Healthcare Limited	FS128.75	General / Whole PDP / Whole PDP / Whole PDP	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Investore Property Limited	405.6	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that it is not appropriate to provide that the Council's discretion is restricted to all matters in the design guides, for example under Rules CCZ-R19 and CCZ-20. This is because the design guides do not give any clear direction or certainty for applicants, and the submitter considers it would be onerous to potentially address two design guides in the preparation and assessment of resource consent applications.	Seeks that all direct references to the design guides be deleted and replaced with references as appropriate and necessary to the specific design outcomes that are being sought, for example "For guidance, refer to the Centres and Mixed Use Design Guide". [Inferred decision sought].
The Retirement Villages Association of New Zealand Incorporated	FS126.76	General / Whole PDP / Whole PDP / Whole PDP	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with the RVA's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with the RVA's primary submission.
Ryman Healthcare Limited	FS128.76	General / Whole PDP / Whole PDP / Whole PDP	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission, which sought to expressly exclude retirement villages from having to apply the Design Guides, given retirement villages have substantially different operational and functional needs.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in so far as it is inconsistent with Ryman's primary submission.
Wellington International Airport Ltd	406.2	Whole PDP / Whole PDP / Whole PDP	Amend	Not opposed to the coastal inundation mapping in principle, however considers further nuancing of the provisions that relate to coastal hazards and more specifically, tsunami hazard, is required. [See paragraphs 4.85 to 4.89 of original submission for full reason]	Opposes the coastal hazard provisions that apply to coastal tsunami hazard overlays.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.2	Whole PDP / Whole PDP / Whole PDP	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.3	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that Wellington International Airport is regionally significant infrastructure. [See original submission for full reason]	Seeks an amendment that appropriately recognises and provides for the Airport to operate in a safe, efficient, and effective manner, whilst ensuring that reverse sensitivity effects are avoided.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.3	Whole PDP / Whole PDP / Whole PDP	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow

Cheryl Robilliard	409.5	Whole PDP / Whole PDP / Whole PDP	Support in part	Supports overall direction of the plan	Not specified
VicLabour	414.7	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that the plan lacks a focus on affordable housing.</p> <p>Considers that while supply side interventions are important, there remains an issue of a significant proportion struggling financially because their rents have increased faster than wages for many years and house prices have climbed increasingly out of reach.</p> <p>Considers that while there are risks to overall affordability and supply from imposing a tax on new developments, the revenue raised would be redistributed to affordable housing developments, and these stronger measures would provide a strong incentive to developers to consider modest homes that are more affordablng.</p> <p>[See original submission for full reasons]</p>	Seeks that the Council to revisit including an affordable housing chapter in the plan.
VicLabour	414.8	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that the plan lacks a focus on affordable housing.</p> <p>Considers that while supply side interventions are important, there remains an issue of a significant proportion of struggling financially because their rents have increased faster than wages for many years and house prices have climbed increasingly out of reach.</p> <p>Considers that while there are risks to overall affordability and supply from imposing a tax on new developments, the revenue raised would be redistributed to affordable housing developments, and these stronger measures would provide a strong incentive to developers to consider modest homes that are more affordablng.</p> <p>[See original submission for full reasons]</p>	Seeks that the Council investigate ways to target taxes to avoid mid-range housing as part of an affordable housing scheme.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Willis Bond and Company Limited	416.3	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Submitter considers that there needs to be clearer decision-making processes. Submitter is concerned that the decision-making process for restricted discretionary activities could be convoluted and unnecessarily delay development. This will particularly be the case if the Design Guides are retained as they overlap with the PDP in various areas.</p> <p>We have suggested a 'Design Excellence Panel' be constituted for each significant development and be solely responsible for assessing design outcomes of projects. This has the potential to speed up the process, ensure appropriately qualified people are in the room together to assess applications "in the round" and achieve positive design outcomes for Wellington City. We would welcome exploring other suggestions on how to make the planning process more efficient.</p>	Seeks that a 'Design Excellence Panel' be constituted for each significant development and be solely responsible for assessing design outcomes of projects.
Willis Bond and Company Limited	416.4	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the importance of affordability should be acknowledged throughout the Proposed District Plan.
Willis Bond and Company Limited	416.5	Whole PDP / Whole PDP / Whole PDP	Not specified	[No specific reason given beyond decision requested - refer to original submission]	Seeks a thorough review of the City Outcomes Contribution process, to ensure developers receive certainty early on as to the additional height (or floor space) that will apply.
Willis Bond and Company Limited	416.6	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Generally supports the intent of the Design Guides, but opposes their inclusion in the District Plan for the following reasons:</p> <ul style="list-style-type: none"> - In many areas, the Design Guides overlap with the objectives and policies in Part 3. This will cause confusion for both planners and developers in attempting to interpret the Design Guides alongside Part 3. In particular, the submitter queries how the 'Outcomes' in the Design Guides are to be read alongside other provisions in the plan. - It will be simpler to update the Design Guides to reflect best practice if they remain non-statutory. - The way the Design Guides are included as relevant criteria for restricted discretionary activities significantly expands the Council's discretion beyond what could normally be expected, for example, the Residential Design Guide contains various provisions dealing with internal areas such as G114-116 (internal living spaces) and G130-131 (internal storage). 	Seeks that references to the Design Guide in the Proposed District Plan be removed and that the Design Guides should be non-statutory in a similar way to the Auckland Design Manual. They should be used for guidance on how the objectives and policies in Part 3 may be implemented.
The Retirement Villages Association of New Zealand Incorporated	FS126.252	General / Whole PDP / Whole PDP / Whole PDP	Not specified	The RVA supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with The RVA's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with The RVA's primary submission.
Ryman Healthcare Limited	FS128.252	General / Whole PDP / Whole PDP / Whole PDP	Not specified	Ryman supports the relief sought in this submission as it relates to the removal of design guidelines from the District Plan but opposes them remaining as a non-statutory tool as this is inconsistent with Ryman's primary submission.	Amend / Allow submission point as it relates to the removal of design guidelines and otherwise disallow the point in line with Ryman's primary submission.
Josephine Smith	419.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that many sites in the city are under utilised and that filling these gaps will provide for future housing needs without impacting quality, amenity and character.	Seeks that the Proposed District Plan add a clear sequence for intensification, done through zoning. Seeks that it follows the sequence set out in the Spatial Plan and that it focus on major areas of underutilised land and smaller groups of under utilised sites close to public transport.
Lower Kelburn Neighbourhood Group	FS123.9	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that council should focus on brownfield development for affordable housing and ensuring high quality there. Considers the impact on the functioning of older neighbourhoods by random placing of high buildings must be prevented.	Allow
Josephine Smith	419.2	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that Wellingtonians relish the challenge of working together, and that some suburbs are taking the lead in rethinking their areas. This creates a sense of community and enhances democracy.</p> <p>Supports participatory design projects with clear targets, so communities are involved.</p> <p>[See original submission for full reasons]</p>	Seeks that the Proposed District Plan is amended to identify a sequence of communities which will be involved in community-based planning, based on the sequence set out in the Spatial Plan.
Lower Kelburn Neighbourhood Group	FS123.31	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that the submission requests notification for high rise building effects on surrounding housing with regard to sunlight, shade, wind and more, and that such notification is essential for neighbourhoods to thrive, for community relations to be good and citizenry to be involved in their community.	Allow / Seeks that council instate notification procedures as requested.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Lower Kelburn Neighbourhood Group	FS123.47	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that for a harmonious and involved citizenry, community deliberative processes are necessary to decide where development and intensification can take place in their local area. Seeks each community participates in deciding where, in their local area, high rise intensification is appropriate.	Allow
Josephine Smith	419.3	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that Wellingtonians relish the challenge of working together, and that some suburbs are taking the lead in rethinking their areas. This creates a sense of community and enhances democracy. Supports participatory design projects with clear targets, so communities are involved. [See original submission for full reasons]	Seeks that the Proposed District Plan is amended to make greater provision for limited notification (as opposed to non-notification) in relation to light, shading, privacy and wind effects so as to enable and support fair and reasonable compromises between neighbours.
Lower Kelburn Neighbourhood Group	FS123.32	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that the submission requests notification for high rise building effects on surrounding housing with regard to sunlight, shade, wind and more, and that such notification is essential for neighbourhoods to thrive, for community relations to be good and citizenry to be involved in their community.	Allow / Seeks that council instate notification procedures as requested.
The Retirement Villages Association of New Zealand Incorporated	FS126.112	General / Whole PDP / Whole PDP / Whole PDP	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with the RVA's primary submission and the Enabling Housing Act, and contrary to the purpose of the NPSUD.	Disallow
Ryman Healthcare Limited	FS128.112	General / Whole PDP / Whole PDP / Whole PDP	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission and the Enabling Housing Act, and contrary to the purpose of the NPSUD.	Disallow
Josephine Smith	419.4	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that Wellingtonians relish the challenge of working together, and that some suburbs are taking the lead in rethinking their areas. This creates a sense of community and enhances democracy. Supports participatory design projects with clear targets, so communities are involved. [See original submission for full reasons]	Seeks that the Proposed District Plan is amended to make new developments Controlled activities in respect of urban design so as to ensure that quality in design at a local level can be considered for the majority of developments, and that this process is tied to community-level design guides as they are developed.
The Retirement Villages Association of New Zealand Incorporated	FS126.113	General / Whole PDP / Whole PDP / Whole PDP	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with the RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.113	General / Whole PDP / Whole PDP / Whole PDP	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Josephine Smith	419.5	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that local government, central government, private developers and communities need to work together. Wellington needs innovative models for public and private land investment. [See original submission for full reasons]	Seeks that the Proposed District Plan is amended to identify development partnerships as a method for achieving an increased rate of development on land that is underutilised, and that the Plan also needs to identify the key potential actors.
Josephine Smith	419.6	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that local government, central government, private developers and communities need to work together. Wellington needs innovative models for public and private land investment. [See original submission for full reasons]	Seeks that the Proposed District Plan is amended to identify areas suitable for intensification and provide a timetable for developing masterplans for these areas, including quality design guides and rapid assessment processes for sites within these areas.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Josephine Smith	419.7	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that local government, central government, private developers and communities need to work together. Wellington needs innovative models for public and private land investment. [See original submission for full reasons]	Seeks that the Proposed District Plan is amended so that assessment of housing capacity in Wellington needs to be based on a target of realising at least 50% of the development capacity (as measured under the Operative District Plan) on underutilised land over the term of the Proposed District Plan, and needs to include methods to achieve this.
Josephine Smith	419.8	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that Wellingtons livability, character and heritage can be protected at the same time as new housing is added. [See original submission for full reasons]	Seeks that the Proposed District Plan identify community-based planning for intensification as a method for increasing housing supply within areas subject to revised demolition controls.
The Urban Activation Lab of Red Design Architects	420.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the Proposed District Plan should be amended to prioritise Newtown as a Pilot programme and to identify a sequence of communities which will be involved in a community-based planning, based on the sequence set out in the spatial plan. See original submission has concept designs and 3D models of the proposed community-based planning idea.	Seeks that the Proposed District Plan is amended to prioritise Newtown as a Pilot programme and to identify a sequence of communities which will be involved in a community-based planning, based on the sequence set out in the spatial plan.
Thorndon Residents' Association Inc	FS69.27	General / Whole PDP / Whole PDP / Whole PDP	Support	TRA seeks that the Proposed District Plan is amended to prioritise Newtown as a Pilot programme and to identify a sequence of communities which will be involved in a community-based planning, based on the sequence set out in the spatial plan.	Allow
Historic Places Wellington Inc	FS111.48	General / Whole PDP / Whole PDP / Whole PDP	Support	HPW supports the implementation of a sensible plan for revitalisation in Newtown heritage shopping area including provision of additional housing at scale, while also protecting the heritage shop frontages. Considers that this plan retains heritage features (important for stepping back taller buildings from the narrow street to retain street level public amenity) but allows for desirable intensification.	Allow
The Urban Activation Lab of Red Design Architects	420.2	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - see original submission]	Seeks that the Proposed District Plan needs to be amended to make greater provision for limited notification (as opposed to non-notification) in relation to light so as to enable and support fair and reasonable compromises between neighbours.
Kāinga Ora – Homes and Communities	FS89.161	Whole PDP	Oppose	Kāinga Ora opposes submission point 420.2 in part to the extent that it is inconsistent with the Kāinga Ora submission.	Disallow
Historic Places Wellington Inc	FS111.49	General / Whole PDP / Whole PDP / Whole PDP	Support	HPW supports the implementation of a sensible plan for revitalisation in Newtown heritage shopping area including provision of additional housing at scale, while also protecting the heritage shop frontages. Considers that this plan retains heritage features (important for stepping back taller buildings from the narrow street to retain street level public amenity) but allows for desirable intensification.	Allow
Lower Kelburn Neighbourhood Group	FS123.28	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that the submission requests notification for high rise building effects on surrounding housing with regard to sunlight, shade, wind and more, and that such notification is essential for neighbourhoods to thrive, for community relations to be good and citizenry to be involved in their community.	Allow / Seeks that council instate notification procedures as requested.
The Urban Activation Lab of Red Design Architects	420.3	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - see original submission]	Seeks that the Proposed District Plan needs to be amended to make greater provision for limited notification (as opposed to non-notification) in relation to shading so as to enable and support fair and reasonable compromises between neighbours.
Historic Places Wellington Inc	FS111.50	General / Whole PDP / Whole PDP / Whole PDP	Support	HPW supports the implementation of a sensible plan for revitalisation in Newtown heritage shopping area including provision of additional housing at scale, while also protecting the heritage shop frontages. Considers that this plan retains heritage features (important for stepping back taller buildings from the narrow street to retain street level public amenity) but allows for desirable intensification. Allow
The Urban Activation Lab of Red Design Architects	420.9	Whole PDP / Whole PDP / Whole PDP	Not specified	Supports the submission of LIVE Wellington.	Not specified.
Historic Places Wellington Inc	FS111.56	General / Whole PDP / Whole PDP / Whole PDP	Support	HPW supports the implementation of a sensible plan for revitalisation in Newtown heritage shopping area including provision of additional housing at scale, while also protecting the heritage shop frontages. Considers that this plan retains heritage features (important for stepping back taller buildings from the narrow street to retain street level public amenity) but allows for desirable intensification.	Allow
New Zealand Defence Force	423.5	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that NZDF facilities are in many district plans throughout the country (including the Proposed Selwyn District Plan and the Auckland Unitary Plan Operative in Part).	Seeks that any existing and future defence facilities in Wellington City are recognised and provided for in the Proposed District Plan.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Paul Gregory Rutherford	424.7	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that local government, central government agencies, private developers, and communities need to work in partnership not as adversaries.</p> <p>Considers that Wellington needs innovative models for public and private investment working together to rapidly develop Wellington's large areas of underutilised land into high quality housing, greenspace and small business facilities.</p> <p>Current proposals assume a meagre 14% of rezoned areas will be developed.</p> <p>LIVE WELLington wants to see partnerships that can realise the potential of at least half our underutilised land in the next ten years.</p>	Seeks that the Proposed District Plan identifies development partnerships as a method for achieving an increased rate of development on land that is underutilised, and that the Plan also needs to identify the key potential actors.
Lower Kelburn Neighbourhood Group	FS123.42	General / Other / Other / Other	Support	<p>Considers that for a harmonious and involved citizenry, community deliberative processes are necessary to decide where development and intensification can take place in their local area.</p> <p>Seeks each community participates in deciding where, in their local area, high rise intensification is appropriate.</p>	Allow
Paul Gregory Rutherford	424.8	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that local government, central government agencies, private developers, and communities need to work in partnership not as adversaries.</p> <p>Considers that Wellington needs innovative models for public and private investment working together to rapidly develop Wellington's large areas of underutilised land into high quality housing, greenspace and small business facilities.</p> <p>Current proposals assume a meagre 14% of rezoned areas will be developed.</p> <p>LIVE WELLington wants to see partnerships that can realise the potential of at least half our underutilised land in the next ten years.</p>	Seeks that the Proposed District Plan needs to identify areas suitable for intensification and provide a timetable for developing masterplans for these areas, including quality design guides and rapid assessment processes for sites within these areas.
Paul Gregory Rutherford	424.9	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that Wellingtons liveability, character and heritage can be protected at the same time as new housing is added.</p> <p>[See original submission for full reasons]</p>	Seeks that the Proposed District Plan identify community-based planning for intensification as a method for increasing housing supply within areas subject to revised demolition controls.
Lower Kelburn Neighbourhood Group	FS123.43	General / Other / Other / Other	Support	<p>Considers that for a harmonious and involved citizenry, community deliberative processes are necessary to decide where development and intensification can take place in their local area.</p> <p>Seeks each community participates in deciding where, in their local area, high rise intensification is appropriate.</p>	Allow
Paul Gregory Rutherford	424.10	Whole PDP / Whole PDP / Whole PDP	Amend	<p>Considers that Wellington's liveability, and its character and heritage, can be protected at the same time as new housing is added. Not every old building needs to be retained, but neither are people's sense of connection and place disposable commodities. Rather than wholesale deregulation and the widespread removal of protections, heritage and character can be considered as part of community dialogue, while new construction focuses first on under-utilised land.</p>	Seeks that the Proposed District Plan is amended to identify community-based planning for intensification as a method for increasing housing supply within areas subject to the revised demolition controls set out above.
Lower Kelburn Neighbourhood Group	FS123.44	General / Whole PDP / Whole PDP / Whole PDP	Support	<p>Considers that for a harmonious and involved citizenry, community deliberative processes are necessary to decide where development and intensification can take place in their local area.</p> <p>Seeks each community participates in deciding where, in their local area, high rise intensification is appropriate.</p>	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fabric Property Limited	425.2	Whole PDP / Whole PDP / Whole PDP	Support	Supports the aims of the Proposed District Plan. In particular submitter supports the following features and objectives of the plan: (a) the creation of well-functioning urban environments (consistent with the direction set out in the National Policy Statement on Urban Development 2020 (NPSUD)); (b) the provision of sufficient development capacity to meet long term demands for housing and business land; (c) the provision of a compact urban form and urban intensification; and (d) the hierarchy of centres, and the recognition of the City Centre as the primary centre serving the wider Wellington region.	Not specified.
Paul M Blaschke	435.2	Whole PDP / Whole PDP / Whole PDP	Amend	considers that Design Guides could have little effect on development in the City due to the fact much of the intensification building that will take place will not be subject to resource consents under the RMA. The use of the relevant PDP and other guidelines should be promoted as best practice and where possible incentivised through relevant policy provisions in the PDP. Such provisions may help enable the design objectives sought in the PDP and the guidelines, through market forces. It is finally noted that MfE guidelines on the Resource Management Enabling Act also refers to Design Guide guidelines, stating "See the non-statutory national medium density design guide which encourages high-quality and well-functioning design for residential developments that are permitted under the MDRS. This is for voluntary use alongside any design guidance territorial authorities use to assess development that requires resource consent."	Seeks that relevant sections of the PDP be amended to promote the use of the Subdivision and other Guidelines as best practice.
Michelle Rush	436.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that there should be more local provision for recycling and reuse including collection and sorting facilities, in line with Council's signalling of moves to a circular economy. Currently, such activities fall within the definition of heavy industry, and aren't easily provided for at local level. Local recycling facilities should be enabled at neighbourhood or local centre scale as part of supporting a circular economy.	Seeks that the plan provisionally enable the collection and processing of recycled waste at smaller scale, in more places, as a controlled activity.
Dale Mary McTavish	448.3	Whole PDP / Whole PDP / Whole PDP	Oppose	Opposes the Proposed District Plan in its current form.	Seeks that Draft District Plan be reinstated. [Inferred decision requested]
John Wilson	453.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the extent of the zones should be clearly defined, e.g. by lines on a map. If defined by distance from the centre point, this should be defined in terms of distance from the centre point. Not in terms of time eg say five or ten minutes walk from the centre of the zone as this requires a subjective interpretation of how far and how fast a typical pedestrian could walk.	Seeks to clarify how zones are defined in terms of distance from the centre point compared to time in minutes walked. [Inferred decision requested]
Marilyn Head	457.6	Whole PDP / Whole PDP / Whole PDP	Oppose	Does not support housing intensification. [Refer to original submission for full reason]	Seeks that intensification is not enabled [inferred decision requested].
Greater Brooklyn Residents Association Inc's	459.3	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that there should be mandatory design requirements. [Refer to original submission for full reason]	Add mandatory design requirements. [inferred decision requested].
Anita Gude and Simon Terry	461.3	Whole PDP / Whole PDP / Whole PDP	Oppose	Opposes upzoning entire suburbs and catchments, leaving developers to pick favoured individual sites.	Seeks that specific areas, where the community as a whole will benefit from development, should be upzoned rather than upzoning entire suburbs and catchments. [Inferred decision requested].

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Lower Kelburn Neighbourhood Group	FS123.12	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that upzoning heights on swathes of housing is very 'destructive'. Considers high rise sites need to be carefully and individually selected according to topology with pockets of intensity if sites allow.	Allow
Anita Gude and Simon Terry	461.4	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that underutilised and smaller groups of underutilised sites close to public transport should be targetted for development. These are prime sites for apartments close to the city and require less infrastructure spend and coordination than many other sites.	Seeks that underutilised and smaller groups of underutilised sites close to public transport are targeted for development, including the strips along Adelaide Road, Kent Terrace, and Thorndon Quay.
Lower Kelburn Neighbourhood Group	FS123.10	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that council should focus on brownfield development for affordable housing and ensuring high quality there. Considers the impact on the functioning of older neighbourhoods by random placing of high buildings must be prevented.	Allow
Anita Gude and Simon Terry	461.5	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that land identified as priority for development through community planning processes should be prioritised for intensification, also supported by infrastructure and transport investments.
Anita Gude and Simon Terry	461.6	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that community-based planning as a method for intensification is adopted and describe a process for this in the District Plan.
Lower Kelburn Neighbourhood Group	FS123.45	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that for a harmonious and involved citizenry, community deliberative processes are necessary to decide where development and intensification can take place in their local area. Seeks each community participates in deciding where, in their local area, high rise intensification is appropriate.	Allow
Anita Gude and Simon Terry	461.7	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that a target of at least 50% of the development capacity being realised on underutilised land over the term of the Plan is added.
Anita Gude and Simon Terry	461.8	Whole PDP / Whole PDP / Whole PDP	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that policies and methods are incorporated in the District Plan to support faster, high quality development for these sites (i.e. underutilised and smaller groups of underutilised sites close to public transport, and land identified as priority for development through community planning processes).
Anita Gude and Simon Terry	461.9	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the NPS-UD is divorced from actual need because it requires councils to deliver a great deal of new development capacity all at once above the amount required at the time. This includes raising height limits irrespective of need. [See original submission for full reasons]	Seeks that the Council adopt a strategy of staging the release of new capacity for development, at least in the inner city suburbs, and prioritising areas for redevelopment.
Anita Gude and Simon Terry	461.10	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the NPS-UD is divorced from actual need because it requires councils to deliver a great deal of new development capacity all at once above the amount required at the time. This includes raising height limits irrespective of need. [See original submission for full reasons]	Seeks that Priority Development Areas for residential development are specified in the District Plan.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Stride Investment Management Limited	470.1	Whole PDP / Whole PDP / Whole PDP	Support in part	Generally supportive of the aims of the proposed plan. The following features and objectives are supported: <ul style="list-style-type: none"> - the creation of well functioning urban environments. - the provision of sufficient development capacity. - the provision of a compact urban form and urban intensification. - the provision of a range of commercial and mixed-use environments. - the hierarchy of centres. - recognition of Johnsonville as a Metropolitan Centre. - the provision for six storey residential development in the wider Johnsonville catchment. 	Not specified.
Stride Investment Management Limited	470.2	Whole PDP / Whole PDP / Whole PDP	Amend	Opposes to the 'City Outcomes Contributions' provisions, and specifically is opposed to requiring 'City Outcomes Contributions' for 'over height' development. Considers it inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. [Refer to original submission for full reason]	Remove all references to the 'City Outcomes Contributions' from the PDP and Design Guides.
Lower Kelburn Neighbourhood Group	FS123.15	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that adding extra building height in the Inner City for social contribution should not be allowed under any circumstances.	Allow
Foodstuffs North Island	476.1	Whole PDP / Whole PDP / Whole PDP	Oppose	Opposes NCZ-P10, LCZ-P10, MCZ-P10, and CCZ-P11 and related rules. While FSNI recognises the intent of these provisions in providing publicly beneficial outcomes, it is inappropriate for the provision of these publicly beneficial outcomes to be connected to non-compliance with height rules. Developments that breach height standards should instead be considered on their own merits and effects. The provision of beneficial outcomes in any development should be considered as part of the merits of a development, and should not be confined to a specified and required list. The 'City Outcomes Contributions' have the potential to act as a disincentive for development, which conflicts with the PDP strategic objectives and NPS-UD requirements of providing for development capacity and urban intensification.	Remove all references in the PDP and Design Guides to City Outcomes Contributions.
Foodstuffs North Island	476.66	Whole PDP / Whole PDP / Whole PDP	Amend	Generally supports the intent and provisions of the Design Guide, it is important that the design guides are reference documents that sit outside the PDP, rather than being formally incorporated into it. Incorporating the design guides into the PDP elevates these provisions into the form of standards, rather than what they are intended to be as guidance. It is not appropriate to provide that the Council's discretion is restricted to all matters in the Design Guide. This does not give any clear direction or certainty for applicants and is onerous for the preparation and assessment of resource consent applications.	Seeks the relevant provisions (which refer to design guides as notified) instead refer to the specific design outcomes that are being sought.
Ben Barrett	479.6	Whole PDP / Whole PDP / Whole PDP	Not specified	Submitter wishes to second James Coyel's DP submission.	Supports James Coyle's submission. [Refer to submission 307]
Ben Barrett	479.7	Whole PDP / Whole PDP / Whole PDP	Not specified	Seeks to see more inclusion of the lessons learnt from urban planning around the globe.	Seeks to see more inclusion of the lessons learnt from urban planning around the globe within the plan.
Ben Barrett	479.8	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that there is very little detail in the DP to prevent poor quality outcomes that meet minimum criteria in planning and consenting phase. Considers that Wellington is at a crucial juncture between needing to rapidly modernise and build more densely, but being in danger of developing over all that makes Wellington a vibrant city, a cultural centre, and a great place to live. What we do has to be of higher quality. To minimise emissions over the longterm we also need to significantly improve the quality of urban planning and building performance.	Seeks that there is greater detail in the DP to prevent poor quality outcomes that meet minimum criteria in planning and consenting phase. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ben Barrett	479.9	Whole PDP / Whole PDP / Whole PDP	Not specified	<p>Submitter considers that Wellington needs to become denser, and this can happen with carefully considered urban form that relates to the existing surrounding structures, culture and community.</p> <p>Submitter considers that the District Plan does not do this and needs to better encourage the quality of urban form to be highest possible. For example, if we do not consider embodied energy of urban form and building stock, we will not achieve our cities low emissions goals.</p> <p>To meet Climate goals and resource conservation goals, all new urban form needs to be built to last 100 year plus. If we're planning to build for 15 or 20 years, this will not meet the needs of future generations, it will burden them with much higher re-development cost and unnecessarily force more emissions into the atmosphere.</p>	<p>Seeks that the Proposed District Plan should better encourage the quality of urban form with density.</p> <p>[Inferred decision requested]</p>
Ben Barrett	479.10	Whole PDP / Whole PDP / Whole PDP	Oppose	Considers that Newtown is unfairly targeted for the highest of intensification. All of Wellington should be subject share the same intensity goals.	<p>Opposes the level of intensification in Newtown.</p> <p>[Inferred decision requested]</p>
Ben Barrett	479.11	Whole PDP / Whole PDP / Whole PDP	Amend	[Refer to original submission for full reason]	Seeks that the District Plan will ensure building heights are tiered and not haphazard.
Ben Barrett	479.12	Whole PDP / Whole PDP / Whole PDP	Amend	[Refer to original submission for full reason]	Seeks that the District Plan will support low embodied emission and high performance building experimentation by reducing red tape and cost.
Ben Barrett	479.13	Whole PDP / Whole PDP / Whole PDP	Amend	Seeks that the highest intensity needs to happen in concentrated pockets, not allowed to be placed haphazardly across anywhere in Newtown. [Refer to original submission for full reason]	<p>Seeks that highest intensity developments needs to happen in concentrated pockets.</p> <p>[Inferred decision requested]</p>
Lower Kelburn Neighbourhood Group	FS123.13	General / Whole PDP / Whole PDP / Whole PDP	Support	Considers that upzoning heights on swathes of housing is very 'destructive'. Considers high rise sites need to be carefully and individually selected according to topology with pockets of intensity if sites allow.	Allow
Ben Barrett	479.14	Whole PDP / Whole PDP / Whole PDP	Amend	[Refer to original submission for full reason]	<p>Seeks that the District Plan will include:</p> <p>a) protections for existing property owners to prevent overshadowing from new multi-story buildings, or</p> <p>b) current market rate compensation options for existing property owners that are overshadowing from new multi-story buildings.</p>
Ben Barrett	479.15	Whole PDP / Whole PDP / Whole PDP	Amend	[Refer to original submission for full reason]	Seeks that the District Plan will encourage the protection of Newtown's pockets of heritage character, and will pay particular attention to building height and structure in these areas.
Ben Barrett	479.16	Whole PDP / Whole PDP / Whole PDP	Amend	[Refer to original submission for full reason]	Seeks that the District Plan promotes safe cycle pathways fully separate from traffic.
Ben Barrett	479.17	Whole PDP / Whole PDP / Whole PDP	Amend	[Refer to original submission for full reason]	Seeks that the District Plan promotes better use of land and urban space by allowing boundary sharing (of walls or partitions on the boundary) if both parties are in agreement.
Ben Barrett	479.18	Whole PDP / Whole PDP / Whole PDP	Amend	[Refer to original submission for full reason]	Seeks that the District Plan needs to support the removal of private cars and on street car parking, and to make way for active travel, safe cycle paths away from traffic and public transport.
Ben Barrett	479.19	Whole PDP / Whole PDP / Whole PDP	Amend	[Refer to original submission for full reason]	<p>Seeks that the District Plan needs to:</p> <p>a) support safe attractive walking corridors;</p> <p>b) with food growing that is cared for by Council staff.</p>
Catharine Underwood	481.3	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that the PDP does not provide consistent natural and physical features and characteristics that contribute to a unique 'sense of place. Allowing large 22m buildings next to pepper potted heritage and character will create small, disconnected blocks easily compromised or destroyed by high density development adjacent.	Not specified.
Living Streets Aotearoa	482.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that there should also be provision for requiring that significant developments that do not in themselves contribute to pedestrian amenity make a financial contribution towards that	Add a new provision requiring that significant developments that do not in themselves contribute to pedestrian amenity make a financial contribution towards that.
Living Streets Aotearoa	482.20	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that too many buildings have blank walls, high and solid fences or frontages dominated by spaces such as carparks. This makes these spaces less safe for walkers.	Seeks that buildings are designed so as not to have blank walls and high and solid fences or frontages dominated by spaces such as carparks.[inferred decision requested].

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Living Streets Aotearoa	482.21	Whole PDP / Whole PDP / Whole PDP	Amend	Supports the inclusion of a section on "assisted housing" and the inclusion in that of a financial contribution provision. Considers it is important that the city continues to have a mix of residents in all areas.	Amend the plan to include an "Assisted Housing" chapter.
House Movers Section of the New Zealand Heavy Haulage Association Inc	485.1	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the regulatory controls in the District Plan need to properly reflect the purpose and intentions of the RMA 1991 as expressed in the decision of the Environment Court in New Zealand Heavy Haulage Association Inc v The Central Otago District Council (Environment Court, C45/2004, Thompson EJ presiding). In that decision the Environment Court held that there was no real difference in effect and amenity value terms between the in situ construction of a new dwelling and relocation of a second-hand dwelling, subject to appropriate permitted activity performance standards.	Seeks that the regulatory controls in the District Plan properly reflect the purpose and intentions of the RMA 1991 as expressed in the decision of the Environment Court in New Zealand Heavy Haulage Association Inc v The Central Otago District Council (Environment Court, C45/2004, Thompson EJ presiding).
House Movers Section of the New Zealand Heavy Haulage Association Inc	485.2	Whole PDP / Whole PDP / Whole PDP	Support	Supports (in general) the change to enable the relocation of buildings as a permitted activity status for those applications involving relocated buildings that meet performance standards and criteria, as set out in the submission's attachment Schedule 1. [Refer to original submission for Schedule 1 attachment].	Retain approach of the plan that relocated buildings are not treated differently to those constructed on site.
House Movers Section of the New Zealand Heavy Haulage Association Inc	485.3	Whole PDP / Whole PDP / Whole PDP	Support	Supports the WCC retaining a degree of control over relocated buildings through the use of performance/permitted activity standards.	Retain approach of the plan that relocated buildings are not treated differently to those constructed on site.
House Movers Section of the New Zealand Heavy Haulage Association Inc	485.4	Whole PDP / Whole PDP / Whole PDP	Support	Supports Restricted Discretionary activity status for relocated buildings that do not meet the Permitted Activity status standards.	Retain approach of the plan that relocated buildings are not treated differently to those constructed on site.
Te Rūnanga o Toa Rangatira	488.4	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that there is no obvious linkage throughout the plan to Te Mana o Te Wai and is concerned that there are no other references in other chapters.	Seeks that the plan is amended to include more references to Te Mana o Te Wai.
Greater Wellington Regional Council	FS84.109	General / Whole PDP / Whole PDP / Whole PDP	Support	Greater Wellington strongly support direction to give effect to Te Mana o te Wai and provide for a more integrated approach by weaving freshwater direction throughout the Proposed District Plan.	Allow
Te Rūnanga o Toa Rangatira	488.5	Whole PDP / Whole PDP / Whole PDP	Amend	Considers that the Papakāinga Design Guide needs to refer to an associated chapter.	Seeks that a Papakāinga chapter be included in the plan.
Te Rūnanga o Toa Rangatira	488.6	Whole PDP / Whole PDP / Whole PDP	Amend	Concerned that the plan does not provide for Papakāinga	Seeks that the plan provides for Papakāinga on Māori owned land or ancestral land. [Inferred decision requested]
Te Rūnanga o Toa Rangatira	488.7	Whole PDP / Whole PDP / Whole PDP	Amend	Concerned that the plan does not provide for Papakāinga	Seeks that the plan provides for Papakāinga in zone chapters. [Inferred decision requested]
Jonathan Markwick	490.1	Whole PDP / Whole PDP / Whole PDP	Support	Supports the preference for a compact city where growth is concentrated within the existing urban area of Wellington, in particular the city centre, town centres, inner suburbs and along public transport corridors.	Not specified.
Jonathan Markwick	490.2	Whole PDP / Whole PDP / Whole PDP	Oppose	Opposes any rules that make the vision of a compact city where growth is concentrated within the existing urban area of Wellington, in particular the city centre, town centres, inner suburbs and along public transport corridors difficult to achieve. Considers it distressing that council is restricting or effectively banning new housing where demand for new housing is highest during a housing crisis.	Not specified.

Mapping

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
John McSoriley and Pierre David	493.1	Whole PDP / Whole PDP / Whole PDP	Not specified	Considers that there are areas of Wellington that are much more suitable for intense urban development (than Lower Kelburn).	Seeks that urban development is focussed in areas including Te Aro especially around the state highway 1 (known as the bypass): the flat area to the west of Cambridge Terrace: the area between the Basin Reserve and the Wellington Regional Hospital, and perhaps also central parts of the suburb of Kilbirnie, around or over the Wellington railway station marshalling yards and the adjacent area of Thorndon Quay and the Wellington port (especially if the port is moved further north) and also the flat parts of the area very near the city known as Kaiwharawhara. [Inferred decision requested].
Te Whatu Ora - Health New Zealand	496.1	Whole PDP / Whole PDP / Whole PDP	Support	The Proposed District Plan is supported in its entirety. The PDP does a good job of establishing the enabling approach needed to allow for the Hospital to respond to changing health needs. the proposed objectives, policies, and rules, are supported, including where thresholds are set for planning involvement.	Retain the Proposed District Plan as notified.
Steve West	2.1	Mapping / Mapping General / Mapping General	Amend	Mapping of SNA boundaries in Wellington run through the middle of bushy areas. The use of imprecise maps to show where the SNA boundaries are is inappropriate, these boundaries require proper markings.	Seeks that accurate cadastral markings of the Significant Natural Area boundaries are provided so all parties are clear about the boundaries and where the proposed District Plan rules will apply.
Mark Tanner	24.2	Mapping / Mapping General / Mapping General	Amend	Seeks the extent of the PREC-01 is extended	Amend the mapping to reflect extension of the character precincts.
Rod Halliday	25.3	Mapping / Mapping General / Mapping General	Amend	Considers that the flood ponding and overland flow path zone at 28 Westchester Drive is inaccurate. The presence of the Stebbings Dam upstream and concrete retaining wall structures holding up the road will prevent this hazard. [refer to original submission for full reason, including attachment]	Seeks that the flood ponding and overland flow path zone at 28 Westchester Drive be deleted and re-assessed.
Glenside Progressive Association (GPA)	FS4.10	Mapping / Mapping General / Mapping General	Not specified	Submitter contends that ephemeral streams in the proposed development area have been incorrectly mapped. GPA are not in a position to comment on the veracity of this statement but if any development is to take place, it is important that the lie of the land including gullies is accurately mapped, that these are not filled in during earthworks and that roads are planned to avoid them. Considers that if any development is to take place, it is important that the lie of the land including gullies is accurately mapped, that these are not filled in during earthworks and that roads are planned to avoid them. [Inferred reference to submission 25.3]	Not specified / Seeks that any development in this area takes place with a minimum of earthworks and that natural gullies are not filled in.
Heidi Snelson	FS24.4	General / Mapping / Mapping General / Mapping General	Oppose	The submitter seeks to reduce / remove / question previous flood ponding, flow path zone assessments stating existing retention dam and retaining wall structures will mitigate against future risk. The detention dam is upstream of recent flooding and flow path damage across Westchester Drive and on Reedy Block road - to become new access way to development. Upstream mitigation does not protect the area which is being inundated by development activities and significant rainfall, downstream. Flooding and slippage and the resultant damage has already been in evidence in this area. (2020, 2021, 2022)	Disallow / Seeks that the submission is disallowed to uphold floodponding and overflow path zone at 28 Westchester Drive and require appropriate and effective mitigation works from the developer to : 1. Protect the Porirua Stream from continued pollution from the development site. 2. Protect the Churton Park Community and the key roading infrastructure of Westchester Drive from the continuing flooding hazards.
Rod Halliday	25.4	Mapping / Mapping General / Mapping General	Not specified	[No specific reason given beyond decision requested - refer to original submission].	Clarify that the implementation of the Medium Density Residential Zone in the Lincolnshire Farm Development Plan will not be taken literally. Re-iterate, through notes in the appendix, that boundaries between areas are not fixed.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Rod Halliday	25.5	Mapping / Mapping General / Mapping General	Amend	[No specific reason given beyond decision requested - refer to original submission].	Road alignment be adjusted to show it in the position in the plan approved under the resource consent SR No. 416511 relating to a 360 lot subdivision.
Rod Halliday	25.6	Mapping / Mapping General / Mapping General	Amend	Considers that the road alignment showing where Grenada Drive and Woodridge Drive will interconnect is now fixed based on the resource consent approved under WCC SR No. 416511, earthworks design, road gradients and topography on site. [Refer to original submission for full reason, including attachment].	Seeks that the road alignment where Grenada Drive and Woodridge Drive will interconnect is amended in the Proposed District Plan mapping to reflect the plan approved under the resource consent WCC SR No. 416511 (BECA 3321886-S3-C-0023).
Rod Halliday	25.7	Mapping / Mapping General / Mapping General	Amend	Considers that the WRC6 designation does not match the flood easement line as defined by survey. As it stands, the designation now sits over road and properties that are well above the RL92.	Seeks that the WRC6 designation (Stebbing's Valley Flood Detention Dam) designation boundary is amended in the mapping layer.
Rod Halliday	25.8	Mapping / Mapping General / Mapping General	Amend	Considers an altered path for the collector road at 160 Lincolnshire Road, in the Lincolnshire Farm Development Area. Currently, part of the collector road on the map goes through upcoming residential and earthworks locations, rather than around them. Resource consent for earthworks for this development has been granted for these areas (WCC SR No. 479845) and the works will commence in Oct 2022. [Refer to original submission for full reason]	Amend Lincolnshire Farm Development Area overlay at 160 Lincolnshire Road to alter the path of the collector road. [As illustrated in the submission]
Gregory Webber	33.1	Mapping / Mapping General / Mapping General	Amend	Considers that Green Street is classified as a character precinct to match Coromandel Street and Wilson Street as these have similar era housing	Add character precinct layer to Green Street [inferred decision requested]
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.32	General / Mapping / Mapping General / Mapping General	Support	Supports submission that Green Street should be a character precinct.	Allow
Wellington's Character Charitable Trust	FS82.213	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.107	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Simon Ross	37.1	Mapping / Mapping General / Mapping General	Amend	Considers that Mixed Use Zones (Centres Zones) are much too sparse and too small.	Amend mapping to reflect requested changes to zones above.
Peter Preston	42.2	Mapping / Mapping General / Mapping General	Amend	Considers that HRZ-S1 (Maximum height of buildings and structures) does not adequately take account of areas where 21m high buildings with 5 metre boundaries are permitted up against Character Precincts, Heritage Areas, Mt Victoria North Townscape Precinct or Character Precinct-extension areas proposed by Mt Victoria Historical Society. Afternoon sun may be blocked from these properties. Degradation and abandonment of these properties may ultimately occur as their heritage or character may be visually destroyed. [Refer to original submission for full reason]	Seeks that a 'transition zone' of Medium Density Residential Zone of at least one property wide be required between any Character Precinct or heritage area border and a High Density Residential Zone.
Historic Places Wellington Inc	FS111.80	General / Mapping / Mapping General / Mapping General	Support	Considers that it is important for heritage buildings/areas not to be overshadowed in bulk and form by adjacent tall buildings. Considers that it is a settled legal principle that heritage buildings have a curtilage around them to protect public views of the heritage building while otherwise providing for appropriate development.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Paul Burnaby	44.2	Mapping / Mapping General / Mapping General	Amend	Considers that 110 Wakefield St (West Plaza Hotel) should have a maximum height of 73m to match the maximum height of the immediately adjoining building at 103 Wakefield St.	Amend height control at 110 Wakefield St (West Plaza Hotel) to 73m.
Robert and Chris Gray	46.4	Mapping / Mapping General / Mapping General	Amend	Mount Victoria's character is unique in Wellington and New Zealand for its concentration of Victorian and Edwardian wooden dwellings. Considers that a critical mass is required to preserve character. Notes that the area that WCC Officers, presumably guided by the Boffa Miskell assessment, originally recommended to be classified as Character Precincts in Mount Victoria was considerably larger than the those in the PDP.	Seeks that the mapping is amended to extend the Character Precinct (Mount Victoria)
Owen Watson	51.1	Mapping / Mapping General / Mapping General	Amend	Considers that that the character areas in Mt Victoria should be extended, in line with the recommendations in the Boffa Miskell Report.	Seeks that the mapping is amended to extent the character precincts (PREC-01) in Mount Victoria
Phil Kelliher	58.3	Mapping / Mapping General / Mapping General	Amend	Amend Heritage Area overlay to include the following buildings on Tutchen Avenue: 1 Tutchen Avenue 2 Tutchen Avenue 3 Tutchen Avenue 4 Tutchen Avenue 5 Tutchen Avenue 6 Tutchen Avenue 8 Tutchen Avenue [Refer to original submission for full reason]	Amend the extent of Heritage Areas to include 1 to 6 Tutchen Avenue and 8 Tutchen Avenue, as recommended by the Pre-1930 Character Area Review by Boffa Miskell.
Historic Places Wellington Inc	FS111.38	General / Mapping / Mapping General / Mapping General	Support	HPW supports the addition of heritage areas in Mt Victoria, comprising notified areas of Elizabeth St and Porritt Ave and further new heritage areas in Claremont Grove; addresses in Ellice St; and the addition of 1-6 & 8 Tutchen Ave to the adjacent proposed new Porritt Ave Heritage Area as notified.	Allow
Judith Ellen Bleach	60.1	Mapping / Mapping General / Mapping General	Amend	Amend mapping to extend MRZ-PREC01 in Newtown	Amend the extent of MRZ-PREC01 (Character Precincts) to include previously identified character precinct areas in Newtown.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.42	Mapping / Mapping General / Mapping General	Support	Supports submission seeking textending character precincts in Owen Street Newtown.	Allow
Heritage New Zealand Pouhere Taonga	70.2	Mapping / Mapping General / Mapping General	Support	Considers that Wellington's character housing areas are a significant and valued resource, which form a tangible connection with our history, and confer a sense of place and identity.	Supports increasing the extent of Character Precincts to include more of the areas identified as Primary and Contributory in the Pre-1930s Character Area Review, Boffa Miskell Report 2019.
Kāinga Ora – Homes and Communities	FS89.1	General / Mapping / Mapping General / Mapping General	Oppose	Kāinga Ora opposes the expansion of character Precincts to the extent that this will create inconsistencies with the Kāinga Ora primary submission.	Disallow
Tawa Residential Ventures Ltd	71.1	Mapping / Mapping General / Mapping General	Amend	Considers that 4 William Earp Place is suitable for multi-storey residential apartment development for the following reasons: - Within walking distance to Takapu Railway Station - Within 100 metres of a large Countdown supermarket - Within approx. 120 metres of playground & park - Within walking distance of other amenities (Tawa Outlet City, bus stops & shops) - Building to 21m would have minimal effect on neighbouring properties.	Amend Height Control Area layer with respect to 4 William Earp Place to reflect height change requested. [Inferred decision requested]
Turi & Jane Park	73.1	Mapping / Mapping General / Mapping General	Amend	Seeks that 134 Brougham Street is removed from the Moir Street Heritage Area.	Amend the extent of Heritage Area to exclude 184 Brougham Street.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Tim Bright	75.2	Mapping / Mapping General / Mapping General	Amend	Considers that the extent of the Porritt Avenue Heritage Area should be increased to include properties on Tutchen Avenue.	Amend extent of the Porritt Avenue Heritage Area mapping to include the houses on Tutchen Avenue.
Historic Places Wellington Inc	FS111.42	General / Mapping / Mapping General / Mapping General	Support	HPW supports the addition of heritage areas in Mt Victoria, comprising notified areas of Elizabeth St and Porritt Ave and further new heritage areas in Clarendon Grove; addresses in Ellice St; and the addition of 1-6 & 8 Tutchen Ave to the adjacent proposed new Porritt Ave Heritage Area as notified.	Allow
Tim Bright	75.3	Mapping / Mapping General / Mapping General	Amend	Considers that a new Heritage Area should be created for Clarendon Grove.	Amend the mapping to include a Heritage Area over Clarendon Grove.
Conor Hill	76.1	Mapping / Mapping General / Mapping General	Amend	Considers that Council isn't meeting their obligations under the NPS-UD.	Seeks that the mapping is amended to provide more greenfield areas and commercial land.
Conor Hill	76.2	Mapping / Mapping General / Mapping General	Amend	Considers that the mapping should be amended to reflect the changes requested in this submission.	Amend mapping to reflect amended zoning requested throughout the submission.
Nico Maiden	77.1	Mapping / Mapping General / Mapping General	Amend	Many areas in Wellington are a long distance walk from a corner store or other similar amenity.	Seeks that more properties be zoned as NCZ (Neighbourhood Centre Zone).
Aro Valley Community Council	87.4	Mapping / Mapping General / Mapping General	Amend	Considers that the sites at 39, 41, 43 and 45 Palmer Street should be included as a Character Precinct.	Amend the extent of the Character Precinct to include 39, 41, 43 and 45 Palmer Street in the mapping.
Generation Zero	FS54.8	General / Mapping / Mapping General / Mapping General	Oppose	For character areas, the central test is "other" qualifying matter under clause 3.33(3) of the NPS-UD, alongside the objectives and purpose of the NPS-UD. There is an extremely high bar to creating a character area. The reduction in development capacity must be justified against the national significance of urban development and the objectives of the NPS-UD. Cities are dynamic and changeable. Indeed Wellington underwent many built changes before the currently form was locked in place by modern zoning documents. New housing and residents are a positive to encourage, rather a negative to push out further or crowd into the remaining housing stock. It is significantly more climate friendly to allow denser housing in inner-suburbs, rather than displacing development into greenfields, even accounting for embodied carbon. Character areas are in inner-city suburbs which are highly connected to amenities and already have high-mode share of low emissions transport. This land is often the most resilient. More residents can be easily absorbed in these suburbs and will create a positive impact on that suburb. The counterfactual – the status quo – is that the best quality land in the city is locked away by wealthy residents who seek to preserve an unsustainable way of life and/or their property values. This causes reduced supply and higher prices, higher rents, lower quality, displacement of low-income residents, and pushes residents to worse locations with higher lifetime emissions. The development capacity lost through character areas is extremely weighty; only very 'character' of very high quality can be justified. It must also be a site-specific analysis; the current broadbrush suburb-by-suburb analysis in the current District Plan is not allowed. The approaches advocated by the submitters is erroneous under the NPS-UD and should be rejected. Submitters cannot point to individual streets or houses they subjectively find as 'character' as this does not meet the stringent evidential requirement of clause 3.33(3). Submitters cannot request to go back to the current District Plan character areas, as these are untenable under the new NPS-UD test. Submitters cannot point to the Boffa Miskel report and adopt its recommendation. The report was written before the enactment of the NPS-UD. And, crucially, this approach begs the question of how the report fits into the NPS-UD test in clause 3.33(3). The approach in the PDP, where only contiguous and coherent pockets of high-quality character are proposed, is legal under the NPS-UD.	Disallow / Disallow the submission in full to the extent that this relates to character areas or reducing the amount of enabled housing. Reject increasing character areas in the PDP.

Wellington’s Character Charitable Trust	FS82.235	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers’ assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter’s table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Te Herenga Waka Victoria University of Wellington	106.3	Mapping / Mapping General / Mapping General	Amend	Considers that the Tertiary Education zone should be extended to include the McLean Flats site at 320A The Terrace (outlined in black in Figure 2 on original submission) and the substation site adjoining the Gordon Wilson Flats site on the northern side (outlined in blue in Figure 2 on original submission). Both sites will be utilised for university purposes in accordance with the CDP.	Amend the extent of the Tertiary Zone on the maps to include 320A The Terrace (McLean Flats).
Te Herenga Waka Victoria University of Wellington	106.4	Mapping / Mapping General / Mapping General	Amend	Considers that the Tertiary Education zone should be extended to include the McLean Flats site at 320A The Terrace (outlined in black in Figure 2 on original submission) and the substation site adjoining the Gordon Wilson Flats site on the northern side (outlined in blue in Figure 2 on original submission). Both sites will be utilised for university purposes in accordance with the CDP.	Amend the extent of the Tertiary Zone on the maps to include the substation adjoining the Gordon Wilson Flats.
Te Herenga Waka Victoria University of Wellington	106.5	Mapping / Mapping General / Mapping General	Amend	Considers that Height Control Area 4 (area shaded blue on PDP figure on original submission) should be extended to include the McLean Flats site at 320A The Terrace. The site is now owned by the University and will be utilised for university purposes.	Amend the mapping to show the 21m height at 320A The Terrace.
Te Herenga Waka Victoria University of Wellington	106.6	Mapping / Mapping General / Mapping General	Amend	Considers that Height Control Area 4 should be amended to accommodate the proposed Te Huanui building which is anticipated to be between 8 to 12 metres above the maximum in Height Control Area 4. The Te Huanui project is expected to increase the level of amenity to the southern end of The Terrace and should be accommodated within the Height Control Areas of the Tertiary Education zone to reduce future consenting complexity.	Amend the mapping to show the Height Control Area 2 to those parts of the Te Haunui site that are 20 metres or more away from a residential zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Oliver Sangster	112.4	Mapping / Mapping General / Mapping General	Amend	Generally supports the use of SNA provisions, including on private land across contiguous vegetation areas to protect indigenous biodiversity.	Amend mapping of Significant Natural Areas to include privately owned land. [Inferred Decision Requested]
Oliver Sangster	112.5	Mapping / Mapping General / Mapping General	Not specified	Considers that, should landowners object to specific SNA provisions on their land due to low accuracy of maps/modelling, the council adjust the SNA maps to improve their accuracy in relation to what exists "on the ground".	Seeks that the accuracy of the mapping of Significant Natural Area on private land be improved.
Paul Blaschke	FS129.5	General / Mapping / Mapping General / Mapping General	Support	Agrees with the general thrust of this submission point that the accuracy of the mapping of SNAs on all land (not just private land) must be high, and where there is low accuracy in relation to what exists "on the ground, then this should be rectified before the DP is finalised and becomes Operative. Assumes this ground-truthing process can occur once a specific point of low accuracy is identified - not as a blanket withdrawal of all SNAs on private land.	Allow / Seeks that the accuracy of the mapping of all SNAs is improved where a specific problem is identified.
Gael Webster	114.1	Mapping / Mapping General / Mapping General	Amend	Supports the Boffa Miskell Pre-1930 Character Area Review. Considers that the character areas in Mount Victoria should be considerably larger based on evidence from expert Council officers, Boffa Miskell consultants, and the Heritage New Zealand Pouhere Taonga assessment. Decisions about 'Character Precincts' in Mount Victoria were based on allowing more housing and ignored heritage values and character, and the well-being of residents to receive sufficient light and sunshine. A critical mass is required to preserve character and the PDP creates small, disconnected blocks. Mount Victoria's character is unique in Wellington and New Zealand for its concentration of Victorian and Edwardian wooden dwellings. [Refer to original submission for full reasons].	Amend the extent of the area covered by the Character Precincts in Mount Victoria within mapping, to increase it to encompass Boffa Miskell's Primary/Contributory Character area (Boffa Miskell, Pre-1930 Character Area Review).
Historic Places Wellington Inc	FS111.188	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow
Geoff Upton	116.1	Mapping / Mapping General / Mapping General	Amend	Considers that there is an inconsistent approach to the zoning height limits in Miramar, north of Miramar Avenue.	Seeks that the same height limit should be applied to areas the same distance from the Local Zone (including areas south of Miramar Avenue).
Scots College Incorporated	117.1	Mapping / Mapping General / Mapping General	Oppose	Considers that the maps do not identify the Scots College Campus for the purpose of recognising and providing for Scots College activities and the development of the Campus.	Opposes the removal of the Educational Precinct notation for Scots College.
Scots College Incorporated	117.2	Mapping / Mapping General / Mapping General	Amend	Considers that the Scots College Campus should be an Educational Precinct.	Amend the District Plan map to identify the "Scots College Campus" as an Educational Precinct.
Scots College Incorporated	117.3	Mapping / Mapping General / Mapping General	Amend	Considers that the "Educational Precincts" in the Operative District Plan should be retained in the PDP for all existing Educational Precincts, being: · Scots College, Miramar · Samuel Marsden Collegiate School, Karori · Queen Margaret College, Thorndon · St Marks Church School, Basin Reserve .	Seeks that these schools are identified as Educational Precincts.
Scots College Incorporated	117.4	Mapping / Mapping General / Mapping General	Oppose	Considers that the maps do not identify the curtilage around the heritage listed main College building in order to limit the application of HH-R4 to the reasonable vicinity of the listed building. Because the Campus is a very large site this change is sought so that resource consent is not unnecessarily required for building work that is sufficiently far away from the main building.	Amend the District Plan map to identify the curtilage of the College Main Building, with the curtilage being the area occupied by the listed building and the area within 25m of the building footprint.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Scots College Incorporated	117.5	Mapping / Mapping General / Mapping General	Amend	Considers that 11m building height standard is supported for most of the Scots College Campus but because the Campus is large in area it is possible and desirable for new buildings with an additional 5m in height (to 16m) to be accommodated on the Campus, provided this additional building height is located with a reasonable setback distance (25m) from any boundary of the Campus, including the street boundaries. This will effectively "internalise" the effects of the additional building height to the Campus and avoid any unacceptable adverse effects on the streetscape and any residential properties. The purpose of this is also to encourage the retention of open character of the northern half of the Campus.	Seeks that the mapping is amended to apply the proposed Height Control area 3 from original submission to the area of Scots College Campus that is 25m or more away from any street boundary and any adjoining Medium Density Residential Zone boundary.
Jocelyn Ng	130.1	Mapping / Mapping General / Mapping General	Amend	Supports the Newtown Character house protection submission which proposes at a minimum the Officers' Recommended plan is re-instated into the PDP.	Amend the extent of MRZ-PREC01 (Character Precincts) in the mapping to incorporate the area in the Officers' Recommended Plan.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.28	Mapping / Mapping General / Mapping General	Support	Supports submission that seeks a character protection extension for Owen Street.	Allow
Ella Patterson	138.1	Mapping / Mapping General / Mapping General	Amend	Considers that larger, more comprehensive developments are needed in our centres.	Amend the mapping with increased height limits within walking catchments to rail stations.
Janice Young	140.1	Mapping / Mapping General / Mapping General	Amend	Considers that 14m height limits in the MRZ should be removed.	Amend the mapping to remove 14m building heights in the Medium Density Residential Zone.
Janice Young	140.2	Mapping / Mapping General / Mapping General	Amend	Considers that 22m height limits in Centres Zones should be removed.	Amend the mapping to remove 22m building heights in Centres Zones.
John Tiley	142.2	Mapping / Mapping General / Mapping General	Amend	Considers that Marshalls Ridge should be included as an identified ridgeline.	Amend the mapping layer to show Marshalls Ridge as an identified ridgeline.
Andy Foster	FS86.25	General / Mapping / Mapping General / Mapping General	Oppose	Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide. [See original Further Submission for full reasoning]. [Inferred reference to submission 142.2].	Allow
John Tiley	142.3	Mapping / Mapping General / Mapping General	Amend	Considers that while the map of the Development Area Upper Stebbings and Glenside West is grey and bounded red, as unbuilt, the future intentions attached to the area, revealed by the label "FUZ", suggest residential construction in the future. A coherent plan should not contain any such discrepancy.	Clarity is sought in the mapping to show where residential development can occur in the FUZ (Future Urban Zone) in the Upper Stebbings and Glenside West development. [Inferred decision requested].
Grant Buchan	143.6	Mapping / Mapping General / Mapping General	Amend	Considers that all inconsistencies between the NPS-UD and MDRS should be removed (in favour of NPS-UD directions).	Amend the walkable catchments in the mapping.
Braydon White	146.4	Mapping / Mapping General / Mapping General	Amend	Considers that height limits should be increased in the 15 minute walking catchments to rail stations to provide for larger, more comprehensive developments around centres.	Amend the height limits around Centres Zones in the mapping.
David Stevens	151.1	Mapping / Mapping General / Mapping General	Amend	Opposes the surrounding area of Khandallah being medium density four storey with a height limit of 14m.	Amend the mapping to zone the area surrounding Khandallah as Medium Density Residential Zone, with a storey /11m maximum height limit throughout. [Inferred decision requested].
David Stevens	151.2	Mapping / Mapping General / Mapping General	Amend	Considers that the MRZ three storey requirements imposed under the NPS-UD and development along the proposed RTS corridors (excluding JVL) provides ample scope for residential development to meet the expected population growth for the city.	Seeks that the corridor from Broadmeadows to Crofton Downs should be MRZ (Medium Density Residential Zone) 3-storey 11m throughout, including the Khandallah and Ngaio Centres.
Alexander Hockley	153.1	Mapping / Mapping General / Mapping General	Amend	Seeks that the character precincts are extended on the mapping.	Amend the extent of the Character Precincts (MRZ-PREC01) areas.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Historic Places Wellington Inc	FS111.197	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow
LIVE WELLington	154.1	Mapping / Mapping General / Mapping General	Amend	Seeks that the character precincts are extended on the mapping.	Amend the extent of the Character Precincts (MRZ-PREC01) areas.
Thorndon Residents' Association Inc	FS69.31	General / Mapping / Mapping General / Mapping General	Support	Extend character precincts in the mapping. Improve the definition of character. Avoid erosion of character, especially in Thorndon; the city's (& NZ's) oldest suburb lost much when the urban motorway was carved through it. What remains is of significant cultural and other values. Significant and superior residential character on the eastern side of the suburb, though small in area, should be zoned as Character Precincts because they contribute significantly to the appeal, character and liveability of Thorndon. What remains is of significant cultural and other values. Significant and superior residential character on the eastern side of the suburb, though small in area, should be zoned as Character Precincts because they contribute significantly to the appeal, character and liveability of Thorndon. Inadequate infrastructure, and resilience to natural disasters are additional factors to account for. The natural vulnerabilities should restrain intensification within Thorndon. Thorndon is already a relatively intensely subdivided suburb (compared, say, to equivalent inner suburbs in Auckland).	Allow
Historic Places Wellington Inc	FS111.190	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow
Vivienne Morrell	155.3	Mapping / Mapping General / Mapping General	Amend	Supports the Boffa Miskell 2019 report on character areas.	Amend the extent of the area covered by the Character Precincts to encompass all the dwellings identified in the 2019 Boffa Miskell report on character areas.
Historic Places Wellington Inc	FS111.191	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow
Dr Briar E R Gordon and Dr Lyndsay G M Gordon	156.2	Mapping / Mapping General / Mapping General	Oppose	Opposes zone change of the area of Thorndon east of the motorway to City Centre Zone.	Reject zone change of the area of Thorndon east of the motorway to City Centre Zone and amend mapping.
Thorndon Residents' Association Inc	FS69.67	General / Mapping / Mapping General / Mapping General	Support	These submissions align with the Association's submissions for the Hobson precinct, the Portland/Hawkestone precinct, and the Selwyn precinct.	Allow
Historic Places Wellington Inc	FS111.198	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow
Jocelyn Brandon	158.1	Mapping / Mapping General / Mapping General	Amend	Considers that the area immediately around Wesley Road contains many historic houses of a character that deserve to be preserved within a Character Precinct.	Amend the mapping to include a Character Precinct (MRZ-PREC01) immediately around Wesley Road.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Historic Places Wellington Inc	FS111.175	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Inferred reference to submission 158.1]	Allow
Lower Kelburn Neighbourhood Group	FS123.19	General / Mapping / Mapping General / Mapping General	Support	Considers that Wesley Precinct and Lower Kelburn, the area between Bolton St to San Sebastian Rd or the cable car, and between the Botanic Gardens and the Motorway should be classified as a Character Precinct with demolition controls and height limit of 11m for the many reasons outlined the submission and others referred to in further submission, including that of Lower Kelburn Neighbourhood, submission 356.	Allow
Thomas Brent Layton	164.1	Mapping / Mapping General / Mapping General	Amend	Amend that mapping so that the Special Amenities Landscape does not include 183, 241, 249 and 287 South Karori Road.	Remove the Special Amenities Landscape overlay from 183, 241, 249 and 287 South Karori Road.
John Schiff	166.1	Mapping / Mapping General / Mapping General	Amend	Considers that the inner city suburbs, such as Mt Victoria, are an integral part of Wellington's character. Considers that reducing the protection of these character areas by 71% would see the demolition of many character homes in the inner city suburbs to be replaced by six storey apartment blocks. This would adversely affect many of the dwellings in these areas through loss of sun, views and amenity, let alone the character of these areas. The submitter believes that the need for an increase in the housing stock can be achieved without reducing the character precincts as proposed in the PDP.	Seeks that the extent of the area encompassed by Character Precincts is increased in the mapping.
Michelle Leonie Rose	167.1	Mapping / Mapping General / Mapping General	Amend	Notes that Donald McLean Street was mentioned in the Boffa Miskell Pre-1930 Character Area review. The beautiful old homes and gardens/trees add to the history of Wellington. 30 Donald McLean Street, as far as the submitter knows, was built in 1888 and altered in the 1940s, and the back garage was first used as a stables, judging by appearance.	Amend the extent of the Character Precincts to include Donald McLean Street. [Inferred decision requested].
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.40	Mapping / Mapping General / Mapping General	Support	Supports submission that seeks to extend character precincts in Newtown.	Allow
Wellington's Character Charitable Trust	FS82.223	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.101	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Zaffa Christian	174.1	Mapping / Mapping General / Mapping General	Amend	Considers that the character areas should be reinstated in accordance with the recommendations in the Officers' Recommended Plan.	Amend the extent of MRZ-PREC01 (Character Precincts) in the mapping to incorporate the area in the Officers' Recommended Plan.
Jon Gaupset	175.1	Mapping / Mapping General / Mapping General	Amend	Considers that the character areas should be reinstated in accordance with the recommendations in the Officers' Recommended Plan.	Amend the extent of MRZ-PREC01 (Character Precincts) in the mapping to incorporate the area in the Officers' Recommended Plan.
Historic Places Wellington	182.3	Mapping / Mapping General / Mapping General	Amend	Supports the Item 46 (Ascot Street) of Schedule 2 - Heritage Areas, but considers it is too small and should be extended north to the motorway intersection opposite Harriett Street and along the west side of Tinakori Road.	Extend the Ascot Street heritage area in the mapping.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Historic Places Wellington	182.4	Mapping / Mapping General / Mapping General	Amend	Considers that the creation within the suburb of separate development areas which themselves include many quality character houses and will have no character controls should be avoided.	Amend planning maps to have one large character area or precinct over the heritage suburb.
Ros Bignell	186.3	Mapping / Mapping General / Mapping General	Amend	<p>Considers that Lawrence Street includes houses of architectural heritage that contribute to the overall character of the Newtown precinct. The street has several "anchor" houses including 11A Lawrence Street.</p> <p>The "streetscape" of Lawrence is one of the most attractive in Newtown and the positioning of the current housing could be considered sympathetic to the natural topography of the hillside.</p> <p>Considers that Council Officers who are not personally invested in Lawrence Street have considered the qualities of housing and character in Newtown and seen fit to recommend the boundaries and protections of the Newtown character precinct are extended to a further 300 buildings including those of Lawrence Street.</p>	Amend the extent of the area covered by the Character Precincts in Newtown to include Lawrence Street.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.21	Mapping / Mapping General / Mapping General	Support	Supports submission seeking that character protections should extend to Lawrence Street, Newtown.	Allow
Wellington's Character Charitable Trust	FS82.224	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.102	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Ros Bignell	186.4	Mapping / Mapping General / Mapping General	Amend	<p>Considers that Council Officers who are not personally invested in Lawrence Street have considered the qualities of housing and character in Newtown and seen fit to recommend the boundaries and protections of the Newtown character precinct are extended to a further 300 buildings including those of Lawrence Street.</p> <p>Considers that there is a need to be careful that the current character of the precinct is not destroyed; removal of existing heritage character buildings or infilling with housing that is not complementary to the precincts character and topography will slowly erode that character. Once gone, the Newtown precinct's character will be changed irrevocably for future generations.</p>	Amend the extent of the area covered by the Character Precincts to ideally include the 300 houses recommended by Council Officers and/or adopt a site by site character analysis as proposed by the Boffa Miskell Report 2019.
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.22	Mapping / Mapping General / Mapping General	Support	Supports submission seeking that character protections should extend to Lawrence Street, Newtown.	Allow
Wellington's Character Charitable Trust	FS82.225	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Ros Bignell	186.5	Mapping / Mapping General / Mapping General	Amend	Considers that the existing newer, infill townhouses on Lawrence Street are positioned such that they have a relatively low impact on the overall streetscape. This might be similarly possible with new 3 storey (11 metres height) townhouses or residential buildings but not with 4 storey multi dwelling buildings of up to 14 metres.	Amend the height in the mapping to 11m in Lawrence Street, Newtown.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.23	Mapping / Mapping General / Mapping General	Support	Supports submission seeking that character protections should extend to Lawrence Street, Newtown.	Allow
Churton Park Community Association	189.2	Mapping / Mapping General / Mapping General	Amend	Considers that Marshalls Ridge should be included as an identified ridgeline.	Amend the mapping layer to show Marshalls Ridge as an identified ridgeline.
Andy Foster	FS86.36	General / Mapping / Mapping General / Mapping General	Oppose	Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide. [See original Further Submission for full reasoning]. [Inferred reference to submission 189.2].	Allow
Churton Park Community Association	189.3	Mapping / Mapping General / Mapping General	Amend	Considers that while the map of the Development Area Upper Stebbings and Glenside West is grey and bounded red, as unbuilt, the future intentions attached to the area, revealed by the label "FUZ", suggest residential construction in the future. A coherent plan should not contain any such discrepancy.	Clarity is sought in the mapping to show where residential development can occur in the FUZ in the Upper Stebbings and Glenside West development. [Inferred decision requested].
Jonathan and Tricia Briscoe	190.3	Mapping / Mapping General / Mapping General	Amend	Considers that the Proposed District Plan largely ignores the heritage value of the whole area of Mount Victoria, by choosing instead a piecemeal approach (of individual buildings that have "character"), that is highly likely to destroy this important heritage area. Considers that character in Mount Victoria derives from its historic heritage. Considers that the character areas in Mount Victoria should be considerably larger based on evidence from expert Council officers, Boffa Miskell consultants, and the Heritage New Zealand Pouhere Taonga assessment. Considers that a critical mass is required to preserve character and the PDP creates small, disconnected blocks. There is a mismatch between WCC's statement that the Plan "protects areas of special character" in "some of the City's original settlements" and its designation of small, discrete areas of Mt Victoria as Character Precincts. Mount Victoria's character is unique in Wellington and New Zealand for its concentration of Victorian and Edwardian wooden dwellings. Legislation and a number of key WCC documents make clear the value of heritage and heritage buildings and areas. Considers that the inner suburbs have more than enough housing capacity to meet demand over the next 30 years under the existing Operative District Plan. [Refer to original submission for full reasons].	Amend the extent of the area covered by the Character Precincts in Mount Victoria to encompass Boffa Miskell's Primary/Contributory Character area (Boffa Miskell, Pre-1930 Character Area Review) and Heritage New Zealand recommendations.
Historic Places Wellington Inc	FS111.117	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Jonathan and Tricia Briscoe	190.4	Mapping / Mapping General / Mapping General	Amend	Considers that there is inadequate protection provided where 21m high buildings are permitted up against Character Precincts, Heritage Areas, Mt Victoria North Townscape Precinct or Character Precinct-extension areas proposed by the Mt Victoria Historical Society. Allowing buildings of such heights with a 5 metre height to boundary will destroy the heritage or character from a visual point of view and reduce the well-being of residents due to insufficient light and sunshine. This will likely to lead to degradation and abandonment of these properties.	Seeks that a 'transition zone' of Medium Density Residential Zoned land at least one property wide is required between any Character Precinct or Heritage Area border and the High Density Residential Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	FS82.171	General / Mapping / Mapping General / Mapping General	Support	Considers it is important for heritage buildings and areas and character precincts not to be overshadowed by bulk or form of an adjacent tall buildings. Considers it is a well settled principle that heritage buildings ought to have a curtilage around them to protect public views of the heritage building whilst also providing for development that is not inappropriate in terms of section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.81	General / Mapping / Mapping General / Mapping General	Support	Considers that it is important for heritage buildings/areas not to be overshadowed in bulk and form by adjacent tall buildings. Considers that it is a settled legal principle that heritage buildings have a curtilage around them to protect public views of the heritage building while otherwise providing for appropriate development.	Allow
Jonathan and Tricia Briscoe	190.5	Mapping / Mapping General / Mapping General	Amend	Considers that the east side of Lipman Street should be a Character Precinct.	Seeks that the east side of Lipman Street is made a Character Precinct.
Wellington's Character Charitable Trust	FS82.188	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Mount Victoria Historical Society	214.1	Mapping / Mapping General / Mapping General	Amend	<p>Considers that there is strong evidence that the character areas in Mt Victoria should be considerably larger than they are.</p> <p>Considers that Boffa Miskell's house-by-house analysis resulted in the definition of a clear Primary/Contributory character area which should be the minimum extent of Character Precincts. Therefore, even the WCC Officers' Final Spatial Plan Recommendation (pre-Council amendment 24 June 2021) area represents a political compromise, not justified by the evidence WCC, itself, commissioned.</p> <p>Considers that the Proposed District Plan creates small, disconnected blocks where the character can be destroyed by high-density development around, for little housing gain on a city-wide scale.</p> <p>Considers that Mt Victoria's character is unique in Wellington and New Zealand for its concentration of Victorian and Edwardian wooden dwellings. It is important to both for its accessibility and visibility, and for the cultural, social and economic stories it tells about the development of Wellington.</p> <p>[Refer to original submission for full reason]</p>	<p>Seeks that Character Precincts in Mount Victoria be extended to encompass:</p> <ol style="list-style-type: none"> 1. The Boffa Miskell Primary/Contributory Character sub-area; and 2. Heritage New Zealand Pouhere Taonga's recommendations. <p>[As illustrated in the submission]</p>
Historic Places Wellington Inc	FS111.119	General / Mapping / Mapping General / Mapping General	Support	<p>Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.</p>	Allow
Nga Kaimanaaki o te Waimapihi	215.1	Mapping / Mapping General / Mapping General	Amend	<p>Considers that we need to preserve and restore indigenous native fauna.</p> <p>As well as preying on our native birds, cats also eat a large number of our native lizards and wētā (which are still in decline).</p>	<p>Add a buffer area around significant natural areas to support recovering populations of endangered (once locally extinct) endemic species where pets would not be allowed to roam.</p>
Kāinga Ora – Homes and Communities	FS89.86	General / Mapping / Mapping General / Mapping General	Oppose	<p>Kāinga Ora opposes this submission due to concerns about the implications for enabling housing intensification, particularly as other submitters seek that urban significant natural areas are also identified.</p> <p>Kāinga Ora notes that the District Plan cannot manage domestic animals.</p>	Disallow
Sam Stocker & Patricia Lee	216.3	Mapping / Mapping General / Mapping General	Amend	<p>Considers that far too much historic character areas have been left out of the Newtown and Berhampore areas which will destroy quality of life for their community.</p> <p>The land is not needed to help cope with Wellingtons increasing population.</p> <p>Land values will soar and will lead to unpayable rates bills and loss of sunlight access.</p> <p>New builds more than three storeys high are expensive and won't provide low-cost housing.</p> <p>Average residents will either be forced away or live in ghetto conditions.</p> <p>[Refer to original submission for full reason]</p>	<p>Seeks that any areas that include pre-1935 buildings be included as character precincts.</p> <p>[Inferred decision requested]</p>
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.48	Mapping / Mapping General / Mapping General	Support	<p>Supports submission that seeks character precinct extensions in Newtown.</p>	Allow

David Walmsley	229.1	Mapping / Mapping General / Mapping General	Oppose	<p>Considers that the site at 1 Carlton Gore Road is at the very end of the view shaft and that any development within this residential area will have no effect on the views out from the Cable Car location to the hill.</p> <p>Correspondence with WCC officers have indicated that they support the decision to reduce the viewshafts to the centre area zone and waterfront zones.</p> <p>Considers that as the viewshafts did not apply to the residential zones in the ODP this cannot be the case for the residential zones.</p> <p>Considers there is very little evidence to support the fact that view shafts are a qualifying matter for the property, or any properties subject to the MDRS.</p> <p>[Refer to original submission for full reason and correspondence]</p>	Remove the viewshaft from 1 Carlton Gore Road.
Lorraine and Richard Smith	230.9	Mapping / Mapping General / Mapping General	Amend	<p>HRZ-S2 height limit of 21m with regards to Lower Kelburn Neighbourhood.</p> <p>Considers that an 11m height limit will help preserve the unique character of the area.</p> <p>Lower Kelburn is not suitable for 21m height limit because of steep and narrow access, hilly and deeply indented physical character which would require significant infrastructural development to intensify.</p> <p>[Refer to original submission for full reason]</p>	Seeks that the height limit in Lower Kelburn is set to 11m.
Wellington's Character Charitable Trust	FS82.272	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.167	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Lower Kelburn Neighbourhood Group	FS123.17	General / Mapping / Mapping General / Mapping General	Support	Considers that Wesley Precinct and Lower Kelburn, the area between Bolton St to San Sebastian Rd or the cable car, and between the Botanic Gardens and the Motorway should be classified as a Character Precinct with demolition controls and height limit of 11m for the many reasons outlined the submission and others referred to in further submission, including that of Lower Kelburn Neighbourhood, submission 356.	Allow
Wellington's Character Charitable Trust	233.4	Mapping / Mapping General / Mapping General	Amend	Considers that appropriate protection of pre-1930s buildings and structures is necessary to protect heritage buildings from inappropriate development, which is a matter of national importance under s6 of the Resource Management Act.	<p>Amend the MRZ-PREC01 (character precincts) in the mapping to include all existing pre-1930s character areas (Appendix 1 of Chapter 5 of the Operative District Plan).</p> <p>[Inferred Decision Requested]</p>
Willis Bond and Company Limited	FS12.6	General / Mapping / Mapping General / Mapping General	Oppose	The submitters seek to include Te Ngākau Civic Square as a heritage area. While Willis Bond and Company Limited appreciate the reasons for the submissions and are supportive of protecting historic heritage, we agree with Heritage New Zealand Pouhere Taonga(sub 70.35) that the proposed Te Ngākau Civic Square Precinct provisions adequately address heritage considerations within the area.	Disallow / For clarity, we support the inclusion of Wellington Central Library as a heritage building within SCHED1.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Thorndon Residents' Association Inc	F569.88	General / Mapping / Mapping General / Mapping General	Support	<p>Appropriate protection of pre-1930s buildings</p> <p>10min walkable catchment</p> <p>Specific heritage identification and assessment</p> <p>Views contributing to sense of place and identity</p> <p>Extend Character Precincts per Boffa Miskell</p> <p>Boffa Miskell streetscapes</p> <p>Appropriate protection of pre-1930s buildings</p> <p>CCZ encroachment on residential zones</p> <p>Old St Pauls height controls</p> <p>Preserve viewshalfs</p>	Allow
Century Group Limited	238.1	Mapping / Mapping General / Mapping General	Oppose	<p>Opposes the imposition of a Veranda Control along the frontage of the Property and the other properties along the length of Waterloo Quay (northeast of Bunny Street).</p> <p>Considers that the pedestrian activity in the vicinity of the subject site is predominantly generated by the railway and the Wellington Regional Stadium. These are connected by a pedestrian bridge walkway, which also provides a sheltered pedestrian route at the ground level. Waterloo Quay is a vehicular route to the city, and there are no pedestrian-orientated activities fronting the road which would otherwise justify the need for veranda protection along the footpath.</p> <p>Does not consider that there is sufficient justification for imposing a costly requirement to provide veranda protection along the frontage of the Property, relative to the low level of pedestrian activity along the road, the alternative, protected pedestrian routes that exist between major pedestrian destinations, and the inconsistent application of the Veranda Control along Waterloo Quay.</p>	Delete the 'Veranda' control as it relates to the land along both sides of Waterloo Quay, to the north-east of Bunny Street.
Century Group Limited	238.2	Mapping / Mapping General / Mapping General	Support	Supports the spatial extent of the 'Active Frontages' control as shown on the Map Viewer, insofar as the control does not apply to the Property. Considers that the relationship of the Property to the commercial core of the City Centre, and the 'utilitarian' characteristics of the Property and the surrounding land, are such that active building frontages would be an inappropriate and onerous imposition on the development of this land.	Retain the extent of the Active Frontages control as notified.
Century Group Limited	238.3	Mapping / Mapping General / Mapping General	Support	Supports the spatial extent of Designation KRH1 as shown on the Maps at the time of making this submission, insofar as Designation KRH1 does not apply to the Property.	Retain the extent of Designation KRH1, specifically as it is not applied to the property (83-87 Waterloo Quay).
Alan Fairless	242.9	Mapping / Mapping General / Mapping General	Amend	<p>Considers that throughout the city are many sites that sit idle or underutilised. Developing these sites provides a means to addressing much of the future housing demand while avoiding adverse effects on quality, amenity and character.</p> <p>[Refer to original submission for full reasons].</p>	Seeks that the District Plan sets out a clear sequence for intensification that focusses first on major areas of underutilised land and smaller groups of underutilised sites close to public transport, rather than upzoning broad areas of land.
Friends of Khandallah	252.2	Mapping / Mapping General / Mapping General	Amend	<p>Considers that large scale residential will lead to erosion of commercial by residential.</p> <p>Theoretical planning from other cities is not necessarily good for Khandallah.</p> <p>Commercial areas need to be protected in Khandallah for resilience and emergencies.</p> <p>[Refer to original submission for full reason]</p>	<p>Seeks that the height control limits in for the Khandallah centre are reduced from 22m - 35m (as part of a resource consent) to 8m.</p> <p>[Inferred decision requested]</p>
Massey University	253.1	Mapping / Mapping General / Mapping General	Amend	Considers the zone boundary for the Tertiary Education Zone does not fully capture all of Massey Universities interests and buildings within the Massey University campus area. It is proposed that the zone boundary be amended to fully contain all of the Massey University campus.	<p>Amend the district plan zoning map so that the boundary for the Tertiary Education Zone at the Massey University Campus accurately captures all of the campus.</p> <p>See Attachment 2 for boundary changes sought.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Generation Zero Inc	254.6	Mapping / Mapping General / Mapping General	Support	GZ Inc supports PDP's identification of areas with high concentrations of character (i.e. areas with a predominance of primary classified buildings). [Refer to original submission for full reason]	Retain the extent of the character precincts as notified which only include properties that have been identified as having high concentrations of character (i.e. areas with a predominance of primary classified buildings).
Historic Places Wellington Inc	FS111.91	General / Mapping / Mapping General / Mapping General	Oppose	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Disallow
Prime Property Group	256.1	Mapping / Mapping General / Mapping General	Oppose	Opposes the 'Spenmoor Street Area' mapping layer related to policy the submitter seeks deletion of.	Delete the 'Spenmoor Street Area' from the planning maps.
Vital Healthcare Property Trust	258.1	Mapping / Mapping General / Mapping General	Support	Supports the application of the Special Purpose Hospital Zone at Bowen and Wakefield Hospitals	Retain the Special Purpose Hospital Zoning at Bowen Hospital (98 Churchill Drive) and Wakefield Hospital (30 Florence Street) as notified.
Mike Robbers	264.1	Mapping / Mapping General / Mapping General	Amend	Considers that there are a large number of character homes on Lawrence Street, some of the homes have Māori names in stained glass on the front of the properties. [Refer to original submission for full reason]	Seeks that Character Precincts are extended in the mapping to encompass Lawrence Street, Newtown.
Wellington City Council	266.7	Mapping / Mapping General / Mapping General	Amend	Considers the mapped viewshaft 8 (Panama Street) does not match with the VS8 description and picture in Schedule 5 as it extends over Customhouse Quay and Jervois Quay. In the maps, it dog-legs inwards at the boundary with Customhouse Quay. Also, VS8 in Schedule 5 describes the viewshaft as protecting views to the inner harbour and Oriental Bay, with Roseneath and Town Belt as context elements. To achieve this, the mapped overlay needs to extend over Queens Wharf to the water's edge in the same way the other viewshafts do. Otherwise, development in the Waterfront Zone could block the view described and photographed in Schedule 5 (Viewshafts).	Seeks to extend the VS8 (Panama Street) in the Planning Maps to be an even fan (i.e. remove cut-out from Intercontinental Hotel) over Jervois Quay and Queens Wharf to the water's edge.
Panorama Property Limited	FS11.1	General / Mapping / Mapping General / Mapping General	Oppose	This point on mapping omits to address the anomaly that is the inclusion of 1 Upland Road in the OSZ. Panorama opposes these mapping errors/changes because they omit to redraw the OSZ to exclude the Site and are incomplete as a result. Panorama submits that the inclusion of the site in the OSZ is contrary to the purpose and principles of the RMA and the Council's obligations and functions under the RMA and is unsupported by the Council's s 32 assessment. The site is owned by Council on behalf of the city's ratepayers and provides a reasonable rate of return under the long-term commercial lease. Its zoning should reflect that commercial realty. Panorama refers back to their submission (#10.1) for reasons and relief sought. [Refer to further submission for full reason]	Disallow / Seeks that the submission point is disallowed, or alternative relief that may give better effect to the issues described in the further submission.
Wellington's Character Charitable Trust	FS82.297	General / Mapping / Mapping General / Mapping General	Support	[No specific reason given beyond decision requested - refer to further submission]	Allow
Historic Places Wellington Inc	FS111.65	General / Mapping / Mapping General / Mapping General	Support	Considers that viewshaft 8 needs amendment to achieve the purpose of protecting views of the heritage waterfront area.	Allow
Wellington City Council	266.8	Mapping / Mapping General / Mapping General	Amend	Considers the extent of SCHED3 (Heritage Areas) Item 43 should be amended to exclude the park on 52 Elizabeth St and properties in the park's proximity.	Seeks to remove Schedule 3 overlay as shown in image supplied in full submission.

Horokiwi Quarries Ltd	271.5	Mapping / Mapping General / Mapping General	Support	Support for the application of the Special Purpose Quarry Zone to the site (and for this zoning to be applied to adjoining sites owned by Horokiwi).	Retain Special Purpose Quarry Zone, with amendments.
Horokiwi Quarries Ltd	271.6	Mapping / Mapping General / Mapping General	Amend	Considers that specific to Natural Features, their site and adjoining properties feature Special Amenity Landscapes (SALs) and Ridgelines and Hilltops. There are not Outstanding Natural Features and Landscapes (ONFLs) within the vicinity of the site.	Not specified.
McDonald's	274.2	Mapping / Mapping General / Mapping General	Support in part	In general, the submitter (McDonald's) supports the zonings that have been applied to their existing restaurants.	Not specified.
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.3	Mapping / Mapping General / Mapping General	Amend	Opposes extent of the character precincts to the extent that they do not include areas that are currently protected by the pre-1930s demolition control in the operative district plan. [Refer to original submission for full reason]	Extend the extent of the character precincts to that of the operative district plan [Inferred decision requested]
Historic Places Wellington Inc	FS111.194	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow
Claire Nolan, James Fraser, Biddy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.4	Mapping / Mapping General / Mapping General	Amend	Supports an extension of character precincts to include all the houses in the Officers Recommended Plan from June 19, 2021. The site-by-site analysis found that some 300 houses contributed sufficiently to the character and streetscape of Newtown. These houses also passed the test established by the officers as Qualifying Matters for exemption from the NPS-UD and MDRS. Considers that these houses therefore should be exempt from intensification, and be covered by Character Precinct rules, in particular the pre-1930 demolition rule. Almost all of the houses identified by the ORP are deemed to be primary or contributory by Boffa Miskell. In addition, these houses all demonstrate assemblages of consistent character streetscape [Refer to original submission for full reasons]	Amend Character Precincts to match that of the Officer Recommended Spatial Plan which include the following sites: Balmoral Terrace - 3, 5, 7, 9, 2, 4, 6, 8, 10. Blucher Avenue - 1, 3, 5, 7, 9, 2, 4, 6, 8, 10. Coromandel Street - 1, 1A, 5, 7, 9, 11, 11, 13, 15, 17, 83, 85, 87, 89, 91, 93, 127, 135, 137, 139, 6, 8, 10, 12, 14, 16, 22, 90, 92, 96, 100, 102, 104, 106. Daniell Street - 147, 149, 157, 159, 82, 84, 86, 88, 90, 92, 94, 124, 126, 128, 130, 132, 134, 136, 162. Harper St 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 2, 4, 6, 8, 10, 12, 14, 16, 18, 20. Lawrence St 7, 9, 11, 11A, 13, 15, 17, 19, 21, 23, 25, 27, 10, 12, 14, 16, 18, 20, 22, 24. Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.6	Mapping / Mapping General / Mapping General	Amend	Considers that the area has special historical qualities.	<p>Seeks that the following sites are added as a new heritage area:</p> <p>Emmett St 6, 8, 10A, 12, 14, 16, 18, 20.</p> <p>Green St 1, 5, 7, 7A, 9, 13, 15, 17, 19, 2, 2A, 4, 6, 10, 12, 14, 18, 20.</p> <p>Donald Maclean St 16, 24, 28, 30, 36, 38, 17, 19, 21, 25, 27, 29, 31, 33, 35, 37.</p> <p>Normanby St 12, 14, 16, 18, 20, 22, 24, 30, 32, 34, 19, 21, 23, 25, 27, 29, 31, 33, 35, 37, 39, 41.</p>
Historic Places Wellington Inc	FS111.47	General / Mapping / Mapping General / Mapping General	Support	HPW supports the recognition of heritage within those areas in Newtown, which have specific and identified cultural historical value. These areas should be protected from inappropriate subdivision or development in accordance with s.6 RMA.	Allow
Historic Places Wellington Inc	FS111.116	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Laura Gaudin	279.1	Mapping / Mapping General / Mapping General	Amend	Supports character precincts and considers that these could be extended.	Seeks that character precincts are extended in the mapping.
Toka Tū Ake EQC	282.1	Mapping / Mapping General / Mapping General	Amend	<p>Considers that the provisions for landslide hazard mitigation in the earthworks section of the PDP are not sufficient, as they rely on individual assessments of sites and could be applied inconsistently. They also allow for developments which do not require earthworks in areas which are at risk of slope failure. Applying a Landslide Hazard overlay (such as the nonregulatory landslide overlay) and restricting development within high-hazard areas will preclude inconsistent application of earthworks rules and prevent subdivision and development on slopes prone to failure. Considers that while there is a restrictive disclaimer on the existing non-regulatory GNS Science SLIDE Geomorphology Map, the uncertainties in a landslide hazard overlay developed from this map can be managed through policy.</p>	Seeks that a landslide hazard overlay is included into planning maps. This overlay would be linked to provisions that restrict development (through sensitive activities) implemented in high-risk areas.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	FS84.126	General / Mapping / Mapping General / Mapping General	Support	Greater Wellington support the submitter's request for additional provisions to control development on land that is at higher risk of slope failure. By identifying and managing this risk, the risk to life, property and well-being of future urban intensification can be appropriately minimised. These changes would have regard to Proposed RPS Plan Change 1, specifically Policy 51.	Allow / Supports the submission in part and seeks additional controls on landslide hazards to manage landslide risk on steep land. Considers that some controls should apply to slopes from ~20-34°. Seeks that the matters of control for these areas include a site-specific geotechnical investigation to ensure slope failure hazards are appropriately managed.
Toka Tū Ake EQC	282.2	Mapping / Mapping General / Mapping General	Amend	Considers that the terminology 'Fault Hazard Overlay' should be consistent with the MfE guidelines i.e. Fault Avoidance Zone, and that including the use of confined, unconfined, distributed and uncertain fault areas where appropriate. Considers that the supporting s32 information indicates that the Fault Hazard Overlay are the mapped Fault Avoidance Zones that are mapped in the supporting report; however, this is not explained in the s32. Considers that the description of 'fault hazard' needs to be clarified or amended to reflect how it is shown on the maps i.e., a band, which are at different widths on the map, which we assume reflects the certainty of the fault location.	Seeks that mapping of any "Fault Hazard Overlay" is changed to "Fault Avoidance Zone" and that mapping includes confined, unconfined, distributed, and uncertain fault areas.
Onslow Residents Community Association	283.1	Mapping / Mapping General / Mapping General	Amend	<p>Considers that Khandallah is a small neighbourhood village that only supports its local community. The adjacent centres of Ngaio-Crofton Downs and Johnsonville have all the services Khandallah has, and also contain larger facilities, so do not require such support. The current supermarket and retail shops, plus services including medical, education, recreation, etc. are all small and are at capacity right now. The road the retail centre is on is a constrained one-lane road.</p> <p>They therefore will not support the increased demand coming from the significant medium density development proposed by 14m zones.</p> <p>Considers that the three waters infrastructure in Khandallah will not support intensification.</p> <p>[Refer to original submission for full reason]</p>	Amend the mapping in Khandallah to remove 14m building heights in the Medium Density Residential Zone and replace them with 11m building heights.
Onslow Residents Community Association	283.2	Mapping / Mapping General / Mapping General	Amend	<p>Considers that Khandallah Centre does not "Commensurate with the level of commercial activity and community services "required by NPS-UD Policy 3 (d).</p> <p>Khandallah as a very small centre built around the single-lane Ganges Road, which is a NWSE wind corridor. 22m development will create an unacceptable wind tunnel effect in this centre, and deprive businesses and residents of sunlight.</p> <p>The scale of residential proposed on top of ground floor retail in Local Centres is an unproven strategy in the suburbs of Wellington that may result in the loss of commercial facilities. This is exacerbated by only requiring a nominal shop window, which can be left unlet without impacting the commercial viability of the development.</p> <p>This is further compounded by the lack of delivery access or any open space around our small centre, which will create congestion and noise for the residents in the 22m development.</p> <p>The resulting loss of the commercial centre facilities then becomes a Catch-22, as only a smaller population can be supported, which confirms that Khandallah must be a Neighbourhood Centre.</p>	Amend the mapping in Khandallah Centre to remove 22m building heights in the Local Centre Zone and replace them with 12m building heights.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Eldin Family Trust	287.1	Mapping / Mapping General / Mapping General	Amend	<p>Considers that the rezoning of Selwyn Terrace would be a dramatic change and would enable activities that conflict with the current primary use of Selwyn Terrace as a distinct enclave of residential dwellings.</p> <p>Considers that the Council is incorrect to say that Selwyn Terrace already has a mixture of land uses.</p> <p>Does not agree that a land use change is necessary to support a mixture of activities and growth, considering the street is very narrow and steep access, with a single carriageway for much of its length. A change to a commercial zoning would place unreasonable demand on vehicle and pedestrian access.</p> <p>Considers that Selwyn Terrace has a high concentration of pre-1930s character as evidenced by the 2019 Pre-1930s character area review report.</p> <p>Considers that 9 Selwyn Terrace is an excellent example of the work of one of Wellington's pre-eminent architects of the 20th Century, William Gray Young.</p> <p>Selwyn Terrace has special historic context as a reminder of the original suburb prior to the construction of the Wellington Motorway.</p> <p>Considers the plan provides sufficient development capacity without needing to change planning settings in Selwyn Terrace.</p> <p>[Refer to original submission for full reason]</p>	Seeks that Selwyn Terrace, Thorndon is included as a Character Precinct in the mapping.
Thorndon Residents' Association Inc	FS69.1	General / Mapping / Mapping General / Mapping General	Support	<p>The Selwyn Tce enclave has a significant visual connection with Thorndon residential character across the urban motorway. Anchored where it is, this enclave of quality character residential Thorndon dwellings marks an important part of the suburb's unique story and history.</p> <p>Many significant residential properties in Thorndon were destroyed by the construction of the urban motorway. Some of the properties in Selwyn Tce lost land to this project.</p> <p>This makes what remains of historic residential character in Thorndon, especially the significant examples on the eastern side of the motorway, all that more precious and appreciated.</p> <p>The Selwyn Tce enclave is a significant contributor to the residential character of Thorndon, and the inner city.</p>	Allow
Wellington's Character Charitable Trust	FS82.288	General / Mapping / Rezone / Rezone	Support	<p>Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.</p>	Allow
Kilmarston Developments Limited and Kilmarston Properties Limited	290.3	Mapping / Mapping General / Mapping General	Amend	<p>Considers zoning of area of NOSZ being restrictive and would limit building reservoir within the area. [Refer to original submission for full reason]</p>	<p>Seeks that as an alternative to the provisions of the Natural Open Space Zone, that an area be carved out where reservoirs would be located, subsequently zone Residential.</p> <p>[inferred decision requested]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Janine Hearn	FS31.1	General / Mapping / Mapping General / Mapping General	Oppose	<p>Submitters' house faces the hill where the proposed developments are to happen. Submitters' family use the forested area entering via Silverstream road dog park into Huntleigh Park on bush walks frequently. The submitter goes up to Crows Nest through this track frequently. The submitter is teaching their children the value of our native bush by showing them what beautiful taonga they have spotted in the bush - flora and fauna.</p> <p>In the area of native forest that is proposed to be developed are resident native bird populations including Kaka, Piwakawaka, Kakariki (yes we have spotted them in there), Kereru, Riroriro (grey warbler) and Tui. The resident native bird population living in that area of bush is growing and growing. Predator Control in surrounding Ngaio and Crofton Downs has taken off allowing the resurgence of pests from suburbia to abate, and now the native bird life in these hills is flourishing. The bird song from native birds especially Kaka in that tract of bush is so loud, particularly at dawn and dusk. There is a particular tree within the submitted zone that is home to many kaka. This area of forest is ecological high value as submitted by GWRC in this report: https://www.gw.govt.nz/assets/Documents/2020/04/Key-Native-Ecosystem-Operational-Plan-for-Western-Wellington-Forests-2019-2024.pdf</p>	Disallow / Seeks that any forested area not be rezoned to allowed forest to be developed into housing. The NOSZ (Natural Open Space Zone) should be applied to this site as per the Proposed District Plan.
Adam Groenewegen	FS46.3	General / Mapping / Mapping General / Mapping General	Oppose	<p>Opposes modifying the NOSZ in the way proposed as a reservoir of the size planned is completely out of scale and nature of the proposed zoning which is designed to protect the high amenity values of land surrounding Crows Nest. Barry Cottier has had previous consents for land use and subdivisions that resulted from a controversial environment court proceeding. He has failed to act on those consents and they have lapsed. A Code of Compliance issued earlier in 2022 for clearance of all vegetation from previously planned earthworks areas was issued by Council on the basis that previous land use consents had lapsed. In 2019 Barry Cottier proposed a complete rework of the earthworks and subdivision plan to garner council support for extending the consents, that did not feature any reservoir. A master plan process was promised but has not been actioned.</p>	Disallow / Disallow that part of the submission that seeks to enable a large reservoir to be built in a NOSZ or on land that is proposed to be NOSZ.
Jo McKenzie	FS64.2	General / Mapping / Mapping General / Mapping General	Oppose	<p>Jo McKenzie opposes modifying the NOSZ in the way proposed as a reservoir of the size planned is completely out of scale and nature of the proposed zoning which is designed to protect the high amenity values of land surrounding Crows Nest. The original submitter has had previous consents for land use and subdivisions that resulted from a controversial environment court proceeding.</p> <p>Jo McKenzie considers that original submitter has failed to act on those consents and they have lapsed. A Code of Compliance issued earlier in 2022 for clearance of all vegetation from previously planned earthworks areas was issued by Council on the basis that previous land use consents had lapsed. In 2019 the original submitter proposed a complete rework of the earthworks and subdivision plan to garner council support for extending the consents, that did not feature any reservoir. A master plan process was promised but has not been actioned.</p>	Disallow / Disallow the part of the submission that seeks to enable a large reservoir to be built in a NOSZ or on land that is proposed to be NOSZ.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.13	General / Mapping / Mapping General / Mapping General	Oppose	<p>We are concerned that the biodiversity values of the submitter's properties would mean significant destruction of habitat and indigenous flora and fauna if a reservoir was to be constructed. This is out of step with s6(c) of the RMA. Furthermore, there is no analysis of the size of the footprint, the location or an assessment of whether this infrastructure is even necessary to service the site and the wider Ngaio area.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Andy Foster	FS86.43	General / Mapping / Mapping General / Mapping General	Oppose	<p>Considers that it is not reasonable to allow for housing development to intrude into the land zoned Open Space and Rural in the Operative Plan. The landscape impacts would be substantial, both of any housing and of the roading access. The impacts on vegetation would also be significant. Notes that the area of bush at the bottom of the site, immediately adjacent to and climbing up from Silverstream Road is of particularly high quality. The concept of putting housing or an access road through it would be entirely unreasonable. For all these reasons Andy Foster opposes any development in this area beyond a carefully designed reservoir.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to submission 290.3]</p>	Disallow
Tracey Henderson	FS102.1	General / Mapping / Mapping General / Mapping General	Oppose	<p>Living so close to the proposed development we enjoy watching the HUGE amount of bird life flying to the trees. A large amount of Kaka, Piwakawaka, Tui and Keruru can be seen flying here on a daily basis. We frequently take hikes with the kids through the bush track up to Crows Nest, learning as we go. This area of forest is ecological high value as submitted by GWRC in this report: https://www.gw.govt.nz/assets/Documents/2020/04/Key-Native-Ecosystem-Operational-Plan-for-Western-Wellington-Forests-2019-2024.pdf</p>	Disallow / Seeks that any forested area not be rezoned to allowed forest to be developed into housing. The NOSZ (Natural Open Space Zone) should be applied to this site as per the Proposed District Plan.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.4	Mapping / Mapping General / Mapping General	Amend	<p>Considers zoning of area of NOSZ being restrictive and would limit building reservoir within the area. [Refer to original submission for full reason]</p>	<p>Seeks a designation over the land to accommodate a reservoir.</p> <p>[Inferred decision requested]</p>
Adam Groenewegen	FS46.2	General / Mapping / Mapping General / Mapping General	Oppose	<p>Opposes modifying the NOSZ in the way proposed as a reservoir of the size planned is completely out of scale and nature of the proposed zoning which is designed to protect the high amenity values of land surrounding Crows Nest. Royal Forest and Bird Protection Society of New Zealand Inc	FS85.15	General / Mapping / Mapping General / Mapping General	Oppose	<p>It's unclear what is meant by 'tenure' of the land. We appreciate that this submitter shows good will to the community by permitting access onto his land for informal recreation by the public. The NOSZ should be retained but we are not clear what is being implied by negotiating tenure with the council. This process should be transparent and possibly subject to a private plan change if necessary.</p>	Disallow / Seeks that the part of the submission supporting the Natural Open Space zoning be allowed.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kilmarston Developments Limited and Kilmarston Properties Limited	290.6	Mapping / Mapping General / Mapping General	Not specified	<p>Considers that it is important that proposed NOSZ is introduced to protect the recreational, natural, landscape and ecological values of the Open Space areas that the Submitter owns.</p> <p>The Submitter currently permits access onto his land for informal recreation by the public. The land holding provide informal connections from Ngaio to Crow's Nest and the Skyline Walkway– both of which are entirely located within the proposed NOSZ.</p> <p>Considers that the proposed SAL provisions will be consistent with the NOSZ provisions which can better deal to the formation of access and buildings and structures to facilitate informal recreation activities.</p> <p>Considers this zoning on the balance of the Submitters land acceptable, subject to agreement being reached by WCC with Submitter on the appropriate tenure of the land.</p>	Seeks that alternatively, that the land be rezoned Large Lot Residential Zone (part Medium Density Residential Zone) or equivalent, to enable subdivision consent.
Adam Groenewegen	FS46.24	General / Mapping / Mapping General / Mapping General	Oppose	Opposes the proposal to, in the alternative to WCC agreeing appropriate tenure issues over the SW NOSZ land, to rezone it Large Lot residential or part (5500m2) as MDRZ. These proposals fly in the face of the incredibly high natural values of this land and seem a poorly thought through route to force the hand of WCC to complete reserve purchase or contribution negotiations. The suggested MDRZ area of 5500m2 is on an incredibly steep south facing cross slopes with a narrow road frontage (5m)and difficult access over an old stream bed. Vegetation in this area also has high biodiversity values. Development here sandwiched in between high biodiversity WCC reserve land would be inappropriate.	Disallow
Jo McKenzie	FS64.24	General / Mapping / Mapping General / Mapping General	Oppose	Opposes the proposal to, in the alternative to WCC agreeing appropriate tenure issues over the SW NOSZ land, to rezone it Large Lot residential or part (5500m2) as MDRZ. Considers that these proposals fly in the face of the incredibly high natural values of this land and seem a poorly thought through route to force the hand of WCC to complete reserve purchase or contribution negotiations. The suggested MDRZ area of 5500m2 is on an incredibly steep south facing cross slopes with a narrow road frontage (5m)and difficult access over an old stream bed. Vegetation in this area also has high biodiversity values. Considers that development here sandwiched in between high biodiversity WCC reserve land would be inappropriate.	Disallow
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.16	General / Mapping / Mapping General / Mapping General	Oppose	It is unclear where the rezoning being requested occurs. See above regarding our uncertainty regarding 'tenure.'	Disallow / Seeks clarification of what is being sought regarding submission point 290.6.
Priscilla Williams	293.2	Mapping / Mapping General / Mapping General	Amend	Considers that the hilly terrain makes this area unsuitable for high rise building.	Seeks that the Height Control in the area spanning Wesley Road, Aurora Terrace and Bolton Street is amended to be no higher than 11m.
Lower Kelburn Neighbourhood Group	FS123.18	General / Mapping / Mapping General / Mapping General	Support	Considers that Wesley Precinct and Lower Kelburn, the area between Bolton St to San Sebastian Rd or the cable car, and between the Botanic Gardens and the Motorway should be classified as a Character Precinct with demolition controls and height limit of 11m for the many reasons outlined the submission and others referred to in further submission, including that of Lower Kelburn Neighbourhood, submission 356.	Allow
Johanna Carter	296.2	Mapping / Mapping General / Mapping General	Oppose	Opposes the MRZ objectives, policies and standards	Opposes Medium Density Residential zone chapter as mapped.
Johanna Carter	296.3	Mapping / Mapping General / Mapping General	Amend	[No specific reason given for decision requested - see original submission for further reason]	<p>Seeks that the extent of the MRZ (Medium Density Residential Zone) is amended to better reflect the conditions of the particular areas of the city, including the following factors:</p> <ul style="list-style-type: none"> - water supply - wastewater - drainage services
Tapu-te-Ranga Trust	297.1	Mapping / Mapping General / Mapping General	Support	Supports site #76 being identified on the planning maps.	Retain presence of site and area of significance #76 - Tapu Te Ranga Marae, as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Tapu-te-Ranga Trust	297.2	Mapping / Mapping General / Mapping General	Amend	Seeks amendment to maps as it is noted the property details on the PDP maps incorrectly refer to the site as #73.	Amend maps to reflect Tapu te Ranga Marae as being site #76, not #73.
Matthew Plummer	300.2	Mapping / Mapping General / Mapping General	Amend	Considers that the Character Precincts should be extended to encompass Boffa Miskell's recommendations in the Pre-1930 Character Area Review.	Extend the character precincts in the mapping.
Historic Places Wellington Inc	FS111.195	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow
Aggregate and Quarry Association	303.5	Mapping / Mapping General / Mapping General	Support	The zoning of the Horokiwi Quarry as a Special Purpose Quarry Zone is supported.	Retain Horokiwi Quarry as a Special Purpose Quarry Zone.
Firstgas Limited	304.5	Mapping / Mapping General / Mapping General	Amend	Considers that the Gas Transmission Pipeline and Corridor, as well as above ground infrastructure should be included in the Planning Maps. The Gas Transmission Pipeline, Corridor and above ground infrastructure is sought to be captured by the rule framework and therefore is sought to be illustrated. [Co-ordinates of the Corridor and above ground infrastructure can be provided by the submitter.]	Amend Planning Maps to include the Gas Transmission Pipeline, Corridor and above ground infrastructure.
Roland Sapsford	305.8	Mapping / Mapping General / Mapping General	Amend	Considers that the exclusion of the lower part of Mortimer Terrace below Durham Street in the Character Precinct overlay may be an error that has been carried over from the Spatial Plan.	Amend Character Precinct overlay to include the lower part of Mortimer Terrace below Durham Street.
Wellington's Character Charitable Trust	FS82.251	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest of the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow

Roland Sapsford	305.18	Mapping / Mapping General / Mapping General	Amend	The boundary of the character precinct on Devon Street should be extended to include 30 Devon Street and properties in between to coincide with the start of properties below road level in Devon Gully. The current boundary makes no sense in terms of the actual streetscape, as it omits three properties at street level which are intimately related to the other sites within the character precinct. This may be a mapping error from the Spatial Plan.	Seeks that the Character Precinct overlay on Devon Street be extended to include properties between 21 and 30 Devon Street.
Wellington's Character Charitable Trust	FS82.261	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
LIVE WELLington	FS96.106	General / Mapping / Mapping General / Mapping General	Support	The Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest of this table. These proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.151	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Roland Sapsford	305.19	Mapping / Mapping General / Mapping General	Amend	<p>The boundary of the character precinct between Waimāpihi reserve and Holloway Road should be adjusted to reflect actual use. Historically, land on the Holloway Road side of the ridgeline has been excluded from open space zoning due to public ownership. This no longer applies.</p> <p>The existing bush covered “reserve” above properties on Holloway Road to the south of Carey St can be reclassified as natural open space and ought eventually to be reincorporated into the Waimāpihi Reserve. Some Holloway Road residents have expressed concern about Significant Natural Areas. This is a distinct issue from the point being made here, which is simply to adjust the zoning of the land currently functioning as natural open space reserve land to reflect that reality.</p>	Seeks that the Character Precinct overlay between Waimāpihi reserve and Holloway Road is adjusted to reflect actual use.
Wellington's Character Charitable Trust	FS82.262	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest of the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
LIVE WELLington	FS96.107	General / Mapping / Mapping General / Mapping General	Support	The Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest of this table. These proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.152	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or “heritage”) precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
James Coyle	307.1	Mapping / Mapping General / Mapping General	Amend	Considers that Newtown's zoning is inadequate. There is a crude circle around the central BRT bus stop that does not adequately take topography, daylight and existing amenities into account. Independent and talented urban design professionals mixed with local knowledge should be employed to do rigorous work for the district plan.	Seeks that Newtown's zoning be re-designed to take topography, daylight and existing amenities into account.
James Coyle	307.2	Mapping / Mapping General / Mapping General	Not specified	Considers that some areas are fine with maximum building heights of 21m due to topography. For example where the current Regent St Housing is tucked up against the hill.	Not specified.
David Karl	309.1	Mapping / Mapping General / Mapping General	Amend	Considers that Council required ground levels be raised by around a metre during the construction of a house on Trent Street. While not easy to check, it appears the current ground level of the house is not reflected in the hazard zones.	Seek hazard zones be amended to reflect latest ground levels (including to meet resource consent conditions that have been complied with).
Transpower New Zealand Limited	315.3	Mapping / Mapping General / Mapping General	Support	Supports the rollover of the Central Park Substation designation. Considers the substation is a key National Grid asset and requires protection by designation.	Retain designation TPR1 (Central Park Substation) in the mapping as notified.
Transpower New Zealand Limited	315.4	Mapping / Mapping General / Mapping General	Support	Supports the rollover of the Wilton Substation designation. Considers the substation is a key National Grid asset and requires protection by designation.	Retain designation TPR2 (Wilton Substation) in the mapping as notified.
Transpower New Zealand Limited	315.5	Mapping / Mapping General / Mapping General	Support	Supports the rollover of the Takapu Road Substation designation. Considers the substation is a key National Grid asset and requires protection by designation.	Retain designation TPR3 (Takapu Road Substation) in the mapping as notified.
Transpower New Zealand Limited	315.6	Mapping / Mapping General / Mapping General	Support	Supports the rollover of the Oteranga Bay Terminal Station designation. Considers the substation is a key National Grid asset and requires protection by designation.	Retain designation TPR4 (Oteranga Bay Terminal Station) in the mapping as notified.
Transpower New Zealand Limited	315.7	Mapping / Mapping General / Mapping General	Support	Supports the rollover of the Te Hikowhenua Shore Electrode Station designation. Considers the substation is a key National Grid asset and requires protection by designation.	Retain designation TPR5 (Te Hikowhenua Shore Electrode Station) in the mapping as notified.
Transpower New Zealand Limited	315.8	Mapping / Mapping General / Mapping General	Support	Supports the rollover of the Kaiwharawhara Supply Point Substation designation. Considers the substation is a key National Grid asset and requires protection by designation.	Retain designation TPR6 (Kaiwharawhara Supply Point Substation) in the mapping as notified.

