## City Centre Zone

City Centre Zone

#### P1 Sch1 Introduction

CCZ

The purpose of the City Centre Zone is to enable and reinforce the continued primacy of the Wellington central city area as the principal commercial and employment centre servicing the city and metropolitan region. The City Centre Zone is the commercial heart of Wellington and the wider region and New Zealand's Capital City. It is also a major employment hub for the region and contains a vibrant and diverse mix of inner city living, entertainment, educational, government, parliamentary, civic and commercial activity. Relative to other areas of the city it exhibits a heightened intensity and scale of development.

As well as a diversity of activity, the City Centre Zone contains a variety of environments ranging from high-rise office towers and residential apartments through to distinct heritage areas and buildings, and an array of public and open space, including the waterfront. These combine to give the City Centre Zone a distinctive identity and character.

This distinctiveness is further reinforced by the long established traditional, historical, cultural, and spiritual associations and more recent development interests that the mana whenua of Te Whanganui ā Tara (Wellington), Taranaki Whānui and Ngāti Toa Rangatira, have with many places and sites across the City Centre Zone. Some of the more significant of these include Pipitea Marae and Pā, Kumutoto Kāinga and stream, Te Aro Kainga, Waitangi and Whairepo Lagoons and statutory acknowledgement areas such as the Old Government Buildings and Turnbull House Historic Reserves.

Also centrally located within the City Centre Zone is Te Ngākau Civic Square – a distinct civic precinct that abuts Victoria Street, Wakefield Street, Harris Street and Jervois Quay and acts as a key connector to the city's waterfront. The precinct is entering a phase of transition, with some of its associated civic buildings and assets requiring either earthquake strengthening or redevelopment. In addition to seismic resilience challenges it also faces significant climate and water management related issues including flooding and inundation.

A long-term vision for the Te Ngākau Civic Square Precinct has been developed and approved by the Council, the focus of which is ensuring the precinct becomes a vibrant, safe and inclusive area that enables creative, cultural, civic and arts activities to flourish. <u>The Council and its mana</u> <u>whenua Tākai Here partners will plan the precinct development to realise this vision.</u> The City Centre Zone aligns with this vision by enabling a level of redevelopment to occur that accommodates the range of activities anticipated.

To maximise development capacity to accommodate projected growth, an increase in the scale and intensity of development is enabled across the zone, <u>including through the removal of</u> <u>maximum building heights</u>. This includes building height, density and urban form tailored to align with the outcomes sought by the National Policy Statement – Urban Development (NPS-UD) and to reflect the higher, denser nature of development within the City Centre Zone. To complement this the Zone also contains measures to ensure that buildings and spaces are designed to:

- be of accessible and of a good quality;
- positively contribute to public space and built form of the City Centre;
- offer a suitable level of amenity for users such as access to sunlight and open space;
- provide opportunities for active and passive recreational pursuits; and
- mitigate relevant adverse effects.

To ensure the continued vibrancy and viability of the City Centre Zone a wide range of activities are permitted and encouraged throughout most parts of the Zone. This is supported by measures to manage activities and development that have the potential to adversely affect public and private amenity or to create reverse sensitivity effects, including along the boundary with adjoining residentially zoned areas or identified public space.

In locations where rapid transit investment has been signalled measures have been included to enable opportunities for more intensive, comprehensive development to occur, particularly in areas within a walkable <u>distance catchment</u> of planned rapid transit stops.

CCZ-	Te Ngākau Civic Square Precinct
PREC01	

P1 Sch1 The purpose of the Te Ngākau Civic Square Precinct is to provide for civic activities <u>and</u>, functions, <u>public use</u>, and areas of open space and redevelopment of the precinct while ensuring that any future development respects the special qualities of the area, including the concentration of <u>schedullisted</u> heritage buildings.

The Precinct is Wellington's unique civic place. It is located in the heart of the City Centre and is a destination in itself. It is also an anchor point and gateway that connects the city centre's entertainment area, the waterfront and the Central Business District. Wellington's major civic and entertainment venues are located within the precinct, including the Wellington Town Hall, City Gallery Wellington (Te Whare Toi), Wellington City Library (Te Matapihi), Michael Fowler Centre, Civic Administration Building, Municipal Office Building, and Capital E.

