

Wellington Proposed District Plan

Hearing Stream 1 – ref 142.4

I request this written statement be considered in Stream 1 in lieu of making an oral appearance.

Submission relating to ridgelines

The WCC planning team have been kind enough to do my homework for me by including in the submissions schedule, against my comments, the statement “inferred decision requested”. I wish to confirm it is my request for the value of the ridgelines to be included under the Description of the District.

I view this as important as it would set an appropriate context for my requested changes that will be heard in later hearing streams.