Hilary Watson	321.7	Mapping / Mapping General / Mapping General	Amend	<p>Considers that PREC01 should be extended to include additional properties in Newtown. The balance between upzoning areas for increased density, and retaining valuable character areas has not been struck appropriately in the Proposed District Plan (PDP), and needs to be changed. A list of properties specifying the addresses of the additional properties that should be added to the Character Precinct has been provided in Appendix One. These properties were included in the Councillor Recommended Spatial plan from July 2021, the Boffa Miskell Pre-1930 Character Review and WCC officer recommendations.</p> <p>[See Appendix 1 to original submission for full list of properties]</p>	Amend the extent of MRZ-PREC01 (Character Precincts) in the mapping to include additional properties in Newtown.
Wellington's Character Charitable Trust	FS82.230	General / Mapping / Mapping General / Mapping General	Support	<p>Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.</p>	Allow
Historic Places Wellington Inc	FS111.110	General / Mapping / Mapping General / Mapping General	Support	<p>Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.</p>	Allow
Hilary Watson	321.8	Mapping / Mapping General / Mapping General	Amend	<p>Considers that Carrara Park should have 11m height control (Building Height Control 1) right round its boundary to get maximum possible sun all year round. Part of the properties around the park are currently inappropriately classified under Building Height Control 2 (21m).</p>	Seeks that all development around Carrara Park is subject to a maximum height limit of 11 metres and this is shown in the mapping.
Richard Murcott	322.5	Mapping / Mapping General / Mapping General	Amend	<p>Considers that Tiakiwai Stream's bed is not adequately recorded in the PDP. The stream flowed through a partially surveyed gully across the Thorndon Flat. Stilt foundations, retaining walls and the topography below the houses at 60 & 62 Hobson St are evidence that the houses were built on fill of a gully through which the Tiakiwai Stream flowed. Drainage plans from 1915 as well as the current drainage point on the eastern side of Hobson Street provide further evidence of the former location of the stream. Any qualifying matters that arise from knowing the feature's actual location should be identified.</p> <p>A publication is provided in the submission to show evidence of the stream's accurate location, as well as a map in attachments.</p> <p>[Refer to original submission for full reason, including attachments]</p>	Amend the 'Sites and Areas of Significance to Māori (lines)' overlay to adequately represent the flow bed of the Tiakiwai Stream.
Te Rūnanga o Toa Rangatira	FS138.20	General / Mapping / Mapping General / Mapping General	Oppose	<p>The submitter considers that Tiakiwai Stream's bed is not adequately recorded in the PDP. They request for the Sites and Areas of Significance to Māori overlay to be amended to adequately represent the flow bed of the Tiakiwai Stream. They also seek for the significance of Tiakiwai Stream to mana whenua to be considered. They also seek that the chapter should consider any seismic and other vulnerabilities that will arise when building. They consider that the location of the stream, item 60 of SCHED7 (Sites and Areas of Significance to Māori) is more correctly represented. Te Rūnanga o Toa Rangatira oppose this submission as this site is adequately recorded in the PDP, and its significance to mana whenua is considered as it is recorded in the Sites and Areas of Significance to Māori schedule.</p>	Disallow
Richard Murcott	322.6	Mapping / Mapping General / Mapping General	Amend	<p>Considers that the Character Precinct Area over the Hobson Street block in Thorndon should be restored, based upon Boffa Miskell's report.</p>	Seeks that Character Precincts in Thorndon be extended in the mapping to encompass Boffa Miskell's recommendations.
Thorndon Residents' Association Inc	FS69.41	General / Mapping / Mapping General / Mapping General	Support	<p>[Refer to Full Submission for reasons and examples of residential character of the Hobson precinct of Thorndon].</p>	Allow

Shelly Bay Road Limited	324.1	Mapping / Mapping General / Mapping General	Oppose	Supports the rezoning of 3 Shelly Bay from General Industrial Zone to Mixed Use Zone. The site known as Burnham Wharf is currently zoned as Business 2 Zone and subject to specific operational port rules. The site is currently being used as a car storage and bus parking area. The proposed district plan is to rezone this as a general industrial zone. The properties on the opposite side of the road are to be zoned either residential or mixed use. The General Industrial Zone does not allow for residential activities. The owners of the property request that the zone is changed from General Industrial Zone to Mixed Use to allow for the potential of future residential activities to occur. This would be in keeping with the surrounding wharf areas, such as Shelly Bay and allow for residential development in a desirable area close to Miramar. As this land is not held by the port authorities, it is not being used for port (or heavy industrial) activities. It will likely never be used as a functioning wharf again as the infrastructure and related buildings are removed from site. Thus, keeping this zoned for shipping or industrial activities will mean that the owners who wish to alleviate the residential housing market strain will need to put in a considerable amount of effort at the consenting stage. As such the most appropriate zone for this land is mixed use as it is a better management of resources. Any reverse sensitivity effects (such as noise and light) can be controlled with standards as is currently achieved in the central and centres area.	Rezone 3 Shelly Bay from General Industrial Zone to Mixed Use Zone.
Wellington International Airport Limited	FS36.245	General / Mapping / General	Oppose	WIAL opposes the proposed rezoning request as it will result in the intensification of noise sensitive activities within the "Inner Noise Overlay" (or Air Noise Boundary) at Wellington Airport, giving rise to potential reverse sensitivity effects on WIAL.	Disallow

Richard Benge	327.1	Mapping / Mapping General / Mapping General	Amend	Supports the rezoning of 33 Hiropi Street from Medium Density Residential Zone to High Density Residential Zone. This new zone is requested for the following reasons: Those included in the NPS-UD which allows for at least a 6-storey maximum height for medium density housing (high density housing according to the WCC PDP) within a walkable distance of the edge of the city centre and metropolitan centre zones, as well as existing and <u>planned</u> rapid transit stops. The existing environment already allows for high density residential developments given existing precedents at 109 and 111 Coromandel Street and 46 Hiropi Street that fall in the 21 m maximum height zone. Rezoning 33 Hiropi Street and neighbouring sites will turn existing developments into "compliant" developments with the maximum height regulations included in the PDP. The planned LGWM mass transit route between Wellington Railway Station and Island Bay from will provide potential for new housing and neighbourhood growth, as all mass transit options put forward by LGWM included a route through Riddiford St. Finally, a co-housing approach will reinforce the city's distinctive compact form, capitalise on lower levels of natural hazard risk in this area, increase the vibrancy of inner city living and support Wellington becoming a Zero Carbon Capital by reducing private vehicle reliance. Additionally, bringing 33 Hiropi St into the HRZ will provide an increase in accessible units at a time of housing need. (Option A) [Refer to original submission for full reasons]	Seeks that a High Density Residential Zone be introduced on Hiropi Street that includes 33 Hiropi Street..
Wellington's Character Charitable Trust	FS82.114	General / Mapping / Mapping General / Mapping General	Oppose	Considers the submission point is more enabling of intensification than the NPS-UD and MDRS and is not justified.	Disallow

Thorndon Residents' Association	333.7	Mapping / Mapping General / Mapping General	Amend	Considers that adjacent property owners, particularly of wooden structures, should be enabled to gain access for repairs and maintenance to their structures, and to maintain access to services/utilities and boundary fences. It references standard HRZ - S3 and states that "amend if necessary". 1.5m front yard setback and a 1 metre yard are considered absolute minimums (perhaps should be more).	Seeks that there are adequate setbacks for buildings and structures from neighbouring boundaries in any residential zone. 1.5m front yard setback and a 1 metre yard are considered absolute minimums (perhaps should be more).
Bruce Rae	334.1	Mapping / Mapping General / Mapping General	Amend	Considers that the walkable catchment for Johnsonville should be 5 minutes. It is appreciated that the walkable catchments took the effects of topography into account, rather than pretending Wellington was flat. A significant amount has been spent fairly recently on the Johnsonville line to ensure it is capable of using the same trains/electric units as the rest of the network. Given the above, it appears inconsistent that while the proposed plan set the tawa walkable catchments at 5 minutes (down from 10) it has deleted the 10 minute Johnsonville line walkable catchments completely, rather than also cutting them down to 5 minutes. Maps should be revised to include 5 minute walkable catchments associated with Johnsonville line stations areas of High density residential, as has been done with the Kapiti line stations in Tawa'.	Amend maps to include 5 minute walkable catchments associated with the Johnsonville line stations as areas of high density residential as has been done with the Kapiti Line stations in Tawa.
Te Marama Ltd	337.1	Mapping / Mapping General / Mapping General	Amend	Considers that Item WC054 (Makara Peak) should be removed from SCHED8 as it imposes an SNA on Te Marama property. WC054 states "Much of the site is WCC public land" and SNAs being imposed on public land is not opposed.	Remove SNA overlay at Lot 6 DP 477282 and 171 South Makara Road (Part Section 16 Makara DIST).
M&P Makara Family Trust	FS41.21	Mapping / Mapping General / Mapping General	Oppose	The PDP as notified allows for 10 guests per night in temporary accommodation for one residential unit, and any number greater than this is sufficiently covered by the discretionary framework. The PDP as notified retains the existing one household per allotment which is sufficient to encourage larger blocks to place that unit where it is most easily accessible or useful for their purposes. Any number greater than this is sufficiently covered by the resource consent framework. M&P Trust also submits that the intent of the subdivision provisions in the Rural Area, including their time-related requirement, is to anticipate a lower rate of residential development in than urban areas. Allowing more than one residential unit per allotment defeats the purpose of these subdivision provisions. Any number greater than this is sufficiently covered by the resource consent framework.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Yvonne Weeber	340.1	Mapping / Mapping General / Mapping General	Amend	Considers that the District Plan maps need to be clearly mapped using the language and classifications from CE-P14. It is understood that there are no "medium coastal hazard area and high coastal hazard areas" mapped, and that there is an arbitrary mix of hazard and risk overlays instead, which are difficult to discern from each other (Coastal inundation, Liquefaction, Tsunami Hazard Overlay, etc...).	Seeks that the mapping of Coastal Hazards be more clearly categorized and mapped.
Mt Victoria Residents' Association	342.17	Mapping / Mapping General / Mapping General	Amend	Considers that the mapping of character areas in Mount Victoria is not coherent. Many areas that fall outside of the sub-areas contain heritage buildings, such as Brougham St and Port St. Other areas are classified character sub-areas but contain buildings that are not currently subject to the pre-1930s rule and appear to have no particular heritage or character merit.	Seeks that the mapping of character areas in Mount Victoria be clarified.
Wellington's Character Charitable Trust	FS82.190	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.120	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Mt Victoria Residents' Association	342.18	Mapping / Mapping General / Mapping General	Amend	Considers that Kent Terrace and Cambridge Terrace partially perform the function of a town centre for Mount Victoria. All of Mt Victoria should be treated as one unit for planning purposes, so transition issues along the boundary between the CBD and Mt Victoria can be addressed. Including Cambridge and Kent Terraces within Mt Victoria will also provide a much-needed buffer/ transition area from the city centre high rises – not just in heights, but in the character-scape – and will support community connection.	Seeks that all of Mount Victoria is treated as one unit that includes Cambridge Terrace and Kent Terrace.
Wellington's Character Charitable Trust	FS82.191	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.121	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Greater Wellington Regional Council	351.26	Mapping / Mapping General / Mapping General	Amend	Considers that the New Zealand Coastal Policy Statement (NZCPS) Policy 13(1)(a) requires that for areas of outstanding natural character, adverse effects are avoided. NZCPS Policy 13(1)(b) requires that for natural character in all other areas of the coastal environment, significant adverse effects are avoided, and all other adverse effects are avoided, remedied or mitigated.	Seeks to amend the High Coastal Natural Character layer to the area identified in the 2016 Boffa Miskell coastal natural character assessment.
Greater Wellington Regional Council	351.27	Mapping / Mapping General / Mapping General	Amend	Overlays shown in the PDP have been sourced from Wellington Water and do not provide a complete picture of the flooding risks across the City. Additional discussion is required to complete the flood hazard information available to users of the Plan.	Seeks that WCC continues to work with Greater Wellington to discuss the City's flood hazards in relation to the proposed intensification.
Toka Tū Ake EQC	FS70.17	General / Mapping / Mapping General / Mapping General	Support	Toka Tū Ake EQC support natural hazard overlays based on current and accurate research. Continued collaboration between agencies is important to keep hazard information up to date and consistent across the region.	Allow
Greater Wellington Regional Council	351.28	Mapping / Mapping General / Mapping General	Amend	Overlays shown in the PDP have been sourced from Wellington Water and do not provide a complete picture of the flooding risks across the City. Additional discussion is required to complete the flood hazard information available to users of the Plan.	Seeks that WCC continues to work with Greater Wellington to discuss the City's flood hazards in relation to the proposed intensification.
Toka Tū Ake EQC	FS70.18	General / Mapping / Mapping General / Mapping General	Support	Toka Tū Ake EQC support natural hazard overlays based on current and accurate research. Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.29	Mapping / Mapping General / Mapping General	Oppose in part	Considers it is important to identify areas subject to flooding hazard in the Rural area, as well as in the Residential and other zones. Currently the PDP does not provide any information on flooding hazards across the whole Rural zone. These areas will be subject to flooding and this should be shown on the Plan.	Retain provision, subject to amendments, as outlined other submission points.
Greater Wellington Regional Council	351.30	Mapping / Mapping General / Mapping General	Amend	Considers it is important to identify areas subject to flooding hazard in the Rural area, as well as in the Residential and other zones. Currently the PDP does not provide any information on flooding hazards across the whole Rural zone. These areas will be subject to flooding and this should be shown on the Plan.	Seeks to Include identified overlays in the Rural Zone, based on the regional flood hazard mapping provided: Regional Exposure Assessment 1% AEP RCP8.5 2101-2120 (arcgis.com) [Refer to original submission]
Toka Tū Ake EQC	FS70.19	General / Mapping / Mapping General / Mapping General	Support	Natural hazard overlays are important in rural areas as well as urban and residential zones. Rural communities can be severely affected by flooding and this information is important for land use planning and public information.	Allow
Greater Wellington Regional Council	351.31	Mapping / Mapping General / Mapping General	Oppose	Though Greater Wellington supports WCC's identification of SNAs in line with RPS Policy 23, we oppose the omission of SNAs on private residential land from the Proposed District Plan (PDP) because: <ul style="list-style-type: none"> the removal of identified SNAs from the PDP contradictory to national direction for indigenous biodiversity protection. Section 6(c) of the RMA 1991 states that 'the protection of areas of significant indigenous vegetation and significant habitats of indigenous fauna' is a matter of national importance, and that this matter must be 'recognised and provided for' by all persons exercising functions and powers under the RMA, including local authorities under Sections 30 and 31. the removal of SNAs on private residential land from the PDP is contrary to Policy 24 of RPS. Policy 24 directs district councils to include in their district plans policies, rules and methods to protect the indigenous ecosystems and habitats identified in accordance with policy 23. Policy 24 requires district councils to protect all areas identified in accordance with policy 23 through provisions in their district plans. the removal of identified SNAs on private residential land from the PDP to be inconsistent with WCC's vision and aspirations for protecting and restoring the city's indigenous biodiversity. The Our Natural Capital: Wellington's Biodiversity Strategy and Action Plan 2015[1] states that WCC will protect biodiversity by 'focussing on the protection of priority biodiversity sites on public and private land and rare, threatened, or locally significant species', and that it will build natural capital by 'respect[ing] the importance of indigenous biodiversity to New Zealand and its intrinsic right to exist'. We do not consider the exclusion of SNA on private residential land to align with this direction. 	Seeks to apply SNAs to all zones as intended by section 6 of the RMA and Policy 24 of the RPS.
Wellington Civic Trust	FS83.72	General / Mapping / Mapping General / Mapping General	Support	Wellington Civic Trust supports this submission as the existence of SNAs on private land contributes considerably to the character, amenity and attractiveness of the city, as well as its ecological sustainability and climate change resilience.	Allow
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.10	General / Whole PDP / Whole PDP / Whole PDP	Support	As per Forest & Bird's original submission, exclusion of SNAs from all zones is contrary to section 6 of the RMA and Policy 24 of the RPS.	Allow
Kāinga Ora – Homes and Communities	FS89.14	General / Mapping / Mapping General / Mapping General	Oppose	Kāinga Ora supports the identification and mapping of SNAs as individual overlays in the District Plan. However, Kāinga Ora does not support blanket application of SNAs on residential zones. [Inferred reference to submission 351.31]	Disallow
Paul Blaschke	FS129.4	General / Mapping / Mapping General / Mapping General	Support	Support all submissions requesting the reinstatement of identified and verified Significant Natural Area status on all properties whether public or private and whether residentially or rurally zoned. This is for the reasons stated in submission point 110.1 and most fully stated by submission point 351.31.	Allow / As per submission point 351.31, and "Reinstate the overlay of all properly delineated SNAs or part SNAs on all relevant residential zoned properties, and the regulatory framework in the Ecosystems and Indigenous Biodiversity section to those SNAs or SNA proportions affected." (my previous submission points 110.1 and 110.2)

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.32	Mapping / Mapping General / Mapping General	Amend	Considers the primary function of mapping area scale natural character ratings (low – high) in the PDP is to ensure applicants do not have to undertake this work as part of applications for resource consent, to give effect to NZCPS Policy 13(1)(b). It would not be efficient or effective to require applicants for resource consent to undertake this step as part of a consent process, especially when the work has already been commissioned by WCC, presumably to be included in the PDP. Mapping the full range of natural character areas in the PDP also provides more certainty to applicants/developers on areas that are more suitable/less suitable for development based on an improved understanding of the natural character values present.	Seeks to map natural character ratings at all levels (low, moderate, high) at the wider area scale in Schedule 12, as undertaken in the 2016 Boffa Miskell natural character assessment.
Greater Wellington Regional Council	351.33	Mapping / Mapping General / Mapping General	Oppose	Considers the proposed mapping approach is not appropriate to achieve CE-O1, does not fully incorporate the 2016 Boffa Miskell assessment, and will be less effective in giving effect to NZCPS 13(1)(b).	Map area scale natural character ratings (in addition to the sites of high and very high natural character already included in the proposed approach) identified in Boffa Miskell's natural character assessment (2016).
Richard Herbert	360.1	Mapping / Mapping General / Mapping General	Amend	Supports the retention of SNAs as proposed originally, before the Councillor amendment to remove SNAs from residential zones in June 2022.	Amend Significant Natural Areas to re-instate on Residential Zones, as proposed prior to the Councillor Amendment to remove Significant Natural Areas from Residential Zones in June 2022.
Te Kamaru Station Ltd Ratings	362.1	Mapping / Mapping General / Mapping General	Amend	Considers that SNAs should not be on private property.	Seeks Significant Natural Areas layer to remove Significant Natural Areas on private property in both urban and rural environments. [Inferred decision requested].
M&P Makara Family Trust	FS41.26	Mapping / Mapping General / Mapping General	Oppose	The PDP as notified allows for 10 guests per night in temporary accommodation for one residential unit, and any number greater than this is sufficiently covered by the discretionary framework. The PDP as notified retains the existing one household per allotment which is sufficient to encourage larger blocks to place that unit where it is most easily accessible or useful for their purposes. Any number greater than this is sufficiently covered by the resource consent framework. M&P Trust also submits that the intent of the subdivision provisions in the Rural Area, including their time-related requirement, is to anticipate a lower rate of residential development in than urban areas. Allowing more than one residential unit per allotment defeats the purpose of these subdivision provisions. Any number greater than this is sufficiently covered by the resource consent framework.	Disallow
Te Kamaru Station Ltd Ratings	362.2	Mapping / Mapping General / Mapping General	Amend	Considers that Items WC037, WC042, WC047, WC049, WC050, WC119, WC120 and WC121 should be removed from SCHED8 as it is arbitrarily imposed. The imposition of SNAs will put at risk the voluntary and co-operative conservation programme Te Kamaru Station has made with Capital Kiwi. The programme works to ensure the rural landscape is fit for the return of kiwi. Negative impacts from this SNA may lead Te Kamaru Station to withdraw from the programme, should the legislative risk remain or worsen.	Remove SNA overlay at: - Fee Simple, 1/1 - Lot 2 Deposited Plan 375401 - Section 66, 74, 76-77, 79, 84 Terawhiti District - Part Section 13 Makara District - Part Section 18, 27-28, 54, 60-65, 73, 75, 78, 80-82 Terawhiti District - Lot 3 Deposited Plan 477282, 15, 650, 824 m2 [Refer to original submission for full list]
Te Kamaru Station Ltd Ratings	362.3	Mapping / Mapping General / Mapping General	Amend	Considers that the overlay boundaries at Albion Battery and Mine Remains should be redefined. No part of the Albion Battery and mine remains are located on Te Kamaru Station. The Albion Battery is located to the west of the boundary with Terawhiti Farming Co Ltd's land.	Remove the Albion Gold Mining Company Battery and Mine Remains overlay at: - Fee Simple, 1/1 - Lot 2 Deposited Plan 375401 - Section 66, 74, 76-77, 79, 84 Terawhiti District - Part Section 13 Makara District - Part Section 18, 27-28, 54, 60-65, 73, 75, 78, 80-82 Terawhiti District - Lot 3 Deposited Plan 477282, 15, 650, 824 m2 [Refer to original submission for full list]

Jane Szentivanyi and Ben Briggs	369.6	Mapping / Mapping General / Mapping General	Amend	Considers that there is opportunity to increase the range of open spaces for the public to enjoy.	Seeks that the extent of Open Space Zones be increased.
Waka Kotahi	370.7	Mapping / Mapping General / Mapping General	Amend	Considers that planning maps should include state highway corridor. Waka Kotahi is currently mapping noise contours along its entire network and would support the use of those contours to identify the relevant area. This would be likely to substantially reduce the area subject to acoustic attenuation requirements.	Seeks to amend planning maps to include a state highway corridor.
Glenside Progressive Association Inc	374.1	Mapping / Mapping General / Mapping General	Not specified	Considers that the Ridgetop Overlay would need to offer at least 20 metres of vertical protection in order to offer meaningful visual protection from afar.	Not specified.
WCC Environmental Reference Group	377.3	Mapping / Mapping General / Mapping General	Amend	Considers that Schedule 8 should include all the SNAs identified in the draft district plan version provided to the Council's environment committee from officers. "Wellington, wild at heart" is what our unique capital city trades upon - and as the population grows and urban areas densify, preserving and enhancing significant natural areas will become increasingly important. Research shows that access to natural areas, and 'biophilic' environments are keys to human health and well-being and are a critical part of protecting biodiversity. On this matter, Wellington as a city is playing a critical role in providing refuge for formerly at risk native birds, e.g. kaka, and with efforts such as the Halo Project and Predator Free initiatives being undertaken by thousands of Wellingtonians, it is important our city's district plan provides legal and policy support to this. The failure to include SNA areas in residential zones means that the district plan is not in accordance with section 6 of the RMA, nor is it giving effect to relevant provisions of GWRC's regional policy statement and regional plan.	Seeks that Significant Natural Areas layers are added all the SNA areas in the residential zones recommended by officers in the draft district plan version provided to the Council's environment and planning committee on June 23, 2022.
Wellington Civic Trust	FS83.31	General / Mapping / Mapping General / Mapping General	Support	Wellington Civic Trust supports this submission as the existence of SNAs on private land contributes considerably to the character, amenity and attractiveness of the city, as well as its ecological sustainability and climate change resilience.	Allow
Caniwi Properties (Boomrock) Limited	381.1	Mapping / Mapping General / Mapping General	Oppose in part	Considers that Proposed District Plan should add new zoning to accommodate rural lifestyle activities. The submitter's land is near the proposed Makara Beach and Makara Village Precinct which are more residential in character than those in the wider General Rural Zone. The property adjoining CPBLs land to the east is within Porirua City Council jurisdiction. There is an opportunity to provide consistent rural zoning provisions via the inclusion of a RULZ and/or SEZ over the land. The coastal environment in this location can be enhanced through appropriate rural lifestyle development. The land is a strategic connection to the neighbouring Porirua City which is in growth mode. There is a need to explore alternative land use in the area to provide for strategic connections for the Wellington Region and in a cross District approach.	Opposes Proposed District Plan in its current form and seeks amendment.
Caniwi Properties (Boomrock) Limited	381.2	Mapping / Mapping General / Mapping General	Oppose in part	The Submitters land is near the proposed Makara Beach and Makara Village Precinct which are more residential in character than those in the wider General Rural Zone. The property adjoining CPBLs land to the east is within Porirua City Council jurisdiction. There is an opportunity to provide consistent rural zoning provisions via the inclusion of a RULZ and/or SEZ over the land. The coastal environment in this location can be enhanced through appropriate rural lifestyle development. The land is a strategic connection to the neighbouring Porirua City which is in growth mode. There is a need to explore alternative land use in the area to provide for strategic connections for the Wellington Region and in a cross District approach.	Add a Rural Lifestyle Zone (outside of the Natural Environmental Values Overlays and Historical and Cultural Values Overlays).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Caniwi Properties (Boomrock) Limited	381.3	Mapping / Mapping General / Mapping General	Amend	<p>The Submitters land is near the proposed Makara Beach and Makara Village Precinct which are more residential in character than those in the wider General Rural Zone.</p> <p>The property adjoining CPBLs land to the east is within Porirua City Council jurisdiction. There is an opportunity to provide consistent rural zoning provisions via the inclusion of a RULZ and/or SEZ over the land.</p> <p>The coastal environment in this location can be enhanced through appropriate rural lifestyle development. The land is a strategic connection to the neighbouring Porirua City which is in growth mode. There is a need to explore alternative land use in the area to provide for strategic connections for the Wellington Region and in a cross District approach.</p>	Add a Settlement Zone (outside of the Natural Environmental Values Overlays and Historical and Cultural Values Overlays).
Margaret Cochran	382.1	Mapping / Mapping General / Mapping General	Oppose	<p>Oppose the Proposed District Plan's heritage areas boundaries.</p> <p>Submitter wishes to see it (Thorndon Historic Area) amended to retain the existing area boundaries.</p>	Opposes Proposed District Plan's mapping of Thorndon's Heritage Area in its current form and seeks amendment.
Margaret Cochran	382.2	Mapping / Mapping General / Mapping General	Amend	<p>Seeks to see the Thorndon Historic Area amended to retain the existing area boundaries.</p> <p>The submitter has lived in and knows intimately the Thorndon historic area centred on Ascot Street and Glenbervie Tce.</p> <p>The re-drawing of the boundaries of this area in the Proposed District Plan make no sense at all, arbitrarily cutting out buildings on its periphery. Historic areas should have clear physical boundaries, not indistinct lines between adjacent properties. Inappropriate development on the edge of an historic area is as damaging as it is within the area.</p> <p>The strong physical boundaries of Tinakori Road, Bowen Street and the Urban Motorway are ideal for defining the Thorndon Historic Area, as they have been since the establishment of the first ever national heritage area zoning — the Residential E Zone in 1975. This single action lead by the community, has preserved the “Thorndon” so valued nationally 47 years later.</p>	Amend the mapping of the Thorndon Heritage Area to retain the boundaries in the Operative District Plan.
Wellington's Character Charitable Trust	FS82.291	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.46	General / Mapping / Mapping General / Mapping General	Support	HPW supports the addition of those identified heritage areas.	Allow
Argosy Property No. 1 Limited	383.2	Mapping / Mapping General / Mapping General	Amend	Seeks for the height limit of 7 Waterloo Quay to be increased to 60m. It is unclear why the height limit	Amend the building height limit of 7 Waterloo Quay to 60m.
Argosy Property No. 1 Limited	383.3	Mapping / Mapping General / Mapping General	Amend	Generally supports the height limits imposed on 143 Lambton Quay, 147 Lambton Quay, 15 Stout Street, 8 Willis Street and 360 Lambton Quay.	Retain the building height limits of 143 Lambton Quay, 147 Lambton Quay, 15 Stout Street, 8 Willis Street and 360 Lambton Quay as notified.
Director-General of Conservation	385.8	Mapping / Mapping General / Mapping General	Amend	Considers necessary additional provisions to recognise that unmapped areas that meet SNA criteria are still to be managed appropriately as required by section 6(c) of the Resource Management Act 1991.	<p>Amend the Proposed District Plan to recognise areas that are not mapped but meet the criteria for SNAs stated in the RPS are to be managed in accordance with section 6(c) of the Resource Management Act 1991.</p> <p>For example, wetlands and the habitats of At-Risk or Threatened indigenous fauna.</p>
Transpower New Zealand Limited	FS29.1	General / Mapping / Mapping General / Mapping General	Oppose	While Transpower understand the intent of the submission, it supports the identification and mapping on SNA's on the basis it provides certainty for plan users. On that basis, the relief sought by the submitter is opposed.	Disallow

Kāinga Ora – Homes and Communities	FS89.52	General / Mapping / Mapping General / Mapping General	Oppose	Further clarification is needed to understand the implications on land use opportunities of applying significant natural areas. Kāinga Ora supports the protection of the values of SNAs but seeks that these are mapped and identified in the District Plan.	Disallow
Sue Kedgley	387.1	Mapping / Mapping General / Mapping General	Oppose	Opposes the proposals in the PDP that would see a 71% reduction in the protections for character areas in Wellington, especially in Wellington's inner city suburbs such as Mt Victoria, Aro Valley, Thorndon, Mount Cook, and Newtown. These suburbs are already some of the most densely housed areas in Wellington. They are full of Victorian and Edwardian wooden houses which are an important part of our heritage, our history and our sense of place, and as such they are some of the most unique, distinct and liveable areas of Wellington. The densely located houses in these unique inner-city suburbs provide a wonderful sense of neighbourhood and community and provide coherence and interest to the Wellington city scape.	Opposes character areas' mapping as notified and seeks amendments.
Sue Kedgley	387.2	Mapping / Mapping General / Mapping General	Amend	Opposes the proposals in the PDP that would see a 71% reduction in the protections for character areas in Wellington, especially in Wellington's inner city suburbs such as Mt Victoria, Aro Valley, Thorndon, Mount Cook, and Newtown. These suburbs are already some of the most densely housed areas in Wellington. They are full of Victorian and Edwardian wooden houses which are an important part of our heritage, our history and our sense of place, and as such they are some of the most unique, distinct and liveable areas of Wellington. The densely located houses in these unique inner-city suburbs provide a wonderful sense of neighbourhood and community and provide coherence and interest to the Wellington city scape.	Amend the mapping to increase the extent of Character Precincts so that, at the very minimum, 50% of existing character areas are allowed to remain under the pre-1930s demolition rule.
Wellington Civic Trust	388.2	Mapping / Mapping General / Mapping General	Amend	[No specific reason provided other than decision requested - refer to original submission]	Seeks to extend Public Open Space areas in the Waterfront Zone wherever possible.
Wellington Civic Trust	388.3	Mapping / Mapping General / Mapping General	Amend	Considers that the area between the Circa building and the Te Papa building has been omitted from the Waterfront Public Open Space Zone and should be included. This area is a key open space area and one of the most heavily-used in the whole Zone.	Amend the extent of the Waterfront Public Open Space overlay to include the space between the Circa and Te Papa.
Willis Bond and Company Limited	FS12.2	Part 3 / Commercial and mixed use Zones / City Centre Zone / CCZ-PREC01-P2	Oppose	Willis Bond and Company Limited consider references to new development and redevelopment within Te Ngākau in CCZ-PREC01-P2 should be retained as they are relevant to certain parts of Te Ngākau such as the Michael Fowler carpark site and they reflect Te Ngākau Civic Precinct Framework adopted by Council.	Disallow
Taranaki Whānui ki te Upoko o te Ika	389.12	Mapping / Mapping General / Mapping General	Oppose	Considers that there is potential for these overlays to significantly restrict future development and opportunities for Taranaki Whānui to exercise tino rangatiratanga over our ancestral lands. Taranaki Whānui support the protection of areas of significant indigenous vegetation as well as landscapes that have cultural, historical, spiritual and traditional significance to Taranaki Whānui, the identification and protection of environmental overlays in previously developed areas is of concern to Taranaki Whānui.	Seeks that the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford is removed; specifically at Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Laurence Harger & Ingrid Kölle	FS2.4	General / Mapping / Mapping General / Mapping General	Oppose	<p>Taranaki Whānui has sold the land it owned at Shelly Bay to The Wellington Company for a large development which was consented via the Special Housing Accords Act, thus denying the community any say on the consenting process. Community involvement should be ensured for the future though and the current DP height limit of 11 metres in some areas and the zero height limit in Open Space B land should remain. A recent poll has shown that the wider Wellington public want Shelly Bay included in a National Heritage Park centred on the 76 hectares of Watts Peninsula already designated for a reserve by the Government.</p> <p>Taranaki Whānui have treated Shelly Bay solely as a commercial proposition despite disagreement by a large group of its members (Mau Whenua) who occupied the site and opposed its sale, wanting to uphold their cultural and spiritual connection to the land. Mau Whenua continue to oppose the sale of the land at Shelly Bay and should be included by the council in all decisions taken about its future.</p>	Disallow / Seeks that the provisions relating to Shelly Bay in submission 389 are disallowed.
Laurence Harger & Ingrid Kölle	FS2.14	General / Mapping / Mapping General / Mapping General	Oppose	<p>76 hectares of Watts Peninsula has been set aside by the government as a reserve focused on protecting iwi and military history sites and retaining the value of the natural landscape of the area. Supports the establishment of such a reserve and would like to see it become part of the National Heritage Park proposed by the Buy Back the Bay group. The zoning and overlays of the Proposed District Plan must be kept if the reserve/heritage park is to be a viable option. Taranaki Whānui's requests would remove many protections that have been longstanding and unopposed for decades, which must surely not occur without extensive community engagement. Watts Peninsula, with its ridges and hill lines visible from all over Wellington, should remain undeveloped, which might very well not be the case if the land is rezoned.</p>	Disallow / Seeks that the part of the submission to remove the proposed zoning and overlays on Watts Peninsula be disallowed.
Laurence Harger & Ingrid Kölle	FS2.25	General / Mapping / Mapping General / Mapping General	Oppose	<p>Taranaki Whānui's proposal would seem to allow another large and obtrusive development on the prison site, à la Shelly Bay, by sale of the land, if acquired under the right of first refusal, to a commercial developer.</p> <p>Support Papakāinga development that keeps to the 11-12 m height limits and rules restricting building on ridgelines and hilltops, as long as native trees and vegetation are protected. Such a housing development should also be compatible with the adjacent reserve/National Heritage Park. The local community, the wider Wellington community and all iwi groups should be involved in any decisions made.</p>	Disallow / Seeks that the part of the submission that could open up the Mount Crawford site to large-scale commercial housing development be disallowed.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Geoff Todd	FS21.1	General / Mapping / Mapping General / Mapping General	Oppose	<p>Opposes submission 389 requested changes to the zoning and overlays as:</p> <p>a) The area has significant historic value reflecting all the periods from the first maori settlers through to European settlement, threat of invasions and recent recreational use.</p> <p>b) The area has recreational and visual values to the poeple living on the peninsula, the people in Wellington, lwi and the nation. This was reported on 3 News on 1/11/2011 and the vision expressed by politicians, local councillors and lwi was of a public reserve with many important sites to be preserved. Sir Ngatata Love said "There are very few options in capital cities in countries like this where we can make such a major decision and look forward to preserving both the history and the future of our nation."</p> <p>c) Open space zoning has been in place for at least 30 years. I believe this has never been contested and is important to the people on the peninsula. Open zoning does not anticipate a built environment.</p> <p>d) The ridge and hilltop overlay , again not new , reflects the visual importance of the skyline across wellington</p> <p>e) the significant natural area overlay reflects the opportunity to restore the natural habitat in a rodent free environment, restoring the presence of the birds that once lived here. Imagine the peace and tranquility possible in the midst of our city. This will build on the big investment in eliminating rodent and other pests on the peninsula</p>	Disallow
Enterprise Miramar Peninsula Inc	FS26.3	General/ Mapping/ Mapping General/ Mapping General	Oppose	<p>It is clear Taranaki Whānui want all restrictions removed, and the Corrections land at least rezoned for medium density housing. It is unclear based on the submission exactly how large an area they want to have rezoned.</p> <p>Watts Peninsula is currently zoned Open Space B in the Operative (current) District Plan, both the Corrections and Defence Land have not in the past contested this zoning and the Proposed District Plan keeps Watts Peninsula as open Space, the Ridgelines and Hilltops add to significant Natural Areas (for biodiversity) it has a Special Amenity Landscape which is used by the community and tourists to the enjoyment of being close to a city but with a natural environment.</p> <p>Taranaki Whānui are seeking to amend the zoning in this area to Medium Density Residential or to a Special Purpose Zone – Māori Purpose Zone, without any public engagement. Such changes would have a significant impact on the local community and should not be undertaken without wider consultation and engagement in order to ensure that proposed changes do not have a detrimental effect. As noted above, it is of concern to the businesses, community (ratepayers) of Te Motu Kairangi/Miramar Peninsula and the wider public that the rezoning applied for by Taranaki Whanui (currently open space) to develop a papakainga creates infrastructure issues on an already overloaded roading, flooding and transport links to and from the Peninsula.</p> <p>[Inferred reference to submission 389.12].</p>	Disallow
Wellington International Airport Limited	FS36.247	General / Mapping / General	Oppose	<p>WIAL opposes this submission to the extent that the land already penetrates WIAL's obstacle limitation surface (WIAL1 designation). Further investigations should be undertaken to confirm that the area is either afforded sufficient terrain shielding, or a 8m height restriction should be imposed on all buildings, objects and structures to ensure activities do not pose a potential risk to aircraft.</p>	Disallow / Seeks that part of submission be disallowed.

Taranaki Whānui ki te Upoko o te Ika	389.13	Mapping / Mapping General / Mapping General	Amend	<p>Opposes the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford.</p> <p>Submitter supports the protection of areas of significant indigenous vegetation as well as landscapes that have cultural, historical, spiritual and traditional significance to Taranaki Whānui, the identification and protection of environmental overlays in previously developed areas is of concern to Taranaki Whānui.</p> <p>Concerns there is potential for these overlays to significantly restrict future development and opportunities for Taranaki Whānui to exercise tino rangatiratanga over their ancestral lands.</p>	Seeks that the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford is removed; specifically at Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST.
Laurence Harger & Ingrid Kölle	FS2.5	General / Mapping / Mapping General / Mapping General	Oppose	<p>Taranaki Whānui has sold the land it owned at Shelly Bay to The Wellington Company for a large development which was consented via the Special Housing Accords Act, thus denying the community any say on the consenting process. Community involvement should be ensured for the future though and the current DP height limit of 11 metres in some areas and the zero height limit in Open Space B land should remain. A recent poll has shown that the wider Wellington public want Shelly Bay included in a National Heritage Park centred on the 76 hectares of Watts Peninsula already designated for a reserve by the Government.</p> <p>Taranaki Whānui have treated Shelly Bay solely as a commercial proposition despite disagreement by a large group of its members (Mau Whenua) who occupied the site and opposed its sale, wanting to uphold their cultural and spiritual connection to the land. Mau Whenua continue to oppose the sale of the land at Shelly Bay and should be included by the council in all decisions taken about its future.</p>	Disallow / Seeks that the provisions relating to Shelly Bay in submission 389 are disallowed.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Laurence Harger & Ingrid Kölle	FS2.15	General / Mapping / Mapping General / Mapping General	Oppose	76 hectares of Watts Peninsula has been set aside by the government as a reserve focused on protecting iwi and military history sites and retaining the value of the natural landscape of the area. Supports the establishment of such a reserve and would like to see it become part of the National Heritage Park proposed by the Buy Back the Bay group. The zoning and overlays of the Proposed District Plan must be kept if the reserve/heritage park is to be a viable option. Taranaki Whānui's requests would remove many protections that have been longstanding and unopposed for decades, which must surely not occur without extensive community engagement. Watts Peninsula, with its ridges and hill lines visible from all over Wellington, should remain undeveloped, which might very well not be the case if the land is rezoned.	Disallow / Seeks that the part of the submission to remove the proposed zoning and overlays on Watts Peninsula be disallowed.
Laurence Harger & Ingrid Kölle	FS2.26	General / Mapping / Mapping General / Mapping General	Oppose	Taranaki Whānui's proposal would seem to allow another large and obtrusive development on the prison site, à la Shelly Bay, by sale of the land, if acquired under the right of first refusal, to a commercial developer. Support Papakāinga development that keeps to the 11-12 m height limits and rules restricting building on ridgelines and hilltops, as long as native trees and vegetation are protected. Such a housing development should also be compatible with the adjacent reserve/National Heritage Park. The local community, the wider Wellington community and all iwi groups should be involved in any decisions made.	Disallow / Seeks that the part of the submission that could open up the Mount Crawford site to large-scale commercial housing development be disallowed.
Geoff Todd	FS21.2	General / Mapping / Mapping General / Mapping General	Oppose	I oppose the submission 389 requested changes to the zoning and overlays as: a) The area has significant historic value reflecting all the periods from the first maori settlers through to European settlement, threat of invasions and recent recreational use. b) The area has recreational and visual values to the people living on the peninsula, the people in Wellington, Iwi and the nation. This was reported on 3 News on 1/11/2011 and the vision expressed by politicians, local councillors and Iwi was of a public reserve with many important sites to be preserved. Sir Ngatata Love said "There are very few options in capital cities in countries like this where we can make such a major decision and look forward to preserving both the history and the future of our nation." c) Open space zoning has been in place for at least 30 years. I believe this has never been contested and is important to the people on the peninsula. Open zoning does not anticipate a built environment. d) The ridge and hilltop overlay, again not new, reflects the visual importance of the skyline across Wellington e) the significant natural area overlay reflects the opportunity to restore the natural habitat in a rodent free environment, restoring the presence of the birds that once lived here. Imagine the peace and tranquility possible in the midst of our city. This will build on the big investment in eliminating rodent and other pests on the peninsula	Disallow

Sarah Crawford	FS118.2	General / Mapping / Rezone / Rezone	Oppose	<p>Considers that the Miramar Peninsula and Shelly Bay need to be protected. The Miramar Peninsula is iconic and a magnificent landmark - an oasis in our capital city of Wellington. We see it when we fly into Wellington or travel in our buses, vehicles, trains and ferries. The Miramar Peninsula is an integral part of our visual landscape, where ever we live or work, for example Newtown, Wellington's CBD, the western hills of Wellington and Lower Hutt, Petone, Eastbourne, driving down the Wainui Hill and on our daily commute on the motorway.</p> <p>Considers that it is so visual that we do not realise that this land mark was such a treasure until urbanization destroyed it with increased building height lines which affects the contours of the hills, the vegetation, the predator free environment, the prison gardens and the fantastic untamed environment, which we all love.</p> <p>Sarah Crawford recognises that both the cultural and historical significance and as well the contribution of this land to the recreational enjoyment of the population of the Wellington region. It must be protected for our children, their children and future generations.</p> <p>Considers that the Miramar Peninsula has not always been valued in the past by central or local government .</p> <p>[Refer to Further submission for full reason]</p>	Disallow
Grace Ridley-Smith	390.4	Mapping / Mapping General / Mapping General	Amend	Considers that the Character Precincts should be bigger in spatial area in order to protect the specific character and heritage of Wellington.	Amend the mapping to increase the extent of the area encompassed by the Character Precincts.
Historic Places Wellington Inc	FS111.196	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow
Grace Ridley-Smith	390.5	Mapping / Mapping General / Mapping General	Amend	Considers that the Character Precincts in Mount Victoria should be joined together in a larger block as proposed by the Council Officers' recommendations June 2021.	Amend the mapping to join together the Character Precincts in Mount Victoria in a larger block as proposed by the Council Officers' recommendations June 2021.
Historic Places Wellington Inc	FS111.123	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Kāinga Ora Homes and Communities	391.14	Mapping / Mapping General / Mapping General	Amend	Considers that the spatial extent of Local Centres in Miramar, Tawa and Newtown and other Centre Zones should be expanded to support the plan-enabled residential intensification surrounding them to and support a well-functioning urban environment. [Refer to original submission for full reason, including Appendix 2 & 4]	Amend and increase the extent of Local Centre Zones. [Refer to original submission & Appendix 4 for proposed zone expansions]
Greater Wellington Regional Council	FS84.19	General / Mapping / Mapping General / Mapping General	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Kāinga Ora Homes and Communities	391.15	Mapping / Mapping General / Mapping General	Amend	Considers that zoning in the PDP should be amended according to the mapping proposed in Appendix 4. [Refer to original submission for full reason, including Appendix 4]	Seeks that zoning in the Proposed District Plan be amended according to the mapping proposed in Appendix 4. [Refer to original submission, Appendix 4]

Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Kāinga Ora Homes and Communities	391.16	Mapping / Mapping General / Mapping General	Amend	<p>Considers that walking catchments should extend:</p> <ul style="list-style-type: none"> i. 15-20min/1500m walkable catchment from the edge of the City Centre Zone ii. 15min/800m walkable catchment from the edge of MCZ and from existing and planned rapid transit stops (including the Johnsonville Line) iii. 10 min/400-800m walkable catchment from Town Centre Zones. <p>Notes that mapping changes are required for this and has provided an example of mapping in Appendix 4 of the original submission.</p> <p>[Refer to original submission for further details].</p>	<p>Amend the walking catchments within the Proposed District Plan Maps to reflect the below:</p> <ul style="list-style-type: none"> i. 15-20min/1500m walkable catchment from the edge of the City Centre Zone ii. 15min/800m walkable catchment from the edge of MCZ and from existing and planned rapid transit stops (including the Johnsonville Line) iii. 10 min/400-800m walkable catchment from Town Centre Zones. <p>Refer to Appendix 4 of the original submission for an example map.</p>
Ann Mallinson	FS3.32	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. In particular the weather and wind conditions on Oriental Parade often make walking difficult for residents.	Disallow
Oriental Bay Residents Association	FS13.7	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. In particular the weather and wind conditions on Oriental Parade often make walking along the seafront without shelter difficult for residents and is unreasonable to adopt a greater walking distance than 10 mins in that specific environment.	Disallow
Ruapapa Limited	FS18.9	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. In particular the weather and wind conditions on Oriental Parade often make walking along the seafront without shelter difficult for residents and is unreasonable to adopt a greater walking distance than 10 mins in that specific environment.	Disallow
Scott Galloway and Carolyn McLean	FS19.7	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. In particular the weather and wind conditions on Oriental Parade often make walking along the seafront without shelter difficult for residents and is unreasonable to adopt a greater walking distance than 10 mins in that specific environment.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Pukepuke Pari Residents Incorporated	FS37.4	General / Mapping / Mapping General / Mapping General	Oppose	Opposes walkable catchment extension - limit of 10 mins on the walkable catchment is appropriate for Wellington and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. People's propensity to walk diminishes with distance. Particularly relevant if the catchment was increased to 15 minutes and the last 5 minutes was up a steep hill. Proposed increases in height controls within walkable catchments of the CCZ go well beyond requirements of NPSUD and are inappropriate in light of amenity values (particularly within Oriental Bay). Oppose review of the O' Bay Height precinct- The Oriental Bay Height Precinct provides protection for significant public amenity value, for all those who use the beach and Parade, representing a large part of the Wellington population. This Height Precinct was decided after careful review by the Environment Court in 1989 and all the considerations that were carefully laid out there are relevant here.	Disallow
Jenny Gyles	FS53.7	General / Mapping / Mapping General / Mapping General	Oppose	Considers that 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. In particular the weather and wind conditions on Oriental Parade often make walking along the seafront without shelter difficult for residents and all citizens and is unreasonable to adopt a greater walking distance than 10 mins in that specific environment.	Disallow
Helen Foot	FS62.34	Mapping / Mapping General / Mapping General	Oppose	10 minutes is an appropriate walkable catchment for Oriental Bay residents given exposed wind and weather conditions.	Disallow
Onslow Residents Community Association	FS80.14	General / Mapping / Rezone / Rezone	Oppose	Considers the Johnsonville Rail Line does not meet National Policy Statement on Urban Development definition of a rapid transit service. Decision of Wellington City Council in the Proposed District Plan as notified to stand. [Refer to original submission - 283]	Disallow
Greater Wellington Regional Council	FS84.21	General / Mapping / Mapping General / Mapping General	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Don MacKay	FS94.4	General / Mapping / Mapping General / Mapping General	Oppose	Considers that walkable catchment extension opposed -see above in relation to Property Council. Proposed increases in height controls within walkable catchments of the CCZ go well beyond requirements of NPSUD and are inappropriate in light of amenity values (particularly within Oriental Bay). Oppose review of the O' Bay Height precinct- see our reasons re Waka Kotahi.	Disallow
LIVE WELLington	FS96.2	Mapping / Mapping General / Mapping General	Oppose	The proposal to extend the walking catchment is opposed as this change would have a huge impact on neighbourhoods, is highly controversial, and has already been extensively discussed and agreed by the community. 10 minutes is a suitable walking distance in a city of Wellington's topography and weather.	Disallow
Stride Investment Management Limited	FS107.36	General / Mapping / Mapping General / Mapping General	Support	Stride supports extending the walkable catchments as proposed. It is appropriate to apply a 15 minute walkable catchment to the Metropolitan zone to reflect the level of amenities and services provided.	Allow
Investore Property Limited	FS108.36	General / Mapping / Mapping General / Mapping General	Support	Investore supports extending the walkable catchments as proposed. It is appropriate to apply a 15 minute walkable catchment to the Metropolitan zone to reflect the level of amenities and services provided.	Allow
Wellington City Council Environmental Reference Group	FS112.17	General / Mapping / Mapping General / Mapping General	Support	Support the proposed amendments to walkable catchments, particularly the inclusion of the Johnsonville Line as a Rapid Transit line for the purpose of walkable catchments.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association Inc	FS114.33	General / Whole PDP / Whole PDP / Whole PDP	Oppose	<p>The NPS-UD definition states that Rapid Transit Services must be “frequent” and this definition therefore excludes PT services that are not frequent from being classified as Rapid Transit Services.</p> <p>Considers that Greater Wellington Regional Council (GWRC) has incorrectly assessed the Johnsonville Line is a Rapid transit Service because they used a one line statement in the One Network Framework (ONF) drafted by the Road Efficiency Group and published by Waka Katohi.</p> <p>In contrast to the NPS-UD, the ONF definition also classifies passenger rail services that are not frequent as Rapid Transit which is incorrect. The Johnsonville Line is not a frequent service (mostly 2 services/hour) and therefore cannot be classified as a Rapid Transit Service.</p> <p>Considers the One Network Framework is not able tool for this assessment - as confirmed in writing by the Waka Katohi One Network Framework Programme Manager. In contrast, Auckland Transport has developed a PT assessment standard based on suitable public transport criteria and under their criteria, the Onehunga Line is assessed as Nnot being Rapid Transit under the NPS-UD. Applying these same criteria to the Johnsonville Line would also find it is not Rapid Transit.</p> <p>Further, the WCC has also failed to use a PT assessment standard based on suitable public transport criteria to assess whether Johnsonville Line Stations are Rapid Transit Stops under the NPS-UD. Therefore any claim that Johnsonville Line Stations are Rapid Transit Stops is also invalid. [Refer to further submission for full reason]</p>	Disallow / Retain Johnsonville Line as notified (Not considered Rapid Transit).
Roland Sapsford	FS117.2	General / Mapping / Mapping General / Mapping General	Oppose	<p>The proposal to extend the walking catchment is opposed as this change would have a huge impact on neighbourhoods, is highly controversial, and has already been extensively discussed and agreed by the community. 10 minutes is a suitable walking distance in a city of Wellington's topography and weather.</p>	Disallow
Elayna Chhiba	FS131.37	General / Mapping / Mapping General / Mapping General	Support	<p>Supports increasing walking catchments around the City Centre Zone for the following reasons:</p> <ul style="list-style-type: none"> - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Additionally, less reliance on private vehicles increases overall health. - Higher density housing will support providing liveable cities for future Wellingtonians. The NPS-UD and the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act provides for greater density. <p>[See original Further Submission for full reasoning].</p>	Allow

Rod Bray	FS137.14	General / Mapping / Mapping General / Mapping General	Support	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. A larger catchment would provide attractive and affordable housing closer to the city centre, away from outer suburbs where people are likely to use cars as their main means of transportation. A 15-minute walkable catchment would promote growth in areas close to the city centre and encourage a shift to more environmentally friendly modes of transportation.</p> <p>WCC should use a 15 minute walkable catchment to fall in line with the NPS-UD to increase housing supply. It is not unreasonable to expect that a large portion of residents who live a 15 minute walk away from the city centre would choose to walk as their main mode of commute. WCC should take full advantage of the NPS-UD standards by increasing the walkable catchment to 15 minutes, which will provide many benefits to Wellington city. [Refer to further submission for full reason]</p>	Allow
Kāinga Ora Homes and Communities	391.17	Mapping / Mapping General / Mapping General	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the Character Precincts overlay be amended to reflect the new title and extent of the Character Areas Overlay mentioned in Appendix 3 of the original submission.
Kāinga Ora Homes and Communities	391.18	Mapping / Mapping General / Mapping General	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that Character Precincts be removed in areas with Heritage classification.
LIVE WELLington	FS96.3	Mapping / Mapping General / Mapping General	Oppose	The character precincts have been widely consulted on and offer a level of protection for Wellington's streetscape that is appropriate and different to that of heritage. Wellington's character suburbs are part of Wellington's identity and create a sense of place that is valued and worth preserving.	Disallow
Roland Sapsford	FS117.3	General / Mapping / Mapping General / Mapping General	Oppose	The character precincts have been widely consulted on and offer a level of protection for Wellington's streetscape that is appropriate and different to that of heritage. Wellington's character suburbs are part of Wellington's identity and create a sense of place that is valued and worth preserving.	Disallow
Kāinga Ora Homes and Communities	391.19	Mapping / Mapping General / Mapping General	Oppose in part	The inclusion of flood hazard mapping as part of the District Plan is opposed. Including Flood Hazard overlays in the District Plan ignores the dynamic nature of flood hazards and will create unnecessary additional cost and uncertainty for landowners and land developers.	Remove the Flood Hazard overlay from planning maps.
Mt Victoria Historical Society Inc	FS39.5	Mapping / Mapping General / Mapping General	Oppose	The Mt Victoria North Townscape Precinct is based on the heritage of the suburb's development and it is also essential to the identity of the city	Disallow
Toka Tū Ake EQC	FS70.44	General / Mapping / Mapping General / Mapping General	Oppose	Accurate and risk-based regulatory hazard maps are an important tool in the WCC Proposed District Plan to limit subdivision and development within areas subject to natural hazard risk. Removing part or all of these regulatory maps opens the possibility that rules controlling development in flood-prone areas will be inconsistently applied, exposing people and their properties to unnecessary flood risk.	Disallow
Greater Wellington Regional Council	FS84.51	General / Mapping / Mapping General / Mapping General	Oppose	Greater Wellington disagree with the submitter that the flood hazard maps should be removed from the Proposed District Plan and instead be held in a nonstatutory GIS.	Disallow / Seeks that all flood hazard maps are included in the Proposed District Plan
Metlifecare Limited	FS87.2	General / Mapping / Mapping General / Mapping General	Support	Supports the removal of the Flood Hazard overlay from planning maps on the basis that they create unnecessary additional cost and uncertainty for landowners and land developers. The overlay should be identified on a non-statutory map that is publicly available to provide flexibility to ensure that these maps are continually updated.	Allow
Stride Investment Management Limited	FS107.38	General / Mapping / Mapping General / Mapping General	Support	Stride supports deleting the Flood Hazard Overlays from the Proposed Plan for the reasons provided by the primary submitter, and to ensure a practical approach is taken to flood risk management.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Investore Property Limited	FS108.38	General / Mapping / Mapping General / Mapping General	Support	Investore supports deleting the Flood Hazard Overlays from the Proposed Plan for the reasons provided by the primary submitter, and to ensure a practical approach is taken to flood risk management.	Allow
Te Rūnanga o Toa Rangatira	FS138.74	General / Mapping / Mapping General / Mapping General	Oppose	The submitter opposes flood hazard overlays and seeks for flood hazard overlays to be removed from the plan. Te Rūnanga o Toa Rangatira oppose the removal of flood hazard overlays because these overlays provide certainty around what areas could be affected by hazards and how to plan for natural hazards – what land uses are appropriate to allow and disallow for.	Disallow
Kāinga Ora Homes and Communities	391.20	Mapping / Mapping General / Mapping General	Amend	<p>Considers that the Flood Hazard Overlay should not be included in the District Plan maps and should instead be included in non-statutory GIS maps that are publicly available. The Auckland Unitary Plan (“AUP”) adopts a set of non-statutory flood hazard overlay maps which operate as interactive maps on the Council’s ‘Geo Maps’ website – a separate mapping viewer to the statutory maps. This approach is different to that of the traditional means of displaying hazard overlays on district plan maps and reflects that these maps do not have regulatory effect.</p> <p>The advantage of this approach is the ability to operate a separate set of interactive maps which are continually subject to improvement and updates, outside of and without a reliance on the Schedule 1 process under the RMA. This separate set of interactive maps are therefore able to be relied upon in a legal sense.</p>	Seeks that data from the Flood Hazard overlay is included in non-statutory GIS maps that are publicly available.
Toka Tū Ake EQC	FS70.45	General / Mapping / Mapping General / Mapping General	Oppose	Removing the regulatory nature of flood hazard maps reduces the ability of the plan to spatially limit inappropriate development in areas at risk from flood hazard, and allows for inconsistent application of rules to minimize flood hazard risk.	Disallow
Greater Wellington Regional Council	FS84.52	General / Mapping / Mapping General / Mapping General	Oppose	Greater Wellington disagree with the submitter that the flood hazard maps should be removed from the Proposed District Plan and instead be held in a nonstatutory GIS.	Disallow / Seeks that all flood hazard maps are included in the Proposed District Plan
Te Rūnanga o Toa Rangatira	FS138.75	General / Mapping / Mapping General / Mapping General	Oppose	The submitter opposes flood hazard overlays and seeks for flood hazard overlays to be removed from the plan. Te Rūnanga o Toa Rangatira oppose the removal of flood hazard overlays because these overlays provide certainty around what areas could be affected by hazards and how to plan for natural hazards – what land uses are appropriate to allow and disallow for.	Disallow
Kāinga Ora Homes and Communities	391.21	Mapping / Mapping General / Mapping General	Support in part	The mapping of other, non-flooding natural hazards to be incorporated into the District Plan is supported, such as Liquefaction and Fault Hazards, as these hazards are less subject to change.	Retain Natural Hazard mapping of risks unrelated to flooding.
Kāinga Ora Homes and Communities	391.22	Mapping / Mapping General / Mapping General	Support in part	The District Plan maps are supported but amendments are sought.	Retain District Plan maps with amendment.
Kāinga Ora Homes and Communities	391.23	Mapping / Mapping General / Mapping General	Amend	Considers that the District Plan maps should be amended to display the high, medium, and low coastal hazards as separate layers that can be turned on and off individually in the GIS viewer.	Amend District Plan maps to display the high, medium, and low coastal hazards as separate layers that can be turned on and off individually in the GIS viewer.
Kāinga Ora Homes and Communities	391.24	Mapping / Mapping General / Mapping General	Amend	<p>Considers that the spatial application of the HRZ should extend across the urban environment and considers that additional height and density should be provided for within a walkable catchment of centres to enable more intensification in areas of high accessibility to key centre. Proposed spatial application is provided in Appendix 4.</p> <p>[Refer to original submission, including Appendix 4]</p>	<p>Seeks that walkable catchments and the spatial extent of the High Density Residential Zone are extended, as detailed in Appendix 4.</p> <p>[Refer to original submission, Appendix 4]</p>
Greater Wellington Regional Council	FS84.22	General / Mapping / Mapping General / Mapping General	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.25	Mapping / Mapping General / Mapping General	Oppose	Opposes the City Centre building height controls as notified and seeks that the building heights are simplified. Considers the Central Wellington City and the City Centre Zone should provide for unlimited building heights to encourage intensification and development. There are rules and standards in the District Plan that will control bulk, location and height of buildings in the city centre. Considers height should not be limited in the City Centre. Seeks simplification of the height controls.	Seeks to delete any mapping references to height limits in the CCZ.
Greater Wellington Regional Council	FS84.23	General / Mapping / Mapping General / Mapping General	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Lower Kelburn Neighbourhood Group	FS123.24	General / Mapping / Mapping General / Mapping General	Support	Considers that Wesley Precinct and Lower Kelburn, the area between Bolton St to San Sebastian Rd or the cable car, and between the Botanic Gardens and the Motorway should be classified as a Character Precinct with demolition controls and height limit of 11m for the many reasons outlined the submission and others referred to in further submission, including that of Lower Kelburn Neighbourhood, submission 356.	Allow
Murray Pillar	393.4	Mapping / Mapping General / Mapping General	Amend	Considers that new Character Precinct areas should be established in areas missed out altogether in the PDP, such as Bolton Street.	Amend the mapping to add a new Character Precinct area for Bolton Street.
Wellington's Character Charitable Trust	FS82.274	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Murray Pillar	393.5	Mapping / Mapping General / Mapping General	Amend	Considers that new Character Precinct areas should be established in areas missed out altogether in the PDP, such as Aurora Terrace.	Amend the mapping to add a new Character Precinct for Aurora Terrace.
Wellington's Character Charitable Trust	FS82.275	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Murray Pillar	393.6	Mapping / Mapping General / Mapping General	Amend	Considers that new Character Precinct areas should be established in areas missed out altogether in the PDP, such as Talavera Terrace in Lower Kelburn.	Amend the mapping to add a new Character Precinct for Talavera Terrace in Lower Kelburn.
Wellington's Character Charitable Trust	FS82.276	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.169	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Lucy Harper and Roger Pemberton	401.1	Mapping / Mapping General / Mapping General	Amend	Considers that the Earls Terrace and Port Street/Stafford Street area has qualities, including visibility which should qualify it as a character area. The submitter considers that Earls Terrace and Port Street/Stafford Street area has a particularly charming ambience and modification to the houses has generally been in keeping with the Mt Victoria architecture.	Seeks that Earls Terrace, Port Street and Stafford Street are included in the PDP as a character area.
Wellington's Character Charitable Trust	FS82.193	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Historic Places Wellington Inc	FS111.125	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Investore Property Limited	405.7	Mapping / Mapping General / Mapping General	Support	Supports the provision of a broad area of six storey High Density Residential zoning in the wider Johnsonville catchment. Submitter considers that this gives effect to the NPS-UD and reflects the status of Johnsonville as a Metropolitan Centre.	Retain the High Density Residential Zone 21m building heights in the wider Johnsonville catchment as notified.
Investore Property Limited	405.8	Mapping / Mapping General / Mapping General	Support	Supports the hierarchy of centres, and the recognition of Johnsonville as a Metropolitan Centre of significant sub-regional importance.	Seeks that the heirachy of centres remains, including Johnsonville as a Metropolitan Centre
Investore Property Limited	405.9	Mapping / Mapping General / Mapping General	Amend	Considers that the height limit for the Tawa Site at 5 William Earp Place and surrounding Mixed Use zone should be increased to 18m. This height is appropriate having regard to the location of the site, and its boundaries with State highway 1, Main Road and the railway line.	[inferred deision requested] Seeks that mapping of Height Control Area 4 is amended to provide for the Mixed Use zone applying to 5 William Earp Place to have a height limit of 18 m.
Investore Property Limited	405.10	Mapping / Mapping General / Mapping General	Amend	Considers that the 35 m maximum height limit within Johnsonville and extent is generally appropriate; but considers that central parts of the Johnsonville Metropolitan Centre should enable up to 50 m. This will enable sufficient development needed in Johnsonville and is consistent with the NPS-UD. The area identified for this 50 m maximum height is shown in Appendix D of the submission.	Seeks that Height Control Area 1 (Johnsonville) is nuanced to set a 50 m building height limit within central Johnsonville being an area identified between Moorfield Road and Johnsonville - Porirua Motorway [Refer to original submission for map]; and 35 m for the remainder of Johnsonville.
Johnsonville Community Association Inc	FS114.21	General / Mapping / Mapping General / Mapping General	Oppose	While the JCA is a strong long term supporter of redeveloping the Johnsonville Shopping Centre, it is very concerned of any development that is out of scale to the Johnsonville Suburban Centre. The key purpose of the Johnsonville Shopping Centre is to provide the range or retail and services required to support surrounding residential areas. The JCA is concerned the WCC emphasis on building high-rise residential development within the Johnsonville Shopping Centre will compromise the focus of the centre and possibly further delay redevelopment of the Johnsonville Mall. [Refer to further submission for full reason]	Disallow / Seeks to amend the Johnsonville Metropolitan Centre height limit from 10 storeys to the previous Metropolitan Centre maximum height limit of 8 storeys
Investore Property Limited	405.11	Mapping / Mapping General / Mapping General	Support	Support the Height Control 2 (Kilbirnie) of the Metropolitan Centre Zone.	Retain the Height Control 2 (Kilbirnie) mapping as notified.
Investore Property Limited	405.12	Mapping / Mapping General / Mapping General	Support in part	The Korokoro - Takapū Ara is identified as a category B Site and Area of Significance to Māori (SASM).This SASM has a very small encroachment into a built-up part of the submitter's Tawa site at 5 William Earp Place, before extending several kilometres to Korokoro. While the submitter generally supports the identification of this SASM, the submitter seeks clarification that this SASM is mapped at a level of detail, to provide sufficient certainty that it is intended to encroach into 5 William Earp Place.	Retain SCHED-7 (Sites and Areas of Significance to Maori) and seeks clarification and amendment if necessary.
Investore Property Limited	405.13	Mapping / Mapping General / Mapping General	Amend	The Korokoro - Takapū Ara is identified as a category B Site and Area of Significance to Māori (SASM).This SASM has a very small encroachment into a built-up part of the submitter's Tawa site at 5 William Earp Place, before extending several kilometres to Korokoro. While the submitter generally supports the identification of this SASM, the submitter seeks clarification that this SASM is mapped at a level of detail, to provide sufficient certainty that it is intended to encroach into 5 William Earp Place.	Seeks that the SASM extent identified in SCHED-7 (Sites and Areas of Significance to Maori) for Korokoro - Takapū Ara is clarified, provided in further detail with the identification on planning maps amended if necessary.
Wellington International Airport Ltd	406.13	Mapping / Mapping General / Mapping General	Oppose	Not opposed to the coastal inundation mapping in principle, however considers further nuancing of the provisions that relate to coastal hazards and more specifically, tsunami hazard, is required. [See paragraphs 4.85 to 4.89 of original submission for full reason]	Opposes the Coastal Tsunami Hazard overlay

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.14	Mapping / Mapping General / Mapping General	Amend	Not opposed to the coastal inundation mapping in principle, however considers further nuancing of the provisions that relate to coastal hazards and more specifically, tsunami hazard, is required. [See paragraphs 4.85 to 4.89 of original submission for full reason]	Seeks that provisions relating to Tsunami Hazard Overlay are amended to have further nuancing. [Inferred decision requested].
Wellington International Airport Ltd	406.15	Mapping / Mapping General / Mapping General	Oppose	Submitter acknowledges its siting within the coastal environment, as defined by the NZCPS and the Greater Wellington Regional Policy Statement. Submitter expresses concern that the complex relationship between the Coastal Environment, Infrastructure and Airport Zone provisions creates an inefficient consenting pathway for airport and airport related activities.	Opposes the Coastal Environment overlay at the Airport Zone.
Guardians of the Bays Inc	FS44.178	Mapping / Mapping General / Mapping General	Oppose	Considers that Wellington International Airport is in the coastal environment. Considers that it is something they need to consider with all their decisions. Considers that removing the airport out of this overlay would be a nonsense when both ends of the airport north Evans Bay and south with Lyall Bay surrounded by sea.	Disallow / Retain the airport zone in the coastal environment overlay.
Wellington International Airport Ltd	406.16	Mapping / Mapping General / Mapping General	Amend	Submitter acknowledges its siting within the coastal environment, as defined by the NZCPS and the Greater Wellington Regional Policy Statement. Submitter expresses concern that the complex relationship between the Coastal Environment, Infrastructure and Airport Zone provisions creates an inefficient consenting pathway for airport and airport related activities.	Seeks that the Coastal Environment overlay is removed from the Airport Zone.
Guardians of the Bays Inc	FS44.179	Mapping / Mapping General / Mapping General	Oppose	Considers that Wellington International Airport is in the coastal environment. Considers that it is something they need to consider with all their decisions. Considers that removing the airport out of this overlay would be a nonsense when both ends of the airport north Evans Bay and south with Lyall Bay surrounded by sea.	Disallow / Retain the airport zone in the coastal environment overlay.
Wellington International Airport Ltd	406.17	Mapping / Mapping General / Mapping General	Support	Supports the mapping of ANB and 60dB Ldn Noise Boundary. Considers that this boundary identifies an area within which specific land use controls apply, and identifies the point of compliance with respect to aircraft noise, as defined by WIAL's Main Site and East Side Area Designations.	Retain Air Noise Boundary as notified.
Kāinga Ora – Homes and Communities	FS89.110	General / Mapping / Mapping General / Mapping General	Oppose	Kāinga Ora considers this should be renamed as 'inner air noise overlay'.	Disallow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.13	General / Mapping / Mapping General / Mapping General	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.18	Mapping / Mapping General / Mapping General	Support	Considers that this boundary identifies an area within which specific land use controls apply, and identifies the point of compliance with respect to aircraft noise, as defined by WIAL's Main Site and East Side Area Designations,	Retain 60dB Ldn Noise Boundary as notified.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.14	General / Mapping / Mapping General / Mapping General	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.19	Mapping / Mapping General / Mapping General	Amend	Opposes Liquefaction Hazard Overlay to the extent that they cover the Airport Zone. Considers that the engineering and design requirements of airport infrastructure, including the requirements under the CDEM to remain operational following a natural hazard event, mean that liquefaction and flood hazard inundation cannot occur on site for operational reasons.	Amend the extent of the Liquefaction Hazard Overlay to remove it from the extent of the Airport Zone. [Inferred Decision Requested]
Guardians of the Bays Inc	FS44.181	Mapping / Mapping General / Mapping General	Oppose	Considers that parts of Wellington airport are made up of 1950s reclaimed land from sea therefore should be part of the Liquefaction Hazard Overlay.	Disallow / Retain the airport zone in the liquefaction hazard overlay.
Toka Tū Ake EQC	FS70.83	General / Mapping / Mapping General / Mapping General	Oppose	The liquefaction hazard overlay in the Proposed District plan is based on the High and Very High liquefaction susceptibility areas in Griffin et al (2020) ⁶ . These zones are based on cone penetrometer tests, and analysis of geomorphology, hydrology and site conditions, and do not take into account likely post-event remediation of liquefaction effects. The part of the Airport within the liquefaction overlay is an area of anthropogenic fill, which is in all cases highly susceptible to liquefaction. If geotechnical engineering has been done to mitigate liquefaction risk, the risk may be lessened, but the submission does not provide examples of this.	Disallow
Wellington International Airport Ltd	406.20	Mapping / Mapping General / Mapping General	Amend	Opposes Flood Hazard Overlay to the extent that they cover the Airport Zone. Considers that the engineering and design requirements of airport infrastructure, including the requirements under the CDEM to remain operational following a natural hazard event, mean that liquefaction and flood hazard inundation cannot occur on site for operational reasons.	Amend the extent of the Flood Hazard Overlay to remove it from the extent of the Airport Zone. [Inferred Decision Requested]
Guardians of the Bays Inc	FS44.183	Mapping / Mapping General / Mapping General	Oppose	Considers that a vast catchment of Strathmore feeds through Wellington Airport and it should be part of the Flood Hazard overlay	Disallow / Retain the airport zone in the flood hazard overlay.
Toka Tū Ake EQC	FS70.84	General / Mapping / Mapping General / Mapping General	Oppose	The flood inundation overlay is based on probability maps by Wellington Water of likely ponding areas in the event of a flood. It does not take into account likely post-event remediation of flooding effects. If geotechnical engineering has been done to mitigate flood inundation risk, the risk may be lessened, but the submission does not provide examples of this.	Disallow
Guy Marriage	407.1	Mapping / Mapping General / Mapping General	Amend	Considers that the extension of the CCZ down Adelaide Road is flawed, as this is the lowest point on the path from Newtown to the Basis and is also the former boggy route of a wetland stream, so will be unsuitable for the creation of high rises.	Amend the mapping so that the City Centre Zone chapter is not extended along Adelaide Road.
KiwiRail Holdings Limited	408.3	Mapping / Mapping General / Mapping General	Amend	The extent of KRH1 is incorrect should be amended. KiwiRail seek a minor correction to the Johnsonville Line designation extent of Tunnel 6. The shapefile does not accurately cover the existing rail infrastructure and KiwiRail seek amendment to ensure the tunnel is accurately designated.	Amend the extent of KRH1 to ensure the Johnsonville Line designation extent of Tunnel 6 is accurately designated. [Refer to original submission for map].
KiwiRail Holdings Limited	408.4	Mapping / Mapping General / Mapping General	Amend	The extent of KRH1 is incorrect should be amended. KiwiRail seek amendment to the designation label for KRH2. This designation, located at Hawkins Hill, is identified with both labels KRH1 and KRH2 on the online maps.	Amend the planning maps to remove the KRH1 label from the KRH2 designation at Hawkins Hill. [Refer to original submission for map].
Terawhiti Farming Co Ltd (Terawhiti Station)	411.1	Mapping / Mapping General / Mapping General	Amend	Oppose SNAs on private property. Considers that sites have been incorrectly identified. Considers that a regulatory regime puts voluntary conservation programmes at risk. [See original submission for full reasons]	[Inferred decision requested] Seeks that significant natural areas do not apply to privately owned land.
Terawhiti Farming Co Ltd (Terawhiti Station)	411.2	Mapping / Mapping General / Mapping General	Amend	Considers the current extent The current overlay is far too broad, and covers significant area of land not associated with the Albion Battery and Mine Remains.	Amend the mapping of the Albion Gold Mining Company Battery and Mine Remains Heritage area (#40) to more accurately define the heritage features.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Heritage Professionals	412.15	Mapping / Mapping General / Mapping General	Amend	Considers that the character precincts should be as mapped in the existing district plan because of the lack of evidence upon which the reduction in scale is based including the flawed analysis by Boffa Miskell and the information in the HBA. [See original submission for further detail including appendices]	Seeks that the character precincts be extended to that in the operative district plan.
Historic Places Wellington Inc	FS111.200	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow
VicLabour	414.9	Mapping / Mapping General / Mapping General	Oppose	Considers that character precincts restrict space for development and are a hindrance for the proposed mass rapid transit route. Considers that many owners will choose not to sell their homes to be developed given how valuable many are in their current state. Those that are less appealing will be more likely to be sold for development which is considered a good outcome. [See original submission for full reasons]	Seeks that character precincts be removed from the plan. [Inferred decision requested]
Wellington's Character Charitable Trust	FS82.92	General / Mapping / Mapping General / Mapping General	Oppose	Considers that character precincts in PDP protect significant amenity values in Wellington City and ought to be retained.	Disallow
Historic Places Wellington Inc	FS111.94	General / Mapping / Mapping General / Mapping General	Oppose	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Disallow
VicLabour	414.10	Mapping / Mapping General / Mapping General	Amend	Considers Significant Natural Areas are important in order to protect our environment and native plantlife. Considers that while the city is built denser, the environment and our wildlife should be protected. Considers that it is ironic that the argument for being anti-density is to protect the 'character' of our housing but yet there is no consideration for the 'character' of our nature, which is arguably much harder to restore than the character amenity gained from what the Council deems as character housing.	Seeks that significant natural areas provisions apply to residentially zoned sites.
Sarah Cutten and Matthew Keir	415.2	Mapping / Mapping General / Mapping General	Oppose	The Heritage Building listing of 28 Robieson Street is opposed. Considers the house is deemed to be in poor condition and remediation work is estimated to cost as much as \$800 - \$1million. Detailed renovations plans from the owners have been provided, which include repurposing the timber from the house and other special aspects of the building. Considers a heritage listing on the property would incur risks, costs and stress to the owners, who wish to renovate the house. It is argued that the heritage value of the building is low, and that the listing would not result in any positive net benefits for society or the owners. It is considered that the listing would instead lead to a worse heritage outcome for the community due to the significant impacts on the owners linked to the condition of the building. [Refer to original submission for full reason, including attachments]	Delete Item 514 (28 Robieson Street) from SCHED1 - Heritage Building and map.
Ian Attwood	FS16.1	General / Mapping / Mapping General / Mapping General	Support	Scheduling will inevitably incur additional costs and constraints on developments and improvements and will consequently be counterproductive to the preservation of architectural heritage. Council has not provided substantiated independent evidence that 28 Robieson Street has significant or architectural merit and heritage value to the community.	Allow / Seeks that 28 Robieson Street be wholly removed from Schedule 1 'Heritage Buildings'.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Sophie Kahn	FS76.9	Mapping / Mapping General / Mapping General	Support	The owner (of 28 Robieson Street) points to the crippling costs that urgently-needed renovations to the house will incur on them if Heritage standards are to be met, and states that the potential of being unable to meet these costs will merely result in worse outcomes for Heritage - the very opposite of what WCC aims for. This reflects the Kahn House situation.	Amend / Delete Item 514 (28 Robieson St) from SCHED1 - Heritage Buildings and map - Do not force private homes on the Plan unless there is full commitment to full and fair financial compensation in perpetuity for the financial burdens private homeowners will face if the listing is truly historically significant, offer to purchase private homes proposed for listing when the owner disagrees should be considered. Only propose for listing private homes that have had an independent body's full analysis of outcomes the homeowner will face and that concludes, with robust evidence, that the public need is such that the rights of the homeowner, as well as the mental and financial well being of the homeowner can indeed be justly considered secondary to the needs of an abstract entity (i.e. the 'public'; future generations)
Willis Bond and Company Limited	416.2	Mapping / Mapping General / Mapping General	Amend	If height limits are retained, 35m should apply across both Metropolitan Centres. This is in line with the purpose of Metropolitan Centres and the National Policy Statement on Urban Development 2020 (NPS-UD), Policy (3)(b). [Refer to original submission for full reason].	Seeks that if height limits are retained, amend Kilbirne to 35m in the mapping.
Willis Bond and Company Limited	416.7	Mapping / Mapping General / Mapping General	Amend	Considers for the Wellington Train Station Precinct that intensification should be most prevalent where major existing public infrastructure is available, particularly public transport. Submitter considers to that end, building height limits (not withstanding earlier comments regarding height limits in general) around the Train Station should be maximised. Submitter notes the 50m height limit above the rail corridor enabling a potential over-station development – the submitter strongly supports this initiative and believe even further height is warranted here. This height should be extended to nearby sites including the station itself, and around Thorndon Quay, Waterloo Quay and Lambton Quay – the majority of which is currently constrained to between 27m and 40m. The submitter believes there are sufficient other controls in place to manage responsible use of height.	Seeks that for the Wellington Train Station precinct CCZ-S1 (Maximum height) be amended in the mapping.
Willis Bond and Company Limited	416.8	Mapping / Mapping General / Mapping General	Amend	Considers that for the Tasman Street block, that the block bounded by Buckle Street, Tasman Street, Rugby Street and Sussex Street appears as an anomaly (28.5m) to the height limits of the similarly-zoned blocks immediately to the north (42.5m) and to the south (42.5m). Submitter considers that it is clear that 28.5m is utilised as a transitional height from the 42.5m zone to the lower 21m and 11m height limits, however it is unclear what justification there is for the anomaly on this block given the intensification of the entire Adelaide Road precinct immediately south, and the Te Aro precinct immediately north.	Seeks that the Tasman Street block CCZ-S1 (Maximum height) be amended in the mapping.
Josephine Smith	419.9	Mapping / Mapping General / Mapping General	Not specified	Considers that Wellingtons livability, character and heritage can be protected at the same time as new housing is added. Considers that the demolition controls in pre-1930s areas (as defined in the Operative District Plan) should be retained, while identifying areas of particular character within these (for example as identified in the revised draft Spatial Plan) to enable a more granular level of control over demolition. [See original submission for full reasons]	Seeks that the character precincts are extended in the mapping to encompass the areas in Appendix 1 of the Operative District Plan.
Historic Places Wellington Inc	FS111.201	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Fabric Property Limited	425.3	Mapping / Mapping General / Mapping General	Amend	The Meridian Building at 33 Customhouse Quay is located adjacent to a Minimum Sunlight Access Public Space in relation to Kumutoto Park Fabric seeks deletion of WFZ-S2.	Option 2: If WFZ-S2 (Minimum Sunlight Access - Public Space) is not deleted in its entirety, then: Seeks the Minimum Sunlight access Public Space overlay is deleted in relation to Kumutoto Park.
Wellington Civic Trust	FS83.13	General / Mapping / Mapping General / Mapping General	Oppose	Protection of sunlight access is essential for the Waterfront Zone. The request to remove one protected area is unreasonable and contrary to the interest of users and the wider public.	Disallow
Johnsonville Community Association	429.13	Mapping / Mapping General / Mapping General	Oppose	Considers that the key purpose of the Johnsonville Shopping Centre is to provide the range of retail and services required to support surrounding residential areas. Submitter is concerned that the WCC emphasis on building residential development within the Johnsonville Shopping Centre will compromise the focus of the centre and possibly further delay redevelopment of the Johnsonville Mall.	Opposes the height limit change from 8 storeys to 10 storeys in the Johnsonville Metropolitan Centre Zone.
Johnsonville Community Association	429.14	Mapping / Mapping General / Mapping General	Amend	Considers that the key purpose of the Johnsonville Shopping Centre is to provide the range or retail and services required to support surrounding residential areas. Submitter is concerned the WCC emphasis on building residential development within the Johnsonville Shopping Centre will compromise the focus of the centre and possibly further delay redevelopment of the Johnsonville Mall.	Seeks that The Johnsonville Metropolitan Centre Zone has it's height limits amended to 8 storeys.
Kat Hall	430.3	Mapping / Mapping General / Mapping General	Amend	The extent of Character Precincts should be amended. [Refer to original submission for full reason]	Increase the extent of the Character Precincts in the mapping.
Peter Fordyce	431.1	Mapping / Mapping General / Mapping General	Amend	Considers that Heritage Areas should be expanded. Wellington's built heritage comprises a vital part of the city, featuring a cityscape that is not only unique within New Zealand, but the world. This contributes to not only tourism, but fosters a sense of "place" for residents. While the rules as they currently exist provide some protection, this does not go far enough, and irreplaceable buildings and streetscapes are at risk of being lost.	Seeks that Heritage Areas be expanded in the mapping.
Historic Places Wellington Inc	FS111.43	General / Mapping / Mapping General / Mapping General	Support	HPW supports the addition of heritage areas in Mt Victoria, comprising notified areas of Elizabeth St and Porritt Ave and further new heritage areas in Claremont Grove; addresses in Elice St; and the addition of 1-6 & 8 Tutchen Ave to the adjacent proposed new Porritt Ave Heritage Area as notified.	Allow
Peter Fordyce	431.2	Mapping / Mapping General / Mapping General	Amend	Considers that there should be wider coverage for the rules preventing demolition of pre-1930s dwellings in areas with that protection.	Seeks that the character precincts are extended in the mapping.
Historic Places Wellington Inc	FS111.208	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow
Garvin Wong	432.1	Mapping / Mapping General / Mapping General	Amend	Character Precincts in Thorndon are opposed. Some old properties under character protection in Thorndon are over 100 years old. Renovating these properties will be more expensive than building new ones, as most of them: - have rotten weatherboards and borer holes in their structure frames, - have been left "as it is", - are cold and damp in winter and costly to warm up, - were built very close to each other and get very little sunlight, - have sunken foundations. It is expected that the life span of a newly built property is 50 years and houses built 100 years ago should not be expected to last longer.	Seeks that the extent of Character Precincts be amended in the mapping to remove properties in Thorndon.
Thorndon Residents' Association Inc	FS69.37	General / Mapping / Mapping General / Mapping General	Oppose	WCC Summary reads: Considers that Character Precincts should not be a qualifying matter. Seeks that the extent of Character Precincts be amended to remove properties in Thorndon.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	FS82.55	General / Mapping / Mapping General / Mapping General	Oppose	Considers Thorndon character precincts protect significant heritage and character values.	Disallow
Historic Places Wellington Inc	FS111.95	General / Mapping / Mapping General / Mapping General	Oppose	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Disallow
Miriam Moore	433.1	Mapping / Mapping General / Mapping General	Amend	Considers the maps for the mixed use zone adjacent to train stations in Tawa are misleading with the 12m height limit displayed on them, as the zone (MUZ R16.2) allows for 18-22m height limit for new residential buildings at these sites (as a matter of discretion under the rule). Considers that additions and alterations appear more incentivised as permitted activities, rather than residential redevelopment of this land.	Seeks to amend the heights in the planning maps
Miriam Moore	433.2	Mapping / Mapping General / Mapping General	Oppose	Oppose the extent of the character protected areas. The inaccessibility of our character housing stock forces out older populations, if our ageing population can age in place in their home suburbs like Mount Victoria, this will free up more affordable land in the fringe suburbs	Reduce the extent of the character precincts in the mapping.
Anna Kemble Welch	434.4	Mapping / Mapping General / Mapping General	Amend	Considers that the Character Precincts should be increased through the application of character as a qualifying matter in the mapping.	Seeks that the extent of the character precincts is increased.
Historic Places Wellington Inc	FS111.209	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow
Michelle Rush	436.2	Mapping / Mapping General / Mapping General	Amend	Considers that the HRZ and MRZ should be revised to reflect the walking catchments of the Johnsonville line as a rapid transit route. All other consequential amendments to the plan's sections should also be made to give effect to this.	Seeks that the High Density Residential Zone and Medium Density Residential Zone be revised to reflect the walking catchments of the Johnsonville Line as a Rapid Transit Line
Michelle Rush	436.3	Mapping / Mapping General / Mapping General	Amend	Considers that the zone coverage of the Medium Density Zone should be adjusted in respect of the Johnsonville Line Catchment, the City Centre Zones and Metropolitan Centre Zones, as per the 'walkable catchments' requirements of Policy 3 in the NPS-UD. This is important to ensure that the district plan fulfils its own strategic objectives, as well as contributing fully as a supporting document to the councils wider objectives and outcomes, e.g. towards carbon zero, liveability, thriving businesses and better housing availability. [Refer to original submission for full reason]	Amend the extent of the Medium Density Residential Zone to respect walkable catchment requirements from Policy 3 in the NPS-UD.
Michelle Rush	436.4	Mapping / Mapping General / Mapping General	Amend	Considers that the zone coverage of the High Density Zone should be adjusted in respect of the Johnsonville Line Catchment, the City Centre Zones and Metropolitan Centre Zones, as per the 'walkable catchments' requirements of Policy 3 in the NPS-UD. This is important to ensure that the district plan fulfils its own strategic objectives, as well as contributing fully as a supporting document to the councils wider objectives and outcomes, e.g. towards carbon zero, liveability, thriving businesses and better housing availability. [Refer to original submission for full reason]	Amend the extent of the High Density Residential Zone to respect walkable catchment requirements from Policy 3 in the NPS-UD.
Michelle Rush	436.5	Mapping / Mapping General / Mapping General	Amend	Considers that the extent of mixed zones should be widened in neighbourhood and local centre zones, taking in part of the medium density and high density residential zones. This would ensure the ability for people to work, live, and seek services within a walkable, or micro-transport catchment while achieving carbon reduction, increasing liveability and amenity, contributing to public health and wellbeing, and community vibrancy. Increasing provision for mixed uses is part of this.	Seeks to extend Mixed Use Zones in and around Neighbourhood Centre Zones, Local Centre Zones, Medium Density Residential Zones and High Density Residential Zones.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kirsty Woods	437.1	Mapping / Mapping General / Mapping General	Amend	Supports the current character areas identified, but considers that the character precinct should be extended to Newtown.	Retain Character Precincts as notified and seeks amendment to extent to Newtown.
Wellington's Character Charitable Trust	FS82.231	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.111	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Kirsty Woods	437.2	Mapping / Mapping General / Mapping General	Amend	Supports the current character areas identified, but considers that the character precinct should be extended to Newtown.	Seeks that the extent of the character precinct in Newtown is increased in the mapping.
Wellington's Character Charitable Trust	FS82.232	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.112	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Newtown Residents' Association	440.4	Mapping / Mapping General / Mapping General	Amend	Considers that 14m height are unnecessary in Newtown and should be reduced to 11m.	Seeks that Newtown be classified as MRZ-S2 (Building Height Control) - Height Area 1 (11m).
Newtown Residents' Association	440.5	Mapping / Mapping General / Mapping General	Amend	Considers that 14m height are unnecessary in Berhampore and should be reduced to 11m.	Seeks that Berhampore be classified as MRZ-S2 (Building Height Control) - Height Area 1 (11m).
Kathryn Lethbridge	442.1	Mapping / Mapping General / Mapping General	Amend	Considers that WCC should be including character / heritage recognition for the Hobson Precinct (between Murphy Street and Hobson Street/Davis Street and the motorway). The zone is a jewel in the Wellington character / heritage crown and appropriate houses in the area should be protected to prevent unnecessary loss to this key cultural asset for the city.	Seeks that Hobson Street (between Murphy Street and Hobson Street/Davis Street and the motorway) is included within a character precinct in the mapping.
Thorndon Residents' Association Inc	FS69.69	General / Mapping / Mapping General / Mapping General	Support	WCC summary reads: The zone is a jewel in the Wellington character / heritage crown and appropriate houses in the area should be protected to prevent unnecessary loss to this key cultural asset for the city. Considers that MRZ for the Hobson Precinct meets the Government requirements for development and is more appropriate given the existing nature of the area and potential for inappropriate development.	Allow
Historic Places Wellington Inc	FS111.185	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Save Our Venues	445.3	Mapping / Mapping General / Mapping General	Amend	<p>Considers that a further solution to the issue of low acoustic insulation standards in new residential developments in the immediate vicinity of existing live music venues, could include the rezoning of existing music venues into Special Entertainment Precincts. This will allow for a higher level of sound output.</p> <p>For the purposes of immediate protection, these overlays could be directly applied to existing music venues but the development of broader zoning classifications that incorporate the sound of live music into city planning could make the development of new music venues in the future more achievable.</p> <p>[Refer to original submission for full reason]</p>	Seeks that the WCC consider creating a Special Entertainment Precinct Zone to protect existing and new music venues, and amend the mapping accordingly.
Save Our Venues	445.4	Mapping / Mapping General / Mapping General	Amend	<p>Considers that standards (which provides for entertainment venues and associated noise) can already be seen in the High Noise Area zoned for Courtney Place and could extend further protections to the venues such as Meow, San Fran and Valhalla which are currently located in the Central Area Zone with higher restrictions on noise output standards.</p> <p>[Refer to original submission for full reason]</p>	Seeks extension of the Courtenay Place Noise Area to include Cuba Street venues. [Inferred decision requested]
Dale Mary McTavish	448.4	Mapping / Mapping General / Mapping General	Amend	<p>Considers that the Newtown housing stock is mostly around 100 years which says a lot about the quality and resilience.</p> <p>Newtown is already high density on a human scale and is well-placed for sun and green spaces. People enjoy living here and there is the pleasure of 19th century views. Every single house has a story.</p> <p>The most recent infill housing is a blot on the landscape.</p> <p>[Refer to original submission for full reasons].</p>	Amend the mapping to increase the extent of the Character Precincts in Newtown to include the Council Officers Recommended Plan areas. [Inferred decision requested].
Historic Places Wellington Inc	FS111.113	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Guardians of the Bays	452.1	Mapping / Mapping General / Mapping General	Amend	Considers the need to amend the Airport Precinct Plans to include a new Bridge Street Precinct the area between existing boundary fence of the airport to the eastern side of the Bridge Street formed road.	Amend the planning maps to include a new Bridge Street Precinct for the area between existing boundary fence of the airport to the eastern side of the Bridge Street formed road.
Wellington International Airport Limited	FS36.246	General / Mapping / General	Oppose	WIAL opposes this submission and considers it is appropriate for the Bridge Street area contained within the Airport Zone to remain as notified. Creating a new precinct is inefficient and unnecessary, noting that the obstacle limitation surface limits the development potential of this area in any case.	Disallow
John Wilson	453.2	Mapping / Mapping General / Mapping General	Amend	Considers that the extent of the zones should be clearly defined, e.g. by lines on a map. If defined by distance from the centre point, this should be defined in terms of distance from the centre point. Not in terms of time eg say five or ten minutes walk from the centre of the zone as this requires a subjective interpretation of how far and how fast a typical pedestrian could walk.	Seeks to clarify how zones are defined in terms of distance from the centre point compared to time in minutes walked. [Inferred decision requested]
Chris Horne, Sunita Singh, Julia Stace, Paul Bell-Butler	456.2	Mapping / Mapping General / Mapping General	Amend	Considers that SNA-status should be restored to all residential-zoned properties. In particular considers that the Planning and Environment Committee vote to remove SNAs from all residential-zoned properties over-rode the purpose of the ECO chapter which "... is to identify significant natural areas within Wellington City in order to protect and maintain the remaining areas of indigenous biodiversity".	Amend mapping of Significant Natural Areas to include all residential-zoned properties.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Rachel Underwood	458.1	Mapping / Mapping General / Mapping General	Amend	Considers the plan should give more protection for older, heritage, wooden buildings because upgrading existing houses is more sustainable than demolition and replacing with concrete structures. Considers that it is unacceptable that planning should allow high-rise buildings that deprive older houses of sunlight and air flow and intensify dampness in living conditions.	Seeks to alter the Character Precincts to reflect the recommendations of the Character Area Review, Boffa Miskell Report 2019.
Historic Places Wellington Inc	FS111.202	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow
Rachel Underwood	458.2	Mapping / Mapping General / Mapping General	Amend	Considers further character protection is needed. [Refer to original submission for full reason]	Seeks that new areas of character precinct be established in areas missed out altogether, such as Wesley Rd, Bolton St and Aurora Terrace; and Talavera Terrace in lower Kelburn.
Wellington's Character Charitable Trust	FS82.277	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.170	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Lower Kelburn Neighbourhood Group	FS123.23	General / Mapping / Mapping General / Mapping General	Support	Considers that Wesley Precinct and Lower Kelburn, the area between Bolton St to San Sebastian Rd or the cable car, and between the Botanic Gardens and the Motorway should be classified as a Character Precinct with demolition controls and height limit of 11m for the many reasons outlined the submission and others referred to in further submission, including that of Lower Kelburn Neighbourhood, submission 356.	Allow
Greater Brooklyn Residents Association Inc's	459.4	Mapping / Mapping General / Mapping General	Amend	Considers the height limits at 2 and 5 Todman Street to be inappropriate. Considers that to have 22m on the north side will create shading issues and reduce sunlight.	Seeks that the 22m height limits on 5 Todman Street and 2 Todman Street be removed and that the height limits in the Operative District Plan be re-instated.
Greater Brooklyn Residents Association Inc's	459.5	Mapping / Mapping General / Mapping General	Amend	Considers 22m height limit too high for for Brooklyn and Kingston villages. [Refer to original submission for full reason]	Seeks a height limit on Cleveland street of 14m on the south side of the street and 11m on the north side of the street.
Grant and Marilyn Griffiths, Griffiths Family Trust	460.1	Mapping / Mapping General / Mapping General	Amend	Opposes Significant Natural Areas on Private land.	Seeks to remove all Significant Natural Areas from Private Land.
Anita Gude and Simon Terry	461.11	Mapping / Mapping General / Mapping General	Amend	Requests that 31 and 33 McFarlane Street, and 4 Vogel Street are included in the Townscape Precincts as they form an important part of the character of the precincts.	Include 31 and 33 McFarlane Street, and 4 Vogel Street in the Townscape Precincts Overlay.
Wellington's Character Charitable Trust	FS82.194	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.131	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Anita Gude and Simon Terry	461.12	Mapping / Mapping General / Mapping General	Amend	Requests that 11 Vogel Street is included in the Mount Victoria Character Precinct. Notes that the Boffa Miskell character report classified the property as having contributory character but was ultimately excluded from the overlay. Notes that 11 Vogel Street is the only property south of Hawker Street that within the Townscape Precinct but not within the Character Precinct. While the Townscape Precinct offers certain protections, the Character Precinct would be better suited to protecting the character values of the property. [see original submission for further details and maps]	Include 11 Vogel Street in the Mount Victoria Character Precinct.
Wellington's Character Charitable Trust	FS82.195	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest of the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.132	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Bruce Hay-Chapman	462.1	Mapping / Mapping General / Mapping General	Amend	Considers in appropriate to reinstate the character areas as proposed in the Spatial Plan. [Refer to original submission for full reason].	Seeks to alter the Character Precincts to reflect the recommendations of the Character Area Review, Boffa Miskell Report 2019 [inferred decision requested].
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.53	Mapping / Mapping General / Mapping General	Support	Supports submission because it supports character extensions in Harper Street, Newtown.	Allow