The long-term vision for the precinct is that Te Ngākau is the beating heart of our capital city: a thriving neighbourhood where creativity, culture, democracy, discovery and arts experiences collide on the edge of Te Whānganui-a-Tara.

In particular, the aims of the Te Ngākau Civic Square Precinct are to:

- 1. Ensure that it is a vibrant and welcoming space which supports a range of uses to locate alongside its core civic function;
- 2. Provide a distinctive, safe, inclusive, comfortable and green environment for all users;
- 3. Create a civic space that reflects Wellington's unique culture, architecture, design, heritage and identity, including reflecting mana whenua values;
- 4. Ensure that future buildings and public environments are designed to a high quality; are resilient and sustainable; and complement and connect existing buildings and public spaces within the precinct as well as to the wider urban fabric of the City Centre;
- 5. Enable greater connectivity to surrounding streets and access between the city and waterfront, and to integrate with the wider transport network; and
- 6. Ensure that it is equipped to respond to significant seismic and climate change resilience challenges.

Te Ngākau Civic Square Precinct has long established historical and cultural associations for the mana whenua of Whanganui a Tara (Wellington), Taranaki Whānui and Ngati Toa Rangatira. Consequently, it is important that activities within the precinct recognise mana whenua as kaitiaki, alongside their relationship with the land. Active engagement with mana whenua will assist in ensuring the mouri/mauri of this area of significance to mana whenua is not diminished through any potential adverse effects created by activities and development within the precinct.

The Land Use Activities Rules for the City Centre Zone apply to the Te Ngākau Civic Square Precinct, with the Building and Structure Activity Rules and Standards for the City Centre Zone also applicable in addition to any precinct specific rules and standards identified in the plan.

Where there is any conflict between City Centre Zone and precinct specific provisions, the precinct provisions prevail.

#### **Other relevant District Plan provisions**

There may be a number of provisions that apply to an activity, building, structure or site. Resource consent may therefore be required under rules in this chapter as well as other chapters. Unless specifically stated in a rule, resource consent is required under each relevant rule. The steps to determine the status of an activity are set out in the General Approach chapter.

	Objectives			
	City	Centre Zon	ie	
ISPP		CCZ-O1	Purpose	
			The City Centre Zone continues to be the primary commercial and employment centre servicing Wellington and the wider region, supported by residential and a diverse mix of other compatible activities that reflect its role and function in the hierarchy of centres.	
ISPP		CCZ-O2	Accommodating growth	
			<ul> <li>The City Centre Zone plays a significant role in accommodating residential, business and supporting community service growth, and has sufficient serviced development capacity and additional infrastructure to meet its short, medium and long term residential and business growth needs, including: <ol> <li>A choice variety of building type, size, affordability and distribution, including forms of medium and high-density housing;</li> <li>Convenient access to active and public transport activity options;</li> <li>Efficient, well integrated and strategic use of available development sites; and</li> <li>Convenient access to a range of open space, including green space, and supporting commercial activity and community facility options.</li> </ol> </li> </ul>	
ISPP		CCZ-O3	Urban form and scale	
			The scale and form of development in the City Centre Zone reflects its purpose as Wellington's primary commercial and employment centre, with the highest and most intensive form of development concentrated in the zone relative to other parts of the city.	

ISPP	CCZ-O4	Ahi Kā
		Taranaki Whānui and Ngāti Toa Rangatira are acknowledged as the mana whenua of Te Whanganui ā Tara (Wellington) and their cultural associations, and landowner and development interests are recognised in planning and developing the City Centre Zone.
ISPP	CCZ-O5	Amenity and design
		Development in the City Centre Zone positively contributes to creating a high quality, well-functioning urban environment, including:
		<ol> <li>Reinforcing the City Centre Zone's distinctive sense of place;</li> <li>Providing a quality and level of public and private amenity in the City Centre Zone that evolves and positively responds to anticipated growth and the diverse and changing needs of residents, businesses and visitors;</li> <li>Maintaining and enhancing the amenity and safety of public space;</li> <li>Contributing to the general amenity of neighbouring residential areas while achieving the anticipated planned urban form of the City Centre Zone;</li> <li>Producing a resilient urban environment that effectively adapts and responds to natural hazard risks and the effects of climate change;</li> <li>Protecting current areas of open space, including green space, and providing greater choice of space for residents, workers and visitors to enjoy, recreate and shelter from the weather; and</li> <li>Acknowledging and sensitively responding to adjoining heritage buildings, heritage areas and areas and sites of significance to Māori.</li> </ol>
ISPP	CCZ-O6	Development near rapid transit
		Activities and development near existing and planned rapid transit stops:
		<ol> <li>Are located to enable convenient access by local residents, workers and visitors, particularly around transport hubs;</li> <li>Are of sufficient residential scale and intensity to support a frequent and rapid transit network and associated mixed use development; and</li> <li>Provide vibrant, attractive and easily accessible public space.</li> </ol>
ISPP	CCZ-07	Managing adverse effects
		Adverse effects of activities and development in the City Centre Zone are managed effectively both:

		<ol> <li>Within the City Centre Zone; and</li> <li>At interfaces with:         <ul> <li>At eritage buildings, heritage structures and heritage areas;</li> <li>Scheduled sites and areas of significance to Māori;</li> <li>Identified public spaces;</li> <li>Identified pedestrian streets;</li> <li>Residential Zoned areas;</li> <li>Open Space and Recreation Zoned areas; and</li> <li>The Waterfront Zone.</li> </ul> </li> </ol>
Tel	Ngakau Civi	c Square Precinct
ISPP	CCZ- PREC <mark>01</mark> -01	Purpose
		Te Ngākau Civic Square Precinct is a vibrant, safe, resilient, connected and inclusive environment supported by a range of activities that complement its primary civic function.
ISPP	CCZ- PREC <u>01</u> -O2	Built form
		The scale, form and positioning of development within the Te Ngākau Civic Square Precinct:
		<ol> <li>Respects and reinforces the distinctive form and scale of existing associated historic heritage buildings, architecture and public space;</li> <li>Integrates mana whenua values into the design;</li> <li>Frames the square, <u>where relevant;</u></li> <li>Ensures a high degree of sunlight access is achieved within the precinct public spaces in the precinct;</li> <li>Provides multiple connections which enable people to conveniently move between the city centre and the waterfront;-and</li> <li>Is sustainable and resilient; and</li> <li>Provides for green spaces, where possible.</li> </ol>
ISPP	CCZ- PREC <u>01</u> -O3	Integration with the City Centre, Waterfront and wider transport network
		Safe and accessible pedestrian linkages through the Te Ngākau Civic Square Precinct, and to and from other parts of the city centre and waterfront, are maintained and enhanced.
Pol	icies	
City	/ Centre Zon	e
P1 Sch1	CCZ-P1	Enabled activities

		Enable a range and diversity of activities that support the purpose and ongoing viability of the City Centre Zone and enhances its vibrancy and amenity, including:
		<ol> <li>Commercial activities;</li> <li>Residential activities, except located;         <ul> <li>Above ground level; or</li> <li>At ground level aAlong any street not subject to active frontage and/or verandah coverage requirements.;</li> <li>On any site subject to an identified natural hazard risk;</li> </ul> </li> <li>Community facilities;</li> <li>Community facilities;</li> <li>Educational facilities;</li> <li>Arts, culture and entertainment activities;</li> <li>Emergency service facilities;</li> <li>Community corrections activities;</li> <li>Public transport activities;</li> <li>Visitor accommodation;</li> <li>Recreation activities;</li> <li>Parliamentary activities;</li> <li>Government activities; and</li> <li>Civic activities.</li> </ol>
P1 Sch1	CCZ-P2	Potentially incompatible activities
		Only allow activities that are potentially incompatible with the purpose of the City Centre Zone, where they will not have an adverse effect on its vitality, vibrancy, and amenity, resilience and accessibility. Potentially incompatible activities include:
		<ol> <li>Industrial activities;</li> <li>Yard-based retail activities;</li> <li>Carparking at ground level;</li> <li>Demolition of buildings that results in the creation of vacant land; and</li> <li>Ground floor residential activities on streets identified as requiring either an active frontage or verandah coverage and sites subject to an identified hazard risk.</li> </ol>
P1 Sch1	CCZ-P3	Heavy industrial activities
		Avoid heavy industrial activities from locating in the City Centre Zone.
ISPP	CCZ-P4	Housing choice
		Enable high density, good quality residential development that:

Image: SPP       1. Contributes towards accommodating anticipated growth in the city; a         2. Offere Contributes to a range of housing price, type, size and tenure is accessible to people of all ages, lifestyles, cultures, impairments a abilities.         ISPP       CCZ-P5         Urban form and scale         Recognise the benefits of intensification by:         1. Enabling greater overall height and scale of development to occur in City Centre Zone relative to other centres; and         2. Requiring the available development capacity of land within the zone be efficiently optimised.	that nd
CC2-P5       Orban form and scale         Recognise the benefits of intensification by:         1. Enabling greater overall height and scale of development to occur in City Centre Zone relative to other centres; and         2. Requiring the available development capacity of land within the zone	the
<ol> <li>Enabling greater overall height and scale of development to occur in City Centre Zone relative to other centres; and</li> <li>Requiring the available development capacity of land within the zone</li> </ol>	the
	to
CCZ-P6 Adaptive use	
Encourage new development and redevelopment in the City Centre Zone is sustainable, resilient and adaptable to change in use over time, includin enabling:	
<ol> <li>Sufficient flexibility for ground floor space to be used and converted range of activities; and</li> <li>Residential activities at ground floor level along streets that are not subject to active frontage and/or verandah coverage requirements a sites free of any identified natural hazard risk.</li> </ol>	
P1 Sch1 CCZ-P7 Ahi Kā	
Recognise and enable Taranaki Whānui and Ngāti Toa Rangatira cultural associations and landowner and development interests in the City Centre Zone by:	
<ol> <li>Providing for the development of papakāinga, kaumātua housing and affordable Māori housing on their landholdings;</li> <li>Managing new development adjoining scheduled sites of significance Māori; and</li> <li>Collaborating on the design and incorporation of traditional cultural elements into public space within the zone.</li> </ol>	
ISPP CCZ-P8 Sense of place	

		<ul> <li>Provide for good quality new development and supporting public space that reinforces the City Centre's identity and unique sense of place at a city scale, including its:</li> <li>1. Surrounding topography and harbour setting;</li> <li>2. Rich Māori and tauiwi/non-Māori history;</li> <li>3. Compact, walkable city structure;</li> <li>4. Diversified and vibrant mix of activities;</li> <li>5. Visually prominent buildings and variety of architectural styles; and</li> <li>6. Diversity of accessible, well designed civic and public space.</li> </ul>
ISPP	CCZ-P9	Quality design outcomes
		<ul> <li>Require new development, and alterations and additions to existing development, at a site scale to positively contribute to the sense of place and distinctive form, quality and amenity of the City Centre Zone by:</li> <li><b>1.</b> Meeting the requirements of the Centres and Mixed Use Design Guide as relevant;</li> <li><b>24.</b>Recognising the benefits of well-designed, comprehensive development, including the extent to which the development: <ul> <li>a. Acte as a catalyst for future change by reflecting Reflects the nature and scale of the development proposed enabled within the zone and in the vicinity and responds to the evolving, more intensive identity of the neighbourhood;</li> <li>b. Optimises the development capacity of the land, particularly including sites that are:-large, narrow, vacant or ground level parking areas;</li> <li>i. Large; or</li> <li>ii. Narrow; or</li> <li>iii. Vacant; or</li> <li>iv. Ground level parking areas;</li> </ul> </li> <li>c. Provides for the increased levels of residential accommodation anticipated; and</li> <li>d. Provides for a range of supporting business, open space and community facilities; and</li> <li>e. Is accessible for emergency service vehicles; and</li> <li>f. Ensuring that development, where relevant:</li> <li>a. Responds to the site context, particularly where it is located adjacent to:     <ul> <li>i. A scheduled site of significance to Māori;</li> </ul> </li> </ul>