Christina Mackay	478.3	Mapping / Mapping General / Mapping General	Amend	Considers the proposed district plan does not promote enough character houses.	<p>Seeks that the extent of the character precincts be amended consistent with:</p> <ol style="list-style-type: none"> 1. Boffa Miskell report of February 2019; 2. Heritage New Zealand Pouhere Taonga (HNZPT) submission on the draft spatial plan; and 3. WCC officers recommended final spatial plan of 24 June 2021.
Historic Places Wellington Inc	FS111.206	General / Mapping / Mapping General / Mapping General	Support	<p>Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.</p> <p>[Interred reference to submission 158.1]</p>	Allow
Catharine Underwood	481.14	Mapping / Mapping General / Mapping General	Amend	Considers that the MRZ for Brooklyn should be removed and the status quo remains until a proper character/heritage assessment has been completed for the Brooklyn Area. Allowing 11 and 14 metres in height is likely to undermine potential character areas could create towering buildings dominating the neighbourhood.	Seeks that Brooklyn not be zoned Medium Density Residential.
Wellington's Character Charitable Trust	FS82.293	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Catharine Underwood	481.15	Mapping / Mapping General / Mapping General	Amend	Considers that the height limits in the central Brooklyn Zone be limited to 14m on the south side and 11m on the north side. Any higher than this will impact on sunlight onto the street, create a canyon effect for what is a narrow street and cause much shading on the street.	Seeks that Height Controls in the Local Centre Zone of Brooklyn be reduced to 14m on the south side and 11m on the north side.
Catharine Underwood	481.16	Mapping / Mapping General / Mapping General	Amend	Considers that the north side of Upland Road in the Kelburn Village zone should be limited to 11m in height and the south side be limited to 14m. 22m height is way out of proportion to the available area, will destroy to street scape, will reduce sunlight on the south side of the street. And not provide a 'transition' between the centre and the houses.	Seeks that the North side of Upland Road in Kelburn Village be limited to 11m in height and the south side be limited to 14m.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Catharine Underwood	481.17	Mapping / Mapping General / Mapping General	Amend	Considers that the proposed height limit of 18m for the local centre in Karori should be increased to match those of the other centres at 22m. Karori has more shops, more room, flatter land and a catchment that is almost fully catered for without leaving the suburb. Brooklyn Village, Aro Village and Kelburn Village seem to be being pushed for development when to do the buildings at the proposed height will impact the liveability, sunshine, shading, biodiversity. If Karori cannot be increased, Kelburn and Aro St should be reduced.	Seeks that the centre of Karori be limited to 22m in height, rather than 18m.
Jonathan Markwick	490.3	Mapping / Mapping General / Mapping General	Amend	Considers that restrictive rules protecting Character Precincts should not be a priority and is morally wrong when we are experiencing a massive shortage of housing and a housing crisis.	Amend the mapping to reduce the coverage of the Mount Victoria Character Precincts to match the boundaries of the SCHED3 - Heritage Areas.
Historic Places Wellington Inc	FS111.96	General / Mapping / Mapping General / Mapping General	Oppose	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Disallow
Jonathan Markwick	490.4	Mapping / Mapping General / Mapping General	Amend	Considers that restrictive rules protecting Character Precincts should not be a priority and is morally wrong when we are experiencing a massive shortage of housing and a housing crisis).	Amend the mapping to allow six storey high density residential buildings in the areas currently encompassed by Mount Victoria Character Precincts which are outside the SCHED3 - Heritage Areas.
John McSoriley and Pierre David	493.2	Mapping / Mapping General / Mapping General	Amend	<p>The residential character of one or two-storey housing is a complete contrast with the intense urban development on the other side of the motorway. Limited vehicle traffic contrasts with the developed urban area of the central city and a significant number of pedestrians / cyclists pass through the area.</p> <p>The area has a high degree of green space and provides a sympathetic, appropriate interface with, and approach to, the Botanic Gardens, Norwood Rose Garden, Anderson Park, and the Bolton St Cemetery.</p> <p>Many residences have associations with important people and many of these are in original historic condition. Limited sun hours are available. The area in its present state is an intrinsic element in the character and look of the city itself.</p> <p>[Refer to original submission for full reasons].</p>	Amend the mapping to add a Character Precinct that encompasses the Lower Kelburn area (Easedale St; Kinross St; Bolton St; Wesley Rd; Aurora Terrace; Clifton Terrace; San Sebastian Rd; Everton Terrace; Onslow Terrace, Talavera Terrace; Clermont Terrace; Salmont Place; Salamanca Road (as far as Kelburn Park), Gladstone Terrace and Rawhiti Terrace near the cable car).
Wellington's Character Charitable Trust	FS82.278	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.171	General / Mapping / Mapping General / Mapping General	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow

Vik Holdings Ltd	31.1	Mapping / Rezone / Rezone	Amend	<p>Considers that 15 Brougham Street should be rezoned from MRZ to HRZ.</p> <p>15 Brougham Street is a multi flat dwelling associated with the adjoining owners of 13 and 11 Brougham Street which are classified as HRZ. Together these three sites are approximately 2283m2 and would be suitable for total redevelopment.</p> <p>Under the Draft District Plan, 15 Brougham Street was classified as HDRZ.</p> <p>This property is set back 50 metres from the road and is not visible from Brougham Street. Any redevelopment would have no or minimal impact on the streetscape.</p>	Rezone 15 Brougham Street from Medium Density Residential Zone to High Density Residential Zone.
Mt Victoria Historical Society Inc	FS39.22	Mapping / Rezone / Rezone	Oppose	<p>Submitter 31 seeks to rezone 15 Brougham Street as High Density Residential Zone. Further submitter oppose this because it is an enclave of very historic, including 1 architecturally very significant, homes. It also abuts Claremont Grove, which we have proposed as a Heritage Area, and was originally considered part of it. (Ref our submission on the Proposed District Plan, where we submit that it should be part of the Claremont Grove Heritage Area.)</p>	Disallow
Wellington's Character Charitable Trust	FS82.115	General / Mapping / Mapping General / Mapping General	Oppose	<p>Considers the submission point is more enabling of intensification than the NPS-UD and MDRS and is not justified.</p>	Disallow
Gregory Webber	33.2	Mapping / Rezone / Rezone	Amend	<p>Considers that Green Street is classified as a character precinct - requiring rezoning to MRZ</p>	Rezone Green Street to Medium Density Residential Zone [inferred decision requested]
Wellington's Character Charitable Trust	FS82.214	General / Mapping / Rezone / Rezone	Support	<p>Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.</p>	Allow
Historic Places Wellington Inc	FS111.108	General / Mapping / Rezone / Rezone	Support	<p>Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.</p>	Allow
Gregory Webber	33.3	Mapping / Rezone / Rezone	Amend	<p>Opposes six storey buildings in Green Street and believes that two-three storey housing is acceptable.</p>	Seeks that only two-three storey housing is permitted in Green Street.
Wellington's Character Charitable Trust	FS82.215	General / Mapping / Rezone / Rezone	Support	<p>Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.</p>	Allow
Robert and Chris Gray	46.5	Mapping / Rezone / Rezone	Amend	<p>Considers that the transition between the Porritt Avenue heritage area and adjacent HRZ street does not adequately take account of areas where 21m or 28.5m buildings are permitted up against Character Precincts.</p> <p>As most properties on the eastern side of Porritt Avenue backs onto Austin Street (high density street), allowing for such heights with a minimum 5 metre boundary will destroy the heritage or character of the Porritt Avenue houses.</p>	Rezone Austin Street to a character area and decrease its height levels and site usage.
Wellington's Character Charitable Trust	FS82.197	Mapping / Rezone / Rezone	Support	<p>Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.</p>	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Margaret Ellis	48.1	Mapping / Rezone / Rezone	Amend	Considers that DEV3 should not be approved and should be rezoned, as the current proposal has 122 dwellings and 3 cul-de-sacs in Glenside West. Large lot residential would be a more suitable use considering the topography of the land, which has steep gullies and ephemeral streams flowing through it, making the land unsuitable for intensive cut and L.L.R. would be more suited to the rural nature of Glenside.	Rezone DEV3 (Development Area: Upper Stebbings and Glenside West) from Future Urban Zone to Large Lot Residential Zone.
Scot Plunkett	57.1	Mapping / Rezone / Rezone	Amend	Considers that Lot 1 at 64B Peterhouse Street would benefit from being zoned as MRZ in its entirety. Lot 1 is more moderate and suitable for residential development, as shown in subdivision scheme plan 20W4-262. Zoning Lot 1 as MDRZ makes more sense as this land is not suited to rural or ridgeline & hilltops restrictions and it would allow potential development. [Refer to original submission for full reason, including attachment]	Rezone Lot 1 at 64B Peterhouse Street from Large Lot Residential Zone to Medium Density Residential Zone in its entirety.
Andrew Gall	59.1	Mapping / Rezone / Rezone	Amend	No other areas as close to CBD as 110 Mitchell Street are zoned as LLRZ. LLRZ is unsuitable zoning given the context of the area. [Refer to original submission for full reason]	Rezone 110 Mitchell Street and other nearby properties from Large Lot Residential Zone to Medium Density Residential Zone.
Coronation Real Estate Ltd	62.1	Mapping / Rezone / Rezone	Amend	Coronation Real Estate Ltd has made significant investment in the development of the site. The site is currently subject to existing resource consents, a pending resource consent and an existing building consent relating to development on the residentially zoned (northern) part of the site. The proposed NOSZ zoning of the site in its entirety would make any potential future changes, additions or alterations inconsistent with the underlying zoning.	Rezone 9 Comber Place from Natural Open Space Zone to Medium Density Residential Zone .
Graham Mexted (No 2) Family Trust	66.1	Mapping / Rezone / Rezone	Amend	Opposes HRZ zoning of 130 Main Road, Tawa. The building has been office space from the Tawa Borough Council use and rated commercially (rates & water) i.e. non-residential. It is currently used commercially as a cafe. At no time has the current owner used the building for residential use, as the Tawa Borough Council converted it into offices.	Rezone 130 Main Road, Tawa from High Density Residential Zone to Neighbourhood Centre Zone.
Conor Hill	76.3	Mapping / Rezone / Rezone	Amend	Considers that significantly more land should be zoned for residential development to comply with Objective 2 of the NPS-UD. Considers that Takapu Valley was an option for Planning for Growth 2019 consultations and is therefore still a good option.	Seeks that Takapu Valley is rezoned to allow for more housing.
Conor Hill	76.4	Mapping / Rezone / Rezone	Amend	Considers that significantly more land should be zoned for residential development to comply with Objective 2 of the NPS-UD. Considers that Ohariu Valley was an option for Planning for Growth 2019 consultations and is therefore still a good option.	Seeks that Ohariu Valley is rezoned to allow for more housing.
David Stephen	82.1	Mapping / Rezone / Rezone	Amend	Opposes Khandallah being a Local Centre and seeks that it is rezoned as a Neighbourhood Centre.	Rezone Khandallah from LCZ (Local Centre Zone) to NCZ (Neighbourhood Centre Zone)
Aro Valley Community Council	87.7	Mapping / Rezone / Rezone	Amend	Considers that 137 Abel Smith Street should be rezoned from HRZ to OSZ as this site forms part of Aro Park and there is a Mapping error.	Rezone 137 Abel Smith Street (Aro Park) from High Density Residential Zone to Open Space Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Generation Zero	FS54.11	General / Mapping / Rezone / Rezone	Support	<p>Oppose and further submit that:</p> <p>For character areas, the central test is “other” qualifying matter under clause 3.33(3) of the NPS-UD, alongside the objectives and purpose of the NPS-UD.</p> <p>There is an extremely high bar to creating a character area. The reduction in development capacity must be justified against the national significance of urban development and the objectives of the NPS-UD.</p> <p>Cities are dynamic and changeable. Indeed Wellington underwent many built changes before the currently form was locked in place by modern zoning documents. New housing and residents are a positive to encourage, rather a negative to push out further or crowd into the remaining housing stock. It is significantly more climate friendly to allow denser housing in inner-suburbs, rather than displacing development into greenfields, even accounting for embodied carbon.</p> <p>Character areas are in inner-city suburbs which are highly connected to jobs, shops, schools, community amenities and already have high-mode share of low emissions transport. The land is often the most resilient land in the city (being developed by colonists first). More residents can be easily absorbed in these suburbs and will create a positive impact on that suburb.</p> <p>The counterfactual – the status quo – is that the best quality land in the city is locked away by wealthy residents who seek to preserve an unsustainable way of life and/or their property values. This causes reduced supply and higher prices, higher rents, lower quality, displacement of low-income residents, and pushes residents to worse locations with higher lifetime emissions.</p> <p>Therefore, the development capacity (and its associated positive outcomes) lost through character areas is extremely weighty; only very ‘character’ of very high quality can be justified.</p> <p>It must also be a site-specific analysis; the current broadbrush suburb-by-suburb analysis in the current District Plan is not allowed.</p> <p>The approaches advocated by the submitters is erroneous under the NPS-UD and should be rejected. Submitters cannot point to individual streets or houses they subjectively find as ‘character’ as this does not meet the stringent evidential requirement of clause 3.33(3).</p> <p>Submitters cannot request to go back to the current District Plan character areas, as these are untenable under the new NPS-UD test.</p>	<p>Disallow / Disallow the submission in full to the extent that this relates to character areas or reducing the amount of enabled housing.</p> <p>Reject increasing character areas in the PDP.</p>
Wellington’s Character Charitable Trust	FS82.236	General / Mapping / Rezone / Rezone	Support	<p>Considers the Boffa Miskell report, Council officers’ assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter’s table [see further submission for full information]. [Inferred decision requested]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Generation Zero	FS54.12	General / Mapping / Rezone / Rezone	Oppose	For character areas, the central test is “other” qualifying matter under clause 3.33(3) of the NPS-UD, alongside the objectives and purpose of the NPS-UD. There is an extremely high bar to creating a character area. The reduction in development capacity must be justified against the national significance of urban development and the objectives of the NPS-UD. Cities are dynamic and changeable. Indeed Wellington underwent many built changes before the currently form was locked in place by modern zoning documents. New housing and residents are a positive to encourage, rather a negative to push out further or crowd into the remaining housing stock. It is significantly more climate friendly to allow denser housing in inner-suburbs, rather than displacing development into greenfields, even accounting for embodied carbon. Character areas are in inner-city suburbs which are highly connected to amenities and already have high-mode share of low emissions transport. This land is often the most resilient. More residents can be easily absorbed in these suburbs and will create a positive impact on that suburb. The counterfactual – the status quo – is that the best quality land in the city is locked away by wealthy residents who seek to preserve an unsustainable way of life and/or their property values. This causes reduced supply and higher prices, higher rents, lower quality, displacement of low-income residents, and pushes residents to worse locations with higher lifetime emissions. The development capacity lost through character areas is extremely weighty; only very ‘character’ of very high quality can be justified. It must also be a site-specific analysis; the current broadbrush suburb-by-suburb analysis in the current District Plan is not allowed. The approaches advocated by the submitters is erroneous under the NPS-UD and should be rejected. Submitters cannot point to individual streets or houses they subjectively find as ‘character’ as this does not meet the stringent evidential requirement of clause 3.33(3). Submitters cannot request to go back to the current District Plan character areas, as these are untenable under the new NPS-UD test. Submitters cannot point to the Boffa Miskel report and adopt its recommendation. The report was written before the enactment of the NPS-UD. And, crucially, this approach begs the question of how the report fits into the NPS-UD test in clause 3.33(3). The approach in the PDP, where only contiguous and coherent pockets of high-quality character are proposed, is legal under the NPS-UD.	Disallow / Disallow the submission in full to the extent that this relates to character areas or reducing the amount of enabled housing. Reject increasing character areas in the PDP.
Wellington’s Character Charitable Trust	FS82.237	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers’ assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter’s table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Aro Valley Community Council	87.9	Mapping / Rezone / Rezone	Amend	Considers the site at 41 Palmer Street should be rezoned from HRZ to MRZ in order to classify the site as Character Precinct.	Rezone 41 Palmer Street from High Density Residential Zone to Medium Density Residential Zone. [Inferred decision requested]

Rezone 43 Palmer Street from High Density Residential Zone to Medium Density Residential Zone. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Generation Zero	FS54.14	General / Mapping / Rezone / Rezone	Oppose	For character areas, the central test is “other” qualifying matter under clause 3.33(3) of the NPS-UD, alongside the objectives and purpose of the NPS-UD. There is an extremely high bar to creating a character area. The reduction in development capacity must be justified against the national significance of urban development and the objectives of the NPS-UD. Cities are dynamic and changeable. Indeed Wellington underwent many built changes before the currently form was locked in place by modern zoning documents. New housing and residents are a positive to encourage, rather a negative to push out further or crowd into the remaining housing stock. It is significantly more climate friendly to allow denser housing in inner-suburbs, rather than displacing development into greenfields, even accounting for embodied carbon. Character areas are in inner-city suburbs which are highly connected to amenities and already have high-mode share of low emissions transport. This land is often the most resilient. More residents can be easily absorbed in these suburbs and will create a positive impact on that suburb. The counterfactual – the status quo – is that the best quality land in the city is locked away by wealthy residents who seek to preserve an unsustainable way of life and/or their property values. This causes reduced supply and higher prices, higher rents, lower quality, displacement of low-income residents, and pushes residents to worse locations with higher lifetime emissions. The development capacity lost through character areas is extremely weighty; only very ‘character’ of very high quality can be justified. It must also be a site-specific analysis; the current broadbrush suburb-by-suburb analysis in the current District Plan is not allowed. The approaches advocated by the submitters is erroneous under the NPS-UD and should be rejected. Submitters cannot point to individual streets or houses they subjectively find as ‘character’ as this does not meet the stringent evidential requirement of clause 3.33(3). Submitters cannot request to go back to the current District Plan character areas, as these are untenable under the new NPS-UD test. Submitters cannot point to the Boffa Miskell report and adopt its recommendation. The report was written before the enactment of the NPS-UD. And, crucially, this approach begs the question of how the report fits into the NPS-UD test in clause 3.33(3). The approach in the PDP, where only contiguous and coherent pockets of high-quality character are proposed, is legal under the NPS-UD.	Disallow / Disallow the submission in full to the extent that this relates to character areas or reducing the amount of enabled housing. Reject increasing character areas in the PDP.
Wellington’s Character Charitable Trust	FS82.239	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers’ assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter’s table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Aro Valley Community Council	87.11	Mapping / Rezone / Rezone	Amend	Considers the site at 45 Palmer Street should be rezoned from HRZ to MRZ in order to classify the site as Character Precinct.	Rezone 45 Palmer Street from High Density Residential Zone to Medium Density Residential Zone. [Inferred decision requested]

New housing and residents are a positive to encourage, rather a negative to push out further or crowd into the remaining housing stock. It is significantly more climate friendly to allow denser housing in inner-suburbs, rather than displacing development into greenfields, even accounting for embodied carbon. Character areas are in inner-city suburbs which are highly connected to amenities and already have high-mode share of low emissions transport. This land is often the most resilient. More residents can be easily absorbed in these suburbs and will create a positive impact on that suburb. The counterfactual – the status quo – is that the best quality land in the city is locked away by wealthy residents who seek to preserve an unsustainable way of life and/or their property values. This causes reduced supply and higher prices, higher rents, lower quality, displacement of low-income residents, and pushes residents to worse locations with higher lifetime emissions. The development capacity lost through character areas is extremely weighty; only very ‘character’ of very high quality can be justified. It must also be a site-specific analysis; the current broadbrush suburb-by-suburb analysis in the current District Plan is not allowed. The approaches advocated by the submitters is erroneous under the NPS-UD and should be rejected. Submitters cannot point to individual streets or houses they subjectively find as ‘character’ as this does not meet the stringent evidential requirement of clause 3.33(3). Submitters cannot request to go back to the current District Plan character areas, as these are untenable under the new NPS-UD test. Submitters cannot point to the Boffa Miskel report and adopt its recommendation. The report was written before the enactment of the NPS-UD. And, crucially, this approach begs the question of how the report fits into the NPS-UD test in clause 3.33(3). The approach in the PDP, where only contiguous and coherent pockets of high-quality character are proposed, is legal under the NPS-UD.	Disallow / Disallow the submission in full to the extent that this relates to character areas or reducing the amount of enabled housing. Reject increasing character areas in the PDP.
Wellington’s Character Charitable Trust	FS82.248	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers’ assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter’s table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Aro Valley Community Council	87.20	Mapping / Rezone / Rezone	Amend	Considers that the sites to the north and east of 95A Aro Street should be zoned MRZ.	Rezone the properties at 72, 82 and 84 Aro Street as Medium Density Residential Zone.

Tawa Business Group	107.2	Mapping / Rezone / Rezone	Amend	<p>Considers that 1 Redwood Avenue, Tawa should be rezoned to Mixed Use Zone.</p> <p>This site is currently used alongside 3 Redwood Avenue and 85 Main Road, Tawa for the purposes of the BestStart Tawa preschool and day-care centre. Rezoning to Mixed Use would acknowledge the current established activity taking place on site, and allow for future educational facilities to be subject to MUZ permitted activity standards.</p> <p>Rezoning 1 Redwood Avenue would match the MUZ of the property at 89 Main Road, and, being situated on a corner site, would not result in an inconsistent pattern of development.</p> <p>[Refer to original submission for full reasons].</p>	Rezone 1 Redwood Avenue, Tawa from Medium Density Residential Zone to Mixed Use Zone.
Tawa Business Group	107.3	Mapping / Rezone / Rezone	Amend	<p>Considers that 3 Redwood Avenue, Tawa should be rezoned to Mixed Use Zone.</p> <p>This site is currently used alongside 1 Redwood Avenue and 85 Main Road, Tawa for the purposes of the BestStart Tawa preschool and daycare centre. Rezoning to Mixed Use would acknowledge the current established activity taking place on site, and allow for future educational facilities to be subject to MUZ permitted activity standards.</p> <p>Rezoning 1 Redwood Avenue would match the MUZ of the property at 89 Main Road, and, being situated on a corner site, would not result in an inconsistent pattern of development.</p> <p>[Refer to original submission for full reasons].</p>	Rezone 3 Redwood Avenue, Tawa from Medium Density Residential Zone to Mixed Use Zone.
Tawa Business Group	107.4	Mapping / Rezone / Rezone	Amend	<p>Considers that 85 Main Road, Tawa should be rezoned to Mixed Use Zone.</p> <p>This site is currently used alongside 1 Redwood Avenue and 3 Redwood Avenue, Tawa for the purposes of the BestStart Tawa preschool and day-care centre. Rezoning to Mixed Use would acknowledge the current established activity taking place on site, and allow for future educational facilities to be subject to MUZ permitted activity standards.</p> <p>Rezoning 1 Redwood Avenue would match the MUZ of the property at 89 Main Road, and, being situated on a corner site, would not result in an inconsistent pattern of development.</p> <p>[Refer to original submission for full reasons].</p>	Rezone 85 Main Road, Tawa from Medium Density Residential Zone to Mixed Use Zone.
Tawa Business Group	107.5	Mapping / Rezone / Rezone	Amend	<p>Considers that 105 Main Road, Tawa should be rezoned to High Density Residential Zone.</p> <p>This site (105 Main Road, 107 Main Road, 109 Main Road, 111 Main Road, 113 Main Road, and 115 Main Road, Tawa) includes a series of car yards, shops, eateries and offices but is entirely residential in use.</p> <p>Rezoning to High Density Residential would match the current lawful activity of the site and increase the capacity for residential development. NCZ permitted activity standards would require consent for any future residential activities on the ground floor level or any alterations that will result in the creation of new residential units. Under HRZ, these activities would remain as a permitted activity.</p> <p>Rezoning as HRZ would be consistent with the adjoining properties and create a contiguous area of HRZ properties.</p> <p>[Refer to original submission for full reasons].</p>	Rezone 105 Main Road, Tawa from Neighbourhood Centre Zone to High Density Residential Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Tawa Business Group	107.6	Mapping / Rezone / Rezone	Amend	<p>Considers that 107 Main Road, Tawa should be rezoned to High Density Residential Zone.</p> <p>This site (105 Main Road, 107 Main Road, 109 Main Road, 111 Main Road, 113 Main Road, and 115 Main Road, Tawa) includes a series of car yards, shops, eateries and offices but is entirely residential in use.</p> <p>Rezoning to High Density Residential would match the current lawful activity of the site and increase the capacity for residential development. NCZ permitted activity standards would require consent for any future residential activities on the ground floor level or any alterations that will result in the creation of new residential units. Under HRZ, these activities would remain as a permitted activity.</p> <p>Rezoning as HRZ would be consistent with the adjoining properties and create a contiguous area of HRZ properties.</p> <p>[Refer to original submission for full reasons].</p>	Rezone 107 Main Road, Tawa from Neighbourhood Centre Zone to High Density Residential Zone.
Tawa Business Group	107.7	Mapping / Rezone / Rezone	Amend	<p>Considers that 109 Main Road, Tawa should be rezoned to High Density Residential Zone.</p> <p>This site (105 Main Road, 107 Main Road, 109 Main Road, 111 Main Road, 113 Main Road, and 115 Main Road, Tawa) includes a series of car yards, shops, eateries and offices but is entirely residential in use.</p> <p>Rezoning to High Density Residential would match the current lawful activity of the site and increase the capacity for residential development. NCZ permitted activity standards would require consent for any future residential activities on the ground floor level or any alterations that will result in the creation of new residential units. Under HRZ, these activities would remain as a permitted activity.</p> <p>Rezoning as HRZ would be consistent with the adjoining properties and create a contiguous area of HRZ properties.</p> <p>[Refer to original submission for full reasons].</p>	Rezone 109 Main Road, Tawa from Neighbourhood Centre Zone to High Density Residential Zone.
Tawa Business Group	107.8	Mapping / Rezone / Rezone	Amend	<p>Considers that 111 Main Road, Tawa should be rezoned to High Density Residential Zone.</p> <p>This site (105 Main Road, 107 Main Road, 109 Main Road, 111 Main Road, 113 Main Road, and 115 Main Road, Tawa) includes a series of car yards, shops, eateries and offices but is entirely residential in use.</p> <p>Rezoning to High Density Residential would match the current lawful activity of the site and increase the capacity for residential development. NCZ permitted activity standards would require consent for any future residential activities on the ground floor level or any alterations that will result in the creation of new residential units. Under HRZ, these activities would remain as a permitted activity.</p> <p>Rezoning as HRZ would be consistent with the adjoining properties and create a contiguous area of HRZ properties.</p> <p>[Refer to original submission for full reasons].</p>	Rezone 111 Main Road, Tawa from Neighbourhood Centre Zone to High Density Residential Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Tawa Business Group	107.9	Mapping / Rezone / Rezone	Amend	<p>Considers that 113 Main Road, Tawa should be rezoned to High Density Residential Zone.</p> <p>This site (105 Main Road, 107 Main Road, 109 Main Road, 111 Main Road, 113 Main Road, and 115 Main Road, Tawa) includes a series of car yards, shops, eateries and offices but is entirely residential in use.</p> <p>Rezoning to High Density Residential would match the current lawful activity of the site and increase the capacity for residential development. NCZ permitted activity standards would require consent for any future residential activities on the ground floor level or any alterations that will result in the creation of new residential units. Under HRZ, these activities would remain as a permitted activity.</p> <p>Rezoning as HRZ would be consistent with the adjoining properties and create a contiguous area of HRZ properties.</p> <p>[Refer to original submission for full reasons].</p>	Rezone 113 Main Road, Tawa from Neighbourhood Centre Zone to High Density Residential Zone.
Tawa Business Group	107.10	Mapping / Rezone / Rezone	Amend	<p>Considers that 115 Main Road, Tawa should be rezoned to High Density Residential Zone.</p> <p>This site (105 Main Road, 107 Main Road, 109 Main Road, 111 Main Road, 113 Main Road, and 115 Main Road, Tawa) includes a series of car yards, shops, eateries and offices but is entirely residential in use.</p> <p>Rezoning to High Density Residential would match the current lawful activity of the site and increase the capacity for residential development. NCZ permitted activity standards would require consent for any future residential activities on the ground floor level or any alterations that will result in the creation of new residential units. Under HRZ, these activities would remain as a permitted activity.</p> <p>Rezoning as HRZ would be consistent with the adjoining properties and create a contiguous area of HRZ properties.</p> <p>[Refer to original submission for full reasons].</p>	Rezone 115 Main Road, Tawa from Neighbourhood Centre Zone to High Density Residential Zone.
Tawa Business Group	107.11	Mapping / Rezone / Rezone	Amend	<p>Considers that 130 Main Road, Tawa should be rezoned to Neighbourhood Centre Zone.</p> <p>This site is currently used for commercial purposes by the Fusion Food Haus Grocery & Café. Rezoning to Neighbourhood Centre Zone would match the current lawful activity of the site and allow for future commercial activities to remain as a permitted activity thus increasing capacity for commercial development. NCZ permitted activity standards would arguably be more suitable to the existing and future land uses of these properties, particularly in terms of height and active frontage controls.</p> <p>Rezoning as HRZ would be consistent with the adjoining properties on the southern boundary of 130 Main Road and 157 Main Road. As a property situated at the edge of the HRZ and NCZ, rezoning as NCZ would maintain contiguous zoning.</p> <p>[Refer to original submission for full reasons].</p>	Rezone 130 Main Road, Tawa from High Density Residential Zone to Neighbourhood Centre Zone.
Alan Olliver & Julie Middleton	111.1	Mapping / Rezone / Rezone	Amend	<p>Considers that the western edge of Mt Victoria should not be CCZ (City Centre Zone)</p> <p>Considers that CCZ is incompatible with various definitions of Mt Vic as a suburb.</p> <p>[Refer to original submission for full reason]</p>	<p>Amend mapping so that the western edge of Mount Victoria that is within the CCZ (City Centre Zone) is rezoned to Medium Density Residential Area.</p> <p>[Inferred decision requested]</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	FS82.198	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest of the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Brian McKenna	113.1	Mapping / Rezone / Rezone	Amend	Considers that the zoning of Khandallah Village as LCZ should amended to NCZ. Considers that this area is not significantly different in size or level of business than any other "Centre" zones in the North-western suburbs. It is significantly smaller than the Karori "Local Centre".	Amend the zoning of Khandallah Village from Local Centre Zone to Neighbourhood Centre Zone.
Pam Wilson	120.1	Mapping / Rezone / Rezone	Amend	Opposes the zoning of Khandallah Village as Local Centre Zone.	Amend the zoning of Khandallah Village from LCZ (Local Centre Zone) to NCZ (Neighbourhood Centre Zone).
Te Tūāpapa Kura Kāinga – Ministry of Housing and Urban Development	121.1	Mapping / Rezone / Rezone	Amend	Considers that the smaller 10 minute walkable catchment from the city centre from the draft District Plan would have no benefits and shift development to less well-suited areas.	Amend the high density zoning and around the city centre to cover at least the area within a 15 minute walkable catchment (rather than the current 10 minute catchment)
Onslow Residents Community Association	FS80.35	General / Mapping / Rezone / Rezone	Oppose	[No specific reason given beyond decision requested - refer to further submission]	Disallow / Seeks to disallow in so far as the submission point relates to the classification of the Johnsonville Rail Line as a rapid transit service.
Wellington's Character Charitable Trust	FS82.45	General / Mapping / Rezone / Rezone	Oppose	Considers 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
LIVE WELLington	FS96.49	General / Mapping / Rezone / Rezone	Oppose	Retain 10 min walking catchment as this is most suitable for Wellington's topography and weather.	Disallow
LIVE WELLington	FS96.79	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	We oppose the submission of Cameron Vannisselroy, Conor Hill, Generation Zero, Jonathan Markwick, Kainga Ora, Paihikara Ki Pōneke Cycle Wellington, Property Council New Zealand, Te Tūāpapa Kura Kāinga Ministry of Housing and Urban Development, VicLabour, Waka Kotahi, WCC Environmental Reference Group. 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
Roland Sapsford	FS117.45	General / Mapping / Rezone / Rezone	Oppose	Retain 10 min walking catchment as this is most suitable for Wellington's topography and weather.	Disallow
Te Tūāpapa Kura Kāinga – Ministry of Housing and Urban Development	121.2	Mapping / Rezone / Rezone	Amend	Considers that failing to identify the Johnsonville train line as a mass rapid transit in the PDP is contrary to other planning documents and would have significant negative impacts with respect to provision of housing.	Rezone the land within the walkable catchment around the Johnsonville train line as High Density Residential Zone.
Onslow Residents Community Association	FS80.36	General / Mapping / Rezone / Rezone	Oppose	[No specific reason given beyond decision requested - refer to further submission]	Disallow / Seeks to disallow in so far as the submission point relates to the classification of the Johnsonville Rail Line as a rapid transit service.
Wellington's Character Charitable Trust	FS82.12	General / Mapping / Rezone / Rezone	Oppose	Considers improvements to the Johnsonville line may only be taken into account if they are "planned" in a Regional Land Transport Plan (RLTP). Considers there are no such improvements for the Johnsonville line planned in the RLTP. Considers the definition of "planned" in the NPS-UD resolves any circularity in the Johnsonville line not being a rapid transit service. Considers improvements to a transit service must be planned in the RLTP before they are relevant to any upzoning under the NPS-UD. [Refer to original submission - 233]	Disallow
Greater Wellington Regional Council	FS84.124	General / Mapping / Rezone / Rezone	Support	Greater Wellington consider Johnsonville Rail Line should be classified a rapid transit service to align with the RLTP which support the 'up-zoning' of walkable catchments. Johnsonville Rail Line is recognised as a key part of the region's transport network.	Allow / Seeks review of walkable catchments and reclassification of Johnsonville Rail Line as a rapid transit service.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association Inc	FS114.40	General / Mapping / Rezone / Rezone	Oppose	<p>The NPS-UD definition states that Rapid Transit Services must be “frequent” and this definition therefore excludes PT services that are not frequent from being classified as Rapid Transit Services.</p> <p>Considers that Greater Wellington Regional Council (GWRC) has incorrectly assessed the Johnsonville Line is a Rapid transit Service because they used a one line statement in the One Network Framework (ONF) drafted by the Road Efficiency Group and published by Waka Katohi.</p> <p>In contrast to the NPS-UD, the ONF definition also classifies passenger rail services that are not frequent as Rapid Transit which is incorrect. The Johnsonville Line is not a frequent service (mostly 2 services/hour) and therefore cannot be classified as a Rapid Transit Service.</p> <p>Considers the One Network Framework is not able tool for this assessment - as confirmed in writing by the Waka Katohi One Network Framework Programme Manager. In contrast, Auckland Transport has developed a PT assessment standard based on suitable public transport criteria and under their criteria, the Onehunga Line is assessed as Nnot being Rapid Transit under the NPS-UD. Applying these same criteria to the Johnsonville Line would also find it is not Rapid Transit. Further, the WCC has also failed to use a PT assessment standard based on suitable public transport criteria to assess whether Johnsonville Line Stations are Rapid Transit Stops under the NPS-UD. Therefore any claim that Johnsonville Line Stations are Rapid Transit Stops is also invalid. [Refer to further submission for full reason]</p>	Disallow / Retain Johnsonville Line as notified (Not considered Rapid Transit).
Janice Young	140.3	Mapping / Rezone / Rezone	Amend	Opposes Khandallah being zoned as a Local Centre and wants it to be zoned as a Neighbourhood Centre.	Rezone Khandallah as a Neighbourhood Centre in the mapping.
David Stevens	151.3	Mapping / Rezone / Rezone	Amend	Opposes Khandallah being a Local Centre Zone and wants it rezoned to Neighbourhood Centre Zone.	Rezone Khandallah from Local Centre Zone to Neighbourhood Centre Zone in mapping.
David Stevens	151.4	Mapping / Rezone / Rezone	Amend	Opposes Crofton Downs being a Local Centre Zone and wants it rezoned to Neighbourhood Centre Zone.	Rezone Crofton Downs from LCZ (Local Centre Zone) to NCZ (Neighbourhood Centre Zone).
David Stevens	151.5	Mapping / Rezone / Rezone	Amend	Supports the area at the junction of Box Hill/Burma Road/Station Road being an 11m MRZ.	Rezone the area at the junction of Box Hill/Burma Road/Station Road from LCZ (Local Centre Zone) to MRZ (Medium Density Residential Zone) with a height limit of 11m.
Ciampa Family Trust	165.1	Mapping / Rezone / Rezone	Amend	<p>Considers that the northern part of the site at 50 Cleveland Street, Brooklyn should be rezoned as LCZ so that the site does not have split zoning and the northern part could be developed for non-residential purposes as a permitted activity.</p> <p>Considers that this is logical as it will enable greater intensification of a finite resource (land) on a site that is favourably located in close proximity to amenities, public transport routes, and the CBD.</p>	Rezone the northern part of the site at 50 Cleveland Street, Brooklyn from Medium Density Residential Zone to Local Centre Zone.
Brian Sheppard	169.1	Mapping / Rezone / Rezone	Amend	Considers that LCZ are defined as having easy access to rapid transit public transport and that Churton Park should not be zoned as LCZ as its meagre bus service cannot be considered rapid transit public transport.	Seeks that Churton Park is not zoned as a Local Centre Zone.
Historic Places Wellington	182.5	Mapping / Rezone / Rezone	Amend	Considers the Inner Residential suburbs should be zoned Medium Density Residential Zone. This means that all areas of character protection under the operative DP would have similar rules and height controls of 11metres (3 storey).	Rezone the Inner Residential Suburbs to the Medium Density Residential Zone.
Thorndon Residents' Association Inc	FS69.101	General / Mapping / Rezone / Rezone	Support	<p>All inner Residential suburbs should be MDZ</p> <p>Exemption from upzoning</p> <p>Importance of character areas</p> <p>Character Precincts, rules & design regime</p> <p>Extended Character Precincts in line with Boffa Miskell</p> <p>Demolition be a restricted activity for pre-1930 buildings</p> <p>New viewshaft for views of St Paul's</p>	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora – Homes and Communities	FS89.76	General / Mapping / Rezone / Rezone	Oppose	Kāinga Ora is concerned about the potential loss in intensification opportunities if the proposed relief is granted.	Disallow
Emma Baines	185.1	Mapping / Rezone / Rezone	Amend	Opposes Khandallah being a Local Centre and wants it rezoned as a Neighbourhood Centre. Khandallah has no more amenities than Ngaio or Crofton Downs and should not be treated differently to these other Neighbourhood Centres. The submitter travels from Khandallah to either Johnsonville or Crofton Downs to use the larger Countdown supermarkets and petrol stations.	Rezone Khandallah from LCZ (Local Centre Zone) to NCZ (Neighbourhood Centre Zone).
Emma Baines	185.2	Mapping / Rezone / Rezone	Amend	Opposes the Station Road area being a Local Centre Zone. Considers that making this area of one café, a garage, and a restaurant a Local Centre Zone is completely overstated and must be an error given the number of shops in Ngaio which is still considered a neighbourhood centre.	Rezone the Station Road from LCZ (Local Centre Zone) to NCZ (Neighbourhood Centre Zone)
Jonathan and Tricia Briscoe	190.6	Mapping / Rezone / Rezone	Amend	Considers that there is inadequate protection provided where 28.5m high buildings are permitted up against Character Precincts, Heritage Areas, Mt Victoria North Townscape Precinct or Character Precinct-extension areas proposed by the Mt Victoria Historical Society. Allowing buildings of such heights with a 5 metre height to boundary will destroy the heritage or character from a visual point of view and reduce the well-being of residents due to insufficient light and sunshine. This will likely to lead to degradation and abandonment of these properties.	Amend the mapping to require a 'transition zone' of Medium Density Residential Zoned land at least one property wide between any Character Precinct or Heritage Area border and the City Centre Zone.
Wellington's Character Charitable Trust	FS82.172	General / Mapping / Rezone / Rezone	Support	Considers it is important for heritage buildings and areas and character precincts not to be overshadowed by bulk or form of an adjacent tall buildings. Considers it is a well settled principle that heritage buildings ought to have a curtilage around them to protect public views of the heritage building whilst also providing for development that is not inappropriate in terms of section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.82	General / Mapping / Rezone / Rezone	Support	Considers that it is important for heritage buildings/areas not to be overshadowed in bulk and form by adjacent tall buildings. Considers that it is a settled legal principle that heritage buildings have a curtilage around them to protect public views of the heritage building while otherwise providing for appropriate development.	Allow
Jonathan and Tricia Briscoe	190.7	Mapping / Rezone / Rezone	Amend	Considers that an area of specific concern where afternoon sun can be blocked by 28.5m buildings is the Moir Street Heritage Area.	Amend the heights on the mapping to provide a 'transition zone' of Medium Density Residential Zone at least one property wide between any Character Precinct or Heritage Area border and a High Density Residential Zone.
Wellington's Character Charitable Trust	FS82.173	General / Mapping / Rezone / Rezone	Support	Considers it is important for heritage buildings and areas and character precincts not to be overshadowed by bulk or form of an adjacent tall buildings. Considers it is a well settled principle that heritage buildings ought to have a curtilage around them to protect public views of the heritage building whilst also providing for development that is not inappropriate in terms of section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.83	General / Mapping / Rezone / Rezone	Support	Considers that it is important for heritage buildings/areas not to be overshadowed in bulk and form by adjacent tall buildings. Considers that it is a settled legal principle that heritage buildings have a curtilage around them to protect public views of the heritage building while otherwise providing for appropriate development.	Allow
Jonathan and Tricia Briscoe	190.8	Mapping / Rezone / Rezone	Amend	Considers that an area of specific concern where afternoon sun can be blocked by 21m buildings (in Brougham, Roxburgh and Austin Streets, and Claremont Grove) is the current Elizabeth/Queen St and Pat Lawlor Close, Caroline Street and Scarborough Terrace Character Precincts.	Amend the heights on the mapping to provide a 'transition zone' of Medium Density Residential Zone at least one property wide between any Character Precinct or Heritage Area border and a High Density Residential Zone.
Wellington's Character Charitable Trust	FS82.174	General / Mapping / Rezone / Rezone	Support	Considers it is important for heritage buildings and areas and character precincts not to be overshadowed by bulk or form of an adjacent tall buildings. Considers it is a well settled principle that heritage buildings ought to have a curtilage around them to protect public views of the heritage building whilst also providing for development that is not inappropriate in terms of section 6(f) of the RMA.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Historic Places Wellington Inc	FS111.84	General / Mapping / Rezone / Rezone	Support	Considers that it is important for heritage buildings/areas not to be overshadowed in bulk and form by adjacent tall buildings. Considers that it is a settled legal principle that heritage buildings have a curtilage around them to protect public views of the heritage building while otherwise providing for appropriate development.	Allow
Jonathan and Tricia Briscoe	190.9	Mapping / Rezone / Rezone	Amend	Considers that an area of specific concern where afternoon sun can be blocked by 21m buildings (in Tutchen Avenue) is part of the Porritt Avenue Heritage Area.	Amend the heights on the mapping to provide a 'transition zone' of Medium Density Residential Zone at least one property wide between any Character Precinct or Heritage Area border and a High Density Residential Zone.
Wellington's Character Charitable Trust	FS82.175	General / Mapping / Rezone / Rezone	Support	Considers it is important for heritage buildings and areas and character precincts not to be overshadowed by bulk or form of an adjacent tall buildings. Considers it is a well settled principle that heritage buildings ought to have a curtilage around them to protect public views of the heritage building whilst also providing for development that is not inappropriate in terms of section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.85	General / Mapping / Rezone / Rezone	Support	Considers that it is important for heritage buildings/areas not to be overshadowed in bulk and form by adjacent tall buildings. Considers that it is a settled legal principle that heritage buildings have a curtilage around them to protect public views of the heritage building while otherwise providing for appropriate development.	Allow
Jonathan and Tricia Briscoe	190.10	Mapping / Rezone / Rezone	Amend	Considers that an area of specific concern where afternoon sun can be blocked by 28.5m buildings is the east side of Lipman Street.	Amend the heights on the mapping to provide a 'transition zone' of Medium Density Residential Zone at least one property wide between any Character Precinct or Heritage Area border and a High Density Residential Zone.
Wellington's Character Charitable Trust	FS82.176	General / Mapping / Rezone / Rezone	Support	Considers it is important for heritage buildings and areas and character precincts not to be overshadowed by bulk or form of an adjacent tall buildings. Considers it is a well settled principle that heritage buildings ought to have a curtilage around them to protect public views of the heritage building whilst also providing for development that is not inappropriate in terms of section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.86	General / Mapping / Rezone / Rezone	Support	Considers that it is important for heritage buildings/areas not to be overshadowed in bulk and form by adjacent tall buildings. Considers that it is a settled legal principle that heritage buildings have a curtilage around them to protect public views of the heritage building while otherwise providing for appropriate development.	Allow
Jonathan and Tricia Briscoe	190.11	Mapping / Rezone / Rezone	Amend	Considers that the western edge of Mt Victoria should not be CCZ (City Centre Zone) Considers that CCZ is incompatible with various definitions of Mt Vic as a suburb. The current low-rise but historically dense residential area extends well into the area currently designated City Centre Zone and intended for building at least 10 storeys high. [refer to original submission for full reasons].	Amend the mapping so that the western edge of Mount Victoria that is within the CCZ (City Centre Zone) is rezoned to Medium Density Residential Zone. [Inferred Decision Requested].
Wellington's Character Charitable Trust	FS82.189	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.118	General / Mapping /Rezone / Rezone	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Michael O'Rourke	194.1	Mapping / Rezone / Rezone	Amend	[No specific reason given beyond decision requested - refer to original submission.]	Amend the mapping to extend heritage area from 30% to 50% of the existing heritage area.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Michael O'Rourke	194.2	Mapping / Rezone / Rezone	Amend	Considers that HRZ four storey or 21m high buildings will effectively mitigate most of the liveability rules about outdoor space, glazing, boundaries, sun angle boundary heights and site coverage. Considers that we need to minimise the spread of individual high rise building pockets. [Inferred reason given].	Seeks that high rise buildings are concentrated in zones already high (the CBD and faded warehouse spine in lower Adelaide Road).
Michael O'Rourke	194.3	Mapping / Rezone / Rezone	Amend	Considers that height zoning should be applied more microscopically and be graduated based on neighbourhood, topography, and position on block in order to minimise the impact on neighbouring properties.	Seeks that height zoning should be applied more microscopically and be graduated based on neighbourhood, topography, and position on block to minimise the impact on neighbouring properties.
Mary-Anne O'Rourke	195.3	Mapping / Rezone / Rezone	Amend	Considers that it is contradictory to permit building intensification in the Kilbirnie, Lyall Bay, and Miramar suburbs, which are flood and tsunami prone, when the Government are not willing to invest in transport infrastructure (light rail) in the area due to its environmental vulnerability. In addition, the aging and unmaintained infrastructure will not tolerate this level of housing intensification.	Amend the mapping to reduce building intensification in the Eastern Suburbs area. [Inferred decision requested].
Kim McGuiness, Andrew Cameron, Simon Bachler, Deb Hendry, Penny Evans, Stephen Evens, David Wilcox, Mary Vaughan Roberts, Siva Naguleswaran, Mohammed Talim, Ben Sutherland, Atul Patel, Lewis Roney Yip, Sarah Collier Jaggard	204.6	Mapping / Rezone / Rezone	Amend	Opposes the area between Adelaide Road, Stoke Street and Kenwyn Terrace being zoned as High Density Residential Zone and seeks that it is rezoned to Medium Density Residential Zone. Considers the impact of a 21m height limit on neighbouring properties. 21m height limit is inappropriate for the character of the surrounding area. Loss of solar access leads to damp homes and less energy efficient, loss of Biodiversity to the Newtown area, loss of wellbeing, and loss of Privacy. [Refer to original submission for full reason]	Rezone the area between Adelaide Road, Stoke Street and Kenwyn Terrace from HRZ (High Density Residential Zone) to MRZ (Medium Density Residential Zone).
Claire Nolan, James Fraser, Margaret Franken, Biddy Bunzel, Michelle Wooland, Lee Muir	FS68.10	Mapping / Rezone / Rezone	Support	Not specified.	Allow
Wellington's Character Charitable Trust	FS82.228	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.114	General / Mapping / Rezone / Rezone	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Mount Victoria Historical Society	214.2	Mapping / Rezone / Rezone	Amend	Considers that allowing buildings of heights of 21m or 28.5m with 5 metre boundaries will destroy heritage or character from a visual point of view and lead to degradation of such properties. [Refer to original submission for full reason]	Seeks that a 'transition zone' of Medium Density Residential Zone of at least one property wide be required between any Character Precinct or heritage area border and a High Density Residential Zone.
Onslow Historical Society	FS6.31	General / Mapping / Rezone / Rezone	Support	It is important for heritage buildings/areas not to be overshadowed in bulk and form by adjacent buildings.	Allow

Historic Places Wellington Inc	FS111.87	General / Mapping / Rezone / Rezone	Support	Considers that it is necessary to protect heritage values of Mt Victoria heritage area (curtilage).	Allow
Boston Real Estate Limited	220.1	Mapping / Rezone / Rezone	Amend	<p>Considers that the Natural Open Space Zone is inappropriate on a portion of the site because:</p> <p>The current operative plan has split the site into two separate zones, a business area zone and a residential zone.</p> <p>The Natural Open Space Zone is intended to recognise high natural, ecological and historic heritage values.</p> <p>The surrounding properties are maintaining similar zones from the operative district plan to the proposed district plans.</p> <p>it is held in private ownership. This means that the public will have no access along this area or be able to use it.</p> <p>This site is extremely steep and no development has occurred yet due to the difficult site conditions.</p> <p>[Refer to original submission for full reason]</p>	Rezone the NOSZ (Natural Open Space Zone) at 62 Kaiwharawhara Road to Medium Density Residential Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
RR Ventures (2018) Ltd	227.2	Mapping / Rezone / Rezone	Amend	<p>Opposes 166 Glanmire Road (Part Lot 8 DP 2205) being zoned as Large Lot Residential Zone and seeks that it is rezoned as Medium Density Residential Zone.</p> <p>Considers that this section is 20,491 sq. mtr in area and is currently undeveloped. Considering the size and proximity to council's infrastructure, we believe the potential of the section can be further enhanced if it can be zoned residential, subdivided and developed to accommodate low to medium density housing.</p>	<p>Rezone 166 Glanmire Road (Part Lot 8 DP 2205) to Medium Density Residential Zone.</p> <p>[Inferred decision requested]</p>
Wellington's Character Charitable Trust	233.5	Mapping / Rezone / Rezone	Amend	<p>Opposes Khandallah Village being a Local Centre Zone.</p> <p>Considers that Khandallah is similar to Ngaio, and Ngaio has an NCZ.</p> <p>All the elements required of an NCZ are present in Khandallah.</p> <p>There is a large distinction between Khandallah and other suburbs with LCZ.</p> <p>[Refer to original submission for full reason]</p>	Rezone Khandallah Village from LCZ (Local Centre Zone) to NCZ (Neighbourhood Centre Zone)
Wellington's Character Charitable Trust	233.6	Mapping / Rezone / Rezone	Amend	<p>Opposes Station Road/Baroda Street satellite shops being a Local Centre and seeks that it is rezoned as a Neighbourhood Centre.</p> <p>Considers that LCZ is inappropriate zoning for this area.</p> <p>This area is consistent with the PDP's description of NCZ.</p> <p>[Refer to original submission for full reason]</p>	Rezone Station Road/Baroda Street satellite shops from LCZ (Local Centre Zone) to NCZ (Neighbourhood Centre Zone)
Gabriela Roque-Worcel	234.1	Mapping / Rezone / Rezone	Amend	Considers that the Brooklyn LCZ should be rezoned on the mapping to Mixed Use Zone.	Rezone Brooklyn from LCZ (Local Centre Zone) to MUZ (Mixed Use Zone) on the mapping.
Gabriela Roque-Worcel	234.2	Mapping / Rezone / Rezone	Amend	Considers that the Kingston LCZ should be expanded.	Seeks that the LCZ (Local Centre Zone) in Kingston is expanded.
Gabriela Roque-Worcel	234.3	Mapping / Rezone / Rezone	Amend	Considers that the Vogeltown LCZ should be expanded.	Seeks that the LCZ (Local Centre Zone) in Vogeltown is expanded.
Gabriela Roque-Worcel	234.4	Mapping / Rezone / Rezone	Amend	Considers that the Mornington LCZ should be expanded.	Seeks that the LCZ (Local Centre Zone) in Mornington is expanded.
Karepa Dell Developments	241.1	Mapping / Rezone / Rezone	Oppose	<p>Considers that the PDP states that Large Lot Residential Zone is for lower density developments that are generally located on the periphery of urban areas. The site that is located at 11 Makomako Road is located in Brooklyn and is approximately 4km from the CBD of Wellington. This is barely the periphery of the urban areas. The surrounding residential properties encapsulate this area. The zone encourages semi-urban setting, however the surrounding properties are all higher density properties and all of these properties can be further developed to hold three dwellings. The site is currently subject to a 20-lot subdivision under the resource consent SR 374681. This is currently being completed, however due to the Covid Pandemic and supply shortages has delayed this project being completed. A time extension was granted in April of 2022, with the works intended to be completed in 2025. This consent will create similar sized lots of the surrounding medium density residential properties. As such these future lots should be zoned as medium density residential zones and would allow for the future development of these properties just like the surrounding areas. The large lot residential zone will not be reflective of the property or a suitable outcome consistent with the NPS UD upon completion of the subdivision.</p>	Opposes the zoning of 11 Makomako Road as Large Lot Residential Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Karepa Dell Developments	241.2	Mapping / Rezone / Rezone	Amend	Considers that the PDP states that Large Lot Residential Zone is for lower density developments that are generally located on the periphery of urban areas. The site that is located at 11 Makomako Road is located in Brooklyn and is approximately 4km from the CBD of Wellington. This is barely the periphery of the urban areas. The surrounding residential properties encapsulate this area. The zone encourages semi-urban setting, however the surrounding properties are all higher density properties and all of these properties can be further developed to hold three dwellings. The site is currently subject to a 20-lot subdivision under the resource consent SR 374681. This is currently being completed, however due to the Covid Pandemic and supply shortages has delayed this project being completed. A time extension was granted in April of 2022, with the works intended to be completed in 2025. This consent will create similar sized lots of the surrounding medium density residential properties. As such these future lots should be zoned as medium density residential zones and would allow for the future development of these properties just like the surrounding areas. The large lot residential zone will not be reflective of the property or a suitable outcome consistent with the NPS UD upon completion of the subdivision.	Rezone the property at 11 Makomako Road to a Medium Density Residential Zone to reflect the development that is occurring.
Adam King	246.1	Mapping / Rezone / Rezone	Oppose in part	Opposes the zoning of 12a Parliament Street as Medium Density Residential.	Retain as notified with amendment below.
Adam King	246.2	Mapping / Rezone / Rezone	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks to add retain Operative District Plan zoning of the Inner Residential Zone for 12a Parliament Street.
Peter Charlesworth	248.2	Mapping / Rezone / Rezone	Amend	Considers that the portion of the site 11B Wilmshurst Place containing the existing dwelling should be zoned Medium Density Residential Zone to be consistent with the current Outer Residential Area zoning, as the LLRZ zoning will result in development that is inconsistent with the proposed zoning and form of development that surrounds the site directly to the north, east and west. Considers that there is no rationale for zoning the Outer Residential Area portion of the site as LLRZ to a less enabling zone, as this will be contrary to the NPS-UD. [Refer to submission for area of the site that the submission applies to] [Refer to original submission for full reason]	Rezone the annotated portion of 11B Wilmshurst Place from LLRZ (Large Lot Residential Zone) to MRZ (Medium Density Residential Zone). [Refer to original submission for map of the area]
Generation Zero Inc	254.7	Mapping / Rezone / Rezone	Amend	Considers that building heights of at least six storeys are enabled within a walkable catchment of the Johnsonville Rail line in accordance with the requirements of Policy 3(c) of the NPS-UD.	Seeks that High Density Residential Zone is applied to all residential sites within a 15-minute walkable catchment of the rapid transit stops on the Johnsonville Rail line except where a justifiable qualifying matter applies.
Onslow Residents Community Association	FS80.39	General / Mapping / Rezone / Rezone	Oppose	Considers that the Johnsonville Rail Line does not meet the National Policy Statement on Urban Development definition of a rapid transit service.	Disallow
Kāinga Ora – Homes and Communities	FS89.67	General / Mapping / Rezone / Rezone	Support	Kāinga Ora supports this submission to the extent that this aligns with the Kāinga Ora primary submission.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association Inc	FS114.6	General / Mapping / Rezone / Rezone	Oppose	<p>The NPS-UD definition states that Rapid Transit Services must be “frequent” and this definition therefore excludes PT services that are not frequent from being classified as Rapid Transit Services.</p> <p>Considers that Greater Wellington Regional Council (GWRC) has incorrectly assessed the Johnsonville Line is a Rapid transit Service because they used a one line statement in the One Network Framework (ONF) drafted by the Road Efficiency Group and published by Waka Katohi.</p> <p>In contrast to the NPS-UD, the ONF definition also classifies passenger rail services that are not frequent as Rapid Transit which is incorrect. The Johnsonville Line is not a frequent service (mostly 2 services/hour) and therefore cannot be classified as a Rapid Transit Service.</p> <p>Considers the One Network Framework is not able tool for this assessment - as confirmed in writing by the Waka Katohi One Network Framework Programme Manager. In contrast, Auckland Transport has developed a PT assessment standard based on suitable public transport criteria and under their criteria, the Onehunga Line is assessed as Nnot being Rapid Transit under the NPS-UD. Applying these same criteria to the Johnsonville Line would also find it is not Rapid Transit. Further, the WCC has also failed to use a PT assessment standard based on suitable public transport criteria to assess whether Johnsonville Line Stations are Rapid Transit Stops under the NNPS-UD. Therefore any claim that Johnsonville Line Stations are Rapid Transit Stops is also invalid. [Refer to further submission for full reason]</p>	Disallow / Retain Johnsonville Line as notified (Not considered Rapid Transit).
Prime Property Group	256.2	Mapping / Rezone / Rezone	Amend	<p>Considers the development area identified at 14 Epic Way to be an appropriate site for rezoning to Medium density residential, including because the site has services, has been designed to avoid impact on SNAs and would be in keeping with the area around [Refer to original submission for full reason].</p>	<p>Seeks to rezone the development area within S17-1095-PDP1 (14 Epic Way) to Medium Density Residential.</p> <p>[See original submission for attachment]</p>
Wellington International Airport Limited	FS36.243	General / Mapping / General	Oppose	<p>WIAL opposes this submission to the extent that the rezoning could further exacerbate protrusions into the obstacle limitation surface due to the current 11m height limit specified in the Medium Density Residential Zone.</p>	Disallow
Pauletta Wilson	257.2	Mapping / Rezone / Rezone	Amend	<p>Opposes the Mt Cook Area being zoned as High Density Residential Zone and seeks that it is rezoned to Medium Density Residential Zone.</p> <p>Considers that the effect of new 6-storey blocks on surrounding neighbours in existing houses, making them shadier, damper, less healthy, and unpleasant to live in.</p> <p>The provisions such as recession planes, privacy, outlook space and solar access are not adequate because the buildings in the HRZ can go right to the boundary.</p> <p>Supports intensification in the Mt Cook area but wants it done effectively and without unnecessary destruction of the diversity of the community, it's valuable assets and character,</p>	<p>Rezone the Mt Cook area from HRZ (High Density Residential Zone) to MRZ (Medium Density Residential Zone) with a height limit of 11m.</p>
Wellington's Character Charitable Trust	FS82.209	General / Mapping / Rezone / Rezone	Support	<p>Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.</p>	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wheeler Grace Trust	261.1	Mapping / Rezone / Rezone	Amend	<p>Considers that the opportunity for residential intensification would be better reflected with HRZ (High Density Residential Zone).</p> <p>Changing from Inner Residential to City Centre Zone would drastically change Selwyn Terrace.</p> <p>Opposes the element of the NPS-UD application regarding commercial activities.</p> <p>Selwyn Terrace does not have a mix of land uses - it is all residential except the British High Commission, which has its frontage on Hill Street.</p> <p>For Selwyn Terrace to be CCZ it would need better road access.</p> <p>Selwyn Terrace is unique and has character, making CCZ inappropriate.</p> <p>[Refer to original submission for full reason]</p>	Rezone Selwyn Terrace, Thorndon from CCZ (City Centre Zone) to HRZ (High Density Residential Zone).
Historic Places Wellington Inc	FS111.187	General / Mapping / Rezone / Rezone	Support	<p>Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.</p> <p>[Interred reference to submission 158.1]</p>	Allow
Wellington City Council	266.45	Mapping / Rezone / Rezone	Amend	<p>Considers that the second access to St Gerards Monastery, Oriental Bay should be re-zoned from Open Space to MRZ. This is to match the zoning in the Operative District Plan. [shown in image in the full submission]</p>	<p>Seeks to re-zone second access to St Gerards Monastery, Oriental Bay should be re-zoned from Open Space Zone to Medium Density Residential Zone.</p> <p>[shown in image in full submission].</p>
Panorama Property Limited	FS11.39	General / Mapping / Rezone / Rezone	Oppose	<p>This point on mapping omits to address the anomaly that is the inclusion of 1 Upland Road in the OSZ. Panorama opposes these mapping errors/changes because they omit to redraw the OSZ to exclude the Site and are incomplete as a result.</p> <p>Panorama submits that the inclusion of the site in the OSZ is contrary to the purpose and principles of the RMA and the Council's obligations and functions under the RMA and is unsupported by the Council's s 32 assessment.</p> <p>The site is owned by Council on behalf of the city's ratepayers and provides a reasonable rate of return under the long-term commercial lease. Its zoning should reflect that commercial reality.</p> <p>Panorama refers back to their submission (#10.1) for reasons and relief sought.</p> <p>[Refer to further submission for full reason]</p>	Disallow / Seeks that the submission point is disallowed, or alternative relief that may give better effect to the issues described in the further submission.
Wellington City Council	266.46	Mapping / Rezone / Rezone	Amend	<p>Considers 39 Chapman Street, Johnsonville should be re-zoned from Open Space Zone to Medium Density Residential Zone to reflect the current residential use of the land.</p>	Seeks to re-zone 39 Chapman Street, Johnsonville as shown in image supplied in full submission from OSZ (Open Space Zone) to MRZ (Medium Density Residential Zone).

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Panorama Property Limited	FS11.40	General / Mapping / Rezone / Rezone	Oppose	<p>This point on mapping omits to address the anomaly that is the inclusion of 1 Upland Road in the OSZ. Panorama opposes these mapping errors/changes because they omit to redraw the OSZ to exclude the Site and are incomplete as a result.</p> <p>Panorama submits that the inclusion of the site in the OSZ is contrary to the purpose and principles of the RMA and the Council's obligations and functions under the RMA and is unsupported by the Council's s 32 assessment.</p> <p>The site is owned by Council on behalf of the city's ratepayers and provides a reasonable rate of return under the long-term commercial lease. Its zoning should reflect that commercial realty.</p> <p>Panorama refers back to their submission (#10.1) for reasons and relief sought.</p> <p>[Refer to further submission for full reason]</p>	Disallow / Seeks that the submission point is disallowed, or alternative relief that may give better effect to the issues described in the further submission.
Wellington City Council	266.47	Mapping / Rezone / Rezone	Amend	<p>Considers part of 9 Comber Place, Johnsonville should be re-zoned from Natural Open Space Zone to Medium Density Residential Zone to correct a mapping error. The part of 9 Comber Place to the east of the Ridgelines and Hilltops Overlay should be MRZ. This reflects the zoning of the Operative District Plan.</p>	Seeks to re-zone part of 9 Comber Place, Johnsonville (east of the Ridgelines and Hilltops Overlay) from NOSZ (Natural Open Space Zone) to MRZ (Medium Density Residential Zone) as shown in image supplied in full submission.
Panorama Property Limited	FS11.41	General / Mapping / Rezone / Rezone	Oppose	<p>This point on mapping omits to address the anomaly that is the inclusion of 1 Upland Road in the OSZ. Panorama opposes these mapping errors/changes because they omit to redraw the OSZ to exclude the Site and are incomplete as a result.</p> <p>Panorama submits that the inclusion of the site in the OSZ is contrary to the purpose and principles of the RMA and the Council's obligations and functions under the RMA and is unsupported by the Council's s 32 assessment.</p> <p>The site is owned by Council on behalf of the city's ratepayers and provides a reasonable rate of return under the long-term commercial lease. Horokiwi Quarries Ltd	271.7	Mapping / Rezone / Rezone	Amend	<p>Supports that the Horokiwi site is zoned Special Purpose Quarry Zone, however two sites are not included, and amendments are sought to rezone two areas (being Pt Sec 17 Harbour District and Pt Sect 18 Harbour District from General Rural zone to Special Purpose Quarry zone, and part of Pt Sec 16 Harbour District from Open Space zone to Special Purpose Quarry Zone). This would provide for the full utilisation of the quarry site and provide a more efficient consenting regime. Pt Sec 16 Harbour District is owned by Horokiwi Quarries Ltd, is included within the existing use certificate, and part of the site features the existing sediment pond. Public access within the site is restricted and the site has no passive or active recreational assets or activities. The land is not subject to a reserves management plan and other than its historical zoning, there appears no basis or justification for an Open Space Zoning in the PDP. A consistent zoning would therefore be logical and efficient.</p> <p>[Refer to original submission for full reason, including attachments]</p>	<p>Rezone Pt Sec 16 Harbour District from Open Space Zone to Special Purpose Quarry Zone.</p> <p>[Refer to original submission for figures and attachments showing the area sought to be rezoned].</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Horokiwi Quarries Ltd	271.8	Mapping / Rezone / Rezone	Amend	Supports that the Horokiwi site is zoned Special Purpose Quarry Zone, however two sites are not included, and amendments are sought to rezone two areas (being Pt Sec 17 Harbour District and Pt Sect 18 Harbour District from General Rural zone to Special Purpose Quarry zone, and part of Pt Sec 16 Harbour District from Open Space zone to Special Purpose Quarry Zone). This would provide for the full utilisation of the quarry site and provide a more efficient consenting regime. Pt Sec 18 is owned by Horokiwi Quarries Ltd and is included within the existing use certificate. Pt Sec 17 Harbour District is not in the existing use certificate, but is owned by Horokiwi and is positioned between the existing quarry site and Pt Sect 18. A consistent zoning would therefore be logical and efficient. [Refer to original submission for full reason, including attachments]	Rezone Pt Sec 18 Harbour District and Pt Sec 17 Harbour District from General Rural Zone to Special Purpose Quarry Zone. [Refer to original submission for figures and attachments showing the areas sought to be rezoned].
Heidi Snelson, Aman Hunt, Chia Hunt, Ela Hunt	276.5	Mapping / Rezone / Rezone	Amend	Considers that the MRZ (Medium Density Residential Zone) within the Upper Stebbings and Glenside West development should be zoned LLRZ (Large Lot Residential Zone). [Refer to original submission for full reason]	Rezone Medium Density Residential Zone land at 395 Middleton Road in the Upper Stebbings and Glenside West Future Development Zone to Large Lot Residential Zone.
Mary Sullivan	277.1	Mapping / Rezone / Rezone	Amend	Opposes High Density Residential Zoning in the Prospect Terrace, Woodland Road, and the up-hill section of Frankmoore Avenue area. Considers that the area includes areas which are difficult to access on foot by most people, particularly elderly and people with young children or disabilities. Some of the area zoned as High density is up steep hills, with narrow roads, and have either no footpaths or footpaths on one side only. They are not therefore suitable for high density developments.	Rezone the area at Prospect Terrace, Woodland Road, and the up-hill section of Frankmoore Avenue from High Density Residential Zone to Medium Density Residential Zone.
Onslow Residents Community Association	283.3	Mapping / Rezone / Rezone	Amend	Seeks that the Khandallah Centre is rezoned from Local Centre Zone to Neighbourhood Centre Zone.	Rezone the Khandallah Centre from Local Centre Zone to Neighbourhood Centre Zone.
Onslow Residents Community Association	283.4	Mapping / Rezone / Rezone	Amend	Seeks that the area at Box Hill Road, Khandallah is rezoned from Local Centre Zone to Neighbourhood Centre Zone. Considers that the zoning of LCZ here is an error in the District Plan. This extends the MRZ beyond reasonable limits. Also, there is no footpath that makes the southern end of Simla Crescent accessible in its entirety within a reasonable walking catchment of the Khandallah centre.	Rezone the area at Box Hill Road, Khandallah from Local Centre Zone to Neighbourhood Centre Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Eldin Family Trust	287.2	Mapping / Rezone / Rezone	Oppose	<p>Considers that the rezoning of Selwyn Terrace would be a dramatic change and would enable activities that conflict with the current primary use of Selwyn Terrace as a distinct enclave of residential dwellings.</p> <p>Considers that the Council is incorrect to say that Selwyn Terrace already has a mixture of land uses.</p> <p>Does not agree that a land use change is necessary to support a mixture of activities and growth, considering the street is very narrow and steep access, with a single carriageway for much of its length. A change to a commercial zoning would place unreasonable demand on vehicle and pedestrian access.</p> <p>Considers that Selwyn Terrace has a high concentration of pre-1930s character as evidenced by the 2019 Pre-1930s character area review report.</p> <p>Considers that 9 Selwyn Terrace is an excellent example of the work of one of Wellington's pre-eminent architects of the 20th Century, William Gray Young.</p> <p>Selwyn Terrace has special historic context as a reminder of the original suburb prior to the construction of the Wellington Motorway.</p> <p>Considers the plan provides sufficient development capacity without needing to change planning settings in Selwyn Terrace.</p> <p>[Refer to original submission for full reason]</p>	Opposes the rezoning of Selwyn Terrace in the Operative District Plan from Inner Residential Zone to City Centre Zone in the Proposed District Plan.
Thorndon Residents' Association Inc	FS69.2	General / Mapping / Rezone / Rezone	Support	<p>This is a significant small enclave of quality residential character dwellings in Thorndon. Selwyn Terrace has a special historic context as a residential area that reminds us of the original extent of the residential suburb.</p>	Amend / Seeks that the submission be allowed and change Selwyn Terrace to Medium Density Residential Zone, and do this in harmony with the Portland residential enclave, and the Hobson residential precinct of Thorndon.
Wellington's Character Charitable Trust	FS82.289	General / Mapping / Rezone / Rezone	Support	<p>Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.</p>	Allow

Wellington's Character Charitable Trust	FS82.290	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.176	General / Mapping / Rezone / Rezone	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow
Phillippa O'Connor	289.2	Mapping / Rezone / Rezone	Support	<p>Considers that the Western Side of Kelburn Parade, especially #64 Kelburn Parade should be rezoned to HRZ because:</p> <ul style="list-style-type: none"> - It is close to the transport network, employment opportunities and social infrastructure. - Larger building heights would support additional housing for the benefit of those utilising the university. <p>[See original submission for full details]</p>	Seeks that the western side of Kelburn Parade is rezoned to the High Density Residential Zone with a maximum building height of 21m.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.7	Mapping / Rezone / Rezone	Amend	<p>Considers that if agreement cannot be reached with Council on appropriate tenure for the land currently identified as MRZ, seeks that Large Lot Residential for the remaining land and a portion of land comprising some 5,500m² next to Silverstream Road as Medium Density Residential Zone.</p> <p>Considers request of alternative approach is to the balance land is because it is not appropriate to zone private land for what is considered essentially a public work (Reserve).</p>	Seeks that If agreement cannot be reached with Council on appropriate tenure for the land currently identified as Medium Density Residential Zone, then the submitter seeks Large Lot Residential for the remaining land and a portion of land comprising some 5,500m ² next to Silverstream Road as Medium Density Residential Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Adam Groenewegen	FS46.25	General / Mapping / Rezone / Rezone	Oppose	Opposes the proposal to, in the alternative to WCC agreeing appropriate tenure issues over the SW NOSZ land, to rezone it Large Lot residential or part (5500m2) as MDRZ. These proposals fly in the face of the incredibly high natural values of this land and seem a poorly thought through rouse to force the hand of WCC to complete reserve purchase or contribution negotiations. The suggested MDRZ area of 5500m2 is on an incredibly steep south facing cross slopes with a narrow road frontage (5m)and difficult access over an old stream bed. Vegetation in this area also has high biodiversity values. Development here sandwiched in between high biodiversity WCC reserve land would be inappropriate.	Disallow
Jo McKenzie	FS64.25	General / Mapping / Rezone / Rezone	Oppose	Opposes the proposal to, in the alternative to WCC agreeing appropriate tenure issues over the SW NOSZ land, to rezone it Large Lot residential or part (5500m2) as MDRZ. Considers that these proposals fly in the face of the incredibly high natural values of this land and seem a poorly thought through rouse to force the hand of WCC to complete reserve purchase or contribution negotiations. The suggested MDRZ area of 5500m2 is on an incredibly steep south facing cross slopes with a narrow road frontage (5m)and difficult access over an old stream bed. Vegetation in this area also has high biodiversity values. Considers that development here sandwiched in between high biodiversity WCC reserve land would be inappropriate.	Disallow
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.17	General / Mapping / Rezone / Rezone	Oppose	Forest & Bird strongly opposes alternative zoning of land adjoining Silverstream Road to enable the submitter's Kilmarnock subdivision. The land adjoining Silverstream Road is a high-quality SNA (WCO60) with some of the best primary forest remnants left within the city limits. Large Lot Residential zoning and a small area of Medium Density Residential or equivalent zoning adjoining Silverstream Road would be contrary to the ECO provisions of the plan and not give effect to policies 23 & 24 of the RPS or s6 of the RMA.	Disallow
Andy Foster	FS86.45	General / Mapping / Rezone / Rezone	Oppose	Considers that it is not reasonable to allow for housing development to intrude into the land zoned Open Space and Rural in the Operative Plan. The landscape impacts would be substantial, both of any housing and of the roading access. The impacts on vegetation would also be significant. Notes that the area of bush at the bottom of the site, immediately adjacent to and climbing up from Silverstream Road is of particularly high quality. The concept of putting housing or an access road through it would be entirely unreasonable. For all these reasons Andy Foster opposes any development in this area beyond a carefully designed reservoir. [See original Further Submission for full reasoning]. [Inferred reference to submission 290.7]	Disallow
Andy Foster	FS86.60	Part 3 / Open Space and Recreation Zones / Open Space Zone / General OSZ	Oppose	Considers that it is reasonable to allow for housing development to intrude into the land zoned Open Space and Rural in the Operative Plan. The landscape impacts would be substantial, both of any housing and of the roading access. The impacts on vegetation would also be significant. Notes that the area of bush at the bottom of the site, immediately adjacent to and climbing up from Silverstream Road is of particularly high quality. The concept of putting housing or an access road through it would be entirely unreasonable. For all these reasons Andy Foster opposes any development in this area beyond a carefully designed reservoir. [See original Further Submission for full reasoning]. [Inferred reference to submission 290.70]	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Parsons Green Trust	291.1	Mapping / Rezone / Rezone	Amend	<p>Considers that The current and ongoing childcare centre use of the PGT land would better align with the purpose of the MUZ, and the MUZ provisions would better enable commercial and mixed use development opportunities to service the surrounding residential catchment,</p> <p>A MUZ and MDRZ zone interface is not out of the ordinary. The PGT land is similarly located on the corner of Redwood Avenue / Main Road and adjoins the General Industrial Zone to the east. Furthermore, in order to address the interface with residential zones The MUZ contains rules relating to buildings and standards, noting that Rule MUZ-S5 requires windows on walls adjacent to Residential Zones to comprise of opaque privacy glazing to mitigate privacy or overlooking onto adjoining residentially zoned sites.</p> <p>MUZ is the most appropriate zoning for the PGT land. Applying the MUZ to the PGT land would create a practical zoning boundary and the MUZ contains provisions which manage potential privacy and amenity effects on adjoining MDRZ sites.</p> <p>[Refer to original submission for full reason]</p>	Rezone 1 & 3 Redwood Avenue and 85 Main Road, Tawa from Medium Density Residential Zone to Mixed Use Zone.
Priscilla Williams	293.3	Mapping / Rezone / Rezone	Amend	Considers that the hilly terrain makes this area unsuitable for high rise building.	Rezone the area spanning Wesley Road, Aurora Terrace and Bolton Street from HRZ (High Density Residential Zone) to MRZ (Medium Density Residential Zone).
Historic Places Wellington Inc	FS111.173	General / Mapping / Rezone / Rezone	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Tawa Community Board	294.5	Mapping / Rezone / Rezone	Amend	Considers that land at 10 Surrey Street is one of the largest parcels of single-ownership land on the valley floor, very near the town centre and Tawa Station, and one of the most suitable sites for the highest height limit to encourage future development of centre-like mixed housing and business use.	Rezone 10 Surrey Street, Tawa from Mixed Use Zone to Local Centre Zone in the mapping.
Tawa Community Board	294.6	Mapping / Rezone / Rezone	Amend	<p>Rezone 105 - 115 Main Road, Tawa from NCZ to HRZ.</p> <p>Considers that if zoned as NCZ, 105 - 115 Main Road, Tawa they could be subject to specific controls around active frontage and non-residential activity, should the owners wish to amend their building in the future and could cause issues should they wish to sell. These properties currently contain residential-only buildings.</p>	Rezone 105, 107, 109, 111, 113 and 115 Main Road, Tawa from Neighbourhood Centre Zone to High Density Residential Zone.
Dawid Wojasz	295.1	Mapping / Rezone / Rezone	Amend	<p>Considers that Johnsonville Rail line should be considered as rapid transit for the purposes of its impact of Zoning and walkable catchments.</p> <p>It is a significant rail corridor and high density housing should be encouraged along its route to allow efficient access to public transport.</p>	<p>Seeks that high density residential zone be located within a 15 minute walkable catchment from stations along the Johnsonville rail line.</p> <p>[Inferred decision requested].</p>
Tapu-te-Ranga Trust	297.3	Mapping / Rezone / Rezone	Amend	<p>Submitter would like to amend the extent of residential zoning within the PDP to reflect the existing split of residential and open space zoning of 44 Rhine Street in the operative district plan.</p> <p>This is to reflect the aspirations the submitter has for the site in the next 10-15 years. At this stage, the Trust do not have the resources to comprehensively address contamination and geotechnical issues, so would like to revert to the zoning shown in the operative district plan (changing additional Medium Residential Zone back to Open Space).</p>	Seeks that land at 44 Rhine Street, Island Bay that has been rezoned Medium Density Residential Zone from Natural Open Space Zone, be rezoned back to Natural Open Space Zone in the mapping.
Paul Blaschke	FS129.2	General / Mapping / Rezone / Rezone	Support	Supports submission points relating to land that has been rezoned Medium Density Residential Zone from Natural Open Space Zone, be rezoned back to Natural Open Space Zone in the mapping. This position reflects the historical understanding reached between the Trust and the Manawa Karioi Society, which retains and protects the Open Space reserve nature of the bush areas, at the same time as identifying land within the 44 Rhine Street lot that could be developed to support the aspirations of the Trust and of the wider Maori and city populations.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Tapu-te-Ranga Trust	297.4	Mapping / Rezone / Rezone	Amend	Submitter requests their land be returned to zoning which existed within the Operative District Plan (Open Space Zone - Conservation). [Refer to original submission for full reason]	Add Open Space Zone - Conservation to the Proposed District Plan. [Inferred decision requested]
Paul Blaschke	FS129.3	General / Mapping / Rezone / Rezone	Support	Supports submission points relating to land that has been rezoned Medium Density Residential Zone from Natural Open Space Zone, be rezoned back to Natural Open Space Zone in the mapping. This position reflects the historical understanding reached between the Trust and the Manawa Karioi Society, which retains and protects the Open Space reserve nature of the bush areas, at the same time as identifying land within the 44 Rhine Street lot that could be developed to support the aspirations of the Trust and of the wider Maori and city populations.	Allow
Parkvale Road Limited	298.1	Mapping / Rezone / Rezone	Amend	Considers that part of site (200 Parkvale Road), immediately adjacent to the existing urban area, are suitable for rezoning to Medium Density Residential Zone. Considers area proposed for rezoning is a discreet and naturally contained area that while physically connected to the existing urban area is visually separated by existing topography. The area currently contains 3 existing dwellings, provides access to a further two existing dwellings adjacent to the site (173 and 175 Parkvale Road), and resource consent is in place for the construction of five additional dwellings. Rezoning of the site will provide for additional urban development capacity on this site that will give effect to the requirements of the National Policy Statement on Urban Development (NPS-UD) as a logical extension of the existing urban footprint. Rezoning of this area and its subsequent development would not interfere with the Skyline walkway.	Seeks that part of property (200 Parkvale Road) is rezoned from General Rural Zone to Medium Density Residential Zone.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.39	General / Mapping / Rezone / Rezone	Support	We can see that a change from General Rural Zone to MRZ in the vicinity of Parkvale Ave has merit given the proximity to existing urban development. Appropriate ecological assessment is required to ensure biodiversity values are protected however.	Allow
Andy Foster	FS86.67	General / Mapping / Rezone / Rezone	Oppose	Opposes the request from Parkvale Road Limited to rezone both parts of the site. [See original Further Submission for full reasoning]. [Inferred reference to submission 298.1].	Disallow
Parkvale Road Limited	298.2	Mapping / Rezone / Rezone	Amend	Considers that part of site (200 Parkvale Road) is suitable for rezoning to Large Lot Residential Zone. This area is accessed from the end of Montgomery Avenue and is traversed by a number of tracks, notably the Skyline Walkway. Considers that the topography of the area results in a number of gully systems that fall away to the west and that a small number of large residential allotments can be created in these gully systems in a discreet manner that does not adversely affect the landscape and amenity values of the site.	Seeks that part of property (200 Parkvale Road at Parkvale Road) is rezoned from General Rural Zone to Large Lot Residential Zone. [Refer to original submission, including map of the area]
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.40	General / Mapping / Rezone / Rezone	Oppose	Large scale residential allotments in gully systems would, in our view, adversely impact the ecology of these systems. Any properties in these locations would require road and services access and effectively have an impact on the skyline walkway experience. It would also conflict with the purpose of the Outer Green Belt as a buffer zone between urban and rural lifestyle and its value as a natural wildlife corridor.	Disallow
Andy Foster	FS86.68	General / Mapping / Rezone / Rezone	Oppose	Opposes the request from Parkvale Road Limited to rezone both parts of the site. [See original Further Submission for full reasoning]. [Inferred reference to submission 298.2].	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Parkvale Road Limited	298.3	Mapping / Rezone / Rezone	Amend	Considers that part of site (200 Parkvale Road), suitable for rezoning to Large Lot Residential Zone and Open Space Zone due to purpose of LLRZ and ability to enable public access. [Refer to original submission for full details]	Seeks that part of property (200 Parkvale Road at Montgomery Avenue) is rezoned from General Rural Zone to a mixture of Large Lot Residential Zone and Open Space Zone.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.41	General / Mapping / Rezone / Rezone	Oppose	As per comment above, it is not appropriate to enable development in sensitive gully systems.	Disallow
Andy Foster	FS86.69	General / Mapping / Rezone / Rezone	Oppose	Opposes the request from Parkvale Road Limited to rezone both parts of the site. [See original Further Submission for full reasoning]. [Inferred reference to submission 298.3].	Disallow
Wellington Branch NZIA	301.2	Mapping / Rezone / Rezone	Amend	Considers that Adelaide Road should not be classified as CCZ. The street is likely unsuitable for the creation of further high-rise areas due to it being the former boggy route of a wetland stream. Medium-rise development to the level of 5-6 storeys and the occasional nine storey tower should be continued.	Rezone Adelaide Road from City Centre Zone to High Density Residential Zone. [Inferred decision requested]
Wellington's Character Charitable Trust	FS82.212	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Roland Sapsford	305.20	Mapping / Rezone / Rezone	Amend	Considers that 2, 4 and 6 Boston Terrace should not be zoned HRZ, as the six storey heights in this location would adversely affect a large number of existing infill dwellings on Boston Terrace, creating shade, dampness and privacy issues for many people.	Rezone 2 Boston Terrace, 4 Boston Terrace and 6 Boston Terrace from High Density Residential Zone to Medium Density Residential Zone. [Inferred decision requested]
Wellington's Character Charitable Trust	FS82.263	General / Mapping / Mapping General / Mapping General	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
LIVE WELLington	FS96.108	General / Mapping / Mapping General / Mapping General	Support	The Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest of this table. These proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.153	General / Mapping / Rezone / Rezone	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Roland Sapsford	305.21	Mapping / Rezone / Rezone	Amend	Considers that Palmer Street should not be surrounded on four sides by buildings with permitted heights of six storeys. Palmer Street is identified in the Proposed Plan as a "character precinct" with an 11m height limit for new buildings. Palmer Street already experiences significant shading from the existing high rise located between Palmer and Abel Smith Streets.	Seeks that all High Density Residential Zones adjoining Palmer Street be rezoned to Medium Density Residential Zone. [Inferred decision requested]
Wellington's Character Charitable Trust	FS82.264	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow

Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Roland Sapsford	305.23	Mapping / Rezone / Rezone	Amend	Supports zone change from CCZ to MRZ at the sites on the west side of Willis Street between Aro Street and Abel Smith Street. Considers these sites are only included in the City Centre zone due to an historical mapping error repeatedly acknowledged but unaddressed by WCC. In essence this area was 10 covered by the 1960s designation for the Te Aro motorway, but when that designation was removed the boundary was not adjusted. Ten storeys over 100% of the site is not appropriate for this location. These sites would still be zoned up to six storeys once rezoned.	Rezoning the sites on the west side of Willis Street between Aro Street and Abel Smith Street from City Centre Zone to Medium Density Residential.
Wellington's Character Charitable Trust	FS82.266	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest of the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow

Roland Sapsford	305.24	Mapping / Rezone / Rezone	Amend	Supports zone change from NCZ to MRZ between 72 and 82 Aro Street. This section of the North side of Aro Street was zoned to reflect its residential nature until rezoned around a decade ago as a result of a further submission by a single land owner (the owner of the Garage Project site). There is no well founded resource management reason to zone this residential section of Aro Street as "centre". Indeed, there are at least two shops currently used as flats, one vacant shop, and one shop operating as a ground floor office.	Rezone 72 - 82 Aro Street from Neighbourhood Centre Zone to Medium Density Residential Zone.
Wellington's Character Charitable Trust	FS82.267	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
LIVE WELLington	FS96.112	General / Mapping / Rezone / Rezone	Support	The Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest of this table. Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Hilary Watson	321.9	Mapping / Rezone / Rezone	Amend	Considers that the upzoning of 73.2 percent of Newtown as HRZ is not respectful of the City's historic heritage and will result in the irretrievable loss of character, distinctiveness and identity across the suburb, including Character Precincts. The HRZ in the area will not effectively achieve the strategic direction supporting the creation of a liveable, well-functioning urban environment that enables all people and communities to provide for their social, economic and cultural wellbeing, as well as their health and safety. High Density zoning will also cause new housing to only be affordable to those with incomes above the median. [Refer to original submission for full reason]	Reduce the extent of the High Density Residential Zone in Newtown and rezone as Medium Density Residential Zone in the mapping. [Inferred decision requested]
Richard Murcott	322.10	Mapping / Rezone / Rezone	Amend	Supports zone change from HRZ to MRZ at the block bounded by Hobson St, Davis St, Moturoa St, Murphy St, Turnbull St, and Fitzherbert Tce in Thorndon.	Rezone the residential area bounded by Hobson St, Davis St, Moturoa St, Murphy St, Turnbull St, and Fitzherbert Tce in Thorndon from High Density Residential Zone to Medium Density Residential Zone.
Thorndon Residents' Association Inc	FS69.45	General / Mapping / Rezone / Rezone	Support	[Refer to Full Submission for reasons and examples of residential character of the Hobson precinct of Thorndon].	Allow
Wellington's Character Charitable Trust	FS82.287	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.178	General / Mapping / Rezone / Rezone	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow
Mt Victoria Residents' Association	342.19	Mapping / Rezone / Rezone	Amend	Supports the rezoning of Mount Victoria from HRZ to MRZ, aside from Kent Terrace.	Rezone Mount Victoria from High Density Residential Zone to Medium Density Residential Zone, except Kent Terrace. [Inferred decision requested]
Wellington's Character Charitable Trust	FS82.192	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Kāinga Ora – Homes and Communities	FS89.98	General / Mapping / Rezone / Rezone	Oppose	Kāinga Ora opposes this submission and its impacts on the supply of a variety of housing choices and typologies in Wellington.	Disallow
Historic Places Wellington Inc	FS111.122	General / Mapping / Rezone / Rezone	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Lower Kelburn Neighbourhood Group	356.2	Mapping / Rezone / Rezone	Amend	Considers that the North Bolton St Character Area should be expanded to include Wesley Road as a Character Precinct. Notes that the 2019 Boffa Miskell Pre-1930 Area Character Review concluded that the Wesley Rd area needed to be further investigated as a potential Character Area. This area had not been studied in detail for the Report as had other areas such as Thorndon and Mt Victoria. Therefore many submissions were made to WCC in the previous round from ninety concerned Lower Kelburn residents, adding to our earlier written and oral submissions that had provided strong evidence that this area should have Character Precinct status, and not be kept as high density with a 21 m height limit. [Refer to original submission for full reason, including appendix]	Amend the extent of the North Bolton St Character Area to include Welsey Road as a Character Precinct.
Wellington's Character Charitable Trust	FS82.269	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Historic Places Wellington Inc	FS111.164	General / Mapping / Rezone / Rezone	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Lower Kelburn Neighbourhood Group	356.3	Mapping / Rezone / Rezone	Amend	Supports the rezoning of the Wesley Street area from HRZ to MRZ, with height limits of 11m for dwellings. [Refer to original submission for full reason, including appendix]	Rezone Wesley Road from High Density Residential Zone to Medium Density Residential Zone.
Wellington's Character Charitable Trust	FS82.270	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest of the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Historic Places Wellington Inc	FS111.165	General / Mapping / Rezone / Rezone	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Josephine Brien / Tim Bollinger	365.1	Mapping / Rezone / Rezone	Amend	Supports the rezoning of all addresses adjacent to the open Community Centre grounds and the community recreational area on Aro Street from HRZ to MRZ. A High Density zoning is inappropriate for the requirements of this well-used inner city community area, that includes a basket ball court and a pedestrian cycle access way through the park to the top of Palmer street and into Wellington city. This is most likely an accident and should be corrected, as sunlight needs to reach the park.	Rezone all addresses adjacent to the open Community Centre grounds and the community recreational area on Palmer Street from High Density Residential Zone to Medium Residential Zone.
U.S. Embassy Wellington	366.1	Mapping / Rezone / Rezone	Amend	As identified on a provided map [see original submission], seeks an amendment to the mapping to exclude all properties highlighted in red on the supplied map from the proposed 27m height limit and subject to a 10m height limit. This is for security reasons.	Amend the CCZ (City Centre Zone) Maps so that all properties highlighted in red on the supplied map [see original submission] are exempt from the 27m height limit and subject to a 10m height limit.
Thorndon Residents' Association Inc	FS69.29	General / Mapping / Rezone / Rezone	Support	The U.S. Embassy Wellington's desire for neighbouring properties to be restricted to a maximum height of 10m aligns with the TRA's submission to add a character precinct for the Hobson area and to rezone the entire Hobson precinct as MDRZ. TRA respectfully highlight that this concern (or similar) would be matched by other 'special' properties situated in the vicinity. The Hobson precinct of Thorndon is valued for its special character, and height and other controls have very effectively maintained these special character values, and charm to this part of the city. TRA submit that the TRA's submission (#333) to change the PDP to medium density residential zoning in the Hobson precinct, and introducing a character precinct for the Hobson area, would help address the concerns of this submitter. [Refer to Further Submission for full reasons including extract from U.S. Embassy submission].	Allow
U.S. Embassy Wellington	366.2	Mapping / Rezone / Rezone	Amend	As identified on a provided map [see original submission], seeks an amendment to the mapping to exclude all properties highlighted in red on the supplied map from the proposed 22m minimum height and subject to a 10m height limit. This is for security reasons.	Amend the CCZ (City Centre Zone) Maps so that all properties highlighted in red on the supplied map [see original submission] are exempt from the proposed 22m minimum height and are subject to a 10m height limit
Elizabeth Nagel	368.12	Mapping / Rezone / Rezone	Amend	Retain all pre-1930s areas as they are in the Operative District Plan.	Retain all pre-1930s areas as they are in the Operative District Plan.
Waka Kotahi	370.8	Mapping / Rezone / Rezone	Amend	Considers that the Oriental Bay Height Precinct is more appropriate to apply as an overlay and/or the area to be rezoned to high density residential.	[Inferred decision requested] Rezone the Oriental Bay Height Precinct that is within the Medium Residential Zone to High Density Residential Zone.
Pukepuke Pari Residents Incorporated	FS37.2	General / Mapping / Rezone / Rezone	Oppose	Considers that the Oriental Bay Height Precinct provides protection for significant public amenity value, for all those who use the beach and Parade, representing a large part of the Wellington population. This Height Precinct was decided after careful review by the Environment Court in 1989 and all the considerations that were carefully laid out there are relevant here.	Disallow
Gareth and Joanne Morgan	FS38.3	Mapping / Rezone / Rezone	Oppose	Opposes the proposal to rezone the Oriental Bay Height Precinct to High Density Residential Zone, and ask the council to disallow this parts of the submission from Waka Kotahi.	Disallow

Wellington's Character Charitable Trust	FS82.103	General / Mapping / Rezone / Rezone	Oppose	Considers the Oriental Bay Height Precinct provides protection for significant amenity value and character in Oriental Bay.	Disallow
Don MacKay	FS94.2	General / Mapping / Rezone / Rezone	Oppose	Considers that the Oriental Bay Height Precinct provides protection for significant public amenity value,for all those who use the beach and Parade, representing a large part of the Wellington population. This Height Precinct was decided after careful review by the Environment Court in 1989 and all the considerations that were carefully laid out there are relevant here.	Disallow
WCC Environmental Reference Group	377.4	Mapping / Rezone / Rezone	Amend	Considers that the Johnsonville Rail Line should be classified as a rapid transit service. As a permanent transit route capable of large capacity carriage of people, the Johnsonville Rail Line should be classified as a rapid transit service. GWRC's Regional Land Transport Plan 2021 recognises the route as a rapid transit route. The line also fits the definition of a rapid transit route in the NPS-UD definitions for the purpose of giving effect to Policy 3(c). With the suburbs along this line well served by commercial and community facilities, and with land available that could accommodate denser development, it makes no sense for this route not to be classified in this way, and provision made for higher density development. We are facing a climate crisis and a housing crisis: this area must shoulder some of the change necessary to reduce Wellingtonian's carbon footprint, and increase housing availability and affordability along transport routes well served by community facilities, which this is.	Amend the Maps to add the Johnsonville Rail Line as a Rapid Transit Service and adjust the walking catchments to reflect this.
Johnsonville Community Association Inc	FS114.42	General / Mapping / Rezone / Rezone	Oppose	<p>The NPS-UD definition states that Rapid Transit Services must be "frequent" and this definition therefore excludes PT services that are not frequent from being classified as Rapid Transit Services.</p> <p>Considers that Greater Wellington Regional Council (GWRC) has incorrectly assessed the Johnsonville Line is a Rapid transit Service because they used a one line statement in the One Network Framework (ONF) drafted by the Road Efficiency Group and published by Waka Katohi.</p> <p>In contrast to the NPS-UD, the ONF definition also classifies passenger rail services that are not frequent as Rapid Transit which is incorrect. The Johnsonville Line is not a frequent service (mostly 2 services/hour) and therefore cannot be classified as a Rapid Transit Service.</p> <p>Considers the One Network Framework is not able tool for this assessment - as confirmed in writing by the Waka Katohi One Network Framework Programme Manager. In contrast, Auckland Transport has developed a PT assessment standard based on suitable public transport criteria and under their criteria, the Onehunga Line is assessed as Nnot being Rapid Transit under the NPS-UD. Applying these same criteria to the Johnsonville Line would also find it is not Rapid Transit.</p> <p>Further, the WCC has also failed to use a PT assessment standard based on suitable public transport criteria to assess whether Johnsonville Line Stations are Rapid Transit Stops under the NPS-UD. Therefore any claim that Johnsonville Line Stations are Rapid Transit Stops is also invalid. [Refer to further submission for full reason]</p>	Disallow / Retain Johnsonville Line as notified (Not considered Rapid Transit).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.5	Mapping / Rezone / Rezone	Amend	The walking catchments used in the district plan are inconsistent between the rapid transit stops they relate to. These are also more conservative than those being proposed by both Porirua and Hutt City, and considerably more conservative than those proposed by Auckland City. In light of the urgent need to reduce Wellingtonians' carbon footprint, reduce congestion, and significantly improve housing options, this makes no sense. We seek that the plan takes a consistent approach, applying the definition provided by Section 5.5 the MfE guidance in relation to the NPS-UD, and revising its walking catchment definitions to at least match those of its adjacent cities.	Amend the walkable catchments associated with the central city, any areas classed as 'metropolitan centres' and with rapid transit stops to bring them in line with the approach being taken by Hutt City, Porirua and Auckland City, as follows: (a) A 15-minute walk (around 1200 metres) from the edge of the City Centre Zone; and (b) A 10-minute walk (around 800 metres) from existing and planned rapid transit stops (c) A 10-minute walk (around 800 metres) from the edge of a Metropolitan Centre Zone Within these areas, amend the zoning requirements accordingly, to reflect, as a minimum, increased building heights provisions of 6 storeys, and other bulk and location elements as relevant to a higher density zone.
Wellington's Character Charitable Trust	FS82.52	General / Mapping / Rezone / Rezone	Oppose	Considers 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
LIVE WELLington	FS96.86	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	We oppose the submission of Cameron Vannisselroy, Conor Hill, Generation Zero, Jonathan Markwick, Kainga Ora, Paihikara Ki Pōneke Cycle Wellington, Property Council New Zealand, Te Tūāpapa Kura Kāinga Ministry of Housing and Urban Development, VicLabour, Waka Kotahi, WCC Environmental Reference Group. 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
Johnsonville Community Association Inc	FS114.43	General / Mapping / Rezone / Rezone	Oppose	The NPS-UD definition states that Rapid Transit Services must be "frequent" and this definition therefore excludes PT services that are not frequent from being classified as Rapid Transit Services. Considers that Greater Wellington Regional Council (GWRC) has incorrectly assessed the Johnsonville Line is a Rapid transit Service because they used a one line statement in the One Network Framework (ONF) drafted by the Road Efficiency Group and published by Waka Katohi. In contrast to the NPS-UD, the ONF definition also classifies passenger rail services that are not frequent as Rapid Transit which is incorrect. The Johnsonville Line is not a frequent service (mostly 2 services/hour) and therefore cannot be classified as a Rapid Transit Service. Considers the One Network Framework is not able tool for this assessment - as confirmed in writing by the Waka Katohi One Network Framework Programme Manager. In contrast, Auckland Transport has developed a PT assessment standard based on suitable public transport criteria and under their criteria, the Onehunga Line is assessed as Nnot being Rapid Transit under the NPS-UD. Applying these same criteria to the Johnsonville Line would also find it is not Rapid Transit. Further, the WCC has also failed to use a PT assessment standard based on suitable public transport criteria to assess whether Johnsonville Line Stations are Rapid Transit Stops under the NPS-UD. Therefore any claim that Johnsonville Line Stations are Rapid Transit Stops is also invalid. [Refer to further submission for full reason]	Disallow / Retain Johnsonville Line as notified (Not considered Rapid Transit).
Henry Bartholomew Nankivell Zwart	378.4	Mapping / Rezone / Rezone	Amend	Supports larger walking catchments for intensification around centres.	Seeks that walking catchments around centres are increased. [Inferred decision requested].