	ii. A heritage building, heritage structure or heritage area;
	iii. An identified character precinct;
	iv. A listed public space;
	v. Identified pedestrian streets;
	vi. Residential zones;
	vii. Open space zones; and
	viii. The Waterfront Zone;
	b. Responds to the pedestrian scale of narrower streets;
	<ul> <li>Responds to any identified significant natural hazard risks and climate change effects, including the strengthening and adaptive reuse of existing buildings;</li> </ul>
	d. Provides a safe and comfortable pedestrian environment;
	<ul> <li>Enhances the quality of the streetscape and the private/public interface;</li> </ul>
	<ul> <li>f. Integrates with existing and planned active and public transport activity movement networks, including planned rapid transit stops; and</li> </ul>
	g. Allows sufficient flexibility for ground floor space to be converted t a range of activities, including residential along streets that are no subject to active frontage and/or verandah coverage requirements and sites free of any identified natural hazard risk.
CCZ-P10	On-site residential amenity
	Achieve a high standard of amenity for residential activities that reflects and responds to the evolving, higher density scale of development anticipated in the City Centre Zone, including:
	<ol> <li>Providing residents with access to an adequate outlook; and</li> <li>Ensuring <u>convenient</u> access to <u>convenient outdoor space</u>, including private <u>and/or shared</u> communal areas <u>of outdoor space</u>;-</li> <li>Meeting the requirements of the Residential Design Guide, as relevan and</li> <li>Providing residents with adequate internal living space.</li> </ol>
CCZ-P11	City outcomes contribution
	Require over and under height, large-scale residential, non-residential and comprehensive developments over CCZ-S1 height thresholds and under

ISPP

		<u>CCZ-S4 minimum building heights</u> in the City Centre Zone to deliver City Outcomes Contributions as detailed and scored in <u>Appendix 16</u> the Centres and Mixed Use Design Guide guideline G107, including <u>satisfying through at</u> least two of the following outcomes <u>either</u> :
		<ol> <li>Positively contributing to public space provision and the amenity of the site and surrounding area; and/or</li> </ol>
		<ol> <li>Enabling universal accessibility within buildings ease of access for people of all ages and mobility/disability; and/or</li> </ol>
		2.3. Incorporating a level of building performance that leads to reduced carbon emissions and increased climate change earthquake resilience; and/or
		3. <u>4.</u> Incorporating construction materials that increase the lifespan and resilience of the development and reduce ongoing maintenance costs; and/or
		4. <u>5.</u> Incorporating assisted housing into the development; where this is provided, legal instruments are required to ensure that it remains assisted housing for at least 25 years.; and/or
		5. Enabling ease of access for people of all ages and mobility.
ISPP	CCZ-P12	Managing adverse effects
		Recognise the evolving, higher density development context anticipated <u>enabled</u> in the City Centre Zone, while managing any associated adverse effects including:
		<ol> <li>The impacts of building dominance and the height and scale relationship;</li> <li>Building mass effects, including the amount of light and outlook around buildings; and</li> <li>The impacts on sunlight access to identified public space; and</li> <li>The impacts of related construction activity on the transport network and pedestrian linkages.</li> </ol>
	CCZ-PX	Retirement villages
		<ul> <li>Provide for retirement villages where it can be demonstrated that the development:</li> <li>1. Meetsing the requirements of the Residential Design Guide, as relevant;</li> <li>2. Includes outdoor space that is sufficient to cater for the needs of the residents of the-village residents;</li> <li>3. Provides an adequate and appropriately located area on site for the management, storage and collection of all of the solid waste, recycling and organic waste potentially generated by the development;</li> <li>4. Is able to be adequately serviced by three waters infrastructure or can address any constraints on the site; and</li> </ul>

		5. <u>Is of an intensity, scale and design that is consistent with the amenity</u> values anticipated in for the Zone.
Те	Ngākau Civi	c Square Precinct
P1 Sch1	CCZ- PREC01-P1	Activities
		Enable a range of activities and temporary events that support the civic purpose and ongoing vibrancy and amenity of Te Ngākau Civic Square Precinct, including:
		<ol> <li>Civic functions;</li> <li>Arts, culture and entertainment activities;</li> <li>Recreation activities;</li> <li>Community facilities;</li> <li>Commercial activities; and</li> <li>Residential activities above ground level to encourage activation of the precinct both day and night.</li> </ol>
ISPP	CCZ- PREC01-P2	Use and development of the Te Ngākau Civic Square Precinct
		Provide for the staged redevelopment of the Te Ngākau Civic Square Precinct, and its connections with the transport network, wider City Centre Zone and Waterfront Zone, including:
		<ol> <li>Enhancing the public function, pedestrian network and public spaces within the precinct;</li> <li>Maintaining its special character by managing the form, scale and intensity of development;</li> <li>Ensuring land use activities and development are planned and designed in a co-ordinated, site-responsive, comprehensive and integrated manner; and</li> <li>Enabling new development and a range of activities that are integrated and compatible with existing buildings and land uses in the precinct.</li> </ol>
ISPP	CCZ- PREC01-P3	Access, connections and open space
		Require that the use and development of the Te Ngākau Civic Square Precinct:
		<ol> <li>Provides attractive, safe, efficient, and convenient connections to existing and planned transport networks;</li> <li>Promotes existing and planned pedestrian access and connections between the precinct, the waterfront and the city centre; and</li> <li>Provides well-designed, safe and accessible public and green open space, within the precinct.</li> </ol>

ISPP	CCZ- PREC01-P4	Amenity and design
		Require development within the Te Ngākau Civic Square Precinct to contribute positively to its visual quality, amenity, interest and public safety by:
		<ol> <li>Meeting the requirements of the Centres and Mixed Use Design Guide and the Residential Design Guide where possible;</li> <li>2. Requiring buildings and public spaces to incorporate high-quality visual and architectural design based on factors such as the bulk, form, scale, portion, location and detailing of the building/structure or building additions/alterations;</li> <li>2. S. Ensuring building design respects the form, scale and style of heritage buildings and wider architectural elements within the precinct, including interface treatment with the Town Hall;</li> <li>3. 4. Responding to any identified significant natural hazard risks and climate change effects, including the strengthening and adaptive reuse of existing buildings and requiring new buildings to be resiliently designed;</li> <li>4. 5. Recognising mana whenua cultural values in the design of public spaces;</li> <li>5. 6. Ensuring new development will result in overall improvements to the function, access and safety of the precinct, including enabling universal access and opportunities for formal and informal surveillance;</li> <li>6. 7. Providing a active edge along a portion of each building that addresses both the internal precinct area and externally towards adjoining streets;</li> <li>7. 8. Providing a comfortable micro-climate for precinct users;</li> <li>8. 9. Positioning new development and managing building height and form to ensure a high degree of sunlight access is achieved within the square;</li> <li>4. 10. Retaining and enhancing strong visual and physical connections between the square, the waterfront, the city centre and streets surrounding the precinct; and</li> <li>40. 11. Incorporating public amenities, public artwork and means to assist wayfinding, including provision of interpretation and references to the area's cultural and historic heritage associations.</li> </ol>