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Ann Mallinson	FS3.22	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. In particular the weather and wind conditions on Oriental Parade often make walking difficult for residents.	Disallow
Helen Foot	FS62.24	Mapping / Rezone / Rezone	Oppose	10 minutes is an appropriate walkable catchment for Oriental Bay residents given exposed wind and weather conditions.	Disallow
Elayna Chhiba	FS131.10	Mapping / Rezone / Rezone	Support	Supports increasing walking catchments around the City Centre Zone for the following reasons: <ul style="list-style-type: none"> - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Additionally, less reliance on private vehicles increases overall health. - Higher density housing will support providing liveable cities for future Wellingtonians. The NPS-UD and the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act provides for greater density. <p>[See original Further Submission for full reasoning].</p>	Allow
Escape Investments Limited	FS136.32	General / Mapping / Rezone / Rezone	Support	The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons: <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning more people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Escape Investments Limited	FS136.37	General / Mapping / Rezone / Rezone	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning more people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow
Rod Bray	FS137.46	General / Mapping / Rezone / Rezone	Support	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. A larger catchment would provide attractive and affordable housing closer to the city centre, away from outer suburbs where people are likely to use cars as their main means of transportation. A 15-minute walkable catchment would promote growth in areas close to the city centre and encourage a shift to more environmentally friendly modes of transportation.</p> <p>WCC should use a 15 minute walkable catchment to fall in line with the NPS-UD to increase housing supply. It is not unreasonable to expect that a large portion of residents who live a 15 minute walk away from the city centre would choose to walk as their main mode of commute. WCC should take full advantage of the NPS-UD standards by increasing the walkable catchment to 15 minutes, which will provide many benefits to Wellington city.</p> <p>[Refer to further submission for full reason]</p>	Allow
Henry Bartholomew Nankivell Zwart	378.5	Mapping / Rezone / Rezone	Amend	Supports larger walking catchments for intensification around mass transit hubs.	<p>Seeks that walking catchments around mass transit hubs are increased.</p> <p>[Inferred decision requested].</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Taranaki Whānui ki te Upoko o te Ika	389.17	Mapping / Rezone / Rezone	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the proposed zoning over Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST is amended from Natural Open Space Zone to Medium Density Residential with a 'Te Motu Kairangi Precinct' with associated objectives, policies, rules and standards to recognise the cultural and environmental overlays over the site whilst enabling Taranaki Whānui to exercise their customary responsibilities as kaitiaki, and to undertake development that supports their cultural, social and economic wellbeing.
Laurence Harger & Ingrid Kölle	FS2.17	General / Mapping / Rezone / Rezone	Oppose	76 hectares of Watts Peninsula has been set aside by the government as a reserve focused on protecting iwi and military history sites and retaining the value of the natural landscape of the area. Supports the establishment of such a reserve and would like to see it become part of the National Heritage Park proposed by the Buy Back the Bay group. The zoning and overlays of the Proposed District Plan must be kept if the reserve/heritage park is to be a viable option. Taranaki Whānui's requests would remove many protections that have been longstanding and unopposed for decades, which must surely not occur without extensive community engagement. Watts Peninsula, with its ridges and hill lines visible from all over Wellington, should remain undeveloped, which might very well not be the case if the land is rezoned.	Disallow / Seeks that the part of the submission to remove the proposed zoning and overlays on Watts Peninsula be disallowed.
Laurence Harger & Ingrid Kölle	FS2.27	General / Mapping / Rezone / Rezone	Oppose	Taranaki Whānui's proposal would seem to allow another large and obtrusive development on the prison site, à la Shelly Bay, by sale of the land, if acquired under the right of first refusal, to a commercial developer. Support Papakāinga development that keeps to the 11-12 m height limits and rules restricting building on ridgelines and hilltops, as long as native trees and vegetation are protected. Such a housing development should also be compatible with the adjacent reserve/National Heritage Park. The local community, the wider Wellington community and all iwi groups should be involved in any decisions made.	Disallow / Seeks that the part of the submission that could open up the Mount Crawford site to large-scale commercial housing development be disallowed.
Geoff Todd	FS21.3	General / Mapping / Rezone / Rezone	Oppose	Opposes any amendment to the natural open space zone on Watts Peninsula and in the vicinity of the prison: a) This request goes against what I understood was agreed by government and Iwi as part of the Waitangi settlement process in which Iwi acquired Shelley Bay for redevelopment and the parties agreed that "Watts Peninsula should be protected, preserved and developed as a distinctive national destination that brings together the natural environment, national heritage, recreation, culture and the arts" b) As described above the area has important historical features to be preserved, recreational benefits, visual and natural features and is important as a site for regenerating the biological diversity once present on the peninsula. Any further habitation will negatively impact the area.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Enterprise Miramar Peninsula Inc	FS26.5	General/ Mapping/ Rezone/ Rezone	Oppose	<p>It is clear Taranaki Whānui want all restrictions removed, and the Corrections land at least rezoned for medium density housing. It is unclear based on the submission exactly how large an area they want to have rezoned.</p> <p>Watts Peninsula is currently zoned Open Space B in the Operative (current) District Plan, both the Corrections and Defence Land have not in the past contested this zoning and the Proposed District Plan keeps Watts Peninsula as open Space, the Ridgelines and Hilltops add to significant Natural Areas (for biodiversity) it has a Special Amenity Landscape which is used by the community and tourists to the enjoyment of being close to a city but with a natural environment.</p> <p>Taranaki Whānui are seeking to amend the zoning in this area to Medium Density Residential or to a Special Purpose Zone – Māori Purpose Zone, without any public engagement. Such changes would have a significant impact on the local community and should not be undertaken without wider consultation and engagement in order to ensure that proposed changes do not have a detrimental effect. As noted above, it is of concern to the businesses, community (ratepayers) of Te Motu Kairangi/Miramar Peninsula and the wider public that the rezoning applied for by Taranaki Whānui (currently open space) to develop a papakainga creates infrastructure issues on an already overloaded roading, flooding and transport links to and from the Peninsula.</p> <p>[Inferred reference to submission 389.17].</p>	Disallow
Wellington International Airport Limited	FS36.249	General/ Mapping / Rezone / Rezone	Oppose	<p>WIAL opposes this submission to the extent that the land already penetrates WIAL's obstacle limitation surface (WIAL1 designation). Further investigations should be undertaken to confirm that the area is either afforded sufficient terrain shielding, or a 8m height restriction should be imposed on all buildings, objects and structures to ensure activities do not pose a potential risk to aircraft.</p>	Disallow / Seeks that part of submission be disallowed.
Mary Varnham and Paul O'Regan	FS40.17	Mapping / Rezone / Rezone	Oppose	<p>From 2011 the 76 hectares of Watts Peninsula has been set aside by the government as a reserve, to incorporate and protect iwi (as well as military) sites and history. Submitter supports this as an appropriate and visionary plan for the peninsula.</p> <p>Submitter supports the proposal of Buy Back the Bay group that the area should become a National Heritage Park.</p> <p>Submitter supports a conservancy model for development and management of this park, to include iwi, government, council, the local community, and organisations such as Forest and Bird and Predator Free Miramar.</p> <p>Disallow all proposals by Taranaki Whānui to remove the proposed zoning and overlays. These provisions are vital to protect the natural values, history and landscape of Watts Peninsula, a prominent feature of Te Whanganui-a-Tara.</p> <p>Supports retaining all provisions in the proposed district plan for Open Space B, Ridgelines and Hilltops, Significant Natural Areas and Special Amenity Landscape. We note the magnificent work done by Predator Free Miramar. Protecting and enhancing the huge gains in bringing back birdlife made should be a primary consideration. We also believe the peninsula should see extensive planting and regeneration of native forest.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Mary Varnham and Paul O'Regan	FS40.27	Mapping / Rezone / Rezone	Oppose	<p>The submission by Taranaki Whānui is not specific on this matter but seems to imply that the site be open for medium density housing development. We would support proposals for papakainga on the site provided 11-12 m height limits and rules restricting building on ridgelines and hilltops are observed. Buildings should not be visible from the harbour and native trees and vegetation should be protected and regenerated. Access should be restricted to existing roads; no road access should be allowed from Shelly Bay or adjacent hillsides.</p> <p>Disallow any provisions which would allow the Mount Crawford site to be sold to a commercial property developer (as happened at Shelly Bay) and current provisions regarding height limits, ridgelines and hilltops to be removed. Any housing development should be compatible with and sympathetic to the values of the adjacent reserve/National Heritage Park proposed for Watts Peninsula, and the local community should be involved in all decision making.</p>	Disallow
Buy Back the Bay	FS79.17	General / Mapping / Rezone / Rezone	Oppose	<p>Submission 389 states: "Taranaki Whānui's RFR [Right of First Refusal] opportunities in Te Motu Kairangi: Taranaki Whānui have a significant interest in Te Motu Kairangi which includes Mount Crawford and Watts Peninsula, these landholdings hold significant interest - culturally, socially, environmentally and commercially to Taranaki Whānui. These opportunities include the Mount Crawford Prison site as well as the 'Watts Peninsula' sites being 75.85 hectares of former Defence Land."</p> <p>Buy Back the Bays notes that the Submission does not include maps however they (Buy Back the Bays) are very concerned to see that Taranaki Whānui appears to be seeking possible commercial development of 75.85 hectares of former defence land on Watts Peninsula. This appears to be the heart of the long-promised Watts Peninsula park and a major part of the proposed national heritage park.</p> <p>Buy Back the Bays strongly oppose rezoning on Watts Peninsula to facilitate any development there that is incompatible with the park plans. More generally, Buy Back the Bays oppose Submission 389's attempt to remove the proposed public interest controls from Watts Peninsula and Mount Crawford. Considers that where Submission 389 states "Illustrated on Figure One below, the following zone and overlays are proposed for Taranaki Whānui's RFR properties in Te Motu Kairangi," Buy Back the Bays oppose the changes it seeks. This includes opposing Submission 389's request for "The proposed zoning over Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST [to be] amended from Natural Open Space Zone to: a. Medium Density Residential; and b. Special Purpose Zone – Māori Purpose Zone."</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Lance Lones	FS81.3	General/ Mapping/ Rezone/ Rezone	Oppose	<p>Te Motu Kairangi is very nearly an island, and as a result of the amazing work of Predator Free Wellington, is in fact, nearly predator free, and uniquely able to support significant biodiversity. Combined with the Ridgelines and Hilltops Overlay, and the Significant Natural Areas overlay of this space, all citizens of both Wellington, and Aotearoa in general have an incredibly singular opportunity to support the development of native flora and fauna in one nearly contiguous environment, a situation which is unique within Wellington. Attests to the incredible return of many native species of birds to this area, from kererū, to flocks of piwakawaka and tūi, kārearea hunting on the hillsides and heard ruru calling in the evenings and mornings.</p> <p>To remove the Open Space zoning, Significant Natural Areas and Special Amenity Landscape overlays for a significant portion of this habitat would put these species at risk once again.</p> <p>Presents a unique opportunity to implement the Ministry for the Environment's Proposed National Policy Statement for Indigenous Biodiversity. This policy progressively refers to the concept of Te Rito o te Harakeke.</p> <p>The local community has expressed the desire to work with and develop a master plan for the Watts Peninsula, but this voice has been repeatedly denied by council. Removing the protections put in place by the proposed district plan would once again disempower the greater community with no discussion.</p> <p>[Refer to further submission for full reason]</p>	Disallow / Seeks that the current zoning and overlays as presented in the Proposed District Plan for the northern sections of Te Motu Kairangi / Miramar Peninsula be retained. In particular, that the Open Space zoning, Special Amenity Landscape, Natural Areas, and Ridgelines and Hilltops overlays are retained.
Wellington's Character Charitable Trust	FS82.116	General / Mapping / Rezone / Rezone	Oppose	Considers the submission point is more enabling of intensification than the NPS-UD and MDRS and is not justified.	Disallow
Wellington Civic Trust	FS83.43	Part 3 / Designations / General point on Designations / General point on Designations	Oppose	Wellington Civic Trust supports the extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford, and the proposed zoning of the prison land. This is an important part of Wellington's current green space, which Wellington Civic Trust has had a long interest and involvement in, and the overlays and zoning are appropriate.	Disallow
Andy Foster	FS86.11	General / Mapping / Rezone / Rezone	Oppose	<p>The submission from Taranaki Whanui if accepted would remove all protections, many of them long standing and uncontested for decades, from Te Motu Kairangi / Watts Peninsula and make community involvement much less likely, and limit the need for community involvement. On these basis the submitter opposes Taranaki Whanui's submission.</p> <p>Watts Peninsula is currently zoned Open Space B in the Operative (current) District Plan. It has been Open Space B for at least the last 30 years, and nobody has ever contested this. That includes both the Corrections and Defence Land.</p> <p>The Proposed District Plan keeps Watts as Open Space and within the Ridgelines and Hilltops Overlay. It also adds Significant Natural Areas (for biodiversity) and a Special Amenity Landscape (because of its high level of landscape importance) All of these are based on good evidence. Taranaki Whanui want all of those restrictions removed, and the Corrections land at least rezoned for medium density housing. It is unclear exactly how large an area they want to have rezoned.</p> <p>Taranaki Whanui's request to remove the Open Space zoning which has been in place, uncontested by the owners, for at least 30 years. The current Open Space B zoning does not anticipate any built development and therefore there is no legal or reasonable expectation that there should be any development here.</p> <p>[See original Further Submission for full reasoning]. [Inferred reference to submission 389.17]</p>	Disallow

Historic Places Wellington Inc	FS111.97	General / Mapping / Rezone / Rezone	Oppose	Considers that there is significant heritage buildings (Mount Crawford Prison and WWI gun emplacements are located on Watts peninsular and require heritage recognition and protection, currently provided by the open space and town belt designations.	Disallow
Taranaki Whānui ki te Upoko o te Ika	389.18	Mapping / Rezone / Rezone	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the proposed zoning over Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST is amended from Natural Open Space Zone to Special Purpose Zone – Māori Purpose Zone that would include objectives, policies, rules and standards to recognise the cultural and environmental overlays over the site whilst enabling Taranaki Whānui to exercise their customary responsibilities as kaitiaki, and to undertake development that supports their cultural, social and economic wellbeing.
Geoff Todd	FS21.4	General / Mapping / Rezone / Rezone	Oppose	Opposes any amendment to the natural open space zone on Watts Peninsula and in the vicinity of the prison: a) This request goes against what I understood was agreed by government and Iwi as part of the Waitangi settlement process in which Iwi acquired Shelley Bay for redevelopment and the parties agreed that "Watts Peninsula should be protected, preserved and developed as a distinctive national destination that brings together the natural environment, national heritage, recreation, culture and the arts" b) As described above the area has important historical features to be preserved, recreational benefits, visual and natural features and is important as a site for regenerating the biological diversity once present on the peninsula. Any further habitation will negatively impact the area.	Disallow
Enterprise Miramar Peninsula Inc	FS26.6	General / Mapping / Rezone / Rezone	Oppose	It is clear Taranaki Whānui want all restrictions removed, and the Corrections land at least rezoned for medium density housing. It is unclear based on the submission exactly how large an area they want to have rezoned. Watts Peninsula is currently zoned Open Space B in the Operative (current) District Plan, both the Corrections and Defence Land have not in the past contested this zoning and the Proposed District Plan keeps Watts Peninsula as open Space, the Ridgelines and Hilltops add to significant Natural Areas (for biodiversity) it has a Special Amenity Landscape which is used by the community and tourists to the enjoyment of being close to a city but with a natural environment. Taranaki Whānui are seeking to amend the zoning in this area to Medium Density Residential or to a Special Purpose Zone – Māori Purpose Zone, without any public engagement. Such changes would have a significant impact on the local community and should not be undertaken without wider consultation and engagement in order to ensure that proposed changes do not have a detrimental effect. As noted above, it is of concern to the businesses, community (ratepayers) of Te Motu Kairangi/Miramar Peninsula and the wider public that the rezoning applied for by Taranaki Whānui (currently open space) to develop a papakainga creates infrastructure issues on an already overloaded roading, flooding and transport links to and from the Peninsula. [Inferred reference to submission 389.18].	Disallow
Wellington International Airport Limited	FS36.250	General / Mapping / Rezone / Rezone	Oppose	WIAL opposes this submission to the extent that the land already penetrates WIAL's obstacle limitation surface (WIAL1 designation). Further investigations should be undertaken to confirm that the area is either afforded sufficient terrain shielding, or a 8m height restriction should be imposed on all buildings, objects and structures to ensure activities do not pose a potential risk to aircraft.	Disallow / Seeks that part of submission be disallowed.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Buy Back the Bay	FS79.18	General / Mapping / Rezone / Rezone	Oppose	<p>Submission 389 states: "Taranaki Whānui's RFR [Right of First Refusal] opportunities in Te Motu Kairangi: Taranaki Whānui have a significant interest in Te Motu Kairangi which includes Mount Crawford and Watts Peninsula, these landholdings hold significant interest - culturally, socially, environmentally and commercially to Taranaki Whānui. These opportunities include the Mount Crawford Prison site as well as the 'Watts Peninsula' sites being 75.85 hectares of former Defence Land."</p> <p>Buy Back the Bays notes that the Submission does not include maps however they (Buy Back the Bays) are very concerned to see that Taranaki Whānui appears to be seeking possible commercial development of 75.85 hectares of former defence land on Watts Peninsula. This appears to be the heart of the long-promised Watts Peninsula park and a major part of the proposed national heritage park.</p> <p>Buy Back the Bays strongly oppose rezoning on Watts Peninsula to facilitate any development there that is incompatible with the park plans. More generally, Buy Back the Bays oppose Submission 389's attempt to remove the proposed public interest controls from Watts Peninsula and Mount Crawford. Considers that where Submission 389 states "Illustrated on Figure One below, the following zone and overlays are proposed for Taranaki Whānui's RFR properties in Te Motu Kairangi," Buy Back the Bays oppose the changes it seeks. This includes opposing Submission 389's request for "The proposed zoning over Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST [to be] amended from Natural Open Space Zone to: a. Medium Density Residential; and b. Special Purpose Zone – Māori Purpose Zone."</p>	Disallow
Lance Lones	FS81.4	General / Mapping / Rezone / Rezone	Oppose	<p>Te Motu Kairangi is very nearly an island, and as a result of the amazing work of Predator Free Wellington, is in fact, nearly predator free, and uniquely able to support significant biodiversity. Combined with the Ridgelines and Hilltops Overlay, and the Significant Natural Areas overlay of this space, all citizens of both Wellington, and Aotearoa in general have an incredibly singular opportunity to support the development of native flora and fauna in one nearly contiguous environment, a situation which is unique within Wellington. Attests to the incredible return of many native species of birds to this area, from kererū, to flocks of piwakawaka and tūi, kārearea hunting on the hillsides and heard ruru calling in the evenings and mornings.</p> <p>To remove the Open Space zoning, Significant Natural Areas and Special Amenity Landscape overlays for a significant portion of this habitat would put these species at risk once again.</p> <p>Presents a unique opportunity to implement the Ministry for the Environment's Proposed National Policy Statement for Indigenous Biodiversity. Taranaki Whānui ki te Upoko o te Ika	389.21	Mapping / Rezone / Rezone	Amend	Considers that the proposed Mixed-Use Zone only extends across the areas of existing built development. The Shelly Bay Taikuru site is proposed to be rezoned 'Mixed-Use Zone' with a maximum building height of 12m.	Seeks that Mixed-Use Zone is amended to follow the extent of consented development area outlined in the approved masterplan and engineering drawings. [Refer to original submission for map]
Laurence Harger & Ingrid Kölle	FS2.18	General / Mapping / Rezone / Rezone	Oppose	76 hectares of Watts Peninsula has been set aside by the government as a reserve focused on protecting iwi and military history sites and retaining the value of the natural landscape of the area. Supports the establishment of such a reserve and would like to see it become part of the National Heritage Park proposed by the Buy Back the Bay group. The zoning and overlays of the Proposed District Plan must be kept if the reserve/heritage park is to be a viable option. Taranaki Whānui's requests would remove many protections that have been longstanding and unopposed for decades, which must surely not occur without extensive community engagement. Watts Peninsula, with its ridges and hill lines visible from all over Wellington, should remain undeveloped, which might very well not be the case if the land is rezoned.	Disallow / Seeks that the part of the submission to remove the proposed zoning and overlays on Watts Peninsula be disallowed.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Mary Varnham and Paul O'Regan	FS40.18	Mapping / Rezone / Rezone	Oppose	<p>From 2011 the 76 hectares of Watts Peninsula has been set aside by the government as a reserve, to incorporate and protect iwi (as well as military) sites and history. Submitter supports this as an appropriate and visionary plan for the peninsula.</p> <p>Submitter supports the proposal of Buy Back the Bay group that the area should become a National Heritage Park.</p> <p>Submitter supports a conservancy model for development and management of this park, to include iwi, government, council, the local community, and organisations such as Forest and Bird and Predator Free Miramar.</p> <p>Disallow all proposals by Taranaki Whānui to remove the proposed zoning and overlays. These provisions are vital to protect the natural values, history and landscape of Watts Peninsula, a prominent feature of Te Whanganui-a-Tara.</p> <p>Supports retaining all provisions in the proposed district plan for Open Space B, Ridgelines and Hilltops, Significant Natural Areas and Special Amenity Landscape. We note the magnificent work done by Predator Free Miramar. Protecting and enhancing the huge gains in bringing back birdlife made should be a primary consideration. We also believe the peninsula should see extensive planting and regeneration of native forest.</p>	Disallow
Buy Back the Bay	FS79.40	General / Mapping / Rezone / Rezone	Oppose	<p>Refers to submission 389 states: Taranaki Whānui opposes the extent of the proposed zoning of Shelly Bay Taikuru and the proposed height control limits." Buy Back the Bays opposes the submission on both points.</p> <p>Specifically, the Submission 389 for Taranaki Whānui seeks that:</p> <p>"1. The Mixed Use Zone is extended across the allotments illustrated in Figure Two below or amended to follow the extent of consented development area outlined in the approved masterplan and engineering drawings.</p> <p>2. The Height Control Area is amended to 27m being the maximum height of development consented under the Shelly Bay Masterplan resource consent."</p> <p>Buy Back the Bays opposes both parts. Buy Back the Bays note that neither part affects Taranaki Whānui's commercial or other interests. Considers that both parts only affect the tall apartment buildings planned by and for the exclusive commercial benefit of The Wellington Company, not the leasing of lower existing buildings that The Wellington Company has offered to Taranaki Whānui as its stake in the project.</p>	Disallow
Kāinga Ora Homes and Communities	391.26	Mapping / Rezone / Rezone	Amend	<p>Considers that notified Local Centres in Miramar, Tawa and Newtown should be classified as Town Centre zones for their role and function within Wellington City.</p>	Rezone the Miramar, Tawa and Newtown Local Centre Zones from Local Centre Zones to Town Centre Zones.
Greater Wellington Regional Council	FS84.24	General / Mapping / Rezone / Rezone	Oppose	<p>Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.</p>	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora Homes and Communities	391.27	Mapping / Rezone / Rezone	Support	Considers that a Town Centre zone should be added to the Hierarchy of Centres and to include Miramar, Tawa, and Newtown. Considers that all of these centres provide a range of commercial, community, recreational and residential activities that service the needs of the immediate and neighbouring suburbs. The introduction of a Town Centre is sought to more appropriately reflect the wider catchment that these geographic centre services (both now and into the future). A proposed chapter with a full set of provisions has been provided with the submission [see submission for further details].	Seeks the addition of a new Town Centre Zone chapter in the proposed District Plan, with: 1. Town Centre Zone provisions in Appendix 2 of the submission [see original submission for full details]. 2. The Miramar commercial centre is zoned as a Town Centre Zone as sought in this submission and on the planning maps in Appendix 4 [see original submission for full details]. 3. The Tawa commercial centre is zoned as a Town Centre Zone as sought in this submission and on the planning maps in Appendix 4 [see original submission for full details] . 4. The Newtown commercial centre is zoned as a Town Centre Zone as sought in this submission and on the planning maps in Appendix 4 [see original submission for full details]. 5. Any consequential updates to the Plan to account for the introduction of a Town Centre Zone. 6. Amendments to planning maps are made as shown in Appendix 4 of this submission [see original submission for full details]. 7. Any consequential updates to maps.
Greater Wellington Regional Council	FS84.25	General / Mapping / Rezone / Rezone	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Kāinga Ora Homes and Communities	391.28	Mapping / Rezone / Rezone	Amend	Considers that a Town Centre zone should be added to the Hierarchy of Centres and to include Miramar, Tawa, and Newtown. Considers that all of these centres provide a range of commercial, community, recreational and residential activities that service the needs of the immediate and neighbouring suburbs. The introduction of a Town Centre is sought to more appropriately reflect the wider catchment that these geographic centre services (both now and into the future). A proposed chapter with a full set of provisions has been provided with the submission [see submission for further details].	Seeks the addition of a new Town Centre Zone chapter in the proposed District Plan, with: 1. Town Centre Zone provisions in Appendix 2 of the submission [see original submission for full details]. 2. The Miramar commercial centre is zoned as a Town Centre Zone as sought in this submission and on the planning maps in Appendix 4 [see original submission for full details]. 3. The Tawa commercial centre is zoned as a Town Centre Zone as sought in this submission and on the planning maps in Appendix 4 [see original submission for full details] . 4. The Newtown commercial centre is zoned as a Town Centre Zone as sought in this submission and on the planning maps in Appendix 4 [see original submission for full details]. 5. Any consequential updates to the Plan to account for the introduction of a Town Centre Zone. 6. Amendments to planning maps are made as shown in Appendix 4 of this submission [see original submission for full details]. 7. Any consequential updates to maps.
Kāinga Ora Homes and Communities	391.29	Mapping / Rezone / Rezone	Amend	Seeks that the Kilbirnie Bus Barns are re-zoned from Medium Density Residential Zone to the High Density Residential Zone.	Seeks that the Kilbirnie Bus Barns are re-zoned from Medium Density Residential Zone to the High Density Residential Zone.
Bus Barn Ltd	FS95.5	General / Mapping / Rezone / Rezone	Support	Kāinga Ora seeks to rezone the development from MDRZ to HDRZ. Bus Barn Limited supports this proposal as it will align with the increase in height control and allow for a more permissive development.	Allow / Rezone Bus Barn from MRZ to HRZ
Lucy Harper and Roger Pemberton	401.2	Mapping / Rezone / Rezone	Amend	Considers that the Earls Terrace and Port Street/Stafford Street area has qualities, including visibility which should qualify it as a character area. The submitter considers that Earls Terrace and Port Street/Stafford Street area has a particularly charming ambience and modification to the houses has generally been in keeping with the Mt Victoria architecture.	Amend zoning from High Density Residential Zone to Medium Density Residential Zone for Earls Terrace, Port Street and Stafford Street.
Investore Property Limited	405.14	Mapping / Rezone / Rezone	Amend	Considers that the current zoning disregards the NPS-UD direction. The Johnsonville Line should be classified as rapid transit and as such it should apply full NPS-UD zoning (six-storey). [Refer to original submission for full reason].	Rezone the Johnsonville line from MRZ to HRZ and provide building heights of at least six storeys within a 10-minute walkable catchment of the stations on the Johnsonville Rail Line. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	FS82.6	General / Mapping / Rezone / Rezone	Oppose	Considers improvements to the Johnsonville line may only be taken into account if they are "planned" in a Regional Land Transport Plan (RLTP). Considers there are no such improvements for the Johnsonville line planned in the RLTP. Considers the definition of "planned" in the NPS-UD resolves any circularity in the Johnsonville line not being a rapid transit service. Considers improvements to a transit service must be planned in the RLTP before they are relevant to any upzoning under the NPS-UD. [Refer to original submission - 233]	Disallow
Wellington City Council Environmental Reference Group	FS112.18	General / Mapping / Mapping General / Mapping General	Support	Agree that the current zoning disregards the NPS-UD direction. The Johnsonville Line should be classified as rapid transit and as such it should apply full NPS-UD zoning.	Allow
Investore Property Limited	405.15	Mapping / Rezone / Rezone	Oppose	Considers that the exclusion of the Johnsonville rail line from "rapid transit" and high density residential zoning within catchments of a train station is inappropriate and inconsistent with the NPS-UD, Wellington Regional Land Transport Plan and Change 1 to the Wellington Regional Policy Statement.	Seeks that 10-minute walkable catchments of a the Johnsonville train line are rezoned to High Density Residential.
Wellington's Character Charitable Trust	FS82.7	General / Mapping / Rezone / Rezone	Oppose	Considers improvements to the Johnsonville line may only be taken into account if they are "planned" in a Regional Land Transport Plan (RLTP). Considers there are no such improvements for the Johnsonville line planned in the RLTP. Considers the definition of "planned" in the NPS-UD resolves any circularity in the Johnsonville line not being a rapid transit service. Considers improvements to a transit service must be planned in the RLTP before they are relevant to any upzoning under the NPS-UD. [Refer to original submission - 233]	Disallow
Wellington International Airport Ltd	406.21	Mapping / Rezone / Rezone	Amend	Submitter acknowledges that the margins of its site at Lyall Bay and Evans Bay are within the coastal environment, as defined by the NZCPS and the Greater Wellington Regional Policy Statement. However both margins are heavily modified for airport activities and roading infrastructure. Submitter expresses concern that the complex relationship between the Coastal Environment, Infrastructure and Airport Zone provisions creates an inefficient consenting pathway for airport and airport related activities.	Seeks to delete the Airport Zone within the Coastal Environment overlay (Option A).
Guardians of the Bays Inc	FS44.180	Mapping / Mapping General / Mapping General	Oppose	Considers that Wellington International Airport is in the coastal environment. Considers that it is something they need to consider with all their decisions. Considers that removing the airport out of this overlay would be a nonsense when both ends of the airport north Evans Bay and south with Lyall Bay surrounded by sea.	Disallow / Retain the airport zone in the coastal environment overlay.
Wellington International Airport Ltd	406.22	Mapping / Rezone / Rezone	Amend	The area of Natural Open Space zoned land located between Lyall Bay and Moa Point should be rezoned to an alternative land use zone which more accurately reflects the existing environment, including the significant hard engineering structures which currently protect Moa Point Road, the wastewater treatment network and Wellington International Airport from the effects of coastal erosion; or, A bespoke planning framework be inserted into the Natural Open Space Zone chapter that recognises the role and function of seawall between Lyall Bay and Moa Point and provide for its ongoing maintenance, repair and upgrade. [See paragraphs 4.40 to 4.45 of original submission for full reason]	Remove the area of the seawall and associated structures above mean high water springs between Lyall Bay and Moa Point from the Natural Open Space zone and rezone to an alternative more appropriate zone (such as Airport Zone) or sub zone. (Option A).
Guardians of the Bays Inc	FS44.185	Mapping / Rezone / Rezone	Oppose	Considers the majority of the seawall is below MHWS. It is important to understand that this area is a natural open space with impacts of the coastal process on the wall. The sea wall above MHWS needs to recognise RMA s6 matters of natural importance and promotion of the integrated management and consistency with the regional plan.	Disallow / Seeks that the submission points be disallowed relating to the removal of the land between Lyall Bay and Moa Point from the Natural Open Space Zone to the Airport Zone. Remove any 'bespoke planning framework' from the Natural Open Space land between Lyall Bay and Moa Point. Retain the Lyall Bay Sea Wall in the Natural Open Space Zone.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.23	Mapping / Rezone / Rezone	Amend	<p>Opposes NOSZ (Natural Open Space Zone) zoning in the area on the Sea Wall between Lyall Bay and Moa Point and seeks that it is rezoned.</p> <p>The area of Natural Open Space zoned land located between Lyall Bay and Moa Point should be rezoned to an alternative land use zone which more accurately reflects the existing environment, including the significant hard engineering structures which currently protect Moa Point Road, the wastewater treatment network and Wellington International Airport from the effects of coastal erosion; or,</p> <p>A bespoke planning framework be inserted into the Natural Open Space Zone chapter that recognises the role and function of seawall between Lyall Bay and Moa Point and provide for its ongoing maintenance, repair and upgrade.</p> <p>[See paragraphs 4.40 to 4.45 of original submission for full reason]</p>	Rezone the area on the Sea Wall between Lyall Bay and Moa Point from Natural Open Space Zone to Airport Zone.
Guardians of the Bays Inc	FS44.186	Mapping / Rezone / Rezone	Oppose	<p>Considers the majority of the seawall is below MHWS. It is important to understand that this area is a natural open space with impacts of the coastal process on the wall. The sea wall above MHWS needs to recognise RMA s6 matters of natural importance and promotion of the integrated management and consistency with the regional plan.</p>	<p>Disallow / Seeks that the submission points be disallowed relating to the removal of the land between Lyall Bay and Moa Point from the Natural Open Space Zone to the Airport Zone.</p> <p>Remove any 'bespoke planning framework' from the Natural Open Space land between Lyall Bay and Moa Point.</p> <p>Retain the Lyall Bay Sea Wall in the Natural Open Space Zone.</p>
Willis Bond and Company Limited	416.9	Mapping / Rezone / Rezone	Amend	<p>The National Policy Statement on Urban Development 2020 (NPS-UD) requires district plans to enable building heights of at least 6 storeys within at least a walkable catchment of the edge of metropolitan centre zones (Policy 3(c)).</p>	Seeks that the areas surrounding the Kilbirnie Metropolitan Centre Zone be rezoned as High Density Residential Zone (in a similar way to the inclusion of areas surrounding the Johnsonville Metropolitan Centre Zone and within Newtown).
Johnsonville Community Association	429.15	Mapping / Rezone / Rezone	Amend	<p>Considers that re-zoning rural land for urban purposes is needed to provide more space for affordable housing.</p> <p>Takapu Valley and Ohariu Valley has been land-banked by developers. These areas can potentially account for 25% of future population growth.</p>	Seeks that Takapu Valley is rezoned to residential zones.
Johnsonville Community Association	429.16	Mapping / Rezone / Rezone	Amend	<p>Considers that re-zoning rural land for urban purposes is needed to provide more space for affordable housing.</p> <p>Takapu Valley and Ohariu Valley has been land-banked by developers. These areas can potentially account for 25% of future population growth.</p>	Seeks that Ohariu Valley is rezoned to residential zones.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Miriam Moore	433.3	Mapping / Rezone / Rezone	Amend	<p>Considers that the Proposed District Plan provides a good opportunity to rezone the general industrial pocket along Main Road (south of Tawa Street) in Tawa to Mixed Use Zone.</p> <p>Considers that this is a water sensitive area, adjacent to Redwood Train Station and multiple schools. General industrial activity often requires car access and can be sensitive to surrounding residential activities - ample GIZ area is now provided in Grenada North, which has more appropriate setting for this type of activity. The existing activity isn't overly sensitive, and would largely be permitted in a Mixed Use Zone, so there is an opportunity to rethink this area as a Mixed Use Zone that would be better fitting with the surrounding context. Zoning this area Mixed Use Zone would provide higher amenity, more compact and efficient land-use, and a better arrival experience into Tawa along the Main Road.</p> <p>Considers that the more mixed-use activity that can be enabled in our key areas (by MRT and schools), the more neighbourhoods will thrive people will be able to live in sustainable ways that are better for our climate and our social well-being. Ensuring our main streets are attractive, walkable and safe are a part of this.</p>	Seeks that the land along Main Road, Tawa is rezoned from General Industrial Zone to Mixed Use Zone.
Miriam Moore	433.4	Mapping / Rezone / Rezone	Amend	Considers that the mapping should be amended to reflect a 15 minute walkable catchment around train stations.	Amend the high density zoning and around all train stations to cover at least the area within a 15 minute walkable catchment.
Wellington's Character Charitable Trust	FS82.19	General / Mapping / Rezone / Rezone	Oppose	Considers submissions are inconsistent with NPS-UD requirements; and no justification for enabling more intensive development in the MDRZ or around rail stations.	Disallow
LIVE WELLington	FS96.56	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Luke Stewart, Matthew Reweti, Miriam Moore, Patrick Wilkes, Svend Hansen — seeks that MDRZ height limits are increased in the 15 minute walking catchments around all rail stations. Opposed where this is inconsistent with NPS-UD requirements	Disallow
Miriam Moore	433.5	Mapping / Rezone / Rezone	Amend	Considers that the mapping should be amended to reflect the 15 minute walkable catchments around the City Centre Zone.	Amend the high density zoning and around the city centre to cover at least the area within a 15 minute walkable catchment.
Miriam Moore	433.6	Mapping / Rezone / Rezone	Amend	Considers that the mapping should be amended to reflect the 15 minute walkable catchments around the Metropolitan Centre Zones.	Amend the high density zoning and around the city centre to cover at least the area within a 15 minute walkable catchment around the Metropolitan Centre Zones.
Kirsty Woods	437.3	Mapping / Rezone / Rezone	Amend	Opposes the High Density Residential zoning for suburban Newtown. High density zoning in this area fails to address effects adequately, including loss of sunlight, adverse effects associated with demolition and rebuiting and loss of green spaces. Considers that there is an excess of housing provided through the proposed district plan above what is required. By creating much larger areas to enable 6 storey buildings than is likely to be required, the council is promoting unnecessary adverse effects on existing housing. Considers that the alternative extent provided in the The Urban Activation Lab of Red Design Architects submission is more appropriate.	Seeks that High Density Zoning in Newtown is limited / concentrated to the extent indicated in the Red Design Architects and Newtown Residents Association submissions. Seeks that all other areas are rezoned as Medium Density Residential.
Historic Places Wellington Inc	FS111.61	General / Mapping / Rezone / Rezone	Support	HPW supports the implementation of a sensible plan for revitalisation in Newtown heritage shopping area including provision of additional housing at scale, while also protecting the heritage shop frontages. Considers that this plan retains heritage features (important for stepping back taller buildings from the narrow street to retain street level public amenity) but allows for desirable intensification.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kirsty Woods	437.4	Mapping / Rezone / Rezone	Amend	Considers that if character precincts are not extended, high density zoned land in Newtown should be rezoned as Medium Density with an 11m height limit.	Rezone High Density Zone land in Newtown as Medium Density Zone.
Ross Judge	438.2	Mapping / Rezone / Rezone	Amend	Supports the rezoning of 39 Chapman Street from Open Space Zone to High Density Residential Zone. The 282m2 area is in the process of being purchased from the WCC and has already been surveyed prior to the sale. The site is intended for housing development in conjunction with the subdivision at the back of 15 Chesterton Street. The site would be within the same walking distance to the Johnsonville railway station and other public transport as other Chesterton Street and Chapman St properties that will be classified as HRZ. [Refer to original submission for full reason]	Rezone 39 Chapman Street from Open Space Zone to High Density Residential Zone.
Newtown Residents' Association	440.6	Mapping / Rezone / Rezone	Amend	Considers that Newtown's residential streets outside the suburban centre should be classified as MRZ. In particular the zoning of several blocks around the Newtown suburban centre for heights of up to 21m seems unnecessary and counter productive to maintaining a well functioning urban environment. Allowing 6-storey development blocks in low-rise residential areas would have damaging effects on the value of neighbouring houses. Furthermore, combining terraced homes, typically of 3 storeys, with 6 storey apartment blocks doesn't give good results unless the sites are carefully planned. [Refer to original submission for full reason]	Rezone Newtown's residential streets from High Density Residential Zone to Medium Density Residential zone.
Wellington's Character Charitable Trust	FS82.207	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Newtown Residents' Association	440.7	Mapping / Rezone / Rezone	Amend	Considers that the the Neighbourhood Centre in Berhampore should be classified as Medium Density Residential Zone.	Rezone the Neighbourhood City Centre Zone in Berhampore to Medium Density Residential Zone.
Wellington's Character Charitable Trust	FS82.208	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Kathryn Lethbridge	442.2	Mapping / Rezone / Rezone	Amend	Opposes the High Density Residential Zoning of the Hobson Precinct (between Murphy Street and Hobson Street/Davis Street and the motorway) and considers that this should be rezoned as MRZ. Considers that MRZ for the Hobson Precinct meets the Government requirements for development and is more appropriate given the existing nature of the area and potential for inappropriate development.	Rezone the Hobson Precinct (between Murphy Street and Hobson Street/Davis Street and the motorway) from High Density Residential Zone to Medium Density Residential Zone.
Thorndon Residents' Association Inc	FS69.70	General / Mapping / Rezone / Rezone	Support	WCC summary reads: The zone is a jewel in the Wellington character / heritage crown and appropriate houses in the area should be protected to prevent unnecessary loss to this key cultural asset for the city. Considers that MRZ for the Hobson Precinct meets the Government requirements for development and is more appropriate given the existing nature of the area and potential for inappropriate development.	Allow
Historic Places Wellington Inc	FS111.186	General / Mapping / Rezone / Rezone	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective. [Interred reference to submission 158.1]	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kay Larsen	447.3	Mapping / Rezone / Rezone	Amend	<p>Considers that the make up of the area is already dense enough to be considered High-Density.</p> <p>Considers that the terrace is too small to accommodate further traffic from high density development.</p> <p>Considers that the infrastructure on TheTerrace South is insufficient for further development.</p> <p>Considers that the hillside is steep and innappropriate for 6 storey development.</p> <p>Considers that there are many pathways, shortcuts, large old trees, housing and Boyd Wilson Sports Field scattered in the area.</p>	Opposes High Density Residential Zoning in Southern Terrace (Area between Abel Smith Street, Ghuznee Street, Terrace and including St John Street and Abel Smith Street extension).
Wellington's Character Charitable Trust	FS82.268	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow

Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Kay Larsen	447.4	Mapping / Rezone / Rezone	Amend	Considers that the proximity of the south end of the Terrace the Aro Valley and Park means that the Aro Valley Character Precinct could be extended to capture South Terrace.	<p>Seeks that the area between Abel Smith Street, Ghuznee Street, Terrace and including St John Street and Abel Smith Street extension is attached to the Aro Valley Character Precinct.</p> <p>[Inferred Decision Requested]</p>
Historic Places Wellington Inc	FS111.161	General / Mapping / Rezone / Rezone	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Kay Larsen	447.5	Mapping / Rezone / Rezone	Amend	<p>Considers that infrastructure is now inadequate and it would all have to be replaced with greater capacity before more houses were built.</p> <p>[Refer to original submission for full reason]</p>	<p>Seeks that the area between Abel Smith Street, Ghuznee Street, Terrace and including St John Street and Abel Smith Street extension is attached to the Aro Valley Character Precinct.</p> <p>[Inferred Decision Requested]</p>
Historic Places Wellington Inc	FS111.162	General / Mapping / Rezone / Rezone	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Kay Larsen	447.6	Mapping / Rezone / Rezone	Amend	<p>Considers that the Terrace near the corner of Vivian Street is not really designed for a major increase of people living in the neighbourhood.</p> <p>[Refer to original submission for full reason]</p>	<p>Seeks that the area between Abel Smith Street, Ghuznee Street, Terrace and including St John Street and Abel Smith Street extension is attached to the Aro Valley Character Precinct.</p> <p>[Inferred Decision Requested]</p>
Historic Places Wellington Inc	FS111.163	General / Mapping / Rezone / Rezone	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
John Wilson	453.3	Mapping / Rezone / Rezone	Oppose	Opposes zoning of "Johnsonville Metropolitan Centre Zone". [Refer to original submission for full reason]	Not specified.
John Wilson	453.4	Mapping / Rezone / Rezone	Oppose	Opposes zoning of "Keneperu and Tawa railway stations Zone". [Refer to original submission for full reason]	Not specified.
(Vivien) Jane Kirkcaldie and Denis Maxwell Kirkcaldie	455.3	Mapping / Rezone / Rezone	Amend	<p>Considers that Lower Kelburn Neighbourhood be recognised as a special character area.</p> <p>[Refer to original submission for full reason]</p>	<p>Seeks to rezone Lower Kelburn Neighbourhood as a special character area.</p> <p>[Inferred decision requested].</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Historic Places Wellington Inc	FS111.174	General / Mapping / Rezone / Rezone	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Lower Kelburn Neighbourhood Group	FS123.22	General / Mapping / Rezone / Rezone	Support	Considers that Wesley Precinct and Lower Kelburn, the area between Bolton St to San Sebastian Rd or the cable car, and between the Botanic Gardens and the Motorway should be classified as a Character Precinct with demolition controls and height limit of 11m for the many reasons outlined the submission and others referred to in further submission, including that of Lower Kelburn Neighbourhood, submission 356.	Allow
Greater Brooklyn Residents Association Inc's	459.6	Mapping / Rezone / Rezone	Amend	Considers that any medium density housing for Brooklyn not be implemented until a proper character/heritage assessment has been completed. Considers that without character assessment, large 22m buildings will create small, disconnected blocks easily compromised or destroyed by high density development adjacent. [Refer to original submission for full reason]	Retain the Operative District Plan Zoning for the Brooklyn suburb.
Wellington's Character Charitable Trust	FS82.294	General / Mapping / Rezone / Rezone	Support	Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.	Allow
Greater Brooklyn Residents Association Inc's	459.7	Mapping / Rezone / Rezone	Amend	[No specific reason given beyond decision requested - refer to original submission]	Seeks that the Proposed District Plan will maintain the existing or 50% protected heritage/character areas within the central city and those suburbs like Thorndon, Mount Victoria, Mount Cook and Aro Valley and Brooklyn.
Anita Gude and Simon Terry	461.13	Mapping / Rezone / Rezone	Amend	Notes that there are a cluster of a dozen properties on McFarlane Street that are not included in the Mount Victoria Character Precinct that should be included [see original submission for maps and images identifying these properties]. Notes that any redevelopment of these sites may make the area less conforming to the general pattern of development and that the hillside location makes these properties visible from the City. Notes that the whole hillside face where these properties are located needs to be treated as one cohesive block under one set of consistent rules, and valued as a whole.	Include a cluster of up to a dozen properties on McFarlane Street in the Mount Victoria Character Precinct. [see original submission for maps and images identifying these properties].
Historic Places Wellington Inc	FS111.133	General / Mapping / Rezone / Rezone	Support	Considers that the notified mapping extent of the Character precincts is too small to adequately protect sites within heritage suburbs from inappropriate subdivision or development under s.6 of the RMA. Considers that the character (or "heritage") precincts must be enlarged, or otherwise protected, to achieve that objective.	Allow
Rachel Leilani	464.1	Mapping / Rezone / Rezone	Amend	Considers that the smaller 10 minute walkable catchment from the city centre from the draft District Plan would have no benefits and shift development to less well-suited areas.	Amend the high density zoning and around the city centre to cover at least the area within a 15 minute walkable catchment (rather than the current 10 minute catchment)
Wellington's Character Charitable Trust	FS82.44	General / Mapping / Rezone / Rezone	Oppose	Considers 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
LIVE WELLington	FS96.78	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	We oppose the submission of Cameron Vannisselroy, Conor Hill, Generation Zero, Jonathan Markwick, Kainga Ora, Paihikara Ki Pōneke Cycle Wellington, Property Council New Zealand, Te Tūāpapa Kura Kāinga Ministry of Housing and Urban Development, VicLabour, Waka Kotahi, WCC Environmental Reference Group. 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Escape Investments Limited	FS136.79	General / Mapping / Rezone / Rezone	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning more people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow
Rod Bray	FS137.28	General / Mapping / Rezone / Rezone	Support	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. A larger catchment would provide attractive and affordable housing closer to the city centre, away from outer suburbs where people are likely to use cars as their main means of transportation. A 15-minute walkable catchment would promote growth in areas close to the city centre and encourage a shift to more environmentally friendly modes of transportation.</p> <p>WCC should use a 15 minute walkable catchment to fall in line with the NPS-UD to increase housing supply. It is not unreasonable to expect that a large portion of residents who live a 15 minute walk away from the city centre would choose to walk as their main mode of commute. WCC should take full advantage of the NPS-UD standards by increasing the walkable catchment to 15 minutes, which will provide many benefits to Wellington city.</p> <p>[Refer to further submission for full reason]</p>	Allow
Stride Investment Management Limited	470.3	Mapping / Rezone / Rezone	Amend	<p>Considers all stations on the Johnsonville Rail Line should be included as rapid transit stops and that building heights of at least six storeys within a 10-minute walking catchment is provided.</p>	Seeks that building heights of at least six storeys within a 10-minute walkable catchment of the stations on the Johnsonville rail line.
Onslow Residents Community Association	FS80.49	General / Mapping / Rezone / Rezone	Oppose	<p>Opposes the Stride submission that the Johnsonville Rail Line is designated as a rapid transit stop and considers that Stride provides no justification for this and may be gaining competitive advantage through their submission and considers they have used none of their recent resource consents to create the better centre the community needs [Inferred reference to submission point 470.5]</p>	Disallow
Wellington's Character Charitable Trust	FS82.10	General / Mapping / Rezone / Rezone	Oppose	<p>Considers improvements to the Johnsonville line may only be taken into account if they are "planned" in a Regional Land Transport Plan (RLTP). Considers there are no such improvements for the Johnsonville line planned in the RLTP. Considers the definition of "planned" in the NPS-UD resolves any circularity in the Johnsonville line not being a rapid transit service. Considers improvements to a transit service must be planned in the RLTP before they are relevant to any upzoning under the NPS-UD. [Refer to original submission - 233]</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Catherine Penetito	474.1	Mapping / Rezone / Rezone	Amend	<p>Opposes the HRZ of Arlington Street.</p> <p>Considers that the District Plan encourages a variety of housing types, sizes and tenure which will be lost in Arlington Street without a zone change.</p> <p>CC-03 (Urban form and scale) states that development should be consistent with the strategic goal (5) of a natural environment protected, enhanced and integrated into the urban environment. Without a zone change, the very small reserve at the corner of Arlington and Torrens Terrace, enjoyed by locals for its sunshine, could be overshadowed by high-rise development.</p>	<p>Rezone the part of Arlington Street currently occupied by privately owned housing from High Density Residential to General Residential Zone.</p> <p>[Inferred decision requested].</p>
Wellington's Character Charitable Trust	FS82.211	General / Mapping / Rezone / Rezone	Support	<p>Considers the Boffa Miskell report, Council officers' assessment, and other evidence, justifies extending the character protections and rezoning for all areas identified by submitters in the rest the further submitter's table [see further submission for full information]. Considers that these proposals protect historic heritage from inappropriate development as required by section 6(f) of the RMA.</p>	Allow
Foodstuffs North Island	476.80	Mapping / Rezone / Rezone	Amend	<p>Opposes the Residential Zoning of 3 Dekka Street.</p> <p>Considers that 3 Dekka Street and 31-33 Nicholson Road should be rezoned as LCZ as these three properties are all owned by FSNI and a resource consent application is currently being considered by Council (Ref. SR 517439) to extend the supermarket activity.</p>	Rezone 3 Dekka Street from Medium Density Residential Zone to Local Centre Zone
Judith Ridley-Smith	FS47.1	General / Mapping / Rezone / Rezone	Oppose	<p>Foodstuff's North Island, who have a wish to redevelop 3 Dekka St to an at grade level carpark (do not broadly object to - subject to some mitigation effects). Foodstuffs North Island should proceed with a planning application to get this at grade carpark consented within the existing planning framework. Khandallah Village is a "village" and the zoning change sought by Foodstuffs North Island would allow development inconsistent with that village atmosphere. 6 levels on the site would be detrimental to the further submitter, as a neighbour.</p> <p>[Inferred reference to submission 476.80]</p>	Disallow / No zoning change should be made in respect of 3 Dekka St.
Onslow Residents Community Association	FS80.5	General / Mapping / Rezone / Rezone	Oppose	<p>Opposes Local Centre Zoning of 3 Dekka Street.</p>	Disallow
Rebecca Morder	FS90.1	General / Mapping / Rezone / Rezone	Oppose	<p>Oppose 476.81 seeking to rezone 3 Dekka St to the Local Centre Zone. Considers that it is more appropriate that they seek resource consent for their plans than to rezone the site. Also, Khandallah Village is a small village and it is not suitable to be classified as a "local centre" like Newtown or Karori. It is a "neighbourhood centre" like Nagios.</p> <p>[Inferred reference to submission 476.80]</p>	Disallow
Foodstuffs North Island	476.81	Mapping / Rezone / Rezone	Amend	<p>Opposes the Residential Zoning of 31-33 Nicholson Road.</p> <p>Considers that 3 Dekka Street and 31-33 Nicholson Road should be rezoned as LCZ as these three properties are all owned by FSNI and a resource consent application is currently being considered by Council (Ref. SR 517439) to extend the supermarket activity.</p>	Rezone 31-33 Nicholson Road from Medium Density Residential Zone to Local Centre Zone.
Onslow Residents Community Association	FS80.6	General / Mapping / Rezone / Rezone	Oppose	<p>Opposes Local Centre Zoning of 31-33 Nicholson Road.</p>	Disallow
Wellington's Character Charitable Trust	FS82.149	General / Mapping / Rezone / Rezone	Oppose	<p>Considers that it is inappropriate to rezone in anticipation of a resource consent being granted.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Christina Mackay	478.4	Mapping / Rezone / Rezone	Amend	Considers that the High Density Residential Zone (HDRZ) with the height limit of 21m will effectively promote the demolition of neighbouring 2 – 3 storey character housing due to unacceptable close over-shadowing. The Medium Density Residential Zone and rules should apply in all areas of expanded inner residential character areas.	Seeks rezoning of High Density Residential Zone to Medium Density Residential Zone in all areas of expanded inner residential character areas. [Inferred decision requested]
Escape Investments Limited	484.1	Mapping / Rezone / Rezone	Amend	Considers that the high density residential zoning walkable catchment for the City Centre should revert back to 15 minutes in line with the NPS-UD objectives. This will bring selected parts of Oriental Bay within the high residential zone, which given its access and proximity to the city, will allow it to grow with a variety of housing types and meet the demands of the changing city. Auckland has adopted a 15 minute walkable catchment. WCC reducing the walkable catchment size creates issues around less potential supply surrounding the CCZ, essential and service industry workers priced out of the city, and is unresponsive of the climate. [Refer to original submission for full reasons].	Amend the High Density Residential Zoning around the City Centre to cover the increased 15 minute walkable catchment suggested by this submission.
Ann Mallinson	FS3.18	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. In particular the weather and wind conditions on Oriental Parade often make walking difficult for residents.	Disallow
Pukepuke Pari Residents Incorporated	FS37.20	General / Mapping / Rezone / Rezone	Oppose	Considers that a limit of 10 mins on the walkable catchment is appropriate for Wellington and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. People's propensity to walk diminishes with distance. Particularly relevant if the catchment was increased to 15 minutes and the last 5 minutes was up a steep hill (as would be the case for eg in Hay Street).	Disallow
Gareth and Joanne Morgan	FS38.22	Mapping / Rezone / Rezone	Oppose	Opposes those parts of Escape Investments Ltd's submission that seeks to extend the walkable catchment above 10 minutes.	Disallow
Helen Foot	FS62.20	Mapping / Rezone / Rezone	Oppose	10 minutes is an appropriate walkable catchment for Oriental Bay residents given exposed wind and weather conditions.	Disallow
Don MacKay	FS94.20	General / Mapping / Rezone / Rezone	Oppose	Reasons for opposing extension of walkable catchment beyond 10 mins are set out above in relation to Property Council : Considers that a limit of ten minutes on the walkable catchment is appropriate for Wellington, and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. Particularly relevant if the catchment was increased to 15 minutes and the last five minutes was up a steep hill (as would be the case for Wilkinson Street). People's propensity to walk decreases with distance.	Disallow
Jonathan Markwick	490.5	Mapping / Rezone / Rezone	Amend	Considers that six storey high density residential buildings should be allowed in all of Kelburn (with a viewshaft protection from the top of the cable car) to help accommodate demand for student and staff housing close to Victoria University's Kelburn Campus. Students and staff have extremely high rents with a restricted housing supply in Kelburn.	Amend the mapping to allow six storey high density residential buildings in all of Kelburn (with a viewshaft protection from the top of the cable car).
Generation Zero	FS54.3	General / Mapping / Rezone / Rezone	Support	Support and submit: Enable 6 stories in more of Kelburn. Kelburn is the site of a major regional employment hub and currently has very low development capacity and correspondingly higher rents, house prices and lower rental quality than the rest of the city.	Allow / Seeks the adoption of 6 storey zoning across more of Kelburn.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Jonathan Markwick	490.6	Mapping / Rezone / Rezone	Amend	<p>Considers that six storey high density residential buildings should be allowed in all of Oriental Bay including Hay Street and Grass Street.</p> <p>This suburb is the easiest suburb to walk to from the city centre (from a traffic safety and scenery point of view). Oriental Bay is also the only suburb that is connected to the city centre with a continuous traffic-free cycle path.</p>	Amend the mapping to allow six storey high density residential buildings in all of Oriental Bay including Hay Street and Grass Street.
Ann Mallinson	FS3.5	General / Mapping / Rezone / Rezone	Oppose	<p>Greater intensification on Oriental Parade and in Hay and Grass Streets is opposed. The Oriental Bay Height Precinct responded to the judgment in the submitter's successful legal case D Rendel, A Mallinson & others v Wellington City Council Decision No. W73/98 and provides protection for significant amenity value, landscape, townscape and character in Oriental Bay. Refer to original submission 81 (points 81.3 and 81.4).</p>	Disallow
Denis Foot	FS10.5	Mapping / Rezone / Rezone	Oppose	<p>The matters of the heights density and planning issues in Oriental Bay were the subject of a very expensive three week hearing at the Environment Court. The case was called Foot v WCC. In that case there were many lawyers, planners, urban designers, architects and residents that gave their views. Judge Kenderdine gave a very carefully considered judgement covering the various areas in Oriental Bay. The decision takes into account the diverse landforms which includes several valleys. There are still many areas in the Oriental Bay area where it is possible to build multi-storey apartments.</p> <p>[Inferred reference to submission point 490.6]</p>	Disallow
Oriental Bay Residents Association	FS13.5	General / Mapping / Rezone / Rezone	Oppose	<p>As stated in OBRA's original submission of 12 September 2022. The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay.</p> <p>Qualifying matters exist under s.77L and s.77R of the RMA arising from the topography and specific characteristics of residential side streets, including Hay St and Grass St.</p>	Disallow
Ruapapa Limited	FS18.7	General / Mapping / Rezone / Rezone	Oppose	<p>As stated in OBRA's original submission of 12 September 2022. The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay. The principles set out in the Environment Court decision in Foot v WCC should remain in place.</p> <p>Qualifying matters exist under s.77L and s.77R of the RMA arising from the topography and specific characteristics of residential side streets, including Hay St and Grass St. These matters impact the health and safety of Oriental Bay residents.</p>	Disallow
Scott Galloway and Carolyn McLean	FS19.5	General / Mapping / Rezone / Rezone	Oppose	<p>As stated in OBRA's original submission of 12 September 2022. The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay.</p> <p>Qualifying matters exist under s.79L and s.79 of the RMA arising from the topography and specific characteristics of residential side streets, including Hay St and Grass St.</p> <p>The futher submitter also also refer to and support the media statement of the Insurance Council of New Zealand Inc dated 23 November 2022.</p> <p>[Refer to further submission for full reason]</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Pukepuke Pari Residents Incorporated	FS37.22	General / Mapping / Rezone / Rezone	Oppose	<p>Considers that qualifying matters exist under s.77L and s.77R of the RMA relating to the specific characteristics of Hay St. Submitters repeats comments made above in relation to Property Council re their opposition to extension of the walkable catchment.</p> <p>Considers that a limit of 10 mins on the walkable catchment is appropriate for Wellington and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. People's propensity to walk diminishes with distance. Particularly relevant if the catchment was increased to 15 minutes and the last 5 minutes was up a steep hill (as would be the case for eg in Hay Street).</p>	Disallow
Gareth and Joanne Morgan	FS38.14	Mapping / Rezone / Rezone	Oppose	Oppose those parts of Jonathon Markwick's submission that seeks to amend, remove or rezone the Oriental Bay Height Precinct to High Density Residential Zone.	Disallow
Jenny Gyles	FS53.5	General / Mapping / Rezone / Rezone	Oppose	<p>The Oriental Bay Height Precinct responds to the site by site analysis of the area conducted by WCC and is necessary to protect the significant amenity value, landscape, townscape and character of Oriental Bay.</p> <p>Considers that qualifying matters exist under s.79L and s.79 of the RMA arising from the topography and specific characteristics of residential side streets, including Hay St and Grass St.</p> <p>Jenny Gyles refers to and support the media statement of the Insurance Council of New Zealand Inc dated 23 November 2022.</p> <p>Considers that the difficulties in obtaining and/or paying for insurance in the future for intensive housing in high hazard zones (especially re earthquake and climate change) and the exposure to hazard of increased infrastructure will be a burden on property owners, taxpayers, ratepayers and residents for many decades to come.</p>	Disallow
Generation Zero	FS54.4	General / Mapping / Rezone / Rezone	Support	Support and submit: Enable 6 stories in Grass and Hay St, Oriental Parade as within the walkable catchment of the City Centre.	Allow / Seeks the adoption of 6 storey zoning across Grass Street and Hay Street.
Helen Foot	FS62.5	Mapping / Rezone / Rezone	Oppose	The Oriental Bay Height Precinct is extremely important to maintain important townscape and landscape values, and protects public views of Mt Victoria/Matairangi and St Gerards heritage site, and also supports the unique character of Oriental Bay. The Oriental Bay Height Precinct and in particular that part of it adjacent to Hay Street and Grass Street was the subject of a very careful review in the decision of the Environment Court in 1989 (Helen Foot and others v WCC Decision W79/98). There is nothing to be gained by seeking a review of this decision.	Disallow
Don MacKay	FS94.22	General / Mapping / Rezone / Rezone	Oppose	Considers that qualifying matters exist under s.77L and s.77R of the RMA relating to the specific characteristics of Wilkinson Street, particularly its steepness, narrowness, and potentially hazardous nature which make high density intensification inappropriate. Also Don MacKay repeat comments made above in relation to Property Council re their opposition to extension of the walkable catchment.	Disallow
Jonathan Markwick	490.7	Mapping / Rezone / Rezone	Amend	<p>Considers that MRZ-PREC02 (Mt Victoria North Townscape Precinct) should be removed to allow for six storey high density residential buildings where SCHED 3 - Heritage Areas do not apply (such as McFarlane Street).</p> <p>Restrictive rules protecting Character Precincts should not be a priority and is morally wrong when we are experiencing a massive shortage of housing and a housing crisis.</p>	Amend the mapping to allow six storey high density residential buildings in the area currently encompassed by the Mt Victoria North Townscape Precinct.
Gareth Morgan	18.1	Mapping / Retain Zone / Retain Zone	Support	<p>Hay Street is a river gully and building further resilient drainage is difficult.</p> <p>Hay Street has poor vehicle access.</p> <p>Increasing height limits on Hay Street would negatively impact the character of the area and the streetscape.</p>	Retain MRZ (Medium Density Residential Zone) as notified - with 11m height limit. [Inferred decision requested].

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Escape Investments Limited	FS136.82	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	The submitters reasons are not justifiable as the unstable geography is determined by a geotechnical analysis of a s88 RMA Report. This would ensure that any future development would not be adversely impacted by unstable geography. The road navigation and suitability for turning bays are addressed through a Traffic Assessment as part of a s88 RMA Report. An increase in density on Hay Street would not adversely effect road navigation and vehicular access. Lastly, Wellington City Council has determined the Heritage Precincts with regards to Qualifying Matters. As noted in the Proposed District Plan s32 Evaluation report Part 2: Character Precincts and the Mt Victoria North Townscape Precinct at s6, there exists a process for determining character precincts relative to a series of key criteria. Oriental Bay & Hay Street are not recognised as having a Character Area Qualifying Matter apply. MRZ-PREC03 (Oriental Bay Height Precinct) is an appropriate precinct for recognising the aspects that have been tested before the courts. Any expansion to this precinct fails to give effect to Policy 3 of the NPS-UD.	Disallow
Joanne Morgan	19.1	Mapping / Retain Zone / Retain Zone	Support	Hay Street is steep and narrow, and has unstable topography with lots of ground water ingress. It is hazardous for emergency vehicles to access. Allowing high rise construction would exacerbate this issue.	Retain MRZ (Medium Density Residential Zone) as notified - with 11m height limit. [Inferred decision requested].
Escape Investments Limited	FS136.46	General / Mapping / Retain Zone / Retain Zone	Oppose	Opposes the original submission to keep hay Street as a MDZ and retain 10-minute walking catchment. The submitters reasonings do not align with data showing that walking/cycling is a favoured commute options. [See original Further Submission for full reasoning].	Disallow
Emma Baines	185.3	Mapping / Retain Zone / Retain Zone	Support	Supports the PDP heights for Cockayne Road, Khandallah.	Retain proposed building heights for Cockayne Road as notified.
Peter Nunns	196.4	Mapping / Retain Zone / Retain Zone	Support	Supports the extension of medium density residential zone to Berhampore, including the Chatham Street neighbourhood.	Retain Medium Density Residential Zone mapping in Berhampore as notified.
Peter Nunns	196.5	Mapping / Retain Zone / Retain Zone	Support	Supports the reduction in the area covered by the MRZ-PREC01 in Berhampore. Considers that the remaining special character areas seem much better targeted towards areas that have a contiguous look and feel.	Retain the MRZ-PREC01 (Character Precincts) mapping in Berhampore as notified.
Wellington City Youth Council	201.17	Mapping / Retain Zone / Retain Zone	Support	Supports the upzoning of residential land to medium-density, in keeping with the MDRS. Considers that this will allow more housing across current suburbs, providing more choice for young people of where to live in the future and reducing reliance on new greenfield developments.	Retain spatial extent of the MRZ (Medium Density Residential Zone) as notified.
Ara Poutama Aotearoa the Department of Corrections	240.1	Mapping / Retain Zone / Retain Zone	Support	Supports and requests that the height limits as proposed to apply the properties on the southern side of Sunrise Boulevard, Tawa (which is adjacent to the northern boundary of the Arohata Prison site, as shown in the excerpt below from the PDP zone maps), are retained. These include the following proposed height limits: <ul style="list-style-type: none"> • Medium Density Residential Zone = 11m (see in yellow in excerpt below) • High Density Residential Zone = 21m (see in orange in excerpt below) Ara Poutama would be opposed to any increase/s in height along that boundary, beyond that currently proposed. It is imperative that proposed height increases do not create the opportunity for a breach in security, for example enabling contraband to be thrown over fences into the Arohata Prison facility. It is also important that the operational facility is not subject to reverse sensitivity issues, such as privacy and amenity of adjacent multi-level residential developments that could see into the prison.	Retain the 11m height limit proposed to apply to the properties on the southern side of Sunrise Boulevard, Tawa.
Kāinga Ora – Homes and Communities	FS89.2	General / Mapping / Mapping General / Mapping General	Oppose	Kāinga Ora opposes submission point 240.1 in that it is inconsistent with the Kāinga Ora submission whereby Kāinga Ora have sought for an expansion of the HDRZ along the southern side of Sunrise Boulevard.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Ara Poutama Aotearoa the Department of Corrections	240.2	Mapping / Retain Zone / Retain Zone	Support	<p>Supports and requests that the height limits as proposed to apply the properties on the southern side of Sunrise Boulevard, Tawa (which is adjacent to the northern boundary of the Arohata Prison site, as shown in the excerpt below from the PDP zone maps), are retained.</p> <p>These include the following proposed height limits:</p> <ul style="list-style-type: none"> • Medium Density Residential Zone = 11m (see in yellow in excerpt below) • High Density Residential Zone = 21m (see in orange in excerpt below) <p>Ara Poutama would be opposed to any increase/s in height along that boundary, beyond that currently proposed. It is imperative that proposed height increases do not create the opportunity for a breach in security, for example enabling contraband to be thrown over fences into the Arohata Prison facility. It is also important that the operational facility is not subject to reverse sensitivity issues, such as privacy and amenity of adjacent multi-level residential developments that could see into the prison.</p>	Retain the 21m height limit proposed to apply to the properties on the southern side of Sunrise Boulevard, Tawa.
Kāinga Ora – Homes and Communities	FS89.3	General / Mapping / Mapping General / Mapping General	Oppose	<p>Kāinga Ora opposes submission point 240.2 in that it is inconsistent with the Kāinga Ora submission whereby Kāinga Ora have sought for an expansion of the HDRZ along the southern side of Sunrise Boulevard.</p> <p>[Inferred reference to submission 240.3]</p>	Disallow
Kilmarston Developments Limited and Kilmarston Properties Limited	290.8	Mapping / Retain Zone / Retain Zone	Support	Supports the Medium Density Residential zoning of the residential part of the site.	Retain Medium Density Residential Zone as notified.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.18	General / Mapping / Retain Zone / Retain Zone	Oppose	Forest & Bird is concerned at the level of vegetation clearance to enable development of the land currently proposed MRZ. MRZ would be incompatible with s31(1)(b)(iii) of the RMA and the requirements to maintain indigenous biodiversity. Suggest GRZ is more appropriate for the capacity of the land and its biodiversity values.	Disallow
Kilmarston Developments Limited and Kilmarston Properties Limited	290.9	Mapping / Retain Zone / Retain Zone	Support	Supports the Natural Open Space zoning on the balance land to the south-west, subject to an agreement being reached with the submitter on appropriate tenure.	Retain zoning of Natural Open Space zoned land, depending on the tenure of zoning.
Adam Groenewegen	FS46.14	General / Mapping / Retain Zone / Retain Zone	Oppose	<p>Considers that while Kilmarston Development's support of the NOSZ is commendable for the SW area of their land, the zoning should not and cannot be conditional on appropriate tenure arrangements. The NOSZ zoning is entirely in keeping with the land's very high biodiversity values. It has some of the best examples of native forest in Wellington with mature podocarps such as matai, miro and totara interspersed in mature tawa and kohekohe forest. The natural values here are incredibly high and support a widening variety of resident native birds such as kakariki, kaka, kereru and occasionally bellbird (korimako). These values were recognised in the conditions of the environment court consents and the local community are well aware of the special nature of this land. While the community is very appreciative of being able to use the land over the years, it is inappropriate to suggest zoning of this sort is conditional on the land being purchased by WCC. Much of this land is already zoned Open Space B so the proposed District Plan is merely translating this existing status to its new equivalent.</p>	Disallow / Disallow that part of the submission that suggests tying the NOSZ zoning to the future tenure of the land. The proposed zoning should be retained as unconditional for the area as mapped and currently Open Space B.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Jo McKenzie	FS64.14	General / Mapping / Retain Zone / Retain Zone	Oppose	Considers that while Kilmарston Development's support of the NOSZ is commendable for the SW area of their land, the zoning should not and cannot be conditional on appropriate tenure arrangements. The NOSZ zoning is entirely in keeping with the land's very high biodiversity values. It has some of the best examples of native forest in Wellington with mature podocarps such as matai, miro and totara interspersed in mature tawa and kohekohe forest. The natural values here are incredibly high and support a widening variety of resident native birds such as kakariki, kaka, kereru and occasionally bellbird (korimako). These values were recognised in the conditions of the environment court consents and the local community are well aware of the special nature of this land. Considers that while the community is very appreciative of being able to use the land over the years, it is inappropriate to suggest zoning of this sort is conditional on the land being purchased by WCC. Much of this land is already zoned Open Space B so the proposed District Plan is merely translating this existing status to its new equivalent.	Disallow / Disallow the part of the submission that suggests tying the NOSZ zoning to the future tenure of the land. The proposed zoning should be retained as unconditional for the area mapped and currently Open Space B.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.19	General / Mapping / Retain Zone / Retain Zone	Support	We endorse retention of zoning of Natural Open Space zoned land. Tenure needs to consider biodiversity outcomes, not just enablement of subdivision.	Allow / Supports in part and seeks that the part of the submission supporting the Natural Open Space zoning on the balance land to the south-west be allowed.
Kilmарston Developments Limited and Kilmарston Properties Limited	290.10	Mapping / Retain Zone / Retain Zone	Support in part	Considers alternative zoning appropriate to enable the submitter's Kilmарston subdivision. Considers that Large Lot Residential zoning and a small area of Medium Density Residential or equivalent zoning adjoining Silverstream Road would be appropriate.	Seeks, as an alternative, that: a) Large Lot Residential zoning and a small area of Medium Density Residential or: b) equivalent zoning adjoining Silverstream Road.
Adam Groenewegen	FS46.26	General / Mapping / Retain Zone / Retain Zone	Oppose	Opposes the proposal to, in the alternative to WCC agreeing appropriate tenure issues over the SW NOSZ land, to rezone it Large Lot residential or part (5500m2) as MDRZ. These proposals fly in the face of the incredibly high natural values of this land and seem a poorly thought through route to force the hand of WCC to complete reserve purchase or contribution negotiations. The suggested MDRZ area of 5500m2 is on an incredibly steep south facing cross slopes with a narrow road frontage (5m) and difficult access over an old stream bed. Vegetation in this area also has high biodiversity values. Development here sandwiched in between high biodiversity WCC reserve land would be inappropriate.	Disallow
Jo McKenzie	FS64.26	General / Mapping / Retain Zone / Retain Zone	Oppose	Opposes the proposal to, in the alternative to WCC agreeing appropriate tenure issues over the SW NOSZ land, to rezone it Large Lot residential or part (5500m2) as MDRZ. Considers that these proposals fly in the face of the incredibly high natural values of this land and seem a poorly thought through route to force the hand of WCC to complete reserve purchase or contribution negotiations. The suggested MDRZ area of 5500m2 is on an incredibly steep south facing cross slopes with a narrow road frontage (5m) and difficult access over an old stream bed. Vegetation in this area also has high biodiversity values. Considers that development here sandwiched in between high biodiversity WCC reserve land would be inappropriate.	Disallow
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.20	General / Mapping / Retain Zone / Retain Zone	Oppose	Forest & Bird strongly opposes alternative zoning of land adjoining Silverstream Road to enable the submitter's Kilmарston subdivision. The land adjoining Silverstream Road is a high-quality SNA (WC060) with some of the best primary forest remnants left within the city limits. Large Lot Residential zoning and a small area of Medium Density Residential or equivalent zoning adjoining Silverstream Road would be contrary to the ECO provisions of the plan and not give effect to policies 23 & 24 of the RPS or s6(c) and s31(1)(b)(iii) of the RMA.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Andy Foster	FS86.46	General / Mapping / Retain Zone / Retain Zone	Oppose	Considers that it is not reasonable to allow for housing development to intrude into the land zoned Open Space and Rural in the Operative Plan. The landscape impacts would be substantial, both of any housing and of the roading access. The impacts on vegetation would also be significant. Notes that the area of bush at the bottom of the site, immediately adjacent to and climbing up from Silverstream Road is of particularly high quality. The concept of putting housing or an access road through it would be entirely unreasonable. For all these reasons Andy Foster opposes any development in this area beyond a carefully designed reservoir. [See original Further Submission for full reasoning]. [Inferred reference to submission 290.10]	Disallow
Kilmarston Developments Limited and Kilmarston Properties Limited	290.11	Mapping / Retain Zone / Retain Zone	Support	Seeks that the planning maps retain the proposed Medium Density Residential Zone (MRZ) areas of the subject land.	Retain the proposed Medium Density Residential Zone (MRZ) areas of the site in the mapping, as notified.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.21	General / Mapping / Retain Zone / Retain Zone	Oppose	Forest & Bird is concerned at the level of vegetation clearance to enable development of the land currently proposed MRZ. MRZ would be incompatible with s31(1)(b)(iii) of the RMA and the requirements to maintain indigenous biodiversity. Suggest GRZ is more appropriate for the capacity of the land and its biodiversity values.	Disallow
Ryman Healthcare Limited	346.2	Mapping / Retain Zone / Retain Zone	Support	[No specific reason given beyond decision requested - refer to original submission].	Supports the Medium Density Residential Zone classification of Ryman Healthcare Limited's site in Karori.
Z Energy Limited	361.1	Mapping / Retain Zone / Retain Zone	Support	The CCZ at Z Taranaki Street Service Station and Z Vivian Street Service Station is supported.	Retain City Centre Zone at 155 Taranaki Street (Z Taranaki Street) and 174 Vivian Street (Z Vivian Street).
Z Energy Limited	361.2	Mapping / Retain Zone / Retain Zone	Support	The Metropolitan Centre Zones at the Z service stations in Kilbirnie and Johnsonville are supported.	Retain the Metropolitan Centre Zones at 10 Coutts Street (Z Kilbirnie) and 134 Johnsonville Road (Z Johnsonville).
Z Energy Limited	361.3	Mapping / Retain Zone / Retain Zone	Support	The Mixed Use Zone at the Z service stations in Tawa, Miramar and Kaiwharawhara are supported.	Retain the Mixed Used Zones at 16-18 Main Road (Z Tawa), 27 Miramar Avenue (Z Miramar) and 208 Hutt Road Road (Caltex Old Hutt Road).
Z Energy Limited	361.4	Mapping / Retain Zone / Retain Zone	Support	The LCZ at Z Constable Street is supported.	Retain Local Centre Zone at 35/41 Constable Street (Z Constable Street).
Z Energy Limited	361.5	Mapping / Retain Zone / Retain Zone	Support	The Airport Zone at Z Broadway is supported.	Retain Airport Zone at the corner of Calabar Road & Broadway, Strathmore Park (Z Broadway).
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.3	Mapping / Retain Zone / Retain Zone	Support	Considers that the key controls in relation to the use of the Miramar terminal and surrounding properties are appropriately provided for by the zoning of the site (General Industrial) and adjoining sites (General Industrial and Special Purpose Airport).	Retain the General Industrial Zone of the Miramar Terminal and adjoining sites as notified.
Wellington International Airport Limited	FS36.253	General/ Mapping / Retain Zone	Support	WIAL supports the intent of these submissions.	Allow
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.4	Mapping / Retain Zone / Retain Zone	Support	Considers that the key controls in relation to the use of the Miramar terminal and surrounding properties are appropriately provided for by the zoning of the site (General Industrial) and adjoining sites (General Industrial and Special Purpose Airport).	Retain the Special Purpose Airport Zone on adjoining sites to the Miramar Terminal as notified.
Wellington International Airport Limited	FS36.254	General/ Mapping / Retain Zone	Support	WIAL supports the intent of these submissions.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.5	Mapping / Retain Zone / Retain Zone	Support	Considers that the General Industrial zoning of the Kaiwharawhara terminal, and adjoining Mixed-Use zoning, is appropriate given the terminal stores low risk fuels (and hence there has been no need for a QRA for the site) and operates in a low impact manner such that limited effects occur in the surrounding environment (notably traffic, noise, odour, and risk to health and safety effects are all relatively benign). Reverse sensitivity effects are therefore not anticipated on the existing or future (plan enabled) land uses of the adjoining Mixed-Use zone.	Retain the General Industrial Zone of the Kaiwharawhara terminal and adjoining Mixed-Use Zones as notified.
Southern Cross Healthcare Limited	380.5	Mapping / Retain Zone / Retain Zone	Support	Supports Southern Cross Hospital Wellington located at 90 Hanson Street and the adjoining land at 82 to 88 Hanson Street being identified in the Special Purpose Hospital zone. This is appropriate to enable the operation and expansion of Southern Cross Hospital Wellington.	Retain Special Purpose Hospital zoning at 90 Hanson Street.
Southern Cross Healthcare Limited	380.6	Mapping / Retain Zone / Retain Zone	Support	Supports Southern Cross Hospital Wellington located at 90 Hanson Street and the adjoining land at 82 to 88 Hanson Street being identified in the Special Purpose Hospital zone. This is appropriate to enable the operation and expansion of Southern Cross Hospital Wellington.	Retain Special Purpose Hospital zoning at 82 Hanson Street.
Southern Cross Healthcare Limited	380.7	Mapping / Retain Zone / Retain Zone	Support	Supports Southern Cross Hospital Wellington located at 90 Hanson Street and the adjoining land at 82 to 88 Hanson Street being identified in the Special Purpose Hospital zone. This is appropriate to enable the operation and expansion of Southern Cross Hospital Wellington.	Retain Special Purpose Hospital zoning at 84 Hanson Street.
Southern Cross Healthcare Limited	380.8	Mapping / Retain Zone / Retain Zone	Support	Supports Southern Cross Hospital Wellington located at 90 Hanson Street and the adjoining land at 82 to 88 Hanson Street being identified in the Special Purpose Hospital zone. This is appropriate to enable the operation and expansion of Southern Cross Hospital Wellington.	Retain Special Purpose Hospital zoning at 86 Hanson Street.
Southern Cross Healthcare Limited	380.9	Mapping / Retain Zone / Retain Zone	Support	Supports Southern Cross Hospital Wellington located at 90 Hanson Street and the adjoining land at 82 to 88 Hanson Street being identified in the Special Purpose Hospital zone. This is appropriate to enable the operation and expansion of Southern Cross Hospital Wellington.	Retain Special Purpose Hospital zoning at 88 Hanson Street.
Wellington Civic Trust	388.4	Mapping / Retain Zone / Retain Zone	Support	The Waterfront Zone at the former Lambton Harbour Area is supported in concept, but some specific issues temper support.	Retain the Waterfront Zone in the former Lambton Harbour Area.
Wellington Civic Trust	388.5	Mapping / Retain Zone / Retain Zone	Support in part	All areas mapped and classified as Waterfront Public Open Space are supported. Enlargement of these zones is sought wherever possible.	Retain all the areas shown as Public Open Space in the Waterfront Zone.
Taranaki Whānui ki te Upoko o te Ika	389.22	Mapping / Retain Zone / Retain Zone	Support	Supports the proposed Medium Density Residential zone proposed for Right of Refusal properties in Strathmore Park.	Retain zoning for Right of Refusal properties in Strathmore Park, as notified.
Enterprise Miramar Peninsula Inc	FS26.17	General / Mapping / AllOverlays / Overlays General	Support	EMPI supports medium density residential and mixed-use development for Strathmore Park. The review of the Spatial Plan clearly relates to the subsequent Opportunity Area – “Strathmore Park”, this being a medium density residential and mixed-use development making efficient use of existing infrastructure, community facilities and transport links. EMPI supports medium density residential in Strathmore Park. [Inferred reference to submission 389.22]	Allow
CentrePort Limited	402.1	Mapping / Retain Zone / Retain Zone	Support	Supports Waterfront zoning. CentrePort owns the triangle of land between Lady Elizabeth Lane and Waterloo and Interislander wharves. Previously this land was included as being part of the Coastal Marine Area. It is an integral part of the future development of both of these wharves which are specifically recognised through Policy 51 (Heritage demolition) and Policy 149 (Lambton Harbour Area) of the Proposed Natural Resources Plan. While CentrePort supports this Zoning, this is on the basis that any redevelopment proposal for this area will be assessed for its compatibility with urban form and other matters, rather than an acceptance that the zero height limit indicates that no built structures can or should occur. [Refer to original submission for map extent]	Retain Waterfront zoning at the triangle of land between Lady Elizabeth Lane and Waterloo and Interislander wharves. [Refer to original submission for map extent].
Investore Property Limited	405.16	Mapping / Retain Zone / Retain Zone	Support	Supports the provision of a broad area of six storey High Density Residential zoning in the wider Johnsonville catchment. Submitter considers that this gives effect to the NPS-UD and reflects the status of Johnsonville as a Metropolitan Centre.	Retain High Density Residential Zoning within the wider Johnsonville catchment as notified.
Investore Property Limited	405.17	Mapping / Retain Zone / Retain Zone	Support	Supports the Metropolitan Centre Zone in Johnsonville.	Retain the application of Metropolitan Centre Zone for Johnsonville as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.24	Mapping / Retain Zone / Retain Zone	Support	The mapped extent of the Airport Zone incorporates all of the Airport's precincts. This is appropriate as it reflects the primary use of the land for airport purposes.	Retain the mapped extent of the Airport Zone as notified.
Guardians of the Bays Inc	FS44.54	General / Mapping / Rezone	Not specified	Considers that WIAL's map in its submission page 103 clearly show the Bridge Street east area as part of a precinct they have called the 'Airsides' Precinct. The Bridge Street East area is not in any of the Main Site Area Designation maps so the inclusion in a designation area should not occur. [Inferred reference to submission 406.24]	Amend / Amend map - Submitter seeks that the plans being proposed by WIAL are amended as they add land into the Main Side Area designation that was never part of their recent Notice of Requirement.
KiwiRail Holdings Limited	FS72.73	Part 2 / General District wide Matters / Noise / NOISE-P4	Support	Supports the amendment to the first sentence to more appropriately apply to buildings that contain noise sensitive activities as opposed to new noise sensitive activities. Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Allow / Adopt amendment sought to first sentence
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.15	General / Mapping / Rezone	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Metlifecare Limited	413.1	Mapping / Retain Zone / Retain Zone	Support	Supports the Medium Density Residential zoning of 29 Messines Road, Karori on the basis that it aligns with the Amendment Act. It also recognises the need to "upzone" appropriate areas to meet the demand for housing.	Retain the Medium Density Residential zoning of 29 Messines Road, Karori.
Fabric Property Limited	425.4	Mapping / Retain Zone / Retain Zone	Support	Supports the application of City Centre zoning to 22 The Terrace, 1 Grey Street, 20 Customhouse Quay and 215 Lambton Quay.	Retain the zoning of 22 The Terrace as notified.
Fabric Property Limited	425.5	Mapping / Retain Zone / Retain Zone	Support	Supports the application of City Centre zoning to 22 The Terrace, 1 Grey Street, 20 Customhouse Quay and 215 Lambton Quay.	Retain zoning of 1 Grey Street as notified.
Fabric Property Limited	425.6	Mapping / Retain Zone / Retain Zone	Support	Supports the application of City Centre zoning to 22 The Terrace, 1 Grey Street, 20 Customhouse Quay and 215 Lambton Quay.	Retain zoning of 20 Customhouse Quay as notified.
Fabric Property Limited	425.7	Mapping / Retain Zone / Retain Zone	Support	Supports the application of City Centre zoning to 22 The Terrace, 1 Grey Street, 20 Customhouse Quay and 215 Lambton Quay.	Retain zoning of 215 Lambton Quay as notified.
Stride Investment Management Limited	470.4	Mapping / Retain Zone / Retain Zone	Support	Supports the area zoned as High Residential and the associated six storey allowance in the wider Johnsonville catchment.	Retain the High Density Residential Zoning (21m) in the wider Johnsonville catchment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Airways Corporation of New Zealand Limited	100.1	Mapping / AllOverlays / Overlays General	Amend	<p>Considers that currently there are no provisions to protect against future development or infrastructure occurring in close proximity to the radar designations (ACNZ3 and ACNZ4) which may impact air traffic control services.</p> <p>ACNZ3 and ACNZ4 are both potential sites to replace the existing infrastructure as part of Airways Corporation of New Zealand Limited's process of scoping replacement Radar and Communications systems.</p> <p>It is critical from a safety perspective that the radar designations are protected from any adverse effects from nearby development.</p> <p>As per the ICAO standard, a 'buffer' of 500m is required around radars to protect against the adverse effects from wind turbines and buildings such as, skyscrapers, large excavating works, communication towers.</p> <p>[Refer to original submission for full reasons].</p>	Add a new 'Air Traffic Control' overlay with a 500m radius around the radar designation ACNZ3 (Radar & Communications site Hawkins Hill - Section 5 SO24952, Hawkins Hill, off Karepa Street, Brooklyn).
Wellington International Airport Limited	FS36.255	General/ Mapping / Retain Zone	Support	WIAL supports the inclusion of overlays that ensure that Airways air traffic control overlays are protected and thus protect the safety of aircraft on approach to and departure from Wellington International Airport.	Disallow
Kāinga Ora – Homes and Communities	FS89.43	General / Mapping / All Overlays / Overlays / General	Oppose	Kāinga Ora opposes the proposed 'air traffic control' overlay as insufficient information has been provided to understand the potential impacts on urban development.	Disallow
Airways Corporation of New Zealand Limited	100.2	Mapping / AllOverlays / Overlays General	Amend	<p>Considers that currently there are no provisions to protect against future development or infrastructure occurring in close proximity to the radar designations (ACNZ3 and ACNZ4) which may impact air traffic control services.</p> <p>ACNZ3 and ACNZ4 are both potential sites to replace the existing infrastructure as part of Airways Corporation of New Zealand Limited's process of scoping replacement Radar and Communications systems.</p> <p>It is critical from a safety perspective that the radar designations are protected from any adverse effects from nearby development.</p> <p>As per the ICAO standard, a 'buffer' of 500m is required around radars to protect against the adverse effects from wind turbines and buildings such as, skyscrapers, large excavating works, communication towers.</p> <p>[Refer to original submission for full reasons].</p>	Add a new 'Air Traffic Control Information Overlay' with a 500m radius around the radar designation ACNZ4 (Radar & Communications site Hawkins Hill - Section 1 & 2 SO31242, Section 4 on SO24952, Hawkins Hill, off Karepa Street, Brooklyn.).
Wellington International Airport Limited	FS36.256	General/ Mapping / Retain Zone	Support	WIAL supports the inclusion of overlays that ensure that Airways air traffic control overlays are protected and thus protect the safety of aircraft on approach to and departure from Wellington International Airport.	Disallow
Thomas Brent Layton	164.2	Mapping / AllOverlays / Overlays General	Amend	Considers that the application of the Ridgelines and Hilltops overlay to 183, 241, 249 and 287 South Karori Road is inconsistent with the policy intention to preserve the visible ridgelines and hilltops being natural. The ridgelines on these properties are not visible or prominent and there are no hilltops.	Amend the mapping to remove the Ridgelines and Hilltops overlay from 183, 241, 249 and 287 South Karori Road.
Thomas Brent Layton	164.3	Mapping / AllOverlays / Overlays General	Amend	Considers that the SNA overlay should be removed from the mapping.	Remove the Significant Natural Areas overlay from the mapping.
Meridian Energy Limited	228.3	Mapping / AllOverlays / Overlays General	Amend	Considers a map layer of wind turbine location should be added.	<p>Include a map layer showing the extent of existing West Wind and Mill Creek wind farm turbines as an overlay on the Plan maps.</p> <p>[Refer to original submission, including map].</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Century Group Limited	238.4	Mapping / AllOverlays / Overlays General	Oppose	Opposes the identification of the Property (83-87 Waterloo Quay) as being subject to the 'extent of place' for Item 44 (2 Bunny Street) in SCHED1 (Heritage Buildings). Considers that the extent of place is associated with the Railway Station building which is located some 130m to the south-west of the Property, and the Property has no spatial, functional or historical relationship with the Railway Station building or the railway platforms. Century Group seeks that this anomaly be rectified as they consider it is plainly an error.	Delete the extent of place that applies to the property (83-87 Waterloo Quay) relating to item 44 (2 Bunny Street) in SCHED1 (Heritage Buildings).
Karepa Dell Developments	241.3	Mapping / AllOverlays / Overlays General	Oppose	Opposes the Significant Natural Area overlay applying to 11 Makomako Road.	Opposes Significant Natural Area overlay applying to 11 Makomako Road.
Horokiwi Quarries Ltd	271.9	Mapping / AllOverlays / Overlays General	Amend	Considers that there is a restrictive policy and rule framework that would apply to SNAs (and in particular where the sites are within a Coastal Environment overlay) and wishes to ensure any sites that are identified are in fact warranted as significant areas. Horokiwi does have concerns with particular areas on both its site and on the adjoining land to the west, in terms of whether the biodiversity values merit the specific areas being identified as SNAs. Based on the independent ecological assessment, Horokiwi seeks amendment to the SNA area identified. [Refer to original submission for full reason, including attachments]	Seeks that the Significant Natural Area overlay be amended as it relates to the Horokiwi quarry site including to remove the SNA from the Horokiwi site which is subject to the existing use certificate reference 1048648. [Refer to original submission, including figure and attachments]
Horokiwi Quarries Ltd	271.10	Mapping / AllOverlays / Overlays General	Amend	The Coastal Environment ("CE") overlay is identified over part of the Horokiwi site and adjoining properties. [Refer Figure 9 of the original submission]. Opposes parts of the Coastal Overlay as it relates to part of the exiting Horokiwi quarry site. An amended boundary is sought given the nature of the existing quarrying activities undertaken and modified nature of the environment. The site is not within any identified Schedule 11 Outstanding natural feature and landscape or Schedule 13 High or Very High Coastal Natural Character Area. [Refer to original submission for full reason, including attachments]	Seeks that the coastal environment line as it relates to Horokiwi is amended. [Refer to original submission, including figure and attachments]
Horokiwi Quarries Ltd	271.11	Mapping / AllOverlays / Overlays General	Amend	Opposes that a portion of the Horokiwi site is within a special amenity landscape with a large portion within the coastal environment, and zoned General Rural. [Refer to original submission for full reason, including attachments]	Seeks that the coastal environment line as it relates to Horokiwi is amended. [Refer to original submission, including figure and attachments]
Kilmarston Developments Limited and Kilmarston Properties Limited	290.12	Mapping / AllOverlays / Overlays General	Amend	Considers the removal of Special Amenity Landscape (SAL) overlay from this area appropriate as this will potentially be restrictive of development.	Seeks to remove the proposed Special Amenity Landscape (SAL) overlay from the Medium Density Residential Area zoned part of the submitter's sites.
Adam Groenewegen	FS46.18	General / Mapping / AllOverlays / Overlays General	Oppose	Supports Kilmarston Development's support of the SAL overlay in the District Plan. However opposes the removal for the land in question. However oppose the removal for the land in question. The history of proposed development on this land (environment court decisions) and the community concerns about it strongly suggest that overlays such as SAL are appropriate to retain. An 8m height restriction is entirely appropriate for this location given it high landscape and amenity values, particularly for sightlines from Ngaio but also Crofton Downs from which are development will be visible.	Disallow / Disallow that part of the submission that seeks to remove the SAL from the Kilmarston Development's land.
Jo McKenzie	FS64.18	General / Mapping / AllOverlays / Overlays General	Oppose	Support Kilmarston Development's support of the SAL overlay in the District Plan. However Jo McKenzie opposes the removal for the land in question. Considers that the history of proposed development on this land (environment court decisions) and the community concerns about it strongly suggest that overlays such as SAL are appropriate to retain. An 8m height restriction is entirely appropriate for this location given it high landscape and amenity values, particularly for sightlines from Ngaio but also Crofton Downs from which are development will be visible.	Disallow / Disallow that part of the submission that proposes removing the SAL from the Kilmarston Development's land
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.22	General / Mapping / All Overlays / Overlays General	Oppose	This site comprises a large portion of the Outer Green Belt and Mt Kaukau SALs and provides habitat for indigenous birds. We oppose arbitrary removal of the SAL overlay on the basis that it may potentially be restrictive of development. The land in question meets the criteria of SAL and should remain so. The development should be able to proceed while simultaneously protecting the values of the SAL.	Disallow

Kilmarston Developments Limited and Kilmarston Properties Limited	290.13	Mapping / AllOverlays / Overlays General	Amend	Considers the removal of Significant Natural Area (SNA) overlay from this area appropriate as this will potentially be restrictive of development.	Seeks to remove proposed Significant Natural Area (SNA) from the overlay from Huntleigh Park Way (Road).
Adam Groenewegen	FS46.11	General / Mapping / AllOverlays / Overlays General	Oppose	Opposes the proposal to lift the SNA overlay on the unformed portion of Huntleigh Park Way. This land is owned by WCC for public use. If Kilmarston Development were to resubmit a new landuse/subdivision plan access to that subdivision using Huntleigh Park Way can be considered as part of the process with a better understanding of the value of the vegetation that exists on that site. As permission from WCC would be required to form the road to support subdivision earthworks an additional step of resource consent for vegetation clearance would be of little consequence.	Disallow / Disallow that part of the submission that seeks to enable a large reservoir to be built in NOSZ or on land that is proposed to be NOSZ.
Jo McKenzie	FS64.11	General / Mapping / AllOverlays / Overlays General	Oppose	Jo McKenzie opposes the proposal to lift the SNA overlay on the unformed portion of Huntleigh Park Way. This land is owned by WCC for public use. Considers that if Kilmarston Development ever resubmit a new landuse/subdivision plan access to that subdivision using Huntleigh Park Way can be considered as part of the process with a better understanding of the value of the vegetation that exists on that site. Considers that as permission from WCC would be required to form the road to support subdivision earthworks an additional step of resource consent for vegetation clearance would be of little consequence.	Disallow / Disallow the part of the submission that seeks to enable a large reservoir to be built in a NOSZ or on land that is proposed to be NOSZ.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.23	General / Mapping / All Overlays / Overlays General	Oppose	As per above. We oppose arbitrary removal of the SNA overlay from the Huntleigh Park Way paper road on the basis that it's inconvenient and may potentially be restrictive of development. Due process needs to be undertaken to ensure compliance with s6(c) and relevant RPS policies.	Disallow
Andy Foster	FS86.48	General / Mapping / AllOverlays / Overlays General	Oppose	<p>Considers that it is not reasonable to allow for housing development to intrude into the land zoned Open Space and Rural in the Operative Plan. However Jo McKenzie opposes the removal for the land in question. Considers that the history of proposed development on this land (environment court decisions) and the community concerns about it strongly suggest that overlays such as SAL are appropriate to retain. An 8m height restriction is entirely appropriate for this location given its high landscape and amenity values, particularly for sightlines from Ngaio but also Crofton Downs from which any development will be visible.	Disallow / Disallow that part of the submission that proposes removing the SAL from the Kilmарston Development's land
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.24	General / Mapping / All Overlays / Overlays General	Oppose	This site comprises a large portion of the Outer Green Belt and Mt Kaukau SALs and provides habitat for indigenous birds. We oppose arbitrary removal of the SAL overlay on the basis that it may potentially be restrictive of development. The land in question meets the criteria of SAL and should remain so. The development should be able to proceed while simultaneously protecting the values of the SAL.	Disallow
Andy Foster	FS86.49	General / Mapping / AllOverlays / Overlays General	Oppose	Considers that it is not reasonable to allow for housing development to intrude into the land zoned Open Space and Rural in the Operative Plan. The landscape impacts would be substantial, both of any housing and of the roading access. The impacts on vegetation would also be significant. Notes that the area of bush at the bottom of the site, immediately adjacent to and climbing up from Silverstream Road is of particularly high quality. The concept of putting housing or an access road through it would be entirely unreasonable. For all these reasons Andy Foster opposes any development in this area beyond a carefully designed reservoir. [See original Further Submission for full reasoning]. [Inferred reference to submission 290.14]	Disallow
Kilmарston Developments Limited and Kilmарston Properties Limited	290.15	Mapping / AllOverlays / Overlays General	Support in part	Considers appropriate to retain the SAL overlay over the Natural Open Space Zone, subject to agreement on appropriate tenure.	Retain the Special Amenity Landscapes overlay over the Natural Open Space Zone, subject to agreement on appropriate tenure.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.25	General / Mapping / All Overlays / Overlays General	Oppose	We agree with retention of the Special Amenity Landscapes overlay over the Natural Open Space Zone. However, see our comment on 290.5 regarding the uncertainty of the caveat 'subject to agreement on appropriate tenure.'	Disallow / Seeks that the part of submission point 290.15 supporting retention of the Special Amenity Landscapes overlay over the Natural Open Space Zone be allowed.
Kilmарston Developments Limited and Kilmарston Properties Limited	290.16	Mapping / AllOverlays / Overlays General	Amend	Considers that the Council has correctly identified the residential area of the land as an appropriate location to deliver urban intensification which will build on the existing urban form with quality developments.	Seeks that the Special Amenity Landscapes overlay is removed from the proposed Medium Density Residential Zone area from Submitter's site.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Adam Groenewegen	FS46.20	General / Mapping / AllOverlays / Overlays General	Oppose	Supports Kilmарston Development's support of the SAL overlay in the District Plan. However opposes the removal for the land in question. However oppose the removal for the land in question. The history of proposed development on this land (environment court decisions) and the community concerns about it strongly suggest that overlays such as SAL are appropriate to retain. An 8m height restriction is entirely appropriate for this location given its high landscape and amenity values, particularly for sightlines from Ngaio but also Crofton Downs from which any development will be visible.	Disallow / Disallow that part of the submission that seeks to remove the SAL from the Kilmарston Development's land.
Jo McKenzie	FS64.20	General / Mapping / AllOverlays / Overlays General	Oppose	Support Kilmарston Development's support of the SAL overlay in the District Plan. However Jo McKenzie opposes the removal for the land in question. Considers that the history of proposed development on this land (environment court decisions) and the community concerns about it strongly suggest that overlays such as SAL are appropriate to retain. An 8m height restriction is entirely appropriate for this location given its high landscape and amenity values, particularly for sightlines from Ngaio but also Crofton Downs from which any development will be visible.	Disallow / Disallow that part of the submission that proposes removing the SAL from the Kilmарston Development's land
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.26	General / Mapping / All Overlays / Overlays General	Oppose	This site comprises a large portion of the Outer Green Belt and Mt Kaukau SALs and provides habitat for indigenous birds. We oppose arbitrary removal of the SAL overlay on the basis that it may potentially be restrictive of development. The land in question meets the criteria of SAL and should remain so. The development should be able to proceed while simultaneously protecting the values of the SAL.	Disallow
Andy Foster	FS86.50	General / Mapping / AllOverlays / Overlays General	Oppose	Considers that it is not reasonable to allow for housing development to intrude into the land zoned Open Space and Rural in the Operative Plan. The landscape impacts would be substantial, both of any housing and of the roading access. The impacts on vegetation would also be significant. Notes that the area of bush at the bottom of the site, immediately adjacent to and climbing up from Silverstream Road is of particularly high quality. The concept of putting housing or an access road through it would be entirely unreasonable. For all these reasons Andy Foster opposes any development in this area beyond a carefully designed reservoir. [See original Further Submission for full reasoning]. [Inferred reference to submission 290.16]	Disallow
Kilmарston Developments Limited and Kilmарston Properties Limited	290.17	Mapping / AllOverlays / Overlays General	Amend	Considers that it is important that Council identified SNAs within the City in order to protect and maintain the remaining areas of indigenous biodiversity. However, this should not include areas earmarked for public access and roads. The Submitter accepts the overlay being clipped to the proposed MRZ areas of their land, but not over the paper road and parts of the access.	Remove significant natural area overlay from paper road identified as Huntleigh Park Way.
Adam Groenewegen	FS46.12	General / Mapping / AllOverlays / Overlays General	Oppose	Opposes the proposal to lift the SNA overlay on the unformed portion of Huntleigh Park Way. This land is owned by WCC for public use. If Kilmарston Development were to resubmit a new landuse/subdivision plan access to that subdivision using Huntleigh Park Way can be considered as part of the process with a better understanding of the value of the vegetation that exists on that site. As permission from WCC would be required to form the road to support subdivision earthworks an additional step of resource consent for vegetation clearance would be of little consequence.	Disallow / Disallow that part of the submission that seeks to enable a large reservoir to be built in NOSZ or on land that is proposed to be NOSZ.
Jo McKenzie	FS64.12	General / Mapping / AllOverlays / Overlays General	Oppose	Jo McKenzie opposes the proposal to lift the SNA overlay on the unformed portion of Huntleigh Park Way. This land is owned by WCC for public use. Considers that if Kilmарston Development ever resubmit a new landuse/subdivision plan access to that subdivision using Huntleigh Park Way can be considered as part of the process with a better understanding of the value of the vegetation that exists on that site. Considers that as permission from WCC would be required to form the road to support subdivision earthworks an additional step of resource consent for vegetation clearance would be of little consequence.	Disallow / Disallow the part of the submission that seeks to enable a large reservoir to be built in a NOSZ or on land that is proposed to be NOSZ.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.27	General / Mapping / All Overlays / Overlays General	Oppose	As per above. We oppose arbitrary removal of the SNA overlay from the Huntleigh Park Way paper road on the basis that it's inconvenient and may potentially be restrictive of development. Due process needs to be undertaken to ensure compliance with s6(c) and relevant RPS policies.	Disallow
Andy Foster	FS86.51	General / Mapping / AllOverlays / Overlays General	Oppose	Considers that it is not reasonable to allow for housing development to intrude into the land zoned Open Space and Rural in the Operative Plan. The landscape impacts would be substantial, both of any housing and of the roading access. The impacts on vegetation would also be significant. Notes that the area of bush at the bottom of the site, immediately adjacent to and climbing up from Silverstream Road is of particularly high quality. The concept of putting housing or an access road through it would be entirely unreasonable. For all these reasons Andy Foster opposes any development in this area beyond a carefully designed reservoir. [See original Further Submission for full reasoning]. [Inferred reference to submission 290.17]	Disallow
Kilmarston Developments Limited and Kilmarston Properties Limited	290.18	Mapping / AllOverlays / Overlays General	Support	Supports that Mount Kaukau and the Outer Green Belt Special Amenity Landscape are Special Amenity Landscapes.	Retain Mount Kaukau as a Special Amenity Landscape in mapping as notified
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.28	General / Mapping / All Overlays / Overlays General	Support	These are appropriate.	Allow
Kilmarston Developments Limited and Kilmarston Properties Limited	290.19	Mapping / AllOverlays / Overlays General	Support	Supports that Mount Kaukau and the Outer Green Belt Special Amenity Landscape are Special Amenity Landscapes.	Retain Outer Green Belt Special Amenity Landscape as a Special Amenity Landscape in mapping as notified
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.29	General / Mapping / All Overlays / Overlays General	Support	These are appropriate.	Allow
Kilmarston Developments Limited and Kilmarston Properties Limited	290.20	Mapping / AllOverlays / Overlays General	Amend	Considers that the MDRZ area of the land should not be included in this SAL mapping. Considers the inclusion MDRZ land within the SAL overlay, it restricts the land from being efficiently utilized for medium density residential development. Furthermore, the zoning layout has principal support from GWRC both in terms of policy direction (i.e. Policy 27) and the consented layout. The landscape identified to be 'distinctive and widely recognised by the community for the contribution to the amenity and quality of the environment' is predominantly located within the balance land which includes Crows Nest and the Skyline Walkway Trailhead.	Seeks that Special Amenity Landscape overlay be removed from submitter's land zoned Medium Density Residential Zone.
Adam Groenewegen	FS46.21	General / Mapping / AllOverlays / Overlays General	Oppose	Supports Kilmarston Development's support of the SAL overlay in the District Plan. However opposes the removal for the land in question. However oppose the removal for the land in question. The history of proposed development on this land (environment court decisions) and the community concerns about it strongly suggest that overlays such as SAL are appropriate to retain. An 8m height restriction is entirely appropriate for this location given its high landscape and amenity values, particularly for sightlines from Ngaio but also Crofton Downs from which any development will be visible.	Disallow / Disallow that part of the submission that seeks to remove the SAL from the Kilmarston Development's land.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Jo McKenzie	FS64.21	General / Mapping / AllOverlays / Overlays General	Oppose	Support Kilmarston Development's support of the SAL overlay in the District Plan. However Jo McKenzie opposes the removal for the land in question. Considers that the history of proposed development on this land (environment court decisions) and the community concerns about it strongly suggest that overlays such as SAL are appropriate to retain. An 8m height restriction is entirely appropriate for this location given its high landscape and amenity values, particularly for sightlines from Ngaio but also Crofton Downs from which any development will be visible.	Disallow / Disallow that part of the submission that proposes removing the SAL from the Kilmarston Development's land
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.30	General / Mapping / All Overlays / Overlays General	Oppose	See comment in 290.12. Due process needs to be observed if the SAL overlays are to be modified.	Disallow
Dawid Wojasz	295.2	Mapping / AllOverlays / Overlays General	Oppose	Considers that the coastal hazard overlays put much of the CBD in a high or medium hazard area, limiting development within the central city. Density in the Central city should be encouraged, and the hazard can be dealt with as an engineering issue.	Remove application of High, Medium and Low Coastal Hazard overlay within the City Centre.
Dawid Wojasz	295.3	Mapping / AllOverlays / Overlays General	Amend	Considers that the coastal hazard overlays put much of the CBD in a high or medium hazard area, limiting development within the central city. Density in the Central city should be encouraged, and the hazard can be dealt with as an engineering issue.	Seeks that CE-P18 also be amended to include High Density as functional need to locate a building within the high hazard area. [Inferred decision requested]
Tapu-te-Ranga Trust	297.5	Mapping / AllOverlays / Overlays General	Amend	Seeks the extension of the existing map extent for site #76 in the PDP, as it doesn't accurately reflect their existing land holding and aspirations for Marae redevelopment. Following the fire, whilst the existing Marae was burnt down, the Trust have aspirations and value associated with land as indicated in the map below, and would like to extend the site of significance extent to incorporate this land and include the existing area.	Seeks extent of site of significance to Māori be expanded for Site 76 (Tapu te Ranga Marae) in the mapping.
Parkvale Road Limited	298.4	Mapping / AllOverlays / Overlays General	Oppose	Opposes the application of the Ridgelines and Hilltops overlay within 200 Parkvale. Submitter seeks the removal of the overlay, or associated changes to the ridgelines and hilltops provisions.	Remove the application of the Ridgelines and Hilltops overlay within 200 Parkvale Road.
Royal Forest and Bird Protection Society of New Zealand Inc	FS85.42	General / Mapping / All Overlays / Overlays General	Oppose	Oppose removal of the Ridgelines and Hilltops overlay within 200 Parkvale Road. This overlay is part of wider landscape protection and is appropriate for the property in question.	Disallow
Andy Foster	FS86.70	General / Mapping / AllOverlays / Overlays General	Oppose	Supports placing the farm within the Special Amenity Landscape (in addition to retaining Ridgeline and Hilltop status) as was instructed by Council when notifying the Plan. [See original Further Submission for full reasoning]. [Inferred reference to submission 29.4].	Disallow
Parkvale Road Limited	298.5	Mapping / AllOverlays / Overlays General	Amend	Opposes the application of the Ridgelines and Hilltops overlay within 200 Parkvale Road. Considers that the ridgelines and hilltops overlay is not a requirement of the Regional Policy Statement and creates a third tier of landscape protection that would be better included as a Special Amenity Landscape. Seeks the removal of the overlay, or associated changes to the ridgelines and hilltops provisions.	Seeks amendment of the provisions relating to the Ridgelines and Hilltops overlay if this overlay is not removed from 200 Parkvale Road.
Andy Foster	FS86.71	General / Mapping / AllOverlays / Overlays General	Oppose	Supports placing the farm within the Special Amenity Landscape (in addition to retaining Ridgeline and Hilltop status) as was instructed by Council when notifying the Plan. [See original Further Submission for full reasoning]. [Inferred reference to submission 29.5].	Disallow
Aggregate and Quarry Association	303.6	Mapping / AllOverlays / Overlays General	Not specified	Considers that the SNA, SAL and CE overlays have the potential to impact quarrying activities both inside and outside the Special Purpose Quarry Zone, with two general concerns: 1. While quarrying activity within an overlay is not always disallowed/impossible, the provisions within them are very restrictive. 2. It is not certain that in all cases the overlay status is warranted.	Seeks flexibility for quarrying activities in overlay areas.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Horokiwi Quarries Limited	FS28.1	General / Mapping / AllOverlays / Overlays General	Support	Quarries are an important and necessary activity, and the district plan should adequately recognise such activities.	Allow
Aggregate and Quarry Association	303.7	Mapping / AllOverlays / Overlays General	Amend	Considers that the Coastal Environment overlay is a barrier to new or expanding quarries near State Highway 2, which runs along much of the available rocks of the Wellington faultline. In particular the overlay overlaps with the Quarry Zone and the Horokiwi Quarry site and needs to be adjusted to avoid interfering with new and existing workings.	Amend the Coastal Environment Overlay to remove overlaps with the Special Purpose Quarry Zone.
Aggregate and Quarry Association	303.8	Mapping / AllOverlays / Overlays General	Amend	Considers that the Coastal Environment overlay is a barrier to new or expanding quarries near State Highway 2, which runs along much of the available rocks of the Wellington faultline. The overlay extends too far from the coast and does not provide the right balance between coastal protection and enabling access to aggregate.	Amend the Coastal Environment Overlay to enable access to aggregate further away from the coast.
David Karl	309.2	Mapping / AllOverlays / Overlays General	Amend	Considers that whanau's homes should not be unnecessarily impacted by inaccurate modelling. Further development should also not occur in areas that it should not. There is emotional pain and significant costs linked to Council holding information that is not publicly available and then requiring costly changes to building plans before providing approval.	Seeks that hazard zoning be based on the best information available.
Taranaki Whānui ki te Upoko o te Ika	389.23	Mapping / AllOverlays / Overlays General	Amend	Considers that overlays to significantly restrict future development and opportunities for Taranaki Whānui to exercise tino rangatiratanga over our ancestral lands.	Seeks that SAL mapping be amended to reflect historical and current built development over the Wellington Prison site (Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035).
Buy Back the Bay	FS79.21	General / Mapping / AllOverlays / Overlays General	Oppose	Submission 389 states: "Taranaki Whānui's RFR [Right of First Refusal] opportunities in Te Motu Kairangi: Taranaki Whānui have a significant interest in Te Motu Kairangi which includes Mount Crawford and Watts Peninsula, these landholdings hold significant interest - culturally, socially, environmentally and commercially to Taranaki Whānui. These opportunities include the Mount Crawford Prison site as well as the 'Watts Peninsula' sites being 75.85 hectares of former Defence Land." Buy Back the Bays notes that the Submission does not include maps however they (Buy Back the Bays) are very concerned to see that Taranaki Whānui appears to be seeking possible commercial development of 75.85 hectares of former defence land on Watts Peninsula. This appears to be the heart of the long-promised Watts Peninsula park and a major part of the proposed national heritage park. Buy Back the Bays strongly oppose rezoning on Watts Peninsula to facilitate any development there that is incompatible with the park plans. More generally, Buy Back the Bays oppose Submission 389's attempt to remove the proposed public interest controls from Watts Peninsula and Mount Crawford. Considers that where Submission 389 states "Illustrated on Figure One below, the following zone and overlays are proposed for Taranaki Whānui's RFR properties in Te Motu Kairangi," Buy Back the Bays oppose the changes it seeks. This includes opposing Submission 389's request for "The proposed zoning over Part Lot 1 DP 4741, Section 4 SO 477035, PT LOT 1 DP 4741 - WELLINGTON PRISON, Section 1 SO 477035, Part Section 20 Watts Peninsula DIST [to be] amended from Natural Open Space Zone to: a. Medium Density Residential; and b. Special Purpose Zone – Māori Purpose Zone."	Disallow
Oyster Management Limited	404.2	Mapping / AllOverlays / Overlays General	Amend	Considers that the 90m Height Control Overlay should extend over 141 The Terrace, 294 and 298 Lambton Quay so it is contiguous with the height control applying to 312 Lambton Quay and other sites to the south.	Amend 90m Height Control Overlay to extend over 141 The Terrace, 294 and 298 Lambton Quay. [Refer to original submission for maps of the submitter's properties under the Proposed District Plan].
Oyster Management Limited	404.3	Mapping / AllOverlays / Overlays General	Support	Supports the 75m Height Control Area applying to Lambton Quay.	Retain 75m Height Control Area extent as notified. [Refer to original submission for maps of the submitter's properties under the Proposed District Plan].