iv. Are not visible from public spaces; and v. ii. Comply with standards <u>CCZ-S1</u> , CCZ-S2, CCZ-S3, CCZ-S4, CCZ-S5, CCZ-S6,
$\frac{1}{10}$ CCZ-S7 <sub>1</sub> and CCZ-S8 and CCZ-SX (Fences and standalone walls).
2. Activity status: Restricted Discretionary
Where:
a. Compliance with any of the requirements of CCZ-R19.1 cannot be achieved.
Matters of discretion are:
1. The matters in CCZ-P4, CCZ-P5, CCZ-P6, CCZ-P7, CCZ-P8 CCZ-P9, CCZ-P10,
CCZ-P11 and CCZ-P12; 2. The extent and effect of non-compliance with CCZ-S1, CCZ-S2, CCZ-S3, CCZ-S4,
CCZ-S5, CCZ-S6, CCZ-S7, CCZ-S8, CCZ-S9, CCZ-S10, CCZ-S11, CCZ-S12 and
CCZ-S13, and CCZ-S13, CCZ-SX (Fences and standalone walls), CCZ-SX (Boundar
<ul> <li><u>setback from a rail corridor</u>) and CCZ-SX (Sites adjoining residential zones); and</li> <li>Construction impacts on the transport network; and</li> </ul>
4. The Centres and Mixed-Use Design Guide, including guideline G107 - City Outcomes
Contribution as required in Appendix 16 for any building that exceeds the maximum <u>C(</u> S1 height threshold requirement or is under the minimum height limit. and either
comprises 50 or more residential units or is a non-residential building; and
5. The Residential Design Guide.
Notification status:
An application for resource consent made in respect of rule CCZ-R19.2.a that complies with
all of the identified standards in CCZ-R19.2.a.2 is precluded from being either publicly or liminotified.
An application for resource consent made in respect of rule CCZ-R19.2.a which results in non-compliance with CCZ-S5, CCZ-S9, and CCZ-S10, CCZ-S11, CCZ-S12 and CCZ-S13 is precluded from being either publicly or limited notified.
An application for resource consent made in respect of rule CCZ-R19.2.a which results in
non-compliance with <u>CCZ-S1</u> , CCZ-S2, CCZ-S3, CCZ-S4, CCZ-S6, CCZ-S7, and CCZ-S8,
CCZ-S11, CCZ-S12 and CCZ-S13 is precluded from being publicly notified.
3. Activity status: <b>Restricted Discretionary</b>
Where:
a. In addition to the requirements in CCZ-R19.2, tThe relevant City Outcome Contribution Height Threshold set out in CCZ-S1 is exceeded.
Matters of discretion are:
1. The matters in CCZ-P11; and
2. The application and implementation of the City Outcome Contribution set out in
Appendix 16.