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Terawhiti Farming Co Ltd (Terawhiti Station)	411.3	Mapping / AllOverlays / Overlays General	Oppose	<p>Considers that WCC's landscape-scale overlays are an affront to Terawhiti Station.</p> <p>Considers that the Council is not cooperative. Right from the very start of the SNA process all the overlays were set down.</p> <p>Cosniders decisions are already determined.</p> <p>[See original submission for full reasons]</p>	Not specified
Paul M Blaschke	435.3	Mapping / AllOverlays / Overlays General	Amend	Considers that the SNA overlay should extend to residentially zoned areas.	Extend the Significant Natural Area overlay to relevant residentially zoned properties.
Newtown Residents' Association	440.8	Mapping / AllOverlays / Overlays General	Amend	Considers that the damaging environmental effects of high rise developments in established low rise communities should be considered as a specific overlay. (Option B)	Seeks that negative environmental effects of high rise development be considered as a specific overlay.
Transpower New Zealand Limited	315.9	Mapping / AllOverlays / National Grid Transmission Lines	Support	Supports the National Grid Transmission Line layer on the planning maps as its assist in plan interpretation. Considers Policy 12 of the NPSET requires territorial authorities to "identify the electricity transmission network on their relevant planning maps whether or not the network is designated". Given the need for provisions that also relate to the National Grid Yard, Transpower supports the mapping as notified. Considers the mapping layer works with the definitions of National Grid Yard and National Grid Subdivision Corridor to define the required setbacks.	Retain the map layer for the National Grid on the planning maps as notified.
Transpower New Zealand Limited	315.10	Mapping / AllOverlays / National Grid Transmission Lines	Amend	Considers that when using the on-line maps, the Development Area spatial layer over-rides the National Grid Transmission Line layer. Plan users may not realise the area is subject to the National Grid corridor provisions. [see original submission for image supplied]	Seeks to amend the planning map layers so that the National Grid Transmission line remains visible when all map layers are applied.
Poneke Architects	292.1	Mapping / AllOverlays / Coastal Inundation Overlay	Oppose	Considers that these overlays effectively stop development in Wellington and are too broad.	Delete the Coastal Inundation Overlays in their entirety.
David Karl	309.3	Mapping / AllOverlays / Coastal Inundation Overlay	Amend	Considers that according to presentations from WCC staff and technical experts at a community climate adaptation meeting, modelling underpinning the current maps reflects some of the available, appropriate possible modelling, but does not account for wave dynamics. It is understood from these experts comments wave dynamics may have a significant bearing on the island.	Seeks that the coastal inundation overlay be amended to account for wave dynamics that include consideration of Tapu Te Rangi/the island in Island Bay.
VicLabour	414.11	Mapping / AllOverlays / Coastal Inundation Overlay	Support in part	Supports restrictions on development in areas at risk of coastal inundation and tsunami with amendment as detailed below.	Retain coastal inundation and tsunami overlays.
Oliver Sangster	112.6	Mapping / AllOverlays / Flood Hazard Overlay	Oppose	Opposes flood hazard - Inundation overlay applying to 22B Glenside road. Considers the mapping inaccurate as it does not reflect the new (higher) ground level as was raised through the subdivision completion and presently includes area that was raised through earthworks and retaining wall construction.	Remove the Flood Hazard - Inundation overlay from 22B Glenside Road.
Singvest Group Limited	129.1	Mapping / AllOverlays / Flood Hazard Overlay	Oppose	Opposes 154 Victoria Street being included in the Flood Hazard (Inundation) overlay	Remove 154 Victoria from the Flood Hazard (Inundation) overlay
Michael Thomas	219.1	Mapping / AllOverlays / Flood Hazard Overlay	Amend	<p>Considers that 18 Campbell Street is significantly higher than the adjoining property 16A Campbell Street and any water would flow there.</p> <p>18 Campbell Street has a retaining wall along it's western fence that would provide a barrier to flooding.</p> <p>[Refer to original submission for full reason, including pictures]</p>	Amend the extent of the flood hazard inundation overlay to exclude 18 Campbell Street.
Kimberley Vermaey	348.1	Mapping / AllOverlays / Flood Hazard Overlay	Amend	Considers that buildings in the Flood Hazard Overlay with water depths less than 0.5m should not require resource consents, subject to minimum floor levels. For buildings with floodwater depths 0.5m or greater, resource consent should be needed as proposed, with displacement effects considered.	Seeks that buildings with flood water depth of less than 0.5m in the Flood Hazard Overlay not require resource consents.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Southern Cross Healthcare Limited	380.10	Mapping / AllOverlays / Flood Hazard Overlay	Oppose	Opposes the flood hazard overlay - inundation mapping for 82 Hanson Street. Considers that the overland flowpath and inundation areas shown in the maps run over the existing Southern Cross Hospital building. It is expected that these features are around the existing building or site. Requests that the Council undertakes further mapping to more accurately apply the overlays on the land in and around the existing buildings.	a) Remove the flood hazard overlay - inundation mapping for 82 Hanson Street. b) Seeks that further investigation is undertaken for the application of the flood hazard (inundation) overlay around existing buildings. [Inferred decision requested].
Southern Cross Healthcare Limited	380.11	Mapping / AllOverlays / Flood Hazard Overlay	Oppose	Opposes the flood hazard overlay - overland flow path mapping for 82 Hanson Street.	a) Remove the flood hazard overlay - overland flow path mapping for 82 Hanson Street. b) Seeks that further investigation is undertaken for the application of the overland flow path overlay around existing buildings. [Inferred decision requested].
Southern Cross Healthcare Limited	380.12	Mapping / AllOverlays / Flood Hazard Overlay	Oppose	Opposes the flood hazard overlay - inundation mapping for 84 Hanson Street. Considers that the overland flowpath and inundation areas shown in the maps run over the existing Southern Cross Hospital building. It is expected that these features are around the existing building or site. Requests that the Council undertakes further mapping to more accurately apply the overlays on the land in and around the existing buildings.	a) Remove the flood hazard overlay - inundation mapping for 84 Hanson Street. b) Seeks that further investigation is undertaken for the application of the flood hazard (inundation) overlay around existing buildings. [Inferred decision requested].
Southern Cross Healthcare Limited	380.13	Mapping / AllOverlays / Flood Hazard Overlay	Oppose	Opposes the flood hazard overlay - overland flow path mapping for 84 Hanson Street.	a) Remove the flood hazard overlay - overland flow path mapping for 84 Hanson Street. b) Seeks that further investigation is undertaken for the application of the overland flow path overlay around existing buildings. [Inferred decision requested].
Southern Cross Healthcare Limited	380.14	Mapping / AllOverlays / Flood Hazard Overlay	Oppose	Opposes the flood hazard overlay - inundation mapping for 86 Hanson Street. Considers that the overland flowpath and inundation areas shown in the maps run over the existing Southern Cross Hospital building. It is expected that these features are around the existing building or site. Requests that the Council undertakes further mapping to more accurately apply the overlays on the land in and around the existing buildings.	a) Remove the flood hazard overlay - inundation mapping for 86 Hanson Street. b) Seeks that further investigation is undertaken for the application of the flood hazard (inundation) overlay around existing buildings. [Inferred decision requested].
Southern Cross Healthcare Limited	380.15	Mapping / AllOverlays / Flood Hazard Overlay	Oppose	Opposes the flood hazard overlay - overland flow path mapping for 86 Hanson Street.	a) Remove the flood hazard overlay - overland flow path mapping for 86 Hanson Street. b) Seeks that further investigation is undertaken for the application of the overland flow path overlay around existing buildings. [Inferred decision requested].
Southern Cross Healthcare Limited	380.16	Mapping / AllOverlays / Flood Hazard Overlay	Oppose	Opposes the flood hazard overlay - inundation mapping for 88 Hanson Street. Considers that the overland flowpath and inundation areas shown in the maps run over the existing Southern Cross Hospital building. It is expected that these features are around the existing building or site. Requests that the Council undertakes further mapping to more accurately apply the overlays on the land in and around the existing buildings.	a) Remove the flood hazard overlay - inundation mapping for 88 Hanson Street. b) Seeks that further investigation is undertaken for the application of the flood hazard (inundation) overlay around existing buildings. [Inferred decision requested].
Southern Cross Healthcare Limited	380.17	Mapping / AllOverlays / Flood Hazard Overlay	Oppose	Opposes the flood hazard overlay - overland flow path mapping for 88 Hanson Street.	a) Remove the flood hazard overlay - overland flow path mapping for 88 Hanson Street. b) Seeks that further investigation is undertaken for the application of the overland flow path overlay around existing buildings. [Inferred decision requested].
Southern Cross Healthcare Limited	380.18	Mapping / AllOverlays / Flood Hazard Overlay	Oppose	Opposes the flood hazard overlay - inundation mapping for 90 Hanson Street. Considers that the overland flowpath and inundation areas shown in the maps run over the existing Southern Cross Hospital building. It is expected that these features are around the existing building or site. Requests that the Council undertakes further mapping to more accurately apply the overlays on the land in and around the existing buildings.	a) Remove the flood hazard overlay - inundation mapping for 90 Hanson Street. b) Seeks that further investigation is undertaken for the application of the flood hazard (inundation) overlay around existing buildings. [Inferred decision requested].
Southern Cross Healthcare Limited	380.19	Mapping / AllOverlays / Flood Hazard Overlay	Oppose	Opposes the flood hazard overlay - overland flow path mapping for 90 Hanson Street.	a) Remove the flood hazard overlay - overland flow path mapping for 90 Hanson Street. b) Seeks that further investigation is undertaken for the application of the overland flow path overlay around existing buildings. [Inferred decision requested].
Kāinga Ora Homes and Communities	391.30	Mapping / AllOverlays / Flood Hazard Overlay	Oppose	The inclusion of flood hazard mapping as part of the District Plan is opposed, despite the risk-based approach to the management of natural hazards being generally supported. Including Flood Hazard overlays in the District Plan ignores the dynamic nature of flood hazards and will create unnecessary additional cost and uncertainty for landowners and land developers.	Delete the Natural Hazard Overlay from the District Plan and instead hold this information in non-statutory GIS maps.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Toka Tū Ake EQC	FS70.46	General / Mapping / All Overlays / Flood Hazard Overlay	Oppose	Accurate and risk-based regulatory hazard maps are an important tool in the WCC Proposed District Plan to limit subdivision and development within areas subject to natural hazard risk. Removing part or all of these regulatory maps opens the possibility that rules controlling development in flood-prone areas will be inconsistently applied, exposing people and their properties to unnecessary flood risk.	Disallow
Greater Wellington Regional Council	FS84.53	General / Mapping / All Overlays / Flood Hazard Overlay	Oppose	Greater Wellington disagree with the submitter that the flood hazard maps should be removed from the Proposed District Plan and instead be held in a nonstatutory GIS.	Disallow / Seeks that all flood hazard maps are included in the Proposed District Plan
Stride Investment Management Limited	FS107.39	General / Mapping / All Overlays / Flood Hazard Overlay	Support	Stride supports deleting the Flood Hazard Overlays from the Proposed Plan for the reasons provided by the primary submitter, and to ensure a practical approach is taken to flood risk management.	Allow
Investore Property Limited	FS108.39	General / Mapping / All Overlays / Flood Hazard Overlay	Support	Investore supports deleting the Flood Hazard Overlays from the Proposed Plan for the reasons provided by the primary submitter, and to ensure a practical approach is taken to flood risk management.	Allow
Wellington International Airport Ltd	406.25	Mapping / All Overlays / Flood Hazard Overlay	Oppose	Submitter is required to manage and drain surface water ponding to avoid giving rise to adverse effects on aeronautical safety. Accordingly, Submitter manages surface water on site to ensure ponding does not arise. Opposes the mapping of 'inundation areas' mapped within the Airport Zone as ponding, such as that depicted on the District Planning maps, does not occur within its landholdings.	Delete all Flood Hazard Overlays from the Airport Zone.
Guardians of the Bays Inc	FS44.184	Mapping / Mapping General / Mapping General	Oppose	Considers that a vast catchment of Strathmore feeds through Wellington Airport and it should be part of the Flood Hazard overlay	Disallow / Retain the airport zone in the flood hazard overlay.
Toka Tū Ake EQC	FS70.85	General / Mapping / All Overlays / Flood Hazard Overlay	Oppose	The flood inundation overlay is based on probability maps by Wellington Water of likely ponding areas in the event of a flood. It does not take into account likely post-event remediation of flooding effects. If geotechnical engineering has been done to mitigate flood inundation risk, the risk may be lessened, but the submission does not provide examples of this.	Disallow
KiwiRail Holdings Limited	FS72.74	Part 2 / General District wide Matters / Noise / NOISE-P4	Oppose	Opposes the deletion of policy direction requiring acoustic treatment and mechanical ventilation for noise sensitive activities. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow
Wellington International Airport Ltd	406.26	Mapping / All Overlays / Liquefaction Hazard Overlay	Oppose in part	Submitter is required to manage liquefaction risk to ensure the Airport can continue to operate following as seismic event. Opposes the mapping of 'liquefaction hazard overlay' mapped within the Airport Zone. [See paragraph 4.86 for full reason]	Delete all Liquefaction Hazard Overlays from the Airport Zone.
Guardians of the Bays Inc	FS44.182	General / Mapping / All Overlays / Liquefaction Hazard Overlay	Oppose	Considers that parts of Wellington airport are made up of 1950s reclaimed land from sea therefore should be part of the Liquefaction Hazard Overlay.	Disallow / Retain the airport zone in the liquefaction hazard overlay.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Toka Tū Ake EQC	FS70.86	General / Mapping / All Overlays / Liquefaction Hazard Overlay	Oppose	The liquefaction hazard overlay in the Proposed District Plan is based on the High and Very High liquefaction susceptibility areas in Griffin et al (2020). These zones are based on cone penetrometer tests, and analysis of geomorphology, hydrology and site conditions, and do not take into account likely post-event remediation of liquefaction effects. The part of the Airport within the liquefaction overlay is an area of anthropogenic fill, which is in all cases highly susceptible to liquefaction. If geotechnical engineering has been done to mitigate liquefaction risk, the risk may be lessened, but the submission does not provide examples of this.	Disallow
Poneke Architects	292.2	Mapping / AllOverlays / Tsunami Hazard Overlay	Oppose	Considers that these overlays effectively stop development in Wellington and are too broad.	Delete the Tsunami Hazard Overlays in their entirety.
David Karl	309.4	Mapping / AllOverlays / Tsunami Hazard Overlay	Amend	Considers that according to presentations from WCC staff and technical experts at a community climate adaptation meeting, modelling underpinning the current maps reflects some of the available, appropriate possible modelling, but does not account for wave dynamics. It is understood from these experts comments wave dynamics may have a significant bearing on the island.	Seeks that the tsunami inundation overlay be amended to account for wave dynamics that include consideration of Tapu Te Ranga (the island in Island Bay).
VicLabour	414.12	Mapping / AllOverlays / Tsunami Hazard Overlay	Support in part	Supports restrictions on development in areas at risk of coastal inundation and tsunamis.	Retain coastal inundation and tsunami overlays.
John Tiley	142.4	Introduction Subpart / Introduction / Introduction General	Amend	Considers that while the description acknowledges the benefits derived from the Town Belt and the Outer Green Belt, no mention is included of ridgelines generally and how these, together with associated open slopes, contribute to visual amenity, a sense of community, and continuity of open space.	Seeks that ridgelines are acknowledged in the Introduction - Description of the District alongside the town belt and outer greenbelt. [Inferred decision requested].
Wellington Civic Trust	FS83.73	Part 1 / Introduction Subpart / Introduction / Introduction General	Support	The submissions identify the need for greater clarity and better protection in the Plan for the city's identified ridgelines and hilltops. Wellington Civic Trust supports these points	Allow
Andy Foster	FS86.26	Part 1 / Introduction Subpart / Introduction / Introduction General	Oppose	Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide. [See original Further Submission for full reasoning]. [Inferred reference to submission 142.4].	Allow
Churton Park Community Association	189.4	Introduction Subpart / Introduction / Introduction General	Amend	Considers that while the description acknowledges the benefits derived from the Town Belt and the Outer Green Belt, no mention is included of ridgelines generally and how these, together with associated open slopes, contribute to visual amenity, a sense of community, and continuity of open space.	Seeks that ridgelines are acknowledged in the Introduction - Description of the District alongside the townbelt and outer greenbelt. [Inferred decision requested].
Andy Foster	FS86.37	Part 1 / Introduction Subpart / Introduction / Introduction General	Oppose	Supports Glenside Progressive Association's submission regarding the protection of Ridgelines citywide. [See original Further Submission for full reasoning]. [Inferred reference to submission 189.4].	Allow
Royal Forest and Bird Protection Society	345.1	Introduction Subpart / Introduction / Introduction General	Support	Generally supports these provisions as drafted.	Retain "Introduction" section as notified.
Wellington City Council	266.48	Introduction Subpart / Introduction / Description of the District	Amend	Considers the population projections should be updated to the most recent population forecasts.	Amend footnote reference as follows: Stats NZ (2018) New Zealand Census <u>Sense Partners population forecasts for 2020 to 2051</u>
Taranaki Whānui ki te Upoko o te Ika	389.24	Introduction Subpart / Introduction / Description of the District	Amend	Considers that Taranaki Whānui ki te Upoko o te Ika holds ahi kā and primary mana whenua status across and throughout Wellington City. The Port Nicholson Block Settlement Trust (PNBST) is the post-settlement governance entity for Taranaki Whānui, has the role to manage treaty settlement matters and is the iwi authority for resource management purposes.	Seeks that 'Description of the District' is amended to include the following: "Taranaki Whānui hold ahi kā and primary mana whenua status in Wellington City."

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Laurence Harger & Ingrid Kölle	FS2.6	Part 1 / Introduction Subpart / Introduction / Description of the District	Oppose	<p>Taranaki Whānui has sold the land it owned at Shelly Bay to The Wellington Company for a large development which was consented via the Special Housing Accords Act, thus denying the community any say on the consenting process. Community involvement should be ensured for the future though and the current DP height limit of 11 metres in some areas and the zero height limit in Open Space B land should remain. A recent poll has shown that the wider Wellington public want Shelly Bay included in a National Heritage Park centred on the 76 hectares of Watts Peninsula already designated for a reserve by the Government.</p> <p>Taranaki Whānui have treated Shelly Bay solely as a commercial proposition despite disagreement by a large group of its members (Mau Whenua) who occupied the site and opposed its sale, wanting to uphold their cultural and spiritual connection to the land. Mau Whenua continue to oppose the sale of the land at Shelly Bay and should be included by the council in all decisions taken about its future.</p>	Disallow / Seeks that the provisions relating to Shelly Bay in submission 389 are disallowed.
Mary Varnham and Paul O'Regan	FS40.6	Introduction Subpart / Introduction / Description of the District	Oppose	<p>Taranaki Whānui has sold its holdings at Shelly Bay and are no longer, as claimed, 'significant landowners'. Their possible ownership interest in the peninsula as a whole through Right of First Refusal is confined to the Mt Crawford site as the adjacent 76 hectares of Watts Peninsula has been designated reserve by the government (the current landowner) and WCC since 2011.</p> <p>The local community, despite its active interest in and use of the bay, was shut out of all consultation during the resource consent process. It is critical that it be involved in all future decision making.</p> <p>The current DP height limit of 11 metres in some areas and the zero height limit in Open Space B land is supported not only by the local community but by the wider Wellington public, as evidenced in the independent poll conducted for the group Buy Back the Bay by Research NZ, which showed that 78% of Wellingtonians want Shelly Bay included in a National Heritage Park, which would also include the 76 hectares of Watts Peninsula set aside by the government as a reserve in 2011.</p> <p>Taranaki Whānui have viewed Shelly Bay as a strictly commercial proposition and disavowed any cultural, historical and spiritual connection to the site. A substantial proportion of the iwi (mau whenua) have opposed and continue to oppose the sale of the site, and should be included by the council in all democratic decision making about the future of Shelly Bay.</p>	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Buy Back the Bay	FS79.1	Part 1 / Introduction Subpart / Introduction / Description of the District	Oppose	<p>Taranaki Whānui submission quotes its 29 March 2017 MOU with WCC that “As significant land owners at Shelly Bay, the parties recognise the importance of working together to ensure a wider strategic vision for the Miramar Peninsula is achieved for all citizens.” Considers that this is misleading. Nine days after the MOU was signed (7 July 2017) Taranaki Whānui sold three of its four Shelly Bay blocks of land to The Wellington Company, with an option for TWC to buy the fourth and final block as well (which happened later).</p> <p>Considers that when Taranaki Whānui wrote Submission 389, it was no longer a “significant land owner at Shelly Bay”. Considers that this is misleading the Proposed District Plan process. And in fact it was presumably already preparing to sell much of the land as it signed the WCC MOU.</p> <p>Considers that this is relevant to the current Proposed District Plan process. Taranaki Whānui staff have repeatedly acted as supporters and proxies for The Wellington Company property developers in WCC and other processes relating to Shelly Bay. Buy Back the Bay notes that The Wellington Company is not participating in the district plan process. Considers that it appears that Taranaki Whānui is once more fronting for the company in at least many of their requests in Submission 389. Considers that if this is the case, Buy Back the Bay question whether Taranaki Whānui’s special relationship with council should be used to assist a property developer.</p>	Disallow
Buy Back the Bay	FS79.4	Part 1 / Introduction Subpart / Introduction / Description of the District	Oppose	<p>Submission 389 states as a Submission Point, that “Taranaki Whānui opposes the zoning and extent of overlays proposed over Te Motu Kairangi / Miramar Peninsula, Mount Crawford.” It lists the relevant PDP Chapter as:</p> <ul style="list-style-type: none"> • Planning maps • He Rohe Ahoaho Māori Natural Open Space Zone chapter • Ngā Wāhi Tapu ki te Māori Sites and Areas of Significance to Māori chapter • Ngā Pūnaha Rauropi me te Kanorau Koiora Taketake Ecosystems and Indigenous Biodiversity chapter • Te Ahurei o Ngā Hanga Māori Natural Character chapter • Ngā Hanga Māori me Ngā Nohopae Natural Features and Landscapes chapter • Wawaetanga Subdivision chapter • Taiao Takutai Coastal Environment chapter <p>Opposes in total Submission 389 on these points, which appears to be a wholesale rejection of planning rules in these areas.</p>	Disallow
Te Rūnanga o Toa Rangatira	FS138.37	Part 1 / Introduction Subpart / Introduction / Description of the District	Oppose	<p>The submitter seeks amendments throughout the plan seeking Taranaki Whānui to hold ahi kā and primary mana whenua status throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira understand and acknowledge that Taranaki Whānui have a physical presence within Te Whanganui a Tara. However, if this was implemented in the plan this would mean that their ahi kā would extend across the entire extent of the Wellington City Council boundary. Ngāti Toa Rangatira do have a physical presence in Te Whanganui a Tara and sites of significance which are listed in the plan. This means that Ngāti Toa Rangatira still need to be engaged with in terms of resource management and resource consents.</p>	Disallow
CentrePort Limited	402.2	Introduction Subpart / Introduction / Description of the District	Support in part	<p>Support Description of the District in part. Submitter considers that there is no recognition of the role of the Port, the harbour or Wellingtons function as the North Island terminal for interisland freight and travel.</p>	Support Description of the District with amendments.

How the Plan Works

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
CentrePort Limited	402.3	Introduction Subpart / Introduction / Description of the District	Amend	Submitter considers that there is no recognition of the role of the Port, the harbour or Wellingtons function as the North Island terminal for interisland freight and travel.	Amend Description of the District as follows: ... <u>Wellington provides the northern link for State Highway 1 and the main trunk railway between the North Island and the South Island. Wellington Harbour (Te Whanganui-a-Tara) is an important New Zealand port, for a range of exports and imports. Wellington Airport is the third biggest passenger airport in New Zealand.</u> [Inferred decision sought] ... [Submitter seeks consistency with the Proposed Natural Resources Plan].
Wellington International Airport Limited	FS36.1	Part 3 / Residential Zones / Medium Density Residential Zone / General MRZ-PREC01	Support	WIAL supports recognition within the Description of the District of the significant freight and travel routes to and from the District, including reference to Wellington International Airport.	Allow
Guardians of the Bays Inc	FS44.1	Part 1 / Introduction Subpart / Introduction / Description of the District	Oppose	Guardians of the Bays Incorporated is not sure that the relevance to 'biggest' is required. It does not provide any information on what 'biggest' actually means e.g. size of land area, volume of aircraft movement, or number of passengers and freight?	Amend provision as follows: Wellington Airport is the third biggest passenger airport in New Zealand.
Transpower New Zealand Limited	315.11	How the Plan Works Subpart / How the Plan Works / How the Plan Works General	Amend	Supports the provided clarification in the IPI and PDP as to the legal effect of specific provisions. An amendment is sought to highlight to plan users the existence of qualifying matters and that if a development is located in an area where a qualifying matter applies, the MDRS does not have immediate legal effect. While submitter is aware the provision relating to legal effect and qualifying matters will technically not be required once the plan is made operative, considers that in the interim period it has concerns as to the lack of reference to qualifying matters and therefore supports any clarification that can be provided.	Amend the section Legal effect of rules, as follows: In addition, the District Plan gives effect to the 'Medium Density Residential Standards' (MDRS). The MDRS will replace the existing building standards in the residential zones (MRZ and HRZ) and set out the level of development that can occur on a site as a permitted activity. Specifically, MRZ-S1 to MRZ-S9 and HRZ-S1 to HRZ-S9 (excluding MRZ-S2 and HRZ-S2) have immediate legal effect, along with the related objectives, policies and rules, <u>except within a new residential zone or a qualifying matter area</u> . Note that where one or more of the PDP building standards are not met, the proposal is assessed against the equivalent standard in the Operative District Plan and not this Proposed District Plan.
Wellington International Airport Limited	FS36.2	Part 1 / How the Plan Works Subpart / How the Plan Works / How the Plan Works General	Support	Considers that it is appropriate to provide clarification around the interim legal effect of specific provisions of the plan, particularly where qualifying matters apply.	Allow
Transpower New Zealand Limited	315.12	How the Plan Works Subpart / How the Plan Works / How the Plan Works General	Support in part	Supports the provided clarification in the IPI and PDP as to the legal effect of specific provisions. An amendment is sought to highlight to plan users the existence of qualifying matters and that if a development is located in an area where a qualifying matter applies, the MDRS does not have immediate legal effect. While submitter is aware the provision relating to legal effect and qualifying matters will technically not be required once the plan is made operative, considers that in the interim period it has concerns as to the lack of reference to qualifying matters and therefore supports any clarification that can be provided.	Amend the section Legal effect of rules, as follows: In addition, the District Plan gives effect to the 'Medium Density Residential Standards' (MDRS). The MDRS will replace the existing building standards in the residential zones (MRZ and HRZ) and set out the level of development that can occur on a site as a permitted activity. Specifically, MRZ-S1 to MRZ-S9 and HRZ-S1 to HRZ-S9 (excluding MRZ-S2 and HRZ-S2) have immediate legal effect, along with the related objectives, policies and rules, <u>except within a new residential zone or a qualifying matter area</u> . Note that where one or more of the PDP building standards are not met, the proposal is assessed against the equivalent standard in the Operative District Plan and not this Proposed District Plan.
Wellington International Airport Limited	FS36.3	Part 1 / How the Plan Works Subpart / How the Plan Works / How the Plan Works General	Support	Considers that it is appropriate to provide clarification around the interim legal effect of specific provisions of the plan, particularly where qualifying matters apply.	Allow

Interpretation - Definitions

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.2	How the Plan Works Subpart / How the Plan Works / How the Plan Works General	Support	Generally supports these provisions as drafted.	Retain "How the Plan Works" section as notified.
Transpower New Zealand Limited	315.13	How the Plan Works Subpart / How the Plan Works / General Approach	Support	Supports the references to the standalone nature of the Infrastructure provisions. Such a reference assists in plan interpretation and application.	Retain the introductory text in the "Using the Plan" section as notified.
Restaurant Brands Limited	349.3	How the Plan Works Subpart / How the Plan Works / General Approach	Support	Support	Retain Te Anga Whānui - General Approach as notified.
Greater Wellington Regional Council	351.34	How the Plan Works Subpart / How the Plan Works / Cross Boundary Matters	Amend	Considers that there needs to be an emphasis on joint processing of consents would assist with giving effect to the NPS-FM.	Seeks the joint processing of consents be emphasized more.
Greater Wellington Regional Council	351.35	How the Plan Works Subpart / How the Plan Works / Cross Boundary Matters	Amend	Considers the WCC/PCC boundary should be highlighted due to its potential significance for the Porirua Stream. Any use and development, including the provision of infrastructure, affects downstream environments including Te Awarua o Porirua/Porirua Harbour, and the performance of the Porirua Wastewater Treatment Plant.	Seeks for WCC to identify/ highlight the cross-boundary issue that occurs across the Porirua Stream catchment.
Te Rūnanga o Toa Rangatira	488.8	How the Plan Works Subpart / How the Plan Works / Cross Boundary Matters	Support in part	Supports reference to joint processing of resource consents regarding Porirua harbour and cross boundary issues between Porirua and Wellington City.	#REF!
Te Rūnanga o Toa Rangatira	488.9	How the Plan Works Subpart / How the Plan Works / Cross Boundary Matters	Amend	Considers that the chapter should be amended to ensure that any use and development that impacts the downstream environment and Harbour as well as the Porirua Waste Water Treatment Plan performance.	Amend and redraft relevant sections of the Proposed District Plan to highlight and clearly spell out the significant cross boundary issue of pollution from Wellington City upstream to Te Awarua o Porirua.
Avryl Bramley	202.9	How the Plan Works Subpart / How the Plan Works / Relationships Between Spatial Layers	Amend	Considers it is not clear what the relationship between provisions is.	Seeks clarification how the Character precincts and Mount Victoria North Character Precincts provisions relate to one another.
Royal Forest and Bird Protection Society	345.3	Interpretation Subpart / Interpretation General / Interpretation General	Support in part	Generally supports these provisions as drafted, except for the definitions noted below.	Retain "Interpretation" section as notified, except for the definitions submitted on below.
McDonald's	274.3	Interpretation Subpart / Definitions / Definitions - General	Support in part	The PDP contains a number of definitions that McDonald's Restaurants will fall under: <ul style="list-style-type: none"> • Service retail • Retail activity • Commercial activity • Drive-through activity • Drive-through restaurant In general McDonald's supports these definitions; however, it is unclear how the definitions relate to each other.	Retain the Definitions, subject to amendments, as outlined other submission points.
McDonald's	274.4	Interpretation Subpart / Definitions / Definitions - General	Amend	Given the discretionary default there needs to be certainty provided in this regards and McDonald's consider that it would be beneficial for the PDP to include a nesting table on the hierarchy of activities. This provides a logical method for organising different land use activities in a broader term.	Seeks amendment to include nesting table for definitions.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Foodstuffs North Island	FS23.1	Part 1 / Interpretation Subpart / Definitions / Definitions - General	Support	FSNI support creating a nesting table within the definitions. Submission point 274.4 supports FSNI submission point 476.2.	Allow
Rimu Architects Ltd	318.1	Interpretation Subpart / Definitions / Definitions - General	Amend	Considers that some definitions have a grey background due to being set by the National Planning Standards. It would be useful to have this noted at the start of the table.	Amend the Introduction to the Definitions chapter to state that 'Definitions set by the National Planning Standards are printed on a grey background'.
Yvonne Weeber	340.2	Interpretation Subpart / Definitions / Definitions - General	Oppose in part	The current definitions relating to the Airport Zone, Airport Noise and Airport Designation are opposed, as they do not match the ones in the Operative Plan. Definitions relating to the Airport Zone, Airport Noise and Airport Designation need to remain the same as the operative plan to ensure the integrity of the agreed designation conditions on the Airports Main Site Area and East Side Area to allow these provisions to function properly.	Opposes all definitions relevant to the Airport Zone, Airport Noise and Airport Designation as they are not the same as the ones in the Operative Plan.
Yvonne Weeber	340.3	Interpretation Subpart / Definitions / Definitions - General	Amend	All definitions relevant to the Airport Zone, Airport Noise and Airport Designation needs to remain the same as the operative plan to ensure the integrity of the agreed designation conditions on the Airports Main Site Area and East Side Area to allow these provisions to function properly.	Reinstate the Operative Plan's definitions relevant to the Airport Zone, Airport Noise and Airport Designation.
Wellington International Airport Limited	FS36.4	Part 1/Interpretation Subpart / Definitions / Definitions - General	Not specified	Considers that the Operative Plan does not define many of the terms used within the Airport Zone. WIAL has filed submission with respect to the Proposed Plan that seeks to ensure the definition of terms such as "Airport Activity" and "Air Noise Boundary" reflect what is anticipated by the Main Site Area and East Side Area designations.	Disallow
Restaurant Brands Limited	349.4	Interpretation Subpart / Definitions / Definitions - General	Support	Support	Retain Ngā Tautuhinga – Definitions as notified.
Foodstuffs North Island	FS23.31	Interpretation Subpart / Definitions / Definitions - General	Support	Submission point 349.4 supports FSNI submission points 476.3 - 476.6 however FSNI submission also seeks inclusion of a nesting table (476.2).	Allow
Guardians of the Bays	452.2	Interpretation Subpart / Definitions / Definitions - General	Amend	The submitter seeks that the definitions relevant to the Airport Zone as the definitions need to remain the same as the operative plan to ensure the integrity of the agreed designation conditions on the Airports Main Site Area and East Side Area to allow these provisions to function properly.	Amend all definitions relevant to the Airport Zone to be the same as the operative plan to ensure the integrity of the agreed designation conditions on the Airports Main Site Area and East Side Area to allow these provisions to function properly.
Wellington International Airport Limited	FS36.5	Part 1/Interpretation Subpart / Definitions / Definitions - General	Not specified	Considers that the Operative Plan does not define many of the terms used within the Airport Zone. WIAL has filed submission with respect to the Proposed Plan that seeks to ensure the definition of terms such as "Airport Activity" and "Air Noise Boundary" reflect what is anticipated by the Main Site Area and East Side Area designations.	Disallow
Foodstuffs North Island	476.2	Interpretation Subpart / Definitions / Definitions - General	Amend	Considers that it would be beneficial for the PDP to include a nesting table on the hierarchy of activities because would provide a logical method for organising different land use activities in a broader term.	Seeks that the Definitions include a nesting table on the heirarchy of activities.
Rod Halliday	25.18	Interpretation Subpart / Definitions / New definition	Amend	No definition of 'Gas Transmission Pipeline corridor'. Without a definition, it may capture minor residential supply pipes down to individual stubs to dwellings.	Add new definition for 'Gas Transmission Pipeline Corridor'.
Firstgas Ltd	FS97.1	Part 1 / Interpretation Subpart / Definitions / New definition	Support	Firstgas supports this submission which seeks to add a new definition of 'Gas Transmission Pipeline Corridor'. The inclusion of this definition is required to help implement rules within the Plan which relate to the gas transmission pipeline corridor. The definition would allow buffer/setback areas to be determined and therefore appropriately managing potential reverse sensitivity effects. This definition would provide clarity to the plan user of the extent of the pipeline corridor.	Allow
New Zealand Agricultural Aviation Association	40.2	Interpretation Subpart / Definitions / New definition	Amend	A new definition should be added for 'Agricultural Aviation Activity' so that it can be used in relevant rules and definitions to clearly describe the use of rural airstrips and landing areas by aircraft for rural production, biosecurity and biodiversity (conservation) activities.	Add a new definition for 'AGRICULTURAL AVIATION ACTIVITY' as follows: <u>Agricultural Aviation Activity: means the intermittent operation of an aircraft from a rural airstrip or helicopter landing area for primary production activities, and; conservation activities for biosecurity, or biodiversity purposes; including stock management, and the application of fertiliser, agrichemicals, or vertebrate toxic agents (VTA's). For clarity, aircraft includes fixed-wing aeroplanes, helicopters, and unmanned aerial vehicles (UAV's).</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Limited	FS36.6	Part 1/ Interpretation Subpart / Definitions / New definition	Not specified	WIAL remains neutral with respect to this proposed definition, however notes that such activities will fall within the management of the control tower at Wellington International Airport where they occur within the flight paths / operational areas of aircraft approaching / departing Wellington International Airport.	Allow / Seeks that part of the submission be allowed.
Nick Ruane	61.1	Interpretation Subpart / Definitions / New definition	Amend	Considers that the concept of Universal Design requires a definition in the PDP as it is referenced.	Add a definition for 'UNIVERSAL DESIGN' as follows: <u>"Universal Design is the design and composition of an environment so that it can be accessed, understood and used to the greatest extent possible by all people regardless of their age, size, ability or disability. An environment (or any building, product, or service in that environment) should be designed to meet the needs of all people who wish to use it. This is not a special requirement, for the benefit of only a minority of the population. It is a fundamental condition of good design."</u>
Nick Ruane	61.2	Interpretation Subpart / Definitions / New definition	Amend	Considers a definition of 'ACCESSIBILITY' is required as it is defined under international law.	Add a new definition for 'ACCESSIBILITY' as defined in international law as follows: <u>"Article 9 – Accessibility States Parties shall take appropriate measures to ensure to persons with disabilities access, on an equal basis with others, to the physical environment, to transportation, to information and communications, including information and communications technologies and systems, and to other facilities and services open or provided to the public, both in urban and in rural areas"</u>
Heritage New Zealand Pouhere Taonga	70.3	Interpretation Subpart / Definitions / New definition	Oppose	Considers that the word 'overlay' is used in a number of parts of the PDP, including Infrastructure and Subdivision. A definition would improve the meaning of these clauses for the convenience of plan users. The Porirua PDP includes a definition of overlay which can be adapted for use in the Wellington District Plan.	Opposes the absence of a definition for 'overlay' and seeks that one be added.
Wellington International Airport Limited	FS36.7	Part 1/ Interpretation Subpart / Definitions / New definition	Oppose	WIAL supports the inclusion of a definition in principle as this will provide greater certainty for plan users. WIAL submits however, that the proposed definition only refers to schedules, despite the term "overlay" being used in other contexts within the Proposed Plan (such as "Air Noise Overlay").	Disallow / Seeks that part of the submission be disallowed.
Heritage New Zealand Pouhere Taonga	70.4	Interpretation Subpart / Definitions / New definition	Amend	Considers that the word 'overlay' is used in a number of parts of the PDP, including Infrastructure and Subdivision. A definition would improve the meaning of these clauses for the convenience of plan users.	Add new definition for 'Overlay' as follows: <u>means the spatially identified sites, items, features, or areas with distinctive values, risks or other factors within the City which require management in a different manner from underlying zone provisions, as set out in Schedules 1-8 and 10-12.</u>
Wellington International Airport Limited	FS36.8	Part 1/ Interpretation Subpart / Definitions / New definition	Oppose	WIAL supports the inclusion of a definition in principle as this will provide greater certainty for plan users. WIAL submits however, that the proposed definition only refers to schedules, despite the term "overlay" being used in other contexts within the Proposed Plan (such as "Air Noise Overlay").	Disallow / Seeks that part of the submission be disallowed.
M&P Makara Family Trust	159.1	Interpretation Subpart / Definitions / New definition	Amend	Considers that it is unclear what the difference is between "repowering" and "upgrading".	Add a definition for 'Repowering' (if it is different to 'Upgrading').
Meridian Energy Limited	FS101.1	Part 1 / Interpretation Subpart / Definitions / New definition	Support	Considers that the meaning of 're-powering' is framed by the rules in which the expression is used. Meridian has no opposition to a new definition for 'repowering' but will need to consider the detail of any wording proposed.	Allow / Seeks that definition be circulated prior to hearings and S42a reports.
Go Media Ltd	236.2	Interpretation Subpart / Definitions / New definition	Amend	Considers that "Plain Wall Surface" in SIGN-S5.1 is open to interpretation.	Seeks a new definition of PLAIN WALL SURFACE. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Generation Zero Inc	254.8	Interpretation Subpart / Definitions / New definition	Amend	Considers that new definition will provide clarity around the walkable catchments that have been used in the PDP. As well as to provide flexibility in amending a walkable catchment in the future, should that be required.	Add definition for 'walkable catchment', as follows: <u>WALKABLE CATCHMENT</u> means the area an average person could walk from a specific point to get to multiple destinations. <u>The City Centre Zone uses a 15-minute walkable catchment. Walkable catchments around Metropolitan Centre zones and existing and planned rapid transit stops are also 15 minutes.</u>
Onslow Residents Community Association	FS80.40	Part 1 / Interpretation Subpart / Definitions / New definition	Oppose	Considers that the Johnsonville Rail Line does not meet the National Policy Statement on Urban Development definition of a rapid transit service.	Disallow
Kāinga Ora – Homes and Communities	FS89.68	Part 1 / Interpretation Subpart / Definitions / New definition	Support	Kāinga Ora supports this submission to the extent that this aligns with the Kāinga Ora primary submission.	Allow
Living Streets Aotearoa	FS130.15	Part 1 / Interpretation Subpart / Definitions / New definition	Oppose	Submitter seeks definition of 'walk catchment' based on an average person. There is no 'average' person. A walk catchment is a planning device in relation to destination points. The MFE definition notes that a very simplistic radial pedestrian-shed analysis would be sufficient to determine a walk catchment, Living Streets Aotearoa do not agree.	Disallow
Wellington City Council	266.49	Interpretation Subpart / Definitions / New definition	Amend	Considers that to provide greater clarification in relation to different types of wetlands – in particular to distinguish between “constructed wetland” and “natural wetland” a new definition should be added. A definition of Constructed Wetland provides for clarity regarding types of wetlands, as set out by National Institute of Water and Atmospheric Research.	Add new definition for 'constructed Wetland' as follows: <u>CONSTRUCTED WETLAND</u> means an artificial wetland that can be designed for flood control in addition to be used for natural processes involving wetland vegetation, soils, and their associated microbial assemblages to treat domestic wastewater, industrial wastewater, greywater or stormwater runoff, to improve water quality. Consequential amendments throughout the PDP to reference new definition.
Wellington City Council	266.50	Interpretation Subpart / Definitions / New definition	Amend	Considers that a new definition should be added for first flush to provide clarity in association with amendments to THW-P1. This definition is consistent with Auckland Council GD01.	Add a new definition for 'First Flush' as follows: <u>FIRST FLUSH</u> means the initial surface runoff from a storm event. Initial runoff from highly impervious areas typically has high concentrations of pollutants compared to the remainder of the storm.
Wellington City Council	266.51	Interpretation Subpart / Definitions / New definition	Amend	Considers there is no definition of "interpretation signs".	Add a new definition for 'Interpretation Signs' as follows: <u>INTERPRETATION SIGNS</u> means signs that provide information to the public on the environmental, historic, cultural or other values of an area, often with photos, drawings or maps. Consequential amendments throughout the PDP to reference new definition.
Wellington City Council	266.52	Interpretation Subpart / Definitions / New definition	Amend	Considers it necessary to provide greater clarification in relation to different types of wetlands – in particular to distinguish between “constructed wetland” and “natural wetland”. This gives greater effect to the NPS-FM and NES-FM, and is consistent with Regional Policy Statements and plans.	Add a new definition for 'Natural Wetland' as follows: <u>NATURAL WETLAND</u> has the same meaning as defined in the National Policy Statement for Freshwater Management 2020 means a wetland (as defined in the Act) that is not: (a) a wetland constructed by artificial means (unless it was constructed to offset impacts on, or restore, an existing or former natural wetland); or (b) a geothermal wetland; or (c) any area of improved pasture that, at the commencement date, is dominated by (that is more than 50% of) exotic pasture species and is subject to temporary rain derived water pooling. Consequential amendments throughout the PDP to reference new definition.
Greater Wellington Regional Council	FS84.1	Part 1 / Interpretation Subpart / Definitions / New definition	Support	Greater Wellington agree that the types of wetlands need to be distinguished in the Proposed District Plan and support the insertion of the natural wetlands definition from the NPS-FM. This relief would align with the Proposed Natural Resources Plan	Allow
Wellington City Council	266.53	Interpretation Subpart / Definitions / New definition	Amend	Considers clarification is needed around the meaning of 'undeveloped state' as used in the Three Waters chapter.	Seeks to clarify/add a new definition for 'undeveloped site' through collaboration with Greater Wellington Regional Council and Wellington Water.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	FS84.2	Part 1 / Interpretation Subpart / Definitions / New definition	Support	Greater Wellington agree that a new definition or greater clarity on the term "undeveloped state" would be beneficial.	Allow
Survey & Spatial New Zealand Wellington Branch	FS116.1	Part 1 / Interpretation Subpart / Definitions / New definition	Oppose	Rather than introduce a definition for "undeveloped state", SSNZ Wellington prefer to delete the term "undeveloped state" from the definition of "hydraulic neutrality" and amend the definition of "hydraulic neutrality"	Disallow
Wellington City Council	266.54	Interpretation Subpart / Definitions / New definition	Amend	Considers front, side and rear yards are not defined.	Add a new definitions as follows: <u>YARD</u> <u>means: any part of a site that must be kept clear and unobstructed by buildings and structures, except as otherwise provided for by this Plan. Yards will be measured in a horizontal plane at right angles to the boundary.</u> <u>- Front yard: where a site has frontage to a road, the area of land between the front boundary of the site and a line parallel to that boundary, extending the full width of the site. Where the site has two frontages to a road, each frontage is considered a front yard.</u> <u>- Rear yard: the area of land between the rear boundary of the site and a line parallel to that boundary, extending across the full width of the site. This will typically be the boundary associated with the rear elevation of a residential unit.</u> <u>- Side yard: the area of land between a side boundary of the site and a line parallel to that boundary, extending the full width of the site, but excluding those areas comprising front or rear yards.</u>
Fire and Emergency New Zealand	273.3	Interpretation Subpart / Definitions / New definition	Amend	Seeks to add new definition for "temporary emergency services training activity" to provide greater clarity to plan users and to support the relief sought elsewhere in this feedback. In order to ensure an efficient and effective emergency response, firefighter training is an essential activity undertaken by FENZ. Firefighter training may include live fire training and equipment training both on and off site. The Statement of Performance Expectations (SPE) 2021/22 confirms a commitment to the Government that all firefighters achieve a certain level of training.	Add new definition "temporary emergency services training activity": <u>Means a temporary activity undertaken for the training of any component of FENZ New Zealand for any emergency purpose. An emergency purpose are those purposes which enable FENZ New Zealand to achieve its main functions under sections 11 and 12 of the FENZ New Zealand Act 2017.</u>
Firstgas Limited	304.6	Interpretation Subpart / Definitions / New definition	Amend	Considers that a new definition for 'Gas Transmission Pipeline Corridor' should be added. The inclusion of additional terms is sought, which are required to implement rules in the Plan related to the Gas Transmission Network. The terms are required to differentiate between the underground, above ground and buffer/setbacks areas in relation to the infrastructure and managing potential reverse sensitivity issues. The definitions provide clarity on terms and how those terms relate to outcomes sought.	Add a new definition for 'Gas Transmission Pipeline Corridor' as follows: <u>Gas Transmission Pipeline Corridor: The area of land within 10m either side of the centreline of the Gas Transmission Pipeline.</u>
Firstgas Limited	304.7	Interpretation Subpart / Definitions / New definition	Amend	Considers that a new definition for 'Gas Transmission Network' should be added. The inclusion of additional terms is sought, which are required to implement rules in the Plan related to the Gas Transmission Network. The terms are required to differentiate between the underground, above ground and buffer/setbacks areas in relation to the infrastructure and managing potential reverse sensitivity issues. The definitions provide clarity on terms and how those terms relate to outcomes sought.	Add a new definition for 'Gas Transmission Network' as follows: <u>Gas Transmission Network: Pipelines for the transmission of natural or manufactured gas or petroleum at a gauge pressure exceeding 2,000 kilopascals, including any associated above or below-ground fitting, appurtenance, fixture or equipment required for the conveyance of the product or material in the pipeline and/or for its safe, efficient or effective operation.</u>
Firstgas Limited	304.8	Interpretation Subpart / Definitions / New definition	Amend	Considers that a new definition for 'Gas Transmission Pipeline' should be added. The inclusion of additional terms is sought, which are required to implement rules in the Plan related to the Gas Transmission Network. The terms are required to differentiate between the underground, above ground and buffer/setbacks areas in relation to the infrastructure and managing potential reverse sensitivity issues. The definitions provide clarity on terms and how those terms relate to outcomes sought.	Add a new definition for 'Gas Transmission Pipeline' as follows: <u>Gas Transmission Pipeline: means any high pressure gas pipeline to convey natural gas at a gauge pressure exceeding 2,000 kilopascals.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Transpower New Zealand Limited	315.14	Interpretation Subpart / Definitions / New definition	Amend	<p>Considers that as defined by section 771 and 770 of the RMA, the National Grid Corridor framework is considered a qualifying matter as:</p> <ul style="list-style-type: none"> - it is a matter required to give effect to the NPSET being a national policy statement (other than the NPS-UD); - it is a matter required for the purpose of ensuring the safe or efficient operation of nationally significant infrastructure; - provisions that restrict development in relation to the National Grid are included in the Operative District Plan; and - provisions that would protect the National Grid from inappropriate subdivision, use and development that would otherwise be permitted by the MDRS are included in the proposed district plan. <p>Considers given the role and importance of qualifying matters to the implementation of the RMA, the submitter supports the provision of a definition as an effective and practical method to clearly identify the existing qualifying matter provisions and provide clarity to plan users as to the provisions that will continue to apply where the MDRS and NPSUD intensification provisions would otherwise apply unrestricted.</p> <p>[see Appendix D in original submission for full reasons]</p>	<p>Add a new definition for Qualifying Matter as follows:</p> <p><u>Qualifying matter means a matter referred to in section 771 or 770 of the RMA.</u></p>
Wellington International Airport Limited	FS36.9	Part 1/ Interpretation Subpart / Definitions / New definition	Support	<p>WIAL supports in principle the inclusion of a definition for “qualifying matter” and “qualifying matter area” in the Proposed Plan. WIAL submits that this definition should be complete and further “qualifying matter areas” added. For example, the Wellington Airport Air Noise Boundary and Obstacle Limitation Surface should be included in the definition.</p>	Allow / Seeks that part of the submission be allowed.
Kāinga Ora – Homes and Communities	FS89.22	Part 1 / Interpretation Subpart / Definitions / New Definition	Oppose	<p>Kāinga Ora opposes this request, as it considers that it is not required to aid in interpretation or implementation of the Plan. Kāinga Ora also opposes consequential changes to other provisions and rules referencing this proposed new term.</p>	Disallow
Transpower New Zealand Limited	315.15	Interpretation Subpart / Definitions / New definition	Amend	<p>Considers that as defined by section 771 and 770 of the RMA, the National Grid Corridor framework is considered a qualifying matter as:</p> <ul style="list-style-type: none"> - it is a matter required to give effect to the NPS-ET being a national policy statement (other than the NPS-UD); - it is a matter required for the purpose of ensuring the safe or efficient operation of nationally significant infrastructure; - provisions that restrict development in relation to the National Grid are included in the Operative District Plan; and - provisions that would protect the National Grid from inappropriate subdivision, use and development that would otherwise be permitted by the MDRS are included in the proposed district plan. <p>Considers given the role and importance of qualifying matters to the implementation of the RMA, the submitter supports the provision of a definition as an effective and practical method to clearly identify the existing qualifying matter provisions and provide clarity to plan users as to the provisions that will continue to apply where the MDRS and NPSUD intensification provisions would otherwise apply unrestricted.</p> <p>[See Appendix D in submission for full reasons]</p>	<p>Add a new definition for Qualifying Matter Area as follows:</p> <p><u>Qualifying matter area means a qualifying matter listed below:</u></p> <p><u>(a) The National Grid Yard / Transmission Line Buffer (32 metres)</u></p> <p><u>(b) The National Grid Subdivision Corridor/ Transmission Line Buffer (32 metres)</u></p> <p><u>(c)</u></p>
Wellington International Airport Limited	FS36.10	Part 1/ Interpretation Subpart / Definitions / New definition	Support	<p>WIAL supports in principle the inclusion of a definition for “qualifying matter” and “qualifying matter area” in the Proposed Plan. WIAL submits that this definition should be complete and further “qualifying matter areas” added. For example, the Wellington Airport Air Noise Boundary and Obstacle Limitation Surface should be included in the definition.</p>	Allow / Seeks that part of the submission be allowed.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	FS72.1	Part 1 / Introduction and General Provisions / Definitions / Qualifying Matter Area	Support	Supports the definition of 'Qualifying matter area' provided the definition includes the rail corridor as a qualifying matter. Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Amend / Amend provision by including the rail corridor as a qualifying matter.
Kāinga Ora – Homes and Communities	FS89.23	Part 1 / Interpretation Subpart / Definitions / New Definition	Oppose	Kāinga Ora opposes this request which would constrain urban development. Kāinga Ora also opposes all consequential changes to other provisions and rules referencing this proposed new term.	Disallow
Rimu Architects Ltd	318.2	Interpretation Subpart / Definitions / New definition	Amend	Considers that Neither 'carpark' nor 'garage' are defined. When counting parking spaces, spaces within garages need to be included. TR - S7 sets out requirements for on-site vehicle parking and refers to Figure 5- TR and Table 10- TR. While these references have not been stated here, it may be worthwhile to expand the suggested definition to include them.	Add a new definition for 'Car Parking Spaces' as follows: <u>means a space adequate for parking an 4.91m x 1.87m vehicle (85th percentile vehicle) and includes a space or spaces within a garage.</u>
Rimu Architects Ltd	318.3	Interpretation Subpart / Definitions / New definition	Amend	Considers that the current 'ongoing use' definition describes a continuing original use.	Add a new definition for 'Original Use' as follows: <u>means keeping a building or object in the same use it was originally constructed for.</u>
Rimu Architects Ltd	318.4	Interpretation Subpart / Definitions / New definition	Amend	Considers that there is a definition of rapid transit stop, which references 'rapid transit service' and rapid transit stops are listed, along with railway stations in the definition of public transport activities. To future-proof the plan, it would be useful to define a minimum level for public transport to be considered rapid transit.	Add a new definition for 'Rapid Transit' as follows: <u>Includes public transport segregated from other traffic, including dedicated busways, trackless trams, trams, light rail and 'heavy' rail electrified multiple units</u>
The Sustainability Society	339.1	Interpretation Subpart / Definitions / New definition	Amend	Considers that a definition for "water sensitive design" should be provided. It is important to recognise that water sensitive design is largely based on a set of Principals that cover water quality, water quantity, integrated urban design and co-benefits. A comprehensive definition of what is meant by the term water sensitive design should be included.	Add a definition for "Water Sensitive Design".
Carolyn Stephens	344.7	Interpretation Subpart / Definitions / New definition	Amend	Considers that a comprehensive, holistic definition of character should be added, clarifying character as a qualifying matter under the National Policy Statement-Urban Development.	Add a new definition for "Character" that is comprehensive, holistic and qualifies character as a qualifying matter under the NPS-UD.
Retirement Villages Association of New Zealand Incorporated	350.1	Interpretation Subpart / Definitions / New definition	Amend	Considers that the definition of 'residential unit' will be applicable to some units within retirement villages. In some cases, it will be necessary for the Proposed Plan to distinguish between a residential unit and a retirement unit. Seeks that a new definition of 'residential unit' is inserted.	Add new definition for RETIREMENT UNIT as follows: <u>means any unit within a retirement village that is used or designed to be used for a residential activity (whether or not it includes cooking, bathing and toilet facilities). A retirement unit is not a residential unit.</u>
Greater Wellington Regional Council	351.36	Interpretation Subpart / Definitions / New definition	Amend	Considers the term 'hard engineering' is defined in both the RPS and regional plan. Including a definition for hard engineering natural hazard mitigation works would align with the use of a specific definition of soft engineering hazard mitigation works.	Add a new definition for 'Hard Engineering Natural Hazards Mitigation Works' to align with operative RPS and regional plan as follows: <u>Engineering works that use structural materials such as concrete, steel, timber or rock armour to provide a hard, inflexible edge between the land-water interface along rivers, shorelines or lake edges. Typical structures include groynes, seawalls, revetments or bulkheads that are designed to prevent erosion of the land.</u>
Wellington International Airport Limited	FS36.11	Part 1/ Interpretation Subpart / Definitions / New definition	Support	WIAL supports the inclusion of this definition, as derived from the Greater Wellington Regional Policy Statement and Regional Plan. WIAL would be comfortable for any relief that seeks to address the concerns raised in its primary submission with respect to the seawall located between Lyall Bay and Moa Point to adopt this language.	Allow
Wellington Electricity Lines Limited	355.6	Interpretation Subpart / Definitions / New definition	Not specified	Submitter is 'neutral'. [Refer to original submission]	Seeks a new definition for 'EV Charging Stations'.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Electricity Lines Limited	355.7	Interpretation Subpart / Definitions / New definition	Amend	Considers that a new, or expanded upon, definition should be included within the PDP so as to capture EV Charging Stations being included within common network utility equipment located within the road reserve. EV Charging stations are “appliances” rather than “works” as defined by Energy Safety, so are unlikely to be owned by network utility operators. However, it is important to note that the electricity distribution network will likely support such appliances within the road reserve.	Seeks that new definition for 'EV Charging Stations' is added that clearly identifies and provides for EV charging stations in the PDP.
Elizabeth Nagel	368.13	Interpretation Subpart / Definitions / New definition	Amend	Considers that a comprehensive, holistic definition of character should be added, clarifying character as a qualifying matter under the National Policy Statement-Urban Development.	Add a new definition for "Character" that is comprehensive, holistic and qualifies character as a qualifying matter under the NPS-UD.
Waka Kotahi	370.9	Interpretation Subpart / Definitions / New definition	Amend	There is currently no definition for active transport, but several references to it in the PDP. For the sake of clarity, Waka Kotahi seeks that a definition be provided, and that the definition include cycling, micromobility and walking (including to and from public transport journeys).	Add a new definition for 'Active Transport'.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.6	Interpretation Subpart / Definitions / New definition	Amend	Considers that Hazardous Facilities are not defined in the PDP and clarification is sought on this matter.	Add a new Definition for 'Hazardous Facilities'.
Wellington International Airport Limited	FS36.12	Part 1/ Interpretation Subpart / Definitions / New definition	Support	WIAL supports the inclusion of this definition as it will assist with the application and implementation of provisions contained with the Ngā Matū Mōrearea Hazardous Substances section of the Proposed Plan.	Allow
Envirowaste Services Ltd	373.1	Interpretation Subpart / Definitions / New definition	Amend	Considers that there needs to be a definition for organic composting in order to provide for the composting of household food waste on a city-wide scale.	Add a new definition for 'Organic Composting'.
WCC Environmental Reference Group	377.6	Interpretation Subpart / Definitions / New definition	Amend	Considers that 'Urban Areas' is not defined.	Not specified.
WCC Environmental Reference Group	377.7	Interpretation Subpart / Definitions / New definition	Amend	Considers that a new definition of 'walking catchments' is needed, being the definition provided by Section 5.5 of the MfE guidance in relation to the NPS-UD.	Add a 'walkable catchment' definition to the plan, being the definition provided by Section 5.5 of the MfE guidance in relation to the NPS-UD: <u>A walkable catchment is the area that an average person could walk from a specific point to get to multiple destinations. A walkable catchment of 400 metres is typically associated with a five-minute average walk and 800 metres with a 10-minute average walk. These distances are also affected by factors such as land form (eg, hills take longer to walk up and can be an obstacle to walking), connectivity or severance (eg, the lack of ease and safety of crossing roads, highways and intersections), and the quality of footpaths. Walkable catchments can be determined either using a simple, radial pedshed analysis or a more detailed GIS (geographic information systems) network analysis.</u>
Living Streets Aotearoa	FS130.17	Part 1 / Interpretation Subpart / Definitions / New definition	Oppose	Submitter seeks definition of 'walk catchment' based on an average person. There is no 'average' person. A walk catchment is a planning device in relation to destination points. The MfE definition notes that a very simplistic radial pedestrian-shed analysis would be sufficient to determine a walk catchment, Living Streets Aotearoa do not agree.	Disallow
WCC Environmental Reference Group	377.8	Interpretation Subpart / Definitions / New definition	Amend	Considers that there should be a definition for "net zero emissions" or "zero carbon" to have consistency of language regarding the city's response to climate change. It is laudable to see a commitment to align with the goal of net zero emissions by 2050. However, this section uses inconsistent language and does not fully express the urgency needed to address climate change, nor the critical role that cities can play through their Plans.	Seeks that a single term, such as "net zero emissions" or "zero carbon" be defined.
Wellington International Airport Limited	FS36.13	Part 1/ Interpretation Subpart / Definitions / New definition	Not specified	WIAL supports, in principle, the inclusion of a definition to this effect, however opposes to the extent that further clarity around the drafting and implementation effects of such a term should be included.	Allow / Seeks that part of submission be allowed, but opposes to the extent that further clarity around the drafting and implementation effects of such a term should be included.
Director-General of Conservation	385.9	Interpretation Subpart / Definitions / New definition	Not specified	Considers that a definition be provided for "temporary infrastructure" within the Proposed District Plan.	Seeks that definition of "Temporary Infrastructure" is included within the Proposed District Plan

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Chorus New Zealand Limited (Chorus), Spark New Zealand Trading Limited (Spark) and Vodafone New Zealand Limited (Vodafone)	FS25.1	Interpretation Subpart / Definitions / New definition	Oppose	A definition is considered to be unnecessary as the 12-month time limit and relevant permitted activity standards adequately determine the effects envelope. [Inferred reference to submission 385.9]	Disallow
KiwiRail Holdings Limited	FS72.2	Interpretation Subpart / Definitions / New definition	Support	Supports the definition of 'Temporary infrastructure'. KiwiRail utilises temporary infrastructure within the rail corridor as part of the maintenance, repair, development and upgrade of the rail network. KiwiRail sees value in the definition being defined in the plan to provide for temporary rail infrastructure. Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Allow
Director-General of Conservation	385.10	Interpretation Subpart / Definitions / New definition	Not specified	Considers appropriate to include an additional definition for a 'restoration or enhancement activity' in relation to the natural environment. Some of the policies and rules under this chapter refer to 'restoration', however the only definition of restoration under the Proposed District Plan relates to heritage values.	Seeks that an additional definition is include for a 'restoration or enhancement activity' in relation to the natural environment.
Greater Wellington Regional Council	FS84.14	Part 1 / Interpretation Subpart / Definitions / New definition	Support	Greater Wellington agree that the proposed definitions of 'restored' and 'restoration' do not adequately support the interpretation of the plan provisions. The terms are also not consistent with the regional plan.	Allow / Seeks definitions that are either consistent with the regional plan or a new definition for 'Restoration or Enhancement Activity'.
Taranaki Whānui ki te Upoko o te Ika	389.25	Interpretation Subpart / Definitions / New definition	Amend	Considers that there is a need to add papakāinga to definitions. Considers that within Taranaki Whānui's future aspirations for their properties could include papakāinga. [see original submission]	Seeks that a definition of 'papakāinga' be added to the Proposed District Plan.
Andy Foster	FS86.2	Part 1 / Interpretation Subpart / Definitions / New definition	Support	Considers it is important that papakainga are allowed for. Considers that there is a problem with Taranaki Whanui's submission is that it is completely open ended about definition, location, size, design, height – and therefore potential impacts. Considers that it is quite reasonable that papakainga be allowed in areas where that level of development is anticipated. For example in residential areas allowing 11 metre heights, and the appropriate level of site coverage. That does not apply in ridgelines, special amenity areas, or open space. For Watts Peninsula this again means that a papakainga could well be a result of a master planning exercise, but it would come with some certainty about location, scale etc. Supports the request in part as it applies to zones where housing development of equivalent scale, height, site coverage is expected. For clarity that excludes open space and recreation zones and limits scale in rural areas. [See original Further Submission for full reasoning]. [Inferred reference to submission 389.25]	Allow
Te Rūnanga o Toa Rangatira	FS138.36	Part 1 / Interpretation Subpart / Definitions / New definition	Support	The submitter seeks for a papakāinga chapter to be added to the plan. Te Rūnanga o Toa Rangatira support this part of the submission because we also seek the inclusion of a papakāinga chapter in the plan, as it will provide pathways for tangata whenua to build housing and gain tino rangatiratanga in regard to housing.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Taranaki Whānui ki te Upoko o te Ika	389.26	Interpretation Subpart / Definitions / New definition	Amend	Considers that it is needed to add definition of ahi kā and how it is expressed by Taranaki Whānui	Seeks that definition of 'ahi kā' is added and how it is expressed by Taranaki Whānui .
Taranaki Whānui ki te Upoko o te Ika	389.27	Interpretation Subpart / Definitions / New definition	Amend	Considers a definition for rāhui to be appropriate to add to the Proposed District Plan.	Seeks that a definition of 'rāhui' to be Added and to be discussed with Taranaki Whānui.
Kāinga Ora Homes and Communities	391.31	Interpretation Subpart / Definitions / New definition	Amend	Considers that references to "Natural Hazard Overlays" should be removed and replaced by a newly defined term "Natural Hazard Areas". Natural Hazard Overlays should instead be included as non-statutory, information-only mapping layer that sits outside the Proposed District Plan.	Seeks to add new definitions to identify flood hazards in the Plan, including a definition for "Natural Hazard Areas".
Wellington International Airport Limited	FS36.14	Part 1/ Interpretation Subpart / Definitions / New definition	Support	WIAL supports the use of natural hazard overlays as a non-statutory mapping tool, particularly with respect to the coastal hazard overlays that apply within the already built up area around Wellington International Airport.	Allow
Toka Tū Ake EQC	FS70.47	Part 1 / Interpretation Subpart / Definitions / New definition	Oppose	MfE discussion paper on National Planning Standards: Zones and Overlays supports the use of the term 'overlay' to mean mapped areas which "introduce more restrictive built form controls than apply to the underlying zone". As this is the purpose of the WCC proposed plan's Natural Hazard Overlays, the term should be retained. Regulatory natural hazard overlays, including for flood, are an important tool to limit subdivision and development within areas subject to natural hazard risk.	Disallow
CentrePort Limited	402.4	Interpretation Subpart / Definitions / New definition	Amend	Considers that there should be an explanation of what is meant by community scale to accompany the definition of 'Community Scale Natural Hazard Mitigation Structures'.	Seeks that a definition of 'community scale' is provided.
Oyster Management Limited	404.4	Interpretation Subpart / Definitions / New definition	Amend	Seeks that a new definition for "indoor exercise facilities" be added to clarify that activities such as gyms can be provided for separately from other "recreation activities" [Refer to original submission for full reason] .	Add a new definition as follows: "Indoor exercise facilities" means indoor facilities used for exercise including gyms. Includes ancillary administrative activities such as offices."
Wellington International Airport Ltd	406.27	Interpretation Subpart / Definitions / New definition	Amend	The definition of Air Noise Overlay conflates the two functions of the aircraft noise boundaries that relate to Wellington International Airport. That is: 1. the Air Noise Boundary and 60db Ldn noise boundaries are used as a trigger for specific land use management requirements; and, 2. the Air Noise Boundary is used as a compliance boundary for aircraft noise generated at Wellington International Airport. The chapeau of the definition focuses on the latter. The terms 'Air Noise Boundary' and '60dB Ldn noise boundary' are well established and widely used throughout New Zealand with respect to the aircraft noise and land use management obligations surrounding airports. The term 'Air Noise Boundary' is also consistent with NZS6805, the Operative District Plan and WIAL's communications regarding their 'Quieter Homes' programme.	Add new definition: <u>Air Noise Boundary means the boundary shown on the district plan maps, the location of which is based on predicted day/night sound levels of Ldn 65dB from future airport operations at Wellington International Airport.</u>
Guardians of the Bays Inc	FS44.2	Part 1 / Interpretation Subpart / Definitions / New definition	Not specified	Considers that there is confusion between the plan and the maps and what is being described as the Air Noise Boundaries Overlay (inner air noise overlay on the maps) and the 60db Ldn Noise Boundary (outer air noise ovelay on the maps) in the proposed District Plan.	Not specified / Seeks clarification so everyone knows the relationship of these two zoned areas in the words of the plan and the maps. The definition of Air Noise Overlay therefore needs greater clarification to link with the actual maps and wording on the maps.
Kāinga Ora – Homes and Communities	FS89.111	Part 1 / Interpretation Subpart / Definitions / New Definition	Oppose	Kāinga Ora opposes the introduction of the '60dB Ldn noise boundary' as an unnecessary and confusing addition which duplicates outer noise overlays. The definitions of inner and outer air noise overlay provide greater clarity and relate more clearly to mapped overlays.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Strathmore Park Residents Association Incorporated	FS122.2	Part 1 / Interpretation Subpart / Definitions / New definition	Oppose	Considers that as an organisation representing lay public the use of the term Overlays to specify (and map) Airport Noise Zones seems a positive step forward in giving a better understanding to DP provisions. Considers the boundaries & the means to establish them is a prescriptive, and a standards-based analysis & decision. Considers the rules which apply to the areas enclosed by boundaries (i.e. Overlays) is that defined by the District. Considers that an example is that the Inner Noise "Overlay" is divided into 3 zones for the purpose of residential noise mitigation and these zones have no reference in NZ Standards. [inferred reference to submission 406.27]	Not specified / Seeks that references to Airport Noise Overlays when referring to rules and recommendations with the formal Noise Boundaries are maintained.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.16	Part 1 / Interpretation Subpart / Definitions / New definition	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.28	Interpretation Subpart / Definitions / New definition	Amend	The definition of Air Noise Overlay conflates the two functions of the aircraft noise boundaries that relate to Wellington International Airport. That is: 1. the Air Noise Boundary and 60db Ldn noise boundaries are used as a trigger for specific land use management requirements; and, 2. the Air Noise Boundary is used as a compliance boundary for aircraft noise generated at Wellington International Airport. The chapeau of the definition focuses on the latter. The terms 'Air Noise Boundary' and '60dB Ldn noise boundary' are well established and widely used throughout New Zealand with respect to the aircraft noise and land use management obligations surrounding airports. The term 'Air Noise Boundary' is also consistent with NZS6805, the Operative District Plan and Submitter's communications regarding their 'Quieter Homes' programme.	Add new definition: <u>60db Ldn Noise Boundary means the boundary shown the district plan maps, the location of which is based on predicted day/night sound levels of Ldn 60dB from future airport operations at Wellington International Airport.</u>
Guardians of the Bays Inc	FS44.3	Part 1 / Interpretation Subpart / Definitions / New definition	Not specified	Considers that there is confusion between the plan and the maps and what is being described as the Air Noise Boundaries Overlay (inner air noise overlay on the maps) and the 60db Ldn Noise Boundary (outer air noise overlay on the maps) in the proposed District Plan.	Not specified / Seeks clarification so everyone knows the relationship of these two zoned areas in the words of the plan and the maps. The definition of Air Noise Overlay therefore needs greater clarification to link with the actual maps and wording on the maps.
Kāinga Ora – Homes and Communities	FS89.112	Part 1 / Interpretation Subpart / Definitions / New Definition	Oppose	Kāinga Ora opposes the introduction of the '60dB Ldn noise boundary' as an unnecessary and confusing addition which duplicates outer noise overlays. The definitions of inner and outer air noise overlay provide greater clarity and relate more clearly to mapped overlays.	Disallow
Strathmore Park Residents Association Incorporated	FS122.3	Part 1 / Interpretation Subpart / Definitions / New definition	Oppose	Considers that as an organisation representing lay public the use of the term Overlays to specify (and map) Airport Noise Zones seems a positive step forward in giving a better understanding to DP provisions. Considers the boundaries & the means to establish them is a prescriptive, and a standards-based analysis & decision. Considers the rules which apply to the areas enclosed by boundaries (i.e. Overlays) is that defined by the District. Considers that an example is that the Inner Noise "Overlay" is divided into 3 zones for the purpose of residential noise mitigation and these zones have no reference in NZ Standards. [Inferred reference to submission 406.28]	Not specified / Seeks that references to Airport Noise Overlays when referring to rules and recommendations with the formal Noise Boundaries are maintained.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.17	Part 1 / Interpretation Subpart / Definitions / New definition	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Michelle Rush	436.6	Interpretation Subpart / Definitions / New definition	Amend	<p>Considers that there should be a definition for 'Walking Catchment' based on MfE guidance to the NPS-UD. The definition of a walkable catchment should also be consistent with the definitions used by Porirua City, Hutt City and Auckland City to provide certainty to the community. The decisions made about walkable catchments in relation to both the city centre and metropolitan zones are inconsistent and reduce, rather than increase the ability to intensify in areas that can be intensified for the benefit of providing extra housing and spaces for businesses and other facilities.</p> <p>[Refer to original submission for full reason]</p>	<p>Add a new Definition for 'Walking Catchment'. The definition should be consistent with the following MfE guidance:</p> <p><i>"A walkable catchment is the area that an average person could walk from a specific point to get to multiple destinations. A walkable catchment of 400 metres is typically associated with a five-minute average walk and 800 metres with a 10-minute average walk. These distances are also affected by factors such as land form (eg, hills take longer to walk up and can be an obstacle to walking), connectivity or severance (eg, the lack of ease and safety of crossing roads, highways and intersections), and the quality of footpaths. Walkable catchments can be determined either using a simple, radial pedshed analysis or a more detailed GIS (geographic information systems) network analysis."</i></p> <p>and other City Councils' definitions, and should have the following criteria:</p> <p>(a) Within 1200 metres / 15 minutes of the edge of the City Centre; (b) Within 800 metres / 10 minutes of the edge of a Metropolitan Centre (e.g. Tawa, Johnsonville); (c) Within 800 metres / 10 minutes of Rapid Transit stops</p>
Living Streets Aotearoa	FS130.16	Part 1 / Interpretation Subpart / Definitions / New definition	Oppose	<p>Submitter seeks definition of 'walk catchment' based on an average person. There is no 'average' person. A walk catchment is a planning device in relation to destination points. The definition proposed by M Rush et al refers to factors affecting the ease of walking but all of the factors mentioned are not considered in the walk catchment zones provided. More factors should be included to provide a finer level of detail. The MfE definition notes that a very simplistic radial pedestrian-shed analysis would be sufficient to determine a walk catchment, Living Streets Aotearoa do not agree.</p>	Disallow
Elayna Chhiba	FS131.44	Part 1 / Interpretation Subpart / Definitions / New definition	Support	<p>Supports increasing walking catchments around the City Centre Zone for the following reasons:</p> <ul style="list-style-type: none"> - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Additionally, less reliance on private vehicles increases overall health. - Higher density housing will support providing liveable cities for future Wellingtonians. The NPS-UD and the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act provides for greater density. <p>[See original Further Submission for full reasoning].</p>	Allow

Escape Investments Limited	FS136.27	Part 1 / Interpretation Subpart / Definitions / New definition	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning morfe people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow
Escape Investments Limited	FS136.72	Part 1 / Interpretation Subpart / Definitions / New definition	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning morfe people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Rod Bray	FS137.35	Part 1 / Interpretation Subpart / Definitions / New definition	Support	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. A larger catchment would provide attractive and affordable housing closer to the city centre, away from outer suburbs where people are likely to use cars as their main means of transportation. A 15-minute walkable catchment would promote growth in areas close to the city centre and encourage a shift to more environmentally friendly modes of transportation.</p> <p>WCC should use a 15 minute walkable catchment to fall in line with the NPS-UD to increase housing supply. It is not unreasonable to expect that a large portion of residents who live a 15 minute walk away from the city centre would choose to walk as their main mode of commute. WCC should take full advantage of the NPS-UD standards by increasing the walkable catchment to 15 minutes, which will provide many benefits to Wellington city. [Refer to further submission for full reason]</p>	Allow
Michelle Rush	436.7	Interpretation Subpart / Definitions / New definition	Amend	Considers that there should be a definition to provide for a smaller scale of recycling activity. There should be more local provision for recycling and reuse including collection and sorting facilities, in line with Council's signalling of moves to a circular economy. Currently, such activities fall within the definition of heavy industry, and aren't easily provided for at local level. Local recycling facilities should be enabled at neighbourhood or local centre scale as part of supporting a circular economy.	Add a new Definition providing for smaller scale of recycling and reuse activity, including collection and sorting facilities.
John Wilson	453.5	Interpretation Subpart / Definitions / New definition	Amend	Considers that there should be a definition of 'Rapid Transit Service'. Questions whether rapid transit includes all rail services on the Kapiti and Hutt Valley lines in Wellington city? Does it include the Johnsonville line, where the EMU speed limits are lower than for the other lines? Does it include urban bus services supplied by GWRC/Metlink? It presumably includes future light rail links, although speed limits for light rail vehicles on city streets will presumably be lower than for "Heavy Rail" lines on dedicated tracks without pedestrians?	Add definition of "rapid transit service" and clarify what services would be included in this definition. [Inferred decision requested]
Anita Gude and Simon Terry	461.14	Interpretation Subpart / Definitions / New definition	Amend	Considers that in MRZ-PREC02-O1 (Purpose), as "townscape values" is not a defined term - only "townscape" is and the definition does not greatly assist with clarifying what values are at stake - much relies on the further planning framework, and the design guide in particular to protect the precinct.	Seeks that a definition of "Townscape values" is provided.
Paihikara Ki Pōneke Cycle Wellington	302.3	Interpretation Subpart / Definitions / ACCESS	Support	The definition of 'Access' is supported as it includes cycling access, which will avoid this mode being omitted from consideration across the Proposed District Plan.	Retain the definition of 'Access' as notified.
Waka Kotahi	370.10	Interpretation Subpart / Definitions / ACCESS	Support	Supports the definition of access.	Retain the definition of 'Access' as notified.
Waka Kotahi	370.11	Interpretation Subpart / Definitions / ACCESS ALLOTMENT	Oppose	Redundant as it duplicates definition of access lot and access strip.	Delete the definition of 'Access Allotment' in its entirety.
Survey & Spatial New Zealand Wellington Branch	439.1	Interpretation Subpart / Definitions / ACCESS ALLOTMENT	Support	Supports the definition.	Retain the definition "Access allotment".
Waka Kotahi	370.12	Interpretation Subpart / Definitions / ACCESS LOT	Support	Supports definition of access lot as it has a more comprehensive explanation.	Retain the definition of 'Access Lot' as notified.
Survey & Spatial New Zealand Wellington Branch	439.2	Interpretation Subpart / Definitions / ACCESS LOT	Oppose	Considers this is unnecessary given there is already a definition of "access allotment"	Delete the definition "Access lot".

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Waka Kotahi	370.13	Interpretation Subpart / Definitions / ACCESS STRIP	Oppose	Redundant as it duplicates definition of access lot and access strip.	Delete the definition of 'Access Strip' in its entirety.
Survey & Spatial New Zealand Wellington Branch	439.3	Interpretation Subpart / Definitions / ACCESS STRIP	Support	Supports the definition.	Retain the definition "Access strip".
Fire and Emergency New Zealand	273.4	Interpretation Subpart / Definitions / ACCESSORY BUILDING	Support	Supports the definition for 'Accessory Building' as it best defines detached ancillary buildings that excludes any minor residential unit.	Retain the definition of "accessory building" as notified.
Wellington Electricity Lines Limited	355.8	Interpretation Subpart / Definitions / ADDITIONAL INFRASTRUCTURE	Support in part	Clear and explicit definitions being applied in the PDP for electricity distribution network and associated facilities are supported, however a neutral stance has been taken in the context of the proposed defined terms within the PDP. It is considered that a safe, secure, affordable and resilient electric supply is critical infrastructure, and furthermore such infrastructure is just as much a priority as Council owned and operated infrastructure in regard to current or future development across the City.	Retain the Definition of 'Additional Infrastructure' as notified. [Inferred decision requested]
Waka Kotahi	370.14	Interpretation Subpart / Definitions / ADDITIONAL INFRASTRUCTURE	Support	Supports the definition of additional infrastructure.	Retain the definition of 'Additional Infrastructure' as notified.
Southern Cross Healthcare Limited	380.20	Interpretation Subpart / Definitions / ADDITIONAL INFRASTRUCTURE	Support in part	Supports the intention of the definition of 'additional infrastructure' including social infrastructure, such as healthcare facilities.	Supports definition of ADDITIONAL INFRASTRUCTURE, with amendment
Southern Cross Healthcare Limited	380.21	Interpretation Subpart / Definitions / ADDITIONAL INFRASTRUCTURE	Amend	<p>Seeks amendment of the definition of 'additional infrastructure'.</p> <p>Seeks recognition of facilities that provide healthcare services are critical to cities. Seeks that "hospitals" be added to this definition.</p> <p>Appreciates that the definition of "additional infrastructure" in the Proposed Plan is consistent with the National Policy Statement on Urban Development 2020 (NPS-UD) and generally supports the Proposed Plan being consistent with the NPS-UD.</p> <p>Questions the practicality of the application of the NPS-UD definition directly to the Proposed Plan in this case. States that the Proposed Plan differentiates 'health care activities' and 'hospitals', but the definition refers only to 'healthcare activities' – and hospitals are expressly excluded from the definition of 'healthcare activities'. While the list of social infrastructure at (d) is open-ended (and it may be the case that hospitals are intended to be included), there is concern around clarity and potential litigation.</p> <p>It is appropriate that hospitals also be included as 'additional infrastructure' definition because hospitals are critical social infrastructure (in the same way that healthcare facilities or schools are). Hospitals (including private hospitals) play an essential role in the healthcare system.</p>	Amend the definition of 'additional infrastructure' as follows: means: a. public open space; b. community infrastructure as defined in section 197 of the Local Government Act 2002; c. land transport (as defined in the Land Transport Management Act 2003) that is not controlled by local authorities; d. social infrastructure, such as schools, <u>hospitals</u> and healthcare facilities; e. a network operated for the purpose of telecommunications (as defined in section 5 of the Telecommunications Act 2001); f. a network operated for the purpose of transmitting or distributing electricity or gas.
Ministry of Education	400.3	Interpretation Subpart / Definitions / ADDITIONAL INFRASTRUCTURE	Support	Supports the definition as defined under the National Policy Statement on Urban Development since it includes schools.	Retain the definition of [Additional Infrastructure] as notified.
KiwiRail Holdings Limited	408.5	Interpretation Subpart / Definitions / ADDITIONAL INFRASTRUCTURE	Support	Supports the inclusion of land transport, as defined in the Land Transport Management Act 2003, within this definition. Land transport includes any transport on land and infrastructure facilitating that transport.	Retain definition of ADDITIONAL INFRASTRUCTURE as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.29	Interpretation Subpart / Definitions / AIR NOISE OVERLAY	Oppose	The definition of Air Noise Overlay conflates the two functions of the aircraft noise boundaries that relate to Wellington International Airport. That is: 1. the Air Noise Boundary and 60db Ldn noise boundaries are used as a trigger for specific land use management requirements; and, 2. the Air Noise Boundary is used as a compliance boundary for aircraft noise generated at Wellington International Airport.	Delete definition of "AIR NOISE OVERLAY" in its entirety.
Guardians of the Bays Inc	FS44.4	Part 1 / Interpretation Subpart / Definitions / AIR NOISE OVERLAY	Not specified	Considers that there is confusion between the plan and the maps and what is being described as the Air Noise Boundaries Overlay (inner air noise overlay on the maps) and the 60db Ldn Noise Boundary (outer air noise ovelay on the maps) in the proposed District Plan.	Not specified / Seeks clarification so everyone knows the relationship of these two zoned areas in the words of the plan and the maps. The definition of Air Noise Overlay therefore needs greater clarification to link with the actual maps and wording on the maps.
Kāinga Ora – Homes and Communities	FS89.113	Part 1 / Interpretation Subpart / Definitions / AIR NOISE OVERLAY	Oppose	Kāinga Ora opposes deletion of the air noise overlay definition which relates to clearly mapped overlay areas.	Disallow
Strathmore Park Residents Association Incorporated	FS122.4	Part 1 / Interpretation Subpart / Definitions / AIR NOISE OVERLAY	Oppose	Considers that as an organisation representing lay public the use of the term Overlays to specify (and map) Airport Noise Zones seems a positive step forward in giving a better understanding to DP provisions. Considers the boundaries & the means to establish them is a prescriptive, and a standards-based analysis & decision. Paihikara Ki Pōneke Cycle Wellington	302.4	Interpretation Subpart / Definitions / ANCILLARY TRANSPORT NETWORK INFRASTRUCTURE	Support in part	The definition of 'Ancillary Transport Network Infrastructure' is partially supported, given is amended to be more inclusive of cycling infrastructure.	Retain the definition of 'Ancillary Transport Network Infrastructure' with amendment.
Paihikara Ki Pōneke Cycle Wellington	302.5	Interpretation Subpart / Definitions / ANCILLARY TRANSPORT NETWORK INFRASTRUCTURE	Amend	Considers that this definition should be amended to include specific ancillary cycling infrastructure, as not listing this infrastructure may result in cycle infrastructure not being considered or elevated to the same level of importance as other transport. Wellington will require new types of transport infrastructure to support mode shift from private cars, such as on street secure cycle storage facilities.	Amend the definition of 'Ancillary Transport Network Infrastructure' as follows: ... <u>i. electric cycle charging facilities</u> <u>j. cycle stands, parking and storage facilities</u> <u>k. cycle repair stands</u>
Waka Kotahi	370.15	Interpretation Subpart / Definitions / ANCILLARY TRANSPORT NETWORK INFRASTRUCTURE	Amend	Considers the definition appears to be illustrative and not exhaustive.	Amend the definition of 'Ancillary Transport Network Infrastructure' as follows: "...transport network and includes, <u>but is not limited to:</u> ..."
Waka Kotahi	370.16	Interpretation Subpart / Definitions / ANCILLARY TRANSPORT NETWORK INFRASTRUCTURE	Amend	Considers the definition appears to be illustrative and not exhaustive.	Seeks to amend definition to include "rapid transit stops and shelters" should be specifically included in this definition."
KiwiRail Holdings Limited	408.6	Interpretation Subpart / Definitions / ANCILLARY TRANSPORT NETWORK INFRASTRUCTURE	Support	Supports specific reference to rail infrastructure within this definition, including train stations and rail furniture.	Retain definition of ANCILLARY TRANSPORT NETWORK INFRASTRUCTURE as notified.
Wellington Heritage Professionals	412.16	Interpretation Subpart / Definitions / ARCHAEOLOGICAL FEATURES	Amend	The definition of archaeological site should not be limited to the pre-1900 definition in the HNZPTA because this is an arbitrary date that does not reflect archaeological or historic heritage value.	[The decision requested is for the definition of 'Archaeological site', not selectable in this spreadsheet] Amend the Definition of Archaeological Site as follows: Has the same meaning as given in the Heritage New Zealand Pouhere Taonga Act 2014 (HNZPT Act) (as set out below): means, subject to section 42(3) of the HNZPT Act, a. any place in New Zealand, including any building or structure (or part of a building or structure), that— i. was associated with human activity that occurred before 1900 or is the site of the wreck of any vessel where the wreck occurred before 1900 , and ii. provides or may provide, through investigation by archaeological methods, evidence relating to the history of New Zealand; and b. includes a site for which a declaration is made under section 43(1) of the HNZPT Act.
Heritage New Zealand Pouhere Taonga	FS9.1	Part 1 / Interpretation Subpart / Definitions / ARCHAEOLOGICAL FEATURES	Oppose	The definition as notified is aligned with the HNZPTA 2014 definition, and for consistency should be retained.	Disallow / Retain as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
WCC Environmental Reference Group	377.9	Interpretation Subpart / Definitions / ASSISTED HOUSING	Amend	Considers that the definition of 'Assisted Housing' should also include papakainga (or mixed generation) housing as a qualifying criteria towards city outcomes. There is a shortage of this type of housing for Maori and some Pacifica families, and also other ethnicities whose custom it is to live this way. This could be incorporated by way of the definition of 'assisted housing' if deemed appropriate: if not, the submitter requests this is included as a separate criterion.	Amend the definition of Assisted Housing to add papakainga or multi generational housing.
Kāinga Ora Homes and Communities	391.32	Interpretation Subpart / Definitions / ASSISTED HOUSING	Oppose	Opposes defining 'Assisted Housing' and seeks deletion of this definition.	Delete the definition of 'Assisted Housing'.
Transpower New Zealand Limited	315.16	Interpretation Subpart / Definitions / BIODIVERSITY COMPENSATION	Support	[no specific reason provided, see full submission]	Retain the definition of Biodiversity Compensation as notified.
Royal Forest and Bird Protection Society	345.4	Interpretation Subpart / Definitions / BIODIVERSITY COMPENSATION	Oppose in part	Considers compensation is not an appropriate management tool for significant biodiversity, particularly in the context of an effects management hierarchy that lacks any requirement to avoid particular effects and therefore seeks that this definition be deleted. Notes that if the definition does remain, seeks that it requires no net loss and preferably a net gain. This is more clear than the standard of 'disproportionately positive'.	Delete definition of "biodiversity compensation".
KiwiRail Holdings Limited	FS72.3	Part 1 / Introduction and General Provisions / Definitions / Biodiversity Compensation	Oppose	Rejects the deletion of the definition of 'Biodiversity compensation' as this definition assists with the interpretations and implementation of ECP-P1. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow
Greater Wellington Regional Council	FS84.96	Part 1 / Interpretation Subpart / Definitions / BIODIVERSITY COMPENSATION	Support	Greater Wellington support the amendment of the "Biodiversity compensation" definition to require "no net loss and preferably a net gain" for clarification and to have regard to Proposed RPS Change 1.	Allow / Seeks the definition for 'Biodiversity Compensation' be amended to ensure 'no net loss and preferably a net gain'
Meridian Energy Limited	FS101.2	Part 1 / Interpretation Subpart / Definitions / BIODIVERSITY COMPENSATION	Oppose	Considers that compensation is an appropriate management tool, including for effects on significant biodiversity, within an effects management hierarchy. Meridian considers that the definition should be retained and require no net loss and preferably a net gain.	Disallow
Royal Forest and Bird Protection Society	345.5	Interpretation Subpart / Definitions / BIODIVERSITY COMPENSATION	Oppose in part	Considers compensation is not an appropriate management tool for significant biodiversity, particularly in the context of an effects management hierarchy that lacks any requirement to avoid particular effects and therefore seeks that this definition be deleted. Notes that if the definition does remain, seeks that it requires no net loss and preferably a net gain. This is more clear than the standard of 'disproportionately positive'.	Amend definition of "biodiversity compensation" to require no net loss and preferably a net gain, instead of "Disproportionately positive" "... The goal of biodiversity compensation is to achieve an outcome for indigenous biodiversity values that is disproportionately positive relative to the values lost of no net loss and preferably a net gain."
Greater Wellington Regional Council	FS84.97	Part 1 / Interpretation Subpart / Definitions / BIODIVERSITY COMPENSATION	Support	Greater Wellington support the amendment of the "Biodiversity compensation" definition to require "no net loss and preferably a net gain" for clarification and to have regard to Proposed RPS Change 1.	Allow / Seeks the definition for 'Biodiversity Compensation' be amended to ensure 'no net loss and preferably a net gain'
Meridian Energy Limited	FS101.3	Part 1 / Interpretation Subpart / Definitions / BIODIVERSITY COMPENSATION	Oppose	Considers that compensation is an appropriate management tool, including for effects on significant biodiversity, within an effects management hierarchy. Meridian considers that the definition should be retained and require no net loss and preferably a net gain.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Director-General of Conservation	385.11	Interpretation Subpart / Definitions / BIODIVERSITY COMPENSATION	Support	Supports the proposed definition of Biodiversity Compensation.	Retain the definition of 'Biodiversity Compensation' as notified.
Transpower New Zealand Limited	315.17	Interpretation Subpart / Definitions / BIODIVERSITY OFFSETTING	Support	Supports the definition in respect of the reference to achieving the goal of no net loss, as opposed to a requirement for a net gain.	Retain the definition of Biodiversity Offsetting as notified.
Royal Forest and Bird Protection Society	345.6	Interpretation Subpart / Definitions / BIODIVERSITY OFFSETTING	Support	Supports the definition.	Retain the definition of "biodiversity offsetting" as notified.
Director-General of Conservation	385.12	Interpretation Subpart / Definitions / BIODIVERSITY OFFSETTING	Support	Supports the proposed definition of Biodiversity Offsetting.	Retain the definition of 'Biodiversity Offsetting' as notified.
New Zealand Motor Caravan Association	314.3	Interpretation Subpart / Definitions / BUILDING	Amend	Considers that the definition of 'Building' should be clarified. The definition as it stands captures non-motorised caravans, which are not capable of moving under their own power. The definition also creates several potential implications, which stem from the fact that individuals with non-motorised caravans will, by definition, be using and parking in a 'building'.	Amend the definition of 'Building' as follows: means a temporary or permanent movable or immovable physical construction that is: a) partially or fully roofed; and b) fixed or located on or in land; but excludes: any motorised vehicle, or other mode of transport that could be moved under its own power, <u>or non-motorised caravans other than those used for a residential accommodation/business purpose for a continuous period of more than two (2) months.</u>
Rimu Architects Ltd	318.5	Interpretation Subpart / Definitions / BUILDING	Support	The definition is supported. It is noted that part a. of the definition means an unroofed deck is excluded from the definition of building.	Not specified.
Rimu Architects Ltd	318.6	Interpretation Subpart / Definitions / BUILDING COVERAGE	Support	The definition is supported. It is noted that the definition uses 'net site area' and 'building footprint' both of which are defined terms. An indication of this or a link to them would be useful.	Not specified.
Rimu Architects Ltd	318.7	Interpretation Subpart / Definitions / BUILDING COVERAGE	Amend	Considers that the definition uses 'net site area' and 'building footprint' both of which are defined terms. An indication of this or a link to them would be useful.	Amend the definition of 'Building Coverage' to indicate or refer to the definitions of 'Net Site Area' and 'Building Footprint'. [Inferred decision requested]
Rimu Architects Ltd	318.8	Interpretation Subpart / Definitions / BUILDING FOOTPRINT	Amend	Considers that the definition uses 'buildings', 'any of those buildings' and 'the building' which is less than clear. In many parts of Wellington 'ground level' may vary by several floors between opposite sides of a building and identifying which is the 'ground floor' (as distinct from the 'main' or largest floor) is not obvious. The extent to which decks and eaves are included is not clear. A 'section of a building' does not obviously include eaves and it would be odd if the existence of an eave over part of a deck meant it qualified as partially roofed and therefore become a building. It is noted this definition is on a grey background so is from National Planning Standards. If it cannot be changed as requested, a supplementary definition specific to Wellington conditions is requested instead.	Amend the definition of 'Building Footprint' as follows: means, in relation to building coverage, the total area of buildings at the <u>floor or floors nearest to ground floor-level</u> together with the area of any section of any of those buildings that extends out beyond the <u>ground-floor-level</u> limits of the <u>that</u> building and overhangs the ground. <u>Any eaves up to 600 mm are not to be included in this total.</u> <u>Unroofed decks, even when partially sheltered by eaves, are excluded from the definition of building and do not count towards the building footprint.</u>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Survey & Spatial New Zealand Wellington Branch	FS116.2	Part 1 / Interpretation Subpart / Definitions / BUILDING FOOTPRINT	Support	<p>While the definition of "building footprint" is from the National Planning Standards, Wellington City Council's interpretation that where the eave of a building extends partially over an open deck adjacent to a house requires all of the deck area to be counted as part of the "building footprint" is not the intention of the definition.</p> <p>If Central Government intended decks to be buildings or included in the footprint for coverage purposes, the NPS and MDRS would have been specific on this matter.</p> <p>SSNZ Wellington note that the National Planning Standards allow the inclusion of a subcategory term, or additional terms that have a different meaning. Therefore, a supplementary definition of "uncovered deck" is required that is excluded from the definition of "building" and "building footprint".</p>	Allow
Wellington Electricity Lines Limited	355.9	Interpretation Subpart / Definitions / CABINET	Support in part	Supports definition of 'Cabinet' in general, as it explicitly includes casing for the continued use of electrical equipment such as switchgear and transformers. However, an amendment is sought.	Retain the definition of 'cabinet', with amendment.
Wellington Electricity Lines Limited	355.10	Interpretation Subpart / Definitions / CABINET	Amend	Considers that the definition of 'Cabinet' should contain the words 'storage batteries' as this equipment is commonly contained within a "Cabinet".	<p>Amend the definition of 'Cabinet' as follows:</p> <p>means a three-dimensional structure that houses radio and telecommunication equipment, traffic operations and monitoring equipment, gas distribution enclosures and electrical equipment associated with the operation of infrastructure, which includes single transformers, <u>storage batteries</u> and associated switching gear distributing electricity at a voltage up to and including 110KV.</p>
LIVE WELLington	154.2	Interpretation Subpart / Definitions / CHARACTER	Oppose	<p>Opposes the definition of character.</p> <p>Considers it to be too loose and would likely encourage 'faux' old houses to replace genuine Edwardian and Victorian houses.</p>	Seeks changes to the District Plan that would prioritise the retention of actual old houses rather than imitation replacements, while allowing for refurbishments and upgrades that bring houses into line with modern standards of energy efficiency and modern living arrangements.
Thorndon Residents' Association Inc	FS69.32	Part 1 / Interpretation Subpart / Definitions / CHARACTER	Support	<p>Extend character precincts in the mapping. Improve the definition of character.</p> <p>Avoid erosion of character, especially in Thorndon; the city's (& NZ's) oldest suburb lost much when the urban motorway was carved through it. What remains is of significant cultural and other values. Significant and superior residential character on the eastern side of the suburb, though small in area, should be zoned as Character Precincts because they contribute significantly to the appeal, character and liveability of Thorndon.</p> <p>What remains is of significant cultural and other values. Significant and superior residential character on the eastern side of the suburb, though small in area, should be zoned as Character Precincts because they contribute significantly to the appeal, character and liveability of Thorndon.</p> <p>Inadequate infrastructure, and resilience to natural disasters are additional factors to account for. The natural vulnerabilities should restrain intensification within Thorndon. Thorndon is already a relatively intensely subdivided suburb (compared, say, to equivalent inner suburbs in Auckland).</p>	Allow
Ministry of Education	400.4	Interpretation Subpart / Definitions / CHILDCARE SERVICE	Support	<p>Supports the definition.</p> <p>The submitter supports the definition for educational facility also as it includes provision for childcare services also. However, the submitter considers that the definition for childcare services accurately reflects the broad range of activities that may be considered a childcare service. The submitter considers that the definition will be beneficial to differentiate between childcare facilities and schools both of which are educational facilities.</p>	Retain the definition of [Childcare Service] as notified.
Transpower New Zealand Limited	315.18	Interpretation Subpart / Definitions / COASTAL ENVIRONMENT	Support	Supports the identification of the Coastal Environment on the basis it assists plan users and provides clarity on the application of the plan provisions that relate to the definition.	Retain the definition (and identification) of Coastal Environment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
CentrePort Limited	402.5	Interpretation Subpart / Definitions / COASTAL ENVIRONMENT	Support	Support the intent of this definition.	Retain the definition of 'Coastal Environment' as notified.
Wellington International Airport Limited	FS36.15	Part 1/ Interpretation Subpart / Definitions / COASTAL HAZARD OVERLAY	Oppose	WIAL opposes this submission to the extent that it conflicts with WIAL's primary submission which seeks to remove the application of the tsunami coastal hazard overlays.	Disallow
CentrePort Limited	402.6	Interpretation Subpart / Definitions / COASTAL HAZARD OVERLAYS	Support	Support the intent of this definition.	Retain the definition of 'Coastal Hazard Overlays' as notified.
Wellington International Airport Limited	FS36.16	Part 1/ Interpretation Subpart / Definitions / COASTAL HAZARD OVERLAY	Oppose	WIAL opposes this submission to the extent that it conflicts with WIAL's primary submission which seeks to remove the application of the tsunami coastal hazard overlays.	Disallow
Transpower New Zealand Limited	315.19	Interpretation Subpart / Definitions / COASTAL MARGIN	Amend	Supports the provision of a definition as it assists plan users and provides clarity on the application of the plan provisions that relate to the definition. However, considers it is not clear from the definition or the planning maps where the CMA line is (and therefore where the 10m extends from). Considers clarification is needed otherwise the definition potentially adds more confusion. This is particularly the case for more dynamic coastal environments where the CMA is not readily identifiable. Given the policy implications of defining the coastal margin (in that clarity is required as to where the line applies to enable efficient and effective plan implementation.	Seeks to amend the definition of 'Coastal Margin' to clearly define the CMA line, and clearly identify on the planning maps.
Wellington International Airport Limited	FS36.17	Part 1/ Interpretation Subpart / Definitions / COASTAL HAZARD OVERLAY	Support	WIAL supports the provision of a definition as it assists plan users and provides clarity on the application of the plan provisions that relate to the definition. WIAL submits that given the policy implications of defining the coastal margin, clarity is required as to where the line applies to enable efficient and effective plan implementation.	Allow
CentrePort Limited	402.7	Interpretation Subpart / Definitions / COASTAL MARGIN	Support	Support the intent of this definition.	Retain the definition of 'Coastal Margin' as notified.
Z Energy Limited	361.6	Interpretation Subpart / Definitions / COMMERCIAL ACTIVITY	Amend	With the absence of a specific objective, policy and/or rule relating to service stations, yard-based retail, or general retail activities in some chapters of the PDP, the retail sale of fuel (including service stations and truck-stops and the ancillary sale of electricity as fuel) would fall into another activity definition. It is assumed that the definition of commercial activity includes retail activities as they include the trading of, goods equipment or services and seeks this is specifically provided for in the definition. However, for clarity, it is submitted that the definition is amended.	Amend the definition of 'Commercial Activity' as follows: Means any activity trading in goods, equipment or services including any retail activity. It includes any ancillary activity to the commercial activities (for example administrative or head offices).
Oyster Management Limited	404.5	Interpretation Subpart / Definitions / COMMERCIAL ACTIVITY	Support	Supports definition of "commercial activity".	Retain definition of "commercial activity" as notified.
Foodstuffs North Island	FS23.32	Interpretation Subpart / Definitions / COMMERCIAL ACTIVITY	Support	Submission point 404.5 supports FSNi submission 476.3.	Allow
Foodstuffs North Island	476.3	Interpretation Subpart / Definitions / COMMERCIAL ACTIVITY	Support	Supports the definition of "Commercial activity".	Retain the definition of "Commercial activity" as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
CentrePort Limited	402.8	Interpretation Subpart / Definitions / COMMERCIAL PORT	Support in part	Supports 'Commercial Port' definition in part.	Retain the definition of 'Commercial Port' with amendments.
CentrePort Limited	402.9	Interpretation Subpart / Definitions / COMMERCIAL PORT	Amend	Considers that the Commercial Port Area definition makes no mention of the Port Wharves known as Miramar and Burnham. These are operated alongside the main Port site described in the definition as well as Seaview in Hutt City. Each site is also defined as being Operational Port in the Coastal Marine Area in the Proposed Natural Resources Plan.	Amend definition of 'Commercial Port' as follows: means the area of land to the north and east of Waterloo and Aotea Quays, within Wellington Harbour (Port Nicholson) and adjacent land used, intended or designed to be wholly for Operational Port Activities. <u>The Commercial Port also includes wharf structures at Miramar and Burnham wharves.</u>
Ara Poutama Aotearoa the Department of Corrections	240.3	Interpretation Subpart / Definitions / COMMUNITY CORRECTIONS ACTIVITY	Support	Considers that the definition is consistent with the wording provided for in the National Planning Standards. Community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety.	Retain the definition of "community corrections activity" as notified.
Fire and Emergency New Zealand	273.5	Interpretation Subpart / Definitions / COMMUNITY FACILITY	Support in part	Supports the definition insofar as it includes land and buildings used by the community for safety purposes. However, as currently drafted, the definition could potentially be interpreted to include fire stations which FENZ does not consider appropriate. Whilst it is acknowledged that the District Plan has a separate definition for 'Emergency Service Facilities', which is supported, the 'community facilities' definition does not expressly exclude land and buildings used for emergency service facilities.	Supports the definition of "community facility" with amendment.
Fire and Emergency New Zealand	273.6	Interpretation Subpart / Definitions / COMMUNITY FACILITY	Amend	Supports the definition insofar as it includes land and buildings used by the community for safety purposes. However, as currently drafted, the definition could potentially be interpreted to include fire stations which FENZ does not consider appropriate. Whilst it is acknowledged that the District Plan has a separate definition for 'Emergency Service Facilities', which is supported, the 'community facilities' definition does not expressly exclude land and buildings used for emergency service facilities.	Amend definition of "community facility": Means the use of land and buildings for non-custodial services for safety, welfare and community purposes, including probation, rehabilitation and reintegration services, assessments, reporting, workshops and programmes, administration, and a meeting point for community works groups. <u>Note: 'Community facility' excludes land and buildings used for emergency service facilities which is covered by the definition 'Emergency Service Facilities'.</u>
Ministry of Education	400.5	Interpretation Subpart / Definitions / COMMUNITY FACILITY	Support	Supports the definition as it is consistent with the National Planning Standards.	Retain the definition of [Community Facility] as notified.
Envirowaste Services Ltd	373.2	Interpretation Subpart / Definitions / COMMUNITY GARDEN	Amend	Submitter questions whether this definition should provide for composting up to a certain threshold in order to align with MRZ-P14.	Amend the definition of 'Community Garden' to clarify whether community gardens should provide for composting up to a certain threshold in order to align with MRZ-P14.
Greater Wellington Regional Council	351.37	Interpretation Subpart / Definitions / COMMUNITY SCALE NATURAL HAZARD MITIGATION STRUCTURES	Support	Considers that it is appropriate to define hazard mitigation structures within the District Plan, including Greater Wellington facilities such as the Seton Nossiter flood detention area and the Stebbings Valley Flood detention Dam. It is important to include in the definition those entities responsible for construction and maintain these structures, including Greater Wellington.	Retain the Definition of 'Community Scale Natural Hazard Mitigation Structures' as notified.
CentrePort Limited	402.10	Interpretation Subpart / Definitions / COMMUNITY SCALE NATURAL HAZARD MITIGATION STRUCTURES	Support in part	Supports 'Community Scale Natural Hazard Mitigation Structures' definition in part.	Retain the definition of 'Community Scale Natural Hazard Mitigation Structures' with amendments.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
CentrePort Limited	402.11	Interpretation Subpart / Definitions / COMMUNITY SCALE NATURAL HAZARD MITIGATION STRUCTURES	Amend	Considers that some community scale natural hazard mitigation works may be required particularly where there is public access, as CentrePort holds considerable land adjoining the Coastal Marine Area. The agencies listed do not include CentrePort as being appropriate to carry out such works.	Amend definition of 'Community Scale Natural Hazard Mitigation Structures' as follows: means natural hazard mitigation works that serve multiple properties and are constructed and administered by the Crown, the Greater Wellington Regional Council, Wellington City Council, <u>CentrePort</u> , or their nominated contractor or agent.
CentrePort Limited	402.12	Interpretation Subpart / Definitions / COMMUNITY SCALE NATURAL HAZARD MITIGATION STRUCTURES	Amend	Considers that there is uncertainty as to the relationship between matters covered in the definition of Natural Hazard Mitigation Works and what is covered in the definition of Community Scale Natural Hazard Mitigation.	Clarify the relationship between matters covered in the definition of 'Natural Hazard Mitigation Works' and 'Community Scale Natural Hazard Mitigation', in particular what is meant by community scale and what activities are excluded from this.
Meridian Energy Limited	228.4	Interpretation Subpart / Definitions / COMMUNITY SCALE RENEWABLE ELECTRICITY GENERATION ACTIVITY	Support	Considers the definition gives effect to the NPS-REG.	Retain the definition of 'Community Scale Renewable Electricity Generation' as notified.
Kāinga Ora Homes and Communities	391.33	Interpretation Subpart / Definitions / COMPREHENSIVE DEVELOPMENT	Oppose	Opposes defining 'Comprehensive Development' as a separate activity type from standalone houses or any other residential typology for the purposes of the zone rules and standards. Seeks deletion of this definition.	Delete the definition of 'Comprehensive Development'.
Wellington's Character Charitable Trust	FS82.59	Part 1 / Interpretation Subpart / Definitions / COMPREHENSIVE DEVELOPMENT	Oppose	Considers this is an important term used throughout the plan and needs to be defined to provide clarity about what the planning rules mean.	Disallow
New Zealand Agricultural Aviation Association	40.3	Interpretation Subpart / Definitions / CONSERVATION ACTIVITIES	Amend	Supports the definition of 'Conservation Activities', but seeks that this is expanded to include 'biosecurity' and 'agricultural aircraft activities'.	Amend the definition of Conservation Activities as follows: means the use of land for activities undertaken for the purposes of maintaining, protecting and/or enhancing the natural and/or ecological values of a natural resource. It may include activities which assist to enhance the public's appreciation and recreational enjoyment of the resource, including: (a) species protection, <u>biosecurity</u> , and conservation management work, including restoration and revegetation; (b) pest and weed control <u>including the use of aircraft</u> ; and (c) educational activities.
Royal Forest and Bird Protection Society	345.7	Interpretation Subpart / Definitions / CONSERVATION ACTIVITIES	Support in part	Considers the definition should be clear that activities to enhance appreciation and recreational enjoyment are only appropriate where they are consistent with the primary purpose. We therefore seek the following amendment:	Amend the definition of "conservation activities": Means the use of land for activities undertaken for the purposes of maintaining, protecting and/or enhancing the natural and/or ecological values of a natural resource. It may include activities which assist to enhance the public's appreciation and recreational enjoyment of the resource, <u>where that is consistent with maintaining, protecting or enhancing the natural and/or ecological values. Activities may include including:</u> a. species protection and conservation management work, including restoration and revegetation; b. pest and weed control; and c. educational activities
Director-General of Conservation	385.13	Interpretation Subpart / Definitions / CONSERVATION ACTIVITIES	Support	Supports the proposed definition of Conservation Activities.	Retain the definition of 'Conservation Activities' as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.8	Interpretation Subpart / Definitions / CONTAMINATED LAND	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain the definition of 'Contaminated Land' as notified.
Ara Poutama Aotearoa the Department of Corrections	240.4	Interpretation Subpart / Definitions / CUSTODIAL CORRECTIONS FACILITY	Support	Considers that the definition is appropriate in 'capturing' custodial facilities such as Arohata Prison. Custodial facilities are essential social infrastructure. They enable people and communities to provide for their social and cultural well-being and for their health and safety.	Retain the definition of "custodial corrections facility" as notified.
Tapu-te-Ranga Trust	297.6	Interpretation Subpart / Definitions / CUSTOMARY ACTIVITY	Support	Support the inclusion of customary activity in the definitions section, and the recognition it provides for Māori customary activities.	Retain the definition for 'customary activity' as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.9	Interpretation Subpart / Definitions / CUT HEIGHT	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain the Definition of 'Cut Height' as notified.
Survey & Spatial New Zealand Wellington Branch	439.4	Interpretation Subpart / Definitions / CUT HEIGHT	Amend	Considers the definition of "cut height" should refer to the vertical alteration of the ground. Notes that other local authorities in Wellington do not have a definition of "cut height".	Amend the definition of "cut height" to: Means the maximum height of the cut at the completion of earthworks, measured vertically from the highest point at the top of the cut to the bottom of the cut <u>vertical alteration of the ground by excavation measured vertically.</u>
Paihikara Ki Pōneke Cycle Wellington	302.6	Interpretation Subpart / Definitions / CYCLE	Support in part	The definition of 'Cycle' is partially supported, if it is inclusive and covers recycles and tricycle, and excludes skateboards, scooters and other modes covered by the definition of micromobility device.	Retain the definition of 'Cycle' with amendment.
Paihikara Ki Pōneke Cycle Wellington	302.7	Interpretation Subpart / Definitions / CYCLE	Amend	Considers that the definition of 'Cycle' is too broad and should be amended to be more inclusive. The definition should cover recycles and tricycle, and exclude skateboards, scooters and other modes covered by the definition of micromobility device.	Amend the definition of 'Cycle' as follows: means a transportation device that has at least two wheels and that is designed primarily to be propelled by the muscular energy of the rider <u>to rotate pedals</u> . It includes electric cycles.
Waka Kotahi	370.17	Interpretation Subpart / Definitions / CYCLE	Support	Supports the definition of cycle.	Retain the definition of 'Cycle' as notified.
Kāinga Ora Homes and Communities	391.34	Interpretation Subpart / Definitions / DEMOLITION	Oppose	Opposes defining 'Demolition' and seeks deletion of this definition.	Delete the definition of 'Demolition'.
Heritage New Zealand Pouhere Taonga	FS9.2	Part 1 / Interpretation Subpart / Definitions / DEMOLITION	Oppose	The definition of demolition provides clarity in administration of the rules related to the character precincts.	Disallow / Retain as notified.
Thorndon Residents' Association Inc	FS69.18	Part 3 / Residential Zones / Medium Density Residential Zone / MRZ-P2	Oppose	Kāinga Ora Homes and Communities wishes to remove reference of Demolition throughout the PDP. TRA are mindful that the greenest buildings are those timber buildings that are already built. There's an accumulative benefit from not demolishing older native timber buildings which have low carbon emissions instead of constructing new buildings using materials (such as concrete and steel) with significant whole of life carbon emissions.	Disallow
Wellington's Character Charitable Trust	FS82.60	Part 1 / Interpretation Subpart / Definitions / DEMOLITION	Oppose	Considers this is an important term used throughout the plan and needs to be defined to provide clarity about what the planning rules mean.	Disallow
Waka Kotahi	370.18	Interpretation Subpart / Definitions / DESIGN SPEED	Support	Supports the definition of design speed.	Retain the definition of 'Design Speed' as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Electricity Lines Limited	355.11	Interpretation Subpart / Definitions / DEVELOPMENT CAPACITY	Support in part	Supports the definition of 'Development Capacity' in principle as it is important to clearly identify the provision of infrastructure as a key element in the terms meaning and coverage. However, an amendment is sought regarding the inclusion of non-Council controlled infrastructure.	Retain the definition of 'Development Capacity', with amendment.
Wellington Electricity Lines Limited	355.12	Interpretation Subpart / Definitions / DEVELOPMENT CAPACITY	Amend	Considers that the definition of 'Development Capacity' should include the provision of non-Council controlled infrastructure. As it stands, the term 'Development Infrastructure' is taken to only include infrastructure controlled or owned by Council.	Amend the definition of 'Development Capacity' as follows: means the capacity of land to be developed for housing or for business use, based on: a. the zoning, objectives, policies, rules, and overlays that apply in the relevant proposed and operative RMA planning documents; and b. the provision of adequate development infrastructure <u>and additional infrastructure</u> to support the development of land for housing or business use.
Wellington Electricity Lines Limited	355.13	Interpretation Subpart / Definitions / DEVELOPMENT INFRASTRUCTURE	Not specified	Neutral on the definition of 'development infrastructure'. Considers that any prioritising 'Development Infrastructure' over 'Additional Infrastructure' will not achieve the stated development objectives and policies of the PDP. Critical and or key infrastructure provision (such as the electricity distribution network) should be given the same level of recognition and priority as that of Council owned and controlled 'Development Infrastructure'. [Refer to original submission]	Retain the Definition of 'Development Infrastructure' as notified. [Inferred decision requested]
Waka Kotahi	370.19	Interpretation Subpart / Definitions / DEVELOPMENT INFRASTRUCTURE	Support	Supports the definition of development infrastructure.	Retain the definition of 'Development Infrastructure' as notified.
Envirowaste Services Ltd	373.3	Interpretation Subpart / Definitions / DEVELOPMENT INFRASTRUCTURE	Not specified	Considers that the current definition does not include access to waste facilities. For higher densities to occur, waste management has to be carefully planned for.	Not specified.
CentrePort Limited	402.13	Interpretation Subpart / Definitions / DEVELOPMENT INFRASTRUCTURE	Support in part	Supports 'Development Infrastructure' definition in part.	Retain the definition of 'Development Infrastructure' with amendments.
CentrePort Limited	402.14	Interpretation Subpart / Definitions / DEVELOPMENT INFRASTRUCTURE	Amend	Considers that CentrePort should be listed in the definition. CentrePort holds considerable land that also adjoins the Coastal Marine Area and has extensive network and land transport infrastructure within these landholdings. The agencies listed do not include CentrePort as being appropriate to carry out such works.	Amend definition of 'Development Infrastructure' as follows: means the following, to the extent they are controlled by a local authority, or council controlled organisation (as defined in section 6 of the Local Government Act 2002) <u>or CentrePort</u> : ...
Waka Kotahi	370.20	Interpretation Subpart / Definitions / DIGITAL SIGN	Amend	Considers that an amendment is needed to include and/or between electronic graphics and text using electronic screens to make it clear that the clauses are not necessarily conjunctive.	Amend the definition of 'Digital Sign' as follows: means a sign which displays electronic graphics and/or text using electronic screens. Digital Signs can include both moving and static signage.
Greater Wellington Regional Council	351.38	Interpretation Subpart / Definitions / DRAIN	Amend	Considers it is appropriate to define a drain, particularly where it forms part of a drainage network such as that operated by Greater Wellington. It is slightly inconsistent with the regional plan definition.	Seeks to amend the Definition of 'Drain' to align with regional plan definition.
Rod Halliday	25.1	Interpretation Subpart / Definitions / EARTHWORKS	Amend	Considers that the Earthworks definition is too restrictive in term of what activities is allows. The current exclusions for just gardening, cultivation and fence posts is far too narrow and restrictive. Exclusions to earthworks should include vegetation/topsoil removal, as this practice is necessary to enable the solid ground level to be accurately surveyed prior to dwelling or civil design work taking place. Without accurate ground levels, it is near impossible to calculate the area and depth of actual earthworks needed to facilitate a development.	Seeks that the Earthworks definition be amended to exclude topsoil removal.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Heidi Snelson	FS24.1	Part 1 / Interpretation / Subpart / Definitions / EARTHWORKS	Oppose	Submitter seeks to undertake extensive earthworks without defined limits as specified by PDP in relation to depth or width or extent (across and beyond development).	Disallow / Seeks that submission be disallowed in part to limit earthworks based on depth, width and extent and form and site of such.
Rod Halliday	25.2	Interpretation Subpart / Definitions / EARTHWORKS	Amend	<p>Considers that the Earthworks definition is too restrictive in term of what activities is allows. The current exclusions for just gardening, cultivation and fence posts is far too narrow and restrictive.</p> <p>Exclusions to earthworks should include trenching, as it is a short-term activity and almost all are re-instated within 1-2 days once drainage, water or utilities such as power, fibre and gas are installed. Any longer than this increases the risk of trench material not being able to be used to backfill, the bedding material being washed out and/or damage to services.</p>	Seeks that the Earthworks definition be amended to exclude trenching.
Glenside Progressive Association (GPA)	FS4.2	Part 2 / Energy Infrastructure and Transport / Three Waters / THW-R5	Oppose	<p>Submitter states that Rule R5 requiring hydrological neutrality for any new housing development should not apply to the Upper Stebbings Valley or Seton Nossiter catchments because both these catchments are protected by detention dams. Submitter argues that previous developments in these catchments, including Churton Park subdivisions over the last 5+ years, have had no requirement for stormwater neutrality - however climate change is accelerating and what was required in the past must change to reduce future negative flood impacts.</p> <p>Serious flooding has occurred in the past from these catchments including some events after the detention dams were constructed. Stebbings detention dam was completed in 1994 and is designed to hold back water arising from a one on one-hundred-year flood event, a target that is now unlikely to be met due to the accelerating effects of climate change.</p> <p>Furthermore, Glenside West catchment is not in the Stebbings Dam or Seton Nossiter catchment and there is no downstream floodwater protection therefore Council should be taking additional measure to reduce the impact of earthworks and housing development on the Glenside West water catchment.</p> <p>[Refer to further submission for full reason]</p>	<p>Disallow / Seeks:</p> <ul style="list-style-type: none"> - Acknowledgement by Council that the Government's Policy Statement on Urban Development does not apply to areas such as Glenside West. - That any development in Glenside West takes place with a minimum of earthworks and that natural gullies are not filled in. - That the grey unbuilt area in Glenside West is unsuitable land for housing and that the whole area shown in mustard/yellow (Fig 1) is limited to Large Lot Residential. - Roading and housing doesn't extend into gullies, ephemeral streams, intermittent and perennial streams and is kept away from the ridgetop. - Furthermore no housing is built above the current Glenside-Churton park suburb boundary in order that the ridgeline is offered at least some degree of visual protection. - Significant Natural Areas (SNAs) on this site must be preserved and not impacted by development, if any development is to take place
Heidi Snelson	FS24.2	Part 1 / Interpretation / Subpart / Definitions / EARTHWORKS	Oppose	Submitter seeks to undertake extensive earthworks without defined limits as specified by PDP in relation to depth or width or extent (across and beyond development).	Disallow / Seeks that submission be disallowed in part to limit earthworks based on depth, width and extent and form and site of such.
Horokiwi Quarries Ltd	271.1	Interpretation Subpart / Definitions / EARTHWORKS	Support	Supports the definition on the basis it reflects the National Planning Standards. By default, the definition would cover quarrying activities, noting the Earthworks chapter in the PDP does not apply to quarrying activities provided for in the Quarry Zone.	Retain the definition of EARTHWORKS as notified.
Aggregate and Quarry Association	303.1	Interpretation Subpart / Definitions / EARTHWORKS	Support	The definition for Earthworks is supported.	Retain 'Earthworks' definition as notified.
Firstgas Limited	304.1	Interpretation Subpart / Definitions / EARTHWORKS	Support	The definition of 'Earthworks' is supported as it is consistent with the National Planning Standards definition for Earthworks.	Retain the definition of 'Earthworks' as notified.
Transpower New Zealand Limited	315.1	Interpretation Subpart / Definitions / EARTHWORKS	Support	Supports this definition as it reflects the National Planning Standards. Earthworks are an activity which can directly impact on the National Grid and the submitter supports the provision of a nationally consistent definition.	Retain the definition of 'Earthworks' as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.2	Interpretation Subpart / Definitions / EARTHWORKS	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain the Definition of 'Earthworks' as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Director-General of Conservation	385.14	Interpretation Subpart / Definitions / ECO-SOURCED LOCAL INDIGENOUS VEGETATION	Support	Supports the proposed definition of Eco-Sourced Local Indigenous Vegetation.	Retain the definition of 'Eco-Sourced Local Indigenous Vegetation' as notified.
Waka Kotahi	370.1	Interpretation Subpart / Definitions / EDUCATION FACILITY	Oppose	One definition is superfluous, but both terms are used in the PDP. It is preferred that the definition of "Educational facility" is the only one used throughout the PDP, so that child-care facilities are also clearly subject to reverse sensitivity (as they will then come under the definition of sensitive activity).	Delete mentions of "Education Facility" through out the plan and replace them with "Educational Facility".
Ministry of Education	400.1	Interpretation Subpart / Definitions / EDUCATION FACILITY	Oppose	Considers that the inclusion of the definition in the Proposed District Plan would result in two similar definitions, 'education facility' and 'educational facility'. The submitter considers that this may cause confusion for the District Plan users. The submitter considers that the main difference between the two definitions is 'education facility' excludes childcare facilities in the residential zones. However, this is already been outlined in the rule framework.	Delete the definition of [Education Facility] in its entirety.
Wellington International Airport Limited	FS36.18	Part 1/Interpretation Subpart / Definitions / EDUCATION FACILITY	Support	WIAL supports the deletion of this definition as the activity is inherently captured by the definition of "educational facility" (and associated definitions such as "noise sensitive activity").	Allow
Ministry of Education	400.6	Interpretation Subpart / Definitions / EDUCATIONAL FACILITY	Support	Supports the definition as it is consistent with the National Planning Standards.	Retain the definition of [Educational Facility] as notified.
Fire and Emergency New Zealand	273.7	Interpretation Subpart / Definitions / EMERGENCY SERVICE FACILITIES	Support	Supports the definition of "emergency service facilities" as it provides an appropriate rule framework to better provide for the health and safety of the community by enabling the efficient functioning of FENZ in establishing and operating fire stations.	Retain the definition of "emergency service facilities" as drafted.
Oyster Management Limited	404.6	Interpretation Subpart / Definitions / EMERGENCY SERVICE FACILITIES	Support	Supports the definition of "emergency service facilities". In particular, the inclusion of fire stations and administration related to emergency services.	Retain the definition of "emergency service facilities" as notified.
Survey & Spatial New Zealand Wellington Branch	439.5	Interpretation Subpart / Definitions / EXISTING SLOPE ANGLE	Amend	Considers the definition should include a minimum length over which the slope angle should be measured to avoid short changes in gradient that have no bearing on the overall slope of a site.	Amend the definition of "existing slope angle" to: Means the maximum slope segment angle of all slope segments. For a Cut – slope segments are measured (on a horizontal plane); – within the extent of the cut; and – uphill of the cut, the distance to the boundary or 10m whichever is the lesser. For a Fill – slope segments are measured (on a horizontal plane); – within the extent of the fill; and – downhill of the fill, the distance to the boundary or 10m whichever is the lesser. A slope segment is a segment of sloping ground that falls generally at the same angle to the horizontal (slope segment angle) and extends for a horizontal distance of at least 3m.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.10	Interpretation Subpart / Definitions / FILL DEPTH	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain the Definition of 'Fill depth' as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Survey & Spatial New Zealand Wellington Branch	439.6	Interpretation Subpart / Definitions / FILL DEPTH	Amend	Considers the definition of "fill depth" should refer to the vertical alteration of the ground. Notes that other local authorities in Wellington do not have a definition of "fill depth".	Amend the definition of "fill depth" to: Means the maximum depth of the fill at the completion of the earthworks, measured vertically from the highest point on the top of the fill to the bottom of the fill placement vertical alteration of the ground by filling measured vertically.
Meridian Energy Limited	228.5	Interpretation Subpart / Definitions / FUNCTIONAL NEED	Support	Considers the definition matches the definition in the National Planning Standards.	Retain the definition of 'Functional Need' as notified.
Horokiwi Quarries Ltd	271.12	Interpretation Subpart / Definitions / FUNCTIONAL NEED	Support	Supports the definition on the basis it reflects the National Planning Standards and provides certainty for users.	Retain the definition of FUNCTIONAL NEED as notified.
Fire and Emergency New Zealand	273.8	Interpretation Subpart / Definitions / FUNCTIONAL NEED	Support	Supports the definition of "functional need" as it defines activities that have a need to be located in certain locations where the activity is specifically required. Fire stations may have a functional need to be located in certain areas, including those with increased risk of natural hazards. The ability to construct and operate fire stations in locations which will enable reasonable response times to fire and other emergencies is paramount the health, safety and wellbeing of people and the community. Fire stations therefore need to be strategically located within and throughout communities to maximise their coverage and minimise response times so that they can efficiently and effectively respond to emergency call outs in a timely way, thus avoiding or mitigating the potential for adverse effects associated with fire hazard and other emergencies.	Retain the definition of "functional need" as drafted.
Transpower New Zealand Limited	315.20	Interpretation Subpart / Definitions / FUNCTIONAL NEED	Support	Considers the definition reflects that provided in the National Planning Standards and is therefore supported.	Retain the definition of 'Functional Need' as notified.
Woolworths New Zealand	359.5	Interpretation Subpart / Definitions / FUNCTIONAL NEED	Amend	Considers that the definition of functional need should not be limited to location-specific needs but could rather require a building or feature to be designed in a particular manner. This term is included within matters of discretion for infringing a number of standards in the CMUZ zones, which is supported. However it is considered that the definitions of this term needs to be amended accordingly.	Amend the definition of 'Functional Need' as follows: The need for a proposal or activity to traverse, locate or operate in a particular environment or be designed in a particular way because the activity can only occur in that environment because of functional characteristics or constraints.
Meridian Energy Limited	FS101.4	Part 1 / Interpretation Subpart / Definitions / FUNCTIONAL NEED	Oppose	'Functional Need' is an expression that has come into use in resource management practice usually in association with the particular requirements of infrastructure (not general development activity). The definition should be retained as notified to ensure its specialist intent is not compromised by wider application.	Disallow
Greater Wellington Regional Council	351.39	Interpretation Subpart / Definitions / GREEN INFRASTRUCTURE	Amend	Considers that an example would assist plan users. Proposed RPS Change 1 includes several examples in the definition for nature-based solutions. One of these examples may be suitable to include	Seeks to amend the Definition of 'Green Infrastructure' to include an example, such as a constructed wetland.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Rimu Architects Ltd	318.9	Interpretation Subpart / Definitions / GROUND LEVEL	Amend	<p>Considers that the definition of 'Ground Level' needs clarification. As records of title do not generally have levels along boundaries recorded, a. will be largely theoretical.</p> <p>For b. if there is a Resource or a Building Consent applied for, existing presumably means existing as of the date of the consent application. For work that is a permitted use and requires no consents, the date the work starts is the relevant one but there may be no record of this.</p> <p>For c. where a wall face is immediately adjacent to, rather than 'intersecting'; the boundary, the relevant surface is the wall face adjacent to the boundary and the relevant level is the level of the ground against that face. This case can be described as a wall 'on' the boundary. If the retaining wall or structure actually 'intersects' the boundary (now at d.), the surface at the boundary is the top surface of that wall or structure. This surface may well be higher than the ground level on the uphill side of the wall, particularly if the top of the wall is extended to provide a barrier against falling. In this 'intersecting' case, the ground level is best determined by using the level of ground at the uphill surface of the wall.</p> <p>It is noted this definition is on a grey background so is from National Planning Standards. If it cannot be changed as requested, a supplementary definition specific to Wellington conditions is requested instead.</p>	<p>Amend the definition of 'Ground Level' as follows:</p> <p>means:</p> <p>a. the actual finished surface level of the ground after the most recent subdivision that created at least one additional allotment was completed (when the record of title is created);</p> <p>b. if the ground level cannot be identified under paragraph (a), the existing surface level of the ground;</p> <p>c. if, in any case under paragraph (a) or (b), a retaining wall or retaining structure is located <u>immediately adjacent to or on</u> the boundary, <u>but does not cross it</u>, the level on the exterior surface of the retaining wall or retaining structure where it intersects <u>facing</u> the boundary.</p> <p><u>d. if, in any case under paragraph (a) or (b), a retaining wall or retaining structure intersects or crosses the boundary, the level on the uphill/ higher exterior surface of the retaining wall.</u></p>
Wellington City Council	266.55	Interpretation Subpart / Definitions / HABITABLE ROOM	Oppose	Considers the definition of Habitable Room is included twice.	<p>Delete the second occurrence of the 'Habitable Room' definition as follows:</p> <p>HABITABLE ROOM means any room used for the purposes of teaching or used as a living room, dining room, sitting room, bedroom, office or other room specified in the Plan to be a similarly occupied room.</p>
Fire and Emergency New Zealand	273.9	Interpretation Subpart / Definitions / HABITABLE ROOM	Support	Supports the definition of "habitable room" as it is consistent with the National Planning Standards definition	Retain the definition of "habitable room" as drafted.
Waka Kotahi	370.21	Interpretation Subpart / Definitions / HABITABLE ROOM	Support	Supports the definition of habitable room.	Retain the definition of 'Habitable Room' as notified.
New Zealand Motor Caravan Association	314.4	Interpretation Subpart / Definitions / HAZARD SENSITIVE ACTIVITIES	Oppose	Considers that the definition of 'Hazard Sensitive Activity' should be clarified to outline the criteria which define why and how an un-named activity may be sensitive. The definition only provide a list of uses or activities. This approach is inconsistent with the effects-based approach required to be taken in Part 2 of the Resource Management Act.	Clarify the definition of 'Hazard Sensitive Activity' to provide a set of criteria defining why and how an un-named activity may be sensitive.
New Zealand Motor Caravan Association	314.5	Interpretation Subpart / Definitions / HAZARD SENSITIVE ACTIVITIES	Oppose in part	<p>Considers that the definition of hazard sensitive activity should not include 'Visitor accommodation'. A subcategory that excludes campgrounds from sensitive and hazard sensitive activities should be added to the definition.</p> <p>Reason being, camping grounds are transitory in nature and provide for accommodation on a temporary basis. People enjoy camping in areas with natural scenery and landscapes as well as in areas close to the central business centres. The effects can be moderated easily through more specific site management efforts as many of the activities are not permanently attached to the land. People can be moved easily and forewarned in the event of a potential risk or natural hazard.</p> <p>The New Zealand Motor Caravan Association operates over 47 parks across New Zealand, most of which are not categorised as a sensitive activity or hazard sensitive activity.</p>	Amend the definition of 'Hazard Sensitive Activity' to remove the mention of visitor accommodation.
Retirement Villages Association of New Zealand Incorporated	350.2	Interpretation Subpart / Definitions / HAZARD SENSITIVE ACTIVITIES	Support	Supports the inclusion of retirement villages as a hazard sensitive activity.	Retain the definition of HAZARD SENSITIVE ACTIVITIES as notified.
Greater Wellington Regional Council	351.40	Interpretation Subpart / Definitions / HAZARD SENSITIVE ACTIVITIES	Amend	Considers it is appropriate to define this term in the PDP, to assist users in applying Plan provisions.	Amend the Definition of 'Hazard Sensitive Activities' to align with the definition in Proposed RPS Change 1.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.11	Interpretation Subpart / Definitions / HAZARD SENSITIVE ACTIVITIES	Support in part	The definition of Hazard Sensitive Activities is supported as it specifically includes Hazardous Facilities and MHF which recognises the risk associated with the manufacture, use, storage, transportation and disposal of hazardous substances and the potential of human and environmental harm from natural hazards. It is however considered that Hazardous Facilities are not defined in the PDP and clarification is sought on this matter.	Retain the Definition of 'Hazard Sensitive Activities' as notified.
Ministry of Education	400.7	Interpretation Subpart / Definitions / HAZARD SENSITIVE ACTIVITIES	Support	Supports the inclusion of educational facilities in the definition of 'hazard sensitive activities' as it aims to protect educational facilities.	Retain the definition of [Hazard Sensitive Activities] as notified.
Fire and Emergency New Zealand	273.10	Interpretation Subpart / Definitions / HAZARDOUS SUBSTANCE	Support	Supports the definition of "hazardous substance" as it is consistent with S2 RMA and HSNO Act 1996	Retain the definition of "hazardous substance" as notified.
Retirement Villages Association of New Zealand Incorporated	350.3	Interpretation Subpart / Definitions / HEALTH CARE FACILITY	Oppose in part	Considers that retirement villages typically offer a range of physical or mental health or welfare services to their residents; however, these are an ancillary activity to the primary residential purpose / function of the retirement villages. Considers that it is important the Proposed Plan explicitly recognises retirement villages as residential activities. Seeks that retirement villages are excluded from the definition.	Opposes the definition of HEALTH CARE FACILITY and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.4	Interpretation Subpart / Definitions / HEALTH CARE FACILITY	Amend	Considers that retirement villages typically offer a range of physical or mental health or welfare services to their residents; however, these are an ancillary activity to the primary residential purpose / function of the retirement villages. Considers that it is important the Proposed Plan explicitly recognises retirement villages as residential activities. Seeks that retirement villages are excluded from the definition.	Amend definition of HEALTH CARE FACILITY as follows: means land and buildings used for providing physical or mental health or welfare services, including medical practitioners, dentists and dental technicians, opticians, physiotherapists, medical social workers and counsellors, midwives, paramedical practitioners, alternative therapists, providers of health and wellbeing services; diagnostic laboratories, and accessory offices, but excluding hospitals <u>and retirement villages.</u>
Southern Cross Healthcare Limited	380.22	Interpretation Subpart / Definitions / HEALTH CARE FACILITY	Support	Supports definition of 'Health care facility' as it recognises a wide range of services.	Retain the definition of HEALTH CARE FACILITY as notified.
WCC Environmental Reference Group	377.10	Interpretation Subpart / Definitions / HEAVY INDUSTRIAL ACTIVITY	Amend	Considers that the Definition of 'Heavy Industrial Activity' should be amended, as it is not appropriate to group all waste management activities as heavy industry. Community waste collection and recycling could be key aspects of a more sustainable 'circular' economy. Also, having close-by small scale waste disposal and recycling will be critical to providing for walkable communities - and this definition, as the associated restriction in heavy industrial activities in neighbourhood zones, will limit that.	Amend the definition of 'Heavy Industrial Activity' as follows: means an Industrial Activity that generates: offensive and objectionable noise, dust or odour, significant volumes of heavy vehicle movements, or elevated risks to people's health and safety. Heavy Industrial Activities include quarries, abattoirs, refineries, the storage, transfer, treatment, or disposal of waste materials or significant volumes of hazardous substances, other waste management processes or composting of organic materials.
Waka Kotahi	370.22	Interpretation Subpart / Definitions / HEAVY VEHICLE	Support	Supports the definition of heavy vehicle.	Retain the definition of 'Heavy Vehicle' as notified.
Rimu Architects Ltd	318.10	Interpretation Subpart / Definitions / HEIGHT IN RELATION TO BOUNDARY	Amend	Considers that the definition of 'Height in Relation to Boundary' needs clarification. Height is defined as "the vertical distance between a specified reference point and the highest part of any feature, structure or building above that point". When using the term "height of a structure" a specific vertical reference point needs to be specified, not just a distance from the boundary. I note this definition (as well as the definition for 'height') is on a grey background so is from National Planning Standards. If it cannot be changed as requested, a supplementary definition specific to Wellington conditions is requested instead.	Amend definition of Height in relation to boundary as follows: means the height of a structure, building or feature, relative to its distance from either the boundary of a measured vertically from ground level at: a. the boundary of the site; or b. a notional boundary within the site; or c. another specified reference point outside the site relative to its horizontal distance from that reference point.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
CentrePort Limited	402.15	Interpretation Subpart / Definitions / HIGH COASTAL HAZARD AREA	Support	Support the intent of this definition.	Retain the definition of 'High Coastal Hazard Area' as notified.
Southern Cross Healthcare Limited	380.23	Interpretation Subpart / Definitions / HOSPITAL ACTIVITIES	Support	Supports the definition of 'hospital activities' recognising a wide range of activities and ancillary activities which are relevant to the operation of a hospital. The nature of hospital activities is evolving and it is important that provisions in the Proposed Plan do not unduly or unintentionally narrow the range of activities which might now and in the future form part of hospital care.	Retain the definition of HOSPITAL ACTIVITIES as notified.
Rimu Architects Ltd	318.11	Interpretation Subpart / Definitions / HYDRAULIC NEUTRALITY	Amend	<p>Considers that the definition of 'Hydraulic Neutrality' should be amended. The proposed definition's use of 'site in an undeveloped state' does not equate to the 'pre-development' used here except for greenfield sites.</p> <p>The rules relating to Hydraulic Neutrality, THW-R5 for up to 3 residential units and THW-R6 for 4 or more units, reference Wellington Water regional standards. Their Regional Standard for Water Services states in Section 4 Stormwater at 4.2.1 functionality (on page 29). (f) Retention or attenuation/detention facilities are required for all new development connecting to existing infrastructure and shall be designed to limit the design peak discharge from the development (post-construction) to not greater than the existing design peak discharge (pre-development) from the site for all events up to a 1% annual exceedance probability (AEP) event which shall include the predicted impacts of climate change. (i) Wellington Water has the right to nominate an alternative design event and event duration to mitigate specific downstream risks.</p> <p>The proposed definition's use of 'site in an undeveloped state' does not equate to the 'pre-development' used here except for greenfield sites.</p>	<p>Amend the definition of 'Hydraulic Neutrality' as follows:</p> <p>means managing stormwater runoff from subdivision, use and development through either on-site disposal or storage, so that peak stormwater flows and volumes are released from the site at a rate that does not exceed the modelled peak flows from the site <u>in its existing an undeveloped state.</u></p>
Survey & Spatial New Zealand Wellington Branch	FS116.3	Part 1 / Interpretation Subpart / Definitions / HYDRAULIC NEUTRALITY	Support	<p>The use of the term "undeveloped state" would suggest that the stormwater runoff from any existing buildings is to be ignored, and that the site be considered as though it was a vacant greenfield site.</p> <p>This definition is contradictory to the Regional Standard for water Services.</p> <p>The definition should refer to the site in it's current state (at the time of an application for development).</p>	Allow
Survey & Spatial New Zealand Wellington Branch	439.7	Interpretation Subpart / Definitions / HYDRAULIC NEUTRALITY	Amend	Considers that the definition as proposed removes the existing use rights for any building to discharge stormwater from a site, by way of requiring the rate of stormwater discharge to be the same as that of an undeveloped site.	<p>Amend the definition of "hydraulic neutrality" to:</p> <p>Means managing stormwater runoff from subdivision, use and development through either on-site disposal or storage, so that peak stormwater flows and volumes are released from the site at a rate that does not exceed the modelled peak flows and volumes from the site <u>in an undeveloped it's existing state prior to subdivision, use or development.</u></p>
Waka Kotahi	370.23	Interpretation Subpart / Definitions / ILLUMINATED SIGN	Support	Supports the definition of illuminated sign.	Retain the definition of 'Illuminated Sign' as notified.
Royal Forest and Bird Protection Society	345.8	Interpretation Subpart / Definitions / INDIGENOUS VEGETATION	Oppose in part	Oppose the exclusion for indigenous vegetation as defined in and regulated by the NESPF. The NESPF allows for plans to be more stringent to protect significant biodiversity and for NZCPS and that would not be possible with this definition in place. We therefore seek that the second sentence of this definition is deleted.	<p>Amend the definition of "indigenous vegetation":</p> <p>Means vegetation or plant species, including trees, which are native to Wellington district. Indigenous Vegetation does not include "indigenous vegetation" as defined in and regulated by the NESPF.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Murray Martin	14.1	Interpretation Subpart / Definitions / INFORMAL RECREATION ACTIVITIES	Amend	With specific regard to Owhiro Bay Parade, the concern is that if not amended, the current definition of 'informal recreation activities' means that the rule GRUZ - R5.2 prevails and vehicle access to Owhiro Bay Parade road/track becomes a Discretionary Activity. This opens the possibility of Council having exclusive access to this road/track, without public consultation on relevant access matters, which is not satisfactory to the user groups.	Amend "informal recreation" definition as follows: Informal Recreation Activities: means a pastime, leisure, sport or exercise activity that occurs on an ad-hoc basis or irregularly and contributes to a person's enjoyment and/or relaxation. It excludes: a. regular organised sport and recreation; and b. the use of motorised vehicles, <u>except on unformed legal roads.</u>
Horokiwi Quarries Ltd	271.13	Interpretation Subpart / Definitions / INFRASTRUCTURE	Not specified	Considers that quarrying activities outside the proposed Quarry Zone have a challenging role in the PDP as despite their location and resource dependence, functional constraints, and that they are essential to enabling growth of the city and enable the construction of key infrastructure (such as providing aggregate for cycleway and road construction, fill material for the repair and maintenance of three waters infrastructure), as well as essential construction material for new dwellings, they are not recognised as 'infrastructure' within the PDP. Horokiwi appreciates the definition of infrastructure within the PDP reflects that in the RMA.	Not specified.
Transpower New Zealand Limited	315.21	Interpretation Subpart / Definitions / INFRASTRUCTURE	Support	Supports the proposed definition of 'Infrastructure', that reflects that provided in the RMA.	Retain the definition of 'Infrastructure' as notified.
Wellington Electricity Lines Limited	355.14	Interpretation Subpart / Definitions / INFRASTRUCTURE	Support	Supports the definition of 'Infrastructure' is supported, as the definition provided under the RMA is considered clean and unambiguous for users of the PDP.	Retain the Definition of 'Infrastructure' as notified.
Envirowaste Services Ltd	373.4	Interpretation Subpart / Definitions / INFRASTRUCTURE	Support in part	[No specific reason given beyond decision requested - refer to original submission]	Retain the definition of 'Infrastructure' with amendment.
Envirowaste Services Ltd	373.5	Interpretation Subpart / Definitions / INFRASTRUCTURE	Amend	Considers that the definition for infrastructure under the RMA excludes waste processing and disposal facilities, therefore the continuance and expansion of these facilities (where necessary, but particularly recycling) needs to be included as part of the infrastructure definition. The alternative is to ensure that waste facilities are considered alongside infrastructure as stated below.	Amend the definition of 'Infrastructure' as follows: Infrastructure means - ... <u>(m) waste processing and disposal facilities.</u> [Inferred decision requested]
KiwiRail Holdings Limited	408.7	Interpretation Subpart / Definitions / INFRASTRUCTURE	Support	Supports that the definition refers to the RMA definition, noting clause (g) includes rail.	Retain definition of INFRASTRUCTURE as notified.
New Zealand Defence Force	423.1	Interpretation Subpart / Definitions / INFRASTRUCTURE	Oppose in part	Considers that NZDF is undertaking a nationwide project to ensure strategic defence facilities and infrastructure is appropriately recognised and provided for in district plans. Defence facilities are nationally and regionally significant, playing an important role in both military training and civil and/or national defence operations. They are essential in enabling NZDF to meet its obligations under the Defence Act 1990. NZDF therefore requests that any existing and future defence facilities in Wellington City are recognised and provided for in the District Plan as they are in many district plans throughout the country (including the Proposed Selwyn District Plan and the Auckland Unitary Plan Operative in Part).	Opposes the definition of Infrastructure and seeks amendment.
New Zealand Defence Force	423.2	Interpretation Subpart / Definitions / INFRASTRUCTURE	Amend	Considers that NZDF is undertaking a nationwide project to ensure strategic defence facilities and infrastructure is appropriately recognised and provided for in district plans. Defence facilities are nationally and regionally significant, playing an important role in both military training and civil and/or national defence operations. They are essential in enabling NZDF to meet its obligations under the Defence Act 1990.	Seeks amendment of the definition of "Infrastructure" to add "Defence Facilities".

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Transpower New Zealand Limited	315.22	Interpretation Subpart / Definitions / LAND DISTURBANCE	Support	Considers the definition reflects that provided in the National Planning Standards and is therefore supported. It is noted the term appears to only be used in INF-P7 and INF-S7.5 and therefore has limited application.	Retain the definition of 'Land Disturbance' as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.12	Interpretation Subpart / Definitions / LAND DISTURBANCE	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain the Definition of 'Land Disturbance' as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.13	Interpretation Subpart / Definitions / LAND DISTURBANCE	Support	The definition of 'Land Disturbance' is supported as it is taken from the National Planning Standards and applies to activities undertaken in relation to contaminated land and the Chapter of the same, therefore no further comment is made.	Retain the definition of 'Land Disturbance' as notified.
Foodstuffs North Island	476.4	Interpretation Subpart / Definitions / LARGE FORMAT RETAIL	Support	Supports the definition of "Large format retail".	Retain the definition of "Large format retail" as notified.
Meridian Energy Limited	228.6	Interpretation Subpart / Definitions / LARGE SCALE RENEWABLE ELECTRICITY GENERATION ACTIVITY	Support	Considers the definition accurately captures the facilities and activities typically included in or associated with large scale renewable electricity generation activities such as wind farms.	Retain the definition of 'Large Scale Renewable Electricity Generation Activities' as notified.
Greater Wellington Regional Council	351.41	Interpretation Subpart / Definitions / LESS HAZARD SENSITIVE ACTIVITIES	Support	Considers it is appropriate to define this term in the PDP, to assist users in applying Plan provisions.	Retain the Definition of 'Less Hazard Sensitive Activities' as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.14	Interpretation Subpart / Definitions / LESS HAZARD SENSITIVE ACTIVITIES	Support in part	Considers that the definition of Less Hazard Sensitive Activities includes accessory buildings used for non-habitable purposes. It is unclear whether such accessory buildings can be related to a Hazardous Facility, which is not currently defined, or a MHF, and clarification is sought on this matter.	Retain the Definition of 'Less Hazard Sensitive Activities', with amendment.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.15	Interpretation Subpart / Definitions / LESS HAZARD SENSITIVE ACTIVITIES	Amend	Considers that the definition of Less Hazard Sensitive Activities should be clarified, as it is unclear whether accessory buildings can be related to a Hazardous Facility, which is not currently defined, or a MHF, and clarification is sought on this matter.	Amend the Definition of 'Less Hazard Sensitive Activities' to clarify whether accessory buildings can be related to a Hazardous Facility.
Heritage New Zealand Pouhere Taonga	70.5	Interpretation Subpart / Definitions / MAINTENANCE AND REPAIR	Support in part	Supports the definition but seeks amendment to improve the meaning of Point (f).	Retain the definition of 'Maintenance and Repair' with amendment.
Heritage New Zealand Pouhere Taonga	70.6	Interpretation Subpart / Definitions / MAINTENANCE AND REPAIR	Amend	Seeks amendment to improve the meaning of the definition.	Amend the definition of 'Maintenance and Repair' as follows: ... f. The affixing of scaffolding to a <u>heritage building</u> unless the work is reasonably required for health and safety. ...
Historic Places Wellington	182.6	Interpretation Subpart / Definitions / MAINTENANCE AND REPAIR	Support in part	Supports clarification of rules for repair and maintenance of heritage buildings.	Retain the definition of 'Maintenance and Repair' as notified. [Inferred decision requested]

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington City Council	266.56	Interpretation Subpart / Definitions / MAINTENANCE AND REPAIR	Amend	Considers the wording of this definition in relation to the modification, removal or replacement of windows is confusing and needs to be amended for clarity.	Amend the definition of 'Maintenance and Repair' as follows: (...) h. The modification, removal or replacement of windows (all joinery, including frames, sashes, sills, casements, mullions, glazing bars), except; i. modifications as <u>necessary</u> to replace an existing clear single glazed window pane with a clear double glazed pane a clear single glazed window pane of an existing window with a new window pane.
Transpower New Zealand Limited	315.23	Interpretation Subpart / Definitions / MAINTENANCE AND REPAIR	Support	Considers that notwithstanding that the NES-ETA regulates maintenance (and by default repair) associated with existing National Grid lines, the definition of maintenance and repair is supported as it recognises activities associated with the ongoing operation of existing network utilities. However, clarification is sought as to how the rule is structured as it is unclear whether the opening clause a. and b. also apply to the INF chapter.	Retain the definition of 'Maintenance and Repair' as it relates to the Infrastructure (INF) chapter subject to amendment.
Transpower New Zealand Limited	315.24	Interpretation Subpart / Definitions / MAINTENANCE AND REPAIR	Amend	Considers that notwithstanding that the NES-ETA regulates maintenance (and by default repair) associated with existing National Grid lines, the definition of maintenance and repair is supported as it recognises activities associated with the ongoing operation of existing network utilities. However, clarification is sought as to how the rule is structured as it is unclear whether the opening clause a. and b. also apply to the INF chapter.	Amend the definition of 'Maintenance and Repair' as it relates to the Infrastructure (INF) chapter subject to clarification that clause a. and b. do not apply in the Infrastructure chapters.
Waka Kotahi	370.24	Interpretation Subpart / Definitions / MAINTENANCE AND REPAIR	Support	Supports the definition of maintenance and repair.	Retain the definition of 'Maintenance and Repair' as notified.
CentrePort Limited	402.16	Interpretation Subpart / Definitions / MAINTENANCE AND REPAIR	Support	Support the intent of this definition.	Retain the definition of 'Maintenance and Repair' as notified.
KiwiRail Holdings Limited	408.8	Interpretation Subpart / Definitions / MAINTENANCE AND REPAIR	Support	Supports the inclusion of any work or activity necessary to keep the operation or functioning of existing infrastructure, within this definition.	Retain definition of MAINTENANCE AND REPAIR as notified.
Wellington Heritage Professionals	412.17	Interpretation Subpart / Definitions / MAINTENANCE AND REPAIR	Amend	Considers that the definition is very different to the one in the current District Plan and must ensure that heritage items are not able to be adversely affected using this definition.	Amend the definition of 'Maintenance and repair' as follows: Means: (For the purposes of the HH-Historic heritage chapter) In addition to the above, maintenance and repair of built heritage must not result in any of the following: <u>a. Demolition of a structural element</u> a. b. Changes to the existing surface treatment of fabric;
Wellington Heritage Professionals	412.18	Interpretation Subpart / Definitions / MAINTENANCE AND REPAIR	Amend	Considers that the definition should be made clearer e.g. what is meant by surface treatment?	Clarify the definition, particularly the meaning of surface treatment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington Heritage Professionals	412.19	Interpretation Subpart / Definitions / MAINTENANCE AND REPAIR	Amend	Considers that double glazing should not be permitted as maintenance and repair and should instead be subject to the considerations of a resource consent process. Identifies the approach of English Heritage.	Seeks that the definition of 'maintenance and repair' is amended as follows: ... (For the purposes of the HH-Historic heritage chapter) In addition to the above, maintenance and repair of built heritage must not result in any of the following: h. The modification, removal or replacement of windows (all joinery, including frames, sashes, sills, casements, mullions, glazing bars) except; i. modifications as necessary to replace an existing clear single glazed window pane with a clear double glazed pane.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.1	Interpretation Subpart / Definitions / MAJOR HAZARD FACILITY	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain the Definition of 'Major Hazard Facility' as notified.
Tapu-te-Ranga Trust	297.7	Interpretation Subpart / Definitions / MARAE ACTIVITY	Support	Supports the definition of marae activity in the PDP, and deems all activities listed to be an accurate summary.	Retain the definition for 'marae activity' as notified.
Waka Kotahi	370.25	Interpretation Subpart / Definitions / MICROMOBILITY DEVICE	Support	Supports the definition of micromobility device.	Retain the definition of 'Micromobility Device' as notified.
Living Streets Aotearoa	482.22	Interpretation Subpart / Definitions / MICROMOBILITY DEVICE	Amend	Considers that it is unclear if 'micromobility device' includes completely motorised versions such as e-scooters or is intended to support the sustainable modes that involve physical activity.	Clarify if 'micromobility device' includes completely motorised versions such as e-scooters or is intended to support the sustainable modes that involve physical activity.
Retirement Villages Association of New Zealand Incorporated	350.5	Interpretation Subpart / Definitions / MULTI-UNIT HOUSING	Oppose in part	Considers that as currently drafted the definition could be interpreted to encompass retirement villages which provide four or more residential units on a site. Retirement villages are provided for as a separate activity throughout the Proposed Plan. Considers that it is important the Proposed Plan provides a bespoke retirement village planning regime. Seeks that retirement villages are excluded from the definition.	Opposes definition of MULTI-UNIT HOUSING and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.6	Interpretation Subpart / Definitions / MULTI-UNIT HOUSING	Amend	Considers that as currently drafted the definition could be interpreted to encompass retirement villages which provide four or more residential units on a site. Retirement villages are provided for as a separate activity throughout the Proposed Plan. Considers that it is important the Proposed Plan provides a bespoke retirement village planning regime. Seeks that retirement villages are excluded from the definition.	Amend the definition of MULTI-UNIT HOUSING as follows: means any development that will result in four or more residential units on a site, excluding <u>retirement villages and</u> residential development within the Oriental Bay Precinct Area.
Kāinga Ora Homes and Communities	391.35	Interpretation Subpart / Definitions / MULTI-UNIT HOUSING	Oppose	Opposes defining 'Multi-Unit Housing' as a separate activity type from stand-alone houses or any other residential typology for the purposes of the zone rules and standards. Seeks deletion of this definition. Consequential changes will also be needed throughout the residential, commercial, and mixed-use zone provisions to remove this distinction. It is considered that residential development should be considered on the basis of its effects and merits rather than specifically on typology or the scale/collective number of dwellings.	Delete the definition of 'Multi-Unit Housing'.
Wellington's Character Charitable Trust	FS82.61	Part 1 / Interpretation Subpart / Definitions / MULTI-UNIT HOUSING	Oppose	Considers this is an important term used throughout the plan and needs to be defined to provide clarity about what the planning rules mean.	Disallow
LIVE WELLington	FS96.5	Part 1 / Interpretation Subpart / Definitions / MULTIUNIT HOUSING	Oppose	The removal of the definition of multi unit housing is opposed. This form of housing requires special design consideration.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Roland Sapsford	FS117.5	Part 1 / Interpretation Subpart / Definitions / MULTI-UNIT HOUSING	Oppose	The removal of the definition of multi unit housing is opposed. This form of housing requires special design consideration.	Disallow
Transpower New Zealand Limited	315.25	Interpretation Subpart / Definitions / NATIONAL GRID	Support	Considers that given 'National Grid' is referenced throughout the PDP, the submitter supports the definition as provided in the National Policy Statement for Electricity Transmission 2008. Considers the provision of a definition provides clarity for plan users as to what is the National Grid and assists with the interpretation and application of the objectives, policies and rules.	Retain the definition of 'National Grid' as notified.
Transpower New Zealand Limited	315.26	Interpretation Subpart / Definitions / NATIONAL GRID SUBDIVISION CORRIDOR	Support	<p>Given 'National Grid' is referenced throughout the PDP, Transpower supports the definition as provided in the National Policy Statement for Electricity Transmission 2008. Considers the provision of a definition provides clarity for plan users as to what is the National Grid and assists with the interpretation and application of the objectives, policies and rules. Considers the provision of the definition gives effect to the NPS-ET in that they clearly articulate the framework in which to give effect to the NPS-ET.</p> <p>The subdivision 'National Grid Subdivision Corridor' width of 39m (maximum) is based on the distance from the centreline between the support structures to a point where the conductor would swing under possible high wind conditions and is the swing of the 95th percentile span across the country, as well as other variables. [Refer to original submission for full reason]</p> <p>Considers it is important that the swing of conductors can be taken into account in the subdivision process so that the allotment(s) can be safely developed and used. This is why differing widths are provided for different voltage lines. In essence the Corridor is wider than the Yard and it should be noted that the Corridor and Yard overlap.</p> <p>Seeks amendment to the definition to recognise the two transmission lines within the city that have non-standard features [Refer to original submission for full reason].</p>	Retain the definition of 'National Grid Subdivision Corridor', with amendment.
Transpower New Zealand Limited	315.27	Interpretation Subpart / Definitions / NATIONAL GRID SUBDIVISION CORRIDOR	Amend	<p>Given 'National Grid' is referenced throughout the PDP, Transpower supports the definition as provided in the National Policy Statement for Electricity Transmission 2008. Considers the provision of a definition provides clarity for plan users as to what is the National Grid and assists with the interpretation and application of the objectives, policies and rules. Considers the provision of the definition gives effect to the NPS-ET in that they clearly articulate the framework in which to give effect to the NPS-ET.</p> <p>The subdivision 'National Grid Subdivision Corridor' width of 39m (maximum) is based on the distance from the centreline between the support structures to a point where the conductor would swing under possible high wind conditions and is the swing of the 95th percentile span across the country, as well as other variables. [Refer to original submission for full reason]</p> <p>Considers it is important that the swing of conductors can be taken into account in the subdivision process so that the allotment(s) can be safely developed and used. This is why differing widths are provided for different voltage lines. In essence the Corridor is wider than the Yard and it should be noted that the Corridor and Yard overlap.</p> <p>Seeks amendment to the definition to recognise the two transmission lines within the city that have non-standard features [Refer to original submission for full reason].</p>	<p>Amend the definition of 'National Grid Subdivision Corridor' as follows:</p> <p>NATIONAL GRID SUBDIVISION CORRIDOR National Grid Subdivision Corridor means, as depicted in Diagram 1, the area measured either side of the centre line of any above ground National Grid transmission lines as follows:</p> <p>a. 14m of a 110kV transmission line on single poles <u>or a cable</u>;</p> <p>b. 16m of a 110kV transmission line on pi poles;</p> <p><u>c. 16m of the Te Hikowhenua - Deviation A (THW-DEV-A) transmission line on towers and Pi poles;</u></p> <p><u>d. 18m of the South Makara - Oteranga Bay A (SMK-OTB-A) 11kV transmission line on Single Poles;</u></p> <p><u>ce. 32m of a transmission line up to and including 110kV, on towers;</u></p> <p><u>df. 37m of a 220kV transmission line;</u></p> <p><u>eg. 39m of a 350kV National Grid transmission lines on towers.</u></p> <p>...</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Transpower New Zealand Limited	315.28	Interpretation Subpart / Definitions / NATIONAL GRID YARD	Support	Supports the definition as considers the provision of this gives effect to the NPS-ET in that it clearly articulates the framework in which to give effect to the NPS-ET. [Refer to original submission for full reason] Seeks an amendment to recognise the two transmission lines within the City that have non-standard features. An amendment is also sought to the setback from support structures to apply the 12 metre setback regardless of voltage. Considers this is to ensure the support structure and line is not compromised. [Refer to original submission for full reason].	Retain the definition of 'National Grid Yard', with amendment.
Transpower New Zealand Limited	315.29	Interpretation Subpart / Definitions / NATIONAL GRID YARD	Support	Supports the definition as considers the provision of this gives effect to the NPS-ET in that it clearly articulates the framework in which to give effect to the NPSET. [Refer to original submission for full reason] Seeks an amendment to recognise the two transmission lines within the City that have non-standard features. An amendment is also sought to the setback from support structures to apply the 12 metre setback regardless of voltage. Considers this is to ensure the support structure and line is not compromised. [Refer to original submission for full reason].	Retain the definition of 'National Grid Yard', subject to amendment as follows: NATIONAL GRID YARD means, as depicted in Diagram 1: a. the area located within 120m of either side of the centreline of an above ground 110kV electricity transmission line <u>up to and including 110kv</u> on single poles, or a cable; b. <u>the area located within 10m of either side of the centreline of the Te Hikowhenua - Deviation A (THW-DEV-A) - Single Circuit transmission line on towers and Pi poles;</u> bc the area located within 12m either side of the centreline of an above ground transmission line on pi-poles or towers that is up to 110kV or greater; ed. the area located within 12m in any direction from the outer visible edge of an electricity transmission <u>support structure pole or tower foundation, associated with a line which is up to 110kV or greater.</u> ...
Fire and Emergency New Zealand	273.11	Interpretation Subpart / Definitions / NATURAL HAZARD	Support	Supports the definition of "natural hazard" as it is consistent with S2 RMA	Retain the definition of "natural hazard" as notified.
Greater Wellington Regional Council	351.42	Interpretation Subpart / Definitions / NATURAL HAZARD MITIGATION WORKS	Support	Considers it is appropriate to define this term in the PDP, to assist users in applying Plan provisions.	Retain the Definition of 'Natural Hazard Mitigation Works' as notified.
CentrePort Limited	402.17	Interpretation Subpart / Definitions / NATURAL HAZARD MITIGATION WORKS	Support in part	Supports 'Natural Hazard Mitigation Works' in part. Considers that there is uncertainty as to the relationship between matters covered in the definition of Natural Hazard Mitigation Works and what is covered in the definition of Community Scale Natural Hazard Mitigation.	Retain the definition of 'Natural Hazard Mitigation Works' with amendments.
CentrePort Limited	402.18	Interpretation Subpart / Definitions / NATURAL HAZARD MITIGATION WORKS	Amend	Considers that there is uncertainty as to the relationship between matters covered in the definition of Natural Hazard Mitigation Works and what is covered in the definition of Community Scale Natural Hazard Mitigation.	Clarify the relationship between matters covered in the definition of 'Natural Hazard Mitigation Works' and 'Community Scale Natural Hazard Mitigation', in particular what is meant by community scale and what activities are excluded from this.
Greater Wellington Regional Council	351.43	Interpretation Subpart / Definitions / NATURAL HAZARD OVERLAYS	Support	Considers it is appropriate to define this term in the PDP, identifying the areas of the particular hazard, including flooding, to assist users in applying the relevant Plan provisions.	Retain the Definition of 'Natural Hazard Overlays' as notified.
Kāinga Ora Homes and Communities	391.36	Interpretation Subpart / Definitions / NATURAL HAZARD OVERLAYS	Oppose in part	The inclusion of flood hazard mapping as part of the District Plan is opposed, despite the overall support for the risk-based approach to the management of natural hazards.	Opposes the definition of 'Natural Hazard Overlays' as it stands and seeks amendment.
Wellington International Airport Limited	FS36.19	Part 1/Interpretation Subpart / Definitions / NATURAL HAZARD OVERLAY	Oppose	WIAL supports the further refinement of the natural hazard overlay and mapping in the Proposed Plan. WIAL however opposes the submission to the extent that this definition only deals with a selection of hazards, not coastal hazards such as tsunami risk. This creates ambiguity in the subsequent application of the natural hazard provisions of the Proposed Plan.	Disallow / Seeks that part of the submission be disallowed.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	FS84.54	Part 1 / Interpretation Subpart / Definitions / NATURAL HAZARD OVERLAYS	Oppose	Greater Wellington disagree with the submitter that the flood hazard maps should be removed from the Proposed District Plan and instead be held in a nonstatutory GIS.	Disallow / Seeks that all flood hazard maps are included in the Proposed District Plan
Kāinga Ora Homes and Communities	391.37	Interpretation Subpart / Definitions / NATURAL HAZARD OVERLAYS	Amend	Considers that the definition of 'Natural Hazards Overlays' should be amended.	Amend the definition of 'Natural Hazard Overlays' as follows: NATURAL HAZARD OVERLAYS AREA means the combined mapped extent within the District Plan of the following natural hazards: a. Flood Hazards b a. Liquefaction Hazards c b. Fault Hazards <u>And the Council's publicly available information showing the modelled extent of flooding affecting specific properties in its GIS viewer. The maps are non-statutory and can be reviewed to take account of any property-specific information.</u>
Wellington International Airport Limited	FS36.20	Part 1/Interpretation Subpart / Definitions / NATURAL HAZARD OVERLAY	Oppose	WIAL supports the further refinement of the natural hazard overlay and mapping in the Proposed Plan. WIAL however opposes the submission to the extent that this definition only deals with a selection of hazards, not coastal hazards such as tsunami risk. This creates ambiguity in the subsequent application of the natural hazard provisions of the Proposed Plan.	Disallow / Seeks that part of the submission be disallowed.
Toka Tū Ake EQC	FS70.48	Part 1 / Interpretation Subpart / Definitions / NATURAL HAZARD OVERLAYS	Oppose	MfE discussion paper on National Planning Standards: Zones and Overlays supports the use of the term 'overlay' to mean mapped areas which "introduce more restrictive built form controls than apply to the underlying zone". As this is the purpose of the WCC proposed plan's Natural Hazard Overlays, the term should be retained. Regulatory natural hazard overlays, including for flood, are an important tool to limit subdivision and development within areas subject to natural hazard risk.	Disallow
Greater Wellington Regional Council	FS84.55	Part 1 / Interpretation Subpart / Definitions / NATURAL HAZARD OVERLAYS	Oppose	Greater Wellington disagree with the submitter that the flood hazard maps should be removed from the Proposed District Plan and instead be held in a nonstatutory GIS.	Disallow / Seeks that all flood hazard maps are included in the Proposed District Plan
Transpower New Zealand Limited	315.2	Interpretation Subpart / Definitions / NETWORK UTILITY OPERATOR	Support	Supports proposed definition which reflects that provided in the RMA.	Retain the definition of Network Utility Operator as notified.
Firstgas Ltd	FS97.4	Part 1 / Interpretation Subpart / Definitions / NETWORK UTILITY OPERATOR	Support	Firstgas supports this submission which seeks for the definition of 'Network utility Operator' to retain as notified. The definition reflects that provided in the RMA and provides for Firstgas.	Allow
Waka Kotahi	370.2	Interpretation Subpart / Definitions / NETWORK UTILITY OPERATOR	Amend	The submitter is concerned that this definition of network utility operator (though set by the national planning standard) may exclude operators of the state highway, as roads are often defined as the network managed by the territorial authority [the submitter was neutral on this provision	Delete mentions of "Network Utility Operator" throughout the plan and replace them with "Network Utility Operator and State Highway Network Operator".
KiwiRail Holdings Limited	408.1	Interpretation Subpart / Definitions / NETWORK UTILITY OPERATOR	Support	Supports use of the RMA definition of Network Utility Operator, which includes railway activities in clause (f).	Retain definition of NETWORK UTILITY OPERATOR as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.7	Interpretation Subpart / Definitions / NOISE SENSITIVE ACTIVITY	Oppose in part	Considers that the defined term 'retirement village' should be used for clarity [Note, the submitter incorrectly references THW-02].	Opposes the definition of NOISE SENSITIVE ACTIVITY and seeks amendment as follows: means any lawfully established: a. residential activity, including activity in visitor accommodation or retirement accommodation- villages ; b. educational activity; c. health care activity; d. congregation within any place of worship; and activity at a marae.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.16	Interpretation Subpart / Definitions / NOISE SENSITIVE ACTIVITY	Support	The definition of Noise Sensitive Activity is supported. Service stations frequently generate noise effects, not uncommonly on a 24/7 basis, and are required to comply with permitted noise limits of the district plan or limits otherwise included as conditions in an approved land use consent. These service stations are also frequently located at the edge of centre or commercial zones or in close proximity to residential activities which may be more sensitive to noise generating activities.	Retain the Definition of 'Noise Sensitive Activity' as notified.
Ministry of Education	400.8	Interpretation Subpart / Definitions / NOISE SENSITIVE ACTIVITY	Support	Supports the inclusion of educational facilities in the definition of 'noise sensitive activities' as it aims to protect educational facilities.	Retain the definition of [Noise Sensitive] as notified.
Wellington International Airport Ltd	406.35	Interpretation Subpart / Definitions / NOISE SENSITIVE ACTIVITY	Oppose in part	Considers that the definition of noise sensitive activity does not adequately capture the range of activities typically considered to be sensitive to aircraft noise.	Opposes the definition of "NOISE SENSITIVE ACTIVITY" and seeks amendment.
Guardians of the Bays Inc	FS44.10	Part 1 / Interpretation Subpart / Definitions / NOISE SENSITIVE ACTIVITY	Support	Guardians of the Bays Incorporated agrees with the addition of noise sensitive activities of hospitals.	Allow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.24	Part 1 / Interpretation Subpart / Definitions / NOISE SENSITIVE ACTIVITY	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.36	Interpretation Subpart / Definitions / NOISE SENSITIVE ACTIVITY	Amend	Considers that the definition of noise sensitive activity does not adequately capture the range of activities typically considered to be sensitive to aircraft noise.	Amend definition of "NOISE SENSITIVE ACTIVITY" as follows: Noise Sensitive Activity means any lawfully established: a. residential activity, including activity in visitor accommodation or retirement accommodation; b. educational activity; c. health care <u>and hospital activities activity</u> ; ...
Guardians of the Bays Inc	FS44.11	Part 1 / Interpretation Subpart / Definitions / NOISE SENSITIVE ACTIVITY	Support	Guardians of the Bays Incorporated agrees with the addition of noise sensitive activities of hospitals.	Allow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.25	Part 1 / Interpretation Subpart / Definitions / NOISE SENSITIVE ACTIVITY	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	408.9	Interpretation Subpart / Definitions / NOISE SENSITIVE ACTIVITY	Amend	Supports the activities listed within this definition subject to amendments to clarify certain activities.	Amend definition of NOISE SENSITIVE ACTIVITY as follows: means any lawfully established: a. residential activity, including activity in visitor accommodation or retirement accommodation, <u>including boarding houses, residential visitor accommodation and papakāinga</u> ; b. educational activity; c. health care activity, <u>including hospitals</u> ; d. congregation within any place of worship; and e. activity at a marae. Or any such alternative relief to ensure that all appropriate noise sensitive activities are covered by this definition.
Wellington International Airport Ltd	406.37	Interpretation Subpart / Definitions / NON-AIRPORT ACTIVITY	Amend	The definition requires updating to reflect Submitters' proposed replacement of the term "Airport Purposes" with "Airport Activity".	Retain definition of Non-Airport Activity with amendments.
Guardians of the Bays Inc	FS44.12	Part 1 / Interpretation Subpart / Definitions / NON-AIRPORT ACTIVITY	Not specified	Considers that if this adds wording clarity to the plan it would be useful.	Not specified
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.26	Part 1 / Interpretation Subpart / Definitions / NON-AIRPORT ACTIVITY	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.38	Interpretation Subpart / Definitions / NON-AIRPORT ACTIVITY	Support in part	The definition requires updating to reflect Submitters' proposed replacement of the term "Airport Purposes" with "Airport Activity".	Amend definition of "NON -AIRPORT ACTIVITY" as follows: Non-Airport Activity means an activity within the Airport Zone which is not for "Airport <u>Activity Purpose</u> " or an "Airport Related Activity".
Guardians of the Bays Inc	FS44.13	Part 1 / Interpretation Subpart / Definitions / NON-AIRPORT ACTIVITY	Not specified	Considers that if this adds wording clarity to the plan it would be useful.	Not specified
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.27	Part 1 / Interpretation Subpart / Definitions / NON-AIRPORT ACTIVITY	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Ara Poutama Aotearoa the Department of Corrections	240.5	Interpretation Subpart / Definitions / NON-CUSTODIAL REHABILITATION ACTIVITY	Support	Considers the definition is appropriate in 'capturing' non-custodial rehabilitative and reintegration activities and programmes. Non-custodial rehabilitative and reintegration activities and programmes are an important component of the rehabilitative process for people under Ara Poutama's supervision. They enable people and communities to provide for their social and cultural well-being and for their health and safety.	Retain the definition of "non-custodial rehabilitation activity" as notified.
Wellington International Airport Ltd	406.39	Interpretation Subpart / Definitions / OBSTACLE LIMITATION SURFACE	Oppose	Submitter is not clear where this term is used within the Proposed Plan other than in the text of the Designation. Submitter is concerned that seeking to define this term in this manner oversimplifies the obstacle limitation surfaces described in Designation WIAL1.	Delete definition of "OBSTACLE LIMITATION SURFACE" in its entirety. (Option A)