-1

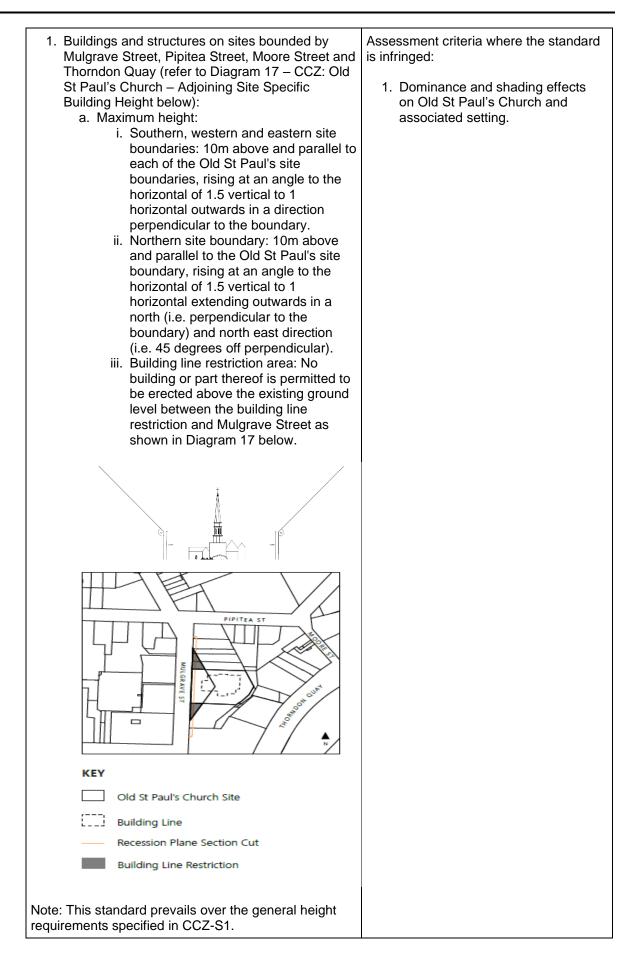

2. Activity status: Restricted Discretionary
Where:
<ul> <li>Compliance with any of the requirements of CCZ-R20.1, excluding <u>CCZ-S1 and</u> CCZ-S4, cannot be achieved.</li> </ul>
Matters of discretion are:
<ol> <li>The matters in CCZ-P4, CCZ-P5, CCZ-P6, CCZ-P7, CCZ-P8, CCZ-P9, CCZ-P10, CCZ-P14 and CCZ-P12;</li> <li>The extent and effect of non-compliance with CCZ-S1, CCZ-S2, CCZ-S3, CCZ-S5, CCZ-S6, CCZ-S7, CCZ-S8, CCZ-S9, CCZ-S10, CCZ-S11, CCZ-S12, and CCZ-S13, CCZ-SX (Fences and standalone walls), CCZ-SX (Boundary setback from a rail corridor) and CCZ-SX (Sites adjoining residential zones);</li> </ol>
<ol> <li>3. The Centres and Mixed-Use Design Guide, including guideline G107 - City Outcomes Contribution <u>as required in Appendix 16</u> for any building that exceeds the maximum <u>CCZ-S1</u> height threshold requirement <u>or is under the minimum height limit in CCZ-S4</u> and either comprises 50 or more residential units or is a non-residential building;</li> <li>4. The Residential Design Guide;</li> <li>4. The extent and effect of any identifiable site constraints;</li> </ol>
<ol> <li>The impacts of related construction activities on the transport network; and</li> <li>The availability and connection to existing or planned three waters infrastructure.</li> </ol>
Notification status:
An application for resource consent made in respect of rule CCZ-R20.2.a which complies with all of the identified standards in CCZ-R20.2.2 is precluded from being either publicly or limited notified.
An application for resource consent made in respect of rule R20.2.a which results in non-compliance with CCZ-S5, CCZ-S9, and CCZ-S10, CCZ-S11, CCZ-S12 and CCZ-S13 is precluded from being either publicly or limited notified.
An application for resource consent made in respect of rule R20.2.a which results from non-compliance with CCZ-S1, CCZ-S2, CCZ-S3, CCZ-S6, CCZ-S7, and CCZ-S8, CCZ-S11, CCZ-S12 and CCZ-S13 is precluded from being publicly notified.
3. Activity status: Restricted Discretionary
Where:
a. In addition to the requirements in CCZ-R20.2, tThe relevant City Outcome Contribution Height Threshold set out in CCZ-S1 is exceeded.
Matters of discretion are:
3.1. The matters in CCZ-P11; and 4.2. The application and implementation of the City Outcome Contribution set out in Appendix 16.
Notification status:
An application for resource consent made in respect of rule CCZ- R20.3 is precluded from being either publicly or limited notified, except where the application does not satisfy the outcome threshold test in give effect to CCZ-P11 City Outcomes Contribution.
An application for resource consent made in respect of rule CCZ-R20.3 that does not give offect to CCZ-P11 City Outcomes Contribution must be publicly notified.

Notification status: An application for resource consent made in respect of rule CCZ-PREC01-R8.2 that does not satisfy the outcome threshold test in give effect to CCZ-P11 City Outcomes Contribution must be publicly notified. #### **Methods**

CCZ-M1 Urban Design Panel

Subject to obtaining relevant approvals and supporting funding Council will seek to establish and facilitate an independent, non-statutory Urban Design Panel to inform the urban design assessments of in-relevant policies and matters of discretion that apply to significant resource consent applications as required.

### **Definitions:**

	1
CIVIC ACTIVITIES	Means activities or services provided by, or on behalf of, Wellington City Council or a council-controlled organisation to promote the social, economic, environmental and cultural well- being of Wellington's communities.
GOVERNMENT ACTIVITIES	Means activities undertaken by an organisation that is part of the state sector, including: a. The public service;
	b. Other departments in the executive branch of government that are not part of the public service (such as the New Zealand Police, the New Zealand Defence Force, and the Parliamentary Counsel Office);
	c. <u>Statutory entities, which comprise Crown agents,</u> <u>autonomous Crown entities, and independent Crown</u> <u>entities;</u>
	<ul> <li>d. <u>Crown entity companies and subsidiaries; and</u></li> <li>e. <u>The Reserve Bank of New Zealand.</u></li> </ul>
PARLIAMENTARY ACTIVITIES	<ul> <li>Means activities related or ancillary to, the business or functioning of Parliament, including:</li> <li>a. Offices of Parliament;</li> <li>b. Administrative and support services to the House of Representatives and members of Parliament;</li> <li>c. Management of the Crown's buildings within the parliamentary area; and</li> <li>d. Parliament tours, education and information convices to the tours.</li> </ul>
	d. <u>Parliament tours, education and information services to</u> the public.