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Guardians of the Bays Inc	FS44.14	Part 1 / Interpretation Subpart / Definitions / OBSTACLE LIMITATION SURFACE	Not specified	Considers that having words in the Proposed plan that need further connection to the designation and simply obstacle limitations either need further clarification or removal.	Not specified
Kāinga Ora – Homes and Communities	FS89.114	Part 1 / Interpretation Subpart / Definitions / OBSTACLE LIMITATION SURFACE	Oppose	Kāinga Ora seeks the retention of a definition of “obstacle limitation surface” to provide clarity to Plan users.	Disallow / Seeks the retention of a definition of “obstacle limitation surface” to provide clarity to Plan users.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.28	Part 1 / Interpretation Subpart / Definitions / OBSTACLE LIMITATION SURFACE	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.40	Interpretation Subpart / Definitions / OBSTACLE LIMITATION SURFACE	Oppose	Submitter is not clear where this term is used within the Proposed Plan other than in the text of the Designation. Submitter is concerned that seeking to define this term in this manner oversimplifies the obstacle limitation surfaces described in Designation WIAL1.	Amend definition of "OBSTACLE LIMITATION SURFACE" to include reference to the relevant detailed provisions of Designation WIAL1. (Option B).
Guardians of the Bays Inc	FS44.15	Part 1 / Interpretation Subpart / Definitions / OBSTACLE LIMITATION SURFACE	Not specified	Considers that having words in the Proposed plan that need further connection to the designation and simply obstacle limitations either need further clarification or removal.	Not specified
Kāinga Ora – Homes and Communities	FS89.115	Part 1 / Interpretation Subpart / Definitions / OBSTACLE LIMITATION SURFACE	Oppose	Kāinga Ora seeks the retention of a definition of “obstacle limitation surface” to provide clarity to Plan users.	Disallow / Seeks the retention of a definition of “obstacle limitation surface” to provide clarity to Plan users.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.29	Part 1 / Interpretation Subpart / Definitions / OBSTACLE LIMITATION SURFACE	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Fire and Emergency New Zealand	273.12	Interpretation Subpart / Definitions / OFFICIAL SIGN	Support	Supports the definition of "official sign" as it aligns with HSNO, HSW Act 2015.	Retain the definition of "official sign" as notified.
Waka Kotahi	370.26	Interpretation Subpart / Definitions / OFFICIAL SIGN	Support in part	Supports the definition as it aligns with the NPS-UD.	Retain the definition of 'Official Sign', subject to amendments.
Waka Kotahi	370.27	Interpretation Subpart / Definitions / OFFICIAL SIGN	Amend	Considers that there are two definitions for official sign, and only one aligns with the national planning standard definitions.	Retain the definition of 'Official Sign' which aligns with the NPS-UD and delete the additional definition for 'Official Sign' as follows: means all signs required or provided for under any statute or regulation or are otherwise related to aspects of public safety. Official signs include: traffic / pedestrian / cycling signs; railway signs; airport signs; port signs; and signs for the purpose of health and safety.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	FS72.4	Interpretation Subpart / Definitions / OFFICIAL SIGN	Support	Supports the retention of one definition for 'Official sign' that aligns with the NPS-UD. Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Allow
Rimu Architects Ltd	318.12	Interpretation Subpart / Definitions / ONGOING USE	Amend	Considers that there is no definition for 'original use' 'existing use' or 'current use', and 'Original Use' is a more accurate description of this definition ('the same use it was originally constructed for'). Building uses change over time, and a current lawful use may be long established but not have been the use for which the building or object was originally constructed.	Amend the definition of 'Ongoing Use' as follows: means keeping a building or object in the same use it had at the time of the last approved legal use or change of was originally constructed for use.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.17	Interpretation Subpart / Definitions / ONSITE SIGNS	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain the Definition of 'On-site Signs' as notified.
Waka Kotahi	370.28	Interpretation Subpart / Definitions / OPERATING SPEED	Support	Supports the definition of operating speed.	Retain the definition of 'Operating Speed' as notified.
Meridian Energy Limited	228.7	Interpretation Subpart / Definitions / OPERATIONAL NEED	Support	Considers that the definition matches the definition in the National Planning Standards.	Retain the definition of 'Operational Need' as notified.
Fire and Emergency New Zealand	273.13	Interpretation Subpart / Definitions / OPERATIONAL NEED	Support	Supports the definition of "operational need" as it defines activities that have a need to operate in certain locations where the activity is specifically required. Fire stations that have a need to be located in certain areas may including areas with increased risk of natural hazards.	Retain the definition of "operational need" as notified.
Transpower New Zealand Limited	315.30	Interpretation Subpart / Definitions / OPERATIONAL NEED	Support	Considers the definition reflects that provided in the National Planning Standards and has high relevance to the National Grid within the PDP given the operational needs of the National Grid.	Retain the definition of Operational Need as notified.
Woolworths New Zealand	359.6	Interpretation Subpart / Definitions / OPERATIONAL NEED	Amend	Considers that the definition of operational need should not be limited to location-specific needs but could rather require a building or feature to be designed in a particular manner. This term is included within matters of discretion for infringing a number of standards in the CMUZ zones, which is supported. However it is considered that the definitions of this term needs to be amended accordingly.	Amend the definition of 'Operational Need' as follows: The need for a proposal or activity to traverse, locate or operate in a particular environment or be designed in a particular way because of technical, logistical or operational characteristics or constraints.
Meridian Energy Limited	FS101.5	Part 1 / Interpretation Subpart / Definitions / OPERATIONAL NEED	Oppose	Considers that 'Operational Need' is an expression that has come into use in resource management practice usually in association with the particular requirements of infrastructure (not general development activity). The definition should be retained as notified to ensure its specialist intent is not compromised by wider application.	Disallow
Ministry of Education	400.9	Interpretation Subpart / Definitions / OPERATIONAL NEED	Support	Supports the definition as at times the submitter has an operational need to establish educational facilities in areas prone to natural hazards. The submitter acknowledges the Proposed District Plan provisions which relate to buildings and infrastructure which have an operational need to be established in natural hazard areas.	Retain the definition of [Operational Need] as notified.
CentrePort Limited	402.19	Interpretation Subpart / Definitions / OPERATIONAL PORT ACTIVITIES	Support	Support the intent of this definition.	Retain the definition of 'Operational Port Activities' as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	408.10	Interpretation Subpart / Definitions / OPERATIONAL PORT ACTIVITIES	Support	Supports the inclusion of both ferry activities within this definition, as well as associated rail activities. KiwiRail has one ferry that is rail-enabled, and two further rail-enabled ferries will be arriving in 2025. It is important to include rail activities within this definition to accurately capture all port activities in Wellington.	Retain definition of OPERATIONAL PORT ACTIVITIES as notified.
Transpower New Zealand Limited	315.31	Interpretation Subpart / Definitions / OUTSTANDING NATURAL FEATURES AND LANDSCAPES	Support	Supports the identification of such areas on the basis it assists plan users and provides clarity on the application of the plan provisions that relate to the definition	Retain the definition of Outstanding Natural Features and Landscapes as notified.
CentrePort Limited	402.20	Interpretation Subpart / Definitions / PASSENGER PORT FACILITIES	Support	Support the intent of this definition.	Retain the definition of 'Passenger Port Facilities' as notified.
KiwiRail Holdings Limited	408.11	Interpretation Subpart / Definitions / PASSENGER PORT FACILITIES	Support	Supports this definition that provides for the transfer of freight and passengers to and from ferry services in an integrated manner.	Retain definition of PASSENGER PORT FACILITIES as notified.
Living Streets Aotearoa	482.23	Interpretation Subpart / Definitions / PEDESTRIAN	Amend	Considers that the definition of Pedestrian is more comprehensively defined in transport legislation and this should be used instead of the PDP definition.	Amend the definition of PEDESTRIAN as follows (use the transport legislation definition): means a person walking rather than travelling in a vehicle, including a person with impaired mobility who relies on mobility assistance including a wheelchair. <u>a) means a person on foot on a road; and</u> <u>b) includes a person in or on a contrivance equipped with wheels or revolving runners that is not a vehicle.</u> <u>Note: a pedestrian is a person and not a mode of travel. The mode of travel is 'on-foot', walking, running etc.</u> <u>[Inferred decision requested]</u>
Royal Forest and Bird Protection Society	345.9	Interpretation Subpart / Definitions / PEST	Support	Supports the definition.	Retain the definition of "pest" as notified.
CentrePort Limited	402.21	Interpretation Subpart / Definitions / PORT	Support in part	Supports definition of 'Port' in principle, with amendment.	Retain definition of 'Port' with amendments.
CentrePort Limited	402.22	Interpretation Subpart / Definitions / PORT	Amend	Considers that there should be recognition that Burnham and Miramar Wharves are located in the Coastal Marine Area and Burnham Wharf is used for Operational Port Activities. It is included in the Regional Policy Statement definition of Regionally Significant Infrastructure as being one of the three locations in Wellington Harbour for Commercial Port Activities. The land immediately adjoining Burnham Wharf is zoned General Industry there is an interrelationship with Port Activities. An alternative is to cross reference this matter in introductions of the Special Purpose Port Zone and Miramar/Burnham Precincts in the General Industrial Area.	Amend definition of 'Port' to include Miramar and Burnham Wharves.
CentrePort Limited	402.23	Interpretation Subpart / Definitions / PORT NOISE OVERLAY	Support in part	Support 'Port Noise Overlay' in part. Port Noise at Miramar and Burnham Wharves is subject to the Port Noise Management Plan required under the Proposed Natural Resources Plan. This definition does not include reference to Port Noise controls adjoining this facility. Without it the PNRP noise rule (requiring compliance with respect to the noise control line) cannot work. The location of the Port Noise Control Line at Burnham, if reinstated, should be determined on the basis of updated noise modelling which CentrePort currently has underway.	Retain definition of 'Port Noise Overlay', with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
CentrePort Limited	402.24	Interpretation Subpart / Definitions / PORT NOISE OVERLAY	Amend	Port Noise at Miramar and Burnham Wharves is subject to the Port Noise Management Plan required under the Proposed Natural Resources Plan. This definition does not include reference to Port Noise controls adjoining this facility. Without it the PNRP noise rule (requiring compliance with respect to the noise control line) cannot work. The location of the Port Noise Control Line at Burnham, if reinstated, should be determined on the basis of updated noise modelling which CentrePort currently has underway.	Seeks that the 'Port Noise Overlay' definition is amended to: - Include Port Noise Control Line at Miramar/Burnham Wharf. - Provide note that Port Noise matters for land adjoining Miramar and Burnham Wharves is subject to the provisions in the Proposed Natural Resources Plan.
Greater Wellington Regional Council	351.44	Interpretation Subpart / Definitions / POTENTIALLY HAZARD SENSITIVE ACTIVITIES	Support	Considers it is appropriate to define this term in the PDP, to assist users in applying Plan provisions.	Retain the Definition of 'Potentially Hazard Sensitive Activities' as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.18	Interpretation Subpart / Definitions / POTENTIALLY HAZARD SENSITIVE ACTIVITIES	Support	The definition of Potentially Hazard Sensitive Activities is supported, as it includes commercial activities and retail activities (which includes Yard-Based Retail Activities and, therefore, service stations).	Retain the Definition of 'Potentially Hazard Sensitive Activities' as notified.
Argosy Property No. 1 Limited	383.4	Interpretation Subpart / Definitions / POTENTIALLY HAZARD SENSITIVE ACTIVITIES	Support	Supports potentially hazard sensitive activities including offices and retail activities. This is appropriate and consistent with the other potentially hazard sensitive activities, which are activities which include employees but are not particularly sensitive (in comparison to, for example, childcare activities)	Retain the definition of "Potentially Hazard Sensitive Activities" as notified.
Oyster Management Limited	404.98	Interpretation Subpart / Definitions / POTENTIALLY HAZARD SENSITIVE ACTIVITIES	Support	Supports the definition of "potentially hazard sensitive activities". Considers this is appropriate and consistent with the other potentially hazard sensitive activities, which are activities which include employees but are not particularly sensitive (compared to sensitive activities such as childcare activities).	Retain the definition of 'potentially sensitive activity' as notified.
Fabric Property Limited	425.1	Interpretation Subpart / Definitions / Potentially hazard sensitive activities	Support	Supports potentially hazard sensitive activities including offices and retail activities. This is appropriate and consistent with the other potentially hazard sensitive activities, which are activities which include employees but are not particularly sensitive (in comparison to, for example, childcare activities).	Retain definition of 'Potentially hazard sensitive activities' as notified.
New Zealand Agricultural Aviation Association	40.4	Interpretation Subpart / Definitions / PRIMARY PRODUCTION	Amend	Supports the definition of 'Primary Production' and recognition of agricultural, pastoral, horticultural, and forestry activities.	Retain the definition of 'Primary Production' as notified.
Waka Kotahi	370.29	Interpretation Subpart / Definitions / PUBLIC ACCESSWAY	Support	Supports the definition of public accessway.	Retain the definition of 'Public Accessway' as notified.
Waka Kotahi	370.30	Interpretation Subpart / Definitions / PUBLIC TRANSPORT ACTIVITY	Support	Supports the definition of public transport activity.	Retain the definition of 'Public Transport Activity' as notified.
CentrePort Limited	402.25	Interpretation Subpart / Definitions / PUBLIC TRANSPORT ACTIVITY	Support	Supports the intent of this definition.	Retain the definition of 'Public Transport Activity' as notified.
KiwiRail Holdings Limited	408.12	Interpretation Subpart / Definitions / PUBLIC TRANSPORT ACTIVITY	Support	Supports the inclusion of services relating to train stations, ferry terminals and ancillary ticketing and passenger facilities, within this definition.	Retain definition of PUBLIC TRANSPORT ACTIVITY as notified.
Horokiwi Quarries Ltd	271.14	Interpretation Subpart / Definitions / QUARRY	Support	Supports the definition on the basis it reflects the National Planning Standards and provides certainty for users.	Retain the definition of QUARRY as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Aggregate and Quarry Association	303.9	Interpretation Subpart / Definitions / QUARRY	Support	The definition for Quarry is supported.	Retain 'Quarry' definition as notified.
Horokiwi Quarries Ltd	271.15	Interpretation Subpart / Definitions / QUARRYING ACTIVITIES	Support	Supports the definition on the basis it reflects the National Planning Standards and provides certainty for users.	Retain the definition of QUARRYING ACTIVITIES as notified.
Aggregate and Quarry Association	303.10	Interpretation Subpart / Definitions / QUARRYING ACTIVITIES	Support	The definition for Quarrying activities is supported.	Retain 'Quarrying Activities' definition as notified.
KiwiRail Holdings Limited	408.2	Interpretation Subpart / Definitions / RAIL ACTIVITIES	Amend	Supports the inclusion of rail buildings, signaling, tracks and facilities within this definition. However, the definition needs to recognise that rail activities are more than operation of the railway, also encompassing development, upgrading and maintenance of the railway network.	Amend the definition of RAIL ACTIVITIES as follows: The use of land and buildings for the <u>development, upgrading, operation and maintenance</u> of a rail network, including railway signalling, railway tracks and facilities.
KiwiRail Holdings Limited	408.13	Interpretation Subpart / Definitions / RAILYARD AREA	Support	Support definition and acknowledge use of the term 'Railyard Area' in the Port Zone Chapter.	Retain definition of RAILYARD AREA as notified.
Generation Zero Inc	254.9	Interpretation Subpart / Definitions / RAPID TRANSIT STOP	Amend	<p>Considers that the Johnsonville Rail Line meets the definition and criteria of rapid transit in the NPS-UD.</p> <p>Considers that the NPS-UD is intended to align new higher density development along places with existing infrastructure. The Johnsonville Rail Line is underused and has spare capacity.</p> <p>Considers that the Greater Wellington Regional Council identification of the Johnsonville line as rapid transit in the RLTP 2021 as the best available source of information for the matter.</p> <p>Considers that failure to identify Johnsonville Rail Line as rapid transit will make the Proposed District Plan inconsistent with the requirements of Policy 3 of the NPS-UD.</p> <p>Considers that identifying the Johnsonville rail line as a rapid transit service and intensifying around it will support reductions in greenhouse gas emissions.</p> <p>Considers that MfE guidance references Wellington's commuter rail services as an example of existing rapid transit stops as supporting Johnsonville Rail Line to be designated a rapid transit service.</p> <p>[Refer to original submission for full reason]</p>	<p>Amend definition of 'rapid transit stop' as follows:</p> <p>RAPID TRANSIT STOP means a place where people can enter or exit a rapid transit service, whether existing or planned.</p> <p><u>The following stations on the Kapiti Line are rapid transit stops:</u></p> <ul style="list-style-type: none"> • Wellington Station • Takapu Road Station • Redwood Station • Tawa Station • Linden Station • Kenepuru Station <p><u>The following stations on the Johnsonville Line are rapid transit stops:</u></p> <ul style="list-style-type: none"> • Crofton Downs Station • Ngaio Station • Awarua Street Station • Simla Crescent Station • Box Hill Station • Khandallah Station • Raroa Station • Johnsonville Station <p><u>The following station on the Hutt/Melling Line is a rapid transit stop:</u></p> <ul style="list-style-type: none"> • Ngauranga Station
Onslow Residents Community Association	FS80.41	Part 1 / Interpretation Subpart / Definitions / RAPID TRANSIT STOP	Oppose	Considers that the Johnsonville Rail Line does not meet the National Policy Statement on Urban Development definition of a rapid transit service.	Disallow
Wellington's Character Charitable Trust	FS82.4	Part 1 / Interpretation Subpart / Definitions / RAPID TRANSIT STOP	Oppose	Considers improvements to the Johnsonville line may only be taken into account if they are "planned" in a Regional Land Transport Plan (RLTP). Considers there are no such improvements for the Johnsonville line planned in the RLTP. Considers the definition of "planned" in the NPS-UD resolves any circularity in the Johnsonville line not being a rapid transit service. Considers improvements to a transit service must be planned in the RLTP before they are relevant to any upzoning under the NPS-UD. [Refer to original submission - 233]	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora – Homes and Communities	FS89.69	Part 1 / Interpretation Subpart / Definitions / RAPID TRANSIT STOP	Support	Kāinga Ora supports this submission to the extent that this aligns with the Kāinga Ora primary submission.	Allow
Kāinga Ora – Homes and Communities	FS89.70	Part 1 / Interpretation Subpart / Definitions / RAPID TRANSIT STOP	Oppose	Kāinga Ora considers that train stations do not need to be identified in the definition.	Disallow
Stephen Minto	FS100.10	Interpretation Subpart / Definitions / RAPID TRANSIT STOP	Oppose	<p>Submtter 254 proposes the encouragement of ‘Pop-up public realm’'s for dwellings shaded by developments. This is in effect telling people to go outside, to the beach or park if they want sun. Or a glass van will drive round and people can sit in it for 5 minutes before it drives away somewhere else. ‘Closing time drink up ya tea’. That just doesn’t match how people use their time, the independence of when you can relax. It’s simply costly and silly.</p> <p>It is not even a viable proposal in the summer heat when you may want sun to warm the house or dry the clothes but not be in it. But especially in winter when sun is so important for comfort but it is still very cold outside. This heavily impacts the elderly and puts them at higher risk from illnesses. Wellington is not called windy for nothing.</p> <p>These suggestions take no account of how vulnerable some people feel outside and increases the chances of predatory behaviour onto the vulnerable.</p> <p>Every dwelling should be an excellent one and this submission does nothing for that. In theory even new developments could be overshadowed and it’s just bad luck.</p> <p>[Inferred reference to submission point 254.9]</p>	Disallow
Johnsonville Community Association Inc	FS114.7	Part 1 / Interpretation Subpart / Definitions / RAPID TRANSIT STOP	Oppose	<p>The NPS-UD definition states that Rapid Transit Services must be “frequent” and this definition therefore excludes PT services that are not frequent from being classified as Rapid Transit Services.</p> <p>Considers that Greater Wellington Regional Council (GWRC) has incorrectly assessed the Johnsonville Line is a Rapid transit Service because they used a one line statement in the One Network Framework (ONF) drafted by the Road Efficiency Group and published by Waka Katohi.</p> <p>In contrast to the NPS-UD, the ONF definition also classifies passenger rail services that are not frequent as Rapid Transit which is incorrect. The Johnsonville Line is not a frequent service (mostly 2 services/hour) and therefore cannot be classified as a Rapid Transit Service.</p> <p>Considers the One Network Framework is not able tool for this assessment - as confirmed in writing by the Waka Katohi One Network Framework Programme Manager. In contrast, Auckland Transport has developed a PT assessment standard based on suitable public transport criteria and under their criteria, the Onehunga Line is assessed as Nnot being Rapid Transit under the NPS-UD. Applying these same criteria to the Johnsonville Line would also find it is not Rapid Transit.</p> <p>Further, the WCC has also failed to use a PT assessment standard based on suitable public transport criteria to assess whether Johnsonville Line Stations are Rapid Transit Stops under the NPS-UD. Therefore any claim that Johnsonville Line Stations are Rapid Transit Stops is also invalid.</p> <p>[Refer to further submission for full reason]</p>	Disallow / Retain Johnsonville Line as notified (Not considered Rapid Transit).
Waka Kotahi	370.31	Interpretation Subpart / Definitions / RAPID TRANSIT STOP	Support	Supports the definition of rapid transit stop.	Retain the definition of 'Rapid Transit Stop' as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
KiwiRail Holdings Limited	FS72.5	Part 1 / Introduction and General Provisions / Definitions / Rapid Transit Stop	Support	Supports the definition of 'Rapid transit stop' which aligns with the NPS&UD definition. Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Allow
Michelle Rush	436.8	Interpretation Subpart / Definitions / RAPID TRANSIT STOP	Amend	Considers that the rapid transit stops interpretation should be amended to clarify which stations are rapid transit stops and include stops missing from the Johnsonville Line and Kapiti Line. The Kaiwharawhara station should be included in the Kapiti Line, as whilst currently unused, the NPS-UD references future transport routes as well as current. This station, which could be easily reinstated, is in an area increasingly important for both commercial and industrial activities, and housing.	Amend the definition of 'Rapid Transit Stop' as follows: means a place where people can enter or exit a rapid transit service, whether existing or planned. <u>The following stations on the Kapiti Line are rapid transit stops:</u> <ul style="list-style-type: none"> • Wellington Station • Kaiwharawhara Station* currently in abeyance • Takapu Road Station • Redwood Station • Tawa Station • Linden Station • Kenepuru Station <u>The following stations on the Johnsonville Line are rapid transit stops:</u> <ul style="list-style-type: none"> • Crofton Downs Station • Ngaio Station • Awarua Street Station • Simla Crescent Station • Box Hill Station • Khandallah Station • Raroa Station • Johnsonville Station <u>The following station on the Hutt/Melling Line is a rapid transit stop:</u> <ul style="list-style-type: none"> • Ngauranga Station.
Greater Wellington Regional Council	351.45	Interpretation Subpart / Definitions / RECLAMATION	Amend	Considers that the definition is inconsistent with the regional plan definition.	Seeks to amend the Definition of 'Reclamation' to align with regional plan definition.
Wellington Heritage Professionals	412.20	Interpretation Subpart / Definitions / RECONSTRUCTION	Support	Supports the use of the ICOMOS NZ charter definition.	Retain the definition of 'Reconstruction' as notified.
New Zealand Motor Caravan Association	314.6	Interpretation Subpart / Definitions / RECREATION ACTIVITY	Amend	Considers that the definition of 'Recreation Activity' should include campgrounds as a recreational activity as this could achieve their desired outcome of campgrounds being a permitted activity in the zones.	Amend the definition of 'Recreation Activity' to include campgrounds.
Chorus New Zealand Limited (Chorus), Spark New Zealand Trading Limited (Spark) and Vodafone New Zealand Limited (Vodafone)	99.1	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Support	Supports (b) of the definition, which is consistent with the proposed amended definition of Regionally Significant Infrastructure in regard to telecommunication and radio communications networks in Proposed Change 1 to the Regional Policy Statement.	Retain clause (b) of the Definition of Regionally Significant Infrastructure as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Powerco Limited	127.1	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Oppose in part	Considers that Clause (a) of the definition of "Regionally Significant Infrastructure" relates to pipelines for the distribution or transmission of natural or manufactured gas or petroleum. Powerco prefers the wording in the first bullet point of the proposed amended definition of Regionally Significant Infrastructure in Proposed Change 1 to the Greater Wellington Regional Policy Statement that also recognises pipelines may include ancillary equipment to enable them to function.	Amend clause (a) of the definition of Regionally Significant Infrastructure as follows: a. Pipelines for the distribution or transmission of natural or manufactured gas or petroleum_ <u>including any associated fittings, appurtenances, fixtures or equipment.</u>
Firstgas Ltd	FS97.2	Part 1 / Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Support	Firstgas supports the intent of the submission which is seeking an amendment to the definition of 'Regionally Significant Infrastructure'. The submission seeks to amend the definition so that where it refers to pipelines for the distribution or transmission of natural or manufactured gas or petroleum it specifically includes 'any associated fittings, appurtenances, fixtures or equipment.' This submission aligns with the intent of Firstgas' original submission seeking to amend this definition to specifically refer to 'The Gas Transmission Network'. This is to ensure that clarity is provided that any associated above or below-ground fitting, appurtenance, fixture or equipment required for the conveyance of the product or material in the pipeline is captured within the definition. Firstgas supports the submission in addition to seeking that the Gas Transmission Network is also specifically added to the definition.	Allow
Meridian Energy Limited	228.8	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Support	Considers the definition matches the definition in the Proposed Natural Resources Plan (following settlement of appeals) and the proposed RPS change #1 and is supported by the regional community.	Retain the definition of 'Regionally Significant Infrastructure' as notified.
Fire and Emergency New Zealand	273.14	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Support	Supports the definition of "regionally significant infrastructure", particularly the inclusion of the water supply network in the definition.	Retain the definition of "regionally significant infrastructure" as notified.
Firstgas Limited	304.9	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Amend	Considers that the definition of 'Regionally Significant Infrastructure' should be amended so that it incorporates the wider gas transmission network rather than the pipelines only. The network (which includes the ancillary above and below ground infrastructure), as opposed to solely the pipelines, delivers gas to consumers, thereby providing for their well-being and their health and safety. As such, it is the network, not only the pipelines that should be defined as Regionally Significant Infrastructure. (Option A)	Amend the definition of 'Regionally Significant Infrastructure' as follows: Regionally Significant Infrastructure: means regionally significant infrastructure including: a. Pipelines for the distribution of natural or manufactured gas or petroleum b. <u>The Gas Transmission Network</u> c. Facilities and structures necessary for the operation of telecommunications and radiocommunications networks operated by network utility operators; d. the National Grid
Firstgas Limited	304.10	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Amend	Considers that wider gas transmission network be included within the Regionally Significant Infrastructure, rather than the pipelines only. Relief to achieve this submission could be that any associated above or below-ground fitting, appurtenance, fixture or equipment required for the conveyance of the product or material in the pipeline and/or for its safe, efficient or effective operation is included in the definition. (Option B)	Amend the definition of 'Regionally Significant Infrastructure' to include any associated above or below-ground fitting, appurtenance, fixture or equipment required for the conveyance of the product or material in the pipeline and/or for its safe, efficient or effective operation.
Transpower New Zealand Limited	315.32	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Support	Considers the provision of a definition of Regionally Significant Infrastructure and its use throughout the plan reflects the approach used within the Wellington Regional Policy Statement. While references, policies and methods specific to the National Grid (both within the policy and any rule framework) are supported, the inclusion of the National Grid within the definition of Regionally Significant Infrastructure is supported.	Retain the definition of Regionally Significant Infrastructure as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.10	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Oppose in part	Seeks that the definition is confined (not including) to the listed matters. As such, we seek the deletion of the word 'including', and the insertion of the word 'means'. Considers paragraph a. needs to be more clearly defined to ensure it doesn't apply to things that are less than regionally significant, for example, piped gas for a subdivision. Considers paragraph j. should refer specifically to the port areas intended to be covered. Further, the following clause should be deleted: 'adjacent land used in association with the movement of cargo and passengers and including bulk fuel supply infrastructure, and storage tanks for bulk liquids, and associated wharf lines'. Either these areas are part of the Port, or they should not be included as RSI (just as the Wgtn Airport is defined).	Amend the definition of "regionally significant infrastructure": Means regionally significant infrastructure including: a. regionally significant pipelines for the distribution or transmission of natural or manufactured gas or petroleum; b. facilities and structures necessary for the operation of telecommunications and radiocommunications networks operated by network utility operators; c. the National Grid; d. facilities for the generation and/or transmission of electricity where it is supplied to the National Grid and/or the local distribution network; e. the local authority water supply network and water treatment plants; f. the local authority wastewater and stormwater networks, systems and wastewater treatment plants; g. the Strategic Transport Network, as identified in the operative Wellington Regional Land Transport Plan; h. Wellington City bus terminal and Wellington Railway Station terminus; i. Wellington International Airport; and j. Commercial Port Areas within Wellington Harbour (refine areas) and adjacent land used in association with the movement of cargo and passengers and including bulk fuel supply infrastructure, and storage tanks for bulk liquids, and associated wharf lines.
Guardians of the Bays Inc	FS44.16	Part 1 / Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Support	Support the wording changes and removal of redundant words and areas of land.	Allow
Powerco Limited	FS61.1	Part 1 / Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Oppose	The proposed change to the definition in regard to gas networks does not align with different changes being sought by Powerco and is unhelpful by referring to regionally significant pipelines (including gas) within the definition whereas the definition is intended to define what is regionally significant infrastructure.	Disallow
KiwiRail Holdings Limited	FS72.6	Part 1 / Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Oppose	Rejects amendments that result in a departure to the Greater Wellington Regional Policy Statement definition of 'Regionally significant infrastructure'. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow
Firstgas Ltd	FS97.3	Part 1 / Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Oppose	Firstgas opposes this submission in part which seeks to amend the definition of 'Regionally Significant Infrastructure' so that it more clearly defined.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Meridian Energy Limited	FS101.6	Part 1 / Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Oppose	Considers that the definition matches the definition in the GWRC Natural Resources Plan which was settled following mediation of appeals. It is widely accepted and does not need the refinement requested.	Disallow
Waka Kotahi NZ Transport Agency	FS104.1	Part 1 / Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Oppose	Defence facilities are critical for New Zealand's security and for the safety and well-being of the community. Although NZDF does not currently have major facilities in Wellington City, this does not preclude the need for future defence infrastructure in Wellington City and it is appropriate they are included in the definition as requested in NZDF's original submission. Use of the term 'including' in the definition is critical to ensuring regionally significant infrastructure that is not yet captured under this definition is not excluded, should they not be explicitly listed in the definition.	Disallow / Reject submitter's relief and retain definition of infrastructure as notified but with the addition of "defence facilities" as requested in NZDF's original submission.
Wellington Electricity Lines Limited	355.15	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Support in part	Supports the definition of 'Regionally Significant Infrastructure' in part and seeks amendment to ensure the WCC definition is consistent with other recent plan reviews in the Wellington Region. In particular, considers that the definition should align with the GWRC Natural Resource Plan, which has been confirmed through a negotiated court order.	Retain the definition of 'Regionally Significant Infrastructure', with amendment.
M&P Makara Family Trust	FS41.1	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Support	Removal of "...facilities for the generation (of electricity)..." fits with the definition's intention enable conveyancing: i.e. transmission, flow and movement of electricity, water and people. Generation facilities themselves appear to be an anomalous inclusion. Disallow those submissions that support the definition as notified.	Allow
Wellington Electricity Lines Limited	355.16	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Amend	Considers that the definition of 'Regionally Significant Infrastructure' should be amended to align with the definition in the GWRC Natural Resources Plan. Consider the definition should appropriately differentiate the two distinct elements of the distribution network. Wellington Electricity Lines Limited's distribution network consists of lower voltage electricity supply within the local distribution network. The distribution network also contains higher-voltage transmission lines that takes electricity supply from the National Grid (from Grid Exit Points – GXP) which is then supplied to the lower voltage to service the local distribution network. It is considered important for the 'Regionally Significant Infrastructure' definition in the PDP to be consistent with other recent plan review processes in the Wellington Region– and therefore adopt the same definition as in the GWRC Natural Resource Plan, as well as the decisions version of the Proposed Porirua City District Plan. [Refer to original submission for full reason, including attachment]	Amend the Definition of 'Regionally Significant Infrastructure' as follows: means regionally significant infrastructure including: ... d. facilities for the generation and/or transmission of electricity where it is supplied to the National Grid and/or the local distribution network; <u>d. facilities for the electricity distribution network, where it is 11kV and above. This excludes private connections to the local distribution network.</u> ...
Transpower New Zealand Limited	FS29.40	Part 1 / Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Support	Transpower accepts the relief sought on the basis specific reference is retained in the definition to the National Grid.	Allow / Seeks that part of the submission be allowed in so far as consistent with the relief sought in the Transpower submission.
M&P Makara Family Trust	FS41.2	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Support	Removal of "...facilities for the generation (of electricity)..." fits with the definition's intention enable conveyancing: i.e. transmission, flow and movement of electricity, water and people. Generation facilities themselves appear to be an anomalous inclusion. Disallow those submissions that support the definition as notified.	Allow
Waka Kotahi	370.32	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Support	Supports the definition of regionally significant infrastructure.	Retain the definition of 'Regionally Significant Infrastructure' as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
CentrePort Limited	402.26	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Support	Supports definition, noting that this is the Regional Policy Statement definition (Subject to the definition of Port being amended).	Retain the definition of 'Regionally Significant Infrastructure' as notified.
Wellington International Airport Ltd	406.41	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Support	Insofar as it relates to Wellington International Airport, the definition is consistent with the Greater Wellington Regional Policy Statement definition of regionally significant infrastructure.	Retain definition of "REGIONALLY SIGNIFICANT INFRASTRUCTURE" as notified.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.30	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
KiwiRail Holdings Limited	408.14	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Amend	Supports the inclusion of the Strategic Transport Network within this definition. All railway corridors are included in the Wellington Regional Land Transport Plan 2021 definition of Strategic Transport Network. KiwiRail seeks an addition to clarify that the Interislander ferry terminal is expressly included in this definition. The description of the Strategic Transport Network in Appendix B of the Wellington Regional Land Transport Plan 2021 refers to railway corridors. While the railway corridor extends to the Interislander ferry terminal it is not expressly referenced in the description. KiwiRail seeks to avoid any ambiguity that the ferry terminal is not part of the Strategic Transport Network.	Amend definition of REGIONALLY SIGNIFICANT INFRASTRUCTURE as follows: ... g. the Strategic Transport Network, as identified in the operative Wellington Regional Land Transport Plan; h. <u>Interislander Ferry Terminal</u> , Wellington City bus terminal and Wellington Railway Station terminus; i. Wellington International Airport; and ...
New Zealand Defence Force	423.3	Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Amend	Supports 'defence facilities' being added to the definition of regionally significant infrastructure. Considers that the wording of this definition is amended, as currently the wording is circular, i.e. 'Regionally Significant Infrastructure means Regionally Significant Infrastructure, including..'	Amend the definition of "Regionally Significant Infrastructure" as follows: Regionally Significant Infrastructure means regionally significant infrastructure including <u>includes</u> : ... k. <u>Defence Facilities</u>
Meridian Energy Limited	FS101.7	Part 1 / Interpretation Subpart / Definitions / REGIONALLY SIGNIFICANT INFRASTRUCTURE	Oppose	Considers that the definition matches the definition in the GWRC Natural Resources Plan which was settled following mediation of appeals. It is widely accepted and does not need the refinement requested.	Disallow
Meridian Energy Limited	228.9	Interpretation Subpart / Definitions / RENEWABLE ELECTRICITY GENERATION ACTIVITY	Support	Considers the definition accurately captures the facilities and activities typically included in or associated with renewable electricity generation activities.	Retain the definition of 'Renewable Electricity Generation' as notified.
Meridian Energy Limited	228.10	Interpretation Subpart / Definitions / RENEWABLE ELECTRICITY GENERATION INVESTIGATION ACTIVITY	Support	Considers the definition accurately captures the facilities and activities typically included in or associated with renewable electricity generation investigation activities.	Retain the definition of 'Renewable Electricity Generation Investigation Activity' as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Oranga Tamariki	83.1	Interpretation Subpart / Definitions / RESIDENTIAL ACTIVITY	Support	Oranga Tamariki support the inclusion of the definition which is consistent with the National Planning Standard. Oranga Tamariki considers that it encompasses a range of Oranga Tamariki homes including those with custodial and/or supervised living accommodation where the residents may be detained on site.	Retain definition of Residential Activity as notified.
Oranga Tamariki	83.2	Interpretation Subpart / Definitions / RESIDENTIAL ACTIVITY	Amend	Oranga Tamariki request that the 'Supported Residential Care Activity' be nested within the residential activity definition. The inclusion of 'Supported Residential Care Activity' and its definition further refines a specific subset of residential activity. Oranga Tamariki considers that it could encompass Oranga Tamariki homes and should be nested within the residential activity definition to enable the residential policy framework to apply to this activity.	Seeks that the definition of "Supported Residential Care Activity" be nested within the definition of "Residential Activities".
Ara Poutama Aotearoa the Department of Corrections	240.6	Interpretation Subpart / Definitions / RESIDENTIAL ACTIVITY	Support	Considers that the definition is consistent with the wording provided for in the National Planning Standards. This definition applies to supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama. Providing reintegration and rehabilitation support is an important component of the reintegration process for people under Ara Poutama's supervision. It enables people and communities to provide for their social and cultural well-being and for their health and safety	Retain the definition of "residential activity" as notified.
Fire and Emergency New Zealand	273.15	Interpretation Subpart / Definitions / RESIDENTIAL ACTIVITY	Support	Supports the definition of "residential activity" as it includes the use of land and buildings that are primarily purposed for living accommodation.	Retain the definition of "residential activity" as notified.
Tapu-te-Ranga Trust	297.8	Interpretation Subpart / Definitions / RESIDENTIAL ACTIVITY	Support	Supports the definition of residential activity.	Retain the definition for 'residential activity' as notified.
Fire and Emergency New Zealand	273.16	Interpretation Subpart / Definitions / RESIDENTIAL UNIT	Support	Supports the definition of "residential unit" as it includes the use of a building or part of a building as forming part of a residential unit, one or more residential units, used or intended to be used for a residential activity.	Retain the definition of "residential unit" as notified.
Airbnb	126.5	Interpretation Subpart / Definitions / RESIDENTIAL VISITOR ACCOMMODATION	Amend	Considers that the distinction visitor accommodation and residential visitor accommodation should be clarified as the former appears to encompass the latter.	Clarify the distinction between visitor accommodation and residential visitor accommodation.
Royal Forest and Bird Protection Society	345.11	Interpretation Subpart / Definitions / RESTORATION	Oppose in part	Considers the definition does not apply easily to ecological restoration and therefore seeks that this definition is amended	Amend definition of "restoration": Means an alteration to return a place to a known earlier form, by reassembly and reinstatement, and/or by removal of elements that detract from its heritage value, <u>or the rehabilitation of sites, habitats or ecosystems to support indigenous flora and fauna, ecosystem functions and natural processes that would naturally occur in the ecosystem and locality.</u>
Greater Wellington Regional Council	351.46	Interpretation Subpart / Definitions / RESTORATION	Amend	Considers that the definition is inconsistent with the regional plan definition. It is also unclear why restoration and restored have been separated out, such that 'restoration' relates only to cultural heritage.	Seeks to amend the Definition of 'Reconstruction' to align with regional plan definition.
Wellington Heritage Professionals	412.21	Interpretation Subpart / Definitions / RESTORATION	Support	Supports the use of the ICOMOS NZ charter definition.	Retain the definition of 'Restoration' as notified.
Royal Forest and Bird Protection Society	345.12	Interpretation Subpart / Definitions / RESTORED	Support	Supports the definition.	Retain the definition of "restored" as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Greater Wellington Regional Council	351.47	Interpretation Subpart / Definitions / RESTORED	Amend	Considers the definition aligns with regional plan definition of 'restoration' relating to natural heritage but is inconsistently named	Seeks to amend the Definition of 'Restored' to align with regional plan definition.
Foodstuffs North Island	476.5	Interpretation Subpart / Definitions / RETAIL ACTIVITY	Support	Supports the definition of "Retail activity".	Retain the definition of "Retail activity" as notified.
Metlifecare Limited	413.2	Interpretation Subpart / Definitions / RETIREMENT VILLAGE	Support in part	Supports a broad definition of retirement village.	Retain provision, subject to amendments, as outlined other submission points.
Metlifecare Limited	413.3	Interpretation Subpart / Definitions / RETIREMENT VILLAGE	Amend	Considers it should be recognised that given the economic conditions and changing nature of society, there are some limited circumstances where residents wish to or are required to work and are therefore not "retired". A minor amendment is proposed to reflect this.	Seeks to amend the definition of "retirement village" as follows: "residential accommodation for people who are <u>predominately</u> retired and any spouses or partners of such people. It may also include any of the following for residents within the complex: recreation, leisure, supported residential care, welfare and medical facilities (inclusive of hospital care) and other non-residential activities."
Meridian Energy Limited	228.11	Interpretation Subpart / Definitions / REVERSE SENSITIVITY	Support	Considers the definition accurately describes the concept of reverse sensitivity and will be helpful to users of the plan.	Retain the definition of 'Reverse Sensitivity' as notified.
Transpower New Zealand Limited	315.33	Interpretation Subpart / Definitions / REVERSE SENSITIVITY	Support	Supports the provision of a definition as the concept recognises the relationship between existing activities and incompatible new or altered activities. The term is used within the INF chapter within INF-O3 and INF-P7 and is of specific relevance to the National Grid.	Retain the definition of Reverse Sensitivity as notified.
Waka Kotahi	370.33	Interpretation Subpart / Definitions / REVERSE SENSITIVITY	Support	Support the definition of reverse sensitivity as it provides for the operation of an existing lawfully established activity (state highway network) to be compromised, constrained or curtailed by the more recent establishment or alteration of another activity which may be sensitive to the actual, potential or perceived environmental effects generated by the existing activity.	Retain the definition of 'Reverse Sensitivity' as notified.
CentrePort Limited	402.27	Interpretation Subpart / Definitions / REVERSE SENSITIVITY	Support	Supports the intent of this definition.	Retain the definition of 'Reverse Sensitivity' as notified.
Wellington International Airport Ltd	406.42	Interpretation Subpart / Definitions / REVERSE SENSITIVITY	Support	The definition provides a consistent interpretation and application of the concept of reverse sensitivity.	Retain definition of "REVERSE SENSITIVITY" as notified.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.31	Interpretation Subpart / Definitions / REVERSE SENSITIVITY	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
KiwiRail Holdings Limited	408.15	Interpretation Subpart / Definitions / REVERSE SENSITIVITY	Amend	Supports the definition proposed in relation to reverse sensitivity effects. It is important to recognise the vulnerability of existing, lawfully established activities, such as the rail network, to noise sensitive activities being located nearby. However, the definition needs to recognise that rail activities are more than operation of the railway, also encompassing development, upgrading and maintenance of the railway network.	Amend definition of REVERSE SENSITIVITY as follows: means the potential for the <u>development, upgrading, operation and maintenance</u> of an existing lawfully established activity to be compromised, constrained or curtailed by the more recent establishment or alteration of another activity which may be sensitive to the actual, potential or perceived environmental effects generated by the existing activity.
Guardians of the Bays Inc	FS44.17	Part 1 / Interpretation Subpart / Definitions / REVERSE SENSITIVITY	Oppose	Considers that the proposed additions of 'development' 'upgrading' and 'maintenance' are too broad to be part of the reverse sensitivity definition.	Disallow
Meridian Energy Limited	FS101.8	Part 1 / Interpretation Subpart / Definitions / REVERSE SENSITIVITY	Support	Considers that it is appropriate to protect minor upgrading and maintenance of existing activities from reverse sensitivity effects.	Allow
Royal Forest and Bird Protection Society	345.13	Interpretation Subpart / Definitions / RIPARIAN MARGIN	Support	Supports the definition.	Retain the definition of "riparian margin" as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Jeremy Partridge	102.1	Interpretation Subpart / Definitions / ROOT PROTECTION AREA	Amend	<p>Considers that the proposed definition of a Root Protection Area, with the canopy spread/dripline method proposed by Council to determine a critical area of roots, will fail to protect an adequate area and volume of roots required to maintain the tree's health, functions and physiology.</p> <p>The 'dripline half height' method proposed in the PDP derives from a British Standard method which was withdrawn in 2005 and replaced with the '12 times stem diameter' method.</p> <p>The NZ Arboricultural Association supports a different method which is the '12 times stem diameter multiplier method' to determine the area of roots a tree requires to function and survive and this method is also used in the Australian, American and British Trees and Construction National Standards.</p> <p>[Refer to original submission for full reasons].</p>	Amend the definition of 'Root Protection Area' to use the 12 times stem diameter method recommended by the NZ Arboricultural Association and not be based on the dripline or half tree height method taken from BS5837 1991.
Argosy Property No. 1 Limited	383.5	Interpretation Subpart / Definitions / ROOT PROTECTION AREA	Oppose	Notes the definition of root protection area in the Proposed Plan uses the British Standard which has been proven not to be accurate. It is sought that this be updated with the methodology most commonly used by arborists in New Zealand (from the Australian Standard).	<p>Delete the current the definition of "root protection area".</p> <p>Replace with the following definition:</p> <p><u>Means the area to be protected from root disturbance. It is calculated by using the following formula (from the Australian Standard)</u></p> <p><u>Root Protection Area = DBH x 12</u> <u>DBH is diameter of the trunk at breast height = trunk diameter measured at 1.4m above ground level.</u> <u>Radius is measured from the centre of the stem at ground level.</u> <u>For multi-stemmed trees, the following formula is used.</u> <u>Total DBH = Square root ((DBH1)2 + (DBH2)2 + (DBH3)2)</u> <u>The assessment of the root protection area also needs to take into account:</u></p> <ul style="list-style-type: none"> • <u>existing root morphology and site conditions such as the presence of roads, structures, and underground services,</u> • <u>topography and drainage,</u> • <u>the soil type and structure,</u> • <u>the likely tolerance of the tree to root disturbance or damage based on species, age, condition, and past management.</u>
Meridian Energy Limited	228.12	Interpretation Subpart / Definitions / SENSITIVE ACTIVITY	Support	Considers the definition accurately identifies land use activities that are sensitive to adverse amenity effects including noise.	Retain the definition of 'Sensitive Activity' as notified.
New Zealand Motor Caravan Association	314.7	Interpretation Subpart / Definitions / SENSITIVE ACTIVITY	Oppose	Considers that the definition of 'Sensitive Activity' should be clarified to outline the criteria which define why and how an un-named activity may be sensitive. The definition only provide a list of uses or activities. This approach is inconsistent with the effects-based approach required to be taken in Part 2 of the Resource Management Act.	Clarify the definition of 'Sensitive Activity' to provide a set of criteria defining why and how an un-named activity may be sensitive.
Meridian Energy Limited	FS101.9	Part 1 / Interpretation Subpart / Definitions / SENSITIVE ACTIVITY	Oppose	Considers that camping grounds and all forms of temporary accommodation are potentially sensitive in relation to noise effects and should not be excluded from the definition. In the absence of any specific wording proposal, Meridian does not support the inclusion of criteria.	<p>Disallow / Seeks the requested exclusion of camping grounds or temporary accommodation is disallowed.</p> <p>Seeks the request to include criteria is disallowed.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
New Zealand Motor Caravan Association	314.8	Interpretation Subpart / Definitions / SENSITIVE ACTIVITY	Oppose in part	<p>Considers that the definition of sensitive activity should not include 'visitor accommodation'. A subcategory that excludes campgrounds from sensitive and hazard sensitive activities should be added to the definition.</p> <p>Reason being, camping grounds are transitory in nature and provide for accommodation on a temporary basis. People enjoy camping in areas with natural scenery and landscapes as well as in areas close to the central business centres. The effects can be moderated easily through more specific site management efforts as many of the activities are not permanently attached to the land. People can be moved easily and forewarned in the event of a potential risk or natural hazard.</p> <p>The New Zealand Motor Caravan Association operates over 47 parks across New Zealand, most of which are not categorised as a sensitive activity or hazard sensitive activity.</p>	Amend the definition of 'Sensitive Activity' to remove the mention of visitor accommodation.
Meridian Energy Limited	FS101.10	Part 1 / Interpretation Subpart / Definitions / SENSITIVE ACTIVITY	Oppose	Considers that camping grounds and all forms of temporary accommodation are potentially sensitive in relation to noise effects and should not be excluded from the definition. In the absence of any specific wording proposal, Meridian does not support the inclusion of criteria.	<p>Disallow / Seeks the requested exclusion of camping grounds or temporary accommodation is disallowed.</p> <p>Seeks the request to include criteria is disallowed.</p>
Transpower New Zealand Limited	315.34	Interpretation Subpart / Definitions / SENSITIVE ACTIVITY	Support	[No specific reason provided beyond decision requested - refer to original submission]	Retain the definition of Sensitive Activity as notified.
Waka Kotahi	370.34	Interpretation Subpart / Definitions / SENSITIVE ACTIVITY	Support	Supports the definition of sensitive activity.	Retain the definition of 'Sensitive Activity' as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.19	Interpretation Subpart / Definitions / SENSITIVE ACTIVITY	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain the Definition of 'Sensitive Activity' as notified.
Ministry of Education	400.10	Interpretation Subpart / Definitions / SENSITIVE ACTIVITY	Support	Supports the inclusion of educational facilities in the definition as it aims to protect educational facilities.	Retain the definition of [Sensitive Activity] as notified.
KiwiRail Holdings Limited	408.16	Interpretation Subpart / Definitions / SENSITIVE ACTIVITY	Support	Supports activities listed within this definition.	Retain definition of SENSITIVE ACTIVITY as notified.
Z Energy Limited	361.7	Interpretation Subpart / Definitions / SERVICE STATION	Support	The definition of Service station is supported, as the submitter assumes the definition includes truck stops	Retain the Definition of 'Service Station' as notified.
Waka Kotahi	370.35	Interpretation Subpart / Definitions / SIGN	Support	Supports the definition of sign.	Retain the definition of 'Sign' as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.20	Interpretation Subpart / Definitions / SIGN	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain the Definition of 'Signs' as notified.
Transpower New Zealand Limited	315.35	Interpretation Subpart / Definitions / SIGNIFICANT NATURAL AREA	Support	Supports the identification of such areas on the basis it assists plan users and provides clarity on the application of the plan provisions that relate to the definition.	Retain the definition of Significant Natural Area as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Royal Forest and Bird Protection Society	345.14	Interpretation Subpart / Definitions / SIGNIFICANT NATURAL AREA	Support in part	Considers the definition should also include areas of significant biodiversity values that meet Policy 23 RPS criteria, but that are not yet on Schedule 8, for example where they are discovered as part of a consenting process. It also needs to include reference to the deleted SCHED9 – Urban Environment Allotments. Notes that the plan refers to SNAs in varying ways in different chapters. Some chapters simply use the term 'Significant Natural Area', while others refer to SCHED 8. We seek that the defined term is used throughout the plan.	Amend definition of "significant natural area": Means an area of significant indigenous vegetation or significant habitat of indigenous fauna <u>that meets any of the criteria in Policy 23 of the Wellington Regional Policy Statement, whether identified in SCHED8 - Significant Natural Areas, SCHED9- Urban Environment Allotments, or as part of a consenting process.</u>
Meridian Energy Limited	FS101.11	Part 1 / Interpretation Subpart / Definitions / SIGNIFICANT NATURAL AREA	Oppose	Meridian understands the desire to ensure all 'significant natural areas' are captured but the request erodes the certainty provided by the definition. Considers that plan users and resource users need the certainty of knowing, in any given situation, what and where significant natural areas are located.	Disallow
Tapu-te-Ranga Trust	297.9	Interpretation Subpart / Definitions / SITE OR AREA OF SIGNIFICANCE TO MĀORI	Support	Supports the definition of a site or area of significance to Māori.	Retain the definition for 'site or area of significance to Māori' as notified.
Meridian Energy Limited	228.13	Interpretation Subpart / Definitions / SMALL SCALE RENEWABLE ELECTRICITY GENERATION ACTIVITY	Support	Considers the definition gives effect to the NPS-REG.	Retain the definition of 'Small Scale Renewable Electricity Generation Activity' as notified.
Greater Wellington Regional Council	351.48	Interpretation Subpart / Definitions / SOFT ENGINEERING NATURAL HAZARD MITIGATION WORKS	Support	Considers it is appropriate to define this term as it improves ease of use of the Plan and guides the Plan user and the examples included are useful.	Retain the Definition of 'Soft Engineering Natural Hazard Mitigation Works' as notified.
Transpower New Zealand Limited	315.36	Interpretation Subpart / Definitions / SPECIAL AMENITY LANDSCAPES	Support	Supports the identification of such areas on the basis it assists plan users and provides clarity on the application of the plan provisions that relate to the definition.	Retain the definition of Special Amenity Landscapes as notified.
Waka Kotahi	370.36	Interpretation Subpart / Definitions / STREETScape	Support	Supports the definition of streetscape.	Retain the definition of 'Streetscape' as notified.
Fire and Emergency New Zealand	273.17	Interpretation Subpart / Definitions / STRUCTURE	Support	Supports the definition of "structure" as it best defines buildings that are fixed/located on land.	Retain the definition of "structure" as notified.
Foodstuffs North Island	476.6	Interpretation Subpart / Definitions / SUPERMARKET	Support	Supports the definition of "Supermarket".	Retain the definition of "Supermarket" as notified.
Oranga Tamariki	83.3	Interpretation Subpart / Definitions / SUPPORTED RESIDENTIAL CARE ACTIVITY	Amend	It is further considered that the definition should be completed by including "is provided" as it currently reads incomplete.	Amend definition of "Supported Residential Care Activity" as follows: means land and buildings in which residential accommodation, supervision, assistance, care and/or support by another person or agency for residents- <u>is provided</u>
Ara Poutama Aotearoa the Department of Corrections	240.7	Interpretation Subpart / Definitions / SUPPORTED RESIDENTIAL CARE ACTIVITY	Oppose	Considers that the definition of "residential activity" entirely captures supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama. That is, supported and transitional accommodation activities use "land and building(s) for people's living accommodation" (as per the definition of "residential activity"). As such, there is no need for a separate and standalone definition of "supported residential care activity" and the associated provisions applying to such throughout the PDP.	Remove the definition of "supported residential care activity" and the associated provisions applying to it throughout the plan.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora – Homes and Communities	FS89.4	Part 1 / Interpretation Subpart / Definitions / SUPPORTED RESIDENTIAL CARE ACTIVITY	Oppose	Kāinga Ora considers that the definition of “residential activity” entirely captures supported and transitional accommodation activities, such as those provided for by Ara Poutama; i.e. people living in a residential situation, who are subject to support and/or supervision by Ara Poutama. That is, supported and transitional accommodation activities use “land and building(s) for people’s living accommodation” (as per the definition of “residential activity”). As such, there is no need for a separate and standalone definition of “supported residential care activity” and the associated provisions applying to such throughout the PDP.	Disallow
Ara Poutama Aotearoa the Department of Corrections	240.8	Interpretation Subpart / Definitions / SUPPORTED RESIDENTIAL CARE ACTIVITY	Support in part	Considers that there is no need for a separate and standalone definition of “supported residential care activity” and the associated provisions applying to such throughout the PDP. However, if this is retained, the wording is acceptable.	If the definition of ‘supported residential care activity’ remained in the Proposed District Plan, retain the wording as notified.
Kāinga Ora – Homes and Communities	FS89.5	Part 1 / Interpretation Subpart / Definitions / SUPPORTED RESIDENTIAL CARE ACTIVITY	Oppose	Kāinga Ora opposes the deletion of the ‘Supported Residential Care’ definition as it is uncertain how the deletion of the definition would affect existing activities that fall within this definition.	Disallow
Retirement Villages Association of New Zealand Incorporated	350.8	Interpretation Subpart / Definitions / SUPPORTED RESIDENTIAL CARE ACTIVITY	Oppose in part	Notes that the definition of ‘retirement village’ includes the provision of ‘supported residential care’ within the village. However, retirement villages are regulated separately from ‘supported residential care’ and therefore retirement villages should be excluded from the definition. Notes that the definition for ‘supported residential care’ as currently drafted appears to be incomplete.	Opposes the definition of SUPPORTED RESIDENTIAL CARE ACTIVITY and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.9	Interpretation Subpart / Definitions / SUPPORTED RESIDENTIAL CARE ACTIVITY	Amend	Notes that the definition of ‘retirement village’ includes the provision of ‘supported residential care’ within the village. However, retirement villages are regulated separately from ‘supported residential care’ and therefore retirement villages should be excluded from the definition. Notes that the definition for ‘supported residential care’ as currently drafted appears to be incomplete.	Amend the definition of SUPPORTED RESIDENTIAL CARE ACTIVITY as follows: means land and buildings in which residential accommodation, supervision, assistance, care and/or support <u>is provided</u> by another person or agency for residents <u>excluding retirement villages</u> .
Royal Forest and Bird Protection Society	345.15	Interpretation Subpart / Definitions / TECHNICIAN ARBORIST	Support	Supports the definition.	Retain the definition of “technician arborist” as notified.
Argosy Property No. 1 Limited	383.6	Interpretation Subpart / Definitions / TECHNICIAN ARBORIST	Support in part	Considers the definition of technician arborist is restrictive by requiring the arborist to have a Level 6 diploma. An arborist could have the necessary expertise to be a technician arborist without having this qualification.	Amend the definition of “Technician Arborist” as follows: means a person who: ... c. has demonstrated competency to Level 6 New Zealand Diploma in Arboriculture standard (or to an equivalent arboricultural standard) <u>or has equivalent experience and is competent in the assessment of working around trees and their root zones on development sites</u> .
Massey University	253.2	Interpretation Subpart / Definitions / TEMPORARY ACTIVITIES	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain the definition for Temporary Activities as notified.
Fire and Emergency New Zealand	273.18	Interpretation Subpart / Definitions / TEMPORARY ACTIVITIES	Support in part	Supports the definition of “temporary activities” as it provides for temporary/ short-term event and activities. However, as below, FENZ requests a new definition for ‘temporary emergency services training activity’ to provide greater clarity to plan users and to support the relief sought elsewhere in this feedback. Subject to acceptance of the new definition for ‘Temporary emergency services training activity’ FENZ considers that ‘Temporary emergency services training activities’ should be excluded from this definition to provide further clarity to plan users.	Supports the definition of “temporary activities” with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Fire and Emergency New Zealand	273.19	Interpretation Subpart / Definitions / TEMPORARY ACTIVITIES	Amend	Supports the definition of "temporary activities" as it provides for temporary/ short-term event and activities. However, as below, FENZ requests a new definition for 'temporary emergency services training activity' to provide greater clarity to plan users and to support the relief sought elsewhere in this feedback. Subject to acceptance of the new definition for 'Temporary emergency services training activity' FENZ considers that 'Temporary emergency services training activities' should be excluded from this definition to provide further clarity to plan users.	Amend definition of "temporary activities": Means any short term activities that are primarily held outdoors, on public or private land and that are intended to have a limited duration and incidence. This includes non-permanent ancillary buildings and structures associated with temporary activities. Temporary activities include: 1. Festivals, and exhibitions; 2. Fairs, carnivals and temporary markets; 3. Parades and ceremonies; 4. Council organised public firework displays; 5. Any short-term filming; 6. Public meetings; 7. Sporting and recreation events and associated temporary parking; and 8. Site offices for construction projects. <u>It excludes:</u> <u>1. temporary military training activity;</u> <u>2. temporary emergency services training activity.</u>
New Zealand Defence Force	FS104.2	Part 1 / Interpretation Subpart / Definitions / TEMPORARY ACTIVITIES	Support	Support amending the definition to explicitly exclude Temporary Military Training Activities (TMTA) and Temporary Emergency Services Training Activities for further clarity	Allow
Wellington International Airport Ltd	406.43	Interpretation Subpart / Definitions / TEMPORARY ACTIVITIES	Oppose	The definition does not currently define the time parameters of a "temporary" activity. Considers that an appropriate timeframe should be put on temporary activities. Considers that crange and building wraps should be included in the definition of "temporary activity".	Retain definition of "TEMPORARY ACTIVITY" and seeks amendment.
Guardians of the Bays Inc	FS44.18	Part 1 / Interpretation Subpart / Definitions / TEMPORARY ACTIVITIES	Support	Considers that the addition of a timeframe and crange and building wraps are supported in the definition of temporary activity.	Allow
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.32	Part 1 / Interpretation Subpart / Definitions / TEMPORARY ACTIVITIES	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Wellington International Airport Ltd	406.44	Interpretation Subpart / Definitions / TEMPORARY ACTIVITIES	Amend	The definition does not currently define the time parameters of a "temporary" activity. Considers that an appropriate timeframe should be put on temporary activities. Considers that crange and building wraps should be included in the definition of "temporary activity".	Amend the definition of "TEMPORARY ACTIVITY" to include: 1. A timeframe that provides clarity around a "short term" activity; and, 2. Crange and building wrap as a specific listed matter.
Guardians of the Bays Inc	FS44.19	Part 1 / Interpretation Subpart / Definitions / TEMPORARY ACTIVITIES	Support	Considers that the addition of a timeframe and crange and building wraps are supported in the definition of temporary activity.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.33	Part 1 / Interpretation Subpart / Definitions / TEMPORARY ACTIVITIES	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
New Zealand Defence Force	423.4	Interpretation Subpart / Definitions / TEMPORARY MILITARY TRAINING ACTIVITY	Support	Considers that the proposed definition is consistent with the definition in the National Planning Standards (2019). NZDF supports the inclusion of this definition.	Retain definition of Temporary Military Training Activity as notified.
Te Herenga Waka Victoria University of Wellington	106.7	Interpretation Subpart / Definitions / TERTIARY EDUCATION FACILITY	Support in part	<p>Considers that the definition should include 'education and research partners' to provide for activities such as the existing Malaghan Institute of Medical Research, as well as ensuring research partners who seek to collocate with the University on the Kelburn campus are provided for in the future.</p> <p>This is consistent with the wider definition/catch all 'educational services' under the Wellington Operative District Plan, which includes: ... research activities of the institution and encompassing all such activities consistent with the function of a modern university.</p> <p>The definition should also include 'ancillary food, beverage and retail' to cover activities such as the existing University bookshop, food and beverage shops (e.g. campus cafes like Wishbone and Subway), as well as ensuring that such activities are provided for in the future.</p> <p>This is consistent with the wider definition/catch all 'educational services' under the Wellington Operative District Plan, which includes: ...business and social services related to the education and research activities of the institution and encompassing all such activities consistent with the function of a modern university.</p>	<p>Amend the definition of 'Tertiary Education Facility' as follows:</p> <p>Tertiary Education Facility means land or buildings used for tertiary education and research activities.</p> <p>Includes:</p> <p>[...]</p> <p><u>i. education and research partners;</u></p> <p><u>ii. any ancillary activity necessary for the effective operation of the University sites which includes:</u></p> <p>[...]</p> <p><u>xiii. food and beverage; and</u></p> <p><u>xiv. retail.</u></p>
Massey University	253.3	Interpretation Subpart / Definitions / TERTIARY EDUCATION FACILITY	Support	[No specific reason given beyond decision requested - refer to original submission]	Retain the definition for Tertiary Education Facility as notified.
CentrePort Limited	402.28	Interpretation Subpart / Definitions / THREE WATER INFRASTRUCTURE	Support in part	Supports definition of 'Three Water Infrastructure' in part. CentrePort holds considerable land that also adjoins the Coastal Marine Area and has extensive network infrastructure within these landholdings. The agencies listed do not include CentrePort as being an agency responsible for three waters infrastructure.	Retain definition of 'Three Waters Infrastructure', with amendment.
CentrePort Limited	402.29	Interpretation Subpart / Definitions / THREE WATER INFRASTRUCTURE	Amend	CentrePort holds considerable land that also adjoins the Coastal Marine Area and has extensive network infrastructure within these landholdings. The agencies listed do not include CentrePort as being an agency responsible for three waters infrastructure.	Amend definition of 'Three Waters Infrastructure' as follows: means network infrastructure for water supply, wastewater, or stormwater, to the extent that it is controlled by Wellington City Council or Wellington Water Ltd.
Paihikara Ki Pōneke Cycle Wellington	302.8	Interpretation Subpart / Definitions / TRANSPORT NETWORK	Support in part	The definition of 'Transport Network' is partially supported, but should be amended.	Retain the definition of 'Transport Network' with amendment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Paihikara Ki Pōneke Cycle Wellington	302.9	Interpretation Subpart / Definitions / TRANSPORT NETWORK	Amend	Considers that the definition of 'Transport Network' should be amended to list active mode facilities. A list that specifically includes heavy vehicle public transport network infrastructure and does not list active mode facilities risks these being seen as less important or not considered.	Amend the definition of 'Transport Network' as follows: ... It includes: a. Train stations; b. Bus stops; c. Bus shelters; and d. Park and Ride areas; <u>and</u> e. <u>Cycle stands, parking, storage and charging areas</u>
Waka Kotahi	370.37	Interpretation Subpart / Definitions / TRANSPORT NETWORK	Amend	Considers that although rapid transit stops, and shelters has it's own definition it should be specifically included in this definition also.	Seeks to add rapid transit stops and shelters to this definition.
CentrePort Limited	402.30	Interpretation Subpart / Definitions / TRANSPORT NETWORK	Support in part	Supports the definition of 'Transport Network' in part. Considers that the definition would be improved by including public ferries to the list and a reference to sea freight reflecting the role these have in the Regions Transport Network.	Retain definition of 'Transport Network', with amendment.
CentrePort Limited	402.31	Interpretation Subpart / Definitions / TRANSPORT NETWORK	Amend	Considers that the definition would be improved by including public ferries to the list and a reference to sea freight reflecting the role these have in the Regions Transport Network.	Amend definition of Transport Network as follows: means all public rail, public roads, <u>sea freight, passenger ferries</u> , public pedestrian, cycle and micromobility facilities, public transport, commercial freight and associated infrastructure. It includes: a. Train stations; b. Bus stops; c. Bus shelters; d. Park and Ride areas; e. <u>Ferry Terminals</u> f. <u>Freight Terminals</u>
KiwiRail Holdings Limited	FS72.7	Interpretation Subpart / Definitions / TRANSPORT NETWORK	Support	Supports the inclusion of sea freight and public ferries within this definition which would include the ferries associated with the Interislander service. Considers the relief sought should be allowed because it will (a) will promote the sustainable management of the natural and physical resources in Wellington City, and is therefore consistent with Part 2 and other provisions of the Resource Management Act 1991 (RMA) and the Enabling Housing Supply Amendment Act 2021 (Amendment Act); (b) is consistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will meet the reasonably foreseeable needs of future generations; (d) will avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will enable the social, economic and cultural wellbeing of the people of Wellington City; and (f) is the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Allow
KiwiRail Holdings Limited	408.17	Interpretation Subpart / Definitions / TRANSPORT NETWORK	Amend	Supports the inclusion of rail and associated infrastructure within this definition. However, this definition should be amended to recognise both freight and passenger/public movements on the rail network. KiwiRail request 'public' be removed to accurately reflect the purpose of the railway and its role in the wider transport network.	Amend definition of TRANSPORT NETWORK as follows: means all public rail, public roads, public pedestrian, cycle and micromobility facilities, public transport and associated infrastructure. It includes: a. Train stations; b. Bus stops; c. Bus shelters; and d. Park and Ride areas.
Royal Forest and Bird Protection Society	345.16	Interpretation Subpart / Definitions / TREE	Support	Supports the definition.	Retain the definition of "tree" as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Argosy Property No. 1 Limited	383.7	Interpretation Subpart / Definitions / TRIMMING AND PRUNING	Support	Considers the definition of trimming and pruning is appropriate.	Retain the definition of "trimming and pruning" as notified.
Meridian Energy Limited	228.14	Interpretation Subpart / Definitions / UPGRADING	Support	Considers the definition accurately describes the scope of upgrading activities anticipated for infrastructure (including of renewable electricity generation activities) but would be improved by referring also to upgraded 'output' (e.g. from the replacement of turbines with those having greater efficiency or power output).	Retain the definition of 'Upgrading' with amendment.
Meridian Energy Limited	228.15	Interpretation Subpart / Definitions / UPGRADING	Amend	Considers the definition accurately describes the scope of upgrading activities anticipated for infrastructure (including of renewable electricity generation activities) but would be improved by referring also to upgraded 'output' (e.g. from the replacement of turbines with those having greater efficiency or power output).	Amend the definition of 'Upgrading' as follows: As it applies to infrastructure, means the improvement or increase in carrying capacity <u>or output</u> , operational efficiency, security or safety of existing infrastructure, but excludes maintenance, repair and renewal.
Transpower New Zealand Limited	315.37	Interpretation Subpart / Definitions / UPGRADING	Support	[No specific reason provided beyond decision requested - refer to original submission]	Retain the definition of Upgrading as notified.
Yvonne Weeber	340.4	Interpretation Subpart / Definitions / UPGRADING	Amend	Considers the term 'upgrading' is too broad a term in relationship to increasing carrying capacity when relating to special purpose zones (e.g. the Airport), namely in INF-CE-P21.	Amend the definition of 'Upgrading' as follows: as it applies to infrastructure, means the improvement or increase in carrying capacity , operational efficiency, security or safety of existing infrastructure, but excludes maintenance, repair and renewal.
KiwiRail Holdings Limited	FS72.8	Part 1 / Introduction and General Provisions / Definitions / Upgrading	Oppose	Considers that upgrading of infrastructure should include increasing the carrying capacity, operational efficiency, security or safety of existing infrastructure. Without this, infrastructure upgrades would be significantly constrained. Considers the relief sought should be declined because it a) will not promote the sustainable management of the natural and physical resources in Wellington City, and is therefore contrary to, or inconsistent with, Part 2 and other provisions of the RMA and the Amendment Act; (b) is inconsistent with other relevant planning documents, including the Greater Wellington Regional Policy Statement and National Policy Statement for Urban Development 2020; (c) will not meet the reasonably foreseeable needs of future generations; (d) will not avoid, remedy or mitigate actual and potential adverse effects on the environment; (e) will not enable the social, economic and cultural wellbeing of people of Wellington City; and (f) is not the most appropriate way to achieve the objectives of the Proposed Plan in terms of section 32 of the RMA.	Disallow
Waka Kotahi	370.38	Interpretation Subpart / Definitions / UPGRADING	Support	Supports the definition of upgrading.	Retain the definition of 'Upgrading' as notified.
CentrePort Limited	402.32	Interpretation Subpart / Definitions / UPGRADING	Support	Support the intent of this definition.	Retain the definition of 'Upgrading' as notified.
Wellington International Airport Ltd	406.45	Interpretation Subpart / Definitions / UPGRADING	Oppose	The definition requires broadening to encapsulate the range of activities that are involved with the upgrade of infrastructure.	Retain definition of "UPGRADING" and seeks amendment.
Guardians of the Bays Inc	FS44.20	Part 1 / Interpretation Subpart / Definitions / UPGRADING	Support	Considers that the proposed plan definition is too broad especially with increased carrying capacity. The WIAL definition reduces the activity to the 'same or similar in character, intensity and scale as the existing structure and activity'.	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wellington International Airport Ltd	406.46	Interpretation Subpart / Definitions / UPGRADING	Amend	The definition requires broadening to encapsulate the range of activities that are involved with the upgrade of infrastructure.	Amend the definition of "UPGRADING" as follows: As it applies to infrastructure, means the improvement or increase in carrying capacity, operational efficiency, security or safety of existing infrastructure, but excludes maintenance, repair and renewal. means the use and development to bring existing structures or facilities up to current standards or to improve the functional characteristics of structures or facilities, provided that the effects of the activity are the same or similar in character, intensity and scale as the existing structure and activity.
M&P Makara Family Trust	FS41.3	Interpretation Subpart / Definitions / UPGRADING	Support	Not specified.	Allow
Guardians of the Bays Inc	FS44.21	Part 1 / Interpretation Subpart / Definitions / UPGRADING	Support	Considers that the proposed plan definition is to broad especially with increased carrying capacity. The WIAL definition reduces the activity to the 'same or similar in character, intensity and scale as the existing structure and activity'.	Allow
Meridian Energy Limited	FS101.12	Part 1 / Interpretation Subpart / Definitions / UPGRADING	Oppose	Meridian supports the publicly notified definition of 'Upgrading' but accepts that the suggested refinement may improve the clarity of the definition. Meridian opposes deletion of the text describing increased carrying capacity, operational efficiency, security and safety.	Amend provision to retain the following text: "means the improvement or increase in carrying capacity, operational efficiency, security or safety of existing infrastructure".
Airways Corporation of New Zealand Limited	FS105.3	Part 1 / Interpretation Subpart / Definitions / UPGRADING	Support	This submission point is consistent with Airways' operations and its core functions.	Allow
KiwiRail Holdings Limited	408.18	Interpretation Subpart / Definitions / UPGRADING	Support	Supports definition of upgrading which applies to infrastructure but excludes maintenance, repair and renewal.	Retain definition of UPGRADING as notified.
Guardians of the Bays	452.3	Interpretation Subpart / Definitions / UPGRADING	Amend	Considers the term upgrading is too broad a term in relationship to increasing carrying capacity when relating to special purpose zones.	Amend definition of 'upgrading' as follows: as it applies to infrastructure, means the improvement or increase in carrying capacity, operational efficiency, security or safety of existing infrastructure, but excludes maintenance, repair and renewal.
Meridian Energy Limited	FS101.13	Part 1 / Interpretation Subpart / Definitions / UPGRADING	Oppose	Considers that inclusion of increased carrying capacity in the definition is essential to allow for improvements in efficiency and new technology that can enhance energy generation output (for example) without introducing new or additional adverse effects	Disallow
Waka Kotahi	370.39	Interpretation Subpart / Definitions / VEHICLE	Support	Supports the definition of vehicle.	Retain the definition of 'Vehicle' as notified.
Living Streets Aotearoa	482.24	Interpretation Subpart / Definitions / VEHICLE	Amend	Considers that the definition of "vehicle" (as used in TR-P1) excludes bicycles and micromobility so is not consistent with transport legislation.	Amend the definition of "VEHICLE to include bicycles and micromobility.
Rimu Architects Ltd	318.13	Interpretation Subpart / Definitions / VEHICLE CROSSING	Amend	Considers that none of the following standards and rules INF- S16 Connections to roads - Driveways , TR - R3 Site access (or the tables that TR-R3 refers to) contain any reference to culverts or bridges. The suggested change in wording makes it clear these culverts & bridges are within the road reserve. References to the standards covering such works in the road reserve would also be helpful.	Amend the definition of 'Vehicle Crossing' as follows: means a facility for vehicle access between a road carriageway and a site boundary. It includes any culvert, bridge or kerbing <u>within the road reserve.</u>
Waka Kotahi	370.40	Interpretation Subpart / Definitions / VEHICLE CROSSING	Support	Supports the definition of vehicle crossing.	Retain the definition of 'Vehicle Crossing' as notified.
Waka Kotahi	370.41	Interpretation Subpart / Definitions / VEHICLE MOVEMENT	Support	Supports the definition of vehicle movement.	Retain the definition of 'Vehicle Movement' as notified.
Airbnb	126.6	Interpretation Subpart / Definitions / VISITOR ACCOMMODATION	Amend	Considers that the distinction visitor accommodation and residential visitor accommodation should be clarified as the former appears to encompass the latter.	Clarify the distinction between visitor accommodation and residential visitor accommodation.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
New Zealand Motor Caravan Association	314.9	Interpretation Subpart / Definitions / VISITOR ACCOMMODATION	Amend	Considers that the definition of 'Visitor accommodation' should include campgrounds as this could achieve their desired outcome of campgrounds being a permitted activity in the zones.	Amend the definition of 'Visitor Accommodation' to include campgrounds.
Greater Wellington Regional Council	351.49	Interpretation Subpart / Definitions / WATER SENSITIVE URBAN DESIGN	Support	Considers it aligns with the regional plan definition.	Retain the Definition of 'Water Sensitive Urban Design' as notified.
Tyers Stream Group	221.6	Interpretation Subpart / Definitions / WATERBODY	Not specified	Considers that it appears unclear whether Tyers Stream would be a 'waterbody' for the purpose of those provisions.	Seeks that Tyers Stream from the junction of Delhi and Karachi Crescents is a 'waterbody' under the RMA definition.
Retirement Villages Association of New Zealand Incorporated	350.10	Interpretation Subpart / Definitions / WELL-FUNCTIONING URBAN ENVIRONMENT	Oppose	Opposes the definition of 'well functioning urban environment'. Considers that while it is recognised that Policy 1 of the NPS-UD provides a description of what constitutes a well-functioning urban environment, it is inappropriate to include it as a definition when it is intended to be a Policy and drafted as such. Considers it will lead to interpretation issues and uncertainty when the Plan is applied.	Delete definition WELL-FUNCTIONING URBAN ENVIRONMENT in its entirety as notified.
Living Streets Aotearoa	482.25	Interpretation Subpart / Definitions / WELL-FUNCTIONING URBAN ENVIRONMENT	Amend	[No specific reason given beyond decision requested - refer to original submission].	Amend the definition of WELL-FUNCTIONING URBAN ENVIRONMENTS to include mixed uses that support daily requirements, such as fresh food shops, and other services within a 15 minute walking catchment.
Wellington International Airport Ltd	406.47	Interpretation Subpart / Definitions / WELLINGTON AIR NOISE MANAGEMENT COMMITTEE (WANMC)	Oppose	Considers that it is not necessary or appropriate to duplicate the aircraft noise management obligations imposed on WIAL as the requiring authority for WIAL4 in the Operative and Proposed Plan. Furthermore, "NMP" nor "WANMC" are terms used in the designation, therefore it is not clear when this committee would be required. [See original submission for full reason]	Delete definition of WELLINGTON AIR NOISE MANAGEMENT COMMITTEE (WANMC) in its entirety.
Guardians of the Bays Inc	FS44.22	Part 1 / Interpretation Subpart / Definitions / WELLINGTON AIR NOISE MANAGEMENT COMMITTEE (WANMC)	Not specified	Guardians of the Bays Incorporated is neutral in the Delete definition of WELLINGTON AIR NOISE MANAGEMENT COMMITTEE (WANMC) but they do note that other community committees in other designations do not appear to be listed in the definitions of the plan.	Not specified
Kāinga Ora – Homes and Communities	FS89.116	Part 1 / Interpretation Subpart / Definitions / WELLINGTON AIR NOISE MANAGEMENT COMMITTEE (WANMC)	Oppose	Kāinga Ora seeks the retention of the definition to provide clarity to Plan users.	Disallow / Seeks the retention of the definition.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.34	Part 1 / Interpretation Subpart / Definitions / WELLINGTON AIR NOISE MANAGEMENT COMMITTEE (WANMC)	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Meridian Energy Limited	228.1	Interpretation Subpart / Definitions / WIND FARM	Support in part	Considers the definition includes most of the activities typically within or associated with a wind farm but would be improved by clarifying that it also includes lines required to convey the electricity to the distribution network or National Grid'.	Retain the definition of 'Wind Farm' with amendment.

Interpretation - Glossary

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington Electricity Lines Limited (WELL)	FS27.6	Part 1 / Interpretation Subpart / Definitions / WIND FARM	Support	Whilst there is support for this submission point in principle, WELL suggest removing the word "transmission" from the definition so that it appropriately captures distribution lines. Both the Meridian Mill Creek wind farm and the Meridian Brooklyn turbine are connected to WELL's distribution lines.	Amend / Seeks that the submission point is accepted with the minor correction to distribution lines as opposed to transmission lines.
Meridian Energy Limited	228.2	Interpretation Subpart / Definitions / WIND FARM	Amend	Considers the definition includes most of the activities typically within or associated with a wind farm but would be improved by clarifying that it also includes lines required to convey the electricity to the distribution network or National Grid'.	Amend the definition of 'Wind Farm' as follows: means wind turbines (and support pylons or towers) used to generate electricity from the wind which is then conveyed to the distribution network or National Grid. It includes ancillary access roads and tracks, buildings and structures (including substations, <u>transmission lines and poles/supporting structures</u>), communications equipment, electricity storage technologies, and the system of electricity conveyance required to convey the electricity to an associated substation.
M&P Makara Family Trust	FS41.4	Interpretation Subpart / Definitions / WIND FARM	Oppose	The requested additional wording is sufficiently covered by '... the system of electricity conveyance required to convey the electricity to an existing substation'.	Disallow
Wellington Electricity Lines Limited	355.1	Interpretation Subpart / Definitions / WIND FARM	Support in part	Supports the definition of 'Wind Farm', however considers it is misleading to state that the wind generated electricity is conveyed 'to' the distribution network, when it is in fact conveyed 'by' the distribution network.	Retain the Definition of 'Wind Farm' with amendment.
Wellington Electricity Lines Limited	355.2	Interpretation Subpart / Definitions / WIND FARM	Amend	Considers that the definition of 'Wind Farm' should be amended to note that electricity generated from windfarms is conveyed by and not to the distribution network. As it stands, wording in the definition is misleading, as it states that the wind generated electricity is conveyed to the distribution network, when in fact it is conveyed by the distribution network.	Amend the Definition of 'Wind Farm' as follows: means wind turbines (and support pylons or towers) used to generate electricity from the wind which is then conveyed to <u>by</u> the distribution network or National Grid. It includes ancillary access roads and tracks, buildings and structures (including substations), communications equipment, electricity storage technologies, and the system of electricity conveyance required to convey the electricity to an associated substation.
Royal Forest and Bird Protection Society	345.17	Interpretation Subpart / Definitions / WORKS ARBORIST	Support	Supports the definition.	Retain the definition of "works arborist" as notified.
Argosy Property No. 1 Limited	383.8	Interpretation Subpart / Definitions / WORKS ARBORIST	Support	Supports the definition of works arborist.	Retain the definition of "Works Arborist" as notified.
Z Energy Limited	361.8	Interpretation Subpart / Definitions / YARD BASED RETAIL	Support	The definition of Yard base sale is supported, as the submitter assumes the definition includes service stations.	Retain the Definition of 'Yard Based Retail' as notified.
BP Oil New Zealand, Mobil Oil New Zealand Limited and Z Energy Limited (the Fuel Companies)	372.21	Interpretation Subpart / Definitions / YARD BASED RETAIL	Support	The definition of 'Yard-based Retail' is supported as activities include all the Fuel Companies' service stations (and truck stops) subject to provisional relief.	Retain the definition of 'Yard-based Retail' as notified.
Heritage New Zealand Pouhere Taonga	70.7	Interpretation Subpart / Glossary / Wāhi tapu	Oppose in part	Considers that it may be better and consistent with other regulations and usage to adopt the meaning of wāhi tapu from the Heritage New Zealand Pouhere Taonga Act 2014 (section 6).	Opposes the glossary term of 'wāhi tapu' as notified and seeks amendment.
Te Rūnanga o Toa Rangatira	FS138.3	Part 1 / Interpretation Subpart / Glossary / Wāhi tapu	Oppose	The submitter opposes the notified glossary term of 'wāhi tapu' and seeks amendment to be consistent with the Heritage New Zealand Pouhere Taonga Act 2014 (section 6). Te Rūnanga o Toa Rangatira oppose this part of the submission because the notified definition for wāhi tapu in the district plan is appropriate.	Disallow
Heritage New Zealand Pouhere Taonga	70.8	Interpretation Subpart / Glossary / Wāhi tapu	Amend	Considers that it may be better and consistent with other regulations and usage to adopt the meaning of wāhi tapu from the Heritage New Zealand Pouhere Taonga Act 2014 (section 6).	Amend the glossary entry for 'wāhi tapu' to be consistent with the HNZPT Act as follows: means sacred or spiritual places e.g., battle sites, urupa, burial sites, caves, ritual sites including burial of pito / whenua (placenta) means a place sacred to Māori in the traditional, spiritual, <u>religious, ritual, or mythological sense.</u>

Tangata Whenua

Te Rūnanga o Toa Rangatira	FS138.4	Part 1 / Interpretation Subpart / Glossary / Wāhi tapu	Oppose	The submitter opposes the notified glossary term of 'wāhi tapu' and seeks amendment to be consistent with the Heritage New Zealand Pouhere Taonga Act 2014 (section 6). Te Rūnanga o Toa Rangatira oppose this part of the submission because the notified definition for wāhi tapu in the district plan is appropriate.	Disallow
Heritage New Zealand Pouhere Taonga	70.9	Interpretation Subpart / Glossary / Wāhi Tipuna	Oppose in part	Considers that using the definition of Wāhi Tipuna from the Heritage New Zealand Pouhere Taonga Act 2014 would be appropriate and more consistent.	Opposes the glossary term of 'wāhi tipuna' as notified and seeks amendment.
Te Rūnanga o Toa Rangatira	FS138.5	Part 1 / Interpretation Subpart / Glossary / Wāhi Tipuna	Oppose	The submitter opposes the notified glossary term of 'wāhi tipuna' and seeks amendment to be consistent with the Heritage New Zealand Pouhere Taonga Act 2014 (section 6). Te Rūnanga o Toa Rangatira oppose this part of the submission because the notified definition for wāhi tipuna in the district plan is appropriate.	Disallow
Heritage New Zealand Pouhere Taonga	70.10	Interpretation Subpart / Glossary / Wāhi Tipuna	Amend	Considers that using the definition of Wāhi Tipuna from the Heritage New Zealand Pouhere Taonga Act 2014 would be appropriate and more consistent.	Amend the glossary entry for 'Wāhi Tipuna' to be consistent with the HNZPT Act as follows: means places with special cultural, scenic or amenity values e.g., mountains, rivers and other waterways, including the sea and coastal areas, important landmarks, boundary markers. <u>means a place important to Māori for its ancestral significance and associated cultural and traditional values.</u>
Te Rūnanga o Toa Rangatira	FS138.6	Part 1 / Interpretation Subpart / Glossary / Wāhi Tipuna	Oppose	The submitter opposes the notified glossary term of 'wāhi tipuna' and seeks amendment to be consistent with the Heritage New Zealand Pouhere Taonga Act 2014 (section 6). Te Rūnanga o Toa Rangatira oppose this part of the submission because the notified definition for wāhi tipuna in the district plan is appropriate.	Disallow
Heritage New Zealand Pouhere Taonga	70.11	Interpretation Subpart / Glossary / Wāhi Tipuna	Amend	Considers that Wāhi Tipuna/Tipuna has the same meaning as Wāhi Tupuna/Tūpuna in the Heritage New Zealand Pouhere Taonga Act 2014 and this should be reflected in the PDP.	Amend the glossary entry for 'Wāhi Tipuna' to include a statement that the term also refers to 'Wāhi Tūpuna'.
Te Rūnanga o Toa Rangatira	FS138.7	Part 1 / Interpretation Subpart / Glossary / Wāhi Tipuna	Oppose	The submitter opposes the notified glossary term of 'wāhi tipuna' and seeks amendment to be consistent with the Heritage New Zealand Pouhere Taonga Act 2014 (section 6). Te Rūnanga o Toa Rangatira oppose this part of the submission because the notified definition for wāhi tipuna in the district plan is appropriate.	Disallow
Heritage New Zealand Pouhere Taonga	70.12	Interpretation Subpart / Glossary / Wāhi Tūpuna	Oppose	Considers that Wāhi Tipuna/Tipuna has the same meaning as Wāhi Tupuna/Tūpuna in the Heritage New Zealand Pouhere Taonga Act 2014 and this should be reflected in the PDP.	Delete the glossary entry for 'Wāhi Tūpuna'.
Te Rūnanga o Toa Rangatira	FS138.8	Part 1 / Interpretation Subpart / Glossary / Wāhi Tipuna	Oppose	The submitter opposes the notified glossary term of 'wāhi tipuna' and seeks amendment to be consistent with the Heritage New Zealand Pouhere Taonga Act 2014 (section 6). Te Rūnanga o Toa Rangatira oppose this part of the submission because the notified definition for wāhi tipuna in the district plan is appropriate.	Disallow
Melissa Harward	65.1	Tangata Whenua Subpart / Tangata Whenua / Tangata Whenua	Support in part	Supports wording of Tangata Whenua chapter as it stands.	Retain Tangata Whenua chapter as notified.
Melissa Harward	65.2	Tangata Whenua Subpart / Tangata Whenua / Tangata Whenua	Amend	Considers that WCC should enable local Iwi to participate in all resource management decisions affecting land in Wellington.	Seeks that the scope of the Tangata Whenua chapter is expanded beyond the minimum required by Treaty Settlement legislation.
Roland Sapsford	305.25	Tangata Whenua Subpart / Tangata Whenua / Tangata Whenua	Support	Supports provisions which seek to enhance the mana of kaitiaki and to give effect at a local level to the solemn commitment to rangatiratanga contained in Te Tiriti o Waitangi	Retain Tangata Whenua chapter as notified [Inferred decision requested]
Royal Forest and Bird Protection Society	345.18	Tangata Whenua Subpart / Tangata Whenua / Tangata Whenua	Support	Generally supports these provisions as drafted.	Retain "Tangata Whenua" section as notified.

They also request for both Muaūpoko and Rangitāne to be recognised in the Tangata Whenua Chapter as whātonga descent people with ancestral association throughout Te Whanganui a Tara rohe. Te Rūnanga o Toa Rangatira oppose this submission because it is not appropriate to include Muaūpoko in the Tangata Whenua Chapter. This will cause confusion of the Tangata Whenua status in Te Whanganui a Tara rohe and subsequent requirements for Council's and land users' engagement with Tangata Whenua on the land use and district plan related matters.	Disallow
Living Streets Aotearoa	482.26	Tangata Whenua Subpart / Tangata Whenua / Tangata Whenua	Support	Supports the inclusion of a Tangata Whenua section setting out clearly the iwi that are man whenua and the settlement obligations.	Retain Tangata Whenua chapter as notified.
Simon Ross	37.2	National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Amend	Considers that the definition of walkable catchments and low walking speeds are restrictive and inappropriate around the city centre, train, and other mass transit stations.	Seeks that walkable catchments are extended to be 1200m or 15 minutes walking distance (whichever is greater) in locations around the city centre, train, and other mass transit stations.
Elayna Chhiba	FS131.49	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Support	Supports increasing walking catchments around the City Centre Zone for the following reasons: - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Additionally, less reliance on private vehicles increases overall health. - Higher density housing will support providing liveable cities for future Wellingtonians. The NPS-UD and the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act provides for greater density. [See original Further Submission for full reasoning].	Allow

Escape Investments Limited	FS136.77	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning more people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow
Rod Bray	FS137.41	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. A larger catchment would provide attractive and affordable housing closer to the city centre, away from outer suburbs where people are likely to use cars as their main means of transportation. A 15-minute walkable catchment would promote growth in areas close to the city centre and encourage a shift to more environmentally friendly modes of transportation.</p> <p>WCC should use a 15 minute walkable catchment to fall in line with the NPS-UD to increase housing supply. It is not unreasonable to expect that a large portion of residents who live a 15 minute walk away from the city centre would choose to walk as their main mode of commute. WCC should take full advantage of the NPS-UD standards by increasing the walkable catchment to 15 minutes, which will provide many benefits to Wellington city.</p> <p>[Refer to further submission for full reason]</p>	Allow
Simon Ross	37.3	National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Support	[No specific reason given beyond decision requested - refer to original submission].	Seeks that NPS-UD provisions along the probable Lets Get Wellington Moving mass transit routes are applied.
Stephen Pause	64.1	National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Amend	<p>Supports the designation of the Johnsonville Line (JVL) as rapid transit for the following reasons:</p> <p>The JVL is capable of providing high-capacity, reliable, and quick service directly to the CBD from four major suburbs. [Refer to original submission for full reasons].</p> <p>The argument that a rapid transit service is not provided due to the current lack of development along the JVL is circular because higher density development and greater commercial activity is not currently encouraged/allowed.</p>	Seeks that the Johnsonville Line is classified as rapid transit as per the NPS-UD Policy 3.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Stephen Pause	64.2	National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Amend	<p>Considers that the removal of the JVL as rapid transit removes the requirements for walking catchments along the JVL (except Johnsonville station) and the possibilities for six-storey development (except at Johnsonville station).</p> <p>Not designating the JVL as rapid transit does not appear to meet National Policy Statement - Urban Development (NPS-UD) Policy 3.</p> <p>[Refer to original submission for full reasons].</p>	Seeks that the Johnsonville Line is classified as rapid transit as per the NPS-UD Policy 3.
Generation Zero Inc	254.10	National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Amend	Considers that a 10-minute walkable catchment is inconsistent with the policy direction of the NPS-UD and the approach of other Tier 1 local authorities and not supported by a robust section 32 assessment, rather decisions by Councillors which the submitter does not agree with.	Seeks that the area of the walkable catchment around the edge of the Metropolitan centre zone where 6 storey development must be enabled be increased to 15 minutes.
Ann Mallinson	FS3.20	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. In particular the weather and wind conditions on Oriental Parade often make walking difficult for residents.	Disallow

Royal Forest and Bird Protection Society	345.19	National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Support	Generally supports these provisions as drafted.	Retain "National Direction Instruments" section as notified.
KiwiRail Holdings Limited	408.19	National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Amend	Considers that given the increased building height and reduced height to boundary controls enabled under the MDRS which increase the risk of potential interference with the rail corridor from maintenance and other activities being undertaken on sites adjoining the rail corridor, KiwiRail considers 5m is an appropriate distance for setbacks	Seeks that the rail corridor be identified as a qualifying matter to incorporate provisions which are necessary for the safe and efficient operation of the rail corridor. Specifically, this qualifying matter needs to be applied in the Proposed Plan to require a "no-build" setback within 5m of the railway corridor for new buildings or structures in all relevant zones adjacent to the railway.
Onslow Residents Community Association	FS80.45	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Support	Supports the rail corridor being identified as a qualifying matter to incorporate provisions which are necessary for the safe and efficient operation of the rail corridor. Considers that, specifically, this qualifying matter needs to be applied in the Proposed Plan to require a "no-build" setback within 5m of the railway corridor for new buildings or structures in all relevant zones adjacent to the railway.	Allow / Seeks to incorporate changes as outlined by the submitter.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Kāinga Ora – Homes and Communities	FS89.26	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Oppose	Kāinga Ora opposes the inclusion of the rail corridor as a qualifying matter. Kāinga Ora also opposes all consequential changes to other provisions and rules relating to the rail corridor as a qualifying matter (in particular 408.116 & 408.120).	Disallow
Stride Investment Management Limited	FS107.18	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Oppose	Stride is opposed to identifying a setback area within 5m of the rail corridor as a qualifying matter. This is not necessary for the safe or efficient operation of the railway line, which is already provided for through KiwiRail's designation. Imposing an additional setback as proposed would inappropriately constrain development outside of the rail designation, and inappropriately externalises the costs of the infrastructure on to private landowners. We note that KiwiRail is a Requiring Authority so has the ability to designate private land in order to acquire the interests required for their operations if the existing designation is insufficient.	Disallow
Investore Property Limited	FS108.18	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Oppose	Investore is opposed to identifying a setback area within 5m of the rail corridor as a qualifying matter. This is not necessary for the safe or efficient operation of the railway line, which is already provided for through KiwiRail's designation. Imposing an additional setback as proposed would inappropriately constrain development outside of the rail designation, and inappropriately externalises the costs of the infrastructure on to private landowners. We note that KiwiRail is a Requiring Authority so has the ability to designate private land in order to acquire the interests required for their operations if the existing designation is insufficient.	Disallow
The Urban Activation Lab of Red Design Architects	420.10	National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Not specified	Considers that the RMA Schedule 3B requirements for maximising development are incompatible with some of the strategic objectives of the PDP as expressed in the section on Urban Form and Development RMA Schedule 3A Clause 6. [See original submission for full reasons]	Not specified.
Historic Places Wellington Inc	FS111.57	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Support	HPW supports the implementation of a sensible plan for revitalisation in Newtown heritage shopping area including provision of additional housing at scale, while also protecting the heritage shop frontages. Considers that this plan retains heritage features (important for stepping back taller buildings from the narrow street to retain street level public amenity) but allows for desirable intensification.	Allow
Anita Gude and Simon Terry	461.15	National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Amend	Considers that the NPS-UD is divorced from actual need because it requires councils to deliver a great deal of new development capacity all at once above the amount required at the time. This includes raising height limits irrespective of need. [See original submission for full reasons]	Seeks that the Council applying an integrated set of qualifying matters that act together to hold height limits at a level the community seeks in the inner suburbs and review as additional capacity is shown to be required.
Jack Chu	4.1	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Rapid transit routes are fully capable of supporting growth.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Jack Chu	4.2	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Rapid transit routes are fully capable of supporting growth.	Seeks that the Johnsonville Line should be classified as a Mass Rapid Transit Line. [Inferred from submission]
Jack Chu	4.3	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Town centre areas e.g. Johnsonville are perfectly suited to allow for high density allocation.	Amend walkable catchment areas to 15 minutes.
Ann Mallinson	FS3.28	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. In particular the weather and wind conditions on Oriental Parade often make walking difficult for residents.	Disallow
Helen Foot	FS62.30	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Oriental Bay residents given exposed wind and weather conditions.	Disallow
Gareth Morgan	18.2	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Extending Walkable catchments further than 10 minutes may lead to more densification, forcing more people to walk in rough Wellington conditions.</p> <p>Lack of private transport in the city makes it less liveable. If further densification leads to more public transport and less private, it will lead to a less liveable city.</p> <p>10 minute walkable catchment is less damaging than a 15 minute definition because the process to define walkable catchment was poor.</p> <p>10 minutes limits densification to areas better suited for it.</p>	Retain Walkable Catchments (at 10 minutes) as notified.
Living Streets Aotearoa	FS130.10	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Living Streets Aotearoa support retention of existing walk catchment and amend to a 10 minute catchment.	Allow / Seeks that the walkable catchment is retained at 15 minutes or reduced to amore equitable 10 minutes.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Simon Ross	37.4	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the Johnsonville Line should be classified as rapid transit and as such apply full NPS-UD provisions.	Seeks that the Johnsonville Line be classified as a mass rapid transit line.
Simon Ross	37.5	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the current zoning disregards the NPS-UD direction. The Johnsonville Line should be classified as rapid transit and as such it should apply full NPS-UD zoning (six-storey).	Rezone the Johnsonville line from MRZ to HRZ. [Inferred decision requested]
Lilias Bell	50.1	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports the Johnsonville Line not being classified as rapid transit under the NPS-UD.	Retain Johnsonville Line as not being classified as rapid transit.
Johnsonville Community Association Inc	FS114.5	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>The NPS-UD definition states that Rapid Transit Services must be “frequent” and this definition therefore excludes PT services that are not frequent from being classified as Rapid Transit Services.</p> <p>Considers that Greater Wellington Regional Council (GWRC) has incorrectly assessed the Johnsonville Line is a Rapid transit Service because they used a one line statement in the One Network Framework (ONF) drafted by the Road Efficiency Group and published by Waka Katohi.</p> <p>In contrast to the NPS-UD, the ONF definition also classifies passenger rail services that are not frequent as Rapid Transit which is incorrect. The Johnsonville Line is not a frequent service (mostly 2 services/hour) and therefore cannot be classified as a Rapid Transit Service.</p> <p>Considers the One Network Framework is not able tool for this assessment - as confirmed in writing by the Waka Katohi One Network Framework Programme Manager. In contrast, Auckland Transport has developed a PT assessment standard based on suitable public transport criteria and under their criteria, the Onehunga Line is assessed as Nnot being Rapid Transit under the NPS-UD. Applying these same criteria to the Johnsonville Line would also find it is not Rapid Transit.</p> <p>Further, the WCC has also failed to use a PT assessment standard based on suitable public transport criteria to assess whether Johnsonville Line Stations are Rapid Transit Stops under the NPS-UD. Therefore any claim that Johnsonville Line Stations are Rapid Transit Stops is also invalid. [Refer to further submission for full reason]</p>	Allow / Retain Johnsonville Line as notified (Not considered Rapid Transit).

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Noelle Pause	55.1	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	<p>Opposes that the classification of the Johnsonville Line (JVL) is not rapid transit for the following reasons:</p> <p>The JVL is capable of providing high-capacity, reliable, and quick service directly to the CBD from four major suburbs. [Refer to original submission for full reasons].</p> <p>The removal of JVL as rapid transit will limit future development of much-needed higher-density housing and commercial services that could be frequented by the four suburbs combined 27,000+ residents (2018 census).</p> <p>The argument that a rapid transit service is not provided due to the current lack of development along the JVL is circular because higher density development and greater commercial activity is not currently encouraged/allowed.</p> <p>Not encouraging multi-family development will only drive up house prices while the quality of aging homes declines.</p>	Seeks that the Johnsonville Line is classified as a Mass Rapid Transit Line as per the NPS-UD Policy 3.
Noelle Pause	55.2	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	<p>Considers that the removal of the JVL as rapid transit removes the requirements for walking catchments along the JVL (except Johnsonville station) and the possibilities for six-storey development (except at Johnsonville station).</p> <p>Not designating the JVL as rapid transit does not appear to meet National Policy Statement - Urban Development (NPS-UD) Policy 3.</p> <p>[Refer to original submission for full reasons].</p>	Seeks that the Johnsonville Line is classified as a Mass Rapid Transit Line as per the NPS-UD Policy 3.
Noelle Pause	55.3	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Not specified	Considers that single-family homes should not be expected or promoted within a 5-minute walking catchment of a frequent and reliable rail service that brings residents directly to the country's capital within 10-25 minutes.	Not specified.
Coronation Real Estate Ltd	62.2	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Considers that zoning the site at 9 Comber Place as MRZ aligns with the NPS-UD as it provides for residential use and enables additional housing supply.	Rezone 9 Comber Place from Natural Open Space Zone to Medium Density Residential Zone .
Conor Hill	76.5	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Not specified	Considers that the Council isn't meeting their obligations under the NPS-UD, specifically Objective 2 as there is not enough land rezoned to create a competitive land market.	Seeks that there is far more greenfield development as part of the District Plan.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Conor Hill	76.6	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Not specified	Considers that the Council isn't meeting their obligations under the NPS-UD, Policy 1(a)(i) because the plan will not bring housing prices down to \$300k.	[Not specified]
Conor Hill	76.7	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Not specified	Considers that the Council isn't meeting their obligations under the NPS-UD, Policy 1(b) because the PDP does not provide enough commercial zoning in most suburbs.	Seeks that at least one quarter of Wellington evenly spread should have ground floor zoned commercially.
Conor Hill	76.8	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Not specified	Considers that the Council isn't meeting their obligations under the NPS-UD, Policy 2 as not enough land is zoned to provide for sufficient development capacity for housing and business.	[Not specified]
Conor Hill	76.9	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Not specified	Considers that the Council isn't meeting their obligations under the NPS-UD, Policy 3a as the provisions for the City Centre Zones will not achieve the requirement to provide as much development potential as necessary.	Seeks that height limits are removed in the City Centre Zone.
Conor Hill	76.10	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that Council isn't meeting their obligations under the NPS-UD, specifically Policy 3(c)(i) by not zoning 6 stories around the Johnsonville Line.	Seeks that the Johnsonville Line is included as a Mass Transit Line
Conor Hill	76.11	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that Council isn't meeting their obligations under the NPS-UD, specifically Policy 3(c)(i) by not planning to zone 6 stories along the two planned rapid transit lines East and South.	Seeks that planned East and South Mass Transit Lines are added.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Conor Hill	76.12	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that Council isn't meeting their obligations under the NPS-UD, specifically Policy 3(c)(i) as the walkable catchments around the Kapiti Line are inconsistent.	Amend walkable catchment areas around planned rapid transit stops to the East and South to 20 minutes.
Ann Mallinson	FS3.8	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. In particular the weather and wind conditions on Oriental Parade often make walking difficult for residents.	Disallow
Helen Foot	FS62.10	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Oriental Bay residents given exposed wind and weather conditions.	Disallow
Wellington's Character Charitable Trust	FS82.28	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
LIVE WELLington	FS96.62	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	We oppose the submission of Cameron Vannisselroy, Conor Hill, Generation Zero, Jonathan Markwick, Kainga Ora, Paihikara Ki Pōneke Cycle Wellington, Property Council New Zealand, Te Tūāpapa Kura Kāinga Ministry of Housing and Urban Development, VicLabour, Waka Kotahi, WCC Environmental Reference Group. 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
Conor Hill	76.13	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that Council isn't meeting their obligations under the NPS-UD, specifically policy 3(c)(ii) because the PDP has walkable catchments wrong. Considers that most Wellingtonians who walk to work walk further than 20 minutes. Notes that their daughter's school is zoned more than 20 minutes away.	Seeks that walkable catchment from the edge of the CCZ (City Centre Zone) is extended to 20 minutes and that development of at least 6 storeys is enabled in this catchment.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Ann Mallinson	FS3.9	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. In particular the weather and wind conditions on Oriental Parade often make walking difficult for residents.	Disallow

Wellington's Character Charitable Trust	FS82.29	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
LIVE WELLington	FS96.63	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	We oppose the submission of Cameron Vannisselroy, Conor Hill, Generation Zero, Jonathan Markwick, Kainga Ora, Paihikara Ki Poneke Cycle Wellington, Property Council New Zealand, Te Tūāpapa Kura Kāinga Ministry of Housing and Urban Development, VicLabour, Waka Kotahi, WCC Environmental Reference Group. 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
Living Streets Aotearoa	FS130.3	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Walk catchments at 15 minutes are already in excess of that required. A walk catchment of 10 minutes is sufficient and is more equitable to the broad and varied range of people with different needs and abilities in a community. Walk catchments are intended as a planning tool for access to specific destinations such as a public transport stop. They are not intended as a general tool to an 'inner city' zone which may not have any of the everyday services needed, for instance access to a fresh food outlet. 10 minutes walk at an average speed is slightly less than one kilometre for a fit healthy adult. It does not encompass all the community and says nothing about the amenity, service levels or attractiveness of the walk environment. Research shows that a best practice environment (such as following all the requirements in the NZ Pedestrian Planning and Design Guide/ Pedestrian Network Guidance) makes it easier for most people to walk further. A walkable catchment does not of itself provide this. Other provision to ensure this best practice must be embedded in the PDP.	Disallow / Seeks that the walkable catchment is retained at 15 minutes or reduced to a more equitable 10 minutes.

Elayna Chhiba	FS131.34	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Supports increasing walking catchments around the City Centre Zone for the following reasons:</p> <ul style="list-style-type: none"> - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Additionally, less reliance on private vehicles increases overall health. - Higher density housing will support providing liveable cities for future Wellingtonians. The NPS-UD and the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act provides for greater density. <p>[See original Further Submission for full reasoning].</p>	Allow
Escape Investments Limited	FS136.14	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning more people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Escape Investments Limited	FS136.62	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning more people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow
Rod Bray	FS137.19	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. A larger catchment would provide attractive and affordable housing closer to the city centre, away from outer suburbs where people are likely to use cars as their main means of transportation. A 15-minute walkable catchment would promote growth in areas close to the city centre and encourage a shift to more environmentally friendly modes of transportation.</p> <p>WCC should use a 15 minute walkable catchment to fall in line with the NPS-UD to increase housing supply. It is not unreasonable to expect that a large portion of residents who live a 15 minute walk away from the city centre would choose to walk as their main mode of commute. WCC should take full advantage of the NPS-UD standards by increasing the walkable catchment to 15 minutes, which will provide many benefits to Wellington city.</p> <p>[Refer to further submission for full reason]</p>	Allow
Conor Hill	76.14	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	<p>Considers that Council isn't meeting their obligations under the NPS-UD, specifically policy 3(c)(iii) (Metropolitan Centre Zone walkable catchments) and the walkable catchment here should be 20 minutes.</p>	Seeks that walkable catchment extended to 20 minutes from the edge of Kilbirnie and that development of at least 6 storeys is enabled in this catchment.
Ann Mallinson	FS3.10	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. In particular the weather and wind conditions on Oriental Parade often make walking difficult for residents.</p>	Disallow

WCC should take full advantage of the NPS-UD standards by increasing the walkable catchment to 15 minutes, which will provide many benefits to Wellington city.</p> <p>[Refer to further submission for full reason]</p>	Disallow
David Stephen	82.2	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports Johnsonville Line not being classified as a Mass Rapid Transit line.	Retain Johnsonville Line as not being classified as rapid transit.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association Inc	FS114.10	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Support	<p>The NPS-UD definition states that Rapid Transit Services must be “frequent” and this definition therefore excludes PT services that are not frequent from being classified as Rapid Transit Services.</p> <p>Considers that Greater Wellington Regional Council (GWRC) has incorrectly assessed the Johnsonville Line is a Rapid transit Service because they used a one line statement in the One Network Framework (ONF) drafted by the Road Efficiency Group and published by Waka Katohi.</p> <p>In contrast to the NPS-UD, the ONF definition also classifies passenger rail services that are not frequent as Rapid Transit which is incorrect. The Johnsonville Line is not a frequent service (mostly 2 services/hour) and therefore cannot be classified as a Rapid Transit Service.</p> <p>Considers the One Network Framework is not able tool for this assessment - as confirmed in writing by the Waka Katohi One Network Framework Programme Manager. In contrast, Auckland Transport has developed a PT assessment standard based on suitable public transport criteria and under their criteria, the Onehunga Line is assessed as Nnot being Rapid Transit under the NPS-UD. Applying these same criteria to the Johnsonville Line would also find it is not Rapid Transit. Further, the WCC has also failed to use a PT assessment standard based on suitable public transport criteria to assess whether Johnsonville Line Stations are Rapid Transit Stops under the NPS-UD. Therefore any claim that Johnsonville Line Stations are Rapid Transit Stops is also invalid. [Refer to further submission for full reason]</p>	Disallow / Retain Johnsonville Line as notified (Not considered Rapid Transit).
David Stephen	82.3	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that 3-waters infrastructure is a qualifying matter under NPS-UD subpart 6, clause 3.32.	Seeks that 3-waters infrastructure is interpreted as a qualifying matter under the NPS-UD subpart 6, clause 3.32.
Hugh Good	90.1	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the Johnsonville Line should be classified as rapid transit.	Seeks that the Johnsonville Line should be classified as a Mass Rapid Transit Line.
Ian Law	101.2	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports Johnsonville Line not being classified as rapid transit.	Retain Johnsonville Line as not being classified as rapid transit.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Ian Law	101.3	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that 3-waters infrastructure is a qualifying matter under NPS-UD subpart 6, clause 3.32.	Seeks that 3-waters infrastructure is interpreted as a qualifying matter under the NPS-UD subpart 6, clause 3.32.
Julie Patricia Ward	103.3	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports Johnsonville Line not being classified as rapid transit. Considers that is not a quick, frequent, reliable and high-capacity public transport service to which the NPS-UD applies.	Retain Johnsonville Line as not being classified as rapid transit (as notified).
Johnsonville Community Association Inc	FS114.11	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	The NPS-UD definition states that Rapid Transit Services must be “frequent” and this definition therefore excludes PT services that are not frequent from being classified as Rapid Transit Services. Considers that Greater Wellington Regional Council (GWRC) has incorrectly assessed the Johnsonville Line is a Rapid transit Service because they used a one line statement in the One Network Framework (ONF) drafted by the Road Efficiency Group and published by Waka Katohi. In contrast to the NPS-UD, the ONF definition also classifies passenger rail services that are not frequent as Rapid Transit which is incorrect. The Johnsonville Line is not a frequent service (mostly 2 services/hour) and therefore cannot be classified as a Rapid Transit Service. Considers the One Network Framework is not able tool for this assessment - as confirmed in writing by the Waka Katohi One Network Framework Programme Manager. In contrast, Auckland Transport has developed a PT assessment standard based on suitable public transport criteria and under their criteria, the Onehunga Line is assessed as Nnot being Rapid Transit under the NPS-UD. Applying these same criteria to the Johnsonville Line would also find it is not Rapid Transit. Further, the WCC has also failed to use a PT assessment standard based on suitable public transport criteria to assess whether Johnsonville Line Stations are Rapid Transit Stops under the NPS-UD. Therefore any claim that Johnsonville Line Stations are Rapid Transit Stops is also invalid. [Refer to further submission for full reason]	Disallow / Retain Johnsonville Line as notified (Not considered Rapid Transit).
292 Main Road Limited	105.2	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the WCC definition of walking speed at 4.86km/hr is slow and determined by a small sample size. Waka Kotahi has a much larger amount of data and their walking speeds should be respected.	Seeks that the PDP interpretation of Policy 3 of the UPS-UD (Walkable Catchments) assumes a 4.8km/hr to 5km/hr as recommended by Waka Kotahi.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Oliver Sangster	112.7	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the Johnsonville trainline is a good commuter route into the city and this will give young people an opportunity to purchase new, smaller homes within rail commute distance from the city	Amend the plan to enable higher density development around train stations along the Johnsonville Rail Line regardless of whether or not the rail line technically/legally meets the NPS-UD definition of "rapid transit service".
Wellington's Character Charitable Trust	FS82.23	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers submissions are inconsistent with NPS-UD requirements; and no justification for enabling more intensive development in the MDRZ or around rail stations. [inferred reference to submission 112.7]	Disallow
Pam Wilson	120.2	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports the Johnsonville Line no longer being classified as a Rapid Transit System.	Retain the Johnsonville Line classification as notified (not Rapid Transit).
Pam Wilson	120.3	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that 3-waters infrastructure should be qualifying matter that governs where development takes place.	Seeks that 3-waters infrastructure is interpreted as a qualifying matter under the NPS-UD. [Inferred decision requested].
Te Tūāpapa Kura Kāinga – Ministry of Housing and Urban Development	121.3	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers that the PDP does not adequately provide for housing supply as required by the NPS-UD, specifically due to the constraints imposed by 1. The character precinct provisions 2. The reduction in the size of the walkable catchment from the CCZ, from 15 minutes in the Draft District Plan to 10 minutes in the PDP 3. The absence of the identification of the Johnsonville train line as a mass rapid transit line.	Not specified.
Onslow Residents Community Association	FS80.37	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	[No specific reason given beyond decision requested - refer to further submission]	Disallow / Seeks to disallow in so far as the submission point relates to the classification of the Johnsonville Rail Line as a rapid transit service.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Te Tūāpapa Kura Kāinga – Ministry of Housing and Urban Development	121.4	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that failing to identify the Johnsonville train line as a mass rapid transit in the PDP is contrary to other planning documents and would have significant negative impacts with respect to provision of housing.	Seeks to identify the Johnsonville train line as rapid transit and adjust the zoning around the relevant stops accordingly.
Onslow Residents Community Association	FS80.38	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	[No specific reason given beyond decision requested - refer to further submission]	Disallow / Seeks to disallow in so far as the submission point relates to the classification of the Johnsonville Rail Line as a rapid transit service.
Greater Wellington Regional Council	FS84.125	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Greater Wellington consider Johnsonville Rail Line should be classified a rapid transit service to align with the RLTP which support the 'up-zoning' of walkable catchments. Johnsonville Rail Line is recognised as a key part of the region's transport network.	Allow / Seeks review of walkable catchments and reclassification of Johnsonville Rail Line as a rapid transit service.
Johnsonville Community Association Inc	FS114.12	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Oppose	<p>The NPS-UD definition states that Rapid Transit Services must be "frequent" and this definition therefore excludes PT services that are not frequent from being classified as Rapid Transit Services.</p> <p>Considers that Greater Wellington Regional Council (GWRC) has incorrectly assessed the Johnsonville Line is a Rapid transit Service because they used a one line statement in the One Network Framework (ONF) drafted by the Road Efficiency Group and published by Waka Katohi.</p> <p>In contrast to the NPS-UD, the ONF definition also classifies passenger rail services that are not frequent as Rapid Transit which is incorrect. The Johnsonville Line is not a frequent service (mostly 2 services/hour) and therefore cannot be classified as a Rapid Transit Service.</p> <p>Considers the One Network Framework is not able tool for this assessment - as confirmed in writing by the Waka Katohi One Network Framework Programme Manager. Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Oriental Bay Residents Association Inc	128.1	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports the adoption of 10 minutes (800) for the CBD "walkable catchment" under NPS-UD Policy 3. Considers that it would be unreasonable to expect Oriental Bay residents, many of whom are elderly, to walk more than 10 minutes to services. Exposure to extreme winds and sea conditions along the only practicable route (Oriental Parade), without shelter, means walking is frequently not practicable for many residents, nor is cycling or use of e-scooters.	Retain 10 minute walkable catchment as notified. Or, reduce it to 5 minutes (400m).
Elayna Chhiba	FS131.24	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Opposes decreasing walking catchments to 10 minutes or below for the following reasons: - Housing supply, affordability, and the survival of youth in Wellington. - Trying to enter the housing market as a youth is becoming an unattainable dream and youth may choose to leave the city. - The capacity for intensification shrinks with reduced walking catchments. - Liveable cities will not be delivered with smaller walking catchments. - A range of homes are needed in places where people want to work and play, youth must not be priced out of prime city locations. [See original Further Submission for full reasoning].	Disallow
Escape Investments Limited	FS136.52	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	The submitter opposes the original submission to keep walking catchments at 10 minutes for the following reasons: - This is not within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning more people will move to outer suburbs. [See original Further Submission for full reasoning].	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Rod Bray	FS137.4	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. A larger catchment would provide attractive and affordable housing closer to the city centre, away from outer suburbs where people are likely to use cars as their main means of transportation. A 15-minute walkable catchment would promote growth in areas close to the city centre and encourage a shift to more environmentally friendly modes of transportation.</p> <p>WCC should use a 15 minute walkable catchment to fall in line with the NPS-UD to increase housing supply. It is not unreasonable to expect that a large portion of residents who live a 15 minute walk away from the city centre would choose to walk as their main mode of commute. WCC should take full advantage of the NPS-UD standards by increasing the walkable catchment to 15 minutes, which will provide many benefits to Wellington city. [Refer to further submission for full reason]</p>	Disallow
Zoe Ogilvie-Burns	131.4	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Not specified	Supports larger walking catchments for intensification around centres.	<p>Seeks that walking catchments around centres are increased.</p> <p>[Inferred decision requested]</p>
Elayna Chhiba	FS131.4	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Supports increasing walking catchments around the City Centre Zone for the following reasons:</p> <ul style="list-style-type: none"> - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Additionally, less reliance on private vehicles increases overall health. - Higher density housing will support providing liveable cities for future Wellingtonians. The NPS-UD and the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act provides for greater density. <p>[See original Further Submission for full reasoning].</p>	Allow
Zoe Ogilvie-Burns	131.5	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Not specified	Supports larger walking catchments for intensification around mass transit hubs.	<p>Seeks that walking catchments around mass transit hubs are increased.</p> <p>[Inferred decision requested]</p>

Escape Investments Limited	FS136.59	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning more people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow
Rod Bray	FS137.17	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. A larger catchment would provide attractive and affordable housing closer to the city centre, away from outer suburbs where people are likely to use cars as their main means of transportation. A 15-minute walkable catchment would promote growth in areas close to the city centre and encourage a shift to more environmentally friendly modes of transportation.</p> <p>WCC should use a 15 minute walkable catchment to fall in line with the NPS-UD to increase housing supply. It is not unreasonable to expect that a large portion of residents who live a 15 minute walk away from the city centre would choose to walk as their main mode of commute. WCC should take full advantage of the NPS-UD standards by increasing the walkable catchment to 15 minutes, which will provide many benefits to Wellington city.</p> <p>[Refer to further submission for full reason]</p>	Allow
Janice Young	140.4	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports the Johnsonville train line not being a rapid transit line.	Retain Johnsonville Line as not being classified as rapid transit.
Grant Buchan	143.7	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that all inconsistencies between the NPS-UD and MDRS should be removed (in favour of NPS-UD directions).	Seeks that 15 minute walking catchments are applied to all mass transit stops.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Grant Buchan	143.8	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that all inconsistencies between the NPS-UD and MDRS should be removed (in favour of NPS-UD directions).	Seeks that a 15 minute walking catchment is applied to the City Centre Zone.
Grant Buchan	143.9	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Supports the Johnsonville Line being classified as rapid transit. Considers that the line has the capacity that clearly supports any reasonable definition of mass transit. [Refer to original submission for full reasons].	Amend Johnsonville Line to be classified as rapid transit (as per NPS-UD (National Policy Statement on Urban Development)).
Grant Buchan	143.10	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the NPS-UD dictates that qualifying matters should be applied on a site-by-site basis, not by broad areas.	Seeks that qualifying matters are applied on a site-by-site basis, not by broad areas. [Inferred decision requested].
Braydon White	146.5	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports larger walking catchments for intensification around centres.	Seeks that walking catchments around centres are increased. [Inferred decision requested].
Elayna Chhiba	FS131.28	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports increasing walking catchments around the City Centre Zone for the following reasons: - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Rachel Leilani	FS132.1	Support	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	<p>Considers that a 15 minute catchment around the central city should be reinstated, particularly parts of Newtown which were included in the original 15 minute catchment are no longer included in the 10 minute catchment.</p> <p>As the Wellington Regional Hospital is located in Newtown, including Newtown in the walkable catchment for high density residential zoning is needed to provide affordable housing options for Wellington Hospital staff. Currently, the lack of housing, affordable housing and rentals are pushing Wellington Hospital workers out of Wellington City. If we want to retain our essential workers we must provide affordable housing within a walkable distance to their places of work. Without housing close to the city, people will not be willing to work in the city and will leave Wellington for other opportunities. A 10 minute catchment will not provide enough housing to ensure that our city has enough supply at an affordable level. These changes will impact future generations and it is important to make the correct decision now. Without affordable housing close to the city, we will lose the essential workers, creative artists, and young families who contribute to the quintessential Wellington City culture. Reinstating a 15 minute catchment will allow for enough supply to provide for affordable housing. A 15 minute catchment will let us essential workers keep hope for housing options close to work and will keep our city liveable and attainable.</p>	Allow
Escape Investments Limited	FS136.25	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning morfe people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow

Braydon White	146.6	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Supports larger walking catchments for intensification around mass transit hubs.	<p>Seeks that walking catchments around mass transit hubs are increased.</p> <p>[Inferred decision requested].</p>
Braydon White	146.7	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that larger, more comprehensive developments are needed in our centres.	Seeks that height limits are increased in the 15 minute walking catchments to rail stations.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Jennifer Mary Gyles	147.1	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports the adoption of 10 minutes (800) for the CBD "walkable catchment" under NPS-UD Policy 3. Considers that it would be unreasonable to expect Oriental Bay residents, many of whom are elderly, to walk more than 10 minutes to services. Exposure to extreme winds and sea conditions along the only practicable route (Oriental Parade), without shelter, means walking is frequently not practicable for many residents, nor is cycling or use of e-scooters.	Retain 10 minute walkable catchment as notified. Or, reduce it to 5 minutes (400m).
Living Streets Aotearoa	FS130.11	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Living Streets Aotearoa support retention of existing walk catchment and amend to a 10 minute catchment.	Allow / Seeks that the walkable catchment is retained at 15 minutes or reduced to amore equitable 10 minutes.
Elayna Chhiba	FS131.19	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Opposes decreasing walking catchments to 10 minutes or below for the following reasons: - Housing supply, affordability, and the survival of youth in Wellington. - Trying to enter the housing market as a youth is becoming an unattainable dream and youth may choose to leave the city. - The capacity for intensification shrinks with reduced walking catchments. - Liveable cities will not be delievers with smaller walking catchments. - A range of homes are needed in places where people want to work and play, youth must not be priced out of prime city locations. [See original Further Submission for full reasoning].	Disallow
Escape Investments Limited	FS136.47	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	The submitter opposes the original submission to keep walking catchments at 10 minutes for the following reasons: - This is not within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning morfe people will move to outer suburbs. - The submitter stated that walking is not practical due to wind and sea conditions, also stating that it is unreasonable to expect elderly residents to walk more than 10 minutes to services. - the data does not support this which shows many people walk/cycle to the city centre. [See original Further Submission for full reasoning].	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Rod Bray	FS137.6	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. LIVE WELLington	FS96.59	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	We oppose the submission of Cameron Vannisselroy, Conor Hill, Generation Zero, Jonathan Markwick, Kainga Ora, Paihikara Ki Pōneke Cycle Wellington, Property Council New Zealand, Te Tūāpapa Kura Kāinga Ministry of Housing and Urban Development, VicLabour, Waka Kotahi, WCC Environmental Reference Group. 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
Living Streets Aotearoa	FS130.1	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Walk catchments at 15 minutes are already in excess of that required. A walk catchment of 10 minutes is sufficient and is more equitable to the broad and varied range of people with different needs and abilities in a community. Walk catchments are intended as a planning tool for access to specific destinations such as a public transport stop. They are not intended as a general tool to an 'inner city' zone which may not have any of the everyday services needed, for instance access to a fresh food outlet. 10 minutes walk at an average speed is slightly less than one kilometre for a fit healthy adult. It does not encompass all the community and says nothing about the amenity, service levels or attractiveness of the walk environment. Research shows that a best practice environment (such as following all the requirements in the NZ Pedestrian Planning and Design Guide/ Pedestrian Network Guidance) makes it easier for most people to walk further. A walkable catchment does not of itself provide this. Other provision to ensure this best practice must be embedded in the PDP.	Disallow / Seeks that the walkable catchment is retained at 15 minutes or reduced to a more equitable 10 minutes.
Elayna Chhiba	FS131.32	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports increasing walking catchments around the City Centre Zone for the following reasons: <ul style="list-style-type: none"> - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Escape Investments Limited	FS136.50	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning more people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow
Rod Bray	FS137.12	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. A larger catchment would provide attractive and affordable housing closer to the city centre, away from outer suburbs where people are likely to use cars as their main means of transportation. A 15-minute walkable catchment would promote growth in areas close to the city centre and encourage a shift to more environmentally friendly modes of transportation.</p> <p>WCC should use a 15 minute walkable catchment to fall in line with the NPS-UD to increase housing supply. It is not unreasonable to expect that a large portion of residents who live a 15 minute walk away from the city centre would choose to walk as their main mode of commute. WCC should take full advantage of the NPS-UD standards by increasing the walkable catchment to 15 minutes, which will provide many benefits to Wellington city.</p> <p>[Refer to further submission for full reason]</p>	Allow
Tore Hayward	170.1	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Supports the adoption of 10 minutes (800) for the CBD "walkable catchment" under NPS-UD Policy 3.</p> <p>Wind conditions have an important bearing on people's willingness to walk, and for how long/far. Wellington averages 198 days per year with gale force winds, and 52 with storm force winds (based on a table from a NIWA publication). This reality supports a shorter walking time for Wellington than may be appropriate for some other cities.</p> <p>[Refer to original submission for full reasons, including table].</p>	Retain 10 minute walkable catchment as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Scott Galloway & Carolyn McLean	171.1	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports the adoption of 10 minutes (800) for the CBD "walkable catchment" under NPS-UD Policy 3. Considers that it would be unreasonable to expect Oriental Bay residents, many of whom are elderly, to walk more than 10 minutes to services. Exposure to extreme winds and sea conditions along the only practicable route (Oriental Parade), without shelter, means walking is frequently not practicable for many residents, nor is cycling or use of e-scooters.	Retain 10 minute walkable catchment as notified. Or, reduce it to 5 minutes (400m).
Living Streets Aotearoa	FS130.14	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Living Streets Aotearoa support retention of existing walk catchment and amend to a 10 minute catchment.	Allow / Seeks that the walkable catchment is retained at 15 minutes or reduced to amore equitable 10 minutes.
Elayna Chhiba	FS131.29	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Opposes decreasing walking catchments to 10 minutes or below for the following reasons: - Housing supply, affordability, and the survival of youth in Wellington. - Trying to enter the housing market as a youth is becoming an unattainable dream and youth may choose to leave the city. - The capacity for intensification shrinks with reduced walking catchments. - Liveable cities will not be delievers with smaller walking catchments. - A range of homes are needed in places where people want to work and play, youth must not be priced out of prime city locations. [See original Further Submission for full reasoning].	Disallow
Escape Investments Limited	FS136.57	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	The submitter opposes the original submission to keep walking catchments at 10 minutes for the following reasons: - This is not within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning morfe people will move to outer suburbs. [See original Further Submission for full reasoning].	Disallow

Wellington's Character Charitable Trust	233.10	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Supports larger walking catchments for intensification around centres .	Seeks that walking catchments around centres are increased. [Inferred decision requested].
Victoria Stace	235.1	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports a 10 minute walkable catchment. Due to Wellingtons weather and topography, walking for more than 10 minutes to a commercial area is not practicable. [Refer to original submission for full reason]	Retain Walkable Catchments (at 10 minutes) as notified.
Elayna Chhiba	FS131.46	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Opposes decreasing walking catchments to 10 minutes or below for the following reasons: - Housing supply, affordability, and the survival of youth in Wellington. - Trying to enter the housing market as a youth is becoming an unattainable dream and youth may choose to leave the city. - The capacity for intensification shrinks with reduced walking catchments. - Liveable cities will not be delievers with smaller walking catchments. - A range of homes are needed in places where people want to work and play, youth must not be priced out of prime city locations. [See original Further Submission for full reasoning].	Disallow
Escape Investments Limited	FS136.74	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	The submitter opposes the original submission to keep walking catchments at 10 minutes for the following reasons: - This is not within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning morfe people will move to outer suburbs. - People will walk/cycle to the city despite weather conditions, evidence provided by submitter. [See original Further Submission for full reasoning].	Disallow

Rod Bray	FS137.39	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. A larger catchment would provide attractive and affordable housing closer to the city centre, away from outer suburbs where people are likely to use cars as their main means of transportation. A 15-minute walkable catchment would promote growth in areas close to the city centre and encourage a shift to more environmentally friendly modes of transportation.</p> <p>WCC should use a 15 minute walkable catchment to fall in line with the NPS-UD to increase housing supply. It is not unreasonable to expect that a large portion of residents who live a 15 minute walk away from the city centre would choose to walk as their main mode of commute. WCC should take full advantage of the NPS-UD standards by increasing the walkable catchment to 15 minutes, which will provide many benefits to Wellington city. [Refer to further submission for full reason]</p>	Disallow
Pukepuke Pari Residents Incorporated	237.1	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Supports a 10 minute walkable catchment.</p> <p>Due to Wellingtons weather and topography, walking for more than 10 minutes to a commercial area is not practicable.</p> <p>Considers that there are already many areas within the 10 minute catchment for development so increasing is unnecessary.</p> <p>Due to the town belt and propensity to walk lowering over distance, extending walking catchment has diminishing returns. [Refer to original submission for full reason]</p>	Retain Walkable Catchments (at 10 minutes) as notified.
Living Streets Aotearoa	FS130.12	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Living Streets Aotearoa support retention of existing walk catchment and amend to a 10 minute catchment.	Allow / Seeks that the walkable catchment is retained at 15 minutes or reduced to amore equitable 10 minutes.
Elayna Chhiba	FS131.23	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>Opposes decreasing walking catchments to 10 minutes or below for the following reasons:</p> <ul style="list-style-type: none"> - Housing supply, affordability, and the survival of youth in Wellington. - Trying to enter the housing market as a youth is becoming an unattainable dream and youth may choose to leave the city. - The capacity for intensification shrinks with reduced walking catchments. - Liveable cities will not be delievers with smaller walking catchments. - A range of homes are needed in places where people want to work and play, youth must not be priced out of prime city locations. <p>[See original Further Submission for full reasoning].</p>	Disallow

Rachel Leilani	FS132.4	Support	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Considers that a 15 minute catchment around the central city should be reinstated, particularly parts of Newtown which were included in the original 15 minute catchment are no longer included in the 10 minute catchment. As the Wellington Regional Hospital is located in Newtown, including Newtown in the walkable catchment for high density residential zoning is needed to provide affordable housing options for Wellington Hospital staff. Currently, the lack of housing, affordable housing and rentals are pushing Wellington Hospital workers out of Wellington City. If we want to retain our essential workers we must provide affordable housing within a walkable distance to their places of work. Without housing close to the city, people will not be willing to work in the city and will leave Wellington for other opportunities. A 10 minute catchment will not provide enough housing to ensure that our city has enough supply at an affordable level. These changes will impact future generations and it is important to make the correct decision now. Without affordable housing close to the city, we will lose the essential workers, creative artists, and young families who contribute to the quintessential Wellington City culture. Reinstating a 15 minute catchment will allow for enough supply to provide for affordable housing. A 15 minute catchment will let us essential workers keep hope for housing options close to work and will keep our city liveable and attainable.	Allow

Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.7	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports the fact that character precincts (MRZ-PREC-01 and MRZ-PREC-02) serves as a qualifying matter, and thus also potentially limits the pressure on Three Waters (THW) Infrastructure .	Retain National Policy Statements and New Zealand Coastal Policy Statement chapter as notified ((With regards to Character Precincts being Qualifying Matters).
Claire Nolan, James Fraser, Bidy Bunzl, Margaret Franken, Michelle Wolland, and Lee Muir	275.8	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that this allows a suburb specific response to assessing the ability of the THW Infrastructure to accommodate impacts on wastewater, water supply and storm water can be taken.	Seeks that the current state of Three Waters Infrastructure in Newtown be regarded as a qualifying matter.
Onslow Residents Community Association	283.5	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Supports using NPS-UD Policy 3 (d) along the Johnsonville Railway Line.</p> <p>Considers that Wellington City Council defined Johnsonville Line as rapid transit without defining explicit criteria and relied on definitions used for other purposes that exclude the required characteristics of the NPSD-UD.</p> <p>The "Review of the designation of the Johnsonville Railway Line as a Rapid Transit System "paper showed that Johnsonville Line is not rapid transit, and if it was classified as so, would not provide sufficient capacity, increase in carbon emissions and congestion, and degrade the wellbeing along the catchment.</p> <p>The GWRC paper "WELLINGTON RAIL PROGRAMME BUSINESS CASE" excludes the Johnsonville Line and defines criteria for Rapid Transit Stops that the Johnsonville Line cannot meet.</p> <p>[Refer to original submission for full reason]</p>	Retain the Johnsonville Line classification as notified (not Rapid Transit).

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Generation Zero	FS54.49	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>Considers that The Johnsonville Line meets the definition of “mass rapid transit” (MRT) in the NPS-UD. The elements of the definition should be viewed wholistically and not each as a bar to cross. The NPS-UD is not a transport document but a land-use document. The MRT definition is for enabling more housing where good infrastructure exists or is planned, and new housing is easily absorbed. While external transport planning documents are relevant, they are not determinative. The MRT definition should be future looking – to the frequencies likely when new residents are present, and when other changes are made (eg. Wellington Station crossover improvements, integrated ticketing, golden mile improvements). The existence of bus routes that are may be faster to the Central City at certain times of day actually supports the Johnsonville line being MRT. It indicates a transit-rich area that is a well-functioning urban environment capable of supporting more housing.</p>	Disallow / Seeks that the Johnsonville Train Line is designated as mass rapid transit (and its associated train stations)
Johnsonville Community Association Inc	FS114.15	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Support	<p>The NPS-UD definition states that Rapid Transit Services must be “frequent” and this definition therefore excludes PT services that are not frequent from being classified as Rapid Transit Services.</p> <p>Considers that Greater Wellington Regional Council (GWRC) has incorrectly assessed the Johnsonville Line is a Rapid transit Service because they used a one line statement in the One Network Framework (ONF) drafted by the Road Efficiency Group and published by Waka Katohi.</p> <p>In contrast to the NPS-UD, the ONF definition also classifies passenger rail services that are not frequent as Rapid Transit which is incorrect. The Johnsonville Line is not a frequent service (mostly 2 services/hour) and therefore cannot be classified as a Rapid Transit Service.</p> <p>Considers the One Network Framework is not able tool for this assessment - as confirmed in writing by the Waka Katohi One Network Framework Programme Manager. In contrast, Auckland Transport has developed a PT assessment standard based on suitable public transport criteria and under their criteria, the Onehunga Line is assessed as Nnot being Rapid Transit under the NPS-UD. Applying these same criteria to the Johnsonville Line would also find it is not Rapid Transit. Further, the WCC has also failed to use a PT assessment standard based on suitable public transport criteria to assess whether Johnsonville Line Stations are Rapid Transit Stops under the NPS-UD. Therefore any claim that Johnsonville Line Stations are Rapid Transit Stops is also invalid. [Refer to further submission for full reason]</p>	Disallow / Retain Johnsonville Line as notified (Not considered Rapid Transit).
Onslow Residents Community Association	283.6	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>Opposes any attempt to reinstate NPS-UD Policy 3 (c) (i) along the Johnsonville Railway Line.</p> <p>Considers that Wellington City Council defined Johnsonville Line as rapid transit without defining explicit criteria and relied on definitions used for other purposes that exclude the required characteristics of the NPSD-UD.</p> <p>The "Review of the designation of the Johnsonville Railway Line as a Rapid Transit System "paper showed that Johnsonville Line is not rapid transit, and if it was classified as so, would not provide sufficient capacity, increase in carbon emissions and congestion, and degrade the wellbeing along the catchment.</p> <p>The GWRC paper "WELLINGTON RAIL PROGRAMME BUSINESS CASE" excludes the Johnsonville Line and defines criteria for Rapid Transit Stops that the Johnsonville Line cannot meet.</p> <p>[Refer to original submission for full reason]</p>	Retain the Johnsonville Line classification as notified (not Rapid Transit).

The Johnsonville Line is not a frequent service (mostly 2 services/hour) and therefore cannot be classified as a Rapid Transit Service.</p> <p>Considers the One Network Framework is not able tool for this assessment - as confirmed in writing by the Waka Katohi One Network Framework Programme Manager. In contrast, Auckland Transport has developed a PT assessment standard based on suitable public transport criteria and under their criteria, the Onehunga Line is assessed as Nnot being Rapid Transit under the NPS-UD. Applying these same criteria to the Johnsonville Line would also find it is not Rapid Transit.</p> <p>Further, the WCC has also failed to use a PT assessment standard based on suitable public transport criteria to assess whether Johnsonville Line Stations are Rapid Transit Stops under the NPS-UD. Therefore any claim that Johnsonville Line Stations are Rapid Transit Stops is also invalid. [Refer to further submission for full reason]</p>	Disallow / Retain Johnsonville Line as notified (Not considered Rapid Transit).
Steve Dunn	288.4	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers the provisions of the National Policy Statement on Urban Development (NPS-UD) is a blunt instrument when considering inner city housing for Newtown.	Not specified
Priscilla Williams	293.4	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	[No specific reason given beyond decision requested - see original submission for further reason]	Seeks that the houses that display character in the area spanning Wesley Road, Aurora Terrace and Bolton Street are considered a qualifying matter.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Dawid Wojasz	295.4	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that Johnsonville Rail line should be considered as rapid transit for the purposes of its impact of Zoning and walkable catchments. It is a significant rail corridor and high density housing should be encouraged along its route to allow efficient access to public transport.	Seeks that a 15 minute walkable catchment be applied around stations along the Johnsonville rail line to enable high density residential zone. [Inferred decision requested].
Ann Mallinson	FS3.15	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. In particular the weather and wind conditions on Oriental Parade often make walking difficult for residents.	Disallow
Helen Foot	FS62.17	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Oriental Bay residents given exposed wind and weather conditions.	Disallow
Paihikara Ki Pōneke Cycle Wellington	302.10	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Supports the PDP subject to amendments to ensure that the intensification outcomes required by the Resource Management Act 1991, as amended by the RM (Enabling Housing Supply and Other Matters) Act 2021 and the NPS-UD 2020 are enabled. Considers that walkable catchments around the City Centre Zone and Metropolitan Centres Zones should be defined as those within a distance which appropriately reflects the provision and frequency of public transport, the draw of the services and amenity within the city centre, the connectivity of the city centre and the Wellington topography, being 15 minutes.	Seeks that walkable catchments around the City Centre Zone are increased to 15 minutes.
Wellington's Character Charitable Trust	FS82.40	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
LIVE WELLington	FS96.74	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	We oppose the submission of Cameron Vannisselroy, Conor Hill, Generation Zero, Jonathan Markwick, Kainga Ora, Paihikara Ki Pōneke Cycle Wellington, Property Council New Zealand, Te Tūāpapa Kura Kāinga Ministry of Housing and Urban Development, VicLabour, Waka Kotahi, WCC Environmental Reference Group. 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow

Escape Investments Limited	FS136.70	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning morfe people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Rod Bray	FS137.23	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. A larger catchment would provide attractive and affordable housing closer to the city centre, away from outer suburbs where people are likely to use cars as their main means of transportation. A 15-minute walkable catchment would promote growth in areas close to the city centre and encourage a shift to more environmentally friendly modes of transportation.</p> <p>WCC should use a 15 minute walkable catchment to fall in line with the NPS-UD to increase housing supply. It is not unreasonable to expect that a large portion of residents who live a 15 minute walk away from the city centre would choose to walk as their main mode of commute. WCC should take full advantage of the NPS-UD standards by increasing the walkable catchment to 15 minutes, which will provide many benefits to Wellington city. [Refer to further submission for full reason]</p>	Allow
Paihikara Ki Pōneke Cycle Wellington	302.11	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	<p>Supports the PDP subject to amendments to ensure that the intensification outcomes required by the Resource Management Act 1991, as amended by the RM (Enabling Housing Supply and Other Matters) Act 2021 and the NPS-UD 2020 are enabled.</p> <p>Considers that walkable catchments around the City Centre Zone and Metropolitan Centres Zones should be defined as those within a distance which appropriately reflects the provision and frequency of public transport, the draw of the services and amenity within the city centre, the connectivity of the city centre and the Wellington topography, being 15 minutes.</p>	Seeks that walkable catchments around the Metropolitan Centres Zones are increased to 15 minutes.
Wellington's Character Charitable Trust	FS82.41	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. Paihikara Ki Pōneke Cycle Wellington	302.13	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Supports the PDP subject to amendments to ensure that the intensification outcomes required by the Resource Management Act 1991, as amended by the RM (Enabling Housing Supply and Other Matters) Act 2021 and the NPS-UD 2020 are enabled.	Seeks that the Johnsonville Rail Line is classified as a rapid transit route.
Wellington's Character Charitable Trust	FS82.9	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers improvements to the Johnsonville line may only be taken into account if they are "planned" in a Regional Land Transport Plan (RLTP). Considers there are no such improvements for the Johnsonville line planned in the RLTP. Considers the definition of "planned" in the NPS-UD resolves any circularity in the Johnsonville line not being a rapid transit service. Considers improvements to a transit service must be planned in the RLTP before they are relevant to any upzoning under the NPS-UD. [Refer to original submission - 233]	Disallow
Roland Sapsford	305.26	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the NPS-UD requires the Council to take a place-based approach to setting District Plan rules, and this should be applied to Aro Valley, which is a suburb with unique characteristics. Considers that full use should be made of the NPS-UD qualifying matters and statutory framework to ensure that intensification in Aro Valley maintains and enhances the amenity and environment of Aro Valley, and the lived experience of new and existing residents. Considers that the NPS-UD and Wellington Spatial Plan require interpretation in a local context in order to enable sustainable development. [Refer to original submission for details/contextual information]	Seeks that further consideration is given to the unique characteristics of Aro Valley, including through the use of qualifying matters. [Inferred decision sought]
Wilma Sherwin	306.2	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports Johnsonville Line not being classified as a Mass Rapid Transit line. The Johnsonville Line is a suburban commuter line with many stops, steep and winding tracks and few passing bays that cannot accommodate faster, longer or more trains. It has limited capacity. It is not a Rapid Transit System.	Retain Johnsonville Line as not being classified as a Mass Rapid Transit line.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Wilma Sherwin	306.3	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that 3-waters infrastructure is a qualifying matter under NPS-UD subpart 6, clause 3.32.	Seeks that 3-waters infrastructure is interpreted as a qualifying matter under the NPS-UD subpart 6, clause 3.32.
Svend Heeselholt Henne Hansen	308.2	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Not specified	Supports larger walking catchments for intensification around centres.	Seeks that walking catchments around centres are increased. [Inferred decision requested].
Elayna Chhiba	FS131.2	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports increasing walking catchments around the City Centre Zone for the following reasons: <ul style="list-style-type: none"> - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Seeks that walking catchments around mass transit hubs are increased. [Inferred decision requested].
Rod Bray	311.1	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Walkable Catchments under the NPS-UD should be reverted back to 15 minutes instead of 10 minute, as a large portion of city edge residents walk to work. The Auckland Council's walkable catchments analysis found that an excess of 50% of commuters walked further than 800m to their busway station. Although 'walkability' varies between individuals, a 15 minute walk remains realistic for a significant proportion of commuters. WCC should fall in line with the NPS to increase housing supply around CBD.	Opposes 10 minute walkable catchments as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Living Streets Aotearoa	FS130.6	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Walk catchments at 15 minutes are already in excess of that required. A walk catchment of 10 minutes is sufficient and is more equitable to the broad and varied range of people with different needs and abilities in a community. Walk catchments are intended as a planning tool for access to specific destinations such as a public transport stop. They are not intended as a general tool to an 'inner city' zone which may not have any of the everyday services needed, for instance access to a fresh food outlet. 10 minutes walk at an average speed is slightly less than one kilometre for a fit healthy adult. It does not encompass all the community and says nothing about the amenity, service levels or attractiveness of the walk environment. Research shows that a best practice environment (such as following all the requirements in the NZ Pedestrian Planning and Design Guide/ Pedestrian Network Guidance) makes it easier for most people to walk further. A walkable catchment does not of itself provide this. Other provision to ensure this best practice must be embedded in the PDP.	Disallow / Seeks that the walkable catchment is retained at 15 minutes or reduced to a more equitable 10 minutes.
Elayna Chhiba	FS131.40	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports increasing walking catchments around the City Centre Zone for the following reasons: <ul style="list-style-type: none"> - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Thorndon Residents' Association Inc	FS69.46	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	[Refer to Full Submission for reasons and examples of residential character of the Hobson precinct of Thorndon].	Allow
Trevor Farrer	332.1	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the walking catchment around the central city, which would allow buildings up to six storeys within it, should be reinstated at 15 minutes rather than 10 minutes. Walking catchments of 10 minutes will reduce land available for density and housing supply around the city centre. Many successful cities around the world are climate-friendly, liveable and walkable, with good urban planning.	Amend walkable catchment areas to 15 minutes.
Elayna Chhiba	FS131.5	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports increasing walking catchments around the City Centre Zone for the following reasons: <ul style="list-style-type: none"> - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Additionally, less reliance on private vehicles increases overall health. - Higher density housing will support providing liveable cities for future Wellingtonians. The NPS-UD and the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act provides for greater density. <p>[See original Further Submission for full reasoning].</p>	Allow
Bruce Rae	334.2	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the walkable catchment for Johnsonville should be 5 minutes. It is appreciated that the walkable catchments took the effects of topography into account, rather than pretending Wellington was flat. A significant amount has been spent fairly recently on the Johnsonville line to ensure it is capable of using the same trains/electric units as the rest of the network. Given the above, it appears inconsistent that while the proposed plan set the tawa walkable catchments at 5 minutes (down from 10) it has deleted the 10 minute Johnsonville line walkable catchments completely, rather than also cutting them down to 5 minutes. Maps should be revised to include 5 minute walkable catchments associated with Johnsonville line stations areas of High density residential, as has been done with the Kapiti line stations in Tawa. It is also noted that territorial authorities are able to decide how they will implement the national policy statement on Urban Development 2020 . Thwart is not a synonym for implement, nor is the implementation task 'whether' rather than 'how'.	Amend maps to include 5 minute walkable catchments associated with the Johnsonville line stations as areas of high density residential as has been done with the Kapiti Line stations in Tawa.

Property Council New Zealand	338.3	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	<p>Considers that the proposed a walkable catchment of 800 metres (or 10 minutes) for the City Centre zone is very limited and should be amended to 15 minutes. The current walkable catchment excludes Mount Victoria, Oriental Bay, Mount Cook and the area around Massey University Campus. Auckland, Hamilton and Christchurch city centres have a 1200 metres walkable catchment and Tauranga City have a 1500 metres walkable catchment. Limiting Wellington's walkable catchment will encourage urban sprawl, limit future intensification and be an impediment for the Council in achieving their carbon neutral goals.</p> <p>A 15 minute walkable catchment will better help the Council reach its commitment to reduce net carbon emissions to net zero by 2050, and will encourage more people to live closer to the city centre and reduce their carbon footprint.</p>	Reinstate Walkable Catchments at 15 minutes from the City Centre Zone in High Density Residential Zone under the NPS-UD - Policy 3.
Pukepuke Pari Residents Incorporated	FS37.1	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers that a limit of 10 mins on the walkable catchment is appropriate for Wellington and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. People's propensity to walk diminishes with distance. Particularly relevant if the catchment was increased to 15 minutes and the last 5 minutes was up a steep hill (as would be the case for eg in Hay Street).	Disallow
Gareth and Joanne Morgan	FS38.16	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Opposes the proposal to extend the walkable catchment above 10 minutes.	Disallow
Wellington's Character Charitable Trust	FS82.43	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
Don MacKay	FS94.1	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers that a limit of ten minutes on the walkable catchment is appropriate for Wellington, and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. Particularly relevant if the catchment was increased to 15 minutes and the last five minutes was up a steep hill (as would be the case for Wilkinson Street). People's propensity to walk decreases with distance.	Disallow

Rachel Leilani	FS132.6	Support	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	<p>Considers that a 15 minute catchment around the central city should be reinstated, particularly parts of Newtown which were included in the original 15 minute catchment are no longer included in the 10 minute catchment.</p> <p>As the Wellington Regional Hospital is located in Newtown, including Newtown in the walkable catchment for high density residential zoning is needed to provide affordable housing options for Wellington Hospital staff. Currently, the lack of housing, affordable housing and rentals are pushing Wellington Hospital workers out of Wellington City. If we want to retain our essential workers we must provide affordable housing within a walkable distance to their places of work. Without housing close to the city, people will not be willing to work in the city and will leave Wellington for other opportunities. A 10 minute catchment will not provide enough housing to ensure that our city has enough supply at an affordable level. These changes will impact future generations and it is important to make the correct decision now. Without affordable housing close to the city, we will lose the essential workers, creative artists, and young families who contribute to the quintessential Wellington City culture. Reinstating a 15 minute catchment will allow for enough supply to provide for affordable housing. A 15 minute catchment will let us essential workers keep hope for housing options close to work and will keep our city liveable and attainable.</p>	Allow

Escape Investments Limited	FS136.22	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning morfe people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow
Escape Investments Limited	FS136.75	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning morfe people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Rod Bray	FS137.25	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. A larger catchment would provide attractive and affordable housing closer to the city centre, away from outer suburbs where people are likely to use cars as their main means of transportation. A 15-minute walkable catchment would promote growth in areas close to the city centre and encourage a shift to more environmentally friendly modes of transportation.</p> <p>WCC should use a 15 minute walkable catchment to fall in line with the NPS-UD to increase housing supply. It is not unreasonable to expect that a large portion of residents who live a 15 minute walk away from the city centre would choose to walk as their main mode of commute. WCC should take full advantage of the NPS-UD standards by increasing the walkable catchment to 15 minutes, which will provide many benefits to Wellington city. [Refer to further submission for full reason]</p>	Allow
Property Council New Zealand	338.4	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	<p>Considers that the NPS-UD should be clarified to specify the starting point for the City Centre walkable catchment zone. Current mapping is unclear as to where the starting point is established, unlike other council's maps who clearly identify this.</p>	Clarify the starting point of the City Centre Zone walkable catchment in the NPS-UD.
Greater Wellington Regional Council	351.50	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose in part	<p>Considers that in classifying the Johnsonville Rail Line as a rapid transit service, the Regional Transport Committee referenced the definition of rapid transit contained in the NPS-UD and considered the definitions for PT1 classification contained in Waka Kotahi's One Network Framework that includes all metro rail corridors and the Regional Public Transport Plan.</p> <p>Local authorities identify and enable rapid transit services within the Wellington Region through the Regional Land Transport Plan and the Joint Leadership Committee. This in turn enables territorial authorities to 'up-zone' surrounding walkable catchment areas under NPS-UD Policy 3c. It is important to note that the identification of a rapid transit service in the Regional Land Transport Plan enables changes to district plan zoning to occur but does not require them.</p> <p>The Johnsonville Rail Line is a key part of the region's transport network, and well placed to increase its future role. This rail line is a dedicated public transport corridor. As a dedicated corridor, it does not have the challenges of segregation with other users required on other mixed-mode corridors. It is a key component of the regional transport network and is integrated into this network. [Refer to original submission for full reason]</p>	Opposes the Johnsonville Railway Line not being classified as a rapid transit line and seeks amendment.
Onslow Residents Community Association	FS80.1	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>Considers the Johnsonville Rail Line does not meet NPS-UD definition of a rapid transit service. Seeks that the decision of Wellington City Council in the Proposed District Plan as notified stands. [Refer to original submission - 283]</p>	Disallow / Seeks that the part of the submission relating to the Johnsonville Rail Line being classified as a rapid transit line is disallowed.

Wellington's Character Charitable Trust	FS82.51	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
Greater Wellington Regional Council	FS84.94	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Greater Wellington consider Johnsonville Rail Line should be classified a rapid transit service to align with the Regional Land Transport Plan which support the 'upzoning' of walkable catchments. Johnsonville Rail Line is recognised as a key part of the region's transport network.	Allow / Seeks review of walkable catchments and reclassification of Johnsonville Rail Line as a rapid transit service.
Kāinga Ora – Homes and Communities	FS89.16	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Kāinga Ora supports the submission seeking high density residential zoning for the identified walkable catchments, to the extent consistent with Kāinga Ora primary submission.	Allow
Don MacKay	FS94.3	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers that a limit of ten minutes on the walkable catchment is appropriate for Wellington, and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. Particularly relevant if the catchment was increased to 15 minutes and the last five minutes was up a steep hill (as would be the case for Wilkinson Street). People's propensity to walk decreases with distance.	Disallow
LIVE WELLington	FS96.85	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	We oppose the submission of Cameron Vannisselroy, Conor Hill, Generation Zero, Jonathan Markwick, Kainga Ora, Paihikara Ki Poneke Cycle Wellington, Property Council New Zealand, Te Tūāpapa Kura Kāinga Ministry of Housing and Urban Development, VicLabour, Waka Kotahi, WCC Environmental Reference Group. 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association Inc	FS114.50	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>Considers that by deciding on 10 Minutes as the size of the Walking Catchment as measured from the edge of the Metropolitan MDRZ under the NPS-UD, the WCC officers are claiming Johnsonville residents within 15 minutes walking to facilities should be in the MDRZ and permitted for high density housing.</p> <p>Considers that the Johnsonville Walking Report report does not provide any evidence or justification that the residential areas beyond the Johnsonville MDRA 10 Minute Walking Catchment are now walking accessible when they were excluded from the WCC's own analysis in 2013. In its submission to the 2021 WCC Spatial Plan, the JCA requested the proposed MDRZ walking catchment be reduced from 10 minutes to 5 minutes from the edge of the Metropolitan Business Zone for this reason. This is based on a correct and complete application of the MfE Guidance on setting the Walking Catchments and on the WCC's previous evidence to the Environment Court that the current MDRA is the 10 Minute Walking Catchment for Johnsonville. Finally, when the council reduced the CBD walking catchment to 10 minutes from the CBD boundary, it retained the 10 minutes catchment for Johnsonville. Considers that this ignores MfE Guidance that "the centre's size can also affect the size of the catchment". Johnsonville is small for a Suburban Centre with a less employment than other "lesser" suburbs such as Newtown or Kilbirnie. [Refer to further submission for full reason]</p>	Disallow / Seeks that the walking catchment from the Johnsonville Metropolitan Centre Zone is amended to 5 minutes (400m) from the edge of the Metropolitan Zone.
Rachel Leilani	FS132.2	Support	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	<p>Considers that a 15 minute catchment around the central city should be reinstated, particularly parts of Newtown which were included in the original 15 minute catchment are no longer included in the 10 minute catchment.</p> <p>As the Wellington Regional Hospital is located in Newtown, including Newtown in the walkable catchment for high density residential zoning is needed to provide affordable housing options for Wellington Hospital staff. Currently, the lack of housing, affordable housing and rentals are pushing Wellington Hospital workers out of Wellington City. If we want to retain our essential workers we must provide affordable housing within a walkable distance to their places of work. Without housing close to the city, people will not be willing to work in the city and will leave Wellington for other opportunities. A 10 minute catchment will not provide enough housing to ensure that our city has enough supply at an affordable level. These changes will impact future generations and it is important to make the correct decision now. Without affordable housing close to the city, we will lose the essential workers, creative artists, and young families who contribute to the quintessential Wellington City culture. Rod Bray	FS137.20	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. A larger catchment would provide attractive and affordable housing closer to the city centre, away from outer suburbs where people are likely to use cars as their main means of transportation. A 15-minute walkable catchment would promote growth in areas close to the city centre and encourage a shift to more environmentally friendly modes of transportation.</p> <p>WCC should use a 15 minute walkable catchment to fall in line with the NPS-UD to increase housing supply. It is not unreasonable to expect that a large portion of residents who live a 15 minute walk away from the city centre would choose to walk as their main mode of commute. WCC should take full advantage of the NPS-UD standards by increasing the walkable catchment to 15 minutes, which will provide many benefits to Wellington city. [Refer to further submission for full reason]</p>	Allow
Jane Szentivanyi	376.4	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	<p>Considers that particular focus needs to be taken to ensure that the district plan appropriately considers the transition from a residential area (MDRZ) to the Central Area, especially on a street like Moir St where the plan seeks to protect the heritage and character values. Character and heritage are noted as qualifying matters under the RZ Pt1 Sch1 "height or density directed by the NPS-UD may be modified by qualifying matters".</p>	Seeks that particular focus be taken to ensure that the district plan appropriately considers the transition from a residential area (MDRZ) to the Central Area.
WCC Environmental Reference Group	377.11	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	<p>The walking catchments used in the district plan are inconsistent between the rapid transit stops they relate to. These are also more conservative than those being proposed by both Porirua and Hutt City, and considerably more conservative than those proposed by Auckland City. In light of the urgent need to reduce Wellingtonians' carbon footprint, reduce congestion, and significantly improve housing options, this makes no sense. We seek that the plan takes a consistent approach, applying the definition provided by Section 5.5 the MfE guidance in relation to the NPS-UD, and revising its walking catchment definitions to at least match those of its adjacent cities.</p>	<p>Amend the walkable catchments associated with the central city, any areas classed as 'metropolitan centres' and with rapid transit stops to bring them in line with the approach being taken by Hutt City, Porirua and Auckland City, as follows:</p> <p>(a) A 15-minute walk (around 1200 metres) from the edge of the City Centre Zone; and (b) A 10-minute walk (around 800 metres) from existing and planned rapid transit stops (c) A 10-minute walk (around 800 metres) from the edge of a Metropolitan Centre Zone</p>
Living Streets Aotearoa	FS130.9	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>Walk catchments at 15 minutes are already in excess of that required. A walk catchment of 10 minutes is sufficient and is more equitable to the broad and varied range of people with different needs and abilities in a community. Walk catchments are intended as a planning tool for access to specific destinations such as a public transport stop. They are not intended as a general tool to an 'inner city' zone which may not have any of the everyday services needed, for instance access to a fresh food outlet. 10 minutes walk at an average speed is slightly less than one kilometre for a fit healthy adult. It does not encompass all the community and says nothing about the amenity, service levels or attractiveness of the walk environment. Research shows that a best practice environment (such as following all the requirements in the NZ Pedestrian Planning and Design Guide/ Pedestrian Network Guidance) makes it easier for most people to walk further. A walkable catchment does not of itself provide this. Other provision to ensure this best practice must be embedded in the PDP. [Inferred reference to submission 377.11]</p>	Disallow / Seeks that the walkable catchment is retained at 15 minutes or reduced to a more equitable 10 minutes.

Pukepuke Pari Residents Incorporated	FS37.5	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>Opposes walkable catchment extension - limit of 10 mins on the walkable catchment is appropriate for Wellington and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. People's propensity to walk diminishes with distance. Particularly relevant if the catchment was increased to 15 minutes and the last 5 minutes was up a steep hill.</p> <p>Proposed increases in height controls within walkable catchments of the CCZ go well beyond requirements of NPSUD and are inappropriate in light of amenity values (particularly within Oriental Bay). Oppose review of the O' Bay Height precinct- The Oriental Bay Height Precinct provides protection for significant public amenity value, for all those who use the beach and Parade, representing a large part of the Wellington population. This Height Precinct was decided after careful review by the Environment Court in 1989 and all the considerations that were carefully laid out there are relevant here.</p>	Disallow
Gareth and Joanne Morgan	FS38.17	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Opposes those parts of Kāinga Ora's submission that seek to extend the walkable catchment above 10 minutes.	Disallow
Onslow Residents Community Association	FS80.19	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers the proposed amendments go well beyond the requirements of the National Policy Statement on Urban Development and the Medium Density Residential Standards and would enable an unjustified level of development. Considers there is no evidence that this level of enablement is necessary. Considers original submission contains the submitter's view of appropriate settings for our community. [Refer to original submission - 283]	Disallow
Greater Wellington Regional Council	FS84.26	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Greater Wellington oppose enabling further intensified development unless there are the necessary controls to manage potential effects of water bodies and freshwater ecosystems to give effect to the NPS-FM and have regard to Proposed RPS Change 1. Greater Wellington also consider that any further intensification will not be feasible unless there is investment in associated infrastructure.	Disallow / Seeks that additional provisions are included to give effect to the NPS-FM and have regard to proposed RPS change 1 to manage the effects of urban development on freshwater.
Don MacKay	FS94.5	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers that walkable catchment extension opposed -see above in relation to Property Council. Proposed increases in height controls within walkable catchments of the CCZ go well beyond requirements of NPSUD and are inappropriate in light of amenity values (particularly within Oriental Bay).Oppose review of the O' Bay Height precinct- see our reasons re Waka Kotahi.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
LIVE WELLington	FS96.6	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	The proposal to extend walking catchments is opposed. Walking catchments have been extensively debated and it is inappropriate to alter them by submission at this stage. 10 minutes is a suitable walking distance in a city of Wellington's topography and weather.	Disallow
Stride Investment Management Limited	FS107.37	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Stride supports extending the walkable catchments as proposed. It is appropriate to apply a 15 minute walkable catchment to the Metropolitan zone to reflect the level of amenities and services provided.	Allow
Investore Property Limited	FS108.37	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Investore supports extending the walkable catchments as proposed. It is appropriate to apply a 15 minute walkable catchment to the Metropolitan zone to reflect the level of amenities and services provided.	Allow
Johnsonville Community Association Inc	FS114.19	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Oppose	<p>The NPS-UD definition states that Rapid Transit Services must be "frequent" and this definition therefore excludes PT services that are not frequent from being classified as Rapid Transit Services.</p> <p>Considers that Greater Wellington Regional Council (GWRC) has incorrectly assessed the Johnsonville Line is a Rapid transit Service because they used a one line statement in the One Network Framework (ONF) drafted by the Road Efficiency Group and published by Waka Katohi.</p> <p>In contrast to the NPS-UD, the ONF definition also classifies passenger rail services that are not frequent as Rapid Transit which is incorrect. The Johnsonville Line is not a frequent service (mostly 2 services/hour) and therefore cannot be classified as a Rapid Transit Service.</p> <p>Considers the One Network Framework is not able tool for this assessment - as confirmed in writing by the Waka Katohi One Network Framework Programme Manager. In contrast, Auckland Transport has developed a PT assessment standard based on suitable public transport criteria and under their criteria, the Onehunga Line is assessed as Nnot being Rapid Transit under the NPS-UD. Applying these same criteria to the Johnsonville Line would also find it is not Rapid Transit.</p> <p>Further, the WCC has also failed to use a PT assessment standard based on suitable public transport criteria to assess whether Johnsonville Line Stations are Rapid Transit Stops under the NPS-UD. Therefore any claim that Johnsonville Line Stations are Rapid Transit Stops is also invalid.</p> <p>[Refer to further submission for full reason]</p>	Disallow / Retain Johnsonville Line as notified (Not considered Rapid Transit).

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association Inc	FS114.34	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>Considers that by deciding on 10 Minutes as the size of the Walking Catchment as measured from the edge of the Metropolitan MDRZ under the NPS-UD, the WCC officers are claiming Johnsonville residents within 15 minutes walking to facilities should be in the MDRZ and permitted for high density housing.</p> <p>Considers that the Johnsonville Walking Report report does not provide any evidence or justification that the residential areas beyond the Johnsonville MDRA 10 Minute Walking Catchment are now walking accessible when they were excluded from the WCC's own analysis in 2013. In its submission to the 2021 WCC Spatial Plan, the JCA requested the proposed MDRZ walking catchment be reduced from 10 minutes to 5 minutes from the edge of the Metropolitan Business Zone for this reason. This is based on a correct and complete application of the MfE Guidance on setting the Walking Catchments and on the WCC's previous evidence to the Environment Court that the current MDRA is the 10 Minute Walking Catchment for Johnsonville. Finally, when the council reduced the CBD walking catchment to 10 minutes from the CBD boundary, it retained the 10 minutes catchment for Johnsonville. Considers that this ignores MfE Guidance that "the centre's size can also affect the size of the catchment". Johnsonville is small for a Suburban Centre with a less employment than other "lesser" suburbs such as Newtown or Kilbirnie. [Refer to further submission for full reason]</p>	Disallow / Seeks that the walking catchment from the Johnsonville Metropolitan Centre Zone is amended to 5 minutes (400m) from the edge of the Metropolitan Zone.
Roland Sapsford	FS117.6	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	The proposal to extend walking catchments is opposed. In contrast, Auckland Transport has developed a PT assessment standard based on suitable public transport criteria and under their criteria, the Onehunga Line is assessed as Nnot being Rapid Transit under the NPS-UD. Applying these same criteria to the Johnsonville Line would also find it is not Rapid Transit. Further, the WCC has also failed to use a PT assessment standard based on suitable public transport criteria to assess whether Johnsonville Line Stations are Rapid Transit Stops under the NPS-UD. Therefore any claim that Johnsonville Line Stations are Rapid Transit Stops is also invalid. [Refer to further submission for full reason]</p>	Disallow / Retain Johnsonville Line as notified (Not considered Rapid Transit).
Johnsonville Community Association Inc	FS114.35	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>Considers that by deciding on 10 Minutes as the size of the Walking Catchment as measured from the edge of the Metropolitan MDRZ under the NPS-UD, the WCC officers are claiming Johnsonville residents within 15 minutes walking to facilities should be in the MDRZ and permitted for high density housing.</p> <p>Considers that the Johnsonville Walking Report report does not provide any evidence or justification that the residential areas beyond the Johnsonville MDRA 10 Minute Walking Catchment are now walking accessible when they were excluded from the WCC’s own analysis in 2013. In its submission to the 2021 WCC Spatial Plan, the JCA requested the proposed MDRZ walking catchment be reduced from 10 minutes to 5 minutes from the edge of the Metropolitan Business Zone for this reason. This is based on a correct and complete application of the MfE Guidance on setting the Walking Catchments and on the WCC’s previous evidence to the Environment Court that the current MDRA is the 10 Minute Walking Catchment for Johnsonville. Finally, when the council reduced the CBD walking catchment to 10 minutes from the CBD boundary, it retained the 10 minutes catchment for Johnsonville. Considers that this ignores MfE Guidance that “the centre’s size can also affect the size of the catchment”. Johnsonville is small for a Suburban Centre with a less employment than other “lesser” suburbs such as Newtown or Kilbirnie. [Refer to further submission for full reason]</p>	Disallow / Seeks that the walking catchment from the Johnsonville Metropolitan Centre Zone is amended to 5 minutes (400m) from the edge of the Metropolitan Zone.
Roland Sapsford	FS117.7	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>The submission to extend the HRZ across the urban environment is opposed. This would cause widespread impacts on existing communities and is unwarranted as sufficient capacity has been created for needed housing.</p>	Disallow

Elayna Chhiba	FS131.39	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Supports increasing walking catchments around the City Centre Zone for the following reasons:</p> <ul style="list-style-type: none"> - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Additionally, less reliance on private vehicles increases overall health. - Higher density housing will support providing liveable cities for future Wellingtonians. The NPS-UD and the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act provides for greater density. <p>[See original Further Submission for full reasoning].</p>	Allow
Escape Investments Limited	FS136.13	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning more people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Escape Investments Limited	FS136.67	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning more people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow
Rod Bray	FS137.16	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. A larger catchment would provide attractive and affordable housing closer to the city centre, away from outer suburbs where people are likely to use cars as their main means of transportation. A 15-minute walkable catchment would promote growth in areas close to the city centre and encourage a shift to more environmentally friendly modes of transportation.</p> <p>WCC should use a 15 minute walkable catchment to fall in line with the NPS-UD to increase housing supply. It is not unreasonable to expect that a large portion of residents who live a 15 minute walk away from the city centre would choose to walk as their main mode of commute. WCC should take full advantage of the NPS-UD standards by increasing the walkable catchment to 15 minutes, which will provide many benefits to Wellington city.</p> <p>[Refer to further submission for full reason]</p>	Allow
Kāinga Ora Homes and Communities	391.42	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	<p>Considers that additional height and density should be provided for within a walkable catchment of centres to enable more intensification in areas of high accessibility to key centre.</p>	<p>Amend walkable catchments to provide additional height and density within a walkable catchment of centres to enable more intensification in areas of high accessibility to key centre, including:</p> <ul style="list-style-type: none"> - At least 12 storeys within a 400m walkable catchment of the City Centre Zone and at least 8 storeys within a 800m walkable catchment - At least 10 storeys within a 400m walkable catchment of the Metropolitan Centre Zone. - At least 8 storeys within a 400m walkable catchment of Town Centre Zones.

Johnsonville Community Association Inc	FS114.24	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>The NPS-UD definition states that Rapid Transit Services must be “frequent” and this definition therefore excludes PT services that are not frequent from being classified as Rapid Transit Services.</p> <p>Considers that Greater Wellington Regional Council (GWRC) has incorrectly assessed the Johnsonville Line is a Rapid transit Service because they used a one line statement in the One Network Framework (ONF) drafted by the Road Efficiency Group and published by Waka Katohi.</p> <p>In contrast to the NPS-UD, the ONF definition also classifies passenger rail services that are not frequent as Rapid Transit which is incorrect. The Johnsonville Line is not a frequent service (mostly 2 services/hour) and therefore cannot be classified as a Rapid Transit Service.</p> <p>Considers the One Network Framework is not able tool for this assessment - as confirmed in writing by the Waka Katohi One Network Framework Programme Manager. In contrast, Auckland Transport has developed a PT assessment standard based on suitable public transport criteria and under their criteria, the Onehunga Line is assessed as Nnot being Rapid Transit under the NPS-UD. Applying these same criteria to the Johnsonville Line would also find it is not Rapid Transit. Further, the WCC has also failed to use a PT assessment standard based on suitable public transport criteria to assess whether Johnsonville Line Stations are Rapid Transit Stops under the NPS-UD. Therefore any claim that Johnsonville Line Stations are Rapid Transit Stops is also invalid. [Refer to further submission for full reason]</p>	Disallow / Retain Johnsonville Line as notified (Not considered Rapid Transit).
KiwiRail Holdings Limited	408.20	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	<p>Considers that the Proposed Plan should recognise rail as a qualifying matter. KiwiRail seeks that the railway corridor be identified as a qualifying matter and be applied to impose building setback requirements from the rail boundary as it is critical that the Proposed Plan provides for adequate management of the interface between urban development and lawfully established, critical infrastructure, such as the railway network. This is necessary to ensure our communities are built in healthy living environments, and the railway network can operate and develop in the future without constraint. An integrated and proactive approach to planning is critical to support the overall vision of our urban environments, and to ensure that our transport network can support the increasing growth and housing intensification.</p>	<p>Seeks that the rail corridor be identified as a qualifying matter to incorporate provisions which are necessary for the safe and efficient operation of the rail corridor. Specifically, this qualifying matter needs to be applied in the Proposed Plan to require a "no-build" setback within 5m of the railway corridor for new buildings or structures in all relevant zones adjacent to the railway.</p>

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
				<p>The nature of railway operations means KiwiRail cannot fully internalise all its effects within the railway corridor boundaries. Environmental legislation and caselaw recognises the lawful emission of such effects. Increasing development around railway corridors consequentially means the introduction of more sensitive receivers to adverse effects of existing and lawful railway activities. With a likely increase in sensitive activities forecast to locate in proximity to the railway corridor as a result of the Amendment Act, KiwiRail is concerned that without appropriate planning measures in place at a territorial level, the risk of adverse health and amenity effects impacting people locating in proximity to the railway corridor, and reverse sensitivity effects constraining our operations is significantly elevated.</p> <p>For this reason, it is essential that the Proposed Plan appropriately manages the development of new sensitive activities in proximity to the railway corridor.</p> <p>The two primary ways which KiwiRail seeks to manage this interface is through the inclusion of the following controls in district plans:</p> <p>a. noise and vibration controls – requiring acoustic insulation and ventilation to be installed in new (or altered) sensitive uses within 100m of the railway corridor. Within 60m of the railway corridor, controls are sought that buildings containing new (or altered) sensitive uses are constructed to manage the impacts of vibration. These controls are important to ensure new development is undertaken in a way that achieves a healthy living environment for people locating within proximity to the railway corridor, minimising the potential for complaints about the effects of the railway network; and</p> <p>b. boundary setbacks – requiring a "no-build" setback within 5m of the railway corridor for new buildings or structures on sites adjoining the railway corridor. This is to ensure that people can use and maintain their land and buildings safely without needing to extend out into the railway corridor, minimising the risks of physical interference on railway operations and health and safety hazards on these residents.</p>	
Onslow Residents Community Association	FS80.46	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports the rail corridor being identified as a qualifying matter to incorporate provisions which are necessary for the safe and efficient operation of the rail corridor. Considers that, specifically, this qualifying matter needs to be applied in the Proposed Plan to require a "no-build" setback within 5m of the railway corridor for new buildings or structures in all relevant zones adjacent to the railway.	Allow / Seeks to incorporate changes as outlined by the submitter.
Kāinga Ora – Homes and Communities	FS89.29	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Direction Instruments General	Oppose	Kāinga Ora opposes the requested 5m setback; a considerably reduced set back would provide adequate space for maintenance activities within sites adjacent to the rail network. In doing so, it will continue to protect the safe, efficient, and effective operation of the rail infrastructure while balancing the cost on landowners.	Disallow
KiwiRail Holdings Limited	408.21	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support in part	Supports urban development, including around transport nodes, and recognises the benefits of co-locating housing near transport corridors.	Not specified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Emma Osborne	410.4	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Supports larger walking catchments for intensification around centres.	Seeks that walking catchments around centres are increased. [Inferred decision requested].
Ann Mallinson	FS3.16	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. In particular the weather and wind conditions on Oriental Parade often make walking difficult for residents.	Disallow
Helen Foot	FS62.18	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Oriental Bay residents given exposed wind and weather conditions.	Disallow
Elayna Chhiba	FS131.26	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports increasing walking catchments around the City Centre Zone for the following reasons: <ul style="list-style-type: none"> - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Additionally, less reliance on private vehicles increases overall health. - Higher density housing will support providing liveable cities for future Wellingtonians. The NPS-UD and the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act provides for greater density. [See original Further Submission for full reasoning].	Allow

Escape Investments Limited	FS136.10	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning morfe people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow
Escape Investments Limited	FS136.54	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning morfe people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Rod Bray	FS137.13	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. A larger catchment would provide attractive and affordable housing closer to the city centre, away from outer suburbs where people are likely to use cars as their main means of transportation. A 15-minute walkable catchment would promote growth in areas close to the city centre and encourage a shift to more environmentally friendly modes of transportation.</p> <p>WCC should use a 15 minute walkable catchment to fall in line with the NPS-UD to increase housing supply. It is not unreasonable to expect that a large portion of residents who live a 15 minute walk away from the city centre would choose to walk as their main mode of commute. WCC should take full advantage of the NPS-UD standards by increasing the walkable catchment to 15 minutes, which will provide many benefits to Wellington city. [Refer to further submission for full reason]</p>	Allow
Emma Osborne	410.5	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Supports larger walking catchments for intensification around mass transit hubs.	<p>Seeks that walking catchments around mass transit hubs are increased.</p> <p>[Inferred decision requested].</p>
Ann Mallinson	FS3.17	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. In particular the weather and wind conditions on Oriental Parade often make walking difficult for residents.	Disallow
Helen Foot	FS62.19	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Oriental Bay residents given exposed wind and weather conditions.	Disallow

Wellington's Character Charitable Trust	FS82.46	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
LIVE WELLington	FS96.80	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>We oppose the submission of Cameron Vannisselroy, Conor Hill, Generation Zero, Jonathan Markwick, Kainga Ora, Paihikara Ki Poneke Cycle Wellington, Property Council New Zealand, Te Tūāpapa Kura Kāinga Ministry of Housing and Urban Development, VicLabour, Waka Kotahi, WCC Environmental Reference Group.</p> <p>10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.</p>	Disallow
Living Streets Aotearoa	FS130.8	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Walk catchments at 15 minutes are already in excess of that required. A walk catchment of 10 minutes is sufficient and is more equitable to the broad and varied range of people with different needs and abilities in a community. Walk catchments are intended as a planning tool for access to specific destinations such as a public transport stop. They are not intended as a general tool to an 'inner city' zone which may not have any of the everyday services needed, for instance access to a fresh food outlet. 10 minutes walk at an average speed is slightly less than one kilometre for a fit healthy adult. It does not encompass all the community and says nothing about the amenity, service levels or attractiveness of the walk environment. Research shows that a best practice environment (such as following all the requirements in the NZ Pedestrian Planning and Design Guide/ Pedestrian Network Guidance) makes it easier for most people to walk further. A walkable catchment does not of itself provide this. Other provision to ensure this best practice must be embedded in the PDP.	Disallow / Seeks that the walkable catchment is retained at 15 minutes or reduced to a more equitable 10 minutes.

Rachel Leilani	FS132.3	Support	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	<p>Considers that a 15 minute catchment around the central city should be reinstated, particularly parts of Newtown which were included in the original 15 minute catchment are no longer included in the 10 minute catchment.</p> <p>As the Wellington Regional Hospital is located in Newtown, including Newtown in the walkable catchment for high density residential zoning is needed to provide affordable housing options for Wellington Hospital staff. Currently, the lack of housing, affordable housing and rentals are pushing Wellington Hospital workers out of Wellington City. If we want to retain our essential workers we must provide affordable housing within a walkable distance to their places of work. Without housing close to the city, people will not be willing to work in the city and will leave Wellington for other opportunities. A 10 minute catchment will not provide enough housing to ensure that our city has enough supply at an affordable level. These changes will impact future generations and it is important to make the correct decision now. Without affordable housing close to the city, we will lose the essential workers, creative artists, and young families who contribute to the quintessential Wellington City culture. Reinstating a 15 minute catchment will allow for enough supply to provide for affordable housing. A 15 minute catchment will let us essential workers keep hope for housing options close to work and will keep our city liveable and attainable.</p>	Allow

Ian Attwood	FS16.2	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	The constraints of scheduling seem contrary to the intent of the NPS-UD.	Allow / Seeks that 28 Robieson Street be wholly removed from Schedule 1 'Heritage Buildings'.
Willis Bond and Company Limited	416.10	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	The National Policy Statement on Urban Development 2020 (NPS-UD) requires district plans to enable building heights of at least 6 storeys within at least a walkable catchment of the edge of metropolitan centre zones (Policy 3(c)).	Opposes that the areas surrounding the Kilbirnie Metropolitan Centre Zone are not included within the High Density Residential Zone (in a similar way to the inclusion of areas surrounding the Johnsonville Metropolitan Centre Zone and within Newtown).
Willis Bond and Company Limited	416.11	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	The National Policy Statement on Urban Development 2020 (NPS-UD) requires district plans to enable building heights of at least 6 storeys within at least a walkable catchment of the edge of metropolitan centre zones (Policy 3(c)).	Seeks that the areas surrounding the Kilbirnie Metropolitan Centre Zone be included within the High Density Residential Zone (in a similar way to the inclusion of areas surrounding the Johnsonville Metropolitan Centre Zone and within Newtown).
Penny Griffith	418.4	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports walking catchments being 10 minutes. Considers that this makes good practical sense for Wellington's topography, particularly around the CBD.	Retain Walking Catchments as notified (At 10 minutes).
Elayna Chhiba	FS131.8	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Opposes decreasing walking catchments to 10 minutes or below for the following reasons: - Housing supply, affordability, and the survival of youth in Wellington. - Trying to enter the housing market as a youth is becoming an unattainable dream and youth may choose to leave the city. - The capacity for intensification shrinks with reduced walking catchments. - Liveable cities will not be delivered with smaller walking catchments. - A range of homes are needed in places where people want to work and play, youth must not be priced out of prime city locations. [See original Further Submission for full reasoning].	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Rachel Leilani	FS132.5	Oppose	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	<p>Considers that a 15 minute catchment around the central city should be reinstated, particularly parts of Newtown which were included in the original 15 minute catchment are no longer included in the 10 minute catchment.</p> <p>As the Wellington Regional Hospital is located in Newtown, including Newtown in the walkable catchment for high density residential zoning is needed to provide affordable housing options for Wellington Hospital staff. Currently, the lack of housing, affordable housing and rentals are pushing Wellington Hospital workers out of Wellington City. If we want to retain our essential workers we must provide affordable housing within a walkable distance to their places of work. Without housing close to the city, people will not be willing to work in the city and will leave Wellington for other opportunities. A 10 minute catchment will not provide enough housing to ensure that our city has enough supply at an affordable level. These changes will impact future generations and it is important to make the correct decision now. Without affordable housing close to the city, we will lose the essential workers, creative artists, and young families who contribute to the quintessential Wellington City culture. Reinstating a 15 minute catchment will allow for enough supply to provide for affordable housing. A 15 minute catchment will let us essential workers keep hope for housing options close to work and will keep our city liveable and attainable.</p>	Disallow
Escape Investments Limited	FS136.35	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>The submitter opposes the original submission to keep walking catchments at 10 minutes for the following reasons:</p> <ul style="list-style-type: none"> - This is not within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning morfe people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Disallow

Luke Stewart	422.2	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Not specified	Supports larger walking catchments for intensification around mass transit hubs.	<p>Seeks that walking catchments around mass transit hubs are increased.</p> <p>[Inferred decision requested].</p>
Luke Stewart	422.3	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the plan should enable larger more comprehensive developments in centres.	Seeks that Medium Density Residential Zone height limits are increased in the 15 minute walking catchments to rail stations.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	FS82.17	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers submissions are inconsistent with NPS-UD requirements; and no justification for enabling more intensive development in the MDRZ or around rail stations.	Disallow
LIVE WELLington	FS96.54	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Luke Stewart, Matthew Reweti, Miriam Moore, Patrick Wilkes, Svend Hansen — seeks that MDRZ height limits are increased in the 15 minute walking catchments around all rail stations. Opposed where this is inconsistent with NPS-UD requirements	Disallow
Paul Gregory Rutherford	424.11	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that Wellingtons livability, character and heritage can be protected at the same time as new housing is added. [See original submission for full reasons]	Seeks that the interpretation of 'Character' takes a comprehensive, holistic definition of character as a qualifying matter.
Johnsonville Community Association	429.17	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Considers that all international best-practice points to more and higher density residential developments within walking distance of the city. This should be expanded in Wellington to allow the highest possible residential intensity in areas within a 10-minute walking distance of the city's two biggest employers, Wellington Hospital (Newtown) and Victoria University (Kelburn campus).	Seeks that there are building heights of at least 6 storeys within a 10 minute walkable catchment of Wellington Hospital.
Johnsonville Community Association	429.18	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Considers that all international best-practice points to more and higher density residential developments within walking distance of the city. This should be expanded in Wellington to allow the highest possible residential intensity in areas within a 10-minute walking distance of the city's two biggest employers, Wellington Hospital (Newtown) and Victoria University (Kelburn campus).	Seeks the highest possible residential intensity in areas within a 10 minute walking distance of the City's two biggest employers, Wellington Hospital (Newtown) and Victoria University (Kelburn Campus).
Johnsonville Community Association	429.19	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	GWRC does not hold any specific criteria for MRT services under which the Johnsonville Line would be deemed "Mass Rapid Transit" The NPS-UD says that for a public transport service to be rapid transit, it must be "frequent". However the One Network Framework (ONF) directly contradicts the NPS-UD definition when it states that all metro rail lines are rapid transit "irrespective of frequency". Auckland Council haven't used this framework resulting in the Onehunga Line not being defined as rapid transit under their transport plan. On this basis the Johnsonville Line would also not be deemed rapid transit if it were in Auckland or in any other country in the world. It's not rapid transit and any claim it is, is simply a lie based on no evidence. [See original submission pages 13 - 16 for full reason]	Seeks that WCC asks the Greater Wellington Regional Council to review its use of the One Network Framework as the basis for determining which public transport services are rapid transit under the NPS-UD.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Johnsonville Community Association	429.20	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	[No specific reason given beyond decision requested]	Retain Johnsonville Line as notified (Not considered Rapid Transit).
Johnsonville Community Association	429.21	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Not specified	<p>Considers that expanding the Johnsonville MDRZ Walking catchment is not justified.</p> <p>The draft District Plan ignored the Medium Density Residential Area walking catchment in favour of a larger 10 Minute Walking Catchment in the MDRZ based on "Sophisticated computer modelling analysis"</p> <p>The MDRA based walking catchment on the Johnsonville Triangle of Moorefield Road, Broderick Road, and Johnsonville Road. Where as NPS-UD requires walkable catchment from edge of Johnsonville Metropolitan Centre Zone. But this still doesn't answer why the walking catchment is not 5 minutes walking from the edge, which better aligns with 10 minute walking from "Local facilities".</p> <p>Considers that the Proposed District Plan ignored NPS-UD direction in provision 5.5.3.</p> <p>[See original submission for full reason]</p>	Not specified.
Johnsonville Community Association	429.22	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	<p>Considers that Johnsonville, despite being much smaller than the CBD, has the same size catchment.</p> <p>MfE Guidance says that the centres size can also affect the size of the catchment.</p> <p>The catchment is effectively 15 minutes to the actual facilities in the MCZ because there aren't many facilities at the edge of the MCZ. A 5 minute walking catchment from edge of MCZ is more in line with the 10 minute walking catchment to the facilities.</p> <p>[See original submission for full reason]</p>	Seeks that the walking catchment from the Johnsonville Metropolitan Centre Zone is amended to 5 minutes.
Johnsonville Community Association	429.23	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Considers that Johnsonville Line stations are not rapid transit.</p> <p>The Johnsonville Line is not fast, infrequent and not high capacity.</p> <p>[See original submission for full reason]</p>	Retain Johnsonville Line as notified (Not considered Rapid Transit).
Garvin Wong	432.2	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that Character Precincts should not be a qualifying matter to give property owners the flexibility to upgrade/rebuild houses without needing resource consents.	Seeks that Character Precincts be removed from qualifying matters.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Thorndon Residents' Association Inc	FS69.38	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	WCC Summary reads: Considers that Character Precincts should not be a qualifying matter. Seeks that the extent of Character Precincts be amended to remove properties in Thorndon.	Disallow
Wellington's Character Charitable Trust	FS82.56	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers Thorndon character precincts protect significant heritage and character values.	Disallow
Miriam Moore	433.7	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the walking catchment should be increased to 15 minutes for all train stops. All stops on the Kāpiti Line should be 15 minutes to keep the line consistent with the stops outside of the Wellington jurisdiction.	Seeks to increase walking catchments to 15 minutes for all train stops.
Miriam Moore	433.8	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the walking catchment should be increased to 15 minutes around the City Centre Zone. Notes that Wellington is known for high active transport and a walking time of 15 minutes is appropriate for this zone.	Seeks to increase walking catchments to 15 minutes around the City Centre Zone.
Elayna Chhiba	FS131.1	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports increasing walking catchments around the City Centre Zone for the following reasons: <ul style="list-style-type: none"> - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Additionally, less reliance on private vehicles increases overall health. - Higher density housing will support providing liveable cities for future Wellingtonians. The NPS-UD and the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act provides for greater density. <p>[See original Further Submission for full reasoning].</p>	Allow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Miriam Moore	433.9	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the walking catchment should be increased to 15 minutes around the Metropolitan Centre Zones. Notes that Wellington is known for high active transport and a walking time of 15 minutes is appropriate for this zone.	Seeks to increase walking catchments to 15 minutes around the Metropolitan Centre Zone.
Miriam Moore	433.10	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the Johnsonville Line should be reinstated as a MRT route. While acknowledging it is not as fast as the bus, train travel is more appealing to many users (particularly given its better accessibility for families, wheelchairs, pushchairs and bikes to use it). More housing along more accessible routes is essential in Wellington where terrain is a constant challenge to accessibility. Public transport users are likely to walk further for trains, and having an efficient bus service as a faster option should not lessen a train line's suitability as an MRT line, but enhance it.	Seeks to include the Johnsonville line as a Mass Rapid Transit route.
Anna Kemble Welch	434.5	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support in part	Supports the Council using character as a Qualifying Matter to modify the permitted building heights and other matters that would be required under the NPS-UD 2020 or the MDRS.	Retain Character as a Qualifying Matter in the Medium Density Residential Zone chapter.
Michelle Rush	436.9	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the Johnsonville Line should be identified as a rapid transit line. It is noted the line is noted as such in the GWRC Regional Land Transport Plan, fits well within the definition of rapid transit in the NPS-UD, and has many areas along it that could be densified. These suburbs have a high level of servicing with amenities, facilities and services within walking distance of the train catchment. If WCC is to meet its carbon reduction targets; reduce congestion; improve liveability through enabling more people to live in suburbs with high levels of amenities, it is essential the Johnsonville Rail Line is recognised as a high capacity route that meets 'rapid' transit criterium. The line runs at 12 minutes at peak times, and has capacity to increase this frequency into the future through the addition of further loops.	Seeks that the Johnsonville Line should be classified as a Mass Rapid Transit Line.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Michelle Rush	436.10	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that rapid transit stops provisions in the plan should be amended to clarify which stations are rapid transit stops and include stops missing from the Johnsonville Line and Kapiti Line. The Kaiwharawhara station should be included in the Kapiti Line, as whilst currently unused, the NPS-UD references future transport routes as well as current. This station, which could be easily reinstated, is in an area increasingly important for both commercial and industrial activities, and housing.	<p>Seeks that all rapid transit stops in Wellington be explicitly stated to users as follows:</p> <p>The following stations on the Kapiti Line are rapid transit stops:</p> <ul style="list-style-type: none"> • Wellington Station • Kaiwharawhara Station* currently in abeyance • Takapu Road Station • Redwood Station • Tawa Station • Linden Station • Kenepuru Station <p>The following stations on the Johnsonville Line are rapid transit stops:</p> <ul style="list-style-type: none"> • Crofton Downs Station • Ngaio Station • Awarua Street Station • Simla Crescent Station • Box Hill Station • Khandallah Station • Raroa Station • Johnsonville Station <p>The following station on the Hutt/Melling Line is a rapid transit stop:</p> <ul style="list-style-type: none"> • Ngauranga Station.
Newtown Residents' Association	440.9	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that walking catchments should be further reduced. In particular the zoning of several blocks around the Newtown suburban centre for heights of up to 21m seems unnecessary and counter productive to maintaining a well functioning urban environment.	Seeks that walking catchments are reduced.
Newtown Residents' Association	440.10	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the damaging environmental effects of high rise developments in established low rise communities should be considered a 'qualifying matter' for modifying building heights and encouraging retention and adaptation of existing housing stock, under NPS-UD clause 3.32 (1) (h). (Option A)	Seeks that negative environmental effects of high rise development be considered a Qualifying matter under the NPS-UD.
Chrissie Potter	446.1	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Not specified	Supports that Character and Heritage are noted as qualifying matters under the RZ Pt1 Sch1 "height or density directed by the NPS-UD may be modified by qualifying matters".	Seeks that particular focus is taken to ensure that the district plan appropriately considers the transition from a residential area (MRZ) to the City Centre Zone, especially on a street like Moir St where the District Plan seeks to protect the heritage and character values.

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Dorothy Thompson	449.1	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Not specified	Supports that Character and Heritage are noted as qualifying matters under the RZ Pt1 Sch1 "height or density directed by the NPS-UD may be modified by qualifying matters".	Seeks that particular focus is taken to ensure that the district plan appropriately considers the transition from a residential area (Medium Density Residential Zone) to the City Centre Zone, especially on a street like Moir St where the District Plan seeks to protect the heritage and character values.
John Wilson	453.6	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Opposes the provisions in the Plan applying to the "Johnsonville Metropolitan Centre Zone" and also to the "Kenepuru and Tawa railway stations Zone/Zones".	Not specified.
John Wilson	453.7	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the extent of the zones should be clearly defined, e.g. by lines on a map. If defined by distance from the centre point, this should be defined in terms of distance from the centre point. Not in terms of time eg say five or ten minutes walk from the centre of the zone as this requires a subjective interpretation of how far and how fast a typical pedestrian could walk.	Seeks to clarify how zones are defined in terms of distance from the centre point compared to time in minutes walked. [Inferred decision requested]
John Wilson	453.8	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Not specified	Further clarification is requested of Rapid Transport lines/stops. Questions why other railway stations not included, say Redwood or Takapu Road or Linden or even perhaps other stations on the Johnsonville Line or Ngauranga railway station.	Seeks to clarify what railway stops are considered Rapid Transport. [Inferred decision requested]
Anita Gude and Simon Terry	461.16	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the NPS-UD is divorced from actual need because it requires councils to deliver a great deal of new development capacity all at once above the amount required at the time. This includes raising height limits irrespective of need. [See original submission for full reasons]	Seeks that the Council devises a series of Qualifying Matters that filter NPS-UD requirements through prioritising multiple attributes of the urban environment that the community wants to retain, including holding height limits at a level the community seeks for each suburb or area.
Rachel Leilani	464.2	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the smaller 10 minute walkable catchment from the city centre from the draft District Plan would have no benefits and shift development to less well-suited areas.	Amend the walkable catchment to a 15 minute walkable catchment (rather than the current 10 minute catchment).

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Escape Investments Limited	FS136.80	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>The submitter supports the original submission to increase walking catchments to 15 minutes for the following reasons:</p> <ul style="list-style-type: none"> - Keep within the objectives of the NPS-UD. - The decision to revert to the 10-minute walking catchment removed just about every property in Oriental Bay from the High Density Residential Zone and therefore restricted the supply new housing in Oriental Bay. - Oriental Bay has a projection for high population growth, the High Density zoning would allow the suburb to grow and change to keep up with demand. - Oriental Bay is close to the City and 63% of residents commute by walking or cycling, supporting the requested High Density Residential Zone that comes from increasing the walking catchments. - Other Councils, including Auckland Council, have adopted a 15-minute walking catchment around city centres. - The government requires that walking catchments should only be constrained when there is good reason to, the submitter disagrees that there is good reason. - The 10-minute walkable catchment does not support the compact city goal as housing supply around the city centre will be constrained meaning morfe people will move to outer suburbs. <p>[See original Further Submission for full reasoning].</p>	Allow
Rod Bray	FS137.29	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	<p>Supports 15 minute walkable catchments around Wellington CBD as it would sufficiently utilise the provisions of the NPS-UD and provide a number of benefits to Wellington, including environmentally friendly outcomes and housing affordability. A 10 minute walkable catchment would not encapsulate all those who are likely to walk into the city centre. Increasing the walkable catchment to 15 minutes is amply evidenced as being achievable and indeed desirable in Auckland, and would encourage peoples' inclination to walking. A larger catchment would provide attractive and affordable housing closer to the city centre, away from outer suburbs where people are likely to use cars as their main means of transportation. Wellington's Character Charitable Trust	FS82.37	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
LIVE WELLington	FS96.71	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	We oppose the submission of Cameron Vannisselroy, Conor Hill, Generation Zero, Jonathan Markwick, Kainga Ora, Paihikara Ki Poneke Cycle Wellington, Property Council New Zealand, Te Tūāpapa Kura Kāinga Ministry of Housing and Urban Development, VicLabour, Waka Kotahi, WCC Environmental Reference Group. 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
Living Streets Aotearoa	FS130.5	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Walk catchments at 15 minutes are already in excess of that required. A walk catchment of 10 minutes is sufficient and is more equitable to the broad and varied range of people with different needs and abilities in a community. Walk catchments are intended as a planning tool for access to specific destinations such as a public transport stop. They are not intended as a general tool to an 'inner city' zone which may not have any of the everyday services needed, for instance access to a fresh food outlet. 10 minutes walk at an average speed is slightly less than one kilometre for a fit healthy adult. It does not encompass all the community and says nothing about the amenity, service levels or attractiveness of the walk environment. Research shows that a best practice environment (such as following all the requirements in the NZ Pedestrian Planning and Design Guide/ Pedestrian Network Guidance) makes it easier for most people to walk further. A walkable catchment does not of itself provide this. Other provision to ensure this best practice must be embedded in the PDP.	Disallow / Seeks that the walkable catchment is retained at 15 minutes or reduced to a more equitable 10 minutes.
Elayna Chhiba	FS131.12	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Support	Supports increasing walking catchments around the City Centre Zone for the following reasons: <ul style="list-style-type: none"> - Benefits to housing supply, affordable housing, and the climate. - Larger walking catchments will make it easier for younger people to rent and buy housing. - A larger walking catchment will mean people will have greater opportunities to live, work, and play in their city centres. - Social equity increases when density increases; higher density housing can offer a greater variety of housing options, making housing more affordable. - A larger walking catchment will enable people to live closer to the City Centre which will reduce reliance on private vehicle use which will reduce carbon emissions. Additionally, less reliance on private vehicles increases overall health. - Higher density housing will support providing liveable cities for future Wellingtonians. The NPS-UD and the Resource Management (Enabling Housing Supply and Other Matters) Amendment Act provides for greater density. [See original Further Submission for full reasoning].	Allow

In particular the weather and wind conditions on Oriental Parade often make walking difficult for residents.	Disallow
Helen Foot	FS62.32	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Oriental Bay residents given exposed wind and weather conditions.	Disallow
Wellington's Character Charitable Trust	FS82.38	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
LIVE WELLington	FS96.72	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>We oppose the submission of Cameron Vannisselroy, Conor Hill, Generation Zero, Jonathan Markwick, Kainga Ora, Paihikara Ki Pōneke Cycle Wellington, Property Council New Zealand, Te Tūāpapa Kura Kāinga Ministry of Housing and Urban Development, VicLabour, Waka Kotahi, WCC Environmental Reference Group.</p> <p>10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.</p>	Disallow
Jonathan Markwick	490.10	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Supports the NPS-UD 15 minute walkable catchment around the city centre.	Seeks that the walkable catchment around the city centre is increased to 15 minutes.
Ann Mallinson	FS3.31	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture. In particular the weather and wind conditions on Oriental Parade often make walking difficult for residents.	Disallow
Pukepuke Pari Residents Incorporated	FS37.23	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	<p>Considers that qualifying matters exist under s.77L and s.77R of the RMA relating to the specific characteristics of Hay St. Submitters repeats comments made above in relation to Property Council re their opposition to extension of the walkable catchment.</p> <p>Considers that a limit of 10 mins on the walkable catchment is appropriate for Wellington and what is realistic for people to walk given the unusually windy weather and steep topography of Wellington. People's propensity to walk diminishes with distance. Particularly relevant if the catchment was increased to 15 minutes and the last 5 minutes was up a steep hill (as would be the case for eg in Hay Street).</p>	Disallow
Gareth and Joanne Morgan	FS38.21	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Opposes those parts of Jonathan Markwick's submission that seeks to extend the walkable catchment above 10 minutes.	Disallow
Helen Foot	FS62.33	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	10 minutes is an appropriate walkable catchment for Oriental Bay residents given exposed wind and weather conditions.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Wellington's Character Charitable Trust	FS82.39	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
Don MacKay	FS94.23	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers that qualifying matters exist under s.77L and s.77R of the RMA relating to the specific characteristics of Wilkinson Street, particularly its steepness, narrowness, and potentially hazardous nature which make high density intensification inappropriate. Also Don MacKay repeat comments made above in relation to Property Council re their opposition to extension of the walkable catchment.	Disallow
LIVE WELLington	FS96.73	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	We oppose the submission of Cameron Vannisselroy, Conor Hill, Generation Zero, Jonathan Markwick, Kainga Ora, Paihikara Ki Poneke Cycle Wellington, Property Council New Zealand, Te Tūāpapa Kura Kāinga Ministry of Housing and Urban Development, VicLabour, Waka Kotahi, WCC Environmental Reference Group. 10 minutes is an appropriate walkable catchment for Wellington's demographics, topography, climate and culture.	Disallow
Jonathan Markwick	490.11	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the Johnsonville Line is Mass Rapid Transit under the NPS-UD	Seeks that the Johnsonville Line is classified as Rapid Transit and accordingly has 6 storey buildings enabled within a walking catchment of its stops.
Wellington's Character Charitable Trust	FS82.8	Part 1 / National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Oppose	Considers improvements to the Johnsonville line may only be taken into account if they are "planned" in a Regional Land Transport Plan (RLTP). Considers there are no such improvements for the Johnsonville line planned in the RLTP. Considers the definition of "planned" in the NPS-UD resolves any circularity in the Johnsonville line not being a rapid transit service. Considers improvements to a transit service must be planned in the RLTP before they are relevant to any upzoning under the NPS-UD. [Refer to original submission - 233]	Disallow
Jonathan Markwick	490.12	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	Considers that the Johnsonville Line is Mass Rapid Transit under the NPS-UD and should enable six storey high density residential zoning within 15 minute walkable catchments. The Johnsonville Line is a fully separated right-of-way, free from congestion. Unlike the LGWM "Mass Rapid Transit" line the Johnsonville line is already in place, and more housing supply should be allowed now.	Seeks that six storey high density residential zoning is allowed within 15 minute walkable catchments on stations along the Johnsonville Line.

Strategic Direction

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Jonathan Markwick	490.13	National Direction Instruments Subpart / National Direction Instruments / National Policy Statements and New Zealand Coastal Policy Statement	Amend	[No specific reason given beyond decision requested - refer to original submission].	Seeks that the 10 or 15 minutes walkable catchments for six storey high density residential zoning be applied for all the Kapiti Line stops, including the entirety of: Taylor Terrace and its side streets; Oxford Street (Tawa); Findlay Street; Handyside Street; Redwood Avenue and McKeefy Grove; Sunrise Boulevard.
Transpower New Zealand Limited	315.38	National Direction Instruments Subpart / National Direction Instruments / National Environmental Standards	Support	Supports reference to the Resource Management (National Environmental Standards for Electricity Transmission Activities) Regulations 2009, noting the NES prevails over the district plan provisions.	Retain the reference to the Resource Management (National Environmental Standards for Electricity Transmission Activities) Regulations 2009.
Alan Fairless	242.10	Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Not specified	Considers that the assessment of housing capacity in Wellington needs to be based on a target of realising at least 50% of the development capacity (as measured under the Operative Plan) on underutilised land over the term of the Draft Plan.	Seeks that the District Plan includes methods to achieve at least 50% of development capacity (as measured under the Operative Plan) on underutilised land over the term of the Draft Plan.
Transpower New Zealand Limited	315.39	Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Support in part	Considers that although required under the National Planning Standards, the exact role of strategic direction and relationship to objectives and policies is not clear in the "Purpose and context of Strategic Direction" section. Transpower supports the guidance as drafted and the specific reference to the lack of a hierarchy. However, Transpower does have concerns with the section relating to plan implementation as it considers the objectives and policies will articulate and give effect to the strategic direction objectives and therefore there is no need to refer back 'up the chain'.	Retain the section, with amendment.
Transpower New Zealand Limited	315.40	Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Amend	Considers that although required under the National Planning Standards, the exact role of strategic direction and relationship to objectives and policies is not clear in the "Purpose and context of Strategic Direction" section. Transpower supports the guidance as drafted and the specific reference to the lack of a hierarchy. However, Transpower does have concerns with the section relating to plan implementation as it considers the objectives and policies will articulate and give effect to the strategic direction objectives and therefore there is no need to refer back 'up the chain'.	Retain the section but reference to plan implementation be removed as follows: ... For the purpose of plan implementation (including the assessment of resource consents and notices of requirement): - The Strategic Objectives may provide guidance on what the objectives and policies in other chapters of the Plan are seeking to achieve. - The relevant objectives and policies of the plan (including Strategic Objectives) are to be considered together, and no fixed hierarchy exists between them. In addition to the specific objectives and policies contained in topic chapters of the Plan relevant Strategic Objectives in this chapter will also need to be assessed for any activity identified as Discretionary or Non-Complying.
Wellington International Airport Limited	FS36.29	Part 2 / Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Support	WIAL supports the clarification provided by this submitters refinements to the Strategic Direction chapter and will ensure it is clear that no hierarchy exists between the Strategic Objectives and the other chapters of the Proposed Plan.	Allow
Hilary Watson	321.10	Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Support	Supports the Strategic Directions chapter.	Retain the Strategic Directions chapter as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Richard Murcott	322.12	Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Oppose	Considers that the strategic directions introduce measures that exceed what is needed in the foreseeable 10 years, as well as unnecessarily over-reach to negatively impact character areas. The recent Housing and Business Land Capacity Assessment (HBA) Update for WCC concluded that there already is sufficient capacity in Wellington's inner-city suburbs to meet the inner-city demand for the next 30 years. The drive to decimate inner city character areas is therefore unwarranted and should be abandoned, especially on the eastern side of the motorway.	Opposes Strategic Directions on the grounds that they over-reach and sacrifice character areas to unnecessarily increase housing capacity in the inner city.
Thorndon Residents' Association Inc	FS69.47	Part 2 / Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Support	[Refer to Full Submission for reasons and examples of residential character of the Hobson precinct of Thorndon].	Allow
Property Council New Zealand	338.5	Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Amend	Considers that the overarching principles of the Plan's Strategic Direction should include urban design. With intensification, it is important that good urban design is not only maintained but supported to thrive. Given the strategic objectives will be an important part of resource consents and plan changes, this will help indicate to the Council's planners and Wellington City developers the importance of good urban design with urban form and development.	Seeks that urban design be included in the Strategic Direction chapter.
The Retirement Villages Association of New Zealand Incorporated	FS126.203	Part 2 / Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Oppose	The RVA oppose the relief sought in this submission as it is inconsistent with The RVA's primary submission.	Disallow
Ryman Healthcare Limited	FS128.203	Part 2 / Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Oppose	Ryman oppose the relief sought in this submission as it is inconsistent with Ryman's primary submission.	Disallow
Woolworths New Zealand	359.7	Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Amend	Strategic Directions should clearly articulate a positive framework for establishing new business zoned land or establishing enabling and flexible planning provisions for commercial activity, specifically supermarkets, across the urban zones.	Seeks that Strategic Directions clearly articulate a positive framework for establishing new business zoned land or establishing enabling and flexible planning provisions for commercial activity, specifically supermarkets, across the urban zones.
Woolworths New Zealand	359.8	Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Amend	Considers that the PDP should err on the side of oversupplying business land; and/or enabling commercial/retail activities in other zones through a consenting pathway. Strategic Directions should clearly articulate a positive framework for establishing new business zoned land or establishing enabling and flexible planning provisions for commercial activity, specifically supermarkets, across the urban zones.	Seeks that the PDP provisionally provide for the oversupply of business land; and/or the enabling of commercial/retail activities in other zones through a consenting pathway.
WCC Environmental Reference Group	377.12	Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Support in part	Generally supportive but consider it is not appropriate to balance environmental and economic matters. Instead, social, cultural and economic needs should be provided for an promoted, within environmental limits.	Not specified.
WCC Environmental Reference Group	377.13	Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Support	Supports the preamble in the Strategic Direction Chapter. Good to have clarity that matters in this section need to be assessed for any activities that are identified as Discretionary or Non-Complying.	Retain and highlight throughout each section with Discretionary or Non-Complying activities.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Investore Property Limited	405.24	Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Support	Generally supports the strategic objectives of the Proposed Plan.	Not specified.
Wellington International Airport Ltd	406.48	Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Amend	<p>Considers that the airport is a lifeline utility operator under CDEM 2002.</p> <p>Wellington Airport serves an important role in facilitating the movement of people and goods, which in turn feeds the region's economy.</p> <p>Wellington Airport makes a significant contribution to the Wellington region's economy.</p> <p>The Airport also facilitates social connectivity and wellbeing.</p> <p>[See original submission for full reason]</p>	Seeks that the Strategic Direction chapter of the Proposed District Plan is amended to require recognition of Wellington Airport.
Board of Airline Representatives of New Zealand Inc *Late further submission accepted as per Minute 3	FS139.35	Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Support	Support WAIL's submission for the reasons set out in WAIL's submission.	Allow
Fabric Property Limited	425.8	Strategic Direction / General point on Strategic Directions / General point on Strategic Directions	Support	<p>Generally supports the strategic objectives of the PDP. In particular, Fabric supports:</p> <p>(a) the centres hierarchy and the recognition of the City Centre as the primary centre for the wider region under CEKP-O2;</p> <p>(b) the 'compact urban form' and emphasis on urban development within the City Centre provided under UFD-O1;</p> <p>(c) the recognition of the need to provide sufficient development capacity for business land under UFD-O5;</p> <p>(d) supporting the creation of 'well-functioning urban environments' under UFD-O7, consistent with the NPSUD.</p> <p>The NPS-UD requires intensification in urban areas and sufficient development capacity that is a form and in locations that meet the diverse needs of communities and encourages well-functioning, liveable urban environments, with the highest levels of density in city centre zones. Fabric supports the strategic direction set by the NPS-UD. The feedback that Fabric provides on the provisions below seeks to ensure that the rules and standards in the Proposed Plan enable this outcome.</p>	Retain Strategic Direction chapter as notified.
Yvonne Weeber	340.5	Strategic Direction / Anga Whakamua Moving into the future / General AW	Support	[General] The Anga Whakamua – Moving into the future chapter is supported.	Retain the 'Anga Whakamua – Moving into the future' chapter as notified.

Guardians of the Bays	452.5	Strategic Direction / Capital City / General CC	Not specified	The submitter is neutral regarding the Strategic Direction provisions in Capital City chapter.	Retain the Capital City Chapter as notified. [Inferred decision requested]
Waka Kotahi	370.48	Strategic Direction / Capital City / CC-01	Support	Supports these strategic objectives as written and notes that these objectives align with the Government Policy Statement on Land Transport 2021/22-2030/31 (GPS)	Retain Strategic Objective CC-01 (Wellington City continues to be the primary economic...) as notified.
Wellington Civic Trust	388.6	Strategic Direction / Capital City / CC-01	Support	Objective CC-01 is generally supported.	Retain Capital City Objective CC-01 as notified.
Kāinga Ora Homes and Communities	391.47	Strategic Direction / Capital City / CC-01	Support	Objective CC-01 is generally supported.	Retain Objective CC-01 (Wellington City continues to be the primary...) as notified.
Willis Bond and Company Limited	416.16	Strategic Direction / Capital City / CC-01	Support	Supports the intent of CC-01.	Retain CC-01 (Wellington City continues to be the primary economic and employment hub...) as notified.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.21	Strategic Direction / Capital City / CC-02	Support	Considers that the Council has correctly identified the residential area of the land as an appropriate location to deliver urban intensification which will build on the existing urban form with quality developments.	Retain CC-02 (Wellington City is a well-functioning Capital City where...) as notified.

Submitter Name	Sub No / Point No	Sub-part / Chapter /Provision	Position	Summary of Submission	Decisions Requested
Retirement Villages Association of New Zealand Incorporated	350.11	Strategic Direction / Capital City / CC-O2	Support in part	Supports CC-O2's provisions for the social, cultural, economic and environmental wellbeing of current and future residents (2), and the delivery of urban intensification in appropriate locations and in a manner that meets the needs of current and future generations (3). Opposes (3) and (6) to the extent those provisions are inconsistent with providing for urban intensification across Wellington City.	Retain CC-O2 (Strategic Objectives) and seeks amendment.
Retirement Villages Association of New Zealand Incorporated	350.12	Strategic Direction / Capital City / CC-O2	Amend	Supports CC-O2's provisions for the social, cultural, economic and environmental wellbeing of current and future residents (2), and the delivery of urban intensification in appropriate locations and in a manner that meets the needs of current and future generations (3). Opposes (3) and (6) to the extent those provisions are inconsistent with providing for urban intensification across Wellington City.	Seeks amendment CC-O2 (Strategic Objectives) so that the wording in (3) and (6) is consistent with providing for urban intensification across Wellington City.
Waka Kotahi	370.49	Strategic Direction / Capital City / CC-O2	Support	Supports these strategic objectives as written and notes that these objectives align with the Government Policy Statement on Land Transport 2021/22-2030/31 (GPS)	Retain Strategic Objective CC-O2 (Wellington City is a well-functioning Capital City...) as notified.
WCC Environmental Reference Group	377.15	Strategic Direction / Capital City / CC-O2	Amend	Considers the phrase "environmental wellbeing" is considered ambiguous.	Amend CC-O2 (Wellington City Council is a well-functioning Capital City where...) as follows: 2. <u>Current and future residents can meet their social, cultural and economic and environmental wellbeing and the environment is protected and enhanced.</u> 5. Innovation and technology advances that support the social, cultural and economic and environmental wellbeing of existing and future residents are promoted <u>and the environment is protected and enhanced.</u>
Argosy Property No. 1 Limited	383.9	Strategic Direction / Capital City / CC-O2	Support	Supports a Wellington City being a well-functioning Capital City where urban intensification is delivered in appropriate locations. Supports recognition that the Wellington CBD is an economic hub and appropriate intensification and development should be enabled to provide for well-functioning urban environments	Retain Objective CC-O2 as notified
Wellington Civic Trust	388.7	Strategic Direction / Capital City / CC-O2	Support	Objective CC-O2 is generally supported.	Retain Capital City Objective CC-O2 as notified.
Taranaki Whānui ki te Upoko o te Ika	389.32	Strategic Direction / Capital City / CC-O2	Support in part	Support CC-O2(3).	Clarify how CC-O2(3) will be implemented.
Taranaki Whānui ki te Upoko o te Ika	389.33	Strategic Direction / Capital City / CC-O2	Amend	Considers that implementation could include better cross-referencing throughout the whole plan back to CC-O2 strategic objective. The primacy, prominence and presence of Taranaki Whānui cultural visibility incorporated in all design and development proposals.	Seeks that the whole plan refers back to CC-O2.
Kāinga Ora Homes and Communities	391.48	Strategic Direction / Capital City / CC-O2	Support in part	Objective CC-O2 is partially supported, and an amendment is sought so the objective is not overly constraining of where urban intensification can occur.	Retain Objective CC-O2 (Wellington City is a well-functioning...) with amendment.
Wellington International Airport Limited	FS36.21	Part 2/Strategic Direction / Capital City / CC-O2	Oppose	WIAL considers that it is appropriate for the objective to qualify that intensification will only occur within "appropriate locations". What is "appropriate" or "inappropriate" is subsequently defined by objectives, policies and overlays identified in the Proposed Plan (such as the Air Noise Boundary).	Disallow
Kāinga Ora Homes and Communities	391.49	Strategic Direction / Capital City / CC-O2	Amend	Considers that Objective CC-O2 is too restrictive of where urban intensification can occur and should be amended.	Amend Objective CC-O2 (Wellington City is a well-functioning...) as follows: Wellington City is a well-functioning Capital City where: ... 4. Urban intensification is delivered in appropriate locations and in a manner that meets the needs of current and future generations. ...
Wellington International Airport Limited	FS36.22	Part 2/Strategic Direction / Capital City / CC-O2	Oppose	WIAL considers that it is appropriate for the objective to qualify that intensification will only occur within "appropriate locations". What is "appropriate" or "inappropriate" is subsequently defined by objectives, policies and overlays identified in the Proposed Plan (such as the Air Noise Boundary).	Disallow
Toka Tū Ake EQC	FS70.49	Part 2 / Strategic Direction / Capital City / CC-O2	Oppose	Urban development and intensification in inappropriate locations could reduce the resilience of a community from natural hazards and the effects of climate change, and reduces the livability and sustainability of cities in the long term. It is important that the WCC proposed plan specifies that urban intensification occur only in appropriate areas.	Disallow
Hilary Watson	FS74.27	Part 2 / Strategic Direction / Capital City / CC-O2	Oppose	Considers that the proposed amendment is contrary to NPS-UD and MDRS. It is common sense that intensification ought to occur in appropriate locations.	Disallow

Submitter Name	Sub No / Point No	Sub-part / Chapter / Provision	Position	Summary of Submission	Decisions Requested
Onslow Residents Community Association	FS80.15	Part 2 / Strategic Direction / Capital City / CC-02	Oppose	Considers an important principle of District Planning is to identify appropriate locations for densification.	Disallow
Wellington's Character Charitable Trust	FS82.111	Part 2 / Strategic Direction / Capital City / CC-02	Oppose	Considers the proposed amendment is contrary to the NPS-UD and MDRS. Considers that it is 'common sense' that intensification ought to occur in appropriate locations.	Disallow
Wellington Heritage Professionals	412.22	Strategic Direction / Capital City / CC-02	Amend	Considers that text from the introduction of the Historic Heritage and Sites and Areas of Significance to Māori chapter should be added to CC-02.	Amend CC-02 as follows: Wellington City is a well-functioning Capital City where: ... 4. Urban intensification is delivered in appropriate locations and in a manner that meets the needs of current and future generations, <u>and recognises that Historic Heritage is a key contributor to the City's vibrancy and sense of place</u>
Wellington Heritage Professionals	412.23	Strategic Direction / Capital City / CC-02	Amend	Considers that wording from elsewhere in the plan should be integrated.	Amend CC-02 as follows: Wellington City is a well-functioning Capital City where: ... 6. Values and characteristics that are an important part of the City's identity and sense of place, <u>including historic heritage, the natural environment and sites and areas of significance to mana whenua, are identified and protected."</u>
Willis Bond and Company Limited	416.17	Strategic Direction / Capital City / CC-02	Support	Supports the intent of CC-02.	Retain CC-02 (Wellington City is a well-functioning Capital City where...) as notified.
Kilmarston Developments Limited and Kilmarston Properties Limited	290.22	Strategic Direction / Capital City / CC-03	Support	Considers that the Council has correctly identified the residential area of the land as an appropriate location to deliver urban intensification which will build on the existing urban form with quality developments.	Retain CC-03 (Development is consistent with and supports the achievement of the strategic city objectives...) as notified.
Waka Kotahi	370.50	Strategic Direction / Capital City / CC-03	Support	Supports these strategic objectives as written and notes that these objectives align with the Government Policy Statement on Land Transport 2021/22-2030/31 (GPS)	Retain Strategic Objective CC-03 (Development is consistent with and supports...) as notified.
Argosy Property No. 1 Limited	383.10	Strategic Direction / Capital City / CC-03	Support	Supports development that is consistent with and supports the achievement of strategic city objectives. Supports recognition that the Wellington CBD is an economic hub and appropriate intensification and development should be enabled to provide for well-functioning urban environments	Retain Objective CC-03 as notified
Wellington Civic Trust	388.8	Strategic Direction / Capital City / CC-03	Support	Objective CC-03 is supported, in particular for its sub-points: CC03-2, a resilient city through good design; CC03-4, with a particular emphasis on comprehensive movement systems and attractive and accessible public spaces and streets; and CC03-05, with the emphasis on a greener city with the natural environment being protected, enhanced and integrated into the City's urban environment.	Retain Capital City Objective CC-03 as notified.
Taranaki Whānui ki te Upoko o te Ika	389.34	Strategic Direction / Capital City / CC-03	Support	Support CC-03 (6).	Clarify how CC-03(6) will be implemented.
Kāinga Ora Homes and Communities	391.50	Strategic Direction / Capital City / CC-03	Support	Objective CC-03 is generally supported.	Retain Objective CC-03 (Development is consistent with and supports...) as notified.
Wellington Heritage Professionals	412.24	Strategic Direction / Capital City / CC-03	Amend	Considers that Wellington's character areas and heritage buildings have been evolving over more than a hundred and fifty years relative to the city's topography, to light and climate and to people's needs and that it is important that new development respects this.	Amend CC-03 as follows:☐ Development is consistent with and supports the achievement of the following strategic city objectives: 1. Compact: Wellington builds on its existing urban form with quality development in the right locations <u>that respect character areas and historic heritage</u> ;
Willis Bond and Company Limited	416.18	Strategic Direction / Capital City / CC-03	Support	Supports the intent of CC-03.	Retain CC-03 (Development is consistent with and supports the achievement...) as notified.
